According to the announcement made by the Chesapeake & Ohio, Norfolk & Western and Southern Railways, it was understood that the rates to be used to the seaboard would be the lowest rates quoted via any route at time of shipment.

The following resolution was also discussed, but vote

thereon was deferred, in view of the disposition of the preceding resolution:

"Resolved, That whatever differential is decided upon at this meeting to apply on flour from East St. Louis and St. Louis via the Gulf of Mexico ports versus Baltimore, Newport News or Norfolk, the same differential be recognized on all other classes of traffic.

In view of the position of the C. & O. N. W. and Southern Ry.'s as stated in the announcement shown above, the sub-committee was unable to reach an acceptable understanding to all, and it was decided to adjourn and report result to the General Meeting.

Immediately after the adjournment of the sub-committee, the General Meeting convened, and after the report of the sub-committee, as set forth above, being presented and the subject further discussed, the following resolution was individually adopted by roads interested:

"Resolved, That the lines leading east and south from St. Louis and East St. Louis, and through those points, individually state that, effective July 14, 1902, they will maintain the authorized all-rail rates on all export traffic, with the understanding that the differentials via the Gulf ports of Mobile, Pensacola and New Orleans shall be, as an experiment on export flour for 60 days, not to exceed 2c per 100 pounds; export flour rates to be 13½ cents per 100 pounds East St. Louis to Newport News and Norfolk to all foreign ports except Glasgow, on which port the roads to Newport News and Norfolk will maintain the authorized all-rail tariff rates in effect to Baltimore."

It is further understood that the St. Louis lines will at once take up with the lines in interest the export rates on packing-house products, flour and other export traffic from Kansas City and other Missouri River points to foreign ports, for the purpose of having an understanding as to what the relative rates shall be via the respective Gulf and Atlantic ports.

It is further understood that the St. Louis lines shall meet at the earliest possible date to confer as to basis of rates and differentials as applying on all classes and commodities for export via the Virginia and Gulf ports, making report of such conference to the executives of all roads in interest, and also advise the Chairman of the Central Freight Asociation of their action."

Adjourned.

J. F. Tucker, Chairman.

Chicago, July 3, 1902.

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, July 9, 1902.
Please refer to file 8867.

Mr. R. M. Fraser,
Chairman St. Louis Eastbound Freight Committee,
St. Louis, Mo.

Dear Sir: Referring to my letter of Saturday: It is quite important that the meetings arranged for by the conference held at Chicago last Wednesday should be convened at the earliest possible date.

(1) That the St. Louis initial lines should consider a basis of rates and differentials as applying on all classes and commodities for export via the Virginia and Gulf ports.

(2) That the St. Louis lines have a conference with the initial roads from Kansas City and other Missouri River points to consider the matter of export traffic, and endeavor to arrange a harmonious understanding of what the relative rates shall be via the respective Gulf and the different Atlantic ports.

The recommendation or report of the two conference meetings as above detailed to be sent the executives of all

roads in interest, and also to this office for submission to the lines in interest for their approval.

Yours very truly,
J. F. Tucker,
Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Mr. R. M. Fraser,
Chairman St. Louis Eastbound Freight Committee,
St. Louis, Mo.

Dear Sir: I am in receipt of yours of the 9th, your 4122-F. I wrote you July 5th fully in relation to this matter, and also wrote another letter yesterday. Copy of my letter of July 5th is herewith enclosed and also copy of my letter to Chairman Mahoney of the same date, also enclose copy of the proceedings of the meeting. I wrote the envelope myself and marked it "Personal," and it is strange it did not reach you.

The last resolution shown in the proceedings, which was adopted unanimously, supersedes everything else, and shows the lines for action.

Yours very truly,
J. F. Tucker,
Chairman."

Enclosure.

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, July 5, 1902.

Copy

Mr. R. M. Fraser,
Chairman St. Louis Eastbound Freight Committee,
St. Louis, Mo.

Dear Sir: I enclose you herewith copy of proceedings of

a conference meeting of representatives of the initial lines leading eastwardly and to the Gulf of Mexico, from St. Louis, and including the C. & O., Southern and N. & W. Roads.

The last resolution, which was unanimously individually stated by all representatives present what the roads they represented would do, contemplates two conference meetings. The latter provides that the St. Louis lines shall meet at the earliest possible date and endeavor to arrange a basis of rates and differentials on all classes and commodities for export via the Virginia and Gulf ports, making report of such conference to the executives of all roads in interest, and also advise this office of their action. Will you please arrange for such a meeting at the earliest possible date.

In relation to the meeting of the lines leading from Kansas City and other Missouri River points to the Gulf and eastwardly, I enclose you herewith copy of a letter written to Chairman Mahoney of the Western Trunk Line Committee.

Let me add that this is quite an important matter and that due diligence should be taken to have these meetings convene at the earliest possible date.

Yours very truly,
(Signed) J. F. Tucker,
Chairman."

Copy. Chicago, July 5, 1902.

Please refer to file 8867.

Mr. J. V. Mahoney,
Chairman Western Trunk Line Committee,
Chicago, Ill.

Dear Sir: I enclose you herewith proceedings of a conference meeting of representatives of initial lines leading

eastwardly and to the Gulf from Kansas City and St. Louis, including the Chesapeake & Ohio, Southern and Norfolk & Western Roads, held here Wednesday, July 2nd.

This meeting was called by the action of a meeting of the executives, as the proceedings will show, and the final resolution that was adopted was the (unanimous individual) statement of the representatives of all roads present, and you will observe contemplates two meetings:

(1) The St. Louis lines to take up with the lines in interest export rates from Kansas City and other Missouri River points to foreign ports, both via the Gulf and via Atlantic seaboard.

(2) The St. Louis lines shall meet and confer as to a basis of rates and differentials from St. Louis.

Will you please advise me what date will suit the convenience of the initial lines from the Missouri River points to meet the St. Louis Committee at St. Louis, and upon deciding the date kindly advise this office or Chairman R. M. Fraser of the St. Louis Committee, Union Depot, St. Louis (the latter more preferable as I shall probably be absent) so that arrangements for a prompt conference can be perfected. Yours very truly,

(Signed) J. F. Tucker,
Chairman."

Mr. J. F. Tucker, Chairman, C. F. A., 4163.
Chicago, Ill.

Dear Sir: I send you by U. S. Express to-day, 15 copies proceedings of meeting 31st ult., Western and Eastern Lines as provided for at meeting Chicago, July 2nd.

The 15 copies are sent you for the *Executives*, if you deem it necessary to send copy to them. I have to-day mailed a copy to each of the Traffic Officials named on the attached list and have sent 15 copies to Mr. J. V. Mahoney, for distribution by him among the representatives of the Western Trunk Lines Committee, as I have not mailed any to other than the parties named on attached list.

In reply to yours 1st, file 8867, it is not possible for me to give you any information on the subject other than stated in the proceedings, for the reason that the subject was practically handled by the sub-committees and I was not present during their discussions. Mr. Ohlson, Sec'y, from Mr. Mahoney's office was present during the Gen'l Meeting and meeting of the Western Sub-Committee, also Joint Meeting of the two Committees taking stenographic notes of same and you can possibly get from Mr. Mahoney a copy of his notes.

Regretting that I am unable to give you any further information, I am, Yours respectfully,

Chairman.

P. S.—Take notice that in the copy mailed you last night,

figures opposite Foreign Ports named in Western Trunk Line Committee Report, Section 7, were omitted. Figures have been inserted in the copies forwarded to-day."

Chicago, August 4, 1902.
Please refer to file 8867.

Mr. R. M. Fraser,
Chairman, St. Louis Eastbound Freight Committee,
St. Louis, Mo.

Dear Sir: I have your favor of the 2nd, your file 4163, and undoubtedly the fifteen copies of proceedings of the meeting July 31st will come by express to-day.

It is my intention to send them to such of the chief freight traffic officials as you have not already, as per the list which you so kindly sent me.

Have asked Chairman Mahoney of the Western Trunk Line Committee to kindly have his stenographer write off his notes, as I think it is quite important to have them so that this office's file of papers may be complete.

Yours very truly,
J. F. Tucker, Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, Aug. 5, 1902.
Please refer to File 8867.

Mr. R. M. Fraser,
Chairman, St. Louis Eastbound Freight Committee,
St. Louis, Mo.

Dear Sir: Referring to your telegram of the 4th. Needing as this office did additional copies of the conference meeting's proceedings of July 31st, and as you have run out of them, I send by express 15 copies.

Yours very truly,
J. F. Tucker, Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, August 5, 1902.
Please refer to File 8867.

Mr. R. M. Fraser,
Chairman, St. Louis Eastbound Freight Committee,
St. Louis, Mo.

Dear Sir: Refering to your favor of the 2nd, your File 4163:

I asked Mr. Mahoney if he would let his stenographer copy off the notes of the conference meeting at St. Louis, and he replied under date of the 2nd:

"While this office was represented at that meeting by Mr. Ohlson, he did not make a verbatim copy of the report, neither was he the official secretary of the meeting. I would therefore respectfully refer you to Mr. R. M. Fraser, Chairman, who is doubtless in position to give you the information you desire."

I mean to write Mr. Mahoney, asking him to have his stenographer carefully preserve the notes so that should we need them in the future they can be obtained, for he could dictate to one of our stenographers and in this way we could get such information from him as we needed.

Yours very truly,

J. F. Tucker, Chairman."

"Aug. 6, 1902.
4163.

Mr. J. F. Tucker, Chairman, Central Freight Association, Chicago, Ill.

Dear Sir:—Referring to yours 1st file 8867 and my reply 2nd also yours 5th, regarding additional information to what is shown in the Proceedings of Conference meeting eastern and western roads at Southern Hotel St. Louis July 31st. I attach for your information copy of letter 4th file

60265 form Mr. S. T. McLaughlin, which explains itself. Hoping this will be of interest to you, I am,

Yours respectfully,

Chairman."

P. S:—Please accept thanks for the 15 copies proceedings. The weather was too hot to permit of more than 75 copies being printed from our wax sheets."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, August 7, 1902.

Please refer to file 8867.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—I am in receipt of your letter of the 6th with enclosure, your File 4163.

Chairman Mahoney writes me this morning that he will have his stenographer keep the notes of the conference meeting at St. Louis, and that any time we may ask him to permit us to copy them his stenographer can dictate to a stenogarpher we might send, so it seems that is all that is necessary.

My understanding of the proceedings of the conference meeting at St. Louis was that the main topic discussed was export flour, but the notice given me by the Chesapeake & Ohio, Norfolk & Western and Asheville Line(which I presume means the Southern Railway) does not limit their advice that they will meet the competition of the Gulf on any particular export flour freight.

Insofar as grain is concerned, there is no territory that meets the competition that Chicago does during the season of navigation. The initial roads take but little grain out of here, believing that should they undertake to follow the lake-and-rail rates on grain, such rates having a sympathetic

influence on other traffic would make us lose a dollar to save a nickel.

I am informed there is a 4 cent rate on grain from East St. Louis to Louisville and then a 9½ cent rate from the Ohio River north bank and 8½ cents from Louisville, so the combination of grain rates from East St. Louis, a 116% point, is but 12½ cents.

I presume you are aware that the Kanawha Despatch having been taking large quantities of export wheat to the Virginia cities lately at 13 cents. Is that wheat included in your staticics?

Yours very ruly,

J. F. Tucker,
Chairman."

"August 8, 1902.
4163.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—Yours 7th file 8867. I am unable to give you any information other than proceedings of meeting July 31st and G. F. A. McLaughlin's letter with mine 6th.

It is a fact that there is a rate of 4 cts. for 100 lbs. on Grain in effect E. St. Louis to Louisville as stated in my letter July 29th in answer to your wire file 9493 and previously.

If you can inform me on what basis of theory the rate of 8½ and 9½ cts. is made from Louisville to Seaboard I would be pleased to know.

In answer to your inquiry regarding the K. D. etc. Wheat, yes sir, see our Commodity report dated July 23 and previous issues, report for entire month of July will be mailed in a few days.

Respectfully,

Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, August 11, 1902.

Please refer to file 8867.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—I am in receipt of your favor of the 8th, your file 4163.

As you were Chairman of the meeting July 31st, thought you might be able to advise whether the chief subject of discussion was not export flour. Mr. Fitzgerald so informed me, but I thought I would like to have it verified.

I cannot inform you on what basis or theory the rate of 8½ cents and 9½ cents is made from Louisville to the Virginia cities. General Freight Agent McLaughlin of the B. & O. S. W., under date of the 6th, his file 61046, stated:

"While it is true that the local rate on grain from Louisville to Newport News and Norfork for export is 10 cents per 100 pounds, by reason of the fact that from Louisville to all Virginia Cities, the Chesapeake & Ohio, Louisville & Nashville, Southern and Norfolk & Western hold the Cincinnati basis from Louisville to these points, i. e., 87% of the rate from Chicago to New York. Still, nevertheless, they would not apply this local rate of 10 cents on grain which may come from East St. Louis or other points north of the Ohio River. On such traffic, these roads have in effect a proportional tariff of 9½ cents per 100 pounds which applies from Jeffersonville, New Albany and Louisville, there being a provision in the tariff that out of this rate ¾ cents per 100 lbs. would be allowed for transfer through the elevator. This would make the rate really 8¾ cents per 100 pounds Louisville to Newport News nad Norfolk. By adding the proportional rate of 4 cents from East St. Louis, you will see that based upon this condition a through

rate of 12¾ cents could be figured out to the Virginia cities."

I am trying to find out how these rates started. There is no authorization for them, and if they are going to make rates based on these combinations there certainly will be trouble. My understanding is, however, that the Kanawha Despatch do base their 13 cent rate on this combination. It will pull down the whole structure of grain and grain product rates if these combinations can be made—they certainly will be used if it is possible to make them.

Yours very truly,

J. F. Tucker, Chairman."

Above exhibit is marked "Complainant's Exhibit Fraser No. 791."

Complainant offers in evidence correspondence between the officials of the Central Freight Association and the St. Louis Eastbound Freight Committee, concerning special rate made by C. & A. on old Government clothing, from East St. Louis to New York, for export; being file 4266; as follows:

"Central Freight Association.

Eighth Floor Monadnock Block.

Confidential.

Chicago, February 5, 1904.

CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, February 13, 1904.

Please refer to file 11467.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—I presume you noticed in this office's I. C. C. Advice Letter No. 300, dated February 5th, that the C. & A. R'y. January 25th issued tariff on 300 tons of old government clothing, East St. Louis to New York, via the Blue Line, for export, 64 cents per 100 lbs., the traiff rate as authorized being 87 cents.

I note that the St. Louis Eastbound Freight Committee considered this subject January 8th.

Has your committee taken any cognizance of this, for seemingly it is an irregularity and should be considered by the St. Louis Eastbound Freight Committee and by them referred to the Central Committee.

Yours very truly,

J. F. Tucker, Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, February 23, 1904.

Please refer to file 11467.

Old Government Clothing, East St. Louis to New York.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Referring to my letter of the 13th: The Chicago Freight Committee have a rule that I think would be wise to follow by the St. Louis Committee, i. e., at every meeting of that Committee they have a subject at the end of the call under the heading of "Miscellaneous" and they take up under that heading all irregularities and if not set-

tled to the unanimous satisfaction of all members of the Committee they report such irregularities to the Central Committee.

It seems to me it would be wise to adopt this plan, and I would like to have you bring it before your Committee for their consideration.

Yours very truly,

J. F. Tucker, Chairman."

"Feb. 27, 1904.
4266.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—Yours 23rd, file 11467 was read at meeting 26th and after consideration, it was:

Moved, That the Chairman thank Chairman CFA. for his suggsetion and that the letter be placed on file.

Will you therefore accept through me the thanks of the Committee for the letter referred to.

Respectfully,

Chairman."

Feb. 27, 1904.
4266.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—Referring to yours 13th, file 11467. By reference to proceedings No. 71, Jan. 8th, you will see that the subject of rate on U. S. Government Clothing was considered and the roads individually decided to maintain the Official Class'n rating.

At meeting 12th, proceedings No. 75, attention was called to CFA ICC. Advice No. 300. Feb. 5th—Tariff of C. & A. Ry. naming rate 64 cents per 100 lbs. and as instructed the following letter dated 15th inst. was delivered:

Mr. R. D. Yoakum, AGFA, C. & A. Ry., City.

Dear Sir:—Referring to the proposed movement of Government Clothing, mentioned in Joint Letter Jan. 2nd from

GFA, T. H. & I. R. R. which was submitted at meeting Jan. 8th, see proceedings No. 71. In view of the above will you be so kind as to inform me the reason for action taken by C. & A. as shown in ICC. Advice No. 300, Feb. 5th, 1904. viz: making rate 64 cts. per 100 lbs., East St. Louis to New York.

Awaiting your reply, I am."

No reply having been received from C. & A., at meeting 26th, it was:

Moved, That the subject be referred to the Central Committee.

Respectfully,

Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, February 29, 1904.

Please refer to file 11467.

Mr. R. M. Fraser, Chairman, St. Louis, Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Referring to your letter of the 27th, your File 4266, in reference to the unauthorized rate on United States Government Clothing:

I will see that the matter is docketed for consideration by the Central Committee at their next meeting.

Yours very truly,

J. F. Tucker, Chairman."

Above exhibit is marked "Complainant's Exhibit Fraser No. 792."

Complainant offers in evidence correspondence between the officials of the Central Freight Association and the St. Louis Eastbound Freight Committee, in ragard to applica-

tion of the St. Louis & San Francisco R. R. for special rate on Wall Plaster; being File 4267; as follows:

"Jan. 23, 1904.
4267.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—At meeting 22nd application for reduced rate on Lime, C. L., originating west of St. Louis, Mo., was considered and it was:

Recommended, To the Central Freight Ass'n. That Information Circulars Nos. 3886 and 3944 be amended to read "Wall Plaster" instead of "Cement Plaster" also that the same rates be made to apply on *Lime*, C. L. minimum weight 40,000 lbs.

Please have necessary action taken advising result early as possible.

Respectfully,

Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Eighth Floor Monadnock Block.

Chicago, January 25, 1904.

Subject:—Proposed proportional rates on wall plaster and lime, C. L., East St. Louis, Ill. to various C. F. A. points.

Advice Letter No. J-204.

To the General Freight Agents,

Gentlemen:—Referring to C. F. A. Information No. 3886, dated December 26, 1902, as amended by Information No. 3944, dated January 7, 1903, naming proportional rates on cement plaster, C. L., from East St. Louis, Ill. to various points in Central Freight Association Territory, when shipments thereof originate west of St. Louis, Mo:

In this connection this office is in receipt of the follow-

ing from Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee:

"At meeting on the 22nd, application for reduced rates on lime, C. L., originating west of St. Louis, Mo. was considered and it was

'Recommended, To the Central Freight Association that Information Circulars Nos. 3886 and 3944 be amended to read "Wall Plaster" instead of "Cement Plaster," also that the same rates be made to apply on lime, C. L., minimum weight 40,000 lbs.'

Please have necessary action taken, advising result early as possible."

The present rates are: On Wall Plaster 83.33 percent of 6th class; on Lime 6th class.

Please note on the enclosed blank your views on this proposition, and oblige,

Yours very truly,

J. F. Tucker, Chairman."

"Central Freight Association.

Eighth Floor Monadnock Block.

Chicago, February 4, 1904.

Subject:—Disposition of applications for rates.
Advice Letter No. J-241.

To the General Freight Agents,

Gentlemen:—Referring to the following Advice Letters: No. J-195, dated January 22, 1904, proposed rates on dismantled sugar factory material, etc., Kalazamoo, Mich. to Chicago, Ill.

No. J-196, dated January 22, 1904, proposed rates on pickles, C. L., Leiters and Monterey, Ind. to Laporte, Ind. No. J-204, dated January 25, 1904, proposed proportional rates on *wall plaster and lime*, C. L., East St. Louis to various points.

After further investigation, roads interested individually

advise that it has been decided not to make effective the rates proposed in the Advice Letters above referred to.

Yours very truly,

J. F. Tucker, Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, Feby. 2, 1904.

Please refer to file 10077-H.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Referring to your favor of the 23rd ult., file 4267:

The proposition to apply on Lime, C. L., the rates in Information No. 3886 now authorized on Cement Plaster was submitted to Central Freight Association Lines by Advice Letter J-204, and there is such a large negative vote recorded upon the proposition that the same cannot be approved. It is pointed out that if Lime rates are reduced to those current on Cement Plaster it means that other producing points will ask for corresponding basis and some time ago the Ohio lines experienced considerable difficulty with the same question, and they do not desire it reopened by granting St. Louis E. B. Freight Committee's application.

Furthermore, from Ohio points the Lime rates approximate 6th class and it will be inconsistent to vote for lower rate from competitive points.

Yours truly,

J. F. Tucker, Chairman."

Feb. 9, 1904.

4267.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—Referring to my letter Jan. 23rd, file 4267,

CFA. Advice Letter J-204 and J-241, also your letter 2nd, file 10077-H, declining the Lime proposition.

What conclusion was reached on recommendation to amend Info. 3886 and 3944 to read *"Wall Plaster"* instead of "Cement Plaster."

At meeting the 3rd inst. the St. Louis-Cincinnati-Louisville Freight Committee recommended that the term "Cement Plaster" be eliminated from our publications and be made to read "Wall Plaster" and that Chairman CFA. attention be called to CFA. Info. 3886 and amendments requesting that rates be authorized, under the name of "Cement Plaster," be reissued and published as "Wall Plaster."

It was stated that the term "Cement Plaster" was coined by certain manufacturers for commercial reasons and as it is all "Wall Plaster," the elimination of the term "Cement Plaster" will obviate any confusion with "Cement" rates.

I will send copy of this letter to Mr. C. E. Fulton, Chairman, C. & O. R. Committee and trust that the recommendation may be followed by the C. F. A. and C. & O. R. Committee. The next issue of the St. Louis-Cincinnati-Louisville Frt. Com. Tariffs, now being prepared, will be in line with above.

Awaiting your reply, I am.

Yours respectfully,

Chairman."

Copy to Mr. C. E. Fulton, Secy., C. & O. R. Committee."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, February 10, 1904.

Please refer to file 10077-H.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Replying to your favor of the 9th inst., file

4267, inquiring what conclusion has been reached by Central Freight Association lines upon the recommendation of your committee that rates in Information Nos. 3886 and 3944 be authorized to apply on wall, plaster instead of on cement plaster:

Your letter of the 23rd ult. upon this subject contained two propositions—the one stated above and also another that the rate in said Information Circulars be authorized to apply on lime. The two propositions were submitted by C. F. A. Advice Letter No. J-204, and the vote upon the entire matter was in the negative. We assume, however, that many of the negative votes recorded were recorded because it was desired to apply said rates on lime. We will, therefore, submit at once for the views of Central Freight Association lines, the proposition that rates in Informations Nos. 3886 and 3944 be made to apply on wall plaster instead of cement plaster, and I possibly think it will be favorably acted upon. The result will be announced to you as promptly as possible.

Yours very truly,

J. F. Tucker, Chairman."

"Central Freight Association.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, Feb'y 18, 1904.

Please refer to file J-269.

Mr. R. M. Fraser, Chairman, St. Louis E. B. Freight Committee, St. Louis, Mo.

Dear Sir:—Referring to your favor of the 9th inst, file 4267:

The proposition that rates in Information 3886 on Cement Plaster be made to apply on "Wall Plaster" has been submitted to Central Freight Association roads and several ask why Wall Plaster rates from E. St. Louis to all C. F. A. points should not be on basis of 83.33 percent of 6th class,

as this is the basis applied at other points in C. F. A. territory, and it is suggested that E. St. Louis lines endeavor to obtain rates on that basis thereby cancelling special rates in our Information 3886 and 3944.

Will you please place the matter before your committee and advise if they favor the change?

Yours respectfully,

J. F. Tucker, Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Eighth Floor Monadnock Block.

Chicago, February 11, 1904.

Subject:—Proposed substitution of term "Wall Plaster" for "Cement Plaster" in Information Nos. 3886 and 3944, applying from East St. Louis, Ill. to various C. F. A. points. Advice Letter No. J-269.

To the General Freight Agents,

Gentlemen:—Information Nos. 3886 and 3944 authorize certain proportional rates on cement plaster, C. L., from East St. Louis, Ill. to various C. F. A. points.

The St. Louis Eastbound Freight Committee request said rates be authorized on "wall plaster" instead of "cement plaster" C. L.

This change is suggested because the term "cement plaster" was coined by certain manufacturers for commercial reasons, and also for the reason that the commodity is really *wall plaster.*

Furthermore, some confusion has arisen with reference to applying these cement plaster rates on cement, and if the rates are authorized on wall plaster it will prevent this in the future.

Please note on the enclosed blank your views on this proposition, and thus oblige,

Yours very truly,

J. F. Tucker, Chairman."

"March 5, 1904.
4267.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—Yours Feby. 18th, File J-269 was read at meeting 4th and I was instructed to advise you that the rates now published on so called Cement Plaster are proportional rates and apply on shipments originating in Texas and Oklahoma Territory, which have to pay an arbitrary rate from those points to East St. Louis, further that "Cement Plaster" is a trade or specified name which it was desired to eliminate and use the correct term in the description of the commodity, viz: "Wall Plaster."

As explained in letter Feb. 9th, your attention is also called to C. F. A. Info. 3852 and 4334 which name rates from East St. Louis *proper* on basis 83.33%.

Trusting that with this explanation the change will be made, I am,

Yours respectfully,

Chairman."

"April 9, 1904.
4267.

Rates on Wall Paper.

Mr. J. F. Tucker, Chairman, CFA., Chicago, Ill.

Dear Sir:—At meeting 8th letters from Frisco System Officials (copies attached) were presented and after consideration it was:

Recommended, To the C. F. A. that proportional rates on Wall Plaster, C. L., minimum 60,000 lbs. and over, originating at Wall Plaster Producing Points in Texas, Oklahoma and Indian Territory be authorized from East St. Louis, Ill. as follows:

To Boston, 20 cts. per 100 lbs.; New York, 18 cts. per 100 lbs.; Philadelphia, 16 cts. per 100 lbs., and Baltimore, 15 cts. per 100 lbs.

(The above rates shall be the maximum rates on intermediate traffic over the same line in the same direction.) provided tariffs covering through rates from point of origin to destination are published by initial lines and traffic moves on through consignments.

This recommendation is predicated on the fact that the rate per ton mile allowed lines east of East St. Louis is approximately the same as earned by lines up to East St. Louis.

Please have the above given early attention, advising conclusions,

Respectfully,

Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Eighth Floor Monadnock Block.

Chicago, April 11, 1904.

Subject:—Proposed proportional rates on wall plaster, C. L., East St. Louis, Ill. to Boston, Baltimore, New York and Philadelphia.

Advice Letter No. J-460.

To the General Freight Agents,

Gentlemen:—The following is received from Mr. R. M. Fraser, Chairman, St. Louis Eastound Freight Committee:

"At meeting the 8th instant letters from Frisco System Officials (copies attached) were presented, and after consideration, it was

Recommended, To the Central Freight Association that proportional rates on wall plaster, C. L., minimum 60,000 lbs. and over, originating at wall plaster producing points in Texas, Oklahoma and Indian Territory, be anthorized from East St. Louis, Ill., as follows:

To Boston, 20 cents per 100 lbs.; New York, 18 cents per 100 lbs.; Philadelphia, 16 cents per 100 lbs., and Baltimore, 15 cents per 100 lbs.

(The above rates shall be maximum rates on intermediate traffic over the same line in the same direction,) provided tariffs covering through rates from points of origin to destinations are published by initial lines and traffic moves on through consignments.

This recommendation is predicted on the fact that the rate per ton mile allowed lines east of East St. Louis is approximately the same as earned by lines up to East St. Louis.

Please have the above given early attention, advising conclusions."

The present rates are on basis of 22½ cents per 100 lbs., Chicago to New York City.

Please note on the enclosed blank your views on this proposition, and thus oblige,

Yours very truly,

J. F. Tucker, Chairman."

Enclosure."

Copy.

Frisco System.

St. Louis, Mo., April 6, 1904.

L. 228.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Will you kindly docket for reconsideration the petition of the Acme Cement Plaster Co., for lower rating on wall plaster from East St. Louis to Trunk Line territory.

The plants owned by the applicants are located on our system lines west and are very largely producers of this commodity, and we we are extremely anxious to have rates established that will enable them to market their products in eastern territory.

They explain that the production from Michigan points is not their competition in Trunk Line territory, but under

the present basis neither themselves or the Michigan people can compete against the mills located at Jersey City, Long Island and other points in that vicinity who obtain their raw material, gyp rock, via sea from Nova Scotia.

The present rate from Acme, Texas to New York City via Gulf is 25½ cents and to Baltimore 32½ cents.

Baltimore is their objective point at present time, owing to the immense amount of building to be done as a result of the fire. They are willing to the establishment of a minimum of 60,000 lbs., or capacity of the car.

Yours truly,

(Signed) A. D. Lightner. GA.

Copy. Frisco System.

St. Louis, Mo., April 7, 1904.

B-1499.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Com., St. Louis, Mo.

Dear Sir:—Supplementing Mr. Lightner's letter of April 6th, file L-228, application is hereby made to publish following figures on wall plaster, minimum weight 60,000 lbs.

From Acme and Quanah to Baltimore 30 cents, dividing to East St. Louis 15 cents, Lines east 15 cents.

From Cement and Marlow, O. T. to Baltimore 26½ cents, dividing to East St. Louis 11½ cents, beyond 15 cents.

Rates to New York 3 cents higher.

We find these rates necessary in order to meet rates in effect via Gulf ports as well as competition of Eastern manufacturers who procure their raw material via Water from Nova Scotia.

Respectfully,

(Signed) A. S. Dodge, Frt. Traf. Mangr."

"CENTRAL FREIGHT ASSOCATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, April 23, 1904.

Please refer to file J-460.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Replying to your favor of the 9th inst., file 4267, proposed proportional rates on wall plaster, C. L., from East St. Louis to Atlantic seaboard cities, would state that the proposition was submitted for views of Central Freight Association lines by Advice Letter No. J-460, and, based upon the votes recorded, the proposition cannot be approved.

It is the opinion that no less rate should be established from Central Freight Association gateways on plaster originating west of Central Freight Association territory than is accorded the shippers within Central Freight Association territory. It is contended that raw material is hauled to the parties who manufacture plaster in this territory, whereas when it comes from parties outside of the territory Central Freight Association lines do not obtain revenue from the raw material, hence they believe that the finished material of wall plaster shipped by parties not within Central Freight Association territory should not be handled on any more favorable basis than is that manufactured within the territory. It is also the opinion that large quantities of this wall plaster is manufactured at eastern points and if the shippers in the west, handling business to points east of Buffalo, etc., are given a less basis than prevails in the opposite direction, the Trunk Lines will object, and ask for a corresponding reduction.

The application is, therefore, declined.

Yours very truly,

J. F. Tucker, Chairman."

"April 29, 1904.

Mr. R. M. Fraser, Chrm., St. Louis Eastbound Frt. Com. St. Louis, Mo.

Dear Sir:—Supplementing Mr. Lightner's Letter of April 6th, file L-228, application is hereby made to publish following figures on wall plaster, minimum weight 60,000 lbs.

From Acme and Quanah to Baltimore 30 cents, dividing to East St. Louis 15 cents, Lines east 15 cents. The distance is from Acme to E. St. Louis 735 miles, and from Quanah 730 miles.

From Cement and Marlow, O. T. to Baltimore 26½ cents, dividing to East St. Louis 11½ cents, beyond 15

cents. The distance from Cement, O. T. to E. St. Louis is 604 miles, and from Marlow, I. T. 586 miles.

Rates to New York 3 cents higher.

We find these rates necessary in order to meet rates in effect via Gulf Ports as well as competition of Eastern manufacturers who procure their raw material via water from Nova Scotia.

Respectfully,

(Signed) A. S. Dodge, Frt. Traf. Mgr."

A/L No. J-539. Page 3.

Based upon the vote as recorded upon the foregoing, the same could not be approved, and this office, under date of April 23rd, advised Chairman Fraser as follows:

"Referring to your favor of the 9th inst., file 4267, proposed proportional rates on wall plaster, C. L., from East St. Louis to Atlantic seaboard cities, would state that the proposition was submitted for views of Central Freight Association lines by Advice Letter No. J-460, and, based upon the votes recorded, the proposition cannot be approved.

It is the opinion that no less rate should be established from Central Freight Association gateways on plaster originating west of C. F. A. territory than is accorded the shippers within C. F. A. territory. It is contended that raw material is hauled to the parties who manufacture plaster in this territory , whereas when it comes from parties outside of the territory Central Association lines do not obtain revenue from the raw material, hence they believe that the finished material of wall plaster shipped by parties not within Central Freight Association territory should not be handled on any more favorable basis than is that manufactured within the territory. It is also the opinion that large quantities of this wall plaster is manufactured at eastern points and if the shippers in the west handling business to points east of Buffalo, etc. are given a less basis

than prevails in the opposite direction, the Trunk Lines will object, and ask for corresponding reduction.

The application is therefore declined."

In reply to the above, Chairman Fraser, under date April 29th writes:

"Your letter 23rd, file J-460, was read at meeting today to the effect that the proposition could not be approved. The General Agent Frisco System stated he had shown a copy of your letter to Vice-President Acme Cement Plaster Co. and had a letter giving additional arguments which was read, and it was

Moved, That the additional arguments be submitted to the Chairman of the Central Freight Association with the statement that this committee re-affirms its former application and requests re-consideration of the subject.

I attach copy of the letter April 29th from Mr. A. S. Walker, V. P. & G. M. Acme Cement Co. to Mr. A. D. Lightner, Gen. Agt. Frisco System referred to above.

Please have the subject given further consideration, advising conclusions, and oblige."

Copy. April 29, 1904.

Mr. A. D. Lightner, Gen. Agt., Frisco System,
City.

Dear Sir:—Referring to our conversation regarding the action of the Trunk Line Committee, I beg to state that the position Chairman Tucker takes in his letter of April 23rd is incorrect from the fact that the plaster manufactured in Michigan is manufactured at the beds where the rock is mined. There is in South Chicago a mill owned by a Gypsum Trust that gets their rock from Alabaster, Mich. via boat at 50 cents per ton. They own their own boats and the only haul that the railroads get out of that concern is when they run out of rock in the Winter time and the boats cannot be operated. There is no other mill in that

country with which I am acquainted that gives any haul on raw material. So much for that feature of Chairman Tucker's letter.

He also states that there are large quantities of wall plaster manufactured at Eastern points, but he fails to take cognizance of the fact that this raw material comes from Nova Scotia in foreign bottoms at from 8 cents to 10 cents per 100 lbs. In some cases even as low as $1.35 per long ton. These plants are located on Long Island, Staten Island, New Jersey and Newburgh, N. Y., and by letteng us into that territory you will be giving the railroads a haul that they do not now enjoy. These are the facts. Chairman Tucker can get almost any kind of statement from competitors of ours that he desires, but the fact should govern.

I would be glad to meet your Committee or the Trunk Line Committee in Chicago in the presence of our eastern competitors, and there let the members of that committee decide for themselves whether the position we take is correct or not. By joining in the through rates requested, it would make something like 30 cents per 100 lbs., or $6.00 per ton, to the majority of points along the Atlantic Seaboard, which is a much higher rate than is now in effect from any other producing point, and I cannot see how it would interfere with the rates now in effect from Michigan and Atlantic Seaboard points.

Another argument used by Chairman Tucker is that the westbound rates are higher than those proposed. If he will look over the movement of plaster on these rates, he will find that they are paper rates; they are prohibitive, for the reason that a dozen cars per month of plaster comes to the Mississippi from New York and vice versa. The mere statement that rate is in effect, and when the facts are obtained that there is no movement seems to me would be a good reason for readjustment. The way that this rate is proposed to be put in effect it will be a through rate, and

will be much higher than any other rate in effect from any other producing point.

Yours very truly,

(Signed) A. S. Walker, VP.

For your information would state that the present rates eastbound are 22½cents per 100 lbs. Chicago to New York; and westbound 22 cents per 100 lbs. New York to Chicago.

Please note on the enclosed blank your views on the proposition as re-submitted hereby, and oblige,

Yours very truly,

J. F. Tucker, Chairman."

Chicago, May 17, 1904.

Please refer to file J-539.

Mr. R. M. Fraser, Chairman, St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—Referring to your favor of April 29th, last, file 4267, proposed proportional rates on wall plaster from East St. Louis to eastern cities.

The proposition was re-submitted by Advice Letter No. J-539 for views of Central Freight Association lines and rates.

In connection therewith several parties suggest that if through tariffs are issued from initial point of origin to eastern destination they should favor the acceptance east of East St. Louis, as minimum, the proportions recommended by your committee. Please advise if the publication of through tariffs can be arranged, the idea being that the pro-

portional rates, if established from East St. Louis, will apply only on business originating at the points mentioned in your letter, because the competition which the applicant states makes necessary the rates proposed may not exist from other plaster-shipping points west of the Mississippi River and Central Freight Association roads therefore only desire to meet the competition on which the proposition in based.

Furthermore, if the proposition is agreed to, and the proportional rates approvel from East St. Louis, the tariffs of the roads members of your committee should mention the points of origin where the business must originate in order to be entitled to the proportional rates.

Please advise if the members of your committee will agree to the foregoing arrangement.

Yours very truly,

J. F. Tucker, Chairman."

Fate on Wall Plaster.

Mr. J. F. Tucker, Chairman, C. F. A., Chicago, Ill.:

Dear Sir:—Yours 17th, file J-539, was read at meeting 20th and it was

Moved, That Chairman, C. F. A., be replied to to the effect that the St. Louis lines in making their recommendation for through rates on Wall Plaster, as follows, from Acme and Quanah and other Wall Plaster producing points in Texas, to Baltimore 30 cts.; Philadelphia 31 cts.; New York 33 cts; and Boston 35 cents; and from Cement and other Wall Plaster producing points in O. T. and Marlow and other Wall Plaster producing points in I. T. to Baltimore 26½c, Philadelphia 27½c, New York 29½c, and Boston 31½c, did not contemplate publication of any proportional rates from East St. Louis, that a through tariff was to be provided by initial roads and rates so published

divided on basis of Acme and Quanah to East St. Louis 15 cts., East St. Louis to Baltimore 15 cts., Philadelphia 16 cts., New York 18 cts., and Boston 20 cts., and from Cement, O. T., and Marlow, I. T. to East St. Louis 11½c, East St. Louis to Baltimore, 15c, Philadelphia 16c, New York 18c, and Boston 20c.

Trusting that this will permit of recommendation being approved, I am

Yours respectfully,

Chairman."

Above exhibit is marked "Complainant's exhibit Fraser No. 793."

Complainant offers in evidence correcpondence between the officials of the Central Freight Association and the St. Louis Eastbound Freight Committee, regarding agreement as to Scrap Iron rates from East St. Louis to C. F. A. points; also notice of meeting, dated November 16th, 1904, signed by C. E. Fulton, quoting meeting of various lines to consider above subject; and calling a conference meeting between the St. Louis Eastbound Freight Committee and the Chicago & Ohio River Committee, to be held November 23rd, 1904; being File 4270, as follows:

"CENTRAL FREIGHT ASSOCIATION.

Chicago & Ohio River Committee.

Secretary's Office, Room No. 837, Monadnock Block.

Chicago, November 16, 1904.

Call for conference meeting, room 314 Wainright Bldg., corner Chestnut and 7th streets, St Louis, Mo., Wednesday, November 23rd, 1904, 9:30 a. m. sharp. Scrap iron rates East St. Louis to C. F. A. points vs. between Chicago and Ohio River crossings.

To the General Freight Agents:

Gentlemen:—At your meeting 15th inst., subject matter of scrap iron rates between Chicago and Ohio River crossings was brought up and discussion developed the decision that pending an early conference with the St. Louis-Louisville-Cincinnati Committee to consider question of scrap iron rates from East St. Louis to C. F. A. points, vs. between Chicago and Ohio River, the action of meeting October 25th is reaffirmed, and that in the event of no advance in rates from East St. Louis to South Bend, etc., the C. & O. R. Committee lines will convene to harmonize rates to and from Ohio River crossings and Chicago.

Chairman Fraser personally states that the regular monthly meeting of his Committee convenes Wednesday the 23rd inst., and it will be favorable for the desired conference on that date in his office at 9:30 a. m. to discuss the situation as to scrap iron rates.

Therefore conference will be held in Chairman Fraser's office, Room 314 Wainwright Bldg., corner Chestnut and 7th Sts., St. Louis, Mo., at 9:30 A. M. sharp November 23rd.

On receipt kindly wire your intention of being personally in attendance or authoritatively represented.

Yours truly,

C. E. Fulton, Secretary.

Copy to R. M. Fraser, Chairman."

Proceedings of conference meeting between the St. Louis Eastbound Freight Committee, and Chicago & Ohio River Committee.

Held at Chairman Fraser's office, St. Louis, Mo., Wednesday, Nov. 23, 1904.

Representation:

St. Louis Eastbound Freight Committee.

B. & O. S. W. R. R., Edw. Hart, Jr.

C. & A. Ry., not represented.
C. & E. I. R. R., S. J. Cooke.
C. P. & St. L. Ry., C. W. Galligan.

Southern Ry. (St. L. & L. Div.), R. A. Campbell.
Vandalia Line, N. W. Taylor.
Wabash R. R., not represented.

Convened 10:30 A. M., C. E. Fulton presiding.

Rates on scrap iron from East St. Louis to Fort Wayne, South Bend, etc., vs. between Chicago and Ohio River crossings.

Attention was directed to the present condition of rates from East St. Louis to several Central Freight Association points within the Chicago rate district territory, as compared with the rates between Ohio River crossings and Chicago.

Extended discussion resulted in the individual announcement on the part of each representative in attendance, also subsequently concurred in by the Wabash R. R. Co., that, effective December 12, 1904, scrap iron rates, carloads, from East St. Louis to Fort Wayne and South Bend would be advanced to $1.80 basis per ton, same rate to also apply from Mt. Vernon and Evansville to Chicago, it being understood that any other points affected by the foregoing change will be correspondingly advanced.

Note: In accordance with the foregoing, request was made that Central Freight Association Information Nos. 4930 and 5505 be corrected to this extent.

No further business being presented, the meeting on motion adjourned.

C. E. Fulton, Chairman."

"CENTRAL FREIGHT ASSOCIATION.

Office of the Chairman, 8th Floor Monadnock Block.

Chicago, November 26, 1904.

Please refer to file Inf. 5505.

Mr. R. M. Fraser, Chairman St. Louis Eastbound Freight Committee, St. Louis, Mo.

Dear Sir:—This will acknowledge receipt of your favor of the 23rd inst., file 4270, attached to which is advance copy of proceedings of meeting held in your office on the 23rd inst., relative to rates on scrap iron from East St. Louis to Central Freight Association points, versus rates between Chicago & Ohio River Committee points.

I presume, based upon the action taken at the meeting as cited in the advance copy of the proceedings sent us, we may at once correct our information records to show that that rate from East St. Louis to Fort Wayne and South Bend, on scrap iron, carloads, will be $1.80 per ton. Please confirm this, and oblige.

Yours very truly,

J. F .Tucker, Chairman."

Mr. R. M. Fraser, Chairman St. Louis Eastbound Freight Committee, St. Louis, Mo.:

Dear Sir:—In reply to your favor of the 21st inst., file 4270, would state that we will at once cheerfully re-issue Information Circular No. 5567 and provide therein cancellation of rate of $1.70 per gross ton on scrap iron, etc.,

named in Information Circular No. 4903 from East St. Louis to Fort Wayne.

Yours very truly,

J. F. Tucker, Chairman.

Above exhibit is marked "Complainant's Exhibit Fraser No. 794."

After recess on Wednesday, January 23rd, 1907, the following proceedings were had:

JULIUS S. WALSH, recalled, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Mr. Walsh, referring to the purchase of the Conlogue Road, I will ask you if you know whether or not the Conlogue Road owned the right-of-way upon which its rails were laid at the time of the purchase? A. I think so.

Q. Have you any memoranda or records in the possession of the Terminal Railroad Association, or its officers, that would show as to whether or not there was a right-of-way acquired with that road? A. I think not, sir.

Q. You think not? A. No, sir.

Q. Have you any knowledge as to whether or not the Conlogue Road, at the time of its purchase by the Terminal Railroad Association, owned any rolling stock? A. I could not say.

Q. Would any official of your company, and if so, what one, know that fact? A. Yes; the general superintendent ought to know it.

Q. Who was the General Superintendent at that time? A. At that time, I think it was Mr. Dunlop.

Q. Is he still in the employ of the company? A. No, sir; I think he has died recently.

Q. Is there any other official that would know about that? A. I should think the information would be in that office.

Q. In the office of the General Superintendent? A. Yes, sir.

Q. Who has charge of those records at this time? A. They are in charge of the———

Q. (Interrupting) What I mean is, in whose official possession are they? Q. Mr. Burlingame is the General Superintendent.

Q. What are his initials? A. A. H. Burlingame.

Q. Have you any knowledge of the volume of the business, in the way of interstate transfer of passengers and freight, either, or both, that was carried on by the Conlogue Road, in connection with the ferries, at the time of the purchase, in 1902, or whatever time the purchase was made, by the Terminal Railroad Association? A. No, sir.

Q. Is there any data or record in possession of the Terminal Railroad Association that would show that fact? A. I could not say.

Q. Referring now, Mr. Walsh, to the sale of the Wiggins Ferry property, and the acquisition or control thereof by the Terminal Railroad Association—I will ask you if you know whether or not there were any negotiations between the Terminal Railroad Association, or its officers, and the officials of the Rock Island, that led up to the entrance of the Rock Island road into the Terminal Railroad Association? A. After the struggle for acquision was over, there were conferences that led up to the Rock Island's coming in. None previous to that, though.

Q. None previous to that? A. No, sir.

Q. After the fact of the control by the Terminal Association, of the Wiggins' property, was settled, then the negotiations began? A. Well, you could hardly say "the Terminal Railroad Association," because it was owned by the railroads.

Q. The fourteen proprietary lines? A. Yes, sir; the fourteen proprietary lines.

Mr. Watts: There were not fourteen at that time.

A. No, not at that time.

Q. How many were there at that time—thirteen? A. No, not that many. I think possibly seven.

Q. In 1902? A. In 1902—yes.

Q. At the time the Wiggins' Ferry Company was sold? A. Yes, sir.

Q. Do you know from memory what seven those were? A. Well, there was the Wabash, Missouri Pacific, Iron Mountain, Louisville & Nashville, Big Four, Vandalia, Frisco, and B. & O. S. W.

Mr. Watts: That makes eight? A. Yes, there were eight.

Q. What roads came in subsequently? A. The Southern, Rock Island, Chicago & Alton, Illinois Central, Burlington, M. K. & T.

Q. Did the remaining six roads, including the Rock Island, come in after the sale of the Wiggins' Ferry property, at the same time the Rock Island came into the Terminal? A. Well, about the same time.

Q. I will get you to state if it is a fact that the negotiations with the other roads than the Rock Island who were not members of the Terminal Railroad Association were taken up after the purchase, at or about the same time, or as part of the same series of transactions, that led up to the Rock Island coming into the Terminal Railroad Association? A. Yes, sir.

Q. Do you know whether or not the negotiations were opened by an official of your company, or whether they were opened by officials of the roads who were not members of the Association? A. I think that was mainly in the hands of our legal department.

Q. Who represented you at that time? A. Mr. Watts.

Q. Did he have instructions to open negotiations with the other roads? A. Yes, sir.

Q. And report to your Board of Directors, or to you as President? A. To report to the Board of Directors.

Q. And he did open these negotiations, and then reported to you? A. Some of them. I don't know that he was in all. I had occasion myself to speak to several of the executives of the roads. And then, after the matter was seriously entertained, then it drifted into the legal department.

Q. Then you first brought the matter, did you, before some of the executive officers of the outside roads? A. Yes, sir.

Q. Do you know what officials you talked to? A. I spoke to Mr. Yoakum; and I spoke to Mr. Felton.

Q. Mr. Felton, of what road? A. The Chicago & Atlon. And Mr. Harris of the Burlington; and Mr. Howard Elliott of the same road; I saw Mr. Samuel Spencer of the Southern.

Q. The gentleman who was recently killed in a wreck? A. Yes, sir; and Mr. Allen of the M. K. & T.; Mr. Rouse of the M. K. & T. road at that time; I spoke to Mr. Harriman of the Illinois Central. I think that is all.

Q. That is all you recall now? A. That is all I recall now.

Q. Mr. Walsh, did you do this of your own initiative, or were you instructed so to do by the Directors of the Terminal Railroad Association? A. I did so of my own responsibility.

Q. Did you do so after a conference with the representatives of any of the Terminal roads? A. Not at the outset.

Q. Did you subsequently take the matter up with the representatives of some of the Terminal roads? A. Yes, sir.

Q. Prior to the time it was laid before your Directors? A. Yes, sir

Q. The representatives of what roads did you confer with? A. Mr. Ramsey of the Wabash; Mr. Warner of the Missouri Pacific, Mr. Harding of the Iron Mountain;

Mr. Ingalls of the Big Four; Mr. Green of the B. & O. S. W.

Q. Who is that? A. Wm. M. Green, of Cincinnati.

Q. Were these men at that time all directors of the Terminal Railroad Association? A. Yes, sir.

Q. What was the basis upon which the suggestion was made to these outside roads to become members of the Terminal Railroad Association? A. The great inducement was that they could get into St. Louis without an expenditure of a dollar on their part, merely by the assumption of the responsibility of the outstanding securities of the Terminal Railroad Association, and the protection of its future revenue.

Q. What was the proposition—that they should invest so much money? A. No, sir; that they should come in on perfect equality with the original proprietary lines.

Q. Did they eventually pay porportionally for all of the stock that had been purchased by the contending parties, the Rock Island, and the Terminal Railroad Association, from the Wiggins Ferry Company? —A. Do you mean the original proprietary lines?

Q. The new lines that came in? A. Yes; I think the first call was for 50 per cent. of the purchase price.

Q. Did that include both the old companies and the new companies? A. The old companies, and I am not quite clear about the new companies. I think it included the new companies.

Q. At any rate, did the new companies finally pay their proportional part of whatever was finally paid for the entire issue of the Wiggins' stock? A. Yes, sir.

Q. So that both the old companies and the new companies now stand on a parity, so far as the investment in that property is concerned? A. Yes, sir.

Q. And then there was a meeting, after these suggestions, wasn't there, between some representative of your

company and representatives of those various roads that were not in the Terminal Railroad Association? A. Yes, sir.

Q. When and where did that meeting occur? A. It was in New York.

Q. Who represented the interests of the Terminal Railroad Association? A. I was there at that time; Mr. Watts was there; and Mr. McChesney.

Q. Mr. McChesney was President, was he? A. No, he was Vice President. and General Manager.

Q. And the representatives of what roads did you meet? A. At those meetings there was Mr. Felton of the Chicago & Alton; Mr. Spencer of the Southern; Mr. Ingalls of the Big Four; Mr. Rouse of the M. K. & T.; Mr. Smith of the L. & N.; Mr. Green of the B. & O. S. W.; and Mr. Leeds of the Rock Island. There may be others I don't recall just now.

Mr. Watts: My I suggest?

Mr. Crow: Yes, certainly.

Mr. Watts: Mr. Harris of the Burlington; Mr. McCrae of the Pennsylvania.

The Witness: And Mr. Miller of the Pennsylvania.

Q. Is that all? A. I think that is all.

Q. At this meeting was any record of the proceedings kept? A. I think not.

Q. It was simply a conversation as to details that were—

A. (Interrupting) It was a conference.

Q. (Continuing) —to be carried out with reference to the entrance of those roads into your Association? A. Yes; it was approaching the Exposition time, and it became necessary to enlarge the facilities; and in order to do that it became necessary to raise money. All those things were discussed in those meetings.

Q. At that time was it determined that those roads should enter the Terminal Railroad Association? A. At

one of those meetings; there were several.

Q. There was more than one meeting, was there? A. Yes, sir, several.

Q. Did they follow each other, on consecutive days, or did a period of time intervene? A. I think there was possibly some little time between the meetings.

Q. Have you any means of fixing the dates of those meetings? A. I have not.

Q. Approximately? A. I think it was the year of 1902.

Q. In the latter part of the year? I believe the contest for the purchase of the stock was in the spring or early summer? A. They must have been held, then, in the autumn of 1902, I suppose.

Q. Later in the year, at any rate, if it was in 1902? A. Yes, sir.

Q. Do you recall how many meetings there were? A. I should say at least three.

Q. Finally was an arrangement made by which they could enter into the Terminal Railroad Association? A. Yes, sir.

Q. And then was the matter submitted to your Board of Directors? A. Yes, sir.

Q. At a meeting here in St. Louis? A. In St. Louis, yes, sir.

Q. Do your records disclose that fact? A. I presume they would.

Q. Will you be kind enough to have that looked up and see what the date of that is, so that if I desire I may look at that record? A. Yes, sir.

Mr. Crow: I don't want to ask to have them brought here, because I may not want it, when I look at it—if you gentlemen will be kind enough to let me know what is in it.

The Witness: You want the date of admission of each of these roads; is that it?

Mr. Watts: You have that already, Mr. Crow. I gave you that.

Mr. Crow: That is the agreement. I want the record of that meeting.

Q. Mr. Walsh, do you know how the stock was apportioned to these new roads that came in—the stock of the Terminal Railroad Association? A. Into fourteenths, each having an equal share.

Q. Up to the time of the admission of the six new roads the eight old roads controlled all of that stock?

Mr. Watts: All the issued stock.

Mr. Crow: Yes.

A. All the stock outstanding?

Q. Well, no; because it was in the treasury wasn't it?

Mr. Watts: Yes, sir.

Q. How much stock was in the treasury at that time? A. I don't remember.

Q. Had the increase to $50,000,000 been made at that time? A. When the roads came in?

Q. Yes. A. I think not. It came subsequently.

Q. What was the capital stock before? $18,000,000, wasn't it? It was the same as the bonded indebtedness, was it not, Mr. Watts?

Mr. Watts: Exactly the same as the bonded indebtedness, which was $12,000,000.

Q. And the capital stock was the same? A. Yes, sir.

Q. Then, when the new roads came in, the additional stock was issued, wasn't it? A. The additional stock was issued, because they were going to put this additional mortgage on the property, and it became necessary to increase the capital stock.

Q. I am not asking why, but as to the fact. It was issued after the new roads came in? A. I don't think the whole of it has ever been issued.

Q. Well, it was authorized? A. It was authorized, yes, sir.

Q. And likewise the bonds? A. Yes, sir.

Q. I believe you testified before, Mr. Walsh, in regard to the $17,500,000 of underlying indebtedness, that you retained of the new issue of $50,000,000, $17,500,000 to take care of those underlying bonds? A. Yes, sir.

Q. I believe you also testified that there was $35,000,000 issued altogether, that had been issued on the bonds? A. Yes, sir.

Q. That $35,000,000 also includes the $17,500,000? A. Yes, sir.

Q. Has all of the difference between the $17,500,000 retained to take care of the underlying bonds, and the $35,000,000 been disposed of?

Mr. Watts: Expended, do you mean?

Mr. Crow: Sold by the company, I mean.

A. Yes, sir.

Q. Have they been sold to any persons other than the proprietary lines, or officials thereof? A. Yes, sir, they were sold to J. Pierpont Morgan & Co. of New York.

Q. Do you know the price they were sold at? A. Various prices. I think we got from ninety to possibly ninety-six.

Q. Those were the bonds that were covered by what is known now as the general mortgage? A. Yes, sir.

Q. For the $50,000,000? A. Yes, sir.

Q. That would make, then, $17,500,000 of bonds, woudn't it, that were sold to Morgan & Company? A. About that.

Q. Well, twice $17,500,000 is $35,000,000? A. Yes, sir.

Q. That money was all paid into the treasury of the Terminal Railroad Association wasn't it? A. Yes, sir.

Q. And it has been expended by the Terminal Railroad Association? A. Yes, sir.

Q. Can you indicate or state for what that $17,500,000 has been expended since 1902? A. I think $15,000,000 for the Conlogue road.

Q. I thought the Conlogue road was purchased before the consolidation of the six roads and the eight roads? A. It was paid for out of the proceeds of the sale of those bonds.

Q. It had been previously paid for, hadn't it? A. I think not.

Q. You think not? A. I think not; no, sir.

Q. Will you procure for me from your records the date of the purchase of the Conlogue road? A. Yes, sir.

Q. You can just give it to Mr. Watts. What other items, Mr. Walsh? A. I think out of the proceeds there was something like $7,500,000 paid for the Wiggins' Ferry; and then I don't recall what we paid for the Outer Belt; that was part of the expense, and the balance went into increasing the facilities.

Q. At the Union Station? A. At the Union Station and East St. Louis.

Q. Did you obtain any additional facilities at East St. Louis? A. Well, we built a shop over there that was quite expensive.

Q. A machine shop? A. A machine shop; yes, sir.

Q. That was built out of the proceeds of this mortgage? A. Yes, sir.

Q. You can ascertain the data with reference to these facts from your proper officials, I suppose? A. Yes, sir.

Q. Will you please do that, and give it to one of the Counsel here, that we may look at it? A. Yes, sir.

Q. Then, Mr. Walsh, the roads were reimbursed, were they, for the expenditure that had been made for the Wiggins Ferry Company by the Terminal proprietary lines, from

the sale of the bonds? A. Yes, sir, and the roads in turn deposited this stock under the lien of the mortgage.

Q. As collateral? A. Yes, additional collateral.

Q. So that the roads have practically no money invested in the Wiggins Ferry stock as a primary proposition themselves; is that correct? A. Yes, sir.

Q. Now, has there been retired any of the outstanding underlying indebtedness? A. No, sir.

By consent of Counsel, the cross-examination of this witness is deferred.

At this point the further hearing of testimony in this cause is adjourned until to-morrow, Thursday morning, January 24th, 1907, at half-past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, January 24th, 1907.

Met, pursuant to adjournment as above, on Thursday morning, January 24th, 1907, at 10:30 o'clock, A. M., in the office of the Special Commissioner, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Complainant;

Messrs. M. F. Watts and F. W. Lehmann appeared in behalf of the defendants.

The following proceedings were had:

P. L. DUBOIS, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name, address and business? A. My name is P. L. DuBois; I am auditor of the Consolidated Coal Company of St. Louis; office 625 Locust St., in the Dolph Building.

Q. How long have you been with that corporation? A. Since November, 1903.

Q. Were you in their employ before you came here? A. No, sir.

Q. Where are the mining properties of that company located? A. In Illinois.

Q. Entirely? A. Entirely, yes, sir.

Q. On what railroads, and how far distant from St. Louis? A. On the Wabash Railroad, at Staunton, and Mount Olive, about thirty-four and forty miles from St. Louis.

On the B. & O. S. W. Railroad at Breeze, Ill. I don't recall the exact location, as far as miles go.

On the Illinois Central Railroad.

On the Vandalia Railroad, near Collinsville.

On the Southern Railroad, near Belleville.

I believe that is all of their locations.

Q. What is the character of the business carried on by this Consolidated Company, as to whether it is retail or wholesale, or whether it is mining also? A. It is mining, and shipping coal in large quantities.

Q. Where is the product mostly marketed? A. St. Louis and Chicago, local points in Illinois. Some of it goes as far west as Omaha, Nebraska.

Q. Without referring to your records, can you give me an estimate, approximately, as to the amount of your product that is marketed in the city of St. Louis? A. It would have to be a pretty rough guess.

Q. That's what I want. A. Probably thirty-five per cent.

The Commissioner: Q. 35% of the output? A. 35% of the output.

Q. During what period of time is that per cent. the estimate of the output upon the market here? A. That is about the average ever since the operation of the company; or, at least, ever since I have been with the company.

Q. Can you give an estimate of the total output in tonnage, of the miles? A. It runs between 160,000 and 190,000 tons a month. I believe I should qualify that statement of percentage by saying that in that 35 per cent. there is a good bit of coal supplied to railroads, which would not properly be classed as commercial shipments into St. Louis.

Q. Railroad coal? A. Railroad coal, yes, sir.

Q. What roads does the Consolidated Coal Company furnish coal to? A. To the Wabash; Missouri Pacific; Vandalia; occasionally to the Chicago, Burlington & Quincy; occasionally to the Terminal Railroad Association; that is in this district.

Q. And what else? A. In the Northern Illinois Territory, and around Chicago, to the Chicago & Northwestern, the Chicago, Milwaukee & St. Paul, and the Pere Marquette Railroads; and occasionally some other railroads operating up there, but not regularly.

Q. Do you know where the mines of the Southern Coal & Mining Company are located, and on what roads? A. On the Southern Railway, I believe.

Q. At what points? A. I don't believe I am hardly familiar enough with their properties to state that.

Q. Is it within the coal district of St. Louis? A. Yes, sir; I presume you mean by that, within the fifty-mile belt?

Q. Yes, sir. A. Yes, sir.

Q. Have they any mines on any other than the Southern road? A. I could not say.

Q. Do you know where what were known as the "Murin mines" were located? A. I know they were on the Southern, but I don't know the exact location of them, as far as their relation to town or village is concerned.

Q. They were sold, were they not? A. Yes, sir.

Q. Who was the purchaser? A. I have heard that the Southern Coal and Mining Company was.

Q. Now you are the auditor of the Consolidated Coal Company? A. Yes, sir.

Q. As auditor, what are your duties? A. I have supervision over all the accounts, and practically over all financial matters of the Consolidated Coal Company; rendering bills and the payment of bills.

Q. I will ask you if you have presented any accounts, in behalf of the Consolidated Coal Company, to the Southern Railway Company, within the last two or three years, asking for repayment on account of over-charges made against your company? A. I presume there have been a number of bills for over-charge; claims, as we call them. They come up in the ordinary course of business.

Q. I will ask you if there was any one that was for a considerable amount of money, on account of over-charge in freight, based on difference between the freight rate charged the Consolidated Coal Company, and freight rates charged the Southern Mining & Coal Company? A. I believe there was an account of that kind. I don't recall all the circumstances of it, though.

Q. What year was it? A. It must have been during the latter part of 1905, or the early part of 1906.

Q. You presented the account, did you not? A. I prepared it.

Q. What was the amount of it? Just approximately? A. As well, as I can remember, something in the neighborhood of $2,000. Some such amount as that.

Q. Were there any other accounts presented of the same

character? A. I don't recall any especially. I did not recall that one until you mentioned the fact that there was an account of that kind. You understand, Mr. Crow, that when I say I presented it, I mean it was presented by my office. There are a number of clerks there, and with all of the details of the accounting work I am not familiar.

Q. What was the difference in the freight rate upon which that account was based? A. I don't remember.

Q. Do you remember to what company the lower rate had been given? A. No, sir.

Q. I will ask you the direct question whether or not it was made to the Southern Mining Company? A. I could not say that, either. I don't really know.

Q. Will your books disclose that? A. I presume they would; yes, sir.

Q. It must have been given to some other company, wasn't it? A. I don't quite understand the question.

Q. You presented this claim, as I understand, based upon the proposition that another coal company shipping from the same district, and the same kind of product, had been given a service similar to yours, and a less charge made than to your company? A. Yes, sir.

Q. And, of course, that company must have been identfied in order for you to have obtained that money back from the Southern Railway Company? A. It may have been, and still the book not show it, It may have been given me in the way of an arbitrary instruction to present a bill for a certain amount against a certain company, and those instructions may have disclosed the other company to which the lower charge was made.

Q. From whom would you receive those instructions? A. From the General Sales Agent.

Q. Who was the General Sales Agent? A. Mr. Schmick.

Q. Where is he located? A. St. Louis.

Q. What are his initials? A. W. S.

Q. Are you able to say now whether or not he gave you that information? A. No, sir, I cannot remember it without referring to the record.

Q. Will you look that up and let me know? A. Yes, sir.

Q. Is that the only claim that was presented against that company, based on similar grounds? A. I could not say that. I could not say whether it was the only one, from my memory.

Q. Will your books disclose? A. Yes, sir, the books will disclose.

Q. Will you please look it up and see? A. Yes, sir.

Not being able to complete the examination of this witness, by consent of counsel an adjournment is taken until to-morrow, Friday morning, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, January 25th, 1907.

Met, pursuant to adjournment as above, on Friday morning, January 25th, at 10:30 o'clock, a. m., in the office of the Special Commissioner, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Complainant

Messrs. M. F. Watts and F. W. Lehmann appeared in behalf of the defendants.

The following proceedings were had:

DIRECT EXAMINATION OF P. L. DU BOIS, CONTINUED, BY MR. CROW:

Q. Mr. DuBois, have you refreshed your memory about

those transactions I asked you concerning yesterday? A. Yes, sir.

Q. Can you give me the date of the presentment of the claim by the Consolidated Coal Company to the Southern Railroad Company? A. I cannot give you the date of presentment. I can give you the date of the rendition of the bill. It was May 11th, 1905.

Q. Have you any records showing the date of the payment? A. It was credited on our books under date of December 6th, 1905.

Q. Do you know the amount that was paid? A. The amount was $2,000.

Q. In round figures, $2,000? A. $2,000, yes sir.

Q. What was the basis of that claim? A. The basis was an over-charge of ten cents a ton.

Q. From what point? A. From our mines at Green Mount and Gartside, to East St. Louis.

Q. That over-charge consisted of what? A. The difference between the rate that we had paid in freight on certain coal moving between those points, and a rate that had been given to other parties having mines beyond ours.

Q. Who were the other parties? A. The records do not show.

Q. Do you know who they were? A. No, sir.

Q. Where did you obtain your information? A. What information?

Q. That that rate had been given. A. I did not obtain the information.

Q. Who did? A. As I stated yesterday, the bill was based on a letter requesting me to make a bill, giving those facts, just as I have stated.

Q. Didn't the letter name the Murin Coal Company? A. No, sir.

Q. Do you know whether or not it was the Murin Coal Company? A. No, sir, I do not.

Q. Who wrote the letter? A. It was written by the General Sales Agent.

Q. Have you the letter? A. I have it in my office, but not here.

Q. Is that the gentleman whose name you gave yesterday? A. Yes, sir.

Q. Where is he? A. He is in Chicago to-day, and has been there since—

Q. I mean, where does he live? A. He lives in St. Louis.

Q. Is that the only claim that you presented to the Southern Railway? A. Oh, it is not the only claim; no sir. We have had claims for over-charge, loss and damage, confistication of coal, corrections in weight, and various other claims.

Q. Is this the only claim that you presented to the Southern Railway for over-charge by reason of a difference in the freight rate? A. Yes, sir.

Q. That claim was presented in the name of your company, the Consolidated Coal Company? A. Yes, sir.

Q. Who collected the money? A. I could not say.

Q. Will the books show who collected it? A. No, sir.

Q. Have you anything to show whether it was paid by draft or cash? A. No, sir, I have nothing to show that.

Q. Who received that money? A. The Treasurer of the Company received it.

Q. Would his record show? A. I hardly think they would. The records show the credit to the Southern Railway Company on account of the bill. That is as far as my records go.

Q. What is the name of your Treasurer? A. Mr. Carr.

Q. Where did you get the memorandum to make the entry on your record? A. From his cash book.

Q. From the Treasurer's cash book? A. Yes, sir. It was posted to the ledger account from the cash book.

Q. Is Mr. Carr the gentleman who is subpoenaed here? A. Yes, sir.

Q. Then, if it was paid, either by cash or draft, it would be paid to the Treasurer? A. Yes, sir.

Q. Do you know what representative of your office presented the matter to the Southern Railway Company? A. No, sir, I do not.

Q. Who usually attends to that, in your office? A. Well, as a usual practice, the bills are mailed.

Q. Sent through the mail? A. Yes, sir.

Q. Did you sign the letters? A. Not personally; no, sir.

Q. Who did you present those claims to? A. To the Southern Railway.

Q. Where at? A. St. Louis or East St. Louis. I don't know exactly.

Q. Well, you had a good deal of business with the Southern Railway; you do a good deal of business with that company, don't you? A. I do a good deal of business with their local freight people, in regard to the payment of freight, and such things. But our transactions are conducted almost entirely with their East St. Louis agents.

Q. Was this claim presented to the local freight agent here? A. I cannot say how it was presented, or to whom.

Q. If you sent it by letter, your files will show, won't they? A. Why, they might; yes, sir.

Q. Do you know whether you are in the habit of presenting them to Mr. Campbell, the Assistant General Freight Agent, here? A. No, sir.

Q. You are not in the habit of doing that? A. I am not in the habit of doing that; no, sir.

Q. Where are they presented? To some one in East St. St. Louis? A. We are getting into a detail of the office that I am not familiar with personally.

Q. The coal that the difference of rate was paid for, was

coal that your company shipped and marketed in St. Louis? A. No, sir.

Q. Where was it marketed? A. East St. Louis.

Q. What place in East St. Louis was it marketed at? A. I hardly know what kind of an answer is required to that question. I can only say, East St. Louis. That is as far as I know, as an accounting officer.

Q. Did not the bulk of that coal come across the river? A. I don't know that it did, and I don't know that it did not.

Q. And you don't know whether it was marketed in East St. Louis or not? A. I know that it was sold on the basis of East St. Louis; sold at East St. Louis.

Q. Is all your coal sold at East St. Louis? A. A large quantity of it; yes, sir. That is the ordinary f. o. b. basing point for sales.

Q. The records in your office would show whether or not that coal was sold in St. Louis or East St. Louis, wouldn't they? A. It would show the sales of individual cars; yes, sir.

Q. Did you present a detailed statement, when you presented the matter to the Southern Railway? A. I presented a statement of all the cars moved between the dates covered by the bill.

Q. That was contained in the statement? A. Yes, sir.

Q. Have you a copy of that statement? A. No, sir.

Q. Your books will show that record, though, won't they? A. Yes, sir.

No Cross-Examination of this witness.

ARCHIE W. CARR, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name, residence, and occupation?

A. Archie W. Carr; Secretary-Treasurer of the Consolidated Coal Company, of St. Louis.

Q. Do you remember the transaction of a bill being presented to the Southern Railway Company for over-charges of freight on shipments of coal from your mines, in 1905, upon which they paid the money to you? A. I have no personal recollection of the presentation of the bill.

Q. Have you of the payment of the money? A. Yes, sir.

Q. Was it paid by draft or cash? A. That is a matter that I am unable to state right now.

Q. Would your books disclose that? A. I think so; yes, sir.

Q. Do you know who paid the bill, however it was paid? A. Well, it came to me through some one in the office.

Q. In your office? A. Yes, sir.

Q. Have you anything that would disclose who that was? A. No, sir, I have not.

Q. Do you know whether it came in the mail or not, from the Southern Railway? A. It did not, to me

Q. Who received those matters of that kind in your office? A. Why, I am the custodian of the funds. These funds pass into my hands from different sources.

Q. Can you look the matter up, and ascertain from what source it came? A. To the best of my information, yes, sir.

Q. Do you know whether it came from Mr. DuBois, or not? A. No, sir. I don't recall whether it was handed to me by Mr. DuBois, or his chief clerk, or Mr. Schmick.

Q. Your records will show whether it was paid in cash or by draft, or by a check? A. I think so, yes, sir.

Q. Will you look that up, and let us know. A. Yes, sir, I will.

At this point, the further taking of testimony in this case

is adjourned until Monday morning, January 28th, 1907, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, January 28th, 1907.

Met, pursuant to adjournment as above, on Monday morning, January 28th, 1907, at 10:30 o'clock, A. M., in the office of the Special Commissioner, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared for the complainant.

Messrs. M. F. Watts and F. W. Lehmann appeared for the defendants.

The following proceedings were had:

N. W. TAYLOR, recalled, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Mr. Taylor, you were for many years connected with the Vandalia or Pennsylvania Road? A. Yes, sir.

Q. And are yet? A. Yes, sir.

Q. For many years you were the General Western Traffic Agent, were you not? A. I was General Freight Agent for some time.

Q. Do you recall the time they acquired the Conlogue Road? A. I cannot tell you, sir.

Q. Approximately? A. No, sir.

Q. You were with them at that time? A. The Pennsylvania Road?

Q. Yes. A. They owned the road a good many years; as long as I was connected with them, up until they disposed

of it. From the time I was connected with them. I have been with them since 1878 or 1879.

Q. And they owned it at that time? A. That is my recollection. If my recollection is correct, they owned it at that time—the Pennsylvania Railway Company.

Q. Where did it run? A. From East St. Louis down to the east side of the river from Carondelet.

Q. What points did it reach in East St. Louis? A. I cannot tell you exactly.

Q. Did it go to the stockyards? A. It is my recollection that it did.

Q. Well, you know that, don't you? A. I will not be perfectly positive, but I think that is correct.

Q. If you don't know about the location and operation of that road, what official of the Pennsylvania Company does? A. I presume you would have to get hold of the Superintendent.

Q. Who is he? Where is he? A. I don't know as the present Manager would know about it—Mr. McKean—I don't know whether or not he has read up on it; and who to refer you to I don't know.

Q. Who was running the road? A. Mr. Joseph Hill; but he is dead many years. And Mr. Turner followed. No, Mr. Elliott was General Superintendent prior to Mr. Turner.

Q. General Superintendent of what, the terminals? A. The whole thing.

Q. Wasnt' there some one in charge of the terminals over there? A. None, excepting the Superintendent. We had only a yard master.

Q. Well, the yard-master would know? A. Yes, the master at that time; but he is dead.

Q. Is everybody dead that ever knew anyth'ng about it? A. No, I think not. But it did not come under my jurisdiction, and I paid no attention to that part of it at all.

Q. What part of the business of the Conlogue Road did you know about? A. I handled the freight.

Q. You handled the freight? A. Yes, sir.

Q. Was that road open to the use of all railroads? A. To all railroads.

Q. It was practically a belt line around from East St. Louis down to a point opposite East Carondelet? A. Yes, sir. Of course, it was used principally by the Pennsylvania Road for their business; but other roads, by paying the switching charges, used the road also.

Q. They had equal facilities? A. Yes, sir.

Q. Do you remember the old short line road, the narrow gauge? A. Yes, sir.

Q. Do you remember when it was a narrow gauge? A. Yes, I do.

Q. Do you know whether or not the Conlogue permitted the narrow gauge to lay a third rail down on their tracks into East St. Louis? A. I could not tell you.

Q. You have seen that third rail, haven't you? A. I presume so. I have been over it a good many times.

Q. You know it came up that way? A. Yes, sir, before the M. & O. took it.

Q. The Conlogue Road led to a point in South St. Louis where there was a ferry, did it not? A. Yes, sir.

Q. What roads operated that ferry? A. My recollection is, the Missouri Pacific, and the Iron Mountain; the Missouri Pacific system.

Q. Was there an interchange of cars there, or freight, between the Missouri Pacific and Iron Mountain on the one side, and the Pennsylvania and the East side roads on the other? A. Yes, sir.

Q. Can you tell whether or not there was a large traffic over the Conlogue Road? A. There was quite a good deal of business handled over that road; a good deal of business. Especially for the Pennsylvania road.

Q. Have you any idea of the number of cars a day that would go over there? A. No, sir.

Q. Have you any records in your office here that would give that? A. No, sir, none that I know of.

Q. Where are those records? A. I should say that they are in East St. Louis, or perhaps in Terre Haute.

Q. In Terre Haute? A. Yes, sir.

Q. Whereabouts would they be in Terre Haute? A. In the Auditor's office of the Vandalia Road.

Q. Is the office of the Auditor of the Vandalia Road in Terre Haute? A. Yes, sir, it is in Terre Haute.

Q. The busines that the Conlogue Road did was a general switching and freight business? A. Yes, sir.

Q. How many miles of track did they have? A. I don't know.

Q. Do you know whether they had any locomotives or not? A. They had two or three that they used, I think.

Q. Do you know whether or not it struck most of the roads in East St. Louis? A. I think by switching—yes; I think nearly all could make connections. Perhaps one or two of the northern roads could not except through double switching.

Q. State whether or not there was any discrimination against any lines, in the way of using the Conlogue property? A. Not that I am aware of; no, sir; not that I am aware of.

Q. Do you know anything about the Belt Line of the Southern Road over there? A. I do not, sir.

Q. At the time that you were handling traffic over the Conlogue road, wasn't it your business to keep track of the amount of traffic that went over this ferry? A. Well, to a certain extent—yes. That is, we tried to keep track of it. The number of cars we got, and the number of cars we delivered.

Q. You had a record of every car, hadn't you? A. No,

sir, we did not. We did not keep a record of that character.

Q. You kept a record of the number of cars, didn't you? A. If a record was kept, it was kept either in East St. Louis or Terre Haute. We kept no car record in our office.

Q. What did you keep in that office? A. A general run of the business.

Q. What business? A. All the business that went over East St. Louis and Carondelet. That is, our own business only. Not what we received through other lines at all. Nothing except what pertained to the movement over our own line from East St. Louis and to East St. Louis.

Q. What official of the company would keep track of the business other than the Pennsylvania business? A. The yard-master was the man in charge of that.

Q. The yard-master doesn't keep records, does he? He usually reports to some one, doesn't he? A. He kept a record of that kind, at that time. Up to a certain time it was independent, and run by the General Superintendent of the Vandalia Road, and Mr. George K. Thomas was Superintendent of the East St. Louis & Carondelet; General Agent, you might say. And they looked after that business up to a certain time. And then the business, as far as freight was concerned, and pertaining to our own road, was turned over to the Freight Department. That was a short time prior to the death of Mr. Hebard.

Q. Does the record of your office disclose the number of cars that were handled by your own road? A. No, sir. We did not pretend to keep any. I want to say that we kept no record at all. We merely watched the thing very closely from day to day.

Q. Now, Mr. Taylor, you have been in the railroad business for thirty years? A. Yes, sir.

Q. And in the freight business most of the time? A. Yes, sir.

Q. And you know, don't you, that somewhere there is a

record kept of the movement of freight, in every railroad, over every mile of road, and every bit of switching? A. Yes, sir.

Q. Whereabouts is the record kept that would show the amount of business that went over the Conlogue Road up to the time that it was sold? A. My impression is that would be in the Auditor's office.

Q. What place? A. Terre Haute.

Q. What is the Auditor's name? A. W. S. Roney.

Q. Are none of these records at East St. Louis? A. I don't know of any. If there are, I don't know anything about it.

Q. Do you know the name of any official that had charge of the Conlogue Road, at St. Louis or East St. Louis, that could give this information? A. No, sir, I don't. There have been different men here. Perhaps Mr. McKean, the General Manager of the Road, can remember something about .it

Q. Who is the General Freight Agent here now? A. Mr. George W. Davis.

Q. How long has he been General Freight Agent? A. About a week. Prior to him, Mr. Coleman was General Freight Agent.

Q. Did Mr. Coleman succeed you? A. Yes, sir.

Q. Was he Superintendent when the road was sold? A. No, sir.

Q. Was he General Freight Agent here when the road was sold? A. Yes, sir.

Q. You don't know whether they owned any locomotives or not? A. I will not say absolutely. I think perhaps they used locomotives that were owned by the Vandalia Road.

Q. Do you know whether that ferry is running now? A. I don't know. The Grape-vine Ferry? I don't know. I presume it is running yet. I don't pay any attention to that part of it.

Q. Who would know about that? A. I should say Mr. McKean would know.

Q. Where is he? A. In the city of St. Louis

Q. Does he stay here? A. This is his headquarters. He is home sick now.

Q. What are his initials? A. Benjamin M.

Q. Is he Superintendent? A. General Manager of the Vandaila Road.

Q. Well, the Missouri Pacific people ought also to know, ought they not? A. They ought to know.

Q. It was their property? A. Yes, sir.

Q. How far from where this Conlogue ferry was run was the Ivory ferry? A. I could not tell you about that.

Q. You don't know about that? A. No, sir.

Those places down there are all new since I quit the General Freight department; that is, having any hand in it, or anything of that kind.

Q. Did you ever have any instructions to route cars that were not to be sent by the Conlogue ferry by way of the Wiggins Ferry, on the Pennsylvania Railroad? A. No, sir.

Q. Did you do that? A. I can't say that we did; no, sir. We routed wherever we could get the best service. That was my intention; and I had no instrutcions from anybody else as far as that was concerned. Wherever we could get the best service, for our road, and for other roads.

Q. Did the Conlogue Road touch the river north of Eads Bridge? A. No, sir.

Q. It stopped at the stockyards, did it? A. Yes, sir.

No. cross-examination.

JOHN SCULLIN, Recalled, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Mr. Scullin, when did you begin the operation or con-

trol of the Wiggins Ferry? I think you stated once before that it was in 1885? A. About 1885.

Q. About 1885? A. Yes, sir.

Q. And you continued to have the management of it until the time of its sale in 1902? A. Whatever time it was—yes, sir.

Q. I will get you to state, Mr. Scullin, whether during all those years, the properties, tracks and ferries of the Wiggins Ferry Company were open to the use of all railroads? A. Yes, sir.

Q. And all persons? A. Yes, sir.

Q. Either by wagon or any other way? A Yes, sir.

Q. And during that time the Wiggins Ferry Company had tracks on both sides of the river? A. Yes, sir.

Q. On the east side did the tracks connect with most of the railroads? A. Yes, sir.

Q. And on the west side, what roads did the tracks of the Wiggins Ferry Company connect with? A. With the Iron Mountain, from the South. With the Wabash from the north, and the Rock Island. And we connected with Poplar Street—that was known on this side of the river as the Terminal Railway Company.

Q. Do you know, Mr. Scullin, at what time the Carondelet Ferry, or the Grapevine Ferry as it was called, ceased to be operated? A. I could not tell you, sir; I don't know.

Q. Do you know where what is known as the Belt Line of the Southern Road, on the East side, in East St. Louis, is located? A. Yes, sir.

Q. Can you describe, generally, where it runs over there? A. I could only describe that in a general way.

Q. That is what I mean—in a general way.

A. In a general way, outside of the city. We operated it under a lease for a few years.

Q. It strikes most of those tracks on the east side? A. Yes, sir; crosses them.

Q. What is the general direction of that property? A. Running from what is known as the Pittsburg Dike, up to Venice.

Q. Where is the Pittsburg Dike? A. That is the lower part of East St. Louis. That dike that comes out there.

Q. Has that belt line any name that it is known by? A. Yes, it has, but I have forgotten just what it is. I don't remember.

Q. At the time that your company leased it, was there any ferry used in connection with the operation of it? A. No, sir.

Q. Were there any cradles for ferries? A. No, sir.

Q. Were there ever any cradles for the ferries on that road? A. No, sir, not that I ever knew of.

Q. Do you know in connection with what ferries it was operated after you turned it back to the Southern Railway Company? A. I do not know.

Q. Well, there was some ferry that it operated in connection with? A. Yes, sir, there was some ferry that operated from the Pittsburg Dike; but whether it was in connection with that Outer Belt or not, I don't know.

At this point, the further hearing of testimony in this cause is adjourned until to-morrow, Tuesday morning, January 29th, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, January 29th, 1907.

Met, pursuant to adjournment as above, on Tuesday morning, January 29th, 1907, at half past ten o'clock, in the office of the Special Commissioner, in the Roe Building, St. Louis, Mo. Present, parties as before. When the following proceedings were had:

R. A. CAMPBELL, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name? A. R. A. Campbell.

Q. Are you connected with any railroad, Mr. Campbell? A. Yes, sir.

Q. What road? A. The Southern Railway.

Q. How long have you been connected with that railway? A. Since 1900.

Q. What was the predecessor of the Southern Railway? A. The Louisville, Evansville & St. Louis Consolidated Railway.

Q. Were you connected with that road? A. Yes, sir.

Q. How long? A. Nine years.

Q. In what capacity? A. General Freight Agent.

Q. In what capacity are you connected with the Southern? A. Assistant General Freight Agent.

Q. Where are you located? A. St. Louis.

Q. Have you been all the time? A. Yes, sir.

Q. Is that the extent of your service in St. Louis, twelve years with the Southern and its predecessor? A. I beg your pardon, it is more than twelve years.

Q. Yes; fifteen years, I should say. A. Yes, sir.

Q. What are your duties as Assistant General Freight Agent of the Southern Railway at this time? A. I look after the traffic of what is called the St. Louis Division of the Southern Railway.

Q. Are you familiar with the physical properties of the Southern Railway on the east side of the river, in St. Louis? A. Only in a general way. My duties would not permit me to have a detailed knowledge of it.

Q. Are you familiar with the location of the belt line of the Southern Road? A. Yes, sir.

Q. Just describe that property, where it is located, on the east side of the river? A. You refer, I presume, to the Venice & Carondelet Railway?

Q. Yes, sir. A. It operates from a connection of the main line of the Southern Railway, around East St. Louis, to a connection with the river on the north side, above the Merchants' Bridge—the Mississippi River.

Q. In miles, what is the extent of that belt? A. I am under the impression that it is about nine miles—perhaps a little more.

Q. How many of the roads on the east side does it touch? A. Shall I name the roads?

Q. If you can. A. The Southern Railway; the Mobile & Ohio; the Illinois Central; the Louisville & Nashville; the Chicago, Peoria & St. Louis; the Chicago & Alton; the C. C. C. & St. Louis; the Wabash; the Terminal Railroad Association; the Merchants' Bridge. I believe that is all.

Q. The Vandalia? A. Yes, sir; and the B & O. S. W. How about the Illinois Central? A. I mentioned the Illinois Central, I think.

Q. How about the Rock Island? A. We don't reach the Rock Island. They don't operate on the east side.

Q. The Rock Island does not operate on the east side? A. No, sir.

Q. I mean the Chicago & Eastern Illinois; they call that the Rock Island. A. Yes, sir, we connect with that.

Q. Do you know whether or not, at any time, there was operated in connection with this belt of the Southern Road, a system of ferries across the Mississippi River? A. Yes, sir.

Q. Who operated those ferries? A. The Interstate Car Transfer Company.

Q. At any time, prior to the period at which the Interstate Car & Transfer Company began the operation were

there any ferries operated in connection with that belt? A. No car ferries.

Q. Passenger ferries? A. We operated a boat, ourselves, for the handling of wagon traffic and passenger traffic between what is called our dike-yard, on the south side, and St. Louis. When we had our depot at what is called the dike-yard.

Q. Is that dike-yard on the east side? A. Yes, sir, on the east side.

Q. Where was the point of landing on the west side? A. I don't remember exactly. There was a point designated for the landing of this boat on the south side somewhere, but I don't know just where it was.

Q. South of the Eads Bridge? A. Yes, sir.

Q. Do you know where the old Plum Street depot was, of the Iron Mountain road? A. Yes, sir, I know where it was. I think it was north of that.

Q. The landing was north of that? A. I think so.

Q. Was this prior to the time the Southern Belt Road was leased to the Wiggins Ferry Company? A. No, sir.

Q. Subsequent to that? A. Subsequent; yes, sir.

Q. When did the company cease operating that boat? A. Well, now, the Southern Railway, you understand, never operated it. It was the old Louisville, Evansville & St. Louis Consolidated Railroad. That occurred, perhaps, about 1895. I don't remember exactly.

Q. That Belt Line of the Southern is now, and has been at all times, open for the business of any road that needs to use it? A. Yes, sir.

Q. Were you a stockholder in the Interstate Car & Transfer Company? A. Yes, sir.

Q. And did you make the contracts for the transportation of freight between the Southern Railway and the Interstate Car & Transfer Company? A. I don't exactly understand.

Q. (Previous question here read.) A. I did not make

any contracts for account of the Interstate Car & Transfer Company, or for the handling of business over their line.

Q. Well, take the other branch of the question, then. A. Our rates applied to the St. Louis Transfer Company into St. Louis.

Q. What do you mean by that? A. Our rates made from points east would apply to the Transfer Company.

Q. You mean the Interstate Car & Transfer Company? A. I do.

Q. But take the other branch of the question: did you make any contract on behalf of the Southern Road, with the Interstate Car & Transfer Company? A. What kind of contract do you refer to, please?

Q. For the transportation of freight across the river. A. Do you mean as to freight rates?

Q. I did not ask about the freight rates. I just asked about a contract? A. Contracts for physical operation between the Interstate Car & Transfer Company would not be made by my department.

Q. I will ask the question again: Did you make any contracts for the transportation of freight, representing the Southern Railway Company, with the Interstate Car & Transfer Company? A. No, sir.

Q. What representative of the company made that contract; do you know? A. I don't know. I think it was the receiver.

Q. The receiver of what? A. Of the Louisville, Evansville & St. Louis Consolidated Railway.

Q. After the Southern bought it, the Interstate Car & Transfer Company continued to operate, did it? A. Yes, sir.

Q. And the business of the Southern was principally handled over that Interstate Car & Transfer Company, wasn't it? A. To a considerable extent.

Q. When was the Interstate Car & Transfer Company sold? A. I cannot tell you. I don't remember.

Q. Have you any idea, Mr. Campbell, about the volume of business that the Southern Railway did over the Interstate Car & Transfer Company, as to the number of cars per day, or week? A. No, sir, I cannot state.

Q. Well, you could make an estimate of it, couldn't you? A. My estimate could not be considered in any ways correct. I might say that we handled, perhaps, not less than twenty-five cars a day.

Q. Have you any idea of the volume of business done by the Interstate Car & Transfer Company, as to the number of cars per day that they handled? A. I have not; no sir.

Q. When were the Interstate Car & Transfer Company's boats discontinued? A. They have not been discontinued.

Q. They have not been? A. No, sir.

Q. Are they still operating? A. Yes, sir.

Q. Are they still operating in connection with the Southern Railway? A. Yes, sir.

Q. Do other roads besides the Southern Road bring their freight down by way of the Southern Belt Line, and bring it over to this side by those ferries? A. Yes, sir.

Q. Did they do that before the sale of the Interstate Car & Transfer Company? A. Yes, sir.

Q. Then, prior to the acquisition by the Terminal Railroad Association of the Interstate Car & Transfer Company, the Interstate Car & Transfer Company together with the Southern Belt Line was a competitor for transfer business across the river with the Terminal Railroad Association and the Wiggins Ferry properties? A. Yes, sir.

Q. The Southern Road, you say, since 1900 has owned that Belt road? A. Yes, sir.

Q. And they still own it? A. Yes, sir.

Q. Do you know whether there is a ferry operated now from a point below the Plum Street depot on the Missouri

side of the Mississippi River, down to the Ivory crossing on the east side of the river? A. I do not know.

Q. You don't know anything about that? A. No, sir.

Q. Can you tell me the name of the official or department of your road, from whose records I could get the volume of business carried on by the Southern Road over that Interstate Car & Transfer Company? A. Our transportation department could give it to you.

Q. Where are they located? A. Here.

Q. What is the name of the official? A. C. P. Cooper, our General Superintendent.

Q. He would have those records. A. I think so.

Q. Where is he located? A. He is located here in St. Louis; in the Chemical Building.

The cross-examination of this witness is deferred, by consent of Counsel.

J. G. CREVELING, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. CROW:

Q. Please state your name? A. J. G. Creveling.

Q. Mr. Creveling, you live here in the city, do you? A. Yes, sir, I live in the county.

Q. You were formerly an employe of the Vandalia Railroad? A. Yes, sir.

Q. In what capacity? A. Local Agent.

Q. Where at? A. East St. Louis.

Q. From what time to what time? A. From 1880 to 1891, I think.

Q. What were your duties? A. I just looked after the physical operation of the station.

Q. Explain what you mean by that? A. The terminal

station is for the handling of the freight and I had to see that the freight was loaded and unloaded.

Q. During that period of time did the Vandalia Road control what is known as the Conlogue Road? A. No, sir, I don't think they controlled it at any time.

Q. Who did control it? A. The owners.

Q. Who were the owners? A. Well, I cannot say as to that. I can only say as to hearsay. My understanding was the Pennsylvania. I don't know, of my own knowledge.

Q. I meant to speak of the Pennsylvania when I said the Vandalia. A. Well, the Vandalia, during a great portion of that time, was not a part of the Pennsylvania.

Q. You are correct about that. When did you begin to send freight over the Conlogue Road for the Vandalia? A. During all of my jurisdiction at East St. Louis.

Q. Have you any idea of the volume of business that the Pennsylvania, or Vandalia, did over the Conlogue Road? A. No, sir.

Q. Well a good many cars a day, wasn't it? A. I could not approximate as to that. It ran just according to the volume of business from day to day.

Q. What official of the Pennsylvania or Vandalia could give that information? A. I presume, the general freight department would have the statistics, as to the number of cars.

Q. Did you have charge of that Conlogue Road? A. I did, for three or four years; or four or five years.

Q. Were there any reports made to you of the business? A. Yes, sir, I had charge of the reporting which was made to the general freight department and to the receiver.

Q. That went through your hands? A. Yes, sir.

Q. That report showed the number of cars that were handled, did it not? A. Yes, sir.

Q. Can you give me any estimate as to the number of

cars, during that period of time? A. No, sir, I could not, without having the records.

Q. Well, you have some idea of it, haven't you? A. I don't know as I could approximate it. It might run some days ten cars, and maybe other days fifty or seventy-five cars. It is a matter that I could not say without the records.

Q. Will you describe the location of that Conlogue Road, with reference to East St. Louis? A. It ran from the National Stockyards to East Carondelet.

Q. Where are the National Stockyards located? A. They are located just east of the river. Kind of north-east.

Q. The Mississippi River? A. Yes, sir. Northeast from the Relay Station.

Q. Whereabounts from the Eads Bridge? A. It lays about a mile and a half northeast of the Eads Bridge terminus there; that is, the terminus of the approach.

Q. That is in the middle of the labyrinth of tracks over there? A. Just at the edge of it; the outer edge.

Q. It ran, then, south and westwardly back to the river? A. It ran south to the river.

Q. It ran westwardly, too, didn't it? A. Very little. From the stockyards to the Relay Station you might say it ran south-west, and from there almost due south.

Q. Opposite what point in the city of St. Louis did it touch the east shores of the Mississippi River? A. Opposite Carondelet.

Q. Was there a ferry operated in connection with it, from Carondelet? A. The Car Transfer; yes, sir.

Q. That was operated by what road? A. The Missouri Pacific.

Q. Missouri Pacific and Iron Mountain, wasn't it? A. My understanding was that it was operated by the Missouri Pacific. I don't know anything about—

Q. From a point opposite Carondelet, on the east side of the Mississippi River, to the National Stockyards, what

roads, if any, did this Conlogue Road intercept? A. It intercepted the Mobile & Ohio; the Southern Railway; the Louiville & Nashville; the Big Four; the Vandalia; and by track arrangements, with the B. & O. S. W., and Chicago & Alton, and Burlington.

Q. Any others? A. No, sir.

Q. Did it reach the Chicago, Peoria & St. Louis? A. There was no direct connection with C. P. & St. L.

Q. Did it reach the Illinois Central? A. Yes, sir, it had a connection with the Illinois Central.

Q. Did it connect with what is known as the Rock Island —the C. & E. I.? A. The Rock Island was not operating during my time.

Q. Is it not true that the B. & O. S. W. has access to the Relay Depot at East St. Louis only over the Conlogue Road? A. I cannot say as to that.

Q. How was it when you were there? A. I understood they had their own tracks.

Q. To the Relay Depot? A. Yes, sir.

Q. How about the Southern? A. The Southern had to use the Conlogue.

Q. To get in? A. Yes, sir.

Q. During the time that you were there, was the Conlogue used by the Narrow Gauge Road in getting to the Relay Depot? A. The Narrow Gauge? What narrow gauge have you reference to?

Q. The Narrow Gauge that came up from the southern part of Illinois; afterwards called the Cairo Short Line. Didn't they lay a third rail on that track? A. There was no narrow gauge running into East St. Louis during my time—while I was in charge of the Conlogue Road.

Q. Was the Conlogue Road a belt line through East St. Louis? A. Yes, sir. It was a switching line. It was not virtually a belt line, because it did not extend clear around the city.

Q. During the time that you were there, was it open and accessible to all the roads that wanted to use it? A. Yes, sir.

Q. On equal terms? A. Yes, sir.

Q. Did any other roads besides the Pennsylvania and Vandalia use it? A. Yes, sir.

Q. Was that use extensive, or limited? A. They all used it as extensively as they desired. Whatever business they had over the Iron Mountain or Missouri Pacific.

Q. I am asking about the volume of it. A I could not say about the volume, because that is a mater that I kept no track of.

Q. Where would those records of the Vandalia Road be that would disclose it? A. The Vandalia Road would have those records.

Q. What department? A. Probably in charge at East St. Louis.

Q. In whose charge? What official? A. The agent there.

Q. The agent at East St. Louis? A. Yes, sir.

Q. You were the agent, weren't you? A. Yes, sir.

Q. But you don't know anything about it? A. You must understand that it took about fifty clerks to carry out the details of the station, and it is a matter that I could not keep my mind charged with, as to just how much. I kept a run of it from day to day, but as far as charging my mind with carrying it indefinitely to the future, that is something that I did not undertake to do.

Q. Do you know when the Pennsylvania acquired the Conlogue Road? A. No, sir, I do not.

Q. I will get you to state whether or not, if you know, the Conlogue Road was, during the time you were there, a competitor with the Terminal properties, as it was operated in connection with the Interstate Car & Transfer ferry? A. Yes, sir, it was a competitor with the switching lines.

Q. Was it with the Terminal Association? A. Yes, sir.

Q. They transferred business across the river? A. Yes, sir.

Q. Do you know the character of products that came back eastward over the Car Transfer and over the line of the Conlogue Road, destined to points east? A. It was almost all kinds of carload freight that came from the South and Southwest.

Q. What was that? A. Lead, spelter, lumber.

Q. Weren't a great many of the cars loaded with forest products, lumber, either dressed or undressed? A. Both.

Q. And wasn't there a great deal of coal hauled across there? A. There was coal hauled west, but not hauled east.

Q. And a great many chatts came east, did there not, from those mines? A. Yes, sir.

Q. And wool, and farm products of different kinds? A. I don't know of any wool; I could not specify as to that. The principal business was lumber and chatts, going east.

Q. The transfer across the Conlogue Road and over the ferries was more rapid, as a rule, than it was through the Terminal properties, was it not? A. I could not say as to that, sir. It was supposed to make equal time.

Q. Was there any difference in the charges? A. No, sir.

CROSS-EXAMINATION, BY MR. WATTS:

Q. What ferry did the Conlogue Road operate across the river? A. The ferry known as the Missouri Pacific ferry at Carondelet.

Q. What ferry did the Conlogue Road operate? A. The Conlogue Road operated no ferry.

HENRY C. FERGUSON, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name? A. Henry C. Ferguson.

Q. Where do you live, Mr. Ferguson? A. I live in St. Louis.

Q. How long have you lived in St. Louis? A. Since 1860.

Q. What is your business? A. I am with the Vandalia Railroad at East St. Louis, in the local freight office.

Q. In what capacity? A. Chief clerk.

Q. How long have you been there? A. For nearly twenty-nine years.

Q. Do you know when the Conlogue Road was sold to the Pennsylvania; about what year? A. No, sir, I do not.

Q. As chief clerk of the Vandalia Road in East St. Louis, what records do you have charge of, if any? A. Well, you might say I have not charge of any records. I simply carry on the office, under the instructions and direction of the agent in charge. And of course the various work and the various records are apportioned out to the various departments, among something like sixty to seventy-five clerks.

Q. Have you a general idea of the business that has been carried on by the Pennsylvania-Vandalia road, in way of freight traffic? A. Yes, sir.

Q. You were there with the company, in the same capacity, when the Conlogue Road was operated by the Pennsylvania, were you not? A. Yes, sir.

Q. Was any report made to your department, of the number of cars that would be handled in a day? A. When the Conlogue was operated under a separate management, they had a staff of clerks who took care of that business; and when the accounts and records were turned over to the Vandalia, that same staff of clerks simply moved into our office; and it was practically carried on as a separate account or separate record, you might say, with a head clerk there

that took care of the records, and made the reports, and complied the statistics. So that I personally, practically, had nothing to do with it at all.

Q. It was under your jurisdiction, however, as Chief Clerk? A. Yes, as chief clerk, and acting under the orders of the agent.

Q. Are you referring to the time when the Vandalia and Pennsylvania were consolidated—when you say they moved into your office? A. They moved into the office prior to the acquiring of the Vandalia by the Pennsylvania. It has only been recently that the Vandalia has been acquired by the Pennsylvania, as I understand it.

Q. You say that the Conlogue Road was operated separately, do you mean when the Pennsylvania operated the Conlogue? A. I presume they operated it. I am not positive about that.

Q. What road were you working for at that time? The Pennsylvania or the Vandalia? A. The Vandalia.

Q. That was operated in connection with the Pennsylvania, wasn't it? A. It handled the Pennsylvania traffic this way; yes, sir.

Q. And that traffic went through your office? A. Yes, sir.

Q. Can you give any estimate of the number of cars that were handled over that Conlogue Road while it was operated by the Pennsylvania and Vandalia? A. I could not; only approximately, perhaps. I can make simply a guess at it. Because, as I have said before, the records and statistics were kept by this staff of clerks, that attended to that department.

Q. Of course, I understand that you could not undertake to give it accurately; just your best judgment of it. A. Do you mean the Vandalia business only?

Q. If you can estimate that. And then estimate the total business. A. I could not, really.

Q. Can you give the total business? A. I should say, taking in the loaded and empties, taking in what is called the business across the river at East Carondelet, probably four to six hundred cars a day.

Q. That is, both ways? A. Both ways; yes.

Q. Is that business still going on there? A. I could not say.

Q. The Conlogue Road, during the time it was operated independent of the Terminal System, was open to the use of all roads, on equal terms, wasn't it? A. Yes, sir.

Q. For switching facilities, and transfer facilities? A. Yes, sir.

Q. Can you give me the name of any employe, or clerk, or official, of the Vandalia that would have charge of the records that would show the volume of that business? A. The Conlogue records, to the best of my knowledge, were sent on to the Auditor, at Terre Haute, several years ago.

Q. Who is he? A. The Auditor is W. S. Roney, of Terre Haute, Ind.

Q. Is he located there now? A. Yes, sir; so far as I know there is not a Conlogue record now in the East St. Louis office.

Q. The Conlogue property is now operated by the Terminal Railroad Association, is it not? A. So I understand.

Q. You don't handle the business any longer? A. No, sir.

No cross-examination.

At this point, the further hearing of testimony in this cause is adjourned until Monday, February 4th, at 2:30 o'clock, P. M.

R. E. Rombauer,
Special Commissioner.

St. Louis, February 4th, 1907.

Met, pursuant to adjournment as above, on Monday, February 4th, 1907, at half past two o'clock, P. M., in the office of the Special Commissioner, Roe Building, St. Louis, Mo.

Present, Hon. R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Complainant.
Mr. M. F. Watts appeared in behalf of the Defendants.

The following proceedings were had:

ROBERT E. BLAND, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complaint, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. CROW:

Q. Please state your name? A. Robert E. Bland.

Q. Where do you live? A. East St. Louis, Ill.

Q. How long have you lived there? A. Forty years.

Q. Were you ever in the railroad business? A. Yes, sir, with the Vandalia.

Q. For how long? A. From 1880 to 1903.

Q. Twenty-three years. In what capacity were you employed? A. I came from yard clerk up to one of their chief clerks; chief of the inbound.

Q. In-bound what? A. In-bound freight.

Q. Do you know where the Conlogue road is located over there? A. Yes, sir.

Q. Did you have any connection with the operation of that road, as an official of the Vandalia? A. No, not as an official.

Q. As an employee? A. Yes; I handled part of their business.

Q. Part of the Conlogue business? A. Yes; that is I gave orders on the Conlogue for the movement of freight.

Q. What part of it did you control? A. I issued the orders when there were rush cars, cars to be moved promptly, or anything of that kind; and handled telegrams.

Q. From what point to what point? A. From the Vandalia until we got the cars over the river.

Q. Over the Mississippi River? A. Yes, sir.

Q. Going west? A. Going west—yes, sir.

Q. What about the eastbound freight? A. The same way with that. You might say I was chief clerk for the yard matters. When the cars came up I gave orders to the switchmen about moving them.

Q. Whereabouts was the transfer of the cars made over the river? A. East Carondelet.

Q. East Carondelet? A. Yes, sir.

Q. What was that ferry called? A. We called it the Conlogue. The East St. Louis & Carondelet ferry.

Q. Was there a cradle on the east side of the river? A. Yes, sir.

Q. Who owned the cradle? A. The Conlogue owned that; the Vandalia.

Q. Was there a cradle on the west side? A. Yes, sir.

Q. Who owned that? A. We always supposed the Missouri Pacific.

Q. Do you know who owned the boat? A. The Missouri Pacific, it was understood, owned the boat.

Q. What street was it at the foot of on the Missouri side? A. I think it was Robert Avenue.

Q. That was the street on which the St. Louis, Iron Mountain and Southern track was located? A. Yes, sir. That is where the Missouri Pacific office was. That is, I understand it was. I was never there.

Q. What proportion of the freight of the Pennsylvania Railroad bound west of the river went over the Conlogue

and across this ferry? A Well, that would be hard to say. We gave them everything we could. All cars that were not live stock or perishable, we gave to the Conlogue, because they had a long haul down there, and did not work nights. And in case the car was left over, it was likely to be robbed or delayed.

Q. Was the transfer more rapid by the Conlogue than it was by the terminals? A. Well, no. Of course the Terminal could get a car over quicker than the Conlogue. But then there were times when the Conlogue would put cars over faster than the Terminal.

Q. What was the character of freight that went west over the Conlogue and across the ferry? A. Coal, coke, iron, rails—steel.

Q. What kind of coal was principally shipped—soft or hard? A. Soft, hard and slack coal. There was a lot of hard coal.

Q. Where was the hard coal from? What mines? A. Most of the mines on the Vandalia road—Collinsville.

Q. Where were the iron products mostly from? A. Pittsburg, Johnstown, and that territory.

Q. Did the Pennsylvania handle a great deal of the iron and steel that came west? A. Yes, sir.

Q. What was the character of the products that came east over the ferry and by the Conlogue track? A. Lumber and chatts. That's about the principal bulk of it.

Q. When you speak of lumber, do you mean sawed lumber or hewn lumber? A. Dressed lumber.

Q. Any lumber in the rough? A. There was rough lumber loaded in box cars. And quite a lot on the coal cars.

Q. Do you know where that forest product came from? A. The Iron Mountain and Cotton Belt.

Q. Business that the Conlogue had going east came principally from what road? A. Missouri Pacific and Iron Mountain.

Q. Have you any knowledge of the number of cars that would be handled a day there, both ways, loaded and empty? A. Oh, I guess anywhere from two to three hundred.

Q. Two or three hundred? A. More or less.

Q. Anyway, something like that? A. Something like that. Yes.

Q. Do you know whether that ferry is running now? A. I don't think it is. Of course I don't know; I have not been down there.

Q. Do you know what time it was discontinued, if it was? A. No, I don't know. I don't remember when it was discontinued. It was when the Missouri Pacific took their cradle out down there and moved down to Ivory, down to Bixby.

Q. Where is Bixby? What connection has that with the Missouri Pacific road? A. It is fifteen miles southeast of St. Louis; and all freight on the Iron Mountain, coming from the southwest, comes by the Valley Road, now the Iron Mountain, and goes to Bixby, and goes over the Merchant's Terminal, and is delivered to the different roads in East St. Louis.

Q. Over the Merchants' Terminal? A. Yes, sir.

Q. Does freight from the west side of the river go that way? A. For the west side?

Q. From the west side? A. Well, when it comes across that ferry it does. It is getting to go up to the Valley Junction, and then take the Merchants' Terminal into East St. Louis.

Q. Freight from the southwest bound for St. Louis does not go that way, does it? A. For St. Louis? I don't think it does. Of course they are free to have cars go that way.

Q. Where is that freight destined for that goes across the Ivory ferry, East St. Louis, or points beyond? A. Points

beyond East St. Louis. Spelter from the Edgar Zinc Co. and Christy Fire Clay Co., etc.

Q. How many boats did they run at the ferry when you were with the Conlogue? A. Sometimes one and sometimes two. Just according to business. They had two boats.

Q. How many cars did they put on a boat? A. I think one six, and the other five.

Q. Steam ferries? A. Yes, sir.

Q. Do you remember the old Cairo & St. Louis Narrow Gauge road? A. Yes, I remember it.

Q. Were you working over there in East St. Louis in the railroad yards when that road got access to the Relay Depot at East St. Louis? A. Yes, sir, I was working there at that time.

Q. How did they get in there with their rails? A. That was when they changed to M. & O.?

Q. When it was the narrow gauge. A. When it was narrow gauge they came up over the Wiggins Ferry to the bridge pier of the Eads Bridge.

Q. Didn't they lay a track down on the Conlogue road? A. They ran over the Conlogue on a third rail, but I don't think they ever came into the Relay as a narrow gauge road.

Q. Did the Conlogue permit them to lay that third rail on their track to get into East St. Louis? A. Yes, sir. What they called East Junction and North Junction—five miles.

Q. Was there a large number of loaded cars that went on the Conlogue road, coming from the west side? A. Yes, sir, quite a number.

Q. Where did that freight come from? A. Usually, on the Mississippi River & Bonne Terre—most of it.

Q. From those mines there? A. Yes, sir. Southeast Missouri and Doe Run.

CROSS EXAMINATION BY MR. WATTS:

Q. This ferry business of the Conlogue was handled in connection with the Missouri Pacific and Iron Mountain, was it not? A. It was run in connection with them.

Q. That was the ferry from East Carondelet in Illinois to to Robert Avenue? A. About Robert Avenue.

Q. In Carondelet, Missouri? A. Carondelet, Missouri, yes, sir.

Q. Your impression is that that was continued until the Iron Mountain opened up the ferry at Ivory? A. Yes, sir.

Q. Ivory is where? A. It is pretty near opposite Bixby, I think.

Q. After the Ivory ferry was opened, then the Missouri Pacific and Iron Mountain used their own transfer between Bixby and Ivory? A. Yes, sir, their own tracks and engines.

RE-DIRECT EXAMINATION BY MR. CROW:

Q. Do you know whether or not the Conlogue road carried down to the Robert Avenue ferry the freight for transfer from any other roads besides the Pennsylvania? A. Oh, yes, they got freight for all those industries at Carondelet from any road. Of course they would send it there because it was nearer, and they could get it over quicker than the bridge.

Q. Did they get any freight off the Southern Road, or the M. & O., for transfer across the river over the Conlogue? A. Yes. They got coal from the Southern and from the Mobile & Ohio; lots of that.

Q. It went down over the Conlogue? A. Yes, sir. That was principally coal, I think, for the Missouri Pacific and Iron Mountain road—their own stuff.

Q. The Conlogue road was open to any road? A. Yes, sir.

RE-CROSS EXAMINATION BY MR. WATTS:

Q. Where is Ivory? In what county is it? A. Ivory, as I understand it, is in Missouri.

Q. Is it in St. Louis County? A. I think it is.

Q. It is not in the city limits? A. I think it is just below the tracks somewhere. I have never been down there.

E. M. CURTIS, a witness of lawful age, being duly produced, sworn and examined, testified as follows, on behalf of the Complainant, to-wit:

DIRECT EXAMINATION BY MR. CROW:

Q. Please state you full name. A. E. M. Curtis.

Q. Mr. Curtis, where do you live? A. In Webster Groves.

Q. What is your business? A. Assistant General Auditor of the Missouri Pacific, and Iron Mountain roads.

Q. Does that include the Valley Road, on the east side? A. It does.

Q. And the Cotton Belt also? A. No, sir.

Q. How long have you been Assistant Auditor? A. Seven or eight years.

Q. Do you know when, if at all, your company ceased to operate the transfer ferry at Robert Avenue in South St. Louis? A. It was about the time that they opened up the ferry at Ivory, I think. Along about 1902 or 1903, wasn't it?

Q. I don't know; I am asking you. A. I really don't remember. It was about that time.

Q. It was at the time the ferry at Ivory was opened? A. Yes, sir

Q. Will the records in your possession—in the auditor's office, show that? A. Yes, sir.

Q. Did you keep in the auditor's office a record of the

volume of business that was carried on at the Robert Avenue ferry? A. We did; yes, sir.

Q. Have you any records or memoranda that would indicate what that is now? A. I presume we could find them; yes, sir.

Q. Will you make a search for that, and let me know about what was the volume of business—the number of cars, loaded and empty, that went across there?

Mr. Watts: For what period of time?

Mr. Crow: Just the annual number, from, say, 1900 to the time you stopped.

Q. Do you know, in a general way, the character of freight that went across there, east and west, by that Robert Avenue ferry? A. I think probably it was coal and lumber, largely.

Q. Coal westbound, and lumber eastbound? A. Yes, sir.

Q. What terminal property did it go over when it reached the east side? A. Now, I don't recall the situation there. Are you talking now of the Ivory or Robert Avenue?

Q. Robert Avenue. A. I think our interchange was with the Conlogue road.

Q. Did the Missouri Pacific own a cradle on the east side of the river? A. I don't remember; I think we did, though.

Q. They have ceased to operate their boats there? A. Yes, sir.

Q. Would your office have any knowledge of the rates that were charged there? A. It is covered by tariffs, and we would have those tariffs on file.

Q. You have those tariffs? A. Yes, sir.

Q. That is, the published tariffs? A. Yes, sir.

Q. Mr. Curtis, if you will look that record up for me, I will be obliged to you. A. I will do so.

Q. How long will it take you to do that? A. I don't know, sir; it depends on what shape our records are in.

Q. Just the totals are what I want. I don't want a detailed statement. A. The total number of cars?

Q. Yes. A. It will take a day or two, probably.

Q. Will you please notify Judge Rombauer when you can have them? A. I will notify him.

S. B. SCHUYLER, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name? A. S. B. Schuyler.

Q. What is your business? A. I am General Auditor of the Missouri Pacific.

Q. And Iron Mountain? A. Yes, sir.

Q. And Valley Route? A. Yes, sir.

Q. How long have you been such? A. Well, now, it would kind of bother me to tell you that. For at least seven or eight years.

Q. What position did you occupy before that? A. Assistant General Auditor.

Q. How long did you occupy that position? A. Seven or eight years.

Q. What position were you in before that? A. Chief clerk to the General Auditor.

Q. And how long were you there? A. I was there probably thirteen years.

Q. So you have been there altogether perhaps twenty-five years? A. Yes, sir, or more; twenty-seven or twenty-eight years.

Q. Do you remember when your company operated a ferry at Robert Avenue in South St. Louis, across the river, for freight? A. Well, sir, I cannot say that our company

operated it. It was the Waterloo & Carondelet Turnpike & Ferry Co. that operated that.

Q. Who owned the stock in that company? A. The stockholders.

Q. Who were they? A. Well, sir, I am not the Secretary of that company.

Q. Who is? A. I cannot tell you, sir. I don't remember. But I know that a man named Arnold was, at one time.

Q. Who is he? A. He is dead.

Q. Is anybody alive that ever owned any of it? A. Yes, sir. I think, as a real fact, that the majority of the stock is owned by the Missouri Pacific Railway Company. That is the name of the company. It is still operating there. It is a live corporation.

Q. What official of your road would know about these facts? A. I suppose by going and delving myself, I could find out about that. But, of course, the secretary of that company is the real one.

Q. Who is he, and where is he? A. Well, sir, I cannot remember to tell you, sir. It is not that I don't wish to, but I don't remember. But it practically amounts to this,—that the railway company owns the majority of the stock.

Q. That is, the Missouri Pacific? A. The Missouri Pacific, not the Iron Mountain.

Q. And the Missouri Pacific owns a majority of the Iron Mountain stock also? A. That may be.

Q. When did the ferry cease to be operated at the foot of Robert Avenue, if you remember—what year? A. Well, sir, I could not, without reference, tell you the year, but about the time the Ivory ferry opened up from Ivory to East Ivory—I think very shortly thereafter they dropped the operation of the Waterloo & Carondelet transfer. But they did not drop the operation of the ferry; I did not say that. I want to make that distinction. The ferry is still running.

Q. But not at that point, is it? A. Yes, sir, it is still running at that point.

Q. Does it go across? A. It goes across to the other side.

Q. To a connection with the Conlogue road? A. I said nothing about the Conlogue road. I said it was running a ferry.

Q. Where does it go? To Bixby? A. No, sir.

Q. Where does it go? A. To East Carondelet. Are you talking of car transfer?

Q. Yes, sir. A. I was talking of a ferry.

Q. I was talking about a car transfer. A. The car transfer stopped about the time, or a little after the time, that the Ivory transfer of the Iron Mountain opened up from Ivory and East Ivory. The ferry is still running from Carondelet to East Carondelet.

Q. Does the same company run it? A. Yes, sir.

Q. That is, for passengers, and wagons and teams? A. Yes, sir.

Q. Nothing else? A. Nothing else.

Q. Now, as auditor of the Missouri Pacific Railway, have you had occasion to audit expense bills and freight bills of the road? A. Well, the expense bills usually go to the consignees of the freight.

Q. I mean the freight bills of the Missouri Pacific railroad? A. The freight bills usually go to the consignee of the freight. May I ask you to let me know what you mean? When you say "expense bills"—they go to the consignee.

Q. I will ask the direct question, then: As auditor of the road, do you have any records in your office to show the amount of revenue received by the Railroad from the Valley Company from the car transfer business at that ferry down there at Robert Avenue? A. Yes, sir.

Q. And the rate of transfer? A. Yes, sir.

Q. Can you tell, without looking up your record, what

that rate of transfer was on coal and chatts? A. I cannot tell without looking up my records.

Q. Will you look at those records and let me know, from the year 1898 until the time it ceased? A. I will ask my attorney, and if he says to let you know, we will gladly furnish it.

Q. We are doing this for your accommodation, Mr. Schuyler. A. I say I will be glad to do so, if the attorney is willing. What you want is the number of cars of chatts and coal.

Q. And the rate. A. Well, the tariff would show the rate.

Q. It might, and it might not. I want the rate that was charged by the railroad. A. Well, now, as I say, from 1898 to 1907 is nine years. That is an immense amount of work.

Q. It did not run to 1907, though. A. You said 1898, didn't you?

Q. Yes, but it stopped in 1902. A. Well, if it is not too much work. If it is a very large amount of work, and costs too much money, I would beg to ask you to relieve me from any such statement. If it would take too much time or too many clerks to make up such a statement, I would not like to undertake to do that. Now, I have no objection to its being done, but I don't like to promise to expend a large amount of time or money.

Q. But, wouldn't it be better for you to do this than it would to have to carry all your books in here, and have us go through them and pick it out? A. Oh, I don't know. We have, in a general way, a statement made up. But, do you wish me to deposit a statement of it here in the court? Suppose I should prepare a statement of the monthly business and merely show it to you. I would not like to lose it from my files.

Q. I want a statement showing the rate of transfer. A.

I mean a statement that would show the rate of transfer on every car. If we could merely show it to you and retain it. But I would not like to leave it with you.

Q. I don't want to break into your files, or cause you any inconvenience; but we want those records, and want to get them, if we can. I am trying to accommodate you. A. What I meant was, that if our attorney says it is a thing that we should go to work and start in men to get out—if he says so, we will do it.

Q. Didn't I understand you to say that you had a statement already made up? A. I say, "if" we have; but I don't know that it is segregated. I may have the business for the month, but the business simply for chatts and for coal may not be segregated, each from the other. You understand what I mean? It might include other business—there may be some other business there. What I had in mind was that possibly I could show you the statement, and show what the rate was. The rates were unvarying, so far as I know.

Q. Will you look that up and let me know to-morrow afternoon, or in the morning? A. I won't promise about the afternoon or morning, if you wish to cover from 1898 to 1907.

Mr. Watts: 1902 was what he asked for. A. Five years ago?

Mr. Crow: Q. Didn't you stop operating there then? A. Well, it may have been that we did. You have no objection, have you, to my being guided by my attorney in the matter, as to whatever is right and proper?

Q. I have no objection. A. What you want is a segregated statement of coal and a segregated statement of chatts, or the two together?

Q. I don't care whether they are together or separate. What I want is the volume and the number of cars; and I would like to have also the total number of cars, loaded and

empty, that crossed those ferries at that time, and the rate. A. Coal and chatts, or all kinds?

Q. All kinds. But I don't care about the rate on anything but the coal and chatts.

C. H. STEVENS, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name? A. C. H. Stevens.

Q. You live in St. Louis? A. Yes, sir.

Q. What business are you in now? A. I am not employed at the present time.

Q. What business were you formerly in? A. Yard clerk, principally.

Q. Yard clerk? A. Yes, sir.

Q. Railroad yard clerk? A. Yes, sir.

Q. At the Missouri Pacific yard? A. Missouri Pacific-Iron Mountain yard.

Q. At Carondelet? A. I was there two years; yes, sir.

Q. At the transfer ferry? A. I was for five or six years at that position.

Q. At what ferry were you located? A. The foot of Stein street.

Q. Is that what was known as the Carondelet ferry? A. Yes, sir.

Q. Then it was not at the foot of Robert street? A. That is where the office is.

Q. Is it near that? A. A couple of blocks south down the river bank.

Q. What road did they operate in connection with on the other side? A. I was with them when they operated with the Conlogue, Vandalia and Terminal.

Q. Did the Terminal have a track down at that time?

A. They used the old Conlogue; and the Vandalia used the old Conlogue.

Q. That was after the Terminal Railroad Association bought the Conlogue? A. Yes, sir.

Q. Before it was sold to the Terminal, just the Conlogue operated that road? A. Yes, sir.

Q. What were your duties there? A. I had to handle cars in general. I would receive them off the boats, get the way-bills, card them, and get them started right.

Q. Did you check the number of cars, etc.? A. Yes, sir.

Q. Did you keep track of the number of cars that came across? A. Yes, sir.

Q. What was the general character of freight that crossed there, backwards and forwards? A. From the east principally coal, and coke—different kinds of freight.

Q. Destined to St. Louis, principally? A. Well, to the industries there, but principally to the Missisippi & Bonne Terre road—the coal and coke.

Q. Where is the Mississippi River & Bonne Terre road? A. It connects with the Iron Mountain at Riverside, Mo., about nineteen miles south.

Q. That is, south of St. Louis? A. Yes, sir.

Q. And runs down to the lead mines? A. Yes, sir.

Q. What came up over the Mississippi & Bonne Terre to the Conlogue road? A. Chatts and pig lead, principally; and lots of concentrates; that is, ground-up lead.

Q. You had nothing to do with the collection of the charges or the settlement of the bills A. No, sir.

Q. You made your reports to the agent? A. Yes, sir.

Q. And he made them to the autditor? A. Yes, sir.

Q. About how many cars would go over there, backwards and forwards, both ways? A. We would average, conditions favorable, about two hundred and fifty or three hundred cars a day.

Q. Did the ferry run on Sundays? A.Yes, sir.

Q. Every day? A. Yes, sir.

Q. How many boats did they run? A. Two boats.

Q. Do you know when they stopped operating that ferry? A. I think it was some time in 1902.

Q. Do you know the occasion of their stopping? A. On account of building their own cradle at Ivory.

Q. At Ivory? A. Yes, sir.

Q. What time of the year was that? A. I don't exactly remember. I could not say. I was there, but I was working right along in different positions through the yard, and I never paid any particular attention.

Q. Did they operate the ferry at Ivory instead of Stein street? A. Yes, sir.

Q. Where did they land on this side—Ivory Station? A. Right opposite Ivory.

Q. What was the landing upon the Illinois side? A. It was called East Ivory. Right directly across from West Ivory. That is in St. Louis County, below the River des Peres.

Q. What railroad point was the landing opposite on the Illinois shore? A. It belonged to the Iron Mountain.

Q. What railroad point was the landing opposite on the Illinois side? A. A place called Vulcan. That is where the M. & O. crosses the Iron Mountain, at that point.

Q. You don't understand me. How far was it from Bixby? A. About four miles.

Q. Was there a track out there to Bixby? A. Yes, sir.

Q. Built by the Missouri Pacific? A. By the Iron Mountain.

Q. By the Iron Mountain? A. Yes, sir.

Q. How did the transfer across the river there compare in point of time with the transfer over the Terminal properties? A. You mean to compare the Ivory work with the other work?

Q. Yes, sir? A. I think it was a kind of a failure.

Q. As to time? A. Yes, sir.

Q. How about the comparisons between the ferry at Stein street and the Terminal transfer, in point of time? A. Well, at Stein street they had more advantage, and I think the work was better there.

Q. Better than it is at Ivory, as far as time is concerned? A. At Ivory now, do you mean? Yes, sir.

Q. How did it compare with the Terminal for time? A. Do you mean at Ivory or Stein street?

Q. At Stein street. A. I guess the Terminal had the best of it all the way through there.

Q. The Terminal could transfer quicker? A. Yes, sir.

Q. Do you know whether there is any difference in the rates? A. No, sir, I am not acquainted with them.

Q. You don't know anything about that? A. No, sir.

Q. Did the Missouri Pacific operate that ferry? A. Yes, sir.

Q. And you worked for the Iron Mountain? A. The Iron Mountain—yes, sir.

Q. Did you get your pay from the Iron Mountain road? A. Yes, sir.

Q. Do you know whether that ferry was open to all traffic that the Conlogue brought down to it? A. It always was when I was there.

CROSS-EXAMINATION, BY MR. WATTS:

Q. You were altogether on the west side of the river, were you, Mr. Stevens? A. Yes, sir.

Q. How long since you ceased to work for the Iron Mountain road? A. In September; about the 21st of September.

Q. 1906? A. 1906; yes, sir.

Q. These 250 or 300 cars a day that you speak of, did that include empties as well as loaded? A. Yes, sir.

Q. And there were about the same number of empties as

loaded cars, as a rule, as a general thing? A. That is, coming to the west side?

Q. Yes. A. Coming from the east was principally loaded.

Q. And principally empty going east? A. About half and half going east.

Q. Does the ferry run at night? A. Only when business calls for it, at Stein street. It runs night and day now at Ivory.

Q. But not at Stein Street? A. No, sir; not at Stein Street.

St. Louis, February 6th, 1907.

Met, pursuant to adjournment as above, on Wednesday afternoon, February 6th, 1907, at half-past two o'clock, in the office of the Special Commissioner, in the Roe Building, St. Louis:

Present: Hon. R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared on behalf of the Complainant.

Mr. M. F. Watts appeared on behalf of the Defendants.

The following proceedings were had:

S. B. SCHUYLER, recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Mr. Schuyler, you have furnished here to the Commissioner, Judge Rombauer, a memorandum which purports to be a memorandum of the rates charged for transfer over the Carondelet ferry during the period 1898 to 1902, inclusive. In that statement, I believe, it is shown that the transfer rate on coal had been, with some few exceptions,

thirty cents per ton local, twenty cents per ton on through business, and on coal to Mississippi River and Bone Terre points transferred, $2.18 per car, this being the proportional through rate from East St. Louis. The transfer rate on chatts ranged from $1.50 to $2.00 per car. Will you state—or, if you cannot state—will you furnish me with the exceptions where the rate has been less than thirty cents per ton local and less than twenty cents per ton through business, on coal? A. Where it has been less?

Q. Yes. A. I think the exceptions are that they are minimum. I think there is a minimum charge that would vary the rate, a cent or a cent and a half.

Q. Is it a minimum or maximum rate which is a cent or a cent and half? A. It is not either. Regular rate.

Q. Then what do you mean by saying "minimum?" A. Did I say "minimum?"

Q. That is what you said. A. I mean there is a minimum per car, which made up a cent and a half, and it would require, say on fifteen tons, at 30 cents per ton—$4.50. Now, suppose there are only ten tons in the car——

Q. Is that the only exception you refer to? A. Yes, sir, that is what I had in mind.

Q. That is not what this says, though. Let me read you what it says: "The transfer rate on coal has been, with some few exceptions,"—etc. A. Yes, sir, the rate works in that way. A cent and a half per hundred; but it may be with a minimum of $3.50 or $4.00 per car.

Q. But that is not what you say. We are talking about what is contained in this statement. A. It is the same way. A cent and a half per hundred is thirty cents per ton.

Q. If you will look at the first question you will see what I mean. A. In other words, I might have said a cent and a half local, and one cent on through business.

Q. What are the exceptions that you have referred to?

A. It may be that there has been a higher rate where there is a minimum per car.

Q. You mean a minimum number of cars? A. No, sir.

Q. A minimum number of time? A. Yes, sir; at the rate of a cent or a cent and a half per hundred.

Q. Your records would disclose that, would they not? A. Yes, sir, I suppose so.

Q. Has there been a less rate than a cent or a cent and a half? A. I think not, sir.

Q. You know, don't you? A. I believe not.

Q. Have you examined your records? A. We have examined them in a way. I have seen nothing of that sort.

Q. I will get you to state whether or not, during the period mentioned there, from 1898 to 1902, your road has given over the transfer ferry a less rate than a cent or a cent and a half per hundred to any person, individual, corporation or firm, for the transfer of coal? A. I think not, I think no less rate. It may have been a little higher, because there may have been a minimum per car.

Q. You would know about that if there had been? A. We can tell; yes, sir.

Q. In this statement you say that on coal to Mississippi River & Bone Terre R. R. the transfer was $2.18 per car? A. That is a division of a through rate.

Q. What will you cars average; what number of tons? A. I could not say off-hand what that would be.

Q. Well, you have an idea about that, haven't you? A. No. I suppose they will average thirty-five to forty thousand pounds.

Q. Don't you run higher than that, as an average, and haven't you, since 1898? A. I don't know that they have; no, sir.

Q. Have you any twenty-ton cars now in coal service on your road? A. I could not tell you, sir.

Q. Don't the records in your office show the tonnage?

A. You see, that is five years ago. At the best, we had twenty-ton cars then.

Q. Don't the division sheets filed in your office show the tonnage and the rate of every car? A. Oh, yes. That is, it is not a division sheet—it is a revenue sheet.

Q. Do you call it a revenue sheet? A. Yes, sir.

Q. It contains the rate and the tonnage? A. It contains the tonnage, at a certain rate.

Q. And that carries a revenue with it? A. Yes, sir.

Q. You have those sheets? A. Yes, sir.

Q. Will you furnish me those division sheets, showing division of rates on coal going west and south, from Carondelet proper? A. Will I furnish them?

Q. Yes. They are all made up. You don't have to make them up. They are in your office. A. Division sheets? I think you have the wrong name.

Q. You can call them any kind of sheets you like. It is the sheet that shows the tonnage, and the rate and the revenue received. That is filed in your office right along by the agent down there at Carondelet, isn't it? A. Do you mean the billing?

Q. Well, you can call it billing, if you want to. A. Do you mean the way-billing of the car?

Q. I mean whatever record is furnished you by the agent, that shows the number of cars, the number of tons, the rate and the revenue. Will you furnish that to me? A. That would be a large piece of work, for five years.

Q. Well, you have not given me what I have asked for, and I will have to dig it out from the records myself. A. May I confer with our attorney over there, and see?

Q. Certainly. A. The expenditure to be put in on that is a matter to be considered, I think.

Q. That is a matter for your attorney, of course. A. Isn't it that you wish the rate and the division of the rate, rather than to have the detail of all the cars?

Q. I am not satisfied with the answer that you have given me, and will have to dig out these facts for myself. A. May I elucidate that particular part of this statement?

Q. Certainly, you may elucidate it all you please. I will be glad to have you. A. Without making a physical abstract of five years' business—— The rate is fixed, but is governed by the tonnage, that is, the number of pounds in the car. That is governed on the through business from East St. Louis to the points mentioned. That is again divided between the two railroads and the transfer. Now you wish to see what the division of the rate has been during that five years; is that right? Do you want a car that will be an example of the whole?

Q. I want the charge that you collected for transferring cars there. If you will furnish me these sheets I will dig it out for myself. A. Those sheets are a part of our regular office file.

Q. I tried to save you that trouble, but I find that I am not going to be able to do it. A. Isn't that $2.18?

Q. That is what you say as to coal on Mississippi River & Bonne Terre. A. That is what you are speaking about, isn't it, sir?

Q. I am not asking specifically about the Mississippi River & Bonne Terre. I am asking you generally. What I asked you particularly about the Mississippi River & Bonne Terre R. R. was the question of chatts, but you have given the answer with reference to coal. A. Both coal and chatts.

Q. I asked you generally about the transfer charge on coal. A. It is a cent and a quarter on through business, and a cent and a half local. Twenty cents a ton.

Q. Will you furnish me those division sheets, and I will dig it out for myself? A. The division sheets?

Q. I call them that. You know what I want. I want the number of cars, and the tonnage, and the rate and the

revenue—the records in your office that show that. I may not call them by the same term you do, but they are there, I know, because all railroads keep them, and your office is the particular place in the railroad where they do keep them. Now, you refer here to the transfer rate on chatts and say that it ranges from $1.50 to $2.00 per car. Have you any idea as to the number of tons in an ordinary chatt car? A. No, sir, it is goverened by the rate on the number of cubic yards of chatts in the car. It is measurement, it is not tonnage.

Q. I am asking about the tonnage. A. I don't know the tonnage. They are measured by cubic yards. They are not weighed. I cannot give you the tonnage.

Q. Well, a cubic yard ought to weigh so much—that is an arithmetical proposition. Will you furnish me your records on that question, showing the rate on chatts? A. I will ask our attorney if we shall send all these records over here. There are a very large number of them.

Q. I can get the information I want, if you will furnish them to me. Will you consult your attorney and let us know right away? Because if you don't want to furnish them, I will have to try to get them some other way. A. I will let you know as soon as possible.

E. M. CURTIS, recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. CROW:

Q. Mr. Curtis, I have a statement here signed by you as Assistant General Auditor, addressed to Judge R. E. Rombauer, in which you say: "I submit to you the following statement, showing the number of loaded and empty cars transferred east and west, across the Mississippi River by the Waterloo & Carondelet Turnpike & Ferry Co., at Carondelet, Mo., during the period January first, 1900, to April

1st, 1904—on this latter date the transfer of cars by way of Waterloo & Carondelet Turnpike & Ferry Co. was discontinued and business handled by the St. Louis, Iron Mountain & Southern ferry at Ivory." I will ask you to state if the statement that you furnish here is a statement of the total number of cars beween the dates you have mentioned? A. The total number of cars handled across the river; yes, sir.

Q. That includes everything, without regard to what road it came over or where it was destined to? A. Yes, sir.

Q. Is there any way by which you can differentiate, and get the busines originating at or destined to St. Louis, apart from the other traffic? A. I can; yes, sir.

Q. Your records would disclose that? A. They would show that; yes, sir.

Q. Without looking over those records, could you give your judgment as to what per cent of it would be what we call local business—that is, that originated in or was destined to the city of St. Louis? —A. I don't think I could.

Q. Couldn't you approximate it? —A. I have no idea.

Q. This statement that you have here, addressed to Judge R. E. Rombauer, Special Commissioner, and dated 2-6-07, signed E. M. Curtis, Asst. General Auditor,—is that a correct statement of the number of cars? A. It is a correct statement.

Mr. Crow: I will now offer that in evidence.

Above paper is marked Complainant's Exhibit of E. M. Curtis," and is in words and figures as follows, to-wit:

THE MISSOURI PACIFIC RAILWAY.

St. Louis, Iron Mountain & Southern Railway Co. and Leased, Operated and Independent Lines.

S. B. Schuyler, General Auditor.
E. M. Curtis, Asst. Genl. Auditor.
J. S. Tustin, Frt. Claim Agent.

E. H. Lycett, Auditor Disbursements.
W. Q. Morcom, Auditor of Frt. Receipts.
H. H. McIntyre, Auditor of Passenger Receipts.
Accounting Department.

St. Louis, Mo.

In reply refer to
File No. 702
Date 2-6-07.

United States vs. Terminal Railroad Association of St. Louis.

Judge R. E. Rombauer, Special Commissioner, Roe Building, City:

Dear Sir:—I submit to you the following statement, showing the number of loaded and empty cars transferred, east and west, across the Mississippi River by the Waterloo & Carondelet Turnpike & Ferry Co., at Carondelet, Mo., during the period, January 1st, 1900, to April 1st, 1904—on this latter date the transfer of cars by way of the Waterloo & Carondelet Turnpike & Ferry Co. was discontinued and business was handled by the St. Louis, Iron Mountain & So. Ferry, at Ivory:

	Loads.		Empties.	
Year.	East.	West.	East.	West.
1900	30,971	22,164	12,405	12,634
1901	28,764	25,396	13,358	9,222
1902	28,621	27,386	12,984	9,187
1903	19,615	22,219	8,706	3,673
1904—				
1-1 to 4-1.....	2,122	2,966	1,650	311
Total	110,093	100,131	49,103	35,027

Yours truly,

E. M. Curtis, Asst. General Auditor.

P. L. DUBOIS, recalled, on behalf of Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Mr. DuBois, do you know what is termed "demurrage" on car service, under the Car Service Association rules? A. Well, I would call it the use of a car by the consignee, after a certain number of hours which are allowed him by the railroad company for unloading that car. That is the best definition I can give.

Q. Prior to the 1st of October, 1905, what was the number of hours that was allowed before the demurrage charge applied to shipments of coal in the city of St. Louis? A. Prior to October 1st, 1905?

Q. Yes. A. I don't believe I recall, unless it was the same as it is now; seventy-two hours.

Q. Seventy-two hours? A. Yes, so far as I remember.

Q. When did the seventy-two hours begin to run? At what particular point in the history of the transportation of the car? A. At the time that it set for unloading.

Q. At the point designated by the consignee? A. Yes, sir.

Q. What was the rate of demurrage after the expiration of the seventy-two hours? A. I don't believe I remember. Probably one dollar a car.

Q. Is that what it is at present? A. I believe it is; yes, sir.

Q. A dollar a car for how long? A. Every twenty-four hours or fraction thereof.

Q. For every fraction of twenty-four hours, or full period of twenty-four hours? A. Yes, sir.

Q. If it is longer than twenty-four hours, is there any diminution in the rate? A. I think not.

Q. The same rate maintained? A. The same rate maintained; yes, sir.

Q. Your company ships a good many cars of coal in here annually? A. We ship a good many cars; yes, sir.

Q. You have paid a good deal of demurrage, haven't you? A. I don't recall that we have paid so very much.

Q. But you have paid some, haven't you? For instance, to the Wbash Road? A. Not in this territory.

Q. Not in the city of St. Louis? A. No, sir.

Q. Never paid any? A. Oh, well, I do not say "never" —but there is none that I do recall.

Q. Have you paid any to the Iron Mountain or Missouri Pacific? A. No, ir.

Q. Will your books disclose whether or not your company paid any? A. I could ascertain; yes, sir.

Q. Will you look that up, and let me know? A. Yes, sir.

Q. I have here now a statement furnished by you, purporting to be "Movement of cars subsequent to delivery at East St. Louis, Illinois, freight paid to that point by shipper. Such movement on order of consignee, who paid any freight accruing after taking possesion of car at East St. Louis, Illinois." I will ask you if there was any movement of cars by your company, other than what you have designated in this statement? A. No, sir.

Q. In other words, you mean to testify that your company only ships in cars to St. Louis, Mo.? A. Practically; yes, sir.

Q. Is that true? A. Yes, sir, we sell almost all our coal at East St. Louis.

Q. That is not answering the question. Does you company ship any cars of coal to St. Louis, Mo? A. Well, we do ship some coal to St. Louis, Mo. Yes, sir.

Q. Have you any idea, or will your records disclose, what cars you shipped, and what number of cars? A. To St. Louis, Missouri?

Q. Yes, sir. A. During what period?

Q. Say from 1900 to October, 1905? A. I know the records from November, 1903, will—and prior to that I presume they will also.

Q. Well, say, from 1903, if you have a knowledge of that? A. Showing whether we shipped any coal to St. Louis, Missouri?

Q. Yes, sir. A. Yes, sir.

Q. Well, did you ship any during that period? A. Well, considerable of our coal comes to St. Louis, Mo., but it is sold by us at East St. Louis.

Q. Did your company ship any to St. Louis? A. Not on direct shipment. But I will have to say that we did ship coal in during that period of time.

Q. Isn't this true, that you sell coal at East St. Louis, or on board cars, for delivery at St. Louis? A. Frequently; yes, sir.

Q. And have done so since 1903? A. Yes, sir.

Q. Now, in this statement that you have identified here, I find a shipment, on the second page thereof, marked "To St. L. I. M. & S. Ry., order of J. M. Walsh, Supt. Term., Carondelet, Mo." That has a total tonnage of 3,352,600 pounds? A. Yes, sir.

Q. Do you know where that coal originated? It is marked with the initial "Sou." A. From the Green Mount Mine.

Q. Where is that? A. It is in the Belleville district. The exact location I don't know.

Q. In the State of Illinois? A. Yes, sir.

Q. On what road? A. The Southern Railway.

Q. The Southern Railway? A. Yes, sir.

Q. The car was destined, when it left that mine, to the Iron Mountain Railroad, was it? A. Yes, sir.

Q. And the same way with all those shipments that are addressed to the Iron Mountain Railway—that coal all orig-

inated in the State of Illinois? A. It all originated at one mine.

Q. On page 3, I find shipments "To Missouri Pacific Ry. Co. order of J. M. Walsh, Supt. Term. St. Louis, Mo.," with total number of 12,124,400 pounds. Where did that shipment originate? A. Green Mount Mine, also, in Illinois.

Q. And when that car started, it was destined, was it, to the Missouri Pacific Railway, in the State of Missouri? A. Yes, sir.

Q. And the sale had been made? A. The sale had been made at East St. Louis.

Q. The sale had been made for delivery to the Missouri Pacific Railway at East St. Louis? A. Yes, sir.

Q. These shipments referred to include many cars—several hundred probably, don't they? A. Yes, sir.

Q. The next seems to be Missouri Pacific Railway, order E. F. Kearney, Supt. Term. Mo. Pac. shops, St. Louis, Mo. A. That is practically the same as the other. The reason for the separation is that it is a different consignee. I understand that Mr. Walsh was transferred at that time, and Mr. Kearney took his place.

Q. There are a good many cars in that shipment, too? A. Yes, sir.

Q. 2,143,300? A. Yes, sir.

Q. That shipment was destined when it left the mine to the Missouri Pacific Railway? A. Yes, sir.

Q. And had been sold by the Consolidated Coal Company? A. At East St. Louis; yes, sir.

Q. The next shipment seems to be "To Con. Coal Co. of St. Louis, River Dept. E St. Louis, Ill. Dumped to that Co.'s barges at Sou. Ry. Incline E. St. Louis and sold to boats plying on the river; and those shipments amount to 3,914,500 pounds, carried in numerous cars; where did that shipment originate? A. Green Mount Mine.

Q. Whose barges were those that it was dumped into? A. The Consolidated Coal Company's.

Q. Where was it delivered? A. On the river.

Q. Where did the barges carry it? A. They carried it to the steamboats requiring the coal.

Q. To steamboats on the river? A. On the Mississippi River; yes, sir; in the river near S. Louis.

Q. Which side of the river? Both sides? A. I think most of it was on the east side.

Q. Most of it was delivered on the east side? A. Yes, sir.

Q. Some of it was delivered on the west side, wasn't there? A. Probably some on the west side of the river.

Q. To the steamboats that landed at the wharves at St. Louis? A. I don't know whether the steamboats were landed. That is part of the business that I am not fully versed on; but it was sold to steamboats.

Q. In other words, to boats plying on this navigable river, the Mississippi? A. Yes, sir.

Q. At St. Louis? A. Yes, sir.

Q. That sale was made before the coal left the mines in Illinois? A. That would not be properly classed a sale, because it was shipped to our own company for its river department; and while we charged it up as a sale, for the purpose of crediting the amounts, there is really no money transaction in it. It is our own coal that is sold to ourselves; that is what it amounts to.

Q. Then it was your coal when it left the mines in the State of Illinois, and it was your coal when it was delivered to whatever steamboat took it? A. Yes, sir.

Q. And it was delivered off of your barges? A. Yes, sir.

Q. The next shipments seem to be to the Mo. Pac. Ry. Co. order of J. M. Walsh, Supt. Term. Mo. Pac. shops, St. Louis, Mo., amounting to 1,514,000. A. The only reason for showing that separately is that it is from the Gartside

Mine. The other shipments were from Green Mount Mine.

Q. It is all from the Southern road? A. Yes, sir.

Q. And that was carried in different shipments, and in different cars? A. Yes, sir.

Q. And that coal was sold by the Consolidated Coal Co. to the Misouri Pacific Railway? A. Yes, sir.

Q. And was sold prior to its shipment at the mines? A. Yes, sir, on orders placed there.

Q. There is something here from Gartside; what is that? A. That is the Gartside Mine that I spoke of. All the amounts on page 7 are from the Gartside mine. The other is the Green Mount.

Q. That seems to be Southern. It says "Sou." A. That is the initial of the car.

Q. And it is from the Gartside Mine? A. Yes, sir.

Q. That "Sou." means shipped in a "Southern' 'car? A. Yes, sir, that is the initial of the car.

Q. That shipment went to East St. Louis, to the Malleable Iron Works? A. Yes, sir.

Q. And that was from the Gartside Mine? A. Yes, sir.

Q. Now, I will ask you, Mr. DuBois, if you know whether or not if the Consolidated Coal Company has paid demurrage on any cars to the Missouri Pacific, Wabash or Iron Mountain, that road, or any official of it rebated the Consolidated Coal Company for that demurrage? A. No, sir.

Q. You say you don't know? A. I don't know.

Q. Your could not testify, then, as to whether or not that is true? A. No, sir.

Q. If that was done, what official of the Consolidated Coal Company would know it? A. I cannot answer that question, either, because I don't know that it is done.

Q. I say, if it was done, what official would know it, in the course of business? A. I presume I would, in the course of business, if there were any payments of that kind

made it would finally come back to my department in some way.

Q. To the auditor's office? A. Yes, sir.

Q. But, so far as you know, nothing of that kind has been done? A. No, sir, nothing of that kind has been done.

Q. At any time? A. At no time.

Q. Who is the President of your company? A. Mr. Edgar T. Wells.

Q. Will you please tell me again the name of the sales agent? A. W. L. Schmick.

Q. What is his address? A. St. Louis.

Q. Have you his street number, or would it be at your office? A. His office is in the Dolph Building. His residence is on Forest Park Boulevard, but I don't know the number.

Q. Do you know a man by the name of Edgar T. Wells? A. Yes, sir.

Q. What position does he occupy? A. President.

Q. Do you know whether or not he is an official of the Wabash Railroad? A. Only by having heard that he was.

Q. What position do you understand that he holds? A. He is Vice-President, I understand.

Q. Where does he live? A. New York City.

CROSS-EXAMINATION, BY MR. WATTS:

Q. The J. M. Walsh mentioned in this statement as "Supt. Term."—what does that mean? A. Superintendent of Terminals in the Missouri Pacific Railway. I probably did not make that as clear as I should have made it.

Q. The same applies as to E. F. Kearney, "Supt. Term."? A. The same answer—Superintendent of Terminals of the Missouri Pacific Railway.

Q. The coal referred to on page 6 as River Department coal was for consumption on your own vessels? A. No

sir, we have no vessels. It was for sale to other vessels plying on the Mississippi River.

Q. From your own barges? A. From our own barges.

The further hearing of testimony in this case is adjourned until tomorrow, Thursday, February 7th, 1907, at half past two o'clock.

R. E. Rombauer,
Special Commissioner.

WILLIAM K. KAVANAUGH, a witness of lawful age, recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW.

Q. Mr. Kavanaugh, do you know Mr. R. A. Campbell, Freight Agent of the Southern Railroad? A. I do.

Q. Did he join with you in organizing the Interstate Car & Transfer Company? A. I don't think he went into the organization. He may have He had some little stock in the company,—I think some ten or fifteen shares—something like that.

Q. When did he acquire that,—soon after the organization? A. If not at the start, very soon afterwards.

Q. The Interstate Car & Transfer Company did a general transfer business? A. Car transfer business.

Q. Only car transfer business? A. Only car transfer business; yes sir.

Q. And they owned cradles and boats on both sides of the river? A. No sir; they owned the cradles on this side of the river, at the Burlington incline. We owned those cradles, but we did not own the cradles on the east side. That was owned by the old Venice & Carondelet Belt but it was afterwards acquired by the Southern Railroad. It was owned then by the receivers of the Louisville, Evansville & St. Louis Railroad—the old Air Line.

Q. It is called the Southern Belt line? A. It is called the Southern Railroad Belt; yes sir. They owned the cradles on the east side of the river.

Q. Are those cradles still operated in connection with it? A. Yes sir, they are still operated.

Q. When you operated that line, how many boats did you use? A. We used at the start—when we started in connection with lauding at the Wiggins Ferry incline at Miller Street, we used one boat and one barge—that is, a tow-boat and a barge. But afterwards we increased it to two—and that is the number that the ferry has now, two boats and two barges.

Q. What is the distance from that cradle at the dike to the cradle on the Burlington incline? A. I should say three and a half miles.

Q. Most of your transfer was done between those two points? A. Yes sir, between those two points.

Q. Up the stream and down the stream? A. Yes sir.

Q. And in doing that transferring you were competing with the Wiggins and the Terminal? A. Yes sir.

Q. The same kind of busines, and the same character of business? A. Exactly; yes sir.

Q. Do you own any stock in the Arsenal Street Railway on this side of the river? A. No sir.

Q. Do you hold any as trustee? A. I am trustee for it; yes sir.

Q. Who is the beneficiary in that trust? A. The Wiggins Ferry Company.

Q. When did you become the trustee? A. I think in 1903.

Q. After the sale of the Interstate Car & Transfer Company? A. Oh, yes. The sale of the Interstate Car & Transfer to the Terminal took place a year before that, I think. Probably 1902, to the best of my recollection.

Q. Do you know when the Wiggins Ferry Company

acquired that stock? A. It came down through a foreclosure sale. Col. John Overall bought it, I think, for Mr. Scullin, and from Mr. Scullin it passed to me, as trustee.

Q. What time? A. It was away back there a good many years ago.

Q. Do you know what properties that corporation controls on this side of the river? A. Yes sir.

Q. What properties? A. Their property consisted, when I took it over, of a power-house—I should say about 1800 or 1900 South Second Street, including twelve electric cars equipped ready to run, and the usual paraphernalia around a power-house and storage car shed. And then they owned the tracks from Chouteau Ave. south on Third Street to Dorcas Street, east on Dorcas to Second, and north on Second to Chouteau, making the circle of tracks complete.

Q. Making a loop? A. Yes sir, between Chouteau and Dorcas, and Second and Third.

Q. Was that all the property they owned? A. That was all they owned in property. Yes sir. But they owned the poles and wires, of course. They were still standing when they took hold of it.

Q. And that is all the property? A. That is practically all the property they had. They did have some poles and wires on Fourth Street.

Q. Did they have a franchise on Fourth Street? A. They had the right to use the old Green Line tracks on Fourth Street up to Morgan Street.

Q. Has that right been forfeited, do you know? A. I believe a forfeiture was claimed. The City claimed forfeiture, but we have not given up to it yet. It is now in litigation.

Q. You say the Wiggins Ferry Company owns that property at this time? A. It is controlled by me as trustee for the Wiggins Ferry Company.

Q. Have you operated it since you have had it? A. No sir.

Q. Do you know whether there is any right to operate steam cars along this track? A. There is no right to operate steam cars.

Q. You still have the cars and power-house? A. The power-house, I believe, fell down or burned down. It was in very bad and dilapidated condition. And the cars, I think, have been sold.

Q. And you haven't anything now but the wires and poles and tracks? A. And a good many of the poles and wires have fallen down, and the city has pulled them down. We have been in litigation over that with the city. It is in that shape now; it is hard to tell what we have got there.

Q. Do you pay taxes on it? A. I believe we pay taxes right along.

Q. Claiming the right to the street? A. Yes sir, we claim the right.

Q. Does this connect with the Terminal tracks? A. No sir.

Q. No where? A. No sir.

Q. Does it touch the Missouri Pacific or Iron Mountain? A. No sir.

Q. Does it touch any railroad tracks? A. No sir.

Q. How far is it from the transfer railway tracks? A. Two blocks.

Q. There is no point where it touches that? A. No sir. The point nearest would be at the foot of Dorcas Street. It is about a block and a half there. Dorcas Street comes in there within a short distance of the Iron Mountain track, and it is only a little over a block.

CROSS-EXAMINATION, BY MR. WATTS:

Q. This has not been operated since 1900 as a street railway? A. No sir.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. How many miles of track are there? A. Two and a half miles, easily. It may be three miles. Pretty close to two and a half or three miles.

Q. The St. Louis Transfer Railway Company, with which you contemplated connecting these tracks of the Fourth & Arsenal line, was a part of the Wiggins property, and now belongs to the Terminal Railroad Association? A. Well, it belongs to the Wiggins Ferry Company, yet. I don't know who owns the Wiggins.

Q. Well, the Wiggins Ferry Company. Your idea was to utilize these tracks for railroad purposes? A. If it could be done. There are a good many industries down there that would be benefitted by it.

RE-CROSS EXAMINATION, BY MR. WATTS:

Q. Your idea is, Mr. Kavanaugh, that the combination of the Terminal tracks, under one control, would be beneficial to all concerned? A. Yes sir, it would be beneficial.

Q. Why do you say it would be beneficial? A. Because of the fact that it would save a great deal of time in the interchange of business between different lines. It takes time. There is lost time, and lost motion, and it would save money to the shipper.

Q. It would facilitate the transfer business? A. Yes, it would facilitate the transfer business.

Q. And make it more economical? A. It would make it much more economical.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. You operated your transfer ferries, that Interstate Car & Transfer Co., without being controlled by the Terminal Railroad Association? A. We were very glad to sell out to them.

Q. Because you got a good price? A. Yes, a fairly good price. But it was hard sledding.

Q. Well, you made money, didn't you? A. The Interstate never did make much money until the last year. They made a little then. There were several years there that we never made a dollar. I think the first three years that we ran we never made a dollar.

Q. Just what property did you sell? A. We just sold over the Interstate Car & Transfer Co. stock, which carried with it the boats and barges.

Q. Just designate what boats and barges—how many you turned over. A. The Edna Lee barge.

Q. What was the size of that barge? A. 275 feet in length; 36 foot beam; 4½ foot depth of hold; built of steel. She carried fourteen cars.

Q. What did she cost? A. I do not recall the cost of that barge. It is about eighteen years ago.

Q. What was the approximate cost? A. Probably $30,000 or $35.000.

And the tug-boat Kavanaugh, which cost us $75,000 or $100,000. She was a steel hull tug, an ice-breaker.

Then we turned over a barge called the Holbrook, built to carry twenty-six cars, the largest barge in the country, built of steel. She was 300 feet long, 40 foot beam, and about 8½ or 9 ft. depth of hold, all of steel, and carried a whole train load of cars. I don't recall what that cost us, but probably $50,000 or $60,000.

Q. What else did you turn over? A. We turned over a tow-boat called the McClellan, a stern-wheel tow-boat. She cost us—I can't even give a good guess on that, because I don't remember. Boats of that kind cost in the neighborhood of $40,000 or $50,000, according to the work put on them.

Q. Any other boats? A. That was all; the two boats and

the two barges; the Kavanaugh and the McClellan, the big barge Holbrook, and the 14-car barge Edna Lee.

Q. What other property did you turn over? A. We turned over the double track inclines up around the Merchants' Bridge.

Q. How much track? A. Probably, three per cent grade, about 1,200 feet of double track, with probably three or four hundred feet of sidings. And those double-track cradles. My recollection is we started in to build them for $18,000 or $20,000, and they cost $28,000. That is my recollection.

Q. What other property did you turn over? A. I don't recall that we had anything else. We may have had a flat or two in the harbor, but it did not amount to much.

Q. And you got about $600,000 for the property? A. No sir, I don't think we did.

Q. What did you get? A. My recollection is, probably $500,000. $450,000 or $500,000.

Q. Then you got $100,000 more than the property cost you? A. Yes sir.

Q. Your company declared dividends, did you not. A. I don't think we ever declared many dividends. I think the last year we declared dividends.

Mr. Watts: Q. Are you positive about that? A. I am not right positive about that. I remember we had some money, and I had a crowd of fellows with me that always wanted dividends, and I think maybe we had to.

RE-CROSS EXAMINATION, BY MR. WATTS:

Q. The sale of the Interstate Car & Transfer Company to the Terminal Railroad Association was made in connection with the sale of the West Belt, wasn't it? A. Yes, sir.

Q. The two were tied together? A. Yes sir.

Q. The same set controlled the two properties? A. Yes sir.

Q. And the interest controlling the West Belt would not sell the West Belt unless the Interstate Car & Transfer was sold also; that is a fact, is it not? A. Yes sir.

Q. So the Terminal Railroad Association, in order to get possession of the West Belt, was compelled to buy this Interstate Car & Transfer Company, was it not? A. Yes sir.

Q. You are not sure that the Interstate Car & Transfer Company ever paid any dividends? A. I am not positive about that. We had some money towards the last.

Q. That money came from the sale of stock, didn't it? A. I think we earned that money.

Q. You were constantly selling stock, increasing the capital? A. We had an arrangement by which we could borrow $100,000 at one of the banks here,—the Merchants' Laclede Bank, I think. Mr. Bixby, Mr. Kennard, Mr. John F. Lee and Mr. Lockwood and myself were guarantees on that loan. We had a paper with the bank guaranteeing that loan, and we would go there and get that money whenever we needed it, and pay back whenever we could.

Q. If operated by the Terminal Railroad Association, or under the same control as the Terminal Association, what would you say as to the efficiency of the Interstate Car & Transfer Company, in the discharge of its business as a public service corporation—would that be enhanced? A. I should say that its efficiency would be enhanced very materially. There is no question in my mind, and never has been, as to the public necessity of concentrated terminals. You can see the effect of it in Chicago. There are tremendous delays that occur at Chicago. There are greater delays in Chicago than there are here, a great deal, and they have not got the Mississippi River to cross. Those delays are caused by the fact that there are so many different interests owning different switches, belts, etc.; and the

time and delay in delivering cars from one connection on to another connection's tracks, and then waiting for that other fellow to come with his engines and pull them, etc., etc.—that is what creates the great delay.

Q. That necessitates an inspection of the cars, does it not, at each change? A. Yes, sir, there is always an inspection between the lines, to see the condition of the cars, carding, yard-clerk's work, and everything like that. It is very tedious and slow.

Q. Your idea, then, is that having all the switching facilities under one control is the ideal method of handling the matter? A. It is. And I recall distinctly the trade that the Wiggins and Terminal made at Hall Street. We had two inside tracks—

Q. Who do you mean by "we"? A. The Wiggins Ferry Co. And the Merchants' Bridge had the two outside tracks; and when the interests became mutual we traded them the inside tracks for the outside tracks, and we took charge of all the switching business to industries, and they had these two inside tracks for passenger trains.

Q. That facilitated matters very much? A. It changed the entire complection of delivery from the Merchants' Bridge to Union Station. Yes, sir. I advocated that change, believing that it would be a good thing for the Merchants' Bridge.

Q. It was a good thing also for the Wiggins Ferry? A. Yes, because we could then serve the manufacturing interests.

Q. Without crossing tracks? A. Without crossing tracks; yes, sir. On the crossings we pulled out, and it made it safer for the engines on the Merchants' Bridge to run over Hall Street.

Q. And left the inside tracks free for passenger trains? A. Yes, sir. And before that they had to make all those crossings, and it was dangerous.

Q. That affected the entire operation over the Merchants' Bridge, between that and Union Station?

A. It did; it made a wonderful difference in the movement of traffic that way.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. You said that the congestion was worse in Chicago than it is here. Don't you know it to be a fact that goods are shipped from Chicago to points within forty or fifty miles of St. Louis, and get there quicker than from St. Louis? A. I don't know that to be a fact. But you could easily explain it if it were a fact, from the fact that goods can be delivered in Chicago, we will say, to the C. & A. freight depot, and come down in C. & A. cars, within twenty-five miles of St. Louis, and make quick time. There is no necessity for a transfer of cars there. The movement of cars, however, between the C. & A. and, we will say, the Lake Shore and Michigan Central, is a very different proposition; or some of those other connecting lines. Your case, General Crow, is not based upon the statement that I made before.

Q. You mean the question that I asked? A. I mean the question that you asked.

Q. Your statement had reference to the handling of the cars after they had reached Chicago or St. Louis? A. Yes, sir.

Q. And freight bound for other places? A. Yes, sir.

Q. In other words, it relates to switching business? A. Yes, sir; interchange of traffic between lines.

Q. When you were operating the Interstate Car & Transfer Company, you connected with the Burlington Company? A. Yes, sir.

Q. And they handled the business that you brought across? A. Yes, sir.

Q. The cars that you delivered there never were inspected

there every time before they went on the tracks, were they? A. Yes, sir.

Q. Was there a man there for that purpose? A. A man was there night and day to inspect every car that came from us.

Q. It did not cause any delay, did it? A. Oh, yes, sir, very frequently it was quite a delay in the interchange of business.

Q. And when they took a car down from the Burlington and delivered it to the Wabash, was it inspected again? A. Yes, sir. And they both made a record, so that if there was a break it could be shown.

Q. What did the inspection consist of? Taking the number of the car? A. The number and initial of the car; an inspection of the draw-bars and brake rigging, and wheels, and hand-holds; and underneath the car. In fact, every part of that car; because in receiving the car, if it happened to be in bad condition, the man who last holds it has got to redeem it.

Q. When you say that car was inspected in the numerous ways in which you indicate, you mean by that that a man, who was an expert in looking at cars, simply looked the car over? A. Went all over it.

Q. He looked it over, didn't he? He did not go over it, and examine these numerous pieces of machinery, did he? A. They make, or should make, a most careful examination.

Q. I am asking what they did do? A. As a rule they make a very careful examination.

Q. They do? A. Yes, sir, they do. The fact is, it is absolutely a protection to the receiving line that this be done. Because if they did not, there would be a tremendous expense, in the way of damages and repairs. They have got to catch every damage that has already been done to the car.

Q. When you sold the Interstate Car & Transfer Company, the sale was made to the Wiggins Ferry Company? A. The sale was made to the Terminal Railroad Association.

Q. To the Terminal Railroad Association? A. Yes, sir.

Q. Did the Terminal Railroad Association own the West Belt road? A. No, sir.

Q. Who did? A. They do now.

Q. Who did own it? A. The same interest that owned the Interstate Car & Transfer Co.

Q. Who was that? A. Messrs. Kennard, Bixby, John F. Lee, Lockwood, and myself.

Q. What Lockwood? A. James Y.

Q. Where did that road run to? A. It was projected between the Burlington Railroad—

Q. North of St. Louis? A. North of St. Louis, to Lindenwood, on the Frisco.

Q. Did it run through part of the city? A. No, sir, almost altogether in the county.

Q. How much of it was built? A. I think we had most of the construction work under way—none of it completed—but the bridges and cradles and grading was under way.

Q. And it was not in operation? A. No, sir.

Q. And it never had been operated? A. No, sir, I think not.

Q. How far north of the city limits did it strike the Burlington route? A. About two miles.

Q. How much money had your company expended on that Belt Road? A. We had contracted and expended altogether, probably, a million dollars.

Q. How much of it had you spent? A. We will say forty per cent of it.

Q. $400,000? A. Very likely.

Q. What did you get for the property when you sold it?

A. I cannot even give you a good guess on that. I don't remember.

Q. Can you ascertain that fact? A. Do you remember, Mr. Watts?

Mr. Watts: I have an impression it was between $650,000 and $750,000 for the two properties, the Interstate Car & Transfer Company and the West Belt.

Mr. Crow: Q. Will you look that up, Mr. Kavanaugh, and let me know? A. I think that is pretty close.

Q. Just look at the record and see? A. I have not got the record. The record is in the hands of the Terminal Railroad Association.

Q. Did you get back all the money you spent on it? A. Yes, sir. And they assumed all the contracts and all the indebtedness, besides whatever they paid us.

Q. Will you find out what that was? A. I don't know whether I can or not. Will they give it to me, Mr. Watts?

Mr. Watts: I don't know; I suppose so.

Mr. Crow: Will you find that for me, Mr. Watts?

Mr. Watts: Yes, sir.

RE-CROSS EXAMINATION, BY MR. WATTS:

Q. Part of that road has been completed and is now in operation, is it not? A. I heard not long ago that they were operating a part of it, on the south end of it.

Q. Isn't there a large fire clay plant built along there? A. The Evans & Howard are building a large fire clay plant.

Q. And a good deal of freight is passing over that road to that plant, isn't there? A. Yes, sir.

RE-DIRECT EXAMINATION BY MR. CROW:

Q. Who is treasurer of the West Belt Company? A. I believe Mr. Dobbs.

Q. Who was the treasurer at that time? A. Mr. Lockwood. Mr. James Y. Lockwood.

Q. He ought to know what was paid: wasn't the money paid to him? A. It was a stock-holders' proposition. I am sure that $250,000, in addition to their assuming all the indebtedness, will cover it.

At this point, the further hearing of testimony in this case is adjourned until tomorrow, Tuesday, February 5th, at half past two o'clock P. M.

R. E. Rombauer,
Special Commissioner.

St. Louis, Mo., Feb. 5th, 1907.

Met pursuant to adjournment on Tuesday afternoon, February 5th, 1907, when not being able to proceed with the hearing of testimony, on account of the absence of witnesses, same is adjourned until Wednesday, February 6th, 1907, at 2:30 o'clock P. M.

R. E. Rombauer,
Special Commissioner.

St. Louis, February 6th, 1907.

Met, pursuant to adjournment as above, on Wednesday afternoon, February 6th, 1907, when not being able to proceed with the hearing of testimony in the above entitled cause, same is adjourned until tomorrow, Thursday, February 7th, 1907, at half past two o'clock P. M.

R. E. Rombauer,
Special Commissioner.

St. Louis, February 7th, 1907.

Met, pursuant to adjournment, on Thursday afternoon, February 7th, 1907, at half past two o'clock, in the office of the Special Commissioner, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared on behalf of the Complainant.

Mr. M. F. Watts appeared on behalf of the Defendants.

The following proceedings were had:

JOHN F. ROACH, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. CROW:

Q. Please state your name? A. John F. Roach.

Q. Where do you live? A. St. Louis, Mo

Q. What is your business? A. Manager of the Central Car Service Association.

Q. Have you an office in this city? A. Yes, sir, Room 306, Union Station.

Q. Is that an incorporated association? A. No, sir.

Q. Who composes the membership of it? A. The membership is composed of twenty-six railroads.

Q. Are they all roads that enter St. Louis? A. No, there are several that do not. Several lines that do not pass through St. Louis belong. The Q. & K. C. is one of them.

Q. What territory is embraced within the jurisdiction of your association? A. East St. Louis, Ill., and about half of the state—the eastern section of the state.

Q. Illinois? A. No, sir, Missouri.

Q. Where is the line? What town does it strike? Moberly, isn't it? A. Moberly, on the Wabash; Sedalia, on the Missouri Pacific; Springfield, on the Frisco; Sedalia, on the M. K. & T.; Macon, on the Q.; and down to the state line on the lines running north and south, to the Arkansas state line.

Q. And the eastern limit is East St. Louis? A. East St. Louis, and stations and sidings within eight miles of East St. Louis.

Q. That is, stations within the inner group of coal mines? A. No; we have no coal mines over there in our territory. We end off outside of the coal mine territory

Q. Then all the stations east of the towns named in Missouri are within the territory of the Central Car Service Association? A. Yes, sir.

Q. What other officials has that association? A. The manager is practically the only official, and his crew of employes.

Q. What employes has he? A. Chief clerk, two accountants, claim clerk, three record clerks, storage clerk, and six supervisors. I am testifying off-hand I may omit something, but I don't do it intentionally.

Q. The supervisors are also called inspectors, are they not? A. Yes, sir, inspectors.

Q. That makes how many employes altogether? A. I think fourteen, with the manager; possibly fifteen.

Q. Do you employ all those you have named? A. Yes, sir.

Q. You are the president? A. I am manager.

Q. Who is president of it? A. We have no president. We have a chairman of the Board.

Q. Who is that? A. W. S. McChesney.

Q. He is the man who is president of the Terminal Railroad Association? A. Yes, sir.

Q. Have you a secretary of the Board? A. The manager is secretary.

Q. You are the secretary? A. Yes, sir.

Q. Are the records of the Association in your custody? A. Yes, sir.

Q. You have a set of by-laws and rules? A. Yes, sir.

Q. Do the rules and by-laws provide for any other official besides the President and Secretary? A. An Executive Committee.

Q. How many members are there of that? A. Nine.

Q. Are they appointed by the Chairman of the Board? A. No, they are elected by the membership of the association.

Q. Are each of these roads entitled to a member in the Board? A. Yes, sir.

Q. Each road, then, has a vote in the election of the Executive Committee? A. Yes, sir.

Q. And the board is composed of representatives of each of the twenty-six roads? A. Yes, the transportation representative.

Q. And from that Board the executive Committee is elected? A. Yes, sir.

Q. Does the Executive Committee have general supervision and control of the business? A. Well, that work is left to the manager of the Association, practically. He reports to the Executive Committee, and also to the Board.

Q. Then you have general supervision and control of the business? A. Yes, sir.

Q. Who establishes the rates that are charged by the Association for service? A Each individual railroad names its own rates.

Mr. Watts: Did I understand you to say rates for service?

The Witness: Rates for demurrage, it should be. There are no rates for service.

Q. What do you charge for the use of a car? A. That is what I understood you to mean—car service.

Q. Whatever charges are made by the railroads—who fixes them? A. They are fixed by the railroads individually.

Q. The rates for the same service or use of property are the same on all the roads? A. Yes, sir, they are the same.

Q. Do you have a published schedule? A. The roads have. The roads publish a schedule, and file a copy with

the Interstate Commerce Commission, and file a copy with me.

Q. The Executive Board meets and considers that matter, does it, from time to time? A. The naming of rates?

Q. Yes. A. No, sir.

Q. Is not the individual rate submitted by each road submitted to the Board? A. No, sir.

Q. And announcement is then made that so-and-so will be charged? A. I have never made them.

Q. I mean by individual roads. A. You mean that they are made to the Executive Committee? No, sir.

Q. Made to the Board. You say the Board is composed of the representatives of twenty-six roads? A. The rates published by the railroads are not submitted.

Q. They are not? A. No, sir.

Q. Now, what are the charges that are made by the Association? A. We class them as "Car service" on "Carload shipments," and "Storage" on L. C. L. shipments, delayed in the warehouses, of the railroad.

Q. You class them as "car service?" A. Car service, or demurrage. You can use either word.

Q. Now, will you just explain, so that we can put it in the record, what you mean by "car service," and "demurrage," and "storage?" A. What is meant by it?

Q. Yes, sir. A. A car service charge is a charge made for the detention of a railroad car by a shipper or consignee, in loading or unloading, after the advertised free time provided for the loading or unloading of the car has expired.

Q. What do you mean by the "free time?" A. The free time on all commodities, under the rules of the railroads represented in the Central Car Service Association, excepting soft coal, is forty-eight hours from the first 7 A. M. after placement, if on a private track, and if on a public track after placement and delivery of notice to consignee. On soft coal, for unloading, the free time allowed

on that special commodity is three days, or one additional day.

Q. After the lapse of what you designate as "free time," what charge is made on carload lots? A. One dollar per car per day or fraction of a day.

Q. So that if it only remains one hour over two days, the charge is made for three days? A. Yes, sir. You understand, General, that if that car is placed at eight o'clock in the morning by a railroad the free time would not begin until seven o'clock the following day.

Q. Full twenty-four hours? A. Full forty-eight hours.

Q. You count twenty-four hours in a day, I understand? A. Yes, sir.

Q. You figure after the car is placed? A. After the car is placed. What I mean is, it begins to count the first seven o'clock A. M. after placement.

Q. Does that apply to all commodities? A. That applies to all commodities, except, as I have stated, for coal, which gets three days.

Q. What is the rate that you charge for storage on less than carload? A. On all commodities, the consignee has forty-eight hours from the first 7:00 A. M. after delivery, or mailing of notice of removal of the shipment from warehouse or platform. Any day or fraction of a day that the shipment is delayed after that free time, a charge of five cents per ton or fraction of a ton is charged.

Q. Do you make a report to anybody, individually? A. Yes, sir, I make a report to the auditors of the railroads.

Q. What do you include in your report? A. The debits. Just simply the debits during the month against the agents at the stations in the territory.

Q. What do you mean by that? A. That is the charge assessed by the agent against all shipments, both carload and less than carload.

Q. I don't quite understand you, yet. Do you mean that

you make a report of the number of cars and the number of days that demurrage should be charged? A. I make a report of the cars on which demurrage is assessed, or the shipment against which storage is assessed, showing the amount charged against each car or each shipment. You understand, however, the Association does not collect any moneys.

Q. I understand that it is collected by the railroads. And it is paid before the goods are unloaded? A. It is supposed to be.

Q. But your association had nothing to do with that? A. No, sir.

Q. You simply make the charge? A. We don't make the charge. We simply audit the car service or storage made by the agents.

Q. He makes it and reports to you? A. The Association is simply a general agent for auditing demurrage and storage records.

Q. You don't get your record from the agent, do you? A. Yes, sir.

Q. You do? A. Yes, sir.

Q. You take his record for it? A. We have got to take his record, and we check his record to see that it is right.

Q. How do you check those records? A. Through the inspectors.

Q. That is, where the cars are on the track? A. Yes, sir.

Q. And that is a daily inspection, isn't it? A. Do you mean that we check every record?

Q. I mean that you have an inspection going on all the time? A. Yes, sir, over the records established by the agents.

Q. Do you hold any meetings of your association? A. Yes, sir, we hold quarterly meetings. That is, we are supposed to, but we don't always hold them.

Q. Do you keep proceedings of meetings? A. Yes, sir.

Q. Who keeps those—you? A. Yes, sir.

Q. Have you any agreement, or rule, or provision, for the charge that shall be made for storage or demurrage? A. No, sir.

Q. Have you any rules of the Association at all? A. We have rules. The Association adopts rules, or agrees on rules, to be adopted by each line, but they name no rates.

Q. What is that? A. They don't name the rates.

Q. Have you an agreement of that kind you have mentioned, signed by the executive officers of the roads? A. I have an agreement of that kind, signed by the individual roads, members of the Association.

Q. What, in a general way, do these rules provide, without going into details? A. I have a printed copy of them here.

Q. Let me see that, will you? A. (Witness produces printed agreement referred to.)

Q. Have you any rules that are not included in these written articles? A. Do you mean the Association?

Q. Yes. A. None that have not been adopted by the railroads as their rules.

Q. The rules adopted by the individual roads as their rules, as to car service and demurrage, become the rules of the Association, don't they?

A. Yes, sir. The Association agreed on these rules, and then they were submitted to the roads for adoption.

Q. That is, these printed rules? A. Yes, sir.

Q. Have you any rules outside of these printed rules? A. That is an agreement, there.

Q. Have you any rules outside of this? A. None, except what have been adopted by each road separately.

Q. Well, other rules have been adopted by the roads? A. Yes, sir.

Q. And one rule is the amount that shall be charged for

storage and demurrage, isn't it? A. No, sir. The roads name that in a separate tariff. Here is a copy of the rules, that was printed for distribution to the public (producing paper referred to).

Q. I thought that first paper was the rules? A. No, that is the agreement.

Q. Now the roads named here (indicating printed "rules") are members of this Association, are they? A. Yes, sir.

Q. I find here the following roads named: Baltimore & Ohio Southwestern; Chicago, Burlington & Quincy; Rock Island & Pacific; Chicago & Alton; Chicago, Peoria & St. Louis; East St. Louis Connecting Railway; Illinois Central Railroad; Illinois Southern Railroad; Louisville & Nashville Railroad; Missouri Pacific Railroad; Mobile & Ohio Railroad; Missouri, Kansas & Texas Railway; Q. & Kansas City; Iron Mountain & Southern Railway; St. Louis & San Francisco R. R.; St. Louis Merchants' Bridge Terminal R'y.; St. Louis Transfer Railway; St. Louis Southwestern R. R.; St. L., M. & Northeastern; Southern Railway; Troy, Eastern & St. Louis; Terminal Railroad Association of St. Louis; Toledo, St. Louis & Western; Vandalia Railroad; Wabash Railroad. All those roads are members, are they? A. Yes, sir.

Q. Now, I find that Rule 5 of this agreement, in effect November 15th, 1906, reads as follows: "After the expiration of the free time allowed, a reasonable charge per car per day or fraction thereof shall be made and collected." Now that is one of the rules adopted by the Association, is it? A. Yes, sir.

Q. That applies to every road that is a member of the Association? A. Yes, sir.

Q. Now, this applies on shipments of goods into St. Louis, of all kinds, whether state or interstate business, does it not? A. Yes, sir.

Q. Have you any idea of the number of cars per annum on which a demurrage charge is made? A. I could tell you that only in a rough way. I have no data.

Q. Just your best recollection is what I want? A. Probably between 45,000 and 55,000 cars. There are handled in the neighborhood of a million cars—somewhere between 900,000 and 1,000,000.

Q. Have you any idea as to the amount of this demurrage, just roughly, in dollars and cents? A. Assessed per annum?

Q. Yes, and collected. A. It will average possibly between $190,000 and $210,000 a year.

Q. Now, what is the total expense of the Association? A. About $16,000 or $17,000 a year.

Q. Where does the surplus go to over and above the expenses? A. The railroads collect that money. The Association does not.

Q. I mean the surplus over and above the expense of running this bureau. A. The expense of running the bureau does not include the expense entailed on the railroads in establishing their own records. I am not competent to answer that.

Q. I am asking about the expenses of your association—which you said were $16,000 or $17,000. A. The association does not collect any money at all.

Q. But, under the rules of your association, this charge is made.

Mr. Watts: He did not say that.

A. Under the rules of each railroad, the charge is made.

Q. It says here (indicating printed rules) specifically that a reasonable charge shall be made. I read you that, and you said that it applied to all roads.

Mr. Watts: But it is not made by the Association.

Q. It says here, "After the expiration of the free time allowed, a reasonable charge per car per day or fraction

thereof shall be made and collected." A. The Association does not make any rates, General. The railroads make their own rates.

Q. I understand it is an individual matter. But this rule reads just as I have read it. But, anyhow, the difference between what it costs to run your Association and what is collected as demurrage goes to the railroads? A. Yes, sir.

Q. There is no statute that authorizes that charge, is there, that you know of?

Mr. Watts: Haven't you read the statutes of the State?

Q. That is an arbitrary charge, isn't it? A The charge of one dollar?

Q. Yes, sir. A. I think the Missouri statutes provide for that.

Q. After a certain time? A. I think so.

Mr. Watts: It is fixed by legislation.

Mr. Crow: It says "a reasonable time."

Mr. Watts: It says forty-eight and seventy-two hours, under the Statute of 1905.

Mr. Crow: Q. You make your statements to the various railroads, don't you? A. Yes, sir.

Q. Now tell me what your inspectors do? A. The inspectors of the Association?

Q. Yes. A. In a general way, they check the records established by agents, and investigate claims and complaints of irregularities in the service or in the charge.

Q. Do they have access to the records of the car clerks and others? A. Yes, sir.

Q. Of all the roads? A. Yes, sir; yard clerks, car clerks, etc.

Q. Do those inspectors report to the roads or to you? A. They report to me.

Q. Suppose a car is delivered to a certain railroad, and by it to an industry, and your inspector finds that the car

clerk has not made a proper record of the movement of that car, to whom would he make that report? A. He would have the agent make report, and charge up the amount.

Q. Who would the agent make report to? A. The agent will make a daily report to the Association, and the charge is made up in his account.

Q. How would you find that out? A. By the report the agent would make to me.

Q. Would you take any action in the premises? A. No further action would be necessary. If we found that the yard clerk had omitted a car, or deliberately passed it by, we would force the agent to make the car service charge in case the car was delayed.

Q. If cars are delivered off of any of the proprietary lines on the east side of the river, say the Southern, or the M. & O., to industries on the Terminal, or to yards of any road on this side of the river, who collects that car rental? A. The car service, do you mean?

Q. Yes. A. The road delivering the car and contents to the consignee.

Q. Does the Terminal, and lines west of the river, pay car rental back to the owners of the car? A. Car rental? Don't you mean car service?

Q. Yes. A. I think not.

Q. Is it necessary to have all of these railroads members of this association? A. Well, that is a question I cannot answer.

Q. Well, practically, from your own experience; suppose you only had half of them—would the association be a success? A. I don't think so. I believe if those matters were left to the individual roads the larger lines would enforce the demurrage rules, whilst the weaker lines would be forced by large shippers and consignees to annul the en-

forcement of car service rules. In that way it would be discrimination on one side and favoritism on the other.

Q. Then, in your opinion it is better to handle them all together? A. Yes, sir, and to have one joint agent supervising the records, so that the rules may be impartial and equitable towards all.

Q. Do you know whether or not any of the roads in your association refund this car rental to some shippers? A. Not to my knowledge.

Q. Haven't you had complaint lodged with your Association that certain shippers have been favored in that way by railroads? A. By the railroads directly? No, sir.

Q. Indirectly? A. No, sir.

Q. Have you had any complaint lodged with you, as manager of the Association, of any such favoritism in any way? A. No, sir.

Q. Has the matter ever been presented to your association? A. That roads had been refunded money?

Q. Yes. A. Not since I have been manager.

Q. How long have you been manager? A. Three years the first of this month.

Q. What position did you occupy before that? A. Local agent of the Frisco and Missouri Pacific at the World's Fair grounds for about a year; and with the Rock Island for about a year; and with the Missouri Pacific & Iron Mountain as local agent at Carondelet for eleven years; prior to that time, as clerk down there for a period of six or seven years.

Q. Then you have been in the railroad business for quite a while? A. Yes, sir, I have been in the railroad business since I was a boy.

Q. You say that your association handles about a million cars a year? A. Between 900,000 and 1,000,000 cars.

Q. They handle all of the freight cars that come and go in and out of St. Louis? A. They place them for load-

ing and unloading. Through service does not come within the car service rules.

Q. Then, according to that statement, there are, in round numbers, one million cars that are handled by your association in St. Louis a year? A. That includes outside territory; practically half the state of Missouri. I should say 700,000 to 750,000 cars a year are handled by the St. Louis and East St. Louis terminals.

Q. Is that charge for demurrage or storage made on a car that comes from, say, a point where the shipment originates on the Terminal property, and destined to an industry located within your territory? A. Yes, sir, if the car is delayed by the shipper in loading beyond that period of time.

Q. For instance, if a shipment is made, say, from the Neidringhaus works, say, to Sedalia, and the car is delayed over time, according to the rules of the Association, will demurrage be charged? A. Yes, sir.

Q. And paid to the Terminal Association? A. If the car is delayed at the Neidringhaus plant at Granite City—yes, sir. If at Sedalia, in unloading it—if on the rails of the M. K. & T., the M. K. & T. would assess and collect, and if on the rails of the Missouri Pacific, the Missouri Pacific would assess and collect.

Q. Then, is this true; that on all shipments from any point where cars are delayed on the rails of the Terminal Railroad Association, the Terminal Railroad Association receives the demurrage or storage charge? A. Yes, sir.

Q. In other words, they operate the same as any other company, in that respect? A. Yes, sir.

Q. There is no difference between them and the Wabash or any other road? A. No, sir.

CROSS-EXAMINATION, BY MR. WATTS:

Q. I understand you to say that the main purpose of this

Association is to prevent favoritism by any railroad company, in the matter of demurrage? A. Yes, sir.

Q. That is, that if there was not some association of this kind, a railroad might abate the demurrage charge where it was properly chargeable, or might refund a demurrage charge after it had been collected; and in this way give preference to one consignee over another consignee? A. Yes, sir.

Q. So that the main purpose is to prevent any discrimination or preference of this character, in the matter of car detention? A. Yes, sir.

Q. And fixed charges are collected for detention of cars, or holding of cars beyond what you call the free time, which charges are made by the individual railroad companies on whose rails the cars may be detained, or by whom the car may be delivered to the consignee? A. That is correct.

Q. The Car Service Association of which you are manager collects no money whatever? A. No, sir.

Q. And this expenditure of $16,000 or $17,000, the cost of maintaining and conducting this Association, simply covers the clerical hire, including your own salary, and the salaries of the inspectors? A. Yes, sir

Q. And that is paid in some way by the railroads, members of the Association? A. Yes, sir, on the basis of cars handled.

Q. On a car basis? A. Yes, sir.

Q. How many of these associations are there in the country? Do you know, Mr. Roach? A. Thirty-nine, to the best of my knowledge and belief.

Q. So far as you know, are all of the railroads of the United States members of some car service association? A. The majority of them are—not all.

Q. Are all of the roads that come into St. Louis and East St. Louis members? A. Yes, sir. Now, wait a

minute. There is the St. Louis, Belleville Electric, and the St. Louis & O'Fallon, that are not. I can explain why they have not become members. They don't deliver any freight for loading or unloading. They simply haul it into East St. Louis, and deliver for connections to deliver at some other point.

Q. Now, it is your understanding that the statutes of Missouri—I believe you testified—provide that for detention of all freight except coal beyond forty-eight hours, and for soft coal beyond seventy-two hours, the railroad companies have a right to make a reasonable charge? A. I only testified in a general way that the statutes of the State of Missouri provided free time, and a specific charge of one dollar after that free time had expired. I don't know as the law applies to coal.

Q. That you are not positive about? A. No, sir.

Q. Do you know whether or not that demurrage charge has beeen sustained by the courts, where the question has been tested? A. Yes, sir.

Q. Have you seen recently a report of the Interstate Commerce Commission to certain members of the Commission, recommending that this demurrage charge be increased, as a method of facilitating the handling of cars? A. I was at the hearing in St. Louis before Commissioner Prouty, when that question was raised as to reducing the free time or increasing the charge, so as to eliminate, as far as possible, the present conditions. And Mr. Prouty stated that he thought forty-eight hours was a reasonable time, and that one dollar was a reasonable charge per day. He did not seem to favor any reduction of the free time or forty-eight hours, or any increase in the charge. I read an extract from Commissioner Wayne's remarks—but I don't know whether I ought to state that here, unless General Crow will permit me.

Mr. Crow: I guess you ought to let us have the record, and we can read it.

The Witness: (Continuing) In a general way he stated that unless a reasonable time was allowed to consignees for unloading, by the railroads, either on account of fear of the public, or fear of loss of business to one another, that others who were in authority would step in, and take the matter up, and act. I took the broad inference of the Commissioner. I also understood—although I was not at the hearing—

Gen. Crow: Don't make any more statements of what you have heard.

The Witness: It might be well to bring these points out. I understand that there were some remarks made about our seventy-two hours free allowance on coal. I want to state that the roads are now working on coal rates, to reduce that free time to a uniform basis of forty-eight hours. And the Missouri State Commission, through Hon. Chairman Knott, had the Association up for hearing last Thursday. But I don't want this to go in the record.

Mr. Watts: Then don't say anything, if you don't want it to go in the record.

Mr. Crow: I am not interested in the State Commission.

The Witness: Well, the question is brought out right there, as to whether the Commissioner had any authority on state business or not.

Mr. Watts: Q. I understand you to say that this forty-eight hours is not forty-eight hours from a specific hour, but the forty-eight hours free time begins to run from seven o'clock A. M. of the day following the notification to the shipper that the car is placed? A. If on the public track; or seven A. M. following the actual delivery on a private track.

Q. So that if a car was placed at eight o'clock on the 7th day of February, the consignee would have until seven A.

M. of the 10th day of February? A. No; Sunday is the 10th; it would be the 11th. It would be forty-eight hours beginning seven A. M. February 8th.

Q. And in the matter of soft coal, seventy-two hours after seven A. M. of the day following the placement of the car? A. Yes, sir.

Q. So that in some cases it may be practically three days on average freight, and four days on coal? A. Yes, sir.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. You don't mean to testify that it is always seven o'clock the following day, do you? Isn't it this that you mean to testify to: That the free time begins to run at the first seven o'clock A. M. that occurs after the car has been placed? A. Following the placing of the car.

Q. If the car has been placed at twelve o'clock M. the night before, or six o'clock A. M. the morning before, then when seven o'clock comes the free time begins? A. Yes, sir.

Q. But if it is placed after seven o'clock, it does not begin until the next day at seven; is that correct? A. Yes, sir.

Q. As a matter of fact, you have had a protest by the coal men here against your free time? A. Yes, sir; that is what I referred to.

RE-CROSS EXAMINATION, BY MR. WATTS:

Q. As long as you have asked that question with reference to the protest, perhaps it may be proper for the witness to state in regard to that protest.

Mr. Crow: If he wants to state it, he may do so; I have no objection.

A. Last Thursday, the Association was cited to appear before the Missouri State Commission on a hearing of the complaint of the St. Louis Coal Dealers' Protective Association against the Central Car Service Association's re-

duction of the free time on shipments of coal, from seventy-two to forty-eight hours.

Mr. Crow: Q. What was that proposed reduction? A. From seventy-two to forty-eight hours. When the question came up for hearing, the Association took the stand that it was an individual case with each railroad, as they made their own changes.

Mr. Crow: Q. When you say "the Association," do you mean your Association? A. Yes, sir. And they also took the stand that the Commission had no jurisdiction, as all the coal coming into St. Louis was brought in on interstate hauls.

Mr. Crow: Q. Does it come from across the river? A. Yes, sir. It was acknowledged there by the coal dealers that all coal was on interstate haul.

Mr. Crow: Q. You get no coal from anywhere else, do you? A. No, sir, except isolated shipments.

St. Louis, May 13th, 1907.

Met, pursuant to agreement of parties, on Monday morning, May 13th, 1907, at half past ten o'clock, in the office of the Special Commissioner, Hon. R. E. Rombauer, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared on behalf of the Complainant. Messrs. M. F. Watts and F. W. Lehmann appeared on behalf of the Defendants.

The following proceedings were had:

Stipulation: Most of the witnesses who have been examined having already signed the transcript of their testimony, and there being considerable difficulty over obtaining the signatures of those who have not yet signed, it is hereby agreed by counsel for the Complainant, and counsel for the

Defendant, that the signature of those witnesses who have not yet signed, and of those who are hereafter to be examined, is hereby waived.

V. W. FISHER, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. E. C. CROW:

Q. Please state your name? A. V. W. Fisher.

Q. You are passenger agent of the Terminal Railroad Association? A. Yes sir.

Q. I will get you to state if in your office you have any records that will disclose the volume of passenger business passing over what is known as the Merchant's Bridge Terminal Railway Company, and the St. Louis Terminal Railroad Association? A. I think not.

Q. You have not? A. No sir.

Q. What office of the company would have that record? A. If there is such a record, it is in the Auditor's office.

Q. Well, is there, or is there not, such a record? A. That I could not say.

Q. Is there any account kept in your office of the volume of business? A. In my office? No. We are now on a per car basis. We are not on a per capita basis at all.

Q. The road does sell tickets, doesn't it, individual tickets? A. Do you mean the local tickets?

Q. Yes. A. My office? No. The agents sell them.

Q. Whereabouts are they sold? A. At the Union Station.

Q. Have you a record that shows that? A. No. sir; it all goes direct to the Auditor.

Q. Don't you keep an account of what you issue? A. Simply what I issue.

Q. But not what are sold? A. No sir.

Q. Whom do you make your settlements with? A. I don't make any settlements whatever. I simply inform the Auditor what I have issued.

Q. To whom do you issue those tickets? Just designate to whom you issue the tickets? A. The names, or the stations?

Q. Give the stations and the names. A. I cannot give the names on Merchant's Bridge. They change every few days. Union Station is Mr. B. W. Frauenthal., 8th & Gratiot is Mr. C. O'Brien., Washington Avenue is Mr. W. S. Nelson., North Market Street is Mr. J. Zimmerley., Bremen Avenue is Mr. E. B. Fisher., Madison, Ill., is Mr. O. W. Schank., Granite City, Ill., is Mr. J. W. Callahan and East St. Louis Relay is Mr. L. C. Adams.

Q. That includes all the stations? A. That is all the stations we have.

Q. You said that for through passenger business it was carried on now upon a per car basis? A. Yes sir.

Q. Do you understand what that arrangement is? A. Well, I cannot give you the exact arrangement. It is on a basis, I think, of through coaches paying $3.00, and the local about one-third. A local coach is about 42 miles.

Q. What official could furnish that? A. The Auditor's office.

Q. What is the Auditor's name? A. C. A. Vinnedge.

Q. Where is he located? A. Union Station.

Q. The tickets that you issue to these various stations you have named, are they for sale to individuals who wish to travel over the road of the Terminal Company? A. Certainly; Yes sir.

Q. Do the tickets bear on their face the mileage and what they sell for? A. No sir.

Q. Who furnishes the schedule of rates at which the tickets are sold? A. Mr. Penney, the Traffic Manager, makes the rate sheet now.

Q. And he fixes the passenger rate as well as the freight rate? A. Yes sir.

CROSS EXAMINATION BY MR. M. F. WATTS:

Q. In enumerating the stations for which you issue tickets you named North Market, 8th & Gratiot, Bremen Avenue, Granite City and Madison: Those are all stations on the Merchant's Bridge? A. Yes sir. The only station on Eads Bridge is Washington Avenue; and the Relay Depot; and Union Station.

JULIUS S. WALSH, Recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. E. C. CROW:

Q. Mr. Walsh, I hand you copy of agreement between W. K. Kavanaugh, dated the 18th of July, 1902, for himself and associates, parties of the first part, and the Mississippi Valley Trust Company, agent, party of the second part, signed by yourself for the party of the second part, apparently: Please examine that paper, and see if you remember that particular document. That is not the original, of course, but a copy that Mr. Watts furnished me. A. (After examining paper referred to) What is the question, now?

Q. Do you remember signing that document? A. Yes sir.

Q. By the terms of this agreement it seems that you purchased, or the Mississippi Valley Trust Company, as agent, purchased, for certain named railroads this property known as the Interstate Car & Transfer Company, and the St. Louis Belt & Terminal Railway Company.

Now, I will ask you to state, if you can do so, Mr. Walsh, how much of the St. Louis Belt & Terminal Railway Company was constructed at that time? A. I cannot tell.

Q. Who can tell that? A. I should say—

Q. Kavanaugh? A. I should think Kavanaugh could.

Q. Well, you do know, in a general way, that there was not any of it, practically, constructed? A. I understood that there was a considerable portion constructed. A great deal of grading was done.

Q. What do you mean by "a great deal"? How much in miles? A. Several miles. Five or six miles.

Q. It has never been completed, has it? A. No, sir.

Q. Who opened up these negotiations that led to this sale? A. I think Mr. Watts did.

Q. And who was Mr. Watts representing? A. He was representing the purchasing party, the proprietary lines.

Q. The proprietary lines of the Terminal Association? A. Yes, sir.

Q. The property was bought for the Terminal Association, wasn't it? A. Yes, sir.

Q. Then why was not the Terminal Association named instead of the Missouri Pacific, Iron Mountain, Southern Wabash, Louisville & Nashville, Vandalia & Terre Haute, B. & O., and Frisco? A. I do not recall. The proprietary lines made the purchase, and afterwards disposed of the property.

Q. Did you or Mr. Watts represent the proprietary lines? A. I was representing the purchasing parties.

Q. You were representing the purchasing parties? A. Yes, sir.

Q. What is the distinction between the purchasing parties and the proprietary lines, in this case? A. I don't know that there is any.

Q. None? A. No.

Q. Mr. Watts was acting in the capacity of attorney, then, was he? A. Yes, sir.

Q. With whom did he open negotiations? A. I presume with the officers of the Interstate Car & Transfer Company.

Q. Did you participate in those negotiations? A. No, sir.

Q. You did finally, when it was signed up, didn't you? A. Yes,sir.

Q. Didn't you go over the details of it with Mr. Kavanaugh or somebody representing their company? A. No, I don't think I met anybody representing that company.

Q. Was this paper brought to you for your signature? A. I presume so.

Q. Haven't you any recollection about it? A. No, no very distinct recollection about it.

Q. Do you know who authorized Mr. Watts to open up those negotiations? A. No, I do not.

Q. You were President of the Terminal Association at that time? A. Yes, sir.

Q. If the Terminal Association was the purchaser, then the President of the Terminal Association, or the executive officer thereof, or the Board of Directors, were the only ones that could authorize Mr. Watts? A. Yes, sir.

Q. Do you know whether the record of the Association show anything about this transaction? A. I think not.

Q. Mr. Watts did not move of his own volition? A. No, I don't suppose he did.

Q. Haven't you some recollection as to who directed him to do this? A. I presume that I must have been the one that would have done that.

Q. What was the occasion of your wanting to purchase this property for the Terminal Association? A. The Terminal Association had in the County an application for an order of the County Court for a belt line.

Q. Had they made that application in their own name? A. Well, it was understood to be a Terminal proposition. I don't know whether it was in our own name or not. I don't think it was.

Q. In whose name was it made? A. Well, it was in the name of the corporation.

Q. What was the name of the corporation? A. I don't recall that.

Q. Who were your agents in the County? A. That I don't know. At any rate, the Terminal Association never secured that order of the Court, and Mr. Kavanaugh did for his belt property.

Q. Just exactly what order of the Court was it that you wanted put through? You had a charter from the State to build a railroad, and the right to condemn. A. We had to secure the assent of the County.

Q. For what purpose? A. For crossing highways.

Q. Had the company been organized as a railroad company? A. This belt line?

Q. Yes. A. I don't know that it was organized. It was just simply an application for a road. I presume if that had been granted, the organization would have been perfected.

Q. Then the reason that you assign for purchasing this property is the fact that you could not acquire franchises out there, and Kavanaugh had acquired a franchise? A. Yes, sir.

Q. Was your line parallel with this St. Louis Belt & Terminal Railway? A. Substantially.

Q. Substantially the same? A. Yes, sir.

Q. Were any of the directors or officials of the Terminal Association officers of the St. Louis Belt & Terminal Railway Company? A. Are they now?

Q. Were they at that time? A. Oh, no.

Q. They were not? A. No, sir.

Q. Do you know whether or not the stock of the St. Louis Belt & Terminal Railway Company had been issued at the time the Terminal Association bought it? A. Yes, sir, I think so.

Q. It had been issued? A. Yes, sir.

Q. I see the agreement here transfers the right to subscriptions stock? A. Yes, sir.

Q. What property in the way of rolling stock, if any, did you acquire with the St. Louis Belt & Terminal Railway Company? A. Well, that I don't know.

Q. There is no rolling stock mentioned in there, is there, at all? A. I don't know. I don't think so.

Q. Look at it, and see. (Handing witness copy of agreement referred to.) A. (After examining copy of agreement). There is nothing specifically mentioning rolling stock there.

Q. There were no stations at that time on that road were there? A. No, sir.

Q. You say that you bought it for the reason that you wanted a franchise to build a road around in that section where this line runs? A. Yes, sir.

Q. If that was the reason for buying it, why did the Association also buy the Interstate Car & Transfer Company, at the same time? A. That was part of it.

Q. That was an independent corporation, wasn't it? A. Yes, sir; but the two properties were inseparable.

Q. Why so? A. One was supposed to be necessary for the operation of the other.

Q. The St. Louis Belt & Terminal Railway Company's line at no place touched any point where the boats of the Interstate Car & Transfer Company landed, did it? A. Not at that time, but they expected to, later on.

Q. But they were independent properties at that time? A. Yes, sir, I think so.

Q. Is that the only reason that the Interstate Car & Transfer Company was bought? A. That was the principal reason.

Q. What other reason was there? A. I don't know of any other.

Q. Wasn't it the fact that the Interstate Car & Trans-

fer Company was at that time, and had been for quite awhile past, cutting the transfer rate on cars across the river? A. Yes, sir.

Q. And wasn't one of the objects to get rid of that cutting of rates competition? A. The proposition did not come up in that shape.

Q. No; but wasn't that one of the reasons? A. Yes, sir, what you state is a fact. But this Belt Line, and the Interstate Car & Transfer Company—the proposition for sale coupled the two.

Q. Who made the proposition to sell the two? A. I don't know; I did not conduct the negotiations.

Q. Who conducted them, on the part of the Interstate Car & Transfer Company? A. That I don't know.

Q. Will you say, Mr. Walsh, that part of the reason for purchasing this Interstate Car & Transfer Company and the Belt Railway was not to get rid of the competition in cutting those rates? A. No, I would not say that.

Q. I want to call your attention to the General Mortgage of the Terminal properties, and refresh your mind a little as to an item in there. How much—if you can tell, of your own memory—of the $50,000,000 of bonds of the Terminal Association have been issued now,—of the last authorized issue of $50,000,000? A. $35,000,000 or $36,000,000.

Q. Does that include the $5,000,000 that was paid to Jay Gould for the properties of the Union Railway & Transit Company of St. Louis, the Terminal Railroad of East St. Louis, and the associated properties that went with those two roads? A. Some of that has been reserved.

Q. Whatever has been issued, does it cover those? A. Which, the $35,000,000?

Q. Yes. A. Yes, sir, there is a reservation. I think our bonded indebtedness is $17,500,000, or something like that. Whatever it is, there is a reservation in this general mortgage to meet these under-lying bonds.

Q. Do you know the total amount on which the Terminal Railroad Association is now paying interest and dividends, according to your own records—stocks and bonds? A. We are paying interest on $35,000,000 or $36,000,000 of bonds; no dividends.

Q. No dividends? A. No, sir.

Q. You are paying dividends on that bridge stock that you guaranteed, are you not? A. Do you mean the Eads Bridge.

Q. Yes, sir. A. Yes, sir.

Q. Well, that is a dividend, isn't it? A. Yes, sir.

Q. You are doing that under the terms of the lease? A. Yes, sir.

Q. Then, if the records of your Association show that you are actually paying on a little over $40,000,000, how do you account for the discrepancy of $5,000,000? A. There is no discrepancy there.

Q. I wish you would just examine this statement that I hand you, and see if that makes $40,000,000, and if it is correct? A. (After examining statement). It is included in that contract between the Wabash and the Missouri Pacific, and the St. Louis Bridge Company.

Q. What do you mean is included? A. The $5,000,000 first mortgage bonds outstanding.

Q. That is the $5,000,000 that are given to Mr Gould for the bridge? A. No; that is the first mortgage on the bridge.

Q. That $5,000,000 represents the bonds that the old Bridge Company issued when it was re-organized? A. Yes, sir.

Q. How does that account for the discrepancy? A. I don't know where there is any discrepancy.

Q. That $5,000,000, then, would be added to the amount of bonds that have been issued under the $50,000,000 mort-

gage? A. Yes, sir, that is the way we took the bridge property.

Q. The question is as to how much? A. That is not covered by the general mortgage.

Q. I will ask you this question: Is it, or is it not true, that the Terminal Railroad Association is now paying interest and dividends on stocks and bonds, under the contracts and agreements of the Association, to the extent of $40,000,000? A. Yes, sir.

Q. I call your attention to the St. Louis Terminal Railway Company. That is the corporation, I believe, that was organized by the Merchant's Bridge Company or some one to build a line from near the western approach of the Merchant's Bridge out into the County. Do you remember that company? A. Yes, sir.

Q. In the statement furnished by Mr. Watts, here, it appears that in accounting for the money that was obtained from the bond issue of $35,000,000—in round numbers, we will call it—a little more or a little less—that of that $120,000 went to purchase the stock and bonds of the St. Louis Terminal Railway Company. I will get you to state whether or not that is correct? A. (After examining paper referred to) I think that is correct.

Q. Do you remember the fact that there was $1,500,000 of bonds issued by this company? A. I know that there were bonds issued. The amount I am not sure about.

Q. Do you know this fact as to whether or not—without regard to the amount of bonds that were issued—your company acquired for that $120,000 all of the bonds that were issued? A. I think so.

Q. Then those bonds of the Terminal Railway Company that had been authorized and issued had not been sold at the time of this purchase? A. They never were sold.

Q. And your company still holds them? A. I don't know where they are now.

Q. You don't know where they are? A. No, sir.

Q. Do you remember whether or not they are mentioned in the general mortgage of $50,000,000 as part of the assets of the Terminal Railway Company? A. I think possibly so.

Q. I have a copy of the general mortgage here, and perhaps you had better look at it before you testify as to that. (Hands witness copy of general mortgage). A. I would like to see that. Those transactions are so long ago. (After examining copy) That is correct.

Q. Then the $1,500,000 first mortgage six per cent gold bonds of the St. Louis Terminal Railway Company, maturing Jan. 1st, 1933, were deposited with the trustee as part of the security for the general mortgage of $50,000,000? A. Yes, sir. No interest was paid on this, however.

Q. Please state whether or not any of the remainder of the stocks and bonds mentioned in that general mortgage have not been sold, or are not stocks and bonds upon which interest or dividends are now paid, other than the St. Louis Terminal Railway bonds mentioned? A. (After examining copy of general mortgage all the securities mentioned in Section 13 are unimpared as collaterial to the mortgage contract. And no interest is paid upon the bonds deposited, and no dividends upon the stock.

Q. Then those securities are all owned by the St. Louis Terminal Association, subject to its mortgage? A. Yes, sir.

Q. In this statement that Mr. Watts has furnished me, I find there is an item of "Construction of New Union Station, $1,746,000:" that refers to the present Union Station at 20th and Market Streets, in the City of St. Louis, does it not? A. Yes, sir.

Q. When it says "Construction of the New Union Station" does that include the entire cost of the building and the ground? A. (After examining paper referred to) No,

I see that in this statement, first mortgage bonds $7,000,000 issued and sold. Now, out of the proceeds of these bonds, these various items mentioned here were paid or expended. That issue was not sufficient to complete the work undertaken, so later on the Terminal Association issued its first consolidated mortgage bonds, amounting to $12,000,000. Of that $12,000,000, $7,000,000 was reserved to take care of the maturity of those $7,000,000 outstanding, leaving $5,000,000 to expend on the property.

Q. Yes, sir; but you have not yet answered my question, as to whether or not the item of $1,746,000 covered the cost of construction of the Union Station? A. It went into the Union Station.

Q. Did it complete it? A. I think not.

Q. How much more was required to complete the Union Station? A. (After examining statement) This says here, "Used in construction of Union Station, yards and belt lines:" I don't know how you would separate that, but a portion of the cost of the Union Station is in that $3,000,000.

Q. Have you any records in your office that would enable you to keep track of those various items of expenditure—how much was expended for yards, and how much for buildings? A. I should think there would be a record there.

Q. In whose department? A. In the Auditor's department.

Q. He is the gentleman that ought to have those records, and know about those things? A. Yes, sir.

Q. And while you may have been familiar with that at the time, your memory does not serve you now sufficiently to tell about that, except in a general way? A. No, sir.

Q. I see there an item that says "Discount on sale of bonds, $254,000:" was that on the sale of the $7,000,000 of bonds—that much discount? A. I presume so.

Q. Will you please explain what that means—that "dis-

count?" A. It means that those bonds were sold for less than par.

Q. At $354,000 less than par? A. Or it means a commission for the sale of the bonds.

Q. Do you know which one it means? A. No, sir, I do not.

Q. Have you any records that would show that? A. I presume there must be records there.

Q. Where would they be? A. In the Auditor's office.

Q. The next item here seems to be an issue of $12,000,000 of bonds, which you speak of, of the Terminal Railroad Association, and you say that $7,000,000 of that was reserved to cover the prior bonds which had been issued: I see there is an item here "Purchase of St. Louis Merchant's Bridge and Terminal Railroad stock and bonds, 17,800 shares, $1,113,400." "Purchase of St. Louis Terminal Railway stock and bonds, $120,000." "Used in construction of Union Station, yards and belt lines, $3,078,807.27." "Discount on bonds sold, less premium, $687,792.73."

Can you explain to me what that item means, "Discount on bonds sold, less premium, $687,797.73?" A. That is, the bonds were sold at discount.

Q. What do the words "less premium" mean? A. I don't know what that means.

Q. Does that $687,000 represent the difference between the sale price of the bonds and their par value, or does it represent the difference between the sale price of the bonds and their par value and the commission for sale? A. (After examining statement) Well, there are $5,000,000 of bonds to be sold; and if I recollect right, when these bonds were sold we were in a bad money market and we had to sell them for considerably less than par. I take it that that item means that.

Q. Will the Auditor's records disclose the facts in reference to that? A. Yes, sir.

Q. I see here it says "For Union Station, yards and belt lines." What yards and belt lines does that item of $3,078,807.27 refer to? A. We have quite a number of yards; I cannot say which ones.

Q. You don't know what that item refers to? A. No, sir.

Q. Who would know about that? The same man—the auditor? A. Yes, sir.

Q. And his records will disclose all these facts, will they? A. Yes, sir.

Q. In the next item here I see $1,265,727.98 for "construction of elevated structure:" do you know where that elevated structure is? A. Yes, sir; it extends from Carr Street on the levee—Mr. Watts: Is this the Terminal Association? A. It is under the caption "St. Louis Merchant's Bridge & Terminal Railway." The elevated structure extends, with a double track, from Carr Street along the levee, to about Chouteau Avenue, and then west to 8th Street.

Q. That is what that item represents? A. Yes, sir.

Q. The Auditor's office will disclose whether or not that covers the cost of that also? A. Yes, sir. A portion of that elevated structure from 8th Street crosses the freight house of the Frisco and the Missouri Pacific—the elevated runs over that—and comes out on the surface about 11th Street—comes down on the surface.

Q. The next item here seems to be "Construction of southwestern approach to bridge, $121,757." What bridge is that? A. That is the Merchant's Bridge.

Q. Merchant's Bridge? A. Yes,sir.

Q. The next item there is "Other construction work, $1,648,161.50." Do you know anything about what those items were? A. No, sir.

Q. You don't know anything about that? A. No, sir.

Q. "Discount on sale of bonds, $464,353.52." That is on the $3,500,000 of the Merchant's Bridge Terminal Railway bonds, is it? A. Yes, sir.

Q. And that item is in the same condition as other items of discount heretofore named. You don't know exactly what it is for? A. No, sir.

Q. I find an item here under head of "St. Louis Merchants' Bridge Company, First Mortgage bonds, $2,000,000—Construction of Bridge, $2,000,000:" Do you know whether or not that represents the cost of construction of the Merchants' Bridge? A. The cost of construction of the Merchants' Bridge.

Q. That is what it cost to build it? A. Yes, sir.

Q. Under head of "Annual Fixed Charges," I find an item of "Rental of Leased Property, $195,600." Do you know what that represents the rent on? A. I cannot state specifically, but I know that we have a great deal of leased property.

Q. Is it real estate over which your tracks run? A. Yes, sir.

Q. Is it used for any other purpose? A. I don't know.

Q. Where is it located,—in this city, generally, or on both sides of the river? A. On this side, mainly. We have some leases on the other side, too.

Q. Will the Auditor's office disclose all of those matters with reference to payments, and what the expenditures were for all those fixed charges, etc.? A. Yes, sir.

Q. I find an item here under the head of "Interest on Current Loans not included in above amounts, $155,500.00 per annum:" Do you know what that covers? A. Floating indebtedness.

Q. Floating indebtedness? Please explain what you mean by that. A. That means that in 1902 and 1903, when this new work was authorized, increasing the facilities of

the Terminal Association, enlarging Union Station, and various other work that was found necessary—when that work was concluded we were short about $3,000,000. In other words, the proceeds of the bonds failed by $3,000,000 to cover this work.

Q. The proceeds on the bonds sold? A. On the bonds sold. And that indebtedness we have been carrying. It has been reduced some.

Q. The Terminal Association has in its treasury now how many bonds of this $50,000,000 issue? A. I think about $14,000,000 or $15,000,000. But they are not available for this floating indebtedness.

Q. For what reason? A. Under the terms of the mortgage contracts only $1,000,000 can be issued per annum, so it would take us fourteen years to put out the $14,000,000. And then the trustee can only certify bonds on the presentation of a statement that the work calling for the bonds has been completed within the year that the bonds are taken out.

Q. Within what? A. Within the year that the bonds can be taken down.

Q. Well, this was completed within one year, most of it, wasn't it? A. No, sir.

Q. How long a period did it cover? A. I should say three years, or three years and a half.

Q. The work on Union Station involved an expenditure of how much? A. I could not give that.

Q. You don't know? A. No, sir.

Q. Would the Auditor's books show that? A. Yes, sir.

Q. Mr. Walsh, I believe I asked you when you were on the stand before, with reference to those meetings in New York, and you said that you thought that memoranda of those meetings were kept by the gentlemen who lived in New York—some of them: I would like to ask you to cause a search to be made among the papers of the Terminal

Association, and see if you have not copies of those records of those meetings which took place between the representatives of the roads, with reference to the purchase of the Wiggins' Ferry property, and the entry of the Rock Island and other roads, in 1902, into the Terminal Association. Will you please do that? A. Yes, sir. May I explain something?

Gen. Crow: Yes, sir.

The witness: The terms of that General Mortgage contract do not seem to be understood by you. The first reservation of proceeds from the sale of those bonds was supposed to be large enough to take care of all those matters. Now, these improvements were going on in 1903, 1904 and 1905—three years, and the cost exceeded the net proceeds at the disposal of the Terminal Association. Under the terms of the mortgage contract, no bonds could be taken down in 1906, because the proceeds of that amount of bonds must be applied to work during that year, and not to the payment of back indebtedness.

Q. Well, it would have been possible, would it not, for the work to have been done at the rate of $1,000,000 a year? A. No, sir.

Q. It would not have been? A. No, sir.

Q. How much of this excess was used to buy other properties? A. Of this $3,000,000?

Q. Yes, sir. A. I could not state just exactly.

Q. A considerable amount of it? A. A considerable amount; yes, sir.

Q. Of course, your Auditor could furnish me these things better than you can? I will take that up more in detail with him. A. Yes, sir.

CROSS-EXAMINATION, BY MR. WATTS:

Q. The mortgage referred to by Gen. Crow, as the General Mortgage of the Terminal Railroad Association of St.

Louis, is dated December 16, 1902, is it not? A. Thereabouts, yes, sir.

Q. That mortgage provides for the possible issue of $50,000,000 of bonds. You have used the term "issue" in a sense not quite clear to me. I understand, however, that you mean by "issued" not only bonds which have been sold, but also bonds which are reserved under the provisions of that General Mortgage to take care of under-lying mortgages. To illustrate, you stated that in round figures some $35,000,000 or $36,000,000 of those bonds had been issued: by that I understand you to say that first there are reserved bonds sufficient at par to take care of, at par, the underlying bonds of the Terminal Railroad Association issued theretofore, amounting to $12,000,000; bonds of the St. Louis Merchants' Bridge Terminal Railway Company; and bonds of the St. Louis Merchants' Bridge Company, aggregating $5,500,000. So that, of the $35,000,000 or $36,000,000 of bonds which you say have been "issued" under the General Mortgage, there are reserved out of that the $12,000,000 of the Terminal Railroad Association of St. Louis' under-lying bonds, and the $5,500,000 of bonds of the Merchants' Bridge Company, and the St. Louis Merchants' Bridge Railway Company. Is that correct? A. That is correct.

Q. Making actually issued and sold, and the proceeds therefrom available, in the neighborhood of between $17,000,000 and $18,000,000? A. That is right. When I use the word "issued," I mean they are out of the possession of the Association.

Q. Your attention has been called to a section of this General Mortgage, designated, I think, as Class XIII, on page 48 of the printed copy of the Mortgage, specifying certain securities which have been hypothecated under the provisions of that mortgage, among which are $1,500,000 of bonds of the St. Louis Terminal Railway Company, and

other securities. I understand you to say that where securities of that character are hypothecated under the terms of this mortgage, no interest is paid upon those bonds, and no dividends paid upon the stocks so hypothecated: that is correct is it not? A. That is correct.

Q. This General Mortgage provides that beginning with the year 1906, and each fiscal year thereafter, there may be taken down of the bonds to be issued under the terms of this mortgage not exceeding $1,000,000 each year; but the $1,000,000 of bonds so taken down can only be used for the purpose or purchasing additional properties, making betterments and additions to the property: that is true, is it not?

A. That is true.

Q. Or for the purpose of reimbursing the Terminal Association for monies expended for that purpose during that fiscal year? A. Yes, sir.

Q. So that this excess of cost, amounting to $3,000,000, of the improvements made by the Terminal Association, over the amount realized from the sale of the $17,000,000 or $18,000,000 of bonds, had to be carried as a current account on money borrowed for that purpose: these expenditures were made in 1902, 1903, 1904 and 1905; so that when 1906 came, the first year in which bonds could be taken down to the extent of $1,000,000, this money had already been expended; and the bonds that could be taken down in 1906—the first year in which bonds could be taken down—could not be utilized for the purpose of reimbursing the Terminal Association for this excess of cost, amounting to $3,000,000: is that correct? A. that is correct; the debts having been contracted previous to the year 1906.

Q. Beginning with the year 1906, and so on until the entire $14,000,000 of bonds have been taken down, you can take down $1,000,000 a year for the purpose of enlarging the Terminal facilities? A. Yes, sir.

Q. And during the year 1906 there was taken down $1,000,000 for that purpose? A. Yes, sir.

Q. And you have planned during the year 1907 to take down another $1,000,000 for the purpose of enlarging facilities, and so on each year, have you? A. Yes, sir.

Q. You referred to a part of an elevated structure, connecting the Merchants' Terminal elevated structure with the Union Station proper, beginning at a point near 8th Street and ending between 11th and 12th. That part of the elevated structure is the property of the Terminal Railroad Association of St. Louis, is it not? A. Yes, sir.

Q. That is not owned by the St. Louis Merchants' Bridge Terminal Railway Company? A. Yes, sir, that is true.

Q. So that this $1,265,717.98 is part of the proceeds of the St. Louis Merchants' Bridge Terminal Railway Company first mortgage bonds expended in construction of elevated structure refers to that portion of the elevated structure proper of the St. Louis Merchants' Bridge Railway Company, extending from Carr Street on the North around to 7th and Gratiot on the South, and does not include that independent portion laid from the Merchants' Terminal elevated structure into Union Station? A. That is correct. I was mistaken in my former statement.

Q. General Crow has stated—I will not verify his figures—that in the statement which has been furnished by me it appears that the Terminal Railroad Association of St. Louis is paying interest and dividends on stock and bonds aggregating in amount about $40,000,000. Assuming that statement to be correct, you have explained that prior to the making of this general mortgage in 1902 there were outstanding bonds of the Terminal Railroad Association of St. Louis, and of the Merchants' Bridge Terminal Railway Company, and of the Merchants' Bridge Company, aggregating between $17,000,000 and $18,000,000. Since that general mortgage was issued, in 1902, there have been sold bonds

issued thereunder aggregating the amount of about $18,000,000; making of the new bond issue, and the old bond issue, an aggregate of about $35,000,000, on which interest has been paid. Now, then, in addition to that the Terminal Railroad Association of St. Louis, by way of rental of the property known as the Eads Bridge, pays dividends on $5,000,000 of bridge bonds, which have never been held by the Terminal Railroad Association of St. Louis. That is in addition to this $35,000,000. And it also pays dividends on the First Preferred stock of the St. Louis Bridge property, none of which it controls. That is true, is it not? A. Yes, sir.

Q. So that if the aggregate amount is $40,000,000, it is explained in that way? A. Yes, sir.

The further examination of this witness is deferred, and the witness withdrawn, with the understanding that he may be recalled at a subsequent time.

ALBERT S. JOHNSON, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. E. C. CROW:

Q. Please state your name? A. Albert S. Johnson.

Q. What position do you occupy, Mr. Johnson? A. Freight agent of the Terminal Railroad Association.

Q. What are your duties as freight agent? A. To make a record of the cars moving over the properties, and to make collection of the Company's revenues and freight tolls.

Q. What properties do you thus keep track of? A. The Terminal Railroad Association, and the Merchants' Bridge Terminal, are the properties that we separate in our accounts.

Q. Have you anything to do with the Wiggins' Ferry

property, or the Interstate Car & Transfer property? A. No, sir.

Q. Are you what would be called General Freight Agent of the Terminal Railroad Association? A. No, sir.

Q. Is there such a position? A. No, sir.

Q. Who performs the duties that correspond with that of General Freight Agent in other roads? A. The Freight Traffic Manager.

Q. Who is he, Mr. Penney? A. Mr. Penney.

Q. Does your office have the records of the movements of freight that originates on the lines of the Terminal Association or the St. Louis Merchants' Bridge Terminal Company? A. We have some of the records. Whatever is necessary to make collection of the revenue for the movement of a car.

Q. What do you mean when you say you have some of the records? A. Well, some of the records are kept in the car accountant's office, and some in the superintendent's office.

Q. Of freight that originates on the line of your road? A. All freight.

Q. The records that are kept in the car accountant's office, or the superintendent's office, are they copies of what is kept in your office? A. No, sir.

Q. How does it come that of one shipment you would have a record, and of another shipment the superintendent would have a record? A. I have a record of one part of the movement, and they have a record of other parts.

Q. Explain the difference. A. We make an abstract of the freight, the dray-ticket, or way-bill that is furnished by the consignor or the connecting line—and we make an abstract of that bill.

Q. You are talking about through freight now? A. I am talking about any freight.

Q. Any freight? A. Yes, sir. We take an abstract of

the way-bill, and from that abstract make our charge against the consignee, or party that is collecting the charges. We make an abstract to the Auditor, and that is what the station is charged with, or debited with, and what we have to account for when the money is collected.

Q. Well, now is that all the record that the Superintendent would get? A. He would not get that.

Q. When you say you make an abstract of that shipment, what do you mean by that? A. We take off the car number, and the initials of the car, and the road that we receive it from, or the yard or industry at which it is loaded.

Q. The point to which it is directed? A. The consignee, destination, weight, amount of charges that we assess, and any advance charges that we may have to collect from the shipper, or the railroad that we handle the car for.

Q. And that goes to the Auditor's office? A. Yes, sir.

Q. Explain about the Superintendent's office—how he keeps track of freight that you don't keep track of.

Mr. Watts: The witness has not stated that.

Mr. Lehmann: He deals with a different phase of the transaction.

Gen. Crow: Q. I will ask you this question: Do the records in your office contain a record of the movement of all the freight over the line of the two roads forming the Terminal Association, that you have mentioned—the Terminal Association, and the Merchants' Bridge Terminal? A. All the loaded cars on which there is revenue assessed —yes, sir.

Q. What cars is it, and the movement of what kind of freight, if any, that you do not have a record of, that the Superintendent would have a record of? A. The car accountant would have a record of the empty cars coming over the terminals. That is, the two offices have a record,

the accountant's office and my office, of every car that moves over the terminals.

Q. Then they have nothing to do with the movement of the freight originally; that record is kept in your office, isn't it—the loaded cars? A. We have a record of the cars moving.

Q. Well, the loaded cars that move covers all the freight that your road handles, doesn't it? A. Yes, sir.

Q. And that is kept in your office, isn't it? A. Yes, sir.

Q. And no other office has that originally? A. No, sir.

Q. And the only other office that has a record of that is the abstract that you mention as sent to the Auditor's office? A. Yes, sir.

Q. Do you know whether or not any freight originates on the tracks of the Terminal Association? A. Yes, sir.

Q. At what points? A. Various public delivery yards, and various industries that connect with the rails of the Association.

Q. Can you tell me whether or not any freight is destined and shipped over your road to points on the Terminal? A. Yes, sir.

Q. What points, other than connecting points? A. Industries connected with the tracks of the Association, and public delivery yards.

Q. Do you know whether there is any movement of freight that originates on the tracks of the Terminal, or the Merchants' Company, and terminates on the tracks of either company? A. Yes, sir.

Q. Have you a record of that? A. Yes, sir.

Q. I refer now, in that question, to the freight that originates at points other than connections, and terminates at points other than connections. A. Yes, sir.

Q. Will you furnish me a record of that, say from January, 1905, to June, 1905, if it is not too long?

Mr. Watts: What do you mean by the record?

Mr. Crow: I want a copy of it.

Mr. Watts: Car numbers, and initials, and weights?

Mr. Crow: I just want the volume of business.

Mr. Watts: Then what you want is the tonnage, of business which is exclusively Terminal Association business, or exclusively Merchants' Terminal business, originating at some point or some industry on the rails or adjacent to the rails of the Terminal Association, or at some public delivery track adjacent to the same, and delivered to some point or some public delivery track on the rails of the Terminal Association.

Mr. Crow: That is correct.

The Witness: We have no separation in our accounts like that. That is a lot of work.

Mr. Crow: Q. Isn't there some simpler way that we could get at it? A. No, sir.

Q. You study about that a little while, and see if you cannot get it without going through a great lot of books, and having a great number of clerks do a vast amount of work? A. There is no possible way. The records are all kept, and all cars look alike to us.

Q. Isn't local separate from through business? A. Our accounts would have to all be examined in order to correctly furnish this statement.

Q. Have you any idea of the volume of that business—the tonnage? A. No, sir.

Q. Have you, Mr. Watts?

Mr. Watts: Not the slightest.

The Commissioner: All you want is an approximation. Cannot the witness get an approximation?

The Witness: Yes, sir, we could approximate a few days' business.

Mr. Crow: Let me make a suggestion. You run over a few days' business, and see how it runs. Take a season that you think will be fairly representative, and then maybe

you can make an approximation of a period of time from that. That might save a lot of work.

Mr. Watts: Yes, I think that is a good suggestion. Take an average time of year, and a certain number of days.

The Witness: I will follow that suggestion, and have such an approximate statement prepared.

Complainant offers in evidence printed copy of the General Mortgage of the Terminal Railroad Association of St. Louis to the Central Trust Company of New York, and William Taussig, and asks that same be marked "Complainant's Exhibit No. 30."

Above exhibit is so marked by the stenographer.

Complainant offers in evidence printed copy of "Admission Agreement of New Companies," into the Terminal Railroad Association of St. Louis, and asks that same be marked "Complainant's Exhibit No. 31."

Above exhibit is so marked by the stenographer.

Complainant offers in evidence the following certified copies from the Secretary's Office of the Interstate Commerce Commission, to-wit:

(1) Schedules of rates numbered 1 to 29, both inclusive.

(2) St. Louis Merchants' Bridge Terminal Tariff No. 3, in effect October 17th, 1890, and Supplements thereto attached.

(3) St. Louis Merchants' Bridge Terminal Tariff No. 4, in effect November 11th, 1890, and Supplements thereto attached.

(4) St. Louis Merchants' Bridge Terminal Circular No. 3, dated January 1st, 1891.

(5) St. Louis Merchants' Bridge Terminal Tariff No. 5, in effect September 18th, 1891.

(6) St. Louis Merchants' Bridge Terminal Tariff No. 6, in effect September 18th, 1891.

(7) St. Louis Merchants' Bridge Terminal Through Freight Tariff No. 8, in effect November 4th, 1891.

(8) St. Louis Merchants' Bridge Terminal Corrected Through Freight Tariff No. 8, in effect November 4th, 1891.

(9) St. Louis Merchants' Bridge Terminal Local Freight Tariff No. 7, in effect November 4th, 1891.

(10) St. Louis Merchants' Bridge Terminal Freight Tariff No. 11, in effect April 1st, 1892.

(11) St. Louis Merchants' Bridge Terminal Freight Tariff No. 12, effective February 13th, 1893.

Which certified copies are fastened together with the seal of the Interstate Commerce Commission.

Above exhibit is marked "Complainant's Exhibit No. 32."

Complainant offers in evidence the following certified copies from the Secretary's office of the Interstate Commerce Commission, to-wit:

Wiggins Ferry Company, East St. Louis Connecting Railway, St. Louis Transfer Railway Tariffs Nos. 5, in effect March 10, 1891; 6, in effect November 4th, 1891; 7, in effect April 1st, 1892, and 8, in effect January 10th, 1893.

Which certified copies are fastened together with the seal of the Interstate Commerce Commission.

Above exhibit is marked "Complainant's Exhibit No. 33."

Complainant offers in evidence the following certified copies from the Secretary's office of the Interstate Commerce Commission, to-wit:

(1) Terminal Railroad Association of St. Louis Freight Tariff No. 14, in effect September 28th, 1891.

(2) Terminal Railroad Association of St. Louis Freight Tariff No. 15, in effect September 28th, 1891.

(3) Terminal Railroad Association of St. Louis Freight Tariff No. 18, in effect April 1st, 1892.

(4) Terminal Railroad Association of St. Louis Freight Tariff No. 19, in effect January 1st, 1893, and Amendments Nos. 1, 2, 3, 4, 5, Exceptions to Tariffs 19 and 12, Notice dated May 15th, 1895, withdrawing Amendment No. 5, Amendments Nos. 6, 8, 9, 10, 12, 13, 14, 15, 16, 18, 19, 20, Copy of Amendment No. 6, Amendments Nos. 21, 22, 23 and 24.

Which certified copies are fastened together with the seal of the Interstate Commerce Commission.

Above exhibit is marked "Complainant's Exhibit No. 34."

Complainant offers in evidence certified copy of "Resolution adopted by the State Board of Equalization on April 20th, 1903, and the answers made to the interrogatories contained therein by the following named Railroad, Railway and Bridge Companies: Terminal Railroad Association of St. Louis; St. Louis Merchants' Bridge Terminal Railway Company; St. Louis Transfer Railway Company; St. Louis Bridge Company; St. Louis Merchants' Bridge Company."

Above exhibit is marked "Complainant's Exhibit No. 35."

Complainant offers in evidence certified copy of "Resolution adopted by the State Board of Equalization on April 18th, 1904, and the answers made to the interrogatories contained therein by the following named Railroad, Railway and Bridge Companies: Terminal Railroad Association of St. Louis; St. Louis Merchants' Bridge Terminal Railway Company; St. Louis Transfer Railway Company; St. Louis Bridge Company; St. Louis Merchants' Bridge Company."

Above exhibit is marked "Complainant's exhibit No. 36."

Complainant offers in evidence certified copy of "Resolution adopted by the State Board of Equalization on April 17th, 1905, and the answers made to the interrogatories contained therein by the following named Railroad, Railway and Bridge Companies: Terminal Railroad Association of St. Louis; St. Louis Merchants' Bridge Terminal Railway Company; St. Louis Transfer Railway Company; St. Louis Bridge Company; St. Louis Merchants' Bridge Company."

Above exhibit is marked "Complainant's Exhibit No. 37."

Complainant offers in evidence certified copy of "Resolution adopted by the State Board of Equalization on April 16th, 1906, and the answers made to the interrogatories contained therein by the following named Railroad, Railway and Bridge Companies: Terminal Railroad Association of St. Louis; St. Louis Merchants' Bridge Terminal Railway Company; St. Louis Transfer Railway Company; St. Louis Bridge Company; St. Louis Merchants' Bridge Company."

Above exhibit is marked "Complainant's Exhibit No. 38."

Complainant offers in evidence copy of Lease from the St. Louis Merchants' Bridge Company to St. Louis Mer-

chants' Bridge Terminal Railway Company, dated February 1, 1889.

Above exhibit is marked "Complainant's Exhibit No. 39."

Complainant offers in evidence copy of Lease from St. Louis Merchants' Bridge Company to Madison, Illinois and St. Louis Railway Company, dated August 1, 1893, lease of bridge, etc., for forty years from August 1, 1893.

Above exhibit is marked "Complainant's Exhibit No. 40."

Complainant offers in evidence copy of Agreement between the Union Depot Company of St. Louis and Atlantic and Pacific Railroad Company, Terre Haute & Indiaiapolis Railroad Company, Indianapolis and St. Louis Railroad Company, St. Louis and Southeastern Railway Company (Consolidated), and Ohio and Mississippi Railway Company, dated ————, 1874, for the construction and use of Union Depot.

Above exhibit is marked "Complainant's Exhibit No. 41."

Complainant offers in evidence copy of Agreement between Terminal Railroad of St. Louis and Terminal Railroad of East St. Louis, with the St. Louis Bridge Company and the Tunnel Railroad of St. Louis, dated March 3, 1880, for use and operation of Terminal Railroads of St. Louis and East St. Louis.

Above exhibit is marked "Complainant's Exhibit No. 42."

Complainant offers in evidence copy of Lease from Union Railway & Transit Company of St. Louis and Union Railway and Transit Company (of Illinois) to the St. Louis Bridge Company and the Tunnel Railroad of St. Louis, dated January 1, 1879.

Above exhibit is marked "Complainant's Exhibit No. 43."

Complainant offers in evidence copy of Lease from the St. Louis Bridge Company and Tunnel Railroad of St. Louis to the Wabash, St. Louis and Pacific Railway Company and Missouri Pacific Railway Company dated July 1, 1881.

Above exhibit is marked "Complainant's Exhibit No. 44."

Complainant offers in evidence copy of Agreement between the Terminal Railroad Association of St. Louis, The St. Louis Bridge Company, The Tunnel Railroad of St. Louis, The Missouri Pacific Railway Company, and the Wabash Railroad Company, being the successor in interest of the Wabash, St. Louis and Pacific Railway Company, in the lease of the bridge and tunnel companies, dated July 1, 1881, hereafter mentioned.

Above exhibit is marked "Complainant's exhibit No. 45."

Complainant offers in evidence printed copy of Agreement for Reorganization of the St. Louis Terminals, October, 1889.

Above exhibit is marked "Complainant's Exhibit No. 46."

Complainant offers in evidence certified copy of the Articles of Incorporation of the Electric City and Illinois Railway Company, dated February 18, 1889.

Above exhibit is marked "Complainant's Exhibt No. 47."

Complainant offers in evidence certified copy of the Certificate of Change of Name, Increase of Stock, Number of Directors, etc., of the Electric City & Illinois Railway Company, dated September 28, 1891.

Above exhibit is marked "Complainant's Exhibit No. 48."

Complainant offers in evidence certified copy of Articles of Association of the "Interstate Sand & Car Transfer Com-

pany," filed July 20, 1896; of Statement increasing its capital stock from $90,000 to $300,000, filed June 27, 1898; of Affidavit changing its name to "Interstate Car Transfer Company," filed June 27, 1898; and of Statement increasing its Capital Stock from $300,000 to $500,000, filed May 9, 1902.

Above exhibit is marked "Complainant's Exhibit No. 49."

Complainant offers in evidence certified copy of Articles of Association of the Union Depot Company of St. Louis, with the several certificates thereon, filed May 12, 1874.

Above exhibit is marked "Complainant's Exhibit No. 50."

Complainant offers in evidence certified copy of Articles of Incorporation of the East St. Louis Belt Railroad Company, filed June 15, 1898.

Above exhibit is marked "Complainant's Exhibit No. 51."

Complainant offers in evidence certified copy of Articles of Incorporation of Terminal Railroad of East St. Louis, filed February 23, 1880.

Above exhibit is marked "Complainant's Exhibit No. 52."

Complainant offers in evidence certified copy of Resolutions of Stockholders of the Terminal Railroad Company of East St. Louis, filed March 6, 1885.

Above exhibit is marked "Complainant's Exhibit No. 53."

Complainant offers in evidence certified copy of Articles of Incorporation of The Venice and Carondelet Railway Company, filed February 18, 1880.

Above exhibit is marked "Complainant's Exhibit No. 54."

Complainant offers in evidence certified copy of Articles

of Incorporation of the Union Railway and Transit Company, filed April 14, 1874.

Above exhibit is marked "Complainant's Exhibit No. 55."

Complainant offers in evidence certified copy of Certificate of Decrease of Capital Stock of the Union Railway & Transit Company, filed July 14th, 1875.

Above exhibit is marked "Complainant's Exhibit No. 56."

Complainant offers in evidence certified copy of an act entitled "An Act to incorporate 'The American Bottom Lime, Marble and Coal Company,' approved February 18, 1857."

Above exhibit is marked "Complainant's Exhibit No. 57."

Complainant offers in evidence certified copy of an act entitled "An Act to revive an act entitled 'An Act to incorporate the American Bottom Lime, Marble and Coal Company,' approved February 18th, 1857," approved March 8, 1867.

Above exhibit is marked "Complainant's Exhibit No. 58."

Complainant offers in evidence certified copy of Certificate of Change of Name of the American Bottom Lime, Marble and Coal Company, filed April 23rd, 1873.

Above exhibit is marked "Complainant's Exhibit No. 59."

Complainant offers in evidence certified copy of Resolutions of Stockholders of the East St Louis and Carondelet Railway Company, filed May 29, 1880.

Above exhibit is marked "Complainant's Exhibit No. 60."

Complainant offers in evidence Guaranty Agreement between The Missouri Pacific Railway Company and others,

Proprietary Companies; The Pittsburg, Cincinnati, Chicago & St. Louis Railway Company, and Terre Haute & Indianapolis Railroad Company, Guarantors of the St. Louis, Vandalia & Terre Haute Railroad Company: The Chicago & Alton Railroad Company, Guarantor of the Chicago & Alton Railway Company; Chicago, Burlington & Quincy Railroad Company, Guarantor of Chicago, Burlington & Quincy Railway Company; Terminal Railroad Association of St. Louis; and Central Trust Company of New York, and William Taussig, Trustees.

Above exhibit is marked "Complainant's Exhibit No. 61."

Complainant offers in evidence extract from printed report of Board of Equalization for the State of Illinois, found on the addition to page 137 thereof, as follows:

No. 55—East St. Louis Belt Railway Company.

Assessment per mile of Main Track	$7,500
Buildings on Right of Way	.....
Rolling Stock	.....

Rolling Stock—	
Full value	185,250
Assessed Value	37,050

At this point the further hearing of evidence in this cause is adjourned until to-morrow morning, Tuesday, May 14th, 1907, at half-past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, May 14th, 1907.

Met, pursuant to adjournment as above, on Tuesday morning, May 14th, 1907, at half-past ten o'clock, in the office of Special Commissioner, Hon. R. E. Rombauer, in the Roe Building, St. Louis, Mo.:

Present: Hon. R. E. Rombauer, Special Commissioner.
Mr. E. C. Crow appeared in behalf of the Complainant.
Messrs. M. F. Watts and F. W. Lehmann appeared on behalf of the Defendants.

The following proceedings were had:

W. K. KAVANAUGH, recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION BY MR. E. C. CROW:

Q. Mr. Kavanaugh, when the St. Louis Belt & Terminal Railway was sold to the Mississippi Valley Trust Company, as agent for certain of the proprietary lines of the Terminal

Railroad Association, do you know how much of that road had been completed if any? A. I know that a large percentage of the right-of-way—that is, to the best of my recollection, a large percentage of the right-of-way had been purchased, and some of it had been paid for, but a large percentage had been contracted for; and my recollection is that we had contracted for the power, for the rails, ties, and ballast.

Q. For the power? A. For the engines.

Q. Oh, the locomotives? A. Yes, sir. It is my recollection that all of those things had been done when the Terminal took it over.

Q. But there had been no actual construction work done? They took it over in July, 1902, according to the contract? A. Yes, sir, that is right. My recollection is that there had been some construction work started. I may be mistaken in that, but that is my recollection.

Q. Not much of it had been done, however? A. Not as compared to the total amount, probably; but there was considerable work done.

Q. Any rails laid? A. No, I don't think so.

Q. The stock had not all been issued, had it? A. I do not recall.

Q. The reason I ask that is that the contract shows that the right to the subscription was transferred. The corporation was organized in March, 1902, and sold in July, 1902, was it not? A. That is right. It is very likely that it was held in that shape, and the whole transaction was one contract. I don't remember, though, definitely about those things.

Q. The capital stock of that company had not been paid up in full, had it? A. That is another one of the features of the thing that I cannot recall. It was capitalized for $3,000,000.

Q. Well, you would know if the $3,000,000 had been

paid up, wouldn't you? A. Well, I know that we did not pay our share—

Q. (Interrupting) I mean at the time that you sold out. A. I think that arrangements had been made for the money with some trust company in New York. The reason I know that is that I O. K.'d a voucher paying that trust company a commission for the transaction. They did not put up the money, but they claimed their commission, and the Terminal Railroad Association preferred to make their own arrangements as to finances; but I know that that trust company in New York claimed their commission, and I saw the voucher, and O. K.'d it.

Q. How much money had been actually put up by you and your associates? A. That would be mere guesswork. I could not definitely state. I don't remember definitely.

Q. $30,000 or $40,000? A. I think more than that. I think we spent probably $100,000. And we contracted for a good many hundreds of thousands of dollars, which was assumed by the Terminal.

Q. What did you sell out for? A. Why did we sell out? Or at what price?

Q. At what price? A. We sold for $160,000.

Q. And the Terminal Railroad Association assumed all the obligations? A. Yes, sir.

Q. Who negotiated that sale, on behalf of your company? A. That sale was negotiated by Mr. Yoakum, is my recollection of it.

Q. B. F. Yoakum? A. Yes, sir.

Q. Of the Frisco Railway? A. Yes, sir.

Q. Was he a stockholder or officer of your company? A. He was a stockholder. You see, the St. Louis Belt & Terminal Railway Company was controlled by three interests, the Frisco, the Missouri Pacific, and the St. Louis Car Transfer Company. It is my recollection that Mr. Yoakum negotiated it.

Q. Did Mr. Yoakum and his friends control a majority of the stock? A. Yes, sir.

Q. Whom did he represent in those negotiations? A. He represented the majority.

Q. That was the three railroads? A. No. He represented the majority in that case, which would be the Missouri Pacific and the Frisco.

Q. Was the stock divided into thirds between the three companies? A. Yes, sir; we had that agreement.

Q. And you represented the Interstate Car Transfer Company? A. I represented the Interstate Car Transfer Company—yes, sir.

Q. Were the negotiations with your knowledge and consent? A. It came to me as a surprise. When I heard that negotiations had been gone into, it came to me as a surprise. But after the matter was presented to me, I finally agreed to the terms, for our people.

Q. Was the Frisco Road, at that time, a member of the Terminal Association? A. If not, they went in shortly after. I cannot recall as to that. I presume their records would show that.

Q. Was the Rock Island a member at that time? A. I think not. That is something the records would have to show. I cannot remember the circumstances.

Q. Had the agreement for the sale been made when you were notified of it? A. I don't know, positively. I don't know as Mr. Yoakum had positively agreed to turn over the majority of the stock. I know he informed me that he had up negotiations, and thought he had better sell. And I became convinced that was the only thing left for us to do.

Q. Had the Interstate Car Transfer Company stock been transferred to the St. Louis Belt & Terminal Railway? A. No, sir.

Q. That was an independent corporation, wasn't it? A. Absolutely independent. It was the Interstate Car Transfer

Company, the Frisco, and the Missouri Pacific, that made an agreement to father this St. Louis Belt & Terminal Railway Company.

Q. Why was the Interstate Car Transfer Company included in the sale? A. I did not know that it was included in the sale. They sold out at the same time, but I don't recall that it was included in one sale. It may have been, but they were separate corporations, and kept separate—separate stock-holders.

Q. The sales were not necessarily, then, one dependent upon the other? You sold the Transfer Company, didn't you? A. Yes, sir, I made the sale for that.

Q. Who did you negotiate with? A. Those negotiations were brought to me from Mr. Yoakum, also.

Q. Mr. Yoakum? A. Yes, sir.

Q. At the same time? A. At the same time

Q. Wasn't it an independent transaction? A. The sale was made as an independent proposition. Yes, sir. But at the same time—is my recollection.

Q. Did you insist on the sale of the Transfer Company, if the other property was sold? A. I don't recall my position in regard to it. I know that at first I did not want to sell either. I wanted to build that Belt Road to connect with my Interstate Car Transfer Company. That was my purpose in starting the Belt Railroad.

Q. You were a competitor of the Terminal Railroad Association? A. Yes, sir.

Q. And the sale of the proposed road, in respect to your property, left you, or would leave you, in the same position you were in before? A. Exactly.

Q. Do you know now whether you objected on account of its being left in that condition? A. I did at first. But after a while we agreed upon a price.

Q. You agreed upon a price for what? A. The Interstate Car Transfer Company.

Q. Was the first proposition of Mr. Yoakum to sell the Belt Railway Company separately, without selling the Interstate Car Transfer Company? A. I think he brought the propositions for both at the same time. That is my recollection.

Q. You signed the agreement, for the Interstate Car Transfer Company? A. Yes, sir.

Q. You don't know whether anybody other than the two railroads that you have mentioned held any stock in the St. Louis Belt & Terminal Railway Company? A. I think not.

Q. Were you an officer of that company? A. Yes, sir.

Q. What position did you occupy? A. I was made President of it. I think the first President was Russell Harding, and then, I think, I was made President afterwards.

Q. It was designed, you say, to operate with the Interstate Car Transfer Company, as a competitor of the Terminal Association? A. Yes, sir.

Q. Do you know why the Terminal bought it? A. No, sir; they wanted it, I presume.

Q. Were any statements made to you by Mr. Yoakum as to why the Terminal wanted it? A. I don't recall Mr. Yoakum's statements now. It has been a good long while ago. I just have general impressions.

C. A. VINNEDGE, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your full name. A. C. A. Vinnedge.

Q. What is your occupation? A. I am secretary and auditor of the Terminal Railroad Association of St. Louis.

Q. How long have you occupied that position? A. Since April 1st, 1903.

Q. Do you occupy any official position with reference to the St. Louis Merchants' Bridge Terminal Railway Company? A. I am auditor of that company.

Q. The business of both roads, then, goes to your office? A. To my office, yes, sir. In the same office, rather.

Q. As Auditor of those two roads, do you have charge of the accounts that show the financial condition, and receipts and expenditures, and the items showing what they are for, etc? A. Yes, sir.

Q. I will ask you if you have anything to do with the books of the Wiggins Ferry Company—the accounts? A. No, sir. That is a separate corporation.

Q. Who is the auditor of that company? A. Mr. J. E. Gathright.

Q. Where is his office? A. It is located in the west end of Union Station.

Q. I will get you to examine this statement, and see if it was made up from your records, if you know anything about it. It is a statement purporting to show receipts and expenditures from January 1st, 1898, to June 30th, 1906, of the Terminal Railroad Association. A. (After examining statement) Yes, sir.

Q. That was made in your office? A. That was made in my office.

Q. I call your attention here to this item: "Earnings, All Sources, Freight, Passenger, Mail, Express, Upper Roadway, and Rental, Tracks and Ground." That amount for the year 1905 seems to be $2,933,831.22. That is gross receipts, is it not? A. That is gross receipts.

Q. Of the Terminal Railroad Association, proper? A. Of the Terminal Railroad Association, proper.

Q. That does not include the Merchants' Bridge Terminal Railway Company? A. No, sir.

Q. Nor the Wiggins Ferry? A. No; according to this statement it is only for the Terminal Railroad Association of St. Louis.

Q. That's what I want. That only covers the Terminal properties. Now, the records of your Association will show the same things with regard to the Merchants' Bridge Terminal Railway Company? A. Yes, sir. The accounts and records of the two companies are as entirely separate and distinct as those of the Missouri Pacific and Vandalia roads.

Q. Now, referring to this heading here, again, "Freight, passenger, mail, express, Upper Roadway and rental, tracks and ground," I will ask you if the item of freight, whatever it may be in dollars and cents, as included in this total, covers both local and through freight? A. Yes, sir.

Q. All freight revenue, from whatever source? A. Yes, sir.

Q. Does it include switching charges in the city? A. Yes, sir, every sort of earnings is included here.

Q. Every sort of earnings by the freight department? A. By the freight department and passenger department.

Q. The word "passenger" there is meant to cover all passengers on steam cars, is it? A. Yes, sir.

Q. All earnings of the road? A. Yes, sir. And that word "passenger" might be misleading, because we collect no fares from the passengers crossing the river, but the charge is on a per car basis.

Q. How about the local passenger traffic? A. We have no local passenger traffic over the Eads Bridge. It is all handled by the trains of other companies.

Q. Of other companies? A. Of other companies; the railroads entering St. Louis.

Q. Haven't you any local traffic? A. Not over the Eads Bridge.

Q. Isn't there a train runs up to the Union Stock Yards? A. There is a train runs to our shops, for shop employes.

Q. Well, isn't there one that carries passengers to the Union Stock Yards? A. I think there may be a train that goes over the Merchants' Bridge, and goes down that way.

Q. And none over the Eads Bridge? A. Not to my recollection.

Q. And there is no local passenger earnings in that statement? A. None that I would classify as local tickets sold by the Terminal Railroad Association. That all accrues to the different roads. We sell tickets at Union Station between St. Louis and East St. Louis.

Q. You sell tickets, also, don't you, over the Terminal—over the Merchants' Bridge Terminal, to local stations on the other side of the river, and from the other side of the river to St. Louis? A. Not on the Terminal—no, sir.

Q. Not on the Terminal? A. No, sir.

Q. Do you on the Merchants' Bridge Terminal? A. The Merchants' Bridge Terminal has tickets reading from Union Station to Granite City, Madison, and perhaps other points.

Q. And then from those points to St. Louis? A. Yes, sir.

Q. What does the word "mail" as found on this statements, include? A. That is the amount received from the United States Government for the transfer of mail over the Eads Bridge.

Q. Are there any receipts over the Merchants' Bridge? A. Yes, sir.

Q. Does that come in another statement? A. That would come in another statement.

Q. What does the word "express" cover? A. The

amount received from the transportation of express matter over the Eads Bridge.

Q. This last is handled by the ordinary express companies? A. Yes, sir, by the express companies.

Q. Do you know what that rate is? A. Six and one-half cents per 100 pounds.

Q. For bridge transfer? A. Yes, sir.

Q. What is the rate the Government pays for mail, for bridge transfer? A. That is a lump sum per annum.

Q. Is there a basis on which it is fixed? A. That I could not say.

Q. What department fixes that for the Government? A. The Postoffice Department.

Q. I mean, what department of your road? A. I don't understand.

Q. What person, what officer connected with your road, fixes that matter with the Government, for the mail? A. I presume it would be taken up with our President.

Q. You don't know anything about that contract, or what it calls for? A. I know what it calls for. Yes, sir. For the transfer of mail.

Q. I mean, in dollars and cents? A. Yes, sir, I know the amount.

Q. How much is it? A. Fifty thousand dollars per annum.

Q. For the Eads Bridge? A. Yes, sir.

Q. Regardless of the quantity? A. Regardless of the quantity.

Q. This "Upper Roadway," what is that? A. The Eads' Bridge has an upper road-way, over which street cars, teams, pedestrians, etc., pass.

Q. That item of "Upper Road-way" includes what service—revenue from what service? A. Revenue from foot passengers, street car passengers, teams, etc., crossing on the upper road-way of the Eads' Bridge.

Q. What does this item of "rental" include? A. That includes amounts received from rent of property that is used partly in operation. A building, perhaps, at the entrance to the Eads' Bridge, which might be occupied by a fruit-stand, or as a waiting-room for the street-railway company.

Q. It is not rental from any property, as distinct from real estate, but rental from real estate property owned by the Company? A. Yes, sir, that is correct.

Q. Now, "Tracks and ground:" What item of revenue do you have from that? A. Well, some of the roads pay us trackage, where they use our tracks in reaching another road, or industries, where it is desirable for them to handle the cars with their own locomotives; so they pay us a trackage charge for passing over our tracks.

Q. What roads do that, do you know? A. I cannot recall the names of the roads. There may be several of them There probably are.

Q. What does this item of "ground," mean? A. That means, "rental of tracks and grounds." There may be industries located along our tracks, for instance a lumber yard that has track connection, and we rent them the ground on which their yard is located.

Q. This item of "mail and express," for which you receive the amount you stated above—that includes the mail and express from everywhere, doesn't it, no matter where it is from, or where it is destined to? A. Yes, sir.

Q. Without regard to destination or origin? A. Yes, sir, that is correct.

Q. And it comes from all parts of the country, and all parts of the world? A. Yes, sir.

Q. This item of "Union Station Rental,"—what does that include? I see for the year 1905 it is $543,890.62. A. The appraised value of the Union Station is taken, and five per cent per annum computed on that appraised value,

which amount is apportioned among the companies using the Union Station, on the car basis.

Q. On the basis of the number of cars they run into the Station annually? A. Yes, sir.

Q. Who makes that computation as to the valuation of the Union Station? A. I don't know how the original appraisement was made. It was six and a half million dollars.

Q. Is it always fixed on that basis? A. The original appraisement was $6,500,000. The Union Station agreement provides that as additions or betterments are made to the Union Station, additional facilities, additional buildings, additional coach-yards, etc., the cost of these additions shall be added to the appraised value, and five per cent per annum computed thereon.

Q. What was the valuation for 1905? A. Approximately $11,000,000.

Q. That increase was on account of additions and improvements? A. Yes, sir, there were additions since 1903. You will notice this reflected in these figures (indicating statement) to the amount of nearly four and a half million dollars.

Q. Was that all on the station, or part of it in the yards? A. Yards and station.

Q. Does the item of "Union Station" include anything other than the shed and the buildings? A. Yes, sir, there are coach yards.

Q. Does it include all those coach yards? A. Yes, sir.

Q. How far up do those yards run that are included in Union Station? A. Not very far; adjoining Union Station on both the east and the west.

Q. Those tracks that are immediately adjacent, up to about the 20th street bridge? A. Yes, sir.

Q. Does it go to the 21st street bridge? A. Yes, sir.

Those that are used for coach storage are considered as part of the Union Station.

Q. Were many of those acquired since 1903? A. There has been almost an entire re-arrangement of the tracks since that time.

Q. There has been no additional acquisition of property there, though, has there? A. I think so.

Q. At 21st Street? A. I could not state with reference to the location.

Q. You referred to the "Union Station agreement:" is that an agreement among the different railroad companies for the use of the Union Station? A. Yes, sir.

Q. Is that on file in your office? A. Yes, sir.

Q. I see you have included here statement of earnings of the Wiggins' Ferry Company—but that is only for three years, beginning the 18 months ending June 30th, 1904—for 1904, 1905 and 1906. Do you know where you got those earnings or do you have any personal knowledge on the matter; or did some of your clerks attend to it? A. That statement was prepared, I think, while I was absent; it was shown to me afterwards; but those figures were evidently secured from the Wiggins' Ferry Company.

Q. Coming down to the item of "Operating expenses," for the same year, 1905, I find the amount stated as $1,296,064.56. What general subjects are included in that item of operating expenses by the Terminal Railroad Association? A. All of the expenses.

Q. What are they? A. Maintenance of way and structures; maintenance of equipment—that includes locomotives and cars; and general expenses, which includes the general administration.

Q. What do you mean by "general administration"—salaries of officers, employees, etc.? A. Salaries of officials that have not been located; and other clerks and em-

ployes; and conducting transportation expenses, which includes locomotives and cars; and all expenses.

Q. Are the trainmen included in the item "conducting transportation? A. Yes, sir.

Q. And what other items? A. That would include fuel and supplies for the locomotives; agents; telegraph operators; "Conducting transportation" is a broad term; it is intended to cover all expenses incurred incident to the operation of trains.

Q. The actual operation of the roads? A. Yes, sir.

Q. Are there any other items included in that $1,296,-064.56? A. I believe those are the four principal headings.

Q. What do you mean when you say "Maintenance of Way?" What does that include? A. That means repair of tracks, road-beds, rails, ties, and bridges.

Q. It does not include any improvements or anything of that kind? A. No, sir.

Q. It is simply keeping the property in the same condition it was in before? A. Yes, sir.

Q. Of course the item of "Taxes" speaks for itself. A. Yes, sir.

Q. "Interest on bonds and loans, and rentals:" What amount of bonded indebtedness does that item represent interest on? A. That is for the years 1905 and 1906?

Q. Yes, sir. A. The bonded indebtedness of the Terminal Railroad Association of St. Louis at that time was $30,090,000.00.

Q. Has there been some issued since? A. $1,000,000 issued, and $100,000 retired by and through the sinking fund.

Q. That would make the present bonded indebtedness about $30,000,000? A. Yes, sir, about $30,000,000.

Q. That does not include the item of dividends paid on preferred or guaranteed stock that the Terminal Associa-

tion is responsible for under the terms of its contract with the old Eads' Bridge, does it? A. No, sir, that is considered as rental—it is rental.

Q. That is considered as a matter of rental? A. Yes, sir.

Q. Does that item of interest include the payment of interest on the bonds of the old subsidiary companies, like the Union Railway & Transit Company? A. There was no such bond issue.

Q. Then this item of interest which is included in this statement simply represents the interest on about $30,000,000 of bonded indebtedness of the Terminal Railroad Association? A. Yes, sir; it includes the interest on all the bonds of the Terminal Railroad Association of St. Louis, which amount to approximately $30,000,000.

Q. Some of those bonds, of course, are still in the possession of the Association, held for the purpose of retiring other bonds as they mature? A. They are not in the hands of the Association; they are in the hands of the trustee.

Q. But they still belong to the company until they are turned over? A. They are not considered as issued, or outstanding, at all. They are not considered in the account until they are issued.

Q. These included in this statement are all issued and outstanding? A. Yes, sir.

Q. This item of "loans;" what does that represent? A. That represents the amount of interest that we pay on our floating indebtedness, which is not covered by bonds.

Q. What do you mean by the term "floating indebtedness"? A. Bills payable to the banks and trust companies.

Q. Does it also include notes? A. And notes.

Q. Do you know what that amounted to in 1905? A. $3,100,000, to the best of my recollection—approximately.

Q. What has that been expended for? A. In additions and betterments to the property; construction work.

Q. At what points? A. All over the property.

Q. Principally at Union Station? A. Largely.

Q. During what period of years has that indebtedness been accumulated? A. 1903, 1904 and 1905.

Q. How much of that went into the sub-way at the Union Station? A. Approximately $1,000,000.

Q. Where did the balance of it go? A. Well, it went all over the property. A great deal of it was spent in the Union Station improvements which I spoke of, which cost approximately four and a half million dollars.

Q. Building those express buildings out there? A. Yes, sir; express buildings; and power house.

Q. How much did that cost? A. I cannot recall.

Q. You have those figures, though, haven't you? A. Yes, sir.

Q. Did you build a new power-house? A. Yes, sir.

Q. And a new inter-locking system? A. Yes, sir. And an addition to the Union Station freight shed of 180 feet.

Q. That is, extending on out 180 feet? A. Yes, sir.

Q. What does this item or " rental" include? A. We naturally have to pay rental for a good deal of ground that is occupied by our tracks.

Q. Where is that located, that you pay rental on? A. Principally in what is called "The Mill Creek Valley."

Q. East or west of the 21st Street bridge? A. I could not say definitely where it is.

Q. Will your records show that? A. Yes, sir.

Q. What other items of rental did you pay? There is a bridge rental that you pay, isn't there? A. Yes, sir. That is included in this item. That amounts to $55,000 a month for the Eads Bridge and the Tunnel Railroad.

Q. How much? A. Approximately $55,000 a month.

Q. Let's separate the two. The Bridge Company first: How much do you pay interest on as a rental for the bridge —how much on bonded indebtedness and stock? A. We

pay seven per cent on $5,000,000 of bonds; six per cent on $2,490,000 first preferred stock; and three per cent on $3,000,000 second preferred stock.

Q. That makes $10,490,000 on the bridge? A. Yes, sir. For the Tunnel Railroad of St. Louis, which embraces the tunnel property, we pay six per cent on $1,250,000.

Q. Those items are paid, under the contracts, as rental for that property? A. As rental for the property.

Q. The title to that property is not in the Terminal Railroad Association? A. No, sir.

Q. But you hold it under your lease? A. Under the lease.

Q. Are there any other items of rental included in that statement? A. Not that I recall, but it covers everything that we pay in the way of rental.

Q. Do you pay any rentals on the east side? A. I think not.

Q. Are there none of those subsidiary roads over there that the Terminal Association has guaranteed? How about the Merchants' Bridge Terminal Railway? Wasn't there a contract made in 1903 guaranteeing the payment of interest on the bonds? A. Yes, sir.

Q. For the use of that property? A. I cannot say as to why it was, or what it was.

Q. You just know it was done? A. I know it was done.

Q. Does the Terminal Association make any payment for that now? A. No, sir, it was simply a guarantee.

Q. They don't have to make good on it? In other words, it carries itself? A. It carries itself.

Q. Then there is no expenditure for that? A. No, sir.

Q. Is there any expenditure for any of those east side properties, in the way of rentals? A. None that I recall.

Q. Well, you would likely know it, if there was, would you not? A. Yes, sir.

Q. You have under the item of "Improvements" here, for

the year 1905, $10,773.00; that is correct, is it? A. Yes, sir.

Q. And in the previous year $355,333.72; and in 1902, $73,410.83; is that correct? A. Yes, sir.

Q. That includes all the improvements, does it? A. Yes, sir.

Q. If that is true, then, why was the floating indebtedness accumulated of $3,500,000—or $3,000,000 in round numbers, for improvements? A. I did not say "improvements." I said "construction and betterments."

Q. You don't include in this word "improvements," then, construction? A. No, sir.

Q. Just explain what that means? A. I can explain that by stating that Eads Bridge needed strengthening.

Q. On account of carrying heavier loads? A. Heavier loads, yes, sir. And I believe that included some repair work which was charged as "improvements" instead of ordinary repairs. "Improvements" as used there means extraordinary repair or renewals.

Q. Renewal of something which had existed theretofore? A. Yes, sir.

Q. And it does not include additions, and what you term betterments to the property? A. No, sir.

Q. That explains the matter. You have got an item of "Sinking Fund" in the year 1906, of $96,162.98. Will you explain what that means? A. Beginning with July 1st, 1906, the terms of the General Mortgage require that $100,000 worth of bonds be purchased and retired each year. In 1906 occurred the first annual period, and the bonds cost that amount.

Q. I see you have a "surplus" here in 1905 of $217,914.12. Does that mean an amount on hand over and above paying all those fixed charges as above enumerated? A. That means the difference between the receipts and the expenditures, as set forth on this sheet.

Q. The amount on hand over and above the amount of these items of expenditure? A. Yes, sir.

Q. And that represents earnings by the Terminal Railroad Association alone? A. By the Terminal Railroad Association alone.

Q. I see you have here an item of "Real estate, construction, etc.," for that year, expenditures amounting to $1,107,-755.20. What does that item of real estate include? A. That would include any real estate that was purchased for the extension of tracks or yards. And "construction" covers all new work; the construction of new side-tracks, the construction of new buildings, the installation of block signaling apparatus.

Q. I see in the year 1904 that was $9,098,003.53; is that correct? A. That was the year of our heaviest expenditures.

Q. Your books will show what that $9,000,000 was for, of course? A. Yes, sir.

Q. (Handing witness statement) This is a statement of "Proceeds from the Sale of General Mortgage Bonds and Expenditures" of the Terminal Railroad Association, made prior to June 30, 1906, which I show you, and ask you if you made that, or had it made from the records in your office? A. (After examining statement referred to.) It was made from the records in my office.

Q. This includes simply the application of Terminal Railroad bonds—that is the proceeds of the sale of them, to the Terminal property, and not of the Wiggins' Ferry, or the Merchants' Bridge Company, does it? A. No, sir. The accounts, as I said, are entirely separate and distinct.

Q. I see you have here first "Proceeds from sale of General Mortgage Bonds," $8,000,000 at 96.5, amounting to $7,720,000. Do you know when that sale was made, and to whom? A. That was before my connection with the company.

Q. All three of these items, then, of $8,000,000 and $5,000,000 and $5,000,000, were before your connection with the company? A. The last item was after my connection with the company.

Q. When was that sale of $5,000,000 made at 90? A. In June, 1904, I think.

Q. I now show you a statement from the Auditor's Office of the Terminal Railroad Association of St. Louis, headed "Bonds issued and sold and application of Proceeds;" I presume that comes from your office. Please examine it, and see if it did. A. (After examining statement referred to) Yes, sir.

Q. I call your attention to an item here, "Paid Jay Gould for properties of Union Railway & Transit Company of St. Louis, Terminal Railroad of East St. Louis, and associated properties, $5,000,000." What properties were acquired by that purchase? Will the records of your office show exactly? A. I think they will. That was before my connection with the Association.

Q. Well, if your office does not show it, what office would show it? A. I don't know of any, if our office does not show it. That is covered by an agreement.

Mr. Watts: That agreement was offered in evidence yesterday.

Mr. Crow: I know. The agreement reads that they were to be conveyed.

The Witness: They were conveyed.

Q. They were conveyed, were they? A. Yes, sir.

Q. "Construction of new Union Station." Is that the present Union Station—$1,746,000? A. That is the present station.

Q. Now, the item of "Discount on sale of bonds," amounting to $254,000. Do you know whether that includes a commission? A. No, sir; discount alone.

Q. Your records will show that fact, will they? A. Yes, sir.

Q. I call your attention to this statement: "Terminal Railroad Association of St. Louis, First Consolidated Mortgage Bonds, authorized $12,000,000—issued $5,000,000." Do the three following items, "Purchase Merchants' Bridge Terminal Railway stock," "Purchase Terminal Railway stock and bonds," and "Used in Construction of Union Station yards and belt lines," and also the line below that, "Discount on bonds sold, less premium," make up that $5,000,000? A. Yes, sir.

Q. And that was what the proceeds were used for? A. Yes, sir.

Q. What is that item, "Discount on bonds sold, less premium;" what does that mean? A. There was a premium on some of the bonds that were not sold at the time—the first issue.

Q. The first issue—what do you mean? On the $5,000,000? A. Yes, sir, the $5,000,000.

Q. Well, that was all counted in that $5,000,000 issue, wasn't it? A. Something like $4,000,000 or $5,000,000 of those bonds were sold later at a premium. Part of them were sold at a discount, and part at a premium.

Q. Were they sold about the same time? A. I cannot recall.

Q. Your records will show that, will they? A. Yes, sir.

Q. Here is an item, "St. Louis Merchants' Bridge & Terminal Railway Company, First Mortgage Bonds $3,500,000;" is that correct? A. Yes, sir.

Q. What does that item represent? A. That is the entire bonded indebtedness of the St. Louis Merchants' Bridge Terminal Railway Company.

Q. The next item is "Construction of Elevated Structure, $1,265,727.98." Does that mean an expenditure by the

Terminal Railroad Association? A. No, sir, by the Merchants' Bridge Terminal Railway Company.

Q. Does the Merchants' Bridge Terminal Railway Company own that structure from up about Carr Street to 8th and Gratiot? A. Yes, sir, that belongs to the St. Louis Merchants' Bridge Terminal Railway Company.

Q. "Construction of Southwest approach to bridge;" what bridge is that? A. That is the Merchants' Bridge. There are two approaches on the Missouri side.

Q. Two approaches, one from the north, and one from the south? A. One from the north, and one from the south.

Q. "Other construction work, $1,648,161.50": In a general way, do you know what that item represents? A. There were no special large items, but many small ones there, that go to make up that total. I cannot recall any special work that would cost a large sum.

Q. Here is an item of "Discount on Sale of Bonds, $464,353.52:" Does that represent any commission? A. Not to my knowledge, nor do I believe it does. I think that it is discount.

Q. Your books would show that? A. Yes, sir.

Q. Those last items I have mentioned—construction of elevated structure, construction of southwest approach to bridge, other construction work, and discount on sale of bonds—that represents money expended by the Merchants' Bridge Terminal Railway Company, and not the Terminal Railroad Association? A. Not the Association, no, sir.

Q. Then none of the proceeds of bonds of the Terminal Association went to pay any of these items of expenditure? A. No, sir.

Q. Next is "St. Louis Merchants' Bridge Company, First Mortgage Bonds, $2,000,000." Is that correct? A. Yes, sir.

Q. What does that represent? A. That represents the cost of the bridge.

Q. When you speak of the bridge, do you mean the bridge and its approaches, or the bridge with the spans and piers? A. The bridge and its approaches. The bridge property consists not alone of the bridge, but approaches.

Q. Those $2,000,000 paid for the approaches did they? A. And the bridge.

Q. Then, if that is so, why is there an item here of $121,757.00 for the construction of what is called "the southwest approach? Was that an additional approach? A. That is an additional approach. There are two, as I have stated, on the west side.

Q. Will your records show what was the cost of building the Merchants' Bridge, the spans and piers, and the approaches, separately? A. I could not say.

Q. Take the two propositions; the bridge with the piers, and then the approaches on either side: will your books show that? A. I could not say about that. I have never disovered it in the records.

Q. Do you know what it cost to build the Merchants' Bridge? A. No, I do not; other than that statement.

Q. That represents an expenditure not by the Terminal Association, but by the Merchants' Bridge Company? A. By the Merchants' Bridge Company.

Q. That includes then the application of the sale of how many bonds of the Terminal Railroad Association of St. Louis? Just look at the statement, and you can tell there. Not of the Merchants' Bridge Company, but of the Terminal Railroad Association. A. (After referring to statement) $12,000,000.

Q. That is the first two bond issues, then? A. Yes, sir; the first mortgage bonds, and the first consolidated.

Q. As I understand it, the application of the proceeds of none of the last mortgage bonds appear in that statement

about which I have been examining you: is that correct? A. No, sir, none in that statement.

Q. I have here a statement of "Annual Fixed Charges:" Does that cover any other charges than the Terminal Association property? A. Yes, sir.

Q. It covers all the properties that they operate, does it not? A. (After examining statement). It covers the Terminal Railroad Association of St. Louis; and the St. Louis Merchants' Bridge Terminal Railway; both companies.

Q. It does not include the Wiggins Ferry Company? A. No, sir.

Q. It just takes in the two bridges and the two railroad properties, the Merchants' Terminal, and the St. Louis Terminal? A. Yes, sir.

Q. I see an item here, "Interest on Terminal Railroad Association of St. Louis First Consolidated Mortgage Bonds, $5,000,000 at 5 per cent:" what $5,000,000 was that, and to what was it applied? Was that this item that is referred to in a preceding item in this statement (indicating) as "First Consolidated Mortgage Bonds?" A. Yes sir.

Q. Here is an item of "Interest on St. Louis Merchants' Bridge Company, First Mortgage Bonds, $2,000,000 at 6 per cent:" Does that cover the bonds that were issued and the proceeds used for the purpose of building the bridge? A. Yes, sir.

Q. Here is an item of "Interest on Terminal Railroad Association of St. Louis, First Mortgage Bonds, $7,000,000, at 4½ per cent." Is that included in the issue of $12,000,000 consolidated bonds? A. $7,000,000 of the $12,000,000?

Q. Yes, sir.

Mr. Watts: Those were the first mortgage bonds.

Q. Here is an item, "Interest on St. Louis Merchants'

Bridge Terminal Railway, First Mortgage Bonds, $3,500,000, at 5 per cent." Is that the $3,500,000 the payment of interest on which was guaranteed by the Terminal Railroad Association? A. Yes, sir.

Q. "Interest on St. Louis Bridge Company, First Mortgage Bonds, $5,000,000 at 7 per cent." Does that represent the $5,000,000 on which interest is paid as rental? A. As rental, yes, sir.

Q. "Interest on Terminal Railroad Association of St. Louis, General Mortgage Bonds, $18,000,000, at 4 per cent;" what items of bond issues and obligations does that cover—the $18,000,000? A. That is the general mortgage bond issue to date—to this time—$18,000,000.

Mr. Watts: Subsequent to December, 1902.

Q. Then that is a part of the $50,000,000 bond issue? A. Yes, sir.

Q. And those are issued and outstanding? A. Issued and outstanding.

Q. And those are reserved in the hands of the Trustee to retire what is not retired of the $12,000,000 consolidated bonds? A. Yes, sir.

Q. Now, "Dividends on St. Louis Bridge Company First Preferred Stock, $2,490,000." That represents the charge that you mentioned awhile ago in your testimony that is paid as part of the rental for the Bridge property? A. Part of the rental, yes, sir.

Q. "Dividend on St. Louis Bridge Company Second Preferred Stock, $3,000,000." That represents the same item of expenditure—rental on the bridge? A. That is also part of the rental.

Q. "Dividends on Tunnel Railroad of St. Louis stock, $1,250,000." That represents rental for the tunnel? A. Yes, sir.

Q. "Interest on Real Estate Bonds, $90,000 at 5%, and $195,000 at 4 per cent." What real estate bonds are

they? A. The $90,000 bonds are placed on real estate the location of which I do not remember; balance of unpaid purchase price on the property.

Q. On what—real estate? A. All real estate.

Q. Bought by the Terminal Railroad Association? A. Yes, sir, bought by the Terminal Railroad Association. And this $195,000 appears to be the same.

Q. That is, those two items representing $290,000 interest, is interest that is paid on obligations of the company for real estate that has been purchased, and which has not been entirely paid for? A. Deferred payments on real estate notes.

Q. Do you know where that real estate is located? Is it all in St. Louis, or where? A. Scattered all over the country. Principally in St. Louis.

Q. When was that indebtedness created, and when was the property acquired? A It consists of a very great many pieces, acquired at different times, running back several years—quite a number of years.

Mr. Watts: Q. Back as far as 1889, some of them; isn't that correct? A. Yes, sir

Mr. Crow: Q. Property that the company is using now? A. Yes, sir; which was acquired for the purpose of extending or enlarging its yards, track facilities, etc.

Q. Is it included in the General Mortgage of the Association, as part of the assets? A. Largely, yes, sir.

Q. And the description of the real estate which is in the General Mortgage largely includes this property? A. Some of it—yes, sir.

Q. You have an item of "Interest on Current Loans, not included in above amounts, $155,500 per annum." What is that? A. That is an estimate as to the amount of interest that would accrue, or be payable, on our floating indebtedness.

Q. Will the books in your office disclose whether or not the proprietary lines received any of the money from the proceeds of the sale of the bonds for $50,000,000 issued to reimburse the proprietary lines for any monies that may have been advanced in the purchase of the Wiggins Ferry property? A. They will.

Q. They will show that—as to whether or not that is true? A. Yes sir, they will show this expenditure as set forth in the statement here (indicating).

Q. How much is that? A. (Reading from statement) "Purchase of Wiggins' Ferry Company's stock, $7,426,-356.15."

Q. That was paid to the companies that had advanced the money, was it? A. Yes, sir.

Q. Does that represent the purchase of all of the stock of the Wiggins Ferry Company? A. Yes, sir.

Q. What about this next item, "St. Louis Belt & Terminal Railway Company's Stock?" A. That is altogether a separate institution.

Q. Yes. But were the proceeds of the sale of the $50,-000,000 bond issue used to pay that $160,000? A. Yes, sir.

Q. And also the $620,274.38 paid for the Interstate Car Transfer Company stock? A. Yes, sir.

Q. "The East St. Louis & Carondelet Railway Company stock, $1,250,000." Were the proceeds of the sale of the $50,000,000 bond issue used for that purpose, also?" A. Yes, sir.

Q. That is known as the "Conlogue Road," I believe? A. Yes, sir.

Q. You have an item here of "Louisiana Purchase Exposition stock, $50,000." Does that represent the subscription? A. Yes, sir.

Q. And the proceeds of the sale of the bonds were used to pay that? A. Yes, sir.

Q. I see you have an item here in this statement: "Proceeds from sale of General Mortgage Bonds and Expenditures to June 30, 1906," of "Real Estate, Construction, etc., $2,627,867.60." Does that include the expenditure at the Union Station in 1903 and 1904? A. All real estate purchased.

Q. Does that word "construction" include the additions that were made to the Union Station? A. Yes, sir, that is the total. "Real Estate, Construction, etc.," those are the items (indicating).

Q. That represents the expenditure from what day prior to June 30, 1906? A. From the issue of those bonds.

Q. The issue of which bonds, the $50,000,000? A. The $50,000,000 General Mortgage Bonds.

Q. Then, that would be from December, 1902, up to June 30, 1906? A. Yes, sir.

Q. But practically all of this money for construction and real estate was expended prior to and during 1905, wasn't it? A. 1903, 1904 and 1905.

Q. I say, prior to and during 1905; that is correct, isn't it? A. Yes, sir, that is correct.

Q. And it was in the years, as you say, 1903, 1904 and 1905, principally? A. Yes, sir.

Q. What does this item of "Equipment, $702,533.01" represent? A. That means cost of new locomotives, and perhaps some flat cars.

Q. Now, you have got, "General Construction Union Station, Additions and Betterments, etc., $5,482,419.27." That is the item that includes the Union Station, rather than the one previously referred to, up here (indicating)? A. Yes, sir. That (indicating preceding item) is for real estate alone. A separation is made as between real estate and other construction.

Q. Here is "Construction of St. Louis Belt & Terminal

Railway, $1,630,015.46." Was that paid from the proceeds of the sale of the $50,000,000 bonds? A. Yes, sir.

Q. Here is "Illinois Transfer Railway, $217,406.05." Does that represent the purchase of the stock of that company? A. No, sir. I think that represents the cost of construction of the property. I can say positively it does does not include the cost of the stock.

Q. That was a road that was built, then, by the Terminal Railroad Association? A. Yes, sir.

Q. Where is that road located? A. That is located in Illinois, and extends from near Madison to a connection with the Illinois Central tracks, I believe.

Q. Built for the purpose of the use of the Terminal Railroad Association? A. Yes, sir; a belt line.

Q. Now here is an item "East St. Louis & Carondelet Railway, $19,106.20." What does that represent. A. That represents the cost of additions to that property.

Q. "East St. Louis Belt Line Railroad, $7,297.83." What does that represent? A. That represents the cost of additions to that property.

Q. Do the records in your office disclose anything about the amount of equipment and rolling stock which is owned by the Company? A. Yes, sir.

Q. It will show that, will it? A. Yes, sir

Q. And will it show what was acquired with each one of the roads that was acquired—for instance, the Wiggins Ferry, the Interstate Car Transfer Company, the St. Louis Belt & Terminal Ry., and all those? A. Yes, sir, of the Belt & Terminal Railway. As I said, the Wiggins Ferry is separate and distinct.

Q. Then your records would not show what was acquired with that? A. My records would not show.

Q. Will they show what was acquired with the Interstate Car & Transfer Company, and the St. Louis Belt & Terminal Railway, and the East St. Louis & Carondelet

Railway? A. It will show the equipment acquired with the East St. Louis & Carondelet, but not the Wiggins Ferry nor the Interstate Car Transfer Company. It is a lump purchase price.

Q. Will it show with reference to the St. Louis Belt & Terminal Railroad Company? A. Yes, sir; that road is under construction.

Q. Will it show what you acquired in the way of equipment and rolling stock at the time you purchased it? A. Yes, sir, but I can say that there was no rolling stock, and no equipment. It was a road under construction and it is not yet completed.

Q. It is not completed now? A. I believe not.

The further examination of this witness is deferred until such time as he can examine the records in his possession in regard to certain matters, memorandum of which will be furnished the witness by Gen. Crow.

At this point, the further hearing of testimony in the above cause is adjourned until to-morrow, Wednesday, morning, May 15th, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, May 15th, 1907.

Met, pursuant to adjournment as above, on Wednesday morning, May 15th, 1907, at half-past ten o'clock, in the office of the Special Commissioner, Hon. R. E. Rombauer, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner. Mr. E. C. Crow appeared in behalf of the complainant. Mr. M. F. Watts appeared in behalf of the defendants.

The following proceedings were had:

J. E. GATHRIGHT, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. J. E. Gathright.

Q. You are the Auditor of the Wiggins Ferry Company? A. Yes, sir.

Q. How long have you ocupied that position? A. Since March 1st, 1903.

Q. Were you with the Wiggins Ferry Company when the stock was sold, in 1902? A. No, sir.

Q. You were not with the company, then? A. No, sir.

Q. You went with the company after that? A. Yes, sir.

Q. Were you in the railroad business before that time? A. I was with the Interstate Car Transfer Company.

Q. With the Interstate Car Transfer Company? A. Yes, sir.

Q. What position did you occupy with the Interstate Car Transfer Company? A. Auditor.

Q. Are you still auditor of that company? A. Yes, sir.

Q. Then you are auditor of both the Wiggins' Ferry Company and the Interstate Car Transfer Company? A. Yes, sir.

Q. As auditor of the Wiggins' Ferry Company, and of the Interstate Car Transfer Company, do the records in your office show the receipts and expenditures of monies by those companies? A. Yes, sir.

Q. Do you make an annual report of receipts and expenditures? A. To whom?

Q. To any one—any of your superior officers, or anybody else? A. Oh, yes, sir, to the management.

Q. To the management? A. Yes, sir.

Q. Have you got such a statement for 1903 and 1904? A. For the Wiggins' Ferry Company?

Q. Yes, sir. A. Yes, sir.

Q. Is that in a shape where you can get at it pretty handy, and furnish it to me? A. Well, at the close of each fiscal year, that is June 30 of each year, we make an annual report. Our fiscal year ends with June 30th. I keep a copy of those reports.

Q. Can you furnish me with such a copy? A. Yes, sir.

Q. Have you the same thing for the Interstate Car Transfer Company, also? A. Yes, sir.

Q. You have that for the years prior to 1903, as well, haven't you—say, from 1900? A. I think so; yes, sir.

Q. Will you furnish me that? A. I will; yes, sir.

The further examination of this winess is deferred until such time as he can produce the statements asked for.

At this point, the further hearing of testimony in this cause is adjourned until Monday morning, May 20th, 1907, at half-past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, May 20th, 1907.

Met, pursuant to adjournment as above, on Monday morning, May 20th, 1907, at half-past ten o'clock, in the office of the Special Commissioner, Hon. R. E. Rombauer, Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner. Mr. E. C. Crow appeared on behalf of the Complainant.

Messrs. M. F. Watts and F. W. Lehmann appeared on behalf of the defendants.

The following proceedings were had:

EDWARDS WHITTAKER, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. Edwards Whittaker.

Q. You were connected with the company that built the railroad bridge at Alton? A. Yes, sir.

Q. In what capacity? A. I was one of the underwriters in the construction company, and afterwards was a director.

Q. Were you connected officially with the company at the time the property was sold? A. Yes, sir; a director.

Q. Do you know who opened the negotiations for the purchasers? A. Yes, sir.

Q. Who was he? A. William Duncan.

Q. Who is he? A. He was interested in the company that opened negotiations with Mr. Joseph Ramsey.

Q. He opened the negotiations in behalf of the Alton Bridge Company? A. Yes, sir.

Q. Who did Mr. Ramsey represent? A. Mr. Ramsey told us he represented the Terminal Railroad Association, at first.

Q. The Terminal Railroad Association? A. Yes, sir.

Q. Subsequently, whom did he say he represented? A. Subsequently there was some disagreement in the Association, on the inside, and he told me that it was bought by certain railroads, that are all members of the Terminal Association individually.

Q. Do you know what was the trouble with the Terminal Association, why the Terminal Association itself did not buy it outright? A. There was some disagreement inside. My understanding was that there were eleven roads that comprised the Terminal Railroad Association at that time, and it required a two-thirds vote to buy any property, and there were four roads that objected to it. They had seven,

but lacked the one. And after that was unsuccessful, the seven considered that they were morally obligated, and they took the property over.

Q. At that time was there a contract with the Burlington Railroad about the Alton Bridge? A. That contract had been abrogated through a receivership.

Q. Receivership for the bridge? A. Yes, sir.

Q. In what way had it been abrogated? A. It was foreclosed. The property was re-organized. There never was any binding agreement between them, any written contract.

Q. What was the price paid for the bridge? A. They assumed the mortgage of 800,000, and bought $790,000 bonds. That is, the new corporation took over all the stock. It had no debts except what they paid.

Q. The bonds were given to the stock-holders—the entire issue? A. Yes, sir.

CROSS-EXAMINATION, BY MR. WATTS:

Q. Please state what those seven roads were? A. As I recall it, the Iron Mountain, Missouri Pacific, Wabash, B. & O. S. W., Vandalia, Big Four, L. & N. That is my recollection.

Q. And the other four? A. The C. & A., Burlington, Southern, and Illinois Central.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. Have you any memorandum in your possession, or to which you have access, that will show the names of the seven roads that you have mentioned, and then show who were the actual purchasers at the final outcome? As a matter of fact, there are eleven roads now that finally bought it. A. I have no memorandum of that kind. A new corporation was organized, called the Illinois & Missouri Bridge & Belt

Railway, which issued a mortgage of, I think, two and a half millions. Isn't that correct, Mr. Watts?

Mr. Watts: I know nothing about that.

A. (Continuing). Whatever it was. And of that amount there was a portion of the first mortgage reserved to retire that, and the balance to make some further extensions and improvements. As to who composed that organization—I never saw those papers, or knew anything about it.

Q. Where is Mr. Duncan? A. In St. Louis.

Q. He could probably tell more about that than you can? A. After the negotiations were started he dropped out, and I conducted the negotiations.

Q. You conducted the negotiations? A. Yes, sir.

Q. You are sure that at that time it was represented to you that there were only eleven roads in the Terminal Railroad Association? A. Yes, sir, that is my recollection But it was delayed quite awhile, and I don't know what happened in the meantime. I should imagine it was fifteen or eighteen months before it was closed up. Isn't that so, Mr. Watts?

Mr. Watts: I know nothing about it.

A. (Continuing): Mr. Ramsey was the man that did all of the negotiating. The Terminal dropped out of it.

Mr. Watts: The Terminal never was in it.

JOHN M. CHESBROUGH, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. John M. Chesbrough.

Q. Are you connected with any railroad, Mr. Chesbrough? A. Yes, sir.

Q. What road? A. The Pennsylvania.

Q. Any other? A. No, sir.

Q. In what capacity? A. General Passenger Agent of the Vandalia part of it.

Q. Whereabouts, in the City of St. Louis? A. Yes, sir.

Q. You have charge of the sales of the tickets? A. Yes, sir.

Q. From St. Louis to points on the Atlantic Sea-coast? A. Yes, sir.

Q. And intermediate points? A. Yes, sir.

Q. On what road? A. I have general charge of their passenger business in all directions, east, west, and every direction.

Q. You mentioned the Vandalia portion of it? A. I mean the Vandalia portion of it. But I don't sell tickets in their ticket office.

Q. What is that? A. I don't sell tickets in the city ticket office.

Q. Who does that? A. Our ticket agent.

Q. Is he under your superintendence and control? A. Yes, sir, he is under my instructions.

Q. Does he sell tickets under your direction and control, to points on the Vandalia line, proper? A. Yes, sir.

Q. East of Pittsburg? A. The Pennsylvania Railroad east of Pittsburg.

Q. What is it west of Pittsburg? A. "The Pennsylvania Lines," it is known as.

Q. Are there two corporations? A. "The Pennsylvania Lines" is not a corporation. It is an advertising name.

Q. In selling tickets from St. Louis to New York City, what is the passenger mileage based on, how many miles? A. 1057 miles.

Q. What is the rate per mile? A. 2.19 cents.

Q. What is the fare to New York City? A. $23.50.

Q. What is the fare from New York City to St. Louis? A. $24.25.

Q. What is the reason of the difference? A. I cannot tell you. I don't make the fare from New York here.

Q. No, you don't make it anywhere. I understand that. A. I do make it east. I make it from here to New York, but not from New York here.

Q. What is the difference in the fare? A. 75 cents.

Q. The mileage is just the same from New York to St. Louis as from St. Louis to New York? A. Just exactly, the way we figure it.

Q. Are there any additional facilities furnished? A. No, sir.

Q. Any additional facilities coming here from New York, than going to New York from St. Louis? A. No, sir.

Q. Is any bridge fare charged on tickets sold here to New York? A. No, sir.

Q. Is there any from New York here? A. I cannot tell you.

Q. Why can't you? A. Because I do not make the fare from New York here.

Q. Who would know in regard to that fact? A. The Pennsylvania Railroad.

Q. That is rather indefinite. A. I mean the General Passenger Agent of the Pennsylvania Railroad.

Q. What is his name, and where is he located? A. George W. Boyd; New York.

Q. Since when did you cease to add twenty-five cents to the ticket from here to New York? A. Never did.

Q. How do you get that sum? A. Take it out of our earnings.

Q. Do you mean to say that the Pennsylvania Railroad Company has always paid that? A. For over twenty odd years.

Q. Don't you know it to be a fact that up until recent years they charged twenty-five cents bridge fare, and added it to the ticket? A. No, sir; not to New York.

Q. Didn't they to points this side of New York? Didn't they add twenty-five cents in addition to the regular mileage rate? A. Yes sir, except points like New York and some of those points, where the same rate per mile is made that is made from other western terminal points.

Q. Then, where St. Louis is in competition, for instance, with some other points, on which the rate is the same, the bridge transfer is eliminated? A. No sir—oh, no.

Q. Then what is it? A. The bridge fare is eliminated to certain eastern terminal destinations; or wherever we make the fare,—where it is not made on a certain rate per mile. Our fares to-day to Columbus, Pittsburg, and practically every point east of these, are made arbitrary.

Q. Just so much? A. Just so much; made an arbitrary fare, and the bridge arbitrary was not taken into consideration at all.

Q. In fixing the rate? A. No, sir.

Q. To points west of Columbus, Ohio, on your line—for instance, Indianapolis—is the bridge fare added? A. Yes, sir.

Q. And to all intermediate points, practically, to Columbus, Ohio? A. To Indianapolis. I will not say to Columbus. Indianapolis is the end of the Vandalia.

Q. Do you know anything about the rates from points west of Pittsburg and Columbus to St. Louis, as to whether or not the bridge fare is added? A. The fares are alike in both directions. Where it is added one way, it would be the other.

Q. Exactly similar? A. Not in every case, they are not alike. I could state some cases in which the fare is not alike in both directions.

Q. Do you know whether or not any of the other lines running east in competition with the Vandalia have practically the same system of charges? A. I think they have.

Q. That is, for common points? A. For common

2453

points—yes, sir. The New York fare is lower, you know, by certain lines. You can buy a New York ticket as low as twenty dollars.

Q. What line? A. The Southern Railway; the Henderson Route to Louisville; or the Clover Leaf

Q. You don't know anything about what they may do as regards bridge fare? A. They cannot add it to this figure, because it is arbitrarily made.

Q. What about their local fares? A. Their local fares, I think, are made the same as ours.

Q. You have no knowledge to the contrary? A. No, sir, I have no reason to testify other than that.

Q. I believe you have testified that you know nothing about the fares coming west, as to how they are made up? A. After you get east of Indianapolis, I have nothing to do with it.

Q. Do you from Indianapolis, west. A. Yes, sir.

Q. Are they made up the same way as the fares from St. Louis to Indianapolis are made up? A. Yes, sir, in many cases; not always. Any fare that makes on St. Louis would be.

Q. I mean on St. Louis. A. Any fare that makes on here. But there are many fares to points west from Indianapolis that do not make on St. Louis.

Q. I mean, Indianapolis to St. Louis proper? A. Oh, yes, sir.

Q. Is the rate the same each way? A. Yes, sir, each way.

Q. In through travel from Indianapolis to Kansas City or Denver, is there a bridge toll charged? A. Well, at present I should say no. I think the fare from Indianapolis to Kansas City does not make through St. Louis.

Q. That is, if the routing is over your line, still you do consider the bridge? A. No, sir, that is not the way I

mean that. We don't make the through rate It is made through Decatur or Hannibal and applied via St. Louis.

Q. In the application of it, the bridge toll would be eliminated? A. The bridge toll would be eliminated, so far as the charge for passengers is concerned.

Q. That is what I mean: we are talking about passengers now. A. Yes, sir.

Q. When bridge toll is added to points, say, from St. Louis to Indianapolis, what is the amount of the toll? A. Twenty-five cents.

Q. Per passenger? A. Yes, sir.

Q. Suppose your road made a rate from Indianapolis to some point west of St. Louis, would the bridge toll be added? Suppose it was made, as you say, on St. Louis? A. Yes, sir.

Q. Then the bridge toll is eliminated on traffic from points east of St. Louis to points west of St Louis only when it is made on some other town or city than St. Louis? A. Yes, sir.

Q. But when it is made on St. Louis, then the bridge toll is added to it? A. The bridge toll is in the St. Louis and Indianapolis fare, and naturally would be added to the through fare.

Q. Your department would have nothing to do with any arrangement that might be made with the Bridge Company for the transfer of coaches, passenger coaches, at so much a coach, would it? A. No, sir.

Q. What department of the railroad would handle that? A. The detail of it would be handled by the Transportation Department.

Q. Of your road? A. Yes, sir.

Q. Well, now, when you speak of the "detail," do you mean the making of the agreement or contract? A. No, sir, I don't think that would.

Q. Do you mean the arrangements? A. The carrying out of the arrangements.

Q. Well, what do you mean with reference to carrying out of the arrangements? A. I mean the same as I do in my department, in reference to the making of the fares. The Executive Department of our railroad would have to decide on these questions, possibly; the basis on which our fares are made, and in which our terminals should be handled.

Q. If there was an agreement for the hauling of cars, coaches, of the Pennsylvania Railroad, at so much per coach, when loaded or unloaded with passengers, what official or officials of the road would make that agreement or contract? A. I don't know that I can answer that.

Q. Can you tell me anybody that can answer it? A. Yes, sir.

Q. Who? A. Mr. McKeen, our General Manager, could answer that question.

Q. Where is he located? A. St. Louis; Century Building.

Q. You have no knowledge on the subject of whether or not there is any such an arrangement? A. Yes, sir, I have, but—

Q. No personal knowledge? A. No, sir, not that I have anything to do with. I know the basis on which it is handled, but I have no right to make use of that information.

Q. Then Mr. McKeen would be the proper man to call on for that information? A. Yes, sir.

Q. What are his initials? A. Benjamin McKeen.

Q. Manager of the Pennsylvania? A. Yes, sir, General Manager.

Q. Where is he located? A. Century Building.

CROSS-EXAMINATION, BY MR. WATTS:

Q. What bridges does your road use for crossing the river? A. Both of them.

Q. For passenger trains? A. Yes, sir.

Q. How many passenger trains do you run across the river a day? A. Nine trains a day, I think, each way—eighteen altogether.

Q. How many pass over the Merchants' Bridge? A. I think ten over the Merchants' Bridge, and eight over the Eads' Bridge.

Q. Why do you use the Merchants' Bridge in preference to the Eads' Bridge? A. To avoid the tunnel.

Q. How long have you been using the Merchants' Bridge for passenger trains? A. Since before the World's Fair. I don't remember just exactly when.

At this point, the further taking of testimony in this cause is adjourned until tomorrow morning, May 21st, 1907, at half-past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, May 21, 1907.

Met, pursuant to adjournment as above, on Tuesday morning, May 21st, 1907, at half-past ten o'clock, in the office of the Special Commissioner, Hon. R. E. Rombauer, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow, and Hon. Chester H. Krum appeared in behalf of the complainant.

Mr. M. F. Watts, and Mr. F .W. Lehmann appeared in behalf of the defendant.

The following proceedings were had:

J. L. WADDELL, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. J. L. Waddell.

Q. Where do you live? A. Kansas City, Mo.

Q. What business are you in? A. Civil Engineer.

Q. How long have you been in that business? A. About thirty-two years.

Q. In what institution did you learn your profession? A. In the Renssalaer Polytechnic of Troy, N. Y.

Q. Have you any degrees from any other institutions besides that? A. I have degrees from McGill University, and the Missouri State University.

Q. Have you been in general civil engineering work? Have you been engaged in the railroad business any? A. Yes, sir; I started in in railroading very soon after I graduated, and had a general practice for several years. And then I was Assistant Professor at the Renssalaer Polytechnic for two years; and afterwards I was full Professor of Civil Engineering in the Imperial University of Tokio, Japan.

Q. How long did you remain at Tokio? A. Four years.

Q. Then where did you go? A. I came back to this country.

Q. What point? A. I settled in Kansas City soon afterwards. I settled in Kansas City about January 1st, 1887.

Q. Is there any particular line of civil engineering that you have made a specialty? A. Bridges.

Q. How long have you made bridges a specialty? A. Twenty-six or twenty-seven years, counting in the four years that I was in Tokio; I spent all my spare time there investigating bridges and writing books.

Q. Have you written any books on bridges? A. A number of them.

Q. Tell us what you have written? A. The first book was "Designing of Ordinary Iron Highway Bridges," published in 1884, in this country. The second, "A System of Iron Railroad Bridges for Japan," written at the request of the Japanese government, and published by them for private circulation only. The third "De Pontibus," which is a standard work on bridges, published about ten years ago. And the fourth, Specifications of Steel Bridges." There is another coming out, on "Engineering Specifications and Contracts," to be published shortly. And then Mr. John Lyle Harrington has collected some twenty-two of my papers and published them in book form—which is partially my work.

Q. Have you made an investigation in recent years with reference to material for construction of heavy traffic bridges? A. Yes, sir. I have been employed for the last three years and a half on an investigation of nickel steel for bridges.

Q. Nickel steel? A. Yes, sir.

Q. What was the result of that? A. The result of that, I think, will be that nickel steel will replace the ordinary carbon steel for bridge building, especially for long spans.

Q. Was any expense, and if so how much, connected with your investigation of that matter? A. The total cost of the investigation?

Q. Yes, sir. A. Somewhere about fifty thousand dollars.

Q. Have you built any large bridges anywhere in the world? A. Yes, sir, quite a number of them.

Q. Tell us a few of the principal engineering works that you constructed? A. Four bridges over the Missouri River—Sioux City, East Omaha, Jefferson City, and St. Charles. Two bridges over the Red River—

Q. Which Red River? A. In Texas.

Q. Railroad bridges? A. Railroad bridges.

Q. What was the character of the Missouri River bridges? A. They are iron. The Sioux City bridge is iron, railway, motor and wagon bridge, and pedestrian. The East Omaha is the same. Jefferson City is purely a wagon bridge. And the St. Charles bridge is a wagon and motor bridge.

Q. What were the Red River bridges? A. Railroad bridges. One at Index, Texas, and the other at Alexandria, Louisiana.

Q. What other large bridges have you constructed? A. I have constructed some two hundred and fifty bridges, large and small, for the Vera Cruz & Pacific Railroad, in Old Mexico. And some four or five million dollars' worth of elevated railroad in Chicago. And I was consulting engineer on some ten million dollars' worth of elevated railroad in Boston. I have designed and made standard plans for the principal railway systems of Japan. And plans for bridges and light-houses for Cuba.

Q. For the Government of Cuba? A. Yes, sir. And ten large bridges for the International and Great Northern of Texas.

Q. Have you built any bridges anywhere else on this continent, other than the United States and Mexico? A. Yes, sir, I built a modern bridge for the government of British Columbia.

Q. Where? A. At New Westminster, over the Frazer River.

Q. What was the length of that? A. The length of the crossing was about 2,100 or 2,200 feet, from bank to bank.

Q. What kind of bridge was that? A. That was a combined railway, motor, wagon and pedestrian bridge.

Q. What was the depth of the water there? A. Eighty feet.

Q. What was the condition of the water, with reference

to currents? A. The current was about five miles per hour, and flowed both ways.

Q. What was the occasion of that, tidal action? A. A tidal current.

Q. Have you made any investigation of the two bridges across the Mississippi River at St. Louis, and if so, how did you come to make it? A. I have. I made a report lately, at your request. I made a report lately on the Eads and Merchants' Bridges, at the request of Mr. Crow; and I have with me this morning the report that I presented to him.

Q. Prior to the time that I requested you to make an examination of those bridges and make a report on them, did you have any connection with either one of them, in the way of investigating them, prior to the time that you made the plans that you submitted to the city? A. I did, years ago, in connection with the Merchants' Bridge. I was associated with one of the unsuccessful bidders on that work—temporarily associated with him.

Q. Did you make a detailed estimate of the cost of construction of those two bridges, or of bridges that would do the service that they are doing at this time? A. At your request, I made estimates of cost, complete in every particular, for modern bridges, to carry modern live loads, to replace these bridges—the Eads and the Merchants'.

Q. Would the bridges that you have made estimates for do the service that these bridges are doing? A. Yes, sir, much better service.

Q. Will you explain the term "live loads," as you use it? What do you mean by that? A. A live load means the load that is carried over, the moving load. It may be a railway load, or motor cars, or wagons, or pedestrians.

Q. Is there any difference in the character and weight of live loads now and what there was when these two bridges were erected? A. A great difference.

Q. What is the difference? A. It has doubled within twenty or twenty-five years. The live load is double. That is, for railways—not for highways.

Q. Is there any difference in the train load now, and the train load when these bridges were erected? A. Yes, sir; the train loads nowadays are fully double those at the time that the Eads Bridge was built.

Q. Is there any difference in the locomotive and the cars, as to their carrying capacity? A. Yes, sir, the locomotives are very much heavier. They weigh twice as much as they used to.

Q. Is there any difference in the capacity of the cars, the freight cars? A. Yes, sir, they are twice as large.

Q. What is the effect of that increase in weight and carrying capacity on the use of a bridge built twenty years ago, in the practical operation of the bridge? A. It makes the old bridges unsafe after awhile. It depends a great deal on how they were designed. The bridges in the old times were designed looking ahead some, but not enough. They figured on an increase in live load, but they did not estimate on anything like what developed.

Q. Do these facts, the increase in the carrying capacity of the train, and the weight of the train, have anything to do with the wear and tear on the old bridge, and the bridge that would be erected nowadays? A. It would wear out a very old bridge—for two reasons. First of all, the load nowadays is much greater than it used to be; and in the second place, in the old days they did not know how to design bridges as they do now. Consequently they are very faulty in their details—and that is where they wear out.

Q. What is the effect of the increased load, and the increased carrying capacity, on the bridge—as to whether or not it would wear it out more readily than a new bridge? A. Oh, decidedly, it would wear it out more rapidly. That is the reason so many bridges are being taken out all over

the country. I have examined a good many miles of bridges and have taken out quite a number.

Q. Have you an estimate, in detail, of these two bridges? A. I have.

Q. Will you let me see it, please. A. (Witness produces estimate referred to, which is examined by counsel for both complainant and defendants.)

Mr. Crow: I offer this estimate in evidence.

Which estimate is in words and figures as follows, to-wit:

J. A. L. Waddell,
M. Inst. C. E.
M. Am. Soc. C. E.

J. L. Harrington,
M. Am. Soc. C. E.
M. Inst. C. E.

WADDELL & HARRINGTON,

Consulting Engineers.

Main Office: 608-611 New Nelson Building.

Tel., 2558 Main. Kansas City, Mo., May 20, 1907.

Edward C. Crow, Esq.,
St. Louis, Mo.

Dear Sir: On the 15th inst. you requested me to prepare for you as accurate estimates as possible of what it would cost to replace the Eads and Merchants' bridges with modern structures designed to carry modern live loads of the same general character as those carried by existing structures, and using current prices of materials and labor. In the case of the Eads bridge, you preferred to have me figure on simple spans rather than upon arches like those of the present structure; and you desired me not to employ any timber trestle but to adopt instead either steel trestle or earth embankment. In other words you wished me to estimate on permanent structures.

Immediately after receiving your instructions I procured a small scale plan and profile of each of the bridges, then

made a personal examination of the Eads bridge and its approaches, and concluded arrangements to have made for me the next day and sent by wire the necessary measurements of the approaches to the Merchants' bridge.

As I possess a copy of Woodward's book on "The St. Louis Bridge," and as years ago I was interested in the preparation of one of the competitive plans for the Merchants' bridge, I soon accumulated ample data for making the required estimates; my firm has lately made a number of estimates of cost for the proposed "Free Bridge" at both Cass and Chouteau Avenues, consequently I have at hand all the latest schedule prices for the materials that would enter into the construction of Mississippi River bridges at St. Louis.

The live loads adopted for the estimates were taken from the specifications of my De Pontibus, Class R being used for the railway floor, Class B for the wagon floor, and Class C for the footwalks. For the street railway floor system a continuous line of eighty thousand (80,000) pound cars on each track was employed. For the trusses there was adopted a combination of a Class U load on each railway track with street railway cars, heavy vehicular traffic, and pedestrians on the other floors.

The entire area covered by the roadways and the street car tracks, including the spaces between the trusses, and the sidewalk areas assumed to be floored with steel buckled plate covered with a thin layer of asphaltic concrete, on which rest the wooden paving blocks and the asphalt sidewalks.

In case of doubt about the exact cost of any work, I have been liberal in my assumption—for instance, in figuring the cost of embankments, not knowing where the earth would be procured, I have allowed forty (40) cents per cubic yard, although thirty-five (35) cents would probably suffice.

The most important of the schedule rates that I have used are the following:

Carbon steel superstructure for river spans erected and painted, four and three-quarter cents (4.75c) per lb.

Ditto for steel approaches, three and eight-tenths (3.8c) per pound.

Railway wooden floor and rails, four dollars ($4.00) per lineal foot of single track.

Creosoted block pavement for roadways, two dollars ($2.00) per square yard.

Asphalt pavements for sidewalks one dollar ($1.00) per square yard.

Mass of cribs and caissons of piers in place, eighteen dollars ($18.00) per cubic yard.

Concrete shafts of piers in place, twelve dollars ($12.00) per cubic yard.

Limestone facing stones in place, twenty dollars ($20.00) per cubic yard.

Granite coping stones in place, thirty dollars ($30.00) per cubic yard.

Excavation for pedestals, fifty cents (50c) per cubic yard.

Concrete for pedestals, eight dollars ($8.00) per cubic yard.

Piles in place, sixty cents (60c) per lineal foot.

Earth embankment, forty cents (40c) per cubic yard.

Railway track on embankment, including ballast, four dollars ($4.00) per lineal foot of single track.

For the cost of shore protection, right-of-way, and property damages, not having any data, I had to use my judgment; but I believe I have been liberal in making allowances for these items.

Please note that in estimating the cost of right-of-way I assumed values approximating to those existing at the dates when the bridges were built, and not those ruling to-day;

as this appears to me to be the fairest practicable assumption.

The cost of engineering I took at the standard rate of five (5) per cent of the total cost of completed structure; and I made an equal allowance for the cost of financing and administration.

On the preceding basis my estimates of total cost are as follows:

Eads Bridge.

One 550′ span at $760.00 per lin. ft=	$418,000.00
Two 534′ spans at $745.00 per lin. ft.=	795,660.00
Two 237′ spans at $470.00 per lin. ft.=	222.780.00
Pier No. 1	11,000.00
Pier No. 2	49,000.00
Pier No. 3	110,000.00
Pier No. 4	141,000.00
Pier No. 5	133,000.00
Pier No. 6	51,000.00
Combined Ry. & Wagon Trestle 1,350′ at $250.00=	337,500.00
Highway Trestle, 1,250′ at $150.00=	187,500.00
Railway Trestle, 1,250′ at $102.00=	127,500.00
Short Span, 50′ at $70.00=	3,500.00
Four (4) abutments, say	60,000.00
Embankments, 200,000 cubic yards at 40c	80,000.00
Tracks on Embankments 3,200 lin. ft. at $4.00	12,800.00
Shore Protection, say	25,000.00
Right-of-way and Property Damages, say	100,000.00
Summation	$2,865,240.00
Engineering, Financing, and Administration, 10%	286,524.00
Grand Total Cost of Structure	$3,151,764.00

As a check on the preceding total cost, I beg to state that Waddell and Harrington's estimate for the cost of a similar structure at Chouteau Avenue, without any allowance for financing and administration, was $3,004,000.00. Adding five (5) per cent for these items would make the total cost about $3,150,000. This is an unusually close coincidence. However, the $125,000.00 for shore protection and right-of-way should not be included in the comparison, as nothing was allowed for these items in the Chouteau Ave. design.

Merchants' Bridge.

Three Spans of 517 ft. each at $445.00 per lin. ft.=	$690,195.00
Piers No. 1 and No. 4 at $65,000.00 each (average)=	130,000.00
Piers No. 2 and No. 3 at $83,000.00 each (average)=	166,000.00
Steel Trestle 3,160 lin. ft. at $116.00 per lin. ft. (average)=	366,560.00
Five (5) Short Spans and their four (4) Pedestals=	58,000.00
Ten (10) abutments	138,000.00
Earth Embankments, 640,000 cu. yds. at 40c=	256,000.00
Track on same, 17,400 lin. ft. at $4.00=	69,600.00
Shore Protection, about	15,000.00
Right-of-way and Property Damages, say	50,000.00
Summation	$1,939,355.00
Engineering, Financing and Administration, 10%	193,935.00
Grand Total Cost of Structure	$2,133,290.00

As check on a portion of the preceding figures, I would state that the contract price for the three (3) main spans,

four (4) main piers, and the eight hundred and fifty (850) feet of steel trestle which was built at the same time as the main spans, was a little less than one million and seventy thousand dollars ($1,070 000.00). This figure was tendered on the work by the unsuccessful bidder with whom I was then temporarily associated.

The corresponding figure taken from my preceding estimate of cost is one million, eighty-four thousand, seven hundred and ninety-five dollars ($1,084,795.90).

There is one important point in connection with my estimates to which I desire to call your attention, viz.: that while, because of the assumption of modern live loads, my estimates of cost of superstructure would be higher than the present values of the existing superstructures; on the other hand, my designs for substructure, while just as good in every particular, are decidedly more economic than those for the existing bridges. These two variations tend to balance each other, hence the close check in the case of the Merchants' Bridge. Very respectfully yours,

J. A. L. Waddell.

Q. What line of work are you engaged in now, in your profession? A. Bridge engineering mainly.

Q. These estimates that you made, are they based on the cost of material at this time? A. They are; the reason being that I have lately made a number of designs for bridges to cross the Mississippi River, in relation to the free bridge project; and I used the same schedule of rates in this estimate as I did in those estimates.

Q. Are the bridges that these estimates are made to cover located at the same points as the Merchants' and Eads bridges? A. Yes, sir. In fact, I have the profiles of the existing bridges, and I used those.

D. O. IVES, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name, residence, and occupation? A. D. O. Ives; General Traffic Manager Wabash Railroad, St. Louis, Mo.

Q. How long have you been Traffic Manager of the Wabash Railroad? A. A year and eight months.

Q. How much of the road do you have charge of? A. All of it.

Q. All the road? A. That is, geographically; all the traffic.

Q. Then your jurisdiction as Traffic Manager extends both east and west of the Mississippi River? A. Yes, sir.

Q. When you became Traffic Manager of the Wabash Railroad, or soon afterwards, you announced that the Wabash would absorb the switching charges on all coal originating on your line, in Illinois, did you not? A. Yes, sir.

Q. What coal company is the principal purchaser of coal on the Wabash road in Illinois? A. I don't know the tonnage. I could give you the names of three or four companies that are among the largest.

Q. Isn't the Consolidated Coal Company, and the concerns it controls, the principal purchaser of coal on the Wabash road in Illinois? A. I am not positive that it is, on the Wabash in Illinois, but I think it is.

Q. If you don't know, who would? A. I could find out very easily. It is an easily demonstrated matter.

Q. That information is in your department, isn't it? A. No, I don't think we have the production of the different coal companies.

Q. The traffic? A. The traffic? We have that.

Q. Isn't the Consolidated Coal Company the one that

furnishes the most traffic in coal originating on your line in Illinois? A. I don't know. I cannot tell.

Q. Can you ascertain? A. I can easily ascertain.

Q. What other companies are there? A. The Illinois Colleries, Jones & Adams, and the Springfield Coal & Mining Co., the large companies.

Q. Are any of those companies controlled by the Consolidated? A. I don't think the Consolidated has control over any of them.

Q. Do you know who owns the Consolidated Coal Company? A. No, sir.

Q. Do you know who is at the head of the Consolidated Coal Company? A. As far as I know, Mr. Schmick is the head man, now. Mr. Busch was.

Q. What are Mr. Schmick's initials? A. William L. Schmick.

Q. Where is his office? A. In St. Louis.

Q. He lives here, does he? A. Yes, sir; but I really don't know to-day his title. There have been changes in the management of the Consolidated Coal Company.

Q. You can ascertain the volume of traffic of the Consolidated Coal Company, and other companies, in your department, can't you? A. Yes, sir.

Q. Will you do that, and furnish it to me? A. Yes, sir.

Q. Take it for the years 1903 and 1904. A. Just the Consolidated, or of that compared with other companies?

Q. The traffic by companies. A. Very well, I will attend to that.

Q. The effect of that order of yours, Mr. Ives, was to announce to the patrons of your road, originating business thereon, that the Wabash was willing to switch free of charge on the St. Louis side of the river all coal originating in Illinois, on your line? A. Yes, sir; but that was not the sole effect or object.

Q. But that was one effect? A. Yes, sir.

Q. Did you have any consultation with the managers or officers of the Consolidated Coal Company before you issued that order? A. Absolutely not, nor with any coal man.

Q. Did you with any of the officials of the Wabash road? A. With any official of the Wabash road?

Q. Yes, sir. A. Oh, yes.

Q. What officials? A. Mr. Delano, our President; and my own subordinate officers.

Q. Now, of course, Mr. Delano approved of the issuance of that order? A. Well, he was rather doubtful about it, and left it absolutely to my judgment.

Q. Then you assumed the responsibility in relation to that order? A. Absolutely; and originated the idea, so far as I know.

Q. The coal that originates on the Wabash road in Illinois is mostly destined to St. Louis, is it not? A. No, sir.

Q. It is not? A. I don't think so.

Q. Where does it go? A. I am sorry that I did not know the line of your questioning. I could have refreshed my memory. It may possibly seem to you that I am ignorant of the traffic, but we have a great many lines of traffic. I should say, as a rough guess, that we send four times as much to Chicago as to St. Louis—and perhaps ten times.

Q. What was the effect on other terminal lines in St. Louis, of the issuance of this order, so far as coal traffic originating in Illinois was concerned? A. It resulted in reducing the difference between the rates from Illinois mines to East St. Louis, and the rates from Illinois mines to St. Louis, from thirty cents to twenty cents.

Q. Why, for instance, did the Illinois Central have to reduce the rate for carrying the coal to East St. Louis, or have the bridge rate reduced? A. Shall I tell the whole story

in my own way? Or shall I just answer that direct question?

Q. Just as you like. A. The rate on coal from all mines in Illinois to St. Louis was thirty cents higher than it was to East St. Louis. I thought that was unfortunate to our industries in St. Louis, and I wanted to do what I could to revise it. It was not in my power to reduce that switching on mines other than the Wabash without performing a service for nothing. But where the Wabash hauled the coal and got a part of the revenue on the coal into East St. Louis, we were willing to furnish delivery on our side of the river, free. And out of that thirty cents rate charged by the Terminal, ten cents was allowed to the Wabash. So we waived that ten cents, which made the rate on the Wabash mines, which competed with all the other mines, ten cents less from Wabash industries than from other industries, and on other mines.

Naturally, as I supposed when I did it, the competition would have to be met, and the Terminal promptly met it by making a rate of twenty cents to all their industries, and the other roads did the same, absorbing the switching on coal on other roads, originating at mines in Illinois, to St. Louis industries.

Q. Then, it was the influence of the action of the Wabash, in absorbing the 10 cents switching charges to industries on Wabash tracks on coal originating in Wabash mines in Illinois, that caused the Illinois Central and other lines, the terminal lines, to have to meet that competition by making a coresponding reduction either in switching charges or bridge charges? A. That was the direct cause. I think they were glad to do it. I think the Terminal Association officers were glad to do it—from the talk I had.

Q. That was the way the ten cent reduction on the bridge arbitrary was brought about, to meet the competition of

the Wabash? A. Yes, sir, that was the direct cause, the competition of the Wabash.

Q. You have nothing to do with the passenger business, have you? A. Yes, sir.

Q. Do you make arrangements for hauling passenger coaches of the Wabash over the Terminal property here? A. No, sir.

Q. What official of your road makes that? A. The General Manager; the Vice President and General Manager I think would have charge of that.

Q. Who is that? A. Mr. Henry Miller.

CROSS-EXAMINATION, BY MR. WATTS:

Q. Did the consumer, the coal consumer, get the entire benefit of this reduction in rate? A. Do you mean this reduction in the bridge toll?

Q. Yes, sir. A. I think he did, but I am not positive. I know he did in some cases.

Q. The mine owner did not profit by it? A. Not to any extent. It was done for the benefit of the consumers, and I think the consumers got the benefit of it. That is a question it is impossible to answer positively of course, without having the exact figures before and after.

Q. You don't know what effect it had on the price of coal? A. Yes, sir, it reduced the price of coal here, in some cases, I know.

Q. Just to the extent of the reduction of the rate? A. Yes, sir. I know in some cases it did.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. If the reduction had not been made on the bridge arbitrary—if the reduction had not been made by, say, the Illinois Central—(I mention that because it is a big coal road)—the industries located on the Wabash tracks buying coal from companies on the Illinois Central tracks, would

have had to pay the ten cents switching charges more than those purchasing from mines on the Wabash in Illinois; isn't that correct? A. That would have been the result Yes, sir.

ALEXANDER HILTON, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name, residence and occupation? A. Alexander Hilton; General Passenger Agent of the St. Louis & San Francisco Railroad; St. Louis, Mo.

Q. You are also President of the St. Louis Association of General Passenger Agents, are you not? A. Yes, sir.

Q. How long have you been President of that Association? A. I think, for three years.

Q. Has this association a secretary? A. Yes, sir.

Q. What is his name? A. Mr. Payne.

Q. What constitutes the membership of this St. Louis Passenger Agents' Association? A. All St. Louis lines, lines running trains into the City of St. Louis.

Q. From any direction? A. Yes, sir.

Q. What official of the different lines holds the membership for their respective roads, in your association? A. The resident official having charge of the passenger traffic.

Q. Without regard to whether he is General Passenger Agent, or, for instance, in the case of the Vandalia road, Mr. Chesbrough, the General Western Passenger Agent? A. He is General Passenger Agent.

Q. Well, any other line that does not have their General Passenger Agent here, has the man having charge of their passenger department? A. He represents them in the meetings.

Q. Does this Association hold regular meetings? A. Yes, sir, the Association meets once a month.

Q. Once a month? A. Yes, sir.

Q. Do you have any particular place where you meet? A. We meet in a room on the 13th floor of the Missouri Trust Building.

Q. Is that room rented by the Association? A. Yes, sir.

Q. Do you have a clerical force there? A. No, sir.

Q. Do you have anybody in charge of the room? A. No, sir.

Q. You just simply use it when you meet? A. Yes, sir.

Q. Are the records kept there? A. No, sir, the records are kept entirely by the Secretary of this Association.

Q. Does this Association issue what is known as the St. Louis Rate Sheet? A. It is issued by the terminal lines, under the direction of a compiler, Mr. Payne, who is also Secretary of the Association.

Q. Is he the compiler for what is called the terminal lines? A He is the compiler of the St. Louis Rate Sheet for the terminal lines.

Q. And he compiles them under the direction of this Association, does he? A. No, sir, not under the direction of the Association. Under the direction of the lines terminating in St. Louis.

Q. When you use the words "terminal lines," just specify what you mean? A. Well, the St. Louis & San Francisco R. R.; the Missouri Pacific; the Iron Mountain; the Chicago & Alton; lines running their trains into the City of St. Louis.

Q. All lines that run passenger trains into the City of St. Louis—all steam railroads? A. I think they are all members of the St. Louis Rate Sheet.

Q. Is this rate sheet submitted to the St. Louis Pas-

senger Agents' Association before it is promulgated? A. No, sir.

Q. Is it submitted to it afterwards? A. No, sir.

Q. It never is submitted to it? A. No, sir.

Q. What relation does the Association bear to this Rate Sheet? A. Well, the St. Louis Association, in itself, has no connection with the Rate Sheet at all.

Q. How long has Mr. Payne been Secretary of the St. Louis Passenger Agents' Association? A. I think for three years now. A term and a half.

Q. Who preceded him? A. Mr. George Morton.

Q. What road was he connected with? A. He was at that time General Passenger Agent of the M. K. & T.

Q. Did Mr. Morton, during his incumbency as Secretary of the Passanger Agents' Association, compile this Rate Sheet? A. At the direction of the different lines, perhaps.

Q. Then the Secretary of this Association always performs that duty? A. He always has.

Q. He has always performed that duty? A. Yes, sir.

Q. By virtue of whose direction is it that the Secretary of this Association always performs this duty? A. At the selection of the terminal lines members of the rate sheet.

Q. What official of the terminal lines respectively designates this man to perform this duty? A. The General Passenger Agent.

Q. The General Passenger Agent who has membership in the Association? A. He has also membership in this Association.

Q. It is in the individual capacity as General Passenger Agent, and not as a member of this Association, that the Secretary is designated by the proprietary lines to issue this rate sheet? A. Yes, sir.

Q. This Rate Sheet is discussed, is it, by the Passenger Agents, in their capacity as Passenger Agents? A. Yes,

sir. I can best explain that by the procedure at a rate meeting. It is customary to call a rate meeting to consider rates of interest to all lines, and each line sends a representative, an expert passenger man. And there they discuss all questions of interest in connection with the rates.

Q. Would that man attend one of your meetings? A. No, sir.

Q. That would be at a meeting of what you would call "Rate Clerks," would it not? A. Yes, sir.

Q. And that meeting of Rate Clerks would be called at the instance of this Passenger Agents' Association? A. The compiler of the Rate Sheet.

Q. Well, he would call it at the instance of the Passenger Agents of the terminal lines, wouldn't he? A. Not necessarily. The two duties are entirely separate; the complier-ship of the Rate Sheet, and the Secretaryship of the St. Louis Passenger Agents' Association.

Q. Would he have any authority, as compiler of the Rate Sheet, to call the Rate Clerks together? A. Yes, sir, I think he would; but I think Mr. Payne had better answer that question.

Q. But usually he is directed to do it by the Passenger Agents, isn't he? A. No, not entirely.

Q. Well, he is frequently, isn't he? A. He is at times. Yes, sir. But any one or two men can ask for a rate meeting.

Q. The rates are practically the same on passenger business in and out of St. Louis, to the principal points, now as it was twenty years ago; isn't that correct? A. No, sir.

Q. Take the rate to Kansas City from St. Louis; isn't it practically what it was twenty years ago? A. No, I think it is less.

Q. How much? A. Well, I could not say. I think somewhat less.

Q. 25 or 50 cents? A. Unless I am mistaken, the rate

between Kansas City and St. Louis twenty years ago was $8.70.

Q. What is it now. A. $7.50.

Q. What was it to Chicago twenty years ago? A. I don't know.

Q. About the same as it is now, wasn't it? A. I really have no knowledge as to that. I have no idea.

Q. Well, you have for ten years, haven't you? A. Yes, sir, for ten years I know that the rate was $7.50.

Q. And it is still $7.50? A. Yes, sir.

Q. The volume of business from here to Chicago has increased perhaps 33 1-3 per cent. in that length of time, hasn't it? A. I cannot express an opinion; because I have no conection with any line between St. Louis and Chicago, and have not had for a long time.

Q. Then you are not familiar with that traffic? A. I am not familiar with that traffic.

Q. Your road is a western road? A. The St. Louis & San Francisco Railroad—west of St. Louis.

Q. Have you ever attended any of these rate meetings? A. No, I have not.

Q. Do you know what they do there? A. In a general way, yes, sir.

Q. The records of those meetings are kept, are they not—the result of the conferences that they have are kept? A. Oh, yes, the result of the conference appears as the Rate Sheet—the tabulation and the figures.

Q. Those records or figures are presented to your Association, and kept as part of the records of your Association, are they not? A. No, sir, not of the Association.

Q. They are kept by Mr. Payne? A. They are kept by Mr. Payne as compiler of the Rate Sheet, I should think.

Q. Who pays Mr. Payne for compiling that sheet? A. The terminal lines members of the Sheet.

Q. And he is joint agent of the terminal lines for the

purpose of compiling that sheet? A. In his position as compiler—yes, sir.

Q. And the sheet, when it is compiled, is issued by the terminal lines as their rate sheet? A. Yes, sir.

Q. And adopted by them and filed with the Interstate Commerce Commission? A. Yes, sir.

Q. And the tariffs for carrying passengers are charged on the basis of that sheet? A. Yes, sir.

Q. What territory does the St. Louis Passenger Agents' Association cover? A. The St. Louis Passenger Agents' Association? Well, I would not say that it covered any territory specifically.

Q. Doesn't it cover any? A. No, I don't think it does; beyond purely local territory, outside of the City of St. Louis.

Q. How far within the City of St. Louis? A. Well, I would not consider that we had any. Matters that are considered in the Association are entirely local to St. Louis.

Q. This Rate Sheet, does it fix the passenger tariffs over the whole, for instance, of the St. Louis & San Francisco line? A. That makes the rates to any points in the United States.

Q. That is what I mean—any point in the United States? A. Yes, sir.

Q. And those rates are issued by the roads that are members of that Association? A. Yes, sir.

Q. If those roads want to issue a coupon ticket to a road in San Francisco, they will base their rates for business covered by that Rate Sheet on that Rate Sheet, won't they? A. Yes, sir.

Q. And then, in that respect, St. Louis is a general basing point for all St. Louis lines for passenger rates out of St. Louis? A. St. Louis is the basing point for rates. Yes, sir.

Q. For all St. Louis lines? A. Yes, sir.

Q. It is not a basing point for other lines, is it—lines that do not reach St. Louis, but come in competition with St. Louis lines? A. Using the term "basing point," of course it is, Mr. Crow. It is a basing point for the New York Central, which does not reach St. Louis at all. It is a basing point for the C. & O.

Q. Please explain how you get at that proposition? A. For example, if they want to make a rate from Norfolk to San Francisco, the rate, by the combination of two rates, might base on St. Louis, and they would add the two rates together—Norfolk to St. Louis, and St. Louis to San Francisco.

Q. Does this Association of which you are President keep any records? A. Yes, sir.

Q. Can you tell me in whose custody those records are? A. They are in the custody of Mr. Payne, the Secretary.

Q. The proceedings of that Association are put down there? A. Yes, sir.

Q. Can you tell me the roads that are members of that Association? A. No, I don't believe I could give you a complete and correct list. We have a complete record, though, on file in the records of the Association, which we would be very glad to give you.

Q. Generally speaking, are all the St. Louis roads members? A. Yes, sir.

Q. Is the St. Louis Terminal Railroad Association a member? A. I won't be positive on that, but I think Mr. Payne can answer that question.

B. H. PAYNE, a witness of lawful age, being duly produced, sworn and examined, on behalf of the complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. B. H. Payne.

Q. What is your business? A. Assistant General Passenger and Ticket Agent of the Missouri Pacific Railway, St. Louis, Mo.

Q. How long have you occupied that position? A. Since June, 1892; with the exception of one year.

Q. Who is General Passenger Agent of the Missouri Pacific? A. Mr. H. C. Townsend.

Q. Are you connected with the St. Louis Association of General Passenger Agents? A. I am secretary.

Q. Have you the records of the Association in your possession? A. Yes, sir.

Q. Do you compile what is known as the St. Louis Rate Sheet? A. Yes, sir.

Q. Do you know the roads that belong to the St. Louis Passenger Agents' Association? A. I can name them off to you.

Q. Will you please do so? A. I think I can give them to you. The Louisville & Nashville; what is known as the Henderson Route; the Southern Railway; the B. & O. S. W.; the Burlington; the Illinois Central; the Vandalia; the C. & E. I.; Chicago & Alton; Wabash; C. P. & St. L.; St. Louis & San Francisco; M. K. & T.; Missouri Pacific; Iron Mountain; St. Louis Southwestern; Diamond Joe Line of steamers; Clover Leaf; St. Louis, Kansas City & Colorado; Mobile & Ohio. I think that embraces all of them.

Q. On both sides of the river? A. Yes, sir.

Q. Is the Terminal Railroad Association a member? A. Yes, sir.

Q. How many does that make? A. Twenty-one.

Q. That embraces all the railroad companies, and one line of steamers? A. That embraces the lines that are parties to the St. Louis Rate Sheet.

Q. Well, those lines that you have mentioned include all

of the steam railroads entering St. Louis, does it not? A. As far as I know, it does Yes, sir.

Q. And one line of steamers? A. Yes, sir.

Q. Where does that line of steamers run to from St. Louis? A. They run to St. Paul. They operate north, to the best of my knowledge—the Diamond Joe line.

Q. That is a passenger packet and freight line? A. As far as I know, it is—yes, sir.

Q. Have you authority, as representative of the terminal lines in St. Louis, to call a meeting of the Rate Clerks of the different roads, on passenger business? A. If there was sufficiently important matters to demand it, I would have that authority.

Q. Have you ever exercised that authority? A. Not since I have been compiler. I have had no occasion for it. There have been several meetings, but they have been at the request of two or more lines that have asked for it.

Q. Several meetings of the Rate Clerks? A. Yes, sir.

Q. The action of the Rate Clerks is submitted to the St. Louis Passenger Agents' Association afterwards? A. No, sir.

Q. It is not? A. No, sir.

Q. It is submitted to the proprietary lines? A. Yes, sir.

Q. And then the Rate Sheet, after it is made by the Rate Clerks, is published by the St. Louis lines, as their Passenger Tariff Sheet? A. Yes, sir, published by the St. Louis lines individually.

Q. Yes; but it is published as their Passenger Tariff Sheet? A. Yes, sir.

Q. It is the result of the conference of the Rate Clerks under your supervision? A. Yes, sir.

Q. Do you draw any salary for your duties as compiler? A. Yes, sir.

Q. Who pays that? A. The lines that are parties to the Rate Sheet.

Q. Each in proportion to the volume of business? A. Each in proportion; each line is charged for the total expense in proportion to the number of sheets it takes.

Q. And the sheets they take is based on their volume of business, isn't it? A. It is not based on anything. A line may take 100 or 150—it is optional with the lines. There is no basis for it at all.

Q. At the meeting of the St. Louis Passenger Agents' Association, the question of rates to common points is discussed, is it not? A. Very seldom.

Q. Are they discussed at the Rate Clerks' meetings? A. Yes, sir.

Q. The rates are made practically the same to all common points, by this Rate Sheet, on the different lines of road? A. You will have to qualify that question a little. It is pretty broad one. If you will give an illustration, I can answer more intelligently.

Q. Well, for instance, take the St. Louis & Chicago rate: That is the same over the C. & E. I., and the Chicago & Alton, isn't it? A. Yes, sir.

Q. And the same over the Wabash? A. Yes, sir.

Q. And the same on other lines from St. Louis to Chicago? A. Yes, sir.

Q. That is true, also, of the Kansas City rate, isn't it? A. Yes, sir.

Q. And generally, on all competitive points, it is true, of the rates out of St. Louis? A. Yes, sir.

Q. And it is the aim of the Rate Clerks, and of you as compiler, to see to it that these rates are practically the same, is it not? A. Well, the compiler has no jurisdiction in the premises at all. I simply serve as compiler for the purpose of keeping the records. I have absolutely no jurisdiction over any rates that are offered at any of these meetings, unless I may, perchance, represent my own company.

Q. The Rate Clerks are the men who have that power? A. Yes, sir, representing the individual roads.

Q. And they are the ones that establish these rates? A. Yes, sir.

Q. Then no one has any authority to alter these rates after the Rate Clerks agree on them? A. Well, the roads themselves have that right.

Q. I am speaking of you, and the St. Louis Passenger Agents' Association. A. No, I have no authority, absolutely.

Q. Has the St. Louis Passenger Agents' Association? A. Absolutely not; they have less than I have, and I have none.

Q. Is any complaint ever made to the St. Louis Passenger Agents' Association about cutting the rates? A. Not to my knowledge.

Q. Not to your knowledge? A. No, sir.

Q. Is there to you, as compiler? A. No, sir; the compiler has nothing to do with that.

Q. Where are complaints as to rate cutting made? A. Well, that is a pretty broad proposition to answer, because it may be made as between two General Passenger Agents.

Q. Well, there is somebody, somewhere, that it is presented to, isn't there? Some organization to which it is presented, that represents all the roads? A. That is a question that I cannot answer.

Q. Who can answer that? A. Well, I don't know. It is a pretty broad proposition as to complaint in the cutting of rates. I should think the question should be a little more specific.

Q. In what way? A. The rate might be cut in San Francisco, and affect one of the lines in St. Louis.

Q. Well, if it did—take that case—where would the complaint be lodged? A. I would not undertake to an-

swer, because I would not know the conditions under which the cut was made.

Q. Isn't it true that there is some organization that represents the railroads that has to do with anything that effects the St. Louis rate, no matter where it is? A. Will you please repeat that question. I don't want to make any answer that is not in accordance with facts.

Q. Isn't it true that there is some organization that represents the railroads that has to do with anything that affects the St. Louis rate, no matter where it is? I am speaking of passenger rates. A. Well, the territory reached by the St. Louis lines is so diversified that there is no one organization such as you speak of.

Q. Well, there are different organizations that this matter would be taken up with, is there? A. There are different organizations, possibly—there may be.

Q. Name some of those associations that take up those matters? A. The Southwestern Excursion Bureau.

Q. Where is that located? A. St. Louis, Mo.

Q. Who is at the head of that? A. Mr. Hannegan.

Q. What has that to do with the Southwestern rates? A. It has no more to do with the making of the rate than I have; it is simply a meeting for interchange.

Q. What has it to do with the cutting of a rate. A. It has nothing.

Q. Well, you said that it might take up this question on a complaint? A. It might. It is a meeting for interchange of views between the railroads. They might ask for an investigation through their agent.

Q. Through the Southwestern Passenger Agents' Association? A. Yes, sir, the Southwestern Excursion Bureau.

Q. Then that Bureau is a kind of clearing house, is it, for investigation by the different roads as to passenger business? A. Yes, sir.

Q. Are complaints lodged with Mr. Hanegan, as to apportioning the rates, or cutting the rates, in Southwestern territory? A. I suppose Mr. Hannegan can answer that better than I can.

Q. But I am asking you. A. I don't know. We haven't made any.

Q. Do you know, of your own knowledge, whether that is the fact? A. I do not.

Q. You do not? A. No, sir.

Q. What official of your road would know? A. I would know if there were any made, but we have made none. I am speaking for our own line.

Q. You never made any? A. I don't say "never."

Q. Then, when do you limit it to? A. Well, it has been possibly several years since any complaint of that kind was made.

Q. Two or three years? A. Yes, sir.

Q. Wasn't there some trouble about the St. Louis and Kansas City rate, and the St. Louis and Chicago rate, two or three years ago? A. Not to my knowledge.

Q. I believe you said you had the records of your Association in your control? A. Yes, sir.

Q. Have you any records of the Rate Clerks' meetings also? A. The records of the Rate Clerks' meetings are kept in the shape of the Rate Sheet, excepting such correspondence as might take place. That was all kept.

Q. How long have you been Secretary? A. Since the 1st of January, 1906.

Q. There have been some Rate Clerks' meetings since you have been Secretary, have there not? A. Yes, sir.

Q. How many have you had? A. I think there have been three.

Q. Is there any stated time for the meetings of these Rate Clerks? Or are they just called together? A. There is no stated period.

Q. They meet at the call of whom—yourself? A. I call the meeting at the request of the lines that ask for it.

Q. Do you have any objection to letting me inspect some of these records? A. Speaking for myself, I don't know that I would have the right to say whether or not the lines would. So far as I know, I will say frankly that they are public property. They are printed and distributed, and there is nothing secret at all.

Q. You say the records are printed? A. The records are printed. There is nothing secret about it.

Q. Then I can see no objection to your furnishing them to me? A. For myself, I have no objection.

Q. Will you find out from your superior, and let me know? A. I will do so.

Q. Have you any copies of the St. Louis Rate Sheet? A. Yes, sir, in my office.

Q. Can you furnish me one, say, for 1903 and 1904? A. I might, by letting you have the file copy. I was not compiler then, and it is possible that we only have the file copy, that far back.

Q. If you will let me look at it, perhaps that will do. A. I will try to do that.

BENJAMIN McKEEN, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. Benjamin McKeen.

Q. You are General Manager of the Vandalia road? A. I am.

Q. Mr. McKeen, in your capacity as General Manager of the Vandalia Road, do you make the arrangement between your road and the Terminal Railroad Association for haul-

ing passenger coaches over the bridges in St. Louis? A. That is under my jurisdiction.

Q. Well, it is made under your jurisdiction? A. It was made, as a matter of fact, before I assumed General Managership.

Q. Are you familiar with that arrangement? A. Yes, sir.

Q. Is that in the form of a written contract? A. It is in letter form.

Q. Is it based on simply the number of coaches? A. It is a car rental.

Q. A car rental? Explain what you mean. A. A car charge.

Q. What do you mean by that—so much per car? A. So much per car.

Q. Without regard to the load? A. Without regard to the load.

Q. How much is it on passenger cars? A. Three dollars.

Q. And that is paid for the service the Terminal renders in transferring your coaches across the bridge? A. I don't know how they base it, but I suppose it would be on the use of the track, and the bridge, and if it comes by Eads Bridge for the use of the engine. For handling our cars across the bridges.

Q. I say, for transferring your cars across the bridges. It does not include anything for trackage into Union Station, or anything of that kind, does it? That is an independent matter, isn't it? A. It covers the track from East St. Louis; I think that is about three miles; and when it comes by the Merchants' Bridge, about ten miles.

Q. Then it covers the transfer over these tracks by the Terminal engines, of your coaches, into and out of Union Station, to connections with your rails on the east side of the river? A. Yes, sir.

Q. Would that cover the proposition? A. Yes, sir, that covers the proposition.

Q. And that, you say, is $3.00 per car? A. $3.00 per car for passenger coaches; $1.50 for the baggage car.

Q. Do you run none of your engines into the city? A. All of the trains coming by the Merchants' Bridge are handled with our engines.

Q. By your own engines? A. Yes, sir.

Q. But the same charge is made there per coach? A. The same charge per coach.

Q. Then the charge of $3.00 does not cover locomotive service in cases where your engine hauls the train in? A. It is ten miles that way.

Q. And your locomotive hauls them out when they go by the Merchants' Bridge? A. Yes, sir.

Q. Do the majority of your trains go out over the Merchants' Bridge? A. I think the majority do.

Q. You run about eighteen trains in and out a day, don't you? A. It is fully as strong as that.

Q. About ten go over the Merchants' Bridge? A. I don't remember exactly; I could give you that.

Q. That is what your Passenger Agent testified to yesterday; isn't that correct? A. I presume it is, then.

Q. On the Eads Bridge the Terminal Association uses its own engines to bring your trains in and take them out? A. Yes, sir.

Q. Those trains go through the tunnel. A. Necessarily.

CROSS-EXAMINATION, BY MR. WATTS:

Q. The entire revenue of this passenger traffic goes to your road? A. Yes, sir.

Q. The tunnel gets no part of it? A. No, sir.

RE-DIRECT EXAMINATION, BY MR. CROW:

Q. You mean that revenue that you collect from the sale of your railroad tickets? A. Yes, sir.

Mr. Watts: That is what I meant.
Mr. Crow: Not revenue from bridge service.

JAMES E. HANNEGAN, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name, residence and ocupation? A. James E. Hannegan; St. Louis, Mo.; Chairman Southwestern Excursion Bureau.

Q. Southwestern Excursion Bureau? A. Yes, sir.

Q. Are you connected with any other railroad organization? A. Yes, sir, several.

Q. What others? A. I am Validating Agent for the St. Louis Association of General Passenger Agents; and the Secretary of the St. Louis Local Bureau of the Western Passenger Association.

Q. Any others? A. Well, I think that covers it. Those are the main organizations.

Q. What relation does the St. Louis Western Passenger Association bear to the St. Louis Passenger Agents' Association? A. None at all.

Q. What territory does the St. Louis Western Passenger Association cover? A. The St. Louis Local Passenger Bureau is simply an organization of local representatives of the western lines located in St. Louis, and it does not cover any territory at all.

Q. What business do they have jurisdiction over? A. Business from St. Louis proper to destinations in the territory of the Western Passenger Association.

Q. What territory is covered by that? A. That is, for instance, from St. Louis to the Missouri River, and to Colorado common points. From St. Louis to Chicago; and

from St. Louis to St. Paul—and the territory covered by that boundary.

Q. How far west of St. Paul do you go? A. To a boundary line which is a parallel between Colorado common points and a similar boundary line—I think it is the state line of North Dakota.

Q. Somewhere along there? A. Yes, sir.

Q. That is all within the jurisdiction of the Western Passenger Association? A. It is.

Q. Does that body have its office here? A. No, sir.

Q. Where is its office? A. In Chicago.

Q. What position do you occupy with respect to that? A. Local Secretary.

Q. Then there is a local organization, is there? A. Yes, sir.

Q. And that has a membership in this Western Passenger Association? A. Not exactly that. The Passenger Agents of the lines belonging to the Western Passenger Association direct their local representatives in St. Louis to become parties to a local organization in St. Louis—and that is the organization that I am Secretary of.

Q. When you speak of the local representatives in St. Louis, to whom do you refer—such men as Mr. Townsend and Mr. Hilton? A. The local ticket agents.

Q. At the city offices, or Union Station? A. At the city offices.

Q. The up-town offices? A. Yes, sir.

Q. And those roads that do not have an up-town office do not have any membership in the local Association? A. All our lines have.

Q. All the passenger lines in St. Louis have up-town offices? A. All the lines that are responsive to your inquiry. All the lines that are members of the local Passenger Bureau have city offices in St. Louis.

Q. But those that have not— A. That is not it. There

is no Local Passenger Association except in the territory under the jurisdiction of the Western Passenger Association, which covers only a part and not all of the lines terminal in St. Louis.

Q. That is what I am getting at; that there are roads in St. Louis that do not have representation in this local Passenger Association? A. There are several.

Q. And those roads do not have a city ticket office up town? A. Yes, sir, they do.

Q. What roads? A. All the eastern roads, for example.

Q. I mean, roads in the Western Passenger Association. A. There are none such. All lines members of the Western Passenger Association are members of the local Bureau.

Q. You say you are Secretary of the Southwestern Excursion Bureau? A. I am Chairman of the Southwestern Excursion Bureau.

Q. What is that? A. That is an organization of Southwestern railroads. It covers a territory including part of Missouri, Arkansas, Texas, Oklahoma and Indian Territory.

Q. What is the business of your Association, your organization? A. We simply are a clearing-house for expressing individual views of the lines on all matters.

Q. So you issue excursion rates? A. We issue the determination of the individual lines to make excursion rates.

Q. They have representatives, do they, who meet? A. It is mostly all done by correspondence. We have very few meetings; only four a year.

Q. Where do they take place? A. All over the country. Sometimes here. The last meeting was held in St. Louis.

Q. And at those meetings the question of excursion rates is discussed? A. Sometimes.

Q. And they are agreed on there? A. No, sir, as a rule, not. As a rule they are handled by correspondence.

Q. In the correspondence, then, the excursion rates are fixed, are they? A. No, sir. The correspondence does not fix any rates. The lines generally say what they want. One line, for instance, will say they want a rate of so much between two points. What the Chairman has to do in that matter is to send a letter to the other lines, for an expression of their views as to whether it is satisfactory to the others concerned.

Q. Suppose it is not satisfactory? A. Then the line puts it in, anyway, as a rule. Sometimes they don't, but in most cases they do.

Q. Put it in anyway? A. In ninety cases out of a hundred they do.

Q. Do you have anything to do with cutting of passenger rates in the Southwestern territory? A. No, sir.

Q. Are any complaints made to you? A. Occasionally complaints are made in regard to unauthorized action of subordinates, but very seldom.

Q. When you say "unauthorized action of subordinates," what do ou mean? A. I mean that occasionally there are complaints made that figures are quoted by subordinates at times, which are not authorized by the Companies themselves.

Q. As a rule, the rates to all common points are the same outside of St. Louis,are they not, on all those lines? A. No, not as a rule. They are in some cases. In the West, generally, the principle prevails that the fares to common points should be the same. As, for example, between St. Louis and Chicago, the fares are all the same. But in the East they have various rates for various lines.

Q. Take it from here to Denver, the rates are the same on all the lines, aren't they? A. I believe so.

Q. From here to Pacific Coast points? A. Yes, sir, generally speaking.

Q. From here to Texas points? A. Yes, sir.

Q. What principle would govern that, when there is a difference of three hundred miles in the haul? A. I don't see how you can get away from the proposition that that man would have to sell tickets as cheap as the other fellow, in order to get any business.

Q. Then it is the competition, is it? A. Well, the fares necessarily have to be the same. For instance, if you were going to Chicago, you would not pay $1.00 more to go over the C. & E. I. than they would sell you a ticket for over the Chicago & Alton. That seems to be just common sense.

Q. Well, of course, all railroad matters are based entirely on common sense, and not under agreement; everybody understands that. A. I hope so.

Q. You don't attend any of the meetings where Chicago rates are fixed? A. No, sir, I do not.

Q. So you know nothing about that, do you? A. Well, I know the Chicago rates necessarily have to be the same.

Q. Do you know that the Chicago rates are not agreed upon by the St. Louis and Chicago lines? A. No, sir, I do not.

Q. Do you know that the rates between here and Denver are not agreed upon by the St. Louis and Denver lines? A. Well, when you say "agreed upon"—I don't think that is exactly right. I think, for example, that the short line between here and Denver has the right to fix the rates between St. Louis and Denver; and when it says that the rate between St. Louis and Denver is so-and-so, that is right.

Q. Where would the short line get that right? A. It is the principle of the railroad business, the world over.

Q. That comes from agreement, doesn't it? A. No, sir,

it is principle that is back of all agreements—that the short line has the right to fix the rate.

Q. Who established that principle? A. I don't know—it was before me.

Q. Do you know whether or not the rates are fixed by agreement, from St. Louis to Denver, by passenger lines from St. Louis to Denver? A. No, sir, I do not.

Q. Do you know whether or not that is true with reference to Texas points? A. I don't think they are. I don't know. I don't compile those rates.

Q. Then your answer is that you don't know whether or not they are so fixed? A. Yes, sir.

Q. Do you keep the records of your Association, the Southwestern Excursion Bureau? A. Yes, sir.

Q. And do you keep the records of the local Association of Western Passenger Agents? A. Yes, sir.

Q. And those records contain the minutes of the proceedings of those meetings? A. Yes, sir.

Q. Would you have any objection to letting me examine those records? A. I don't know whether I would have the right to. I am simply the custodian for the individual lines. I would be glad to take that up for you, however.

Q. Will you find out whether you have that right, and let me know? A. Yes, sir, I will do so.

H. C. TOWNSEND, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name, residence and occupation? A. H. C. Townsend, St. Louis, Mo.; General Passenger Agent of the Missouri Pacific Railway Company.

Q. And the Iron Mountain? A. Yes, sir.

Q. And the International & Great Northern? A. No, sir.

Q. What other roads? A. That is all. The Missouri Pacific, and the St. Louis, Iron Mountain & Southern.

Q. And all lines controlled by the Missouri Pacific? A. Yes, sir.

Q. What lines are controlled by the Missouri Pacific? A. Our organization reads, "Controlled, leased or operated, or independent lines."

Q. Well, what roads besides the Iron Mountain and the Missouri Pacific, are "controlled, leased, or operated, or independent lines?" A. I would have to look up the records to get that for you correctly.

Q. Well, in extent about how many miles of road do you have authority over, as General Passenger Agent? A. About six thousand miles.

Q. Where is that located, principally? A. In Missouri, Kansas, Nebraska, Arkansas, Illinois and Louisiana.

Q. None in Texas? A. None in Texas.

Q. None in Colorado? A. Yes, sir, a short distance in Colorado.

Q. None in Iowa? A. None in Iowa. We go to Omaha on the west side of the river.

Q. Are you a member of the St. Louis Passenger Agents' Association? A. Yes, sir.

Q. Does your road contribute to the expense of the organization? A. Yes, sir.

Q. On what basis do you contribute? A. As the secretary explained, in proportion to the number of Rate Sheets. We pay for the Rate Sheets we desire.

Q. There is no other official except the Secretary that receives a salary? A. No, sir.

Q. The expense of printing is borne jointly by the roads for those Rate Sheets? A. That is a part of the expense of its compilation.

Q. Those Rate Sheets that are promulgated by the St. Louis Passenger Agents' Association, they are issued by you as General Passenger Agent of the Missouri Pacific Railway for points on those six thousand miles of road from St. Louis? A. Yes, sir.

Q. And they are the local tariffs, approved by the Interstate Commerce Commission? A. Yes, sir.

Q. Do you change those rates without notifying the Secretary of the St. Louis Passenger Agents' Association? A. We notify the Interstate Commerce Commission, and send copies to the Secretary at the same time.

Q. Of the St. Louis Passenger Agents' Association? A. Yes, sir.

Q. Suppose some one objects to some change that you make—for instance, in your rate to Denver; what is the process then? A. As already stated, we would put it in. Possibly, however, I might say this in explanation. If the law of Texas should make the rate two cents a mile in Texas, our road running from Texarkana to Fort Worth, having the long distance in Texas, would make a lower rate to Fort Worth and Dallas than over the M. K. & T., or the Frisco, having the greatest distance at this lower rate. I would simply announce that the rate to Texarkana, added to the local rate from there, would make such a rate. Now, it is hardly probable that anybody would object to that, because it is made for us by law, and not made by us. If they should object to it, we would simply say, "You understand that the law compels us to make this rate, and this would necessarily have to be the rate." The rates are made by law, rather than arbitrarily. A good many years ago they were made arbitrarily; they are not done that way now.

Q. Take the rate from Denver, is that made by law, or agreement of the railroads? A. The law in Missouri was three cents a mile.

Q. You don't charge three cents a mile, though, do you? A. We charge less than that.

Q. So the law does not fix that; the railroad does that? The statement that the law fixes the rate is not correct? A. I say, generally.

Q. Take it the rest of the way to Denver; how about that? A. It is three cents in Kansas.

Q. How far is it across Kansas? A. Five hundred miles.

Q. How much in Colorado? A. Fifty miles.

Q. Fifty miles of your road? A. Yes, sir, of our road.

Q. To Pueblo? A. Yes, sir.

Q. Then the rest of the way the Denver & Rio Grande? A. Yes, sir.

Q. That is a Gould property? A. I have heard that it was.

Q. Well, you know it, as a matter of fact, don't you? A. No, I do not.

Q. Well, you make the rate here over it, don't you? A. No, sir.

Q. You only sell tickets to Pueblo? A. We sell tickets to Denver, but the rates are made. In that particular case the rate is made to Denver by the Burlington road. We would sell through Pueblo at the same rate that the Burlington would over their short line, which would not give us our local to Pueblo, and would not give the D. & R. G. their local from Pueblo.

Q. As a matter of fact, in an interstate haul, it is a matter of arrangement, and the railroads fix the rates themselves, so long as they do not exceed the legal limit within each state? A. So long as we comply with the law.

Q. So long as you do not exceed the legal limit within each state for mileage? A. Yes, sir. I don't know any other reason.

Q. Does this St. Louis Passenger Agents' Association, or the Rate Clerks, fix the rates in and out of St. Louis?

A. There is no one that fixes all the rates. The different companies fix the rates. The Rate Clerks meet, and you might say, "call" the rates. These rate clerks are experts and are constantly in communication. One gentleman might say that they have reduced the rates, as I illustrated awhile ago, to Texas, and he figures out by such a line that the rate would be so-and-so. And another might state that basing it on such a line, he has figured that the rate is twenty-five cents less than what the first man made. And they may determine between them as to which rate is correct. Now, when they have decided that, then those rates are submitted to the Genral Passenger Agents of the roads. If there has been no conference before, he may ask some question as to why it is necessary, and the explanation being satisfactory, he puts them in individually for his road.

Q. He approves what the Rate Clerks have done, if it is satisfactory to him? A Yes, sir.

Q. As a rule, it is satisfactory. A. They are experts, hired for that purpose.

Q. Their expert knowledge consists in the fact that they know what the distances are, and what the rates have been, and the other rates charged for the same service? A. Yes, sir, they know that. It is part of their business to know that.

Q. I say, that it is their expert knowledge? A. Yes, sir.

Q. If a rate is made, for instance, from here to Kansas City, and this rate is cut by one of the roads, would there be a complaint lodged anywhere by any of the competing lines? A. From here to Kansas City?

Q. Suppose a road would make a $5.00 rate to Kansas City? A. Secretly or openly?

Q. It doesn't matter which. A. Well, that would determine how I would proceed.

Q. Well, suppose they proceeded secretly? A. I would

go to the General Passenger Agent of that road, or to their representative here, and say, "It is reported that you are making a rate of $5.00 to Kansas City; is that correct?"

Q. Wel, suppose he admitted that it was? A. I would say, "You did very wrong; and I am much shocked and surprised."

Q. Wherein was the wrong? A. The wrong consisted in this. (I see your point very well—it is a very good one.) The wrong would consist in his reducing his own rate to Kansas City.

Q. Why was that wrong?

Mr. Lehmann: It is a violation of the law.

Mr. Crow: Wait a minute. Let the witness answer.

Mr. Lehmann: I offer that as a proper suggestion to come from counsel in connection with that sort of a question, and I want it to go upon the record as made by me.

Mr. Crow: And I want it to appear upon the record that counsel's remarks are highly improper, in my judgment.

Q. Would you make a complaint anywhere? A. I say that I would.

Q. Would you make a complaint anywhere else? A. I would, possibly, to our Vice-President.

Q. Would you make a complaint to the St. Louis Passenger Agents' Association? A. No, sir.

Q. Would it be considered and discussed there? A. It might be.

Q. It would be under what circumstances? If it was continued, would it be taken up by that Association? A. No, there is no penalty.

Q. I am not asking about that. I am asking if it would be discussed there? A. We might discuss it there, you know.

Q. Who would bring it up there, would you? A. Not formally.

Q. Would you bring it up informally? A. I might. I might bring up your last good story informally.

Q. But you would not bring up the last good story in the same way that you would bring that up? A. Possibly.

Q. Isn't it a matter that would be presented to that Association? A. No, sir, not necessarily, at all.

Q. But it is a matter that usually would be, in the ordinary course of events, wouldn't it? A. No, sir. I have tried to answer your questions truthfully. You know we meet frequently outside of the Association, and discuss these matters socially.

Q. You discuss them socially? A. Oh, yes

Q. When you are all present? A. All, or some.

Q. At your regular meeting place? A. It might not be our regular meeting place. It might be at the Southern Hotel.

Q. Do you have what are called informal meetings of this organization? A. Some of us probably meet every day, see each other every day. I might ask Mr. Crane of the Wabash, "Have you heard that the Alton was making a $5.00 rate to Kansas City?" I might ask him that question on the street.

Q. The rate to Kansas City now is about what it was ten years ago, is it not? A. It was reduced, you know. Nine dollars was the old rate.

Q. When was the reduction made? A. I cannot answer that question.

Q. A great many years ago, wasn't it? A. It was first reduced to $8.00 and something, and then to $7.50.

Q. You don't remember the date when that reduction was made? A. I do not remember that.

Q. Would your records show that? A. Our records show it, yes, sir.

Q. You have no jurisdiction in Illinois, except over the Valley Road? A. No, sir.

Q. That line runs from East St. Louis, or some connection over in Illinois, to the Thebes Bridge? A. Yes, sir.

At this point, the further hearing of testimony in this case is adjourned until tomorrow morning, May 22nd, 1907, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, May 22nd, 1907.

Met, pursuant to adjournment as above, on Wednesday morning, May 22nd, 1907, at half past ten o'clock, in the office of the Special Commissioner, Hon. R. E Rombauer, Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner, Mr. E. C. Crow and Hon. Chester H. Krum appeared in behalf of the Complainant.

Messrs. M. F. Watts and F. W. Lehmann appeared in behalf of the Defendants.

The following proceedings were had:

S. B. SCHUYLER, recalled on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Mr. Schuyler, have you obtained that information I asked you for on a previous occasion? A. I have not.

Q. I believe you said you could get it, did you not? A. I understood that you wanted me to turn over certain records. I took that matter up with Mr. Cochran, as I told you I wanted to take it up with him—and I understood from him that I should take no further action until he advised me; I understood that he had the matter up with you.

Q. He telephoned me about it, but I have made no arrangement with him. A. It was not my intention—

Q. (Interrupting) I understand. I will give you a memorandum of the information that I desire, and if you can get it for me I would like to have it. What I asked you for was this: A statement of the number of carloads of coal moving west across the river, and the number of carloads of chatts moving east across the river, by the Carondelet Ferry, for the years 1899, 1900, 1901 and 1902; the division of rate on coal and chatts, and on account of whom the division was made. Also the number of carloads of lumber moving east across the river by the Carondelet Ferry for the same time, and the division of rates, and on account of whom the division was made. In other words, the revenue of the Carondelet ferry for handling these commodities across the river at Carondelet. A. You want the Carondelet Ferry revenue?

Q. Yes, sir.

GUSTAVE BOEHMER, a witness of lawful age, being duly produced, sworn and examined, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Please state your name? A. Gustave Boehmer.

Q. You live in St. Louis? A. Yes, sir.

Q. And have for how many years? A. Fifty-three years.

Q. What business are you in? A. In the coal business.

Q. Explain what you mean by that? A. We mine coal and sell coal.

Q. What mines do you oeprate? A. We operate three mines.

Q. Where are they located? A. Two on the electric line, and one on the Illinois Central.

Q. When you speak of the electric line, what do you mean? A. The St. Louis Belt & Electric Railroad.

Q. Where does that run from, and where does it run to? A. Belleville to East St. Louis.

Q. What is the other mine on? A. On the Illinois Central.

Q. The Illinois Central? A. Yes, sir. We used to have one on the L. & N., but we sold that last year.

Q. How far out is that mine on the Illinois Central? A. Right at Belleville.

Q. How much coal do you mine annually? A. About sixty cars a day, I guess.

Q. Do you handle anybody else's products than your own? A. Yes, sir.

Q. Who else? A. The Henrietta, on the C. P. & St. L.

Q. Is that all? A. No, sir, we handle several mines on the Illinois Central, and some on the L. & N.; and we handle some coal for the Summitt Coal & Mining Company.

Q. You formerly had a contract to supply the City Water Contracts, had you not? A. Yes, sir.

Q. When did that contract expire? A. That expired in 1905. Browning had it last year, and has got it again.

Q. Browning had it last year? A. Yes, sir, and he has got it again, the new contract—although the old one has not expired. We had it three years, I think, for the Waterworks.

Q. Did you furnish coal at Chain of Rocks, Baden Station and Bissell's Point? A. Yes, sir.

Q. What price did you get for the coal delivered at the Chain of Rocks and Baden Station for the year 1901, do you know? A. I could not say. I can find out by referring to my books. You see, that is a good time back.

Q. You don't remember what you got any of the years? A. I have got all the records at home. You know, every

year we send one year's records home. We have a big stable, and I keep all the records there.

Q. You mean at your house? A. Yes, sir, they accumulate so fast that I could not keep them in the office.

Q. Will you get the records and furnish me that information, for Chain of Rocks, Baden, and Bissell's Point, for the years 1901 and 1902? A. Yes, sir.

Q. Did you have it in 1904? A. Well, that I could not say. I don't recollect.

Q. Well, for all the years from 1900 that you had it. I think you had it for 1901, 1902 and 1905, those three years; isn't that correct? A. Yes, sir, I think that is correct.

Q. Did you bring most of your coal over on the Wiggins Ferry or the Interstate Car Transfer Company? A. We handled it one year through the Interstate. I think one year the Interstate hauled it.

Q. Most of the time the Wiggins Ferry Company handled most of it, didn't they? Take the coal that went into the City contract to the Water-works—the Wiggins or the Interstate one handled all of that, didn't they, practically? A. No, sir; last year the Terminal handled it. We got so much better and quicker service there. I don't think the Wiggins handled it any year. The Interstate handled it one year, but they were very unsatisfactory. I think after that the Terminal handled it. My son is Secretary of the Company, and attends to most of that.

Q. What rate did you get for handling, the transfer charge across the river? A. From the Terminal?

Q. Yes, sir. A. No rate, other than the regular rate.

Q. What rate did you have from the Interstate? A. That I surely could not tell without referring to the books.

Q. When you say "regular rate" from the Terminal, do you mean the tariff rate? A. The tariff rate, yes, sir.

Q. Have you records in your possession that will show

what rates you paid? A. Yes, sir, we have the freight bills.

Q. You did not get any less than the regular rates from either one? A. I would not say as to the other, that is so long ago.

Q. What is so long ago? A. 1901. You see that is so long ago. They were cutting and slashing at that time. They claimed that the people were getting a rate with the Terminal, but I could not say. I know we tried the last year we had it, and we couldn't get a dollar.

Q. Your records will show? A. Yes, sir, we have the freight bills. I do recollect that we went to them, and they would not give us anything.

Q. In 1905 you had the contract again, didn't you? A. Yes, sir, that is the year the Terminal handled everything, I know.

Q. You furnished coal at Bissell's Point, Baden and Chain of Rocks at $1.47 a ton that year, delivered, didn't you? A. I could not say.

Q. Who attends to these contracts, you are your son? A. My son. I make the bids.

Q. You make the bids out? A. Yes, sir.

Q. Was your bid $1.47 that year? A. I can find out; I don't remember.

Q. Would your son have any better recollection about these things than you have got? A. Not a bit.

Q. Will you look that up and see? A. Yes, sir, I will do that. I could telephone to the office.

Q. You had better get the records so you will be absolutely accurate about that.

Complainant offers in evidence Freight Tariff No. 2 of the St. Clair, Madison & St. Louis Belt Railroad Company, effective October 1, 1899, signed by J. E. May, Sup't. and Gen'l. Agent, Alton, Ill.

Above tariff, consisting of five printed pages, is marked "Complainant's Exhibit No. 62."

Complainant offers in evidence Freight Tariff No. 1 of the Missouri & Illinois Bridge & Belt Railroad Company, effective June 26th, 1905, signed Wm. Graham, Supt. and General Agent, Alton, Ill.

Above tariff, consisting of five printed pages, is marked "Complainant's Exhibit No. 63."

At this point, the further hearing of testimony in this cause is adjourned until Friday morning, May 24th, 1907, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, Missouri, May 24, 1907.

Met pursuant to adjournment as above on Friday, May 24, 1907, at 10:30 A. M.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Complainant.

Mr. M. F. Watts appeared in behalf of the defendant.

The following proceedings were had:

H. C. TOWNSEND, a witness of lawful age, being duly produced, sworn and examined, testified, on the part of the Complainant, as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Was a subpoena served upon you asking you to produce certain papers here, Mr. Townsend. A. Yes, sir.

Q. Did you produce them? A. No, sir.

Q. Do you refuse to produce them? A. No, sir. They were burned up.

Q. When were they burned up? A. In June, 1906. Our entire store-room in the attic of our building and all our records, more than half of them, were burned and the others were so damaged that they were of no use.

Q. That was in the fire of the Missouri Pacific Building? A. Yes, sir, the Missouri Pacific Building.

Q. On Seventh and Market Streets? A. Yes, sir, on Seventh and Market Streets.

Q. About a year ago? A. In June, 1906.

Q. Just what records were consumed in that fire—of those that are called for here? A. All of these records, together with a numbers of others, receipts and correspondence. Letters received and copies of files, our letter books and files.

Q. All the letters relative to all the passenger business for that year, up to that time, were destroyed? A. For previous years. This subpoena reads, "during the years 1903, 1904 and 1905."

Q. They were all destroyed, were they? A. Yes, sir, either destroyed or damaged so they were turned over for waste paper.

Q. Have they been destroyed now? A. Oh, yes.

Q. You have no copies or other records of those matters? A. No, sir, no copies. Possibly, General, I could by telling you how we kept those files, explain it to you more fully, because we want you to know all of the facts, if you would like to have me do so. Our office is not an office of record. It is an office of current business. Any valuable papers, legal papers, or contracts or papers of that kind, are furnished after we are through with them, to the general auditor; where they are filed in vaults provided for that purpose. Now, any correspondence of this kind, with regard to rates, etc., as soon as it is through with, that prac-

tically ends their usefulness, you might say. We usually keep those for, say, two years. Some of our receipts we have in pigeon-holes, say, for January, February, March, and so on, and we keep the January papers until the January of the following year, and then we would put the January papers in that pigeon-hole and destroy the others. They are really of no value. They are written up on the books, the tickets recorded and accounted for. This correspondence you refer to here, whatever there was, would be of no value to us as a future record and we would not make any effort to keep it after the matter had been—after we had gotten all the information we desired from it. That is, letters to us and copies of our answers. Our answers are press copies. The books were there. The Deputy Marshal who served me with this subpoena yesterday, said, "I can testify to the fire because I was there and saw it and saw your building burn."

Q. There is no doubt about the fire. A. Well, I wanted to tell you that there is no disposition not to furnish these, because if we had them we would just as soon furnish them as not.

Q. The correspondence called for in the subpoena is correspondence with reference to the movement of troops by your road from the Jefferson Barracks to Fort Logan, Colorado, through those years? A. Yes, sir.

Q. If there was bid made by the Missouri Pacific road to the Government, did you, as a passenger agent of that road, make that bid? A. Yes, sir.

Q. Is there any other file than this correspondence in the records of the Missouri Pacific Railway Company which would show what that bid was? A. No, sir.

Q. Did you attend to that matter personally, yourself—is that your recollection? A. Either myself or my assistant, one of my assistants, Mr. Paine or Mr. W.

Q. Have you any recollection as to which one would

perform that service? A. I would myself, if I were here.

Q. Do you know whether you did or not do that? A. Do what?

Q. Make that bid. A.. What bid?

Q. For the movement of those troops? A. No, sir, I do not. I cannot say that far back. Our letters, we receive in our office between 800 and 1,000 letters a day, and it is impossible to remember them all.

Q. If you made that bid, you are familiar with the matter of making bids for the movement of Government troops? A. It changes from time to time, you konw.

Q. Is it customary to submit that bid to the War Department at Washington, or to the army officers here? A. To whoever calls for it—the Quartermaster.

Q. Who usually calls for it? A. The Quartermaster.

Q. The Quartermaster in charge here? A. The Quartermaster in charge wherever the movement is to be made from.

Q. Is the contract made by the War Department at Washington or by the Quartermaster here? A. By the Quartermaster.

Q. You do not know whether it has to be O. K.'d by the War Department at Washington or not? A. I do not.

Q. Any movement of troops you may have made, as the representative of the Missouri Pacific Railway Company, from Jefferson Barracks to points in Colorado or other western territory reached by your road, and the Chicago, Burlington, Quincy railroad and other competitive roads from St. Louis, did you have any arrangement or understanding with those roads about the division of the rates? A. I cannot answer that far back.

Q. I will be specific with you. Did you, during the year 1901 and 1902? A. I cannot remember.

Q. Or 1903? A. I cannot remember.

Q. Or 1904? A. I do not remember.

Q. Or 1905? A. I don't remember.

Q. Have you ever had? A. Not that I remember, in those years.

Q. If there was any such division made, and the Government records would show it, no official other than you would have that knowledge, so far as the Missouri Pacific Railway Company is concerned? A. I am at the head of the passenger department. I am the one who would know of it.

Q. You would know it if it had been done? A. Yes, sir, I would know it if it had been done.

Q. Then you are prepared to say it has not been done? A. No, sir, I do not say that. I say, I do not recollect it.

Q. Have you the correspondence with the other roads that compete with you for that western business, concerning that traffic? A. Not here as enumerated in this subpoena.

Q. Have you for any years prior to that? A. No, sir. There would be none prior to that.

Q. And subsequent? A. I do not know.

Q. Will you make an investigation and let me know whether or not you have? A. Yes, sir.

Q. Are there any records in your office to show to whom you submitted this particular bid for the movement of these troops of 1904, in the summer of 1904, from the Jefferson Barracks to Fort Logan, Colorado? A. No, sir. The quartermasters are changing constantly and it might be made to one man one month and to another man, the next month.

Q. Have you any agreement or arrangement or understanding with these roads, as to a division of earnings on passenger traffic, or traffic of that character? A. No, sir.

Q. Is there a money pool on that sort of traffic? A. No, sir.

Q. If not, why was the division made with the Rock Island and Chicago, Burlington & Quincy Roads and other

competitive western roads? A. I have testified I did not know there was an agreement.

Q. I did not ask you about an agreement. I asked you if there was an agreement, why it was made? A. Why, if there was?

Q. Yes. A. I don't know that there was one.

Q. That does not answer my question. I am asking you why, if there was a division, why it was done? A. I do not catch your idea.

Q. My question assumes it was done. If a division was made by your road with these other competitive roads, that would be competitive to Fort Logan, Colorado, for the movement of those Government troops, why was that division made? A. I do not know that there was any division made. And if I do not know that there was any division made, I do not know—

Q. Assume there was a division. Why would it be done? A. I don't know.

Q. Does the Auditor's office of your road show receipts for traffic of that character? A. Yes.

Q. Are those records destroyed? A. I cannot answer that.

Q. Were they stored where these other records were stored? A. It was specially our room where our records were kept; but most of that floor was destroyed—wasn't t, Mr. Paine?

Mr. Paine: I do not know that Mr. MacIntyre's records were largely destroyed, but that is my understanding.

A. Yes, sir, Mr. MacIntyre's, the Auditor's records were largely destroyed.

Mr. Paine: He had a general store-room and we had only a certain limited space.

Mr. Crow: Q. You say the Auditor's books would show those receipts? A. Show what?

Q. Show those receipts. A. The Auditor's books would show the revenue derived from various sources.

Q. That is all for the present, Mr. Townsend. A. You wish to know if I have any records since this time?

Q. No, sir, I don't care for those since August, 1905. If you have anything up to that time, please produce it. A. Those were all destroyed.

Q. It would not be competent after that time.

Cross-examination waived.

E. H. PAYNE, a witness of lawful age, being duly produced, sworn and examined on the part of the Complainant, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Have you the records called for in this subpoena? A. My records were destroyed prior to August, 1906. Prior to this time, the records were stored in the store-room of the Association and were literally burned up.

Q. You mean in this Missouri Pacific fire? A. Yes, sir. Since that time, I have tried to collect the files and have been able to get them up to January, 1904.

Q. How did you collect the files? A. By asking the different roads if they had copies. I wanted to complete the record and I went back as far as January, 1904, and I have them from that time up to the present time.

Q. Will you let me examine those? A. Yes, sir. They are very simple.

Q. They are all in order, are they? A. Yes, sir. Some meetings there are skipped. They had not always held the meetings.

Q. I will have to take these and go through them before I could undertake to say whether I want to introduce them or examine you about them. I will take care of them and be responsible for their safe return to you.

Q. I believe you stated the other day that the Diamond Joe line of steamers was a member of Passenger Association? A. Yes, sir.

Q. Is that the General Passenger Agents' Association? A. On each proceedings there, they show a full list of members.

Q. You don't know how long the Diamond Joe Line of steamers has been a member, do you A. Well, for a good many years, so far as my recollection goes.

Q. Can you tell me who represents the Diamond Joe Line of Steamers? A. Mr. I. T. Lusk.

Q. He lives here in the city? A. Yes, sir.

Q. Where is his office? A. Just address him as General Freight Agent and Passenger Agent.

Q. General Freight and Passenger Agent of the Diamond Joe Line of Steamers, City? A. Yes, sir.

Q. I do not care to examine you further until I examine these records. A. I do not think you will find anything in there to bother you.

At this point the further hearing of testimony herein was by consent adjourned to Tuesday, May 28, 1907, at half-past ten o'clock A. M.

St. Louis, Mo., May 28, 1907.

By consent, a further adjournment was taken until Tuesday, June 3, 1907, at half-past two o'clock P. M.

St. Louis, Mo., June 3, 1907.

Met, pursuant to adjournment as above, on Tuesday, June 3rd, 1907, at half-past two o'clock P. M., at the office of the Special Master.

Present: Hon. Roderick E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Government.
Mr. Fred Lehmann appeared in behalf of the defendant.

The following proceedings were had:

ISAAC P. LUSK, a witness of lawful age, being duly produced, sworn and examined on the part of the complainant, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. State your name, residence and occupation. A. Isaac P. Lusk, General Freight and Passenger Agent of the Diamond Joe Line of Steamers. I reside in St. Louis.

Q. Where is the general office of your company? A. At the wharfboat at the foot of Washington avenue.

Q. What is the business of the Diamond Jo Line of Steamers? A. Carrying freight and passengers.

Q. From where to where? A. From St. Louis to St. Paul and intermediate points.

Q. During the open season? A. Yes, sir, during the season.

Q. Do you have a passenger tariff? A. Yes, sir.

Q. Is it printed? A. Yes, sir.

Q. Do you file it with the Interstate Commerce Commission? A. No, sir.

Q. You are not required to do that. A. No, sir.

Q. Have you any copies of that passenger tariff? A. I have at our office.

Q. Will you furnish me with the passenger tariff for the year 1900 to the year 1904, inclusive, from St. Louis up to St. Paul? A. Yes, sir.

Q. You represent your company in the St. Louis Local Passenger Agents' Association? A. Yes, sir.

Q. When did you join that association? A. I don't know. Our company has been a member a good many

years; I should say ten or twelve years or probably more than that.

Q. How long have you represented your company here? A. About twenty-five years.

Q. I believe you stated, your company did a general carrying business up and down the river to and from St. Louis? A. Yes, sir.

Q. When could you furnish me those tariffs—in a day or so? A. Yes, sir, I can give you those at any time.

Q. Will you mail them to the stenographer? A. Yes, sir. I will say that in the association we had been in, we have quoted nothing but our local one-way rates, and the rates have been quoted round-trip by the boat.

CROSS-EXAMINATION, BY MR. FREDERICK W. LEHMANN.

Q. What is your line, from what place to what place? A. St. Louis to St. Paul.

Q. How long does it take you to run from St. Louis up to St. Paul? A. Four days is our schedule time for the St. Paul trip. We have shorter local trips?

Q. But it takes four days to run from here to St. Paul? A. Yes, sir.

Q. How long to run back here from St. Paul? A. Three days.

Q. Do your rates include board? A. Our rates include meals and berth. We have three different rates: We have just the transportation rates, and the rates including meals and berth, and then what we call "deck rates," without meals or berth.

Q. But you have rates including what is called "stateroom and table?" A. Yes, sir. Meals and berth.

Q. And it takes four days to go up and three to come back? A. Yes, sir, that is our ordinary time in ordinary stages of water. Sometimes the river gets so low that we

cannot quite make it. But as a rule that is our schedule time.

Q. How many boats have you? A. We have four.

Q. And how frequent are your runs? A. We generally start in to St. Paul about the first of May with one boat, and make nine-day trips.

Q. That is, make the trip once in nine days? A. Yes, sir, but the time scheduled is seven days. The two days we have for cleaning up the boat, repairing machinery, etc.

Q. And then as the season advances you put in more boats? A. Yes, sir, generally from the fifteenth of June to the first of July, we start in a second boat, and then we have a boat leaving every four or five days.

Q. And later, you still have another? A. No, sir, we only run two through to St. Paul.

Q. So you have a boat out every four or five days? A. Yes, sir, four days from one boat to the next, and then alternate it this way every four or five days.

Q. Is that the line of which Commodore Davidson used to be the head? A. No, sir. He sold to another company and then we bought out the other company about 1900 or 1901, I think it was.

EDWARD HART, JR., recalled, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. You are the Freight Agent of what road in St. Louis? A. The Baltimore and Ohio Southwestern.

Q. Did you have in your possession the freight rates on coal from points on your road in Illinois to East St. Louis, Illinois, or to St. Louis, Missouri? A. I have them in the office.

Q. That is what I mean. A. Yes, sir.

Q. Will you furnish me those tariffs for the years 1900

to 1904, inclusive? A. I am not sure that I can as far back as that.

Q. You don't know how far back you can go? A. Whatever we have on file we will be glad to give you.

Q. Will you look it up and give it to me? A. Yes, sir. You want it to St. Louis?

Q. St. Louis or East St. Louis, if you make the rates that way? A. I would like to consult my attorney about the East St. Louis rates.

Q. You can do that. A. (After consulting attorney) Yes, sir, we will file them, East St. Louis and St. Louis, to the extent of our ability.

CROSS-EXAMINATION, BY MR. FREDERICK W. LEHMANN.

Q. You mean by furnishing them to the best of your ability, that you will furnish them so far as you have them? A. Yes, sir.

JOHN FITZGERALD, recalled, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. What road are you connected with? A. The L. & N.

Q. What position do you occupy? A. Superintendent of Terminals.

Q. Have you in your possession any of the tariffs relating to coal from points in Illinois to St. Louis or East St. Louis? A. I do not think our office makes a point to keep up with the issues up to date, but they are kept in the general freight agent's office downstairs.

Q. Could you get those, from 1900 to 1904, inclusive? A. Yes, sir.

Q. Will you please send them to the stenographer? A. Yes, sir.

J. M. DENYVEN, a witness of lawful age, being duly produced, sworn and examined, on the part of the Complainant, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. You are the General Freight Agent for the Mobile and Ohio Railroad? A. Yes, sir.

Q. Have you the tariffs on coal in your possesion from points in Illinois to St. Louis or East St. Louis, or both? A. We have them in our office from the Illinois mines to East St. Louis.

Q. Have you any to St. Louis? A. As I recall it, we did not publish rates to St. Louis, until possibly a year ago.

Q. Will you furnish me those rates from the years 1900 to 1904, inclusive? A. Yes, sir, if we have them.

J. R. PEACHY, a witness of lawful age, being duly produced, sworn and examined on the part of the Complainant, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. What road are you connected with? A. The Illinois Central.

Q. What position do you occupy? A. Assistant General Freight Agent.

Q. Of that road here in St. Louis? A. Yes, sir.

Q. Have you tariffs in your possession of the Illinois Central Road from the coal mining points on your road to St. Louis or East St. Louis? A. We have not made a point of keeping those tariffs, that is, keeping a regular file of them. But I think I could procure them. How soon would your want them?

Q. In any reasonable time. A. I could get them from Chicago in a reasonable time.

Q. Will you get them to me for that period? A. Yes, sir.

R. A. CAMPBELL, recalled, testified as follows:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. What position do you occupy, Mr. Campbell? A. I am the General Freight Agent of the Southern R. R.

Q. You have heard the questions I have asked these other gentlemen? A. Yes, sir, you have had me here before.

Q. Can you furnish me those tariffs? A. I can to East St. Louis. At that time, the period you mention, we had not tariffs to St. Louis.

Q. Will you send me those tariffs from 1900 to 1904, inclusive? A. Yes, sir.

At this point the further hearing of testimony was adjourned to Friday, June 7, 1907, at 2:30 P. M.

St. Louis, Mo., June 7, 1907.

Met, pursuant to adjournment as above, on Friday, June 7, 1907, at the office of Hon. R. E. Rombauer, Special Commissioner.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Government.

Mr. Frederick W. Lehmann appeared in behalf of the defendant.

The following proceedings were had:

S. B. SCHUYLER, recalled, testified as follows:

DIRECT EXAMINATION BY MR. E. C. CROW:

Q. Mr. Schuyler, I will hand you here some sheets containing a number of rates on bituminous coal, transferred

across the river by way of the Carondelet Ferry, and I will ask you to examine them to see if you can identify them and say what they are. A. (After examining papers) This one (indicating) is ballast, and this one is lumber.

Q. Mr. Lehmann: What is that? A. That is the old transfer, before the sale of the Conlogue Road. Those are the rates and the divisions of receipts. That is the business that moved from Carondelet to East Carondelet and thence via the Conlogue road for delivery.

Mr. Crow: Q. Do you identify those? A. Yes, sir, I identify these three sheets with tariff governing transfer charges on coal, on lumber, and on chatts, railroad ballast.

Q. What, if any, part of that tariff is a proportional tariff? A. A proportional tariff?

Q. Yes. A. I beg to ask for a little explanation as to what is meant by "proportional tariff?"

Q. I mean if there is any division of that tariff by the Iron Mountain Ry. Company with any other company? A. Yes, sir, it shows for itself.

Q. Explain just what it shows. A. It is not the Iron Mountain in all of them. They are tariffs of the Ferry company divisible with the Conlogue road, the East St. Louis and Carondelet R. R., which together made the transfer possible, and the rate applied to the two of them together.

Q. The rate was a railroad rate? A. No, sir, the rate was a ferry transfer rate. The Conlogue road was a necessary part of the transfer, to transport all carloads from East Carondelet to railroad connections. That was a necessary part.

Q. Does that sheet contain the railroad rates? A. It contains the railroad rates and some cases it shows the rate was made through. For instance, from points on the Mississippi River on the Bonne Terre road to certain railroads on the East side. A through rate is shown here. The divisions of that through rate are shown and the divisions

north of Riverside are shown. That is the junction point of the Bonne Terre Road and the Iron Mountain Road. The divisions north of there are shown as between the Iron Mountain, the Missouri Pacific, as connecting with the ferry from the Iron Mountain road. The ferry itself. And the Conlogue road, on the east side, and the terminal switching charge.

Q. Take, for instance, under that sheet, say a car of chatts coming from the St. Joe mines, under the arrangement and statement made, what would be the transfer charge? A. For which road?

Q. For the Ferry. A. I have it here for the Mobile and Ohio, the Terminal Association, the Louisville and Nashville, and Evansville Consolidated.

Q. Was the rate for Ferry transfer the same for all of them? A. No, sir.

Q. What would be the rate per carload for each one of those roads, on a carload of chatts? A. The rate, when those were handled in ordinary flat or coal cars, the lines north of Riverside were to receive $4.50 per car, regardless of the weight.

Q. That is for the railroad haul and all? A. Yes, sir. But that was divided and gave the Iron Mountain for hauling it to Carondelet 66 2-3 per cent of that $4.50 per car. The transfer received the other one-third, 33 1-3 per cent of the $4.50.

Q. The ferry charge? A. The ferry and the Conlogue road together.

Q. And how is the division between the Conlogue road and the ferry? A. The proportion accruing east of Carondelet subdivides fifty per cent to the Conlogue road, fifty per cent. to the fer y company, but they pay the Missouri Pacific Railway twenty-five cents per car for incline service.

Q. And they get fifty per cent and 33 1-3 per cent less

twenty-five cents per car? A. Yes, sir. That was the ferry charge. But the transfer charge included the East St. Louis and Carondelet charge. Now that was on one.

Q. What road was that? A. The Mobile and Ohio.

Q. Take the next road? A. The next one is the Terminal Association. The lines north of Riverside were to receive $4.50 per car, regardless of weight, plus four cents per cubic yard.

Q. How much does that amount to per car? A. That is very hard to say, unless you give me the cubic yards of the car. That was to give them $4.50 per car, plus four cents per cubic yard, and the division was made as in the previous case.

Q. What is the third road? A. The third is the Louisville, Evansville and St. Louis, prior to August 25, 1900. That, when loaded into an ordinary flat or coal car, was forty cents per cubic yard. Lines north of Riverside should receive $4.80 cents per car, regardless of weight. The division was the same as in the first case.

Mr. Lehmann: Q. The division of the balance you mean?

Mr. Crow: The division of the $4.50.

A. Later, after August 25, when loaded into a dump car, side or bottom dump, there was forty-five cents per cubic yard from Doe Run and Bonne Terre, and in ordinary flat cars 42½ cents per cubic yard. The division of the side dump cars, north of Riverside, was to receive $4.50, regardless of weight, plus 2½ cents per cubic yard. They received 1¼ in the third one. On an ordinary car they received just $4.50 per car, regardless of weight. You see, it is a different class of equipment. In the first class of equipment they received so much more for the cubic yard in the car, in addition. In this case, in an ordinary flat or coal car, they moved it for forty-two and one-half cents per cubic yard after August 25, 1900.

Q. In dollars and cents how much would be the transfer charge or full ferry charge? What would the ferry receive for transferring those respective cars across the river? A. Name the weight of the cars and I will figure it out.

Q. What is the average weight of a car? A. Forty or fifty thousand pounds for ballast, I think.

Q. Give it generally. A. I will have to get the weight of a cubic yard.

Q. You haven't that? A. I do not recall the weight of a cubic yard of chatts.

Q. Wouldn't those cars haul nearer sixty thousand lbs. than forty or fifty? A. Three thousand lbs. per cubic yard is the weight of chatts. That would be 16 2-3 yards, fifty thousand lbs. The fifty thousand lbs. car from Riverside to the Louisville, Evansville and St. Louis Consolidated Railway would receive one-half of one-third, which is one-sixth, of 4.71, which is—

Q. That is about seventy-five cents? A. Yes, sir, about seventy-eight cents, less twenty-five cents incline, which would be fifty-three cents.

Q. And, of course, as the weight of the car increased, if it ran to eighty thousand lbs. per load, it would be proportionately more? A. Yes, sir. But that is not the transfer charge. You are asking me merely the paid charge.

Q. Yes, I understand that the Conlogue charge is extra beyond that. A. Yes, sir. It is larger than that.

Q. This extra cost, plus the difference of twenty-five cents on the incline? A. Yes, sir.

Q. Those sheets are all substantially of the same character (indicating)? A. Yes, sir, substantially of the same character and they explain themselves.

Q. They explain themselves with your elucidation, but to the ordinary man they would mean nothing.

Mr. Crow: I will offer in evidence these sheets, being three sheets containing tariff on coal, lumber and chatts.

Above exhibit is marked "Complainant's Exhibit No. 63a."

Mr. Crow: Q. If there should be a movement of troops from Jefferson Barracks to say, Fort Logan, Colorado, and the Missouri Pacific Ry. should be the carrier, and there should be a division on the basis of a money pool, between the Missouri Pacific and three other roads, would the records in your office disclose that fact? A. A money pool?

Q. Yes. A. No, sir.

Q. If there should be a division of that character, on that kind of business, on the basis of simply so much money earned and such an amount of carriage performed, would your records show that? A. If it was a settlement with the Government, in any form, our records would show our bill against the Government therefor, unless it was some special arrangement that had been entered into for a train load in the form of a charter for the entire train.

Q. Then what department would have it? A. The passenger department if passenger, and maybe, the transportation department.

Q. Who has charge of the transportation department? A. The general manager.

Q. That is a separate department from Mr. Townsend's department? A. Yes, sir. But he would not make any rate or anything of that kind.

Q. I am not after the rate, but I am after the record of the business now. A. The passenger department would be the one that should have the record of the rate fixed with the Government.

Q. If there was a settlement between your road and other roads, suppose there was a division of that business,

would your records in your office show that? A. If there was a division, our records would show it.

Q. Your division of the business? A. No, sir, I don't know anything about the division of the business.

Q. Would there be any record of the company that would show that? A. I don't know of any.

Q. Would they have to settle with the Missouri Pacific? A. You said a division of the business?

Q. I mean of the money? A. If there was any division of the earnings there could not be any unless there was a performance of the business by all three.

Q. You must have forgotten the form of my first question. I said, if there was a movement of Government troops from Jefferson Barracks to Fort Logan, Colorado, and the Missouri Pacific Railway performed it for so much money, and divided the money received for that service with three or four other roads, would the records of your office show that division? A. My answer was, if there was a division with other roads, and a division of the revenue, we could tell. If it moved over our lines and partly over another line and partly over another line. Our line does not reach Fort Logan.

Q. Will you look it up and see if in the years 1904, there was such a movement and such a division between the Rock Island road, the Burlington road, the Wabash road and your road? A. Oh, I understand now what it is you want. You mean a pool?

Q. I don't know what you call it. A. We have not done business on a pool for a good many years.

Q. Will you look over your records and see if there is any such thing? A. Oh, there is nothing indicating a pool.

Q. See if there is anything indicating the movement of those troops? A. Yes, I will look and see.

Q. What is the name of the gentleman who would have

charge of the railroad tariffs showing the charge for the movement of freight over the Iron Mountain road? To whom would I go for those? A. The Freight Traffic Manager.

Q. Who is that, Mr. Stith? A. Yes, sir, Mr. Stith.

Q. I don't know whether he would have it or the General Freight Agent? A. He is in general charge of the entire traffic department.

Q. He could furnish it? A. He controls that part, for the freight business, of course, not for the passenger.

CROSS-EXAMINATION, BY MR. FREDERICK W. LEHMANN.

Q. I notice on this first sheet, Missouri Pacific No. 3837 and Missouri Pacific I. C. C. No. 3399, effective May 23, 1900. Is that tariff effective now? A. I think so. But there is no transfer business going on there. It is still extant, but no transfer facilities are there. There is a ferry boat for wagons, you know, and passengers.

Q. And that is true of all the business covered by these three sheets? A. I believe so.

Q. It is no longer done in that way? A. No, sir.

Mr. Crow: Not since the sale of the Conlogue road? A. It was cut off about then.

Q. Soon afterwards? A. Yes, sir.

SAMUEL J. PARKS, a witness of lawful age, being duly produced, sworn and examined on the part of the complainant, testified as follows:

DIRECT EXAMINATION BY MR. E. C. CROW:

Q. State your name, residence and occupation? A. Samuel J. Parks. St. Louis. Auditor of the passenger accounts of the Wabash Railroad.

Q. You have been connected with the road for some time? A. About eighteen years.

Q. What are your duties as auditor of the passenger department? A. To check up the agents' reports of ticket sales and with foreign roads for foreign business.

Q. If there would be a division of business where the service is performed by another road, would that go through your hands? A. If it was joint with the Wabash, it would.

Q. If the Wabash performed no part of the service, but got part of the revenue, would that pass through your office? A. I don't think so. I don't know of any case of that kind.

Q. Without regard to your knowledge on that question, do you know whether or not that would come to your office? A. No, sir, I do not.

Q. It would not come to your office? A. No, sir.

Q. Who would make that settlement? A. I do not know.

Q. You do not know anything about that? A. No, sir.

Q. The passenger agent of your road makes no settlement with other roads, does he? A. Not to my knowledge.

Q. Yours is the accounting office of the passenger department? A. Yes, sir, and we have the books and the coupon tickets.

Q. I understand you to say that in the records of your office, there ought to be a settlement made with what you call "foreign roads," that is, other roads coming to the Wabash, for passenger service? A. Yes, sir, the settlements all come through my office.

Q. Will you examine your records for the years 1903-04 and see if there was any division, or any money received by the Wabash, from the Missouri Pacific, on account of Government troops moved from Jefferson Barracks to Fort Logan, Colorado? A. Yes, sir, I will look.

St. Louis, July 8th, 1907.

Met, pursuant to adjournment as above, on Monday, July 8th, 1907, at ten o'clock A. M., in the office of the Special Commissioner, Hon. R. E. Rombauer, in the Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. Edward C. Crow and Hon. Chester H. Krum appeared on behalf of the Complainant.

Mr. F. W. Lehmann appeared on behalf of the Defendants.

The following proceedings were had:

Counsel for the Complainant here offers in evidence the map prepared by the Pitzman Engineering Company, referred to in the testimony of Julius Pitzman.

JAMES E. HANNEGAN, recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. You are secretary of the St. Louis Local Passenger Bureau? A. Yes, sir.

Q. Will you please tell the Special Commissioner what constitutes the membership in the St. Louis Local Passenger Bureau? A. The Chicago, Burlington & Quincy R. R. Co.; The Chicago & Alton Railroad Co.; Chicago, Peoria & St. Louis; The Illinois Central R. R. Co.; The Missouri Pacific Railway Company; The St. Louis, Kansas City & Colorado R. R. Co.; The Wabash Railroad Company.

Q. Is that all? A. Yes, sir, that is all.

Q. What relation does the St. Louis Local Passenger Bureau sustain to the St. Louis General Passenger Agents' Association? A. None.

Q. No connection whatever. A. No, sir.

Q. What relation do you sustain to the St. Louis Local Passenger Bureau? A. I am its Secretary.

Q. In charge of the records of that Association? A. Yes, sir.

Q. What is the general business of that Association? A. It is a sub-organization of the Western Passenger Association.

Q. When you say "sub-organiaztion," please explain just what relation it bears to the Western Passenger Association? A. In the Articles of Association of the Western Passenger Assocition there is a provision that local bureaus shall be maintained at several large cities, under its jurisdiction, and St. Louis is one.

Q. What other city is under the jurisdiction of the Western Passenger Association? A. There are several. St. Louis, Chicago, Minneapolis, St. Paul, Kansas City, Omaha, and Denver.

Q. What officials has the Western Passenger Association? A. It has a Chairman and Secretary.

Q. Who is Secretary? A. E. E. McLeod.

Q. Where does he live? A. His headquarters are in Chicago.

Q. And who is Secretary? A. Thomas Thompson.

Q. Are his headquarters in Chicago? A. Yes, sir.

Q. Do you report to these gentlemen, or either of them? A. I report, so far as the business of the Western Passenger Association is concerned, to Chairman McLeod.

Q. You only deal with passenger rates? A. Only with passenger affairs.

Q. Do you deal with passenger rates? .A No, sir.

Q. You have nothing to do with the rates? A. No, sir, as I have testified.

Q. What part of the passenger affairs do you deal with? A. The purpose of the local bureaus at St. Louis, Chicago,

and these other cities where they are maintained, is principally to head off manipulations and schemes of the ticket scalpers. The Western Passenger Association has a large territory under its jurisdiction, but no local bureaus are necessary except in large cities in its territory where ticket scalpers exist. The main portion of the business of the St. Louis Local Passenger Bureau is brought about by the manipulations and irregular and fraudulent practices of ticket scalpers. If ticket scalping could be eliminated, the necessity for the St. Louis Local Passenger Bureau would cease.

Q. What relation does the St. Louis Local Passenger Bureau sustain to the Western Passenger Association? A. The lines I have mentioned are members of the Western Passenger Association.

Q. I asked you what relation the Geneal Passenger Association of St. Louis sustains to the Western Passenger Agents' Association? A. That is the best answer I can make. The lines I have mentioned in answer to your first question, as members of the St. Louis Passenger Bureau, which is a sub-bureau of the Western Passenger Association, are members of the Western Passenger Association. That is the only relation that those lines sustain. So far as the organization is concerned—I am not the Chairman of the Western Passenger Association, but it is my understanding that that organization, the St. Louis Association of General Passenger Agents, sustains no relation to the Western Passenger Association—but the Chairman of that organization can answer that question.

Q. Then your answer is, that you do not know what relation is sustained? A. My answer is, that to the best of my knowledge they do not sustain any relation whatever.

Q. With what other organization of passenger agents are you connected? A. I am Chairman of the Southwestern Excursion Bureau.

Q. Besides handling excursions, what other business does that Association handle? A. It handles, generally speaking—

Q. As I stated, aside from the excursion business? A. It handles the Southwestern territory generally. That is, Texas, Indian and Oklahoma territories, and the southern half of Missouri.

Q. That is its territory; now what business do you handle? A. The excursion business.

Q. Outside of the excursion business, what do you handle? That is my original question—out side of the excursion business, what business does that Association handle? A. My understanding is, it has jurisdiction over various classes of passenger business.

Q. Tell us what it is? A. It is simply a clearing-house, as I think I stated in my original examination some time ago. It is simply a clearing-house for the registration of the individual views of the various lines that are under its jurisdiction; and it is my understanding that these views may be expressed with respect to any traffic.

Q. Freight traffic? A. No, sir; passenger traffic, I mean.

Q. That is the same general observation that you injected into the record before. Will you please tell me exactly what relation you sustain to these roads, and what business you carry on with these roads? A. In what respect?

Q. You know what business you are doing with them. I don't. A. Are you conducting this examination now—are you trying to get my testimony as Secretary of the St. Louis Local Passenger Bureau, or as Chairman of the St. Louis Southwestern Excursion Bureau? Because the duties are different.

Q. If you desire me to explain my question, I will say that I am talking about the passenger business of the St.

Louis Southwestern Excursion Bureau. A. The Southwestern Excursion Bureau handles any matter which may be confided to it by the passenger agents connected with it.

Q. Mention them? A. Suppose, for example, that a line wanted to make a rate out of Tulsa, Indian Territory, to Oklahoma City and back, with a fare and one-third for the round trip; they would send a request to the Chairman to submit what we call "a proposition."

Q. Who is the Chairman? A. I am. Then I would send to the interested lines a proposition to record their views upon a proposition to make a round trip rate of $1.50, say, from Tulsa to Oklahoma City and return, excursion tickets to be sold on certain days, and to be good to return on certain days. Now I would ask that answers come in by a certain time. All the lines would have an opportunity, then, to express their views. If all the views expressed were favorable, I would make an announcement to that effect. If any line objected, I would make that announcement. After a certain time—I think it is five days—then the line that asked that the proposition be submitted would have the option of exercising its individual rights and serve a notice that it would put those rates into effect.

Q. Is there any other class of business you handle? A. I think—

Q. What territory does the Southwestern Excursion Bureau cover? A. The south half of Missouri.

Q. What do you mean when you say "the south half of Missouri?" A. I mean all that portion of Missouri south of the line of the Missouri Pacific road from St. Louis to Labadie, and the St. Louis, Kansas City & Colorado road from Labadie to Kansas City. Also that portion of the State of Kansas east of the line of the St. Louis & San Francisco Railroad Company from Kansas City through Olathe, Baxter and Galena; the States of Arkansas, Texas, and Indian and Oklahoma territories.

Q. These rates you deal with are only excursion rates? A. Yes, sir.

Q. They have nothing to do with the regular rates. A. No, sir.

Q. If the regular tariff rate is cut by a road, is complaint made to you about that? A. In some cases we might investigate matters like that.

Q. Are you the officer to whom the complaint would be made? A. Not necessarily.

Q. Is it usually made to you? A. No, sir, it is usually the case that these matters should be adjusted between the roads themselves.

Q. If they are not adjusted between the roads themselves, would complaint be made to your office? A. It might be.

Q. Is it customary to do that? A. I wouldn't say it is customary.

Q. Is it frequently? A. I wouldn't say frequently.

Q. You have jurisdiction of that matter? A. I would assert jurisdiction as to that matter.

Q. Where would you acquire that jurisdiction from? A. I think that jurisdiction would be confided in me by the General Passenger Agents of the roads who were parties to the Bureau.

Q. Parties to the Excursion Bureau? A. Yes, sir.

Q. Their agreement or articles of association cover that point, do they? A. We have no articles.

Q. Or agreement? A. We have no agreement.

Q. Your understanding, then?—A. We have no understanding—well, we have a little understanding, to this effect: The Southwestern Excursion Bureau is successor to the Southwestern Passenger Bureau, which was disbanded in 1893. We have an understanding that the rules of the Southwestern Passenger Bureau would apply to the Southwestern Excursion Bureau, but we have no formal articles for the Southwestern Excursion Bureau.

Q. Just an understanding that the Southwestern Excursion Bureau, in addition to its other duties, assumed the functions of the Southwestern Passenger Bureau, which was dissolved in 1893; and it is, by virtue of that understanding that the jurisdiction of the matter of making the rates comes to you and would be entertained by you? A. It would be by virtue of that understanding.

Q. Are there any rules or regulations for the determination of these questions of cutting rates? A. No, sir, there are no rules at all, as I have stated.

Q. Any mode of procedure? A. The mode of procedure is to ascertain the facts, and promulgate them.

Q. Who does that? Do you do that through your agents and representatives? A. I do it, myself. It is not a very onerous task.

Q. For that purpse you summon people before you, and invite them to make reports and statements? A. No, sir.

Q. How do you proceed to investigate? A. By correspondence.

Q. You ask them— A. I ask a man what the facts are.

Q. And you ask them to make a statement in writing? A. I ask them what the facts are.

Q. How are those facts reported to you—in writing? A. Yes, sir, usually it is handled by correspondence.

Q. And this correspondence is in the files of the Association, and those files belong to the records of the Association, do they? A. Well, not necessarily.

Q. They aren't your individual property, are they? A. Oh, no, they are not my individual property.

Q. Whose property are they, then? A. We may not keep them.

Q. In the event they were kept, they would be your property? A. No, sir, they would not be my property.

Q. I mean they would be the property of the Association?

A. They would be the property of the Southwestern Excursion Bureau.

Q. Have they been destroyed? A. I do not know.

Q. You have had custody of them, haven't you? A. I assume so. I really do not recollect any such cases as that.

Q. You don't remember that you ever entertained any jurisriction of that kind? A. I do not remember that I have exercised any jurisdiction of that kind recently—not as far as St. Louis is concerned, any way.

Q. Or over any of your territory? A. I respectfully submit that this inquiry is pretty broad, if it wants to find out what the facts are with reference to any irregularity between Beautmont, Texas, and Tulsa, Indian Territory.

Q. That is not for you to determine. The Court will take care of that. Will you please answer the question: Have you been entertaining any of these questions in your jurisdiction? A. I have.

Q. Have you destroyed those letters? A. I do not know.

Q. Who would know? A. I have not intentionally destroyed any—if that is what you mean.

Q. Who would know, if you do not know? A. I don't know.

Q. Have you any clerks in your office? A. Of course. I do not personally keep track of all these matters, and we do not attempt to keep all our records for five or six years.

Q. The clerks do not take out records and destroy them, unless you authorize them to do so, do they? A. No, sir.

Q. And nobody else but you could direct it to be done? A. No, sir.

Q. If any had been destroyed, you would know that fact, wouldn't you? A. Not necessarily. We do not keep our records forever.

Q. How long do you keep them? A. We do not keep them any longer than a year.

Q. You have them for a year? A. Yes, sir.

Q. And for any time prior to that? A. I don't think so.

Q. What other Association have you any connection with? A. That is all.

Q. Just those two? A. Yes, sir.

Q. When did you cease to entertain any jurisdiction in these matters, with reference to St. Louis, so far as cutting the rates is concerned? A. You mean in the Southhwestern Excursion Bureau?

Q. Yes. I don't understand that I have ceased to entertain that jurisdiction.

Q. I thought you qualified your statement awhile ago to the extent that you did not entertain that jurisdicion with respect to St. Louis? A. I said I had not made any investigation of that character out of St. Louis, to my recollection—that is what I meant to say.

Q. Were you an official of the defunct organization, that went out of existence, that you mentioned? A. I was.

Q. Who had those records? A. I think they were destroyed.

Q. Who had charge of them? A. Charles M. Pratt.

Q. Where does he live? A. He now lives in Chicago, I believe.

Q. With what road is he connected? A. He is with the Rock Island.

Q. Was he Secretary? A. He was Chairman of the Southwestern Passenger Association.

Q. Who was Secretary? A. They really didn't have a Secretary, but the man who acted as Secretary and Chief Clerk was John H. Norton.

Q. What became of him? A. I really do not know where he is at present. He was validating agent during the World's Fair, and since that time he is in Canada somewhere.

Q. With what road was he connected before he became

validating agent at St. Louis during the Fair? A. He was with the M. K. & T. for a short period.

J. L. PENNEY, recalled, on behalf of the Complainant, testified as follows, to-wit:

DIRECT EXAMINATION, BY MR. E. C. CROW:

Q. Do you know how much general reduction has been made in freight charges since 1905, for transfer across the river, by the St. Louis Terminal Railroad Association—not in cents per hundred pounds, but the amount of revenue in proportion to the business carried at that time, and not on the present basis of business? A. Can I ask a question?

Q. Certainly. A. You mean you want to get at how much the charge has been lessened on goods to St. Louis?

Q. Yes, to and out of St. Louis—just that general proposition, and in general terms? Do not try to be specific. A. About 65 per cent on the business without a radius of one hundred miles.

Q. Beyond a radius of one hundred miles? A. Yes. Possibly, 35 per cent on business within a radius of one hundred miles.

Q. That is, on the St. Louis Terminal Railroad Association's lines? A. On all lines.

Q. How much difference is there in the charges on the St. Louis Terminal Railroad Association's lines, proper? A. There has been no change; there has been very slight change on the Terminal proper, except in the matter of soft coal; that charge has been reduced from thirty cents per ton to this St. Louis territory, to twenty cents a ton.

Q. There has been an increase in the switching rate on this side of the river, for soft coal? A. No, sir.

Mr. Lehmann: Q. You mean no increase by the Terminal Railroad Association?

Mr. Crow: Q. I am addressing myself to the St. Louis

Terminal Railroad Association's property. Then your answer is, that so far as the Terminal Railroad Association's properties are concerned, there has been no reduction in the charges since 1903? A. No, sir, no material reduction. There have been reductions, but no material reductions, except on soft coal. The tendency is always toward reduction with us, and we do make reductions from time to time.

Q. There has been no such reduction as would figure out any definite percentage on the volume of business of the St. Louis Terminal Railroad Association, such as you mention, beyond the one hundred mile radius, and within the one hundred mile radius? A. I answered that the reduction has been made to and from St. Louis. A large proportion of the St. Louis Terminal Railroad Association charge has been shifted from the individual, the receiver and the shipper, to the railroad companies.

Q. And has not been absorbed by the Terminal Railroad Association, but by the individual lines? A. Yes, sir.

Q. You are familiar with the charge that is made now for what is known as "chatts," running in on the Terminal property, to and from St. Louis, across the river? A. Yes, sir.

Q. Do you remember what the rate is? A. Twenty cents per ton.

Q. What would that make, on the average, for a car of chatts? A. Five dollars.

Q. Is that on an average car? A. Yes, sir.

Q. How many tons would that be? A. About twenty-five tons.

Q. Wouldn't that be a small amount? A. Yes, sir, for chatts that would be small. I should judge thirty-five tons would be fair. That would be seven dollrs.

At this point, this witness is temporarily excused, with the understanding that he is to be recalled later for further examination.

Complainant offers in evidence Coal Tariff No. 20 of the Chicago & Eastern Illinois R. R., effective May 10, 1902, together with Supplement No. 1 thereto.

Above exhibit is marked "Complainant's Exhibit No. 64."

Complainant offers in evidence Coal Tariff No. 110 of the Chicago & Eastern Illinois Railroad, effective April 1, 1903, together with Supplements Nos. 1 to 14, inclusive, thereto.

Above exhibit is marked "Complainant's Exhibit No. 65."

Complainant offers in evidence Coal Tariff No. 283, effective May 2nd, 1904, of the Chicago & Eastern Illinois Railroad, together with Supplements Nos. 1 to 6 thereto, inclusive.

Above exhibit is marked "Complainant's Exhibit No. 66."

Complainant offers in evidence Coal Tariff No. 283-A of the Chicago & Eastern Illinois Railroad, effective May 23, 1905, together with Supplements Nos. 1 to 11, inclusive, thereto.

Above exhibit is marked "Complainant's Exhibit No. 67."

Complainant offers in evidence Coal Tariff No. 5 of the St. Louis Coal Traffic Association, effective June 3, 1897.

Above exhibit is marked "Complainant's Exhibit No. 68."

Complainant offers in evidence Coal Tariff No. 6 of the St. Louis Coal Traffic Bureau, effective August 1, 1898.

Above exhibit is marked "Complainant's Exhibit No. 69."

Complainant offers in evidence Information Circular No. 1 of the St. Louis Coal Traffic Bureau, effective January 4, 1900.

Above exhibit is marked "Complainant's Exhibit No. 70."

Complainant offers in evidence Information Circular No. 1 of the St. Louis Coal Traffic Bureau, in effect January 4th, 1900, together with supplements thereto; Information Circular No. 2 of the St. Louis Coal Traffic Bureau, in effect March 20, 1901, together with supplements thereto; St. Louis Coal Traffic Bureau Information Circular No. 3, in effect December 22, 1902; and St. Louis Coal Traffic Bureau Information Circular No. 4, in effect January 10, 1903, together with supplement thereto.

Above four Information Circulars are marked "Complainant's Exhibit No. 71."

Complainant offers in evidence Information Circular No. 2 of the St. Louis Coal Traffic Bureau, in effect March 20, 1901.

Above exhibit is marked "Complainant's Exhibit No. 72."

Complainant offers in evidence Information Circular No. 3 of the St. Louis Coal Traffic Bureau, effective December 22, 1902.

Above exhibit is marked "Complainant's Exhibit No. 73."

Complainant offers in evidence Information Circular No. 4 of the St. Louis Coal Traffic Bureau, effective January 10, 1903, together with amendment thereto.

Above exhibit is marked "Complainant's Exhibit No. 74."

Complainant offers in evidence Information Circular No. 5 of the St. Louis Coal Traffic Bureau, effective May 1, 1905.

Above exhibit is marked "Complainant's Exhibit No. 75."

Complainant offers in evidence I. C. C. No. 2 Schedule of Rates No. 10, Wiggins Ferry Co., East St. Louis Connecting Railway, and St. Louis Transfer Railway Co., in effect July 13, 1897; I. C. C. No. 3, Schedule of Rates No. 11 of the same companies, effective January 1, 1899; I. C. C. No. 4, Schedule of Rates No. 12 of the same companies, effective January 1, 1902; I. C. C. No. 5, Schedule of Rates No. 13 of the same companies, in effect May 15th, 1905; together with supplement thereto; I. C. C. No. 7, Freight Tariff No. 14, of the same companies, together with supplement thereto

All of which exhibits are marked "Complainant's Exhibit No. 75-A."

Complainant offers in evidence Information Circular No. 6 of the St. Louis Coal Traffic Bureau, in effect June 5, 1905.

Above exhibit is marked "Complainant's Exhibit No. 76."

Complainant offers in evidence Freight Tariff No. 4 of

the Terminal Railroad Association of St. Louis, in effect May 1, 1900.

Above exhibit is marked "Complainant's Exhibit No. 76-A."

Complainant offers in evidence Freight Tariff No. 5 of the Terminal Railroad Association of St. Louis, in effect June 15th, 1904, together with Supp. No. 2 thereto.

Above exhibit is marked "Complainant's Exhibit No. 77."

Complainant offers in evidence Freight Tariff No. 6 of the Terminal Railroad Association of St. Louis, in effect January 1st, 1906, together with Amendment No. 2 thereto

Above exhibit is marked "Complainant's Exhibit No. 78."

Complainant offers in evidence Freight Tariff No. 4 of the St. Louis Merchants' Bridge Terminal Railway Company, in effect May 1, 1900.

Above exhibit is marked "Complainant's Exhibit No. 79."

Complainant offers in evidence Freight Tariff No. 5 of the St. Louis Merchants' Bridge Terminal Railway Company, in effect June 15th, 1904, together with Supp. No. 2 thereto.

Above exhibit is marked "Complainant's Exhibit No. 80."

Complainant offers in evidence Freight Tariff No. 6 of the St. Louis Merchants' Bridge Terminal Railway Company, in effect January 1st, 1906.

Above exhibit is marked "Complainant's Exhibit No. 81."

Complainant offers in evidence the following Special Tariffs of the Baltimore & Ohio Southwestern R. R. Co.;

No. C-59, effective Jan. 1, 1900.
No. C-141, effective June 1, 1900.
No. C-11, effective January 1, 1901.
No. C-83, effective January 30, 1901, and Supp. No. 1 thereto.
No. C-109, effective March 15, 1901.
No. C-110, effective March 15, 1901.
No. C-111, effective March 20, 1901.
No. C-118, effective April 4, 1901.
No. C-25, effective January 1, 1902.
No. C-84, effective Jan. 1, 1902.
No. C-3, effective Jan. 1, 1903.
No. C-37, effective Jan. 1, 1903.
No. C-91, effective January 5, 1903.
No. C-92, effective January 5, 1903.
No. C-162, effective July 20, 1903.
No. C-21, effective January 1, 1904.

Above exhibit is marked "Complainant's Exhibit No. 82."

Complainant offers in evidence Local Freight Tariff of the Vandalia Railroad Co., No. 2453, effective Sept. 14, 1904; No. 2568, effective May 1, 1905; No. 2579, effective May 22, 1905; No. 2586, effective June 5, 1905; No. 2865, effective June 15, 1906, and Supplement No. 1 and No. 2 thereto.

Which exhibit is marked "Complainant's Exhibit No. 83."

Complainant offers in evidence Joint Freight Tariff of the Vandalia Railroad Company, No. 2864, effective June 15, 1906, together with Supplements Nos. 1 to 7 inclusive thereto.

Above exhibit is marked "Complainant's Exhibit No. 84."

Complainant offers in evidence Coal Tariff No. "C. A." 773, of the Cleveland, Cincinnati, Chicago & St Louis Ry. Co., effective June 5th, 1905, together with Supplements Nos. 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 16, 17 and 18 thereto.

Above exhibit is marked "Complainant's Exhibit No. 85."

Complainant offers in evidence Freight Tariff No. 4 of the Interstate Car Transfer Co., in effect May 15, 1905, together with Supplement No. 1 thereto, and Amendment No. 3 to Freight Tariff No. 5; also Freight Tariff No. 5, effective January 1, 1906.

Above exhibit is marked "Complainant's Exhibit No. 86."

Complainant offers in evidence Local Commodity Tariff of the Wabash Railroad No. 21302, effective Jan. 1, 1900, together with Amendments Nos. 26, 25, 23, 17 and 14 thereto.

Above exhibit is marked "Complainant's Exhibit No. 87."

Complainant offers in evidence Joint Freight Tariff No. 12 of the Belleville & St. Louis Traffic Bureau, effective June 20, 1900.

Above exhibit is marked "Complainant's Exhibit No. 88."

Complainant offers in evidence Freight Tariff No. 355 of the Mobile & Ohio Railroad Company, effective July 9, 1900.

Above exhibit is marked "Complainant's Exhibit No. 89."

Complainant offers in evidence Freight Tariff No. 551 of the Mobile & Ohio Railroad Company, effective Jan. 31, 1905.

Above exhibit is marked "Complainant's Exhibit No. 90"

Complainant offers in evidence Freight Tariff No. 476 of the Mobile & Ohio Railroad Company, effective January 10th, 1903.

Above exhibit is marked "Complainant's Exhibit No. 91."

Complainant offers in evidence Supplement No. 1 to Freight Tariff No. 476, effective December 13th, 1904.

Above exhibit is marked "Complainant's Exhibit No. 92."

Complainant offers in evidence Freight Tariff No. 471 of the Mobile & Ohio Railroad, effective November 25th, 1902.

Above exhibit is marked "Complainant's Exhibit No. 93."

Complainant offers in evidence Freight Tariff No. 401 of the Mobile & Ohio Railroad Company, effective March 20, 1901.

Above exhibit is marked "Complainant's Exhibit No. 94."

Complainant offers in evidence Supplement No. 1 to Freight Tariff No. 401, of the Mobile & Ohio Railroad Company, effective April 14, 1902.

Above exhibit is marked "Complainant's Exhibit No. 95."

Complainant offers in evidence Supplement No. 2 to Freight Tariff No. 401 of the Mobile & Ohio Railroad Company, effective May 13th, 1902.

Above exhibit is marked "Complainant's Exhibit No. 96."

Complainant offers in evidence Freight Tariff No. 358 of the Mobile & Ohio Railroad Company, effective July 18th, 1900.

Above exhibit is marked "Complainant's Exhibit No. 97."

Complainant offers in evidence Supplement No. 1 to Freight Tariff No. 358 of the Mobile & Ohio Railroad Company, effective August 15th, 1900.

Above exhibit is marked "Complainant's Exhibit No. 98."

Complainant offers in evidence Supplement No. 1 to Freight Tariff No. 355 of the Mobile & Ohio Railroad Company, effective July 18th, 1900.

Above exhibit is marked "Complainant's Exhibit No. 99."

Complainant offers in evidence Supplement No. 2 to Freight Tariff No. 355 of the Mobile & Ohio Railroad Company, effective August 15th, 1900.

Above exhibit is marked "Complainant's Exhibit No. 100."

Complainant offers in evidence Freight Tariff No. 312 of the Mobile & Ohio Railroad Company, effective February 9th, 1900.

Above exhibit is marked "Complainant's Exhibit No. 101."

Complainant offers in evidence Freight Tariff No. 302 of the Mobile & Ohio Railroad Company, effective March 1st, 1900

Above exhibit is marked "Complainant's Exhibit No. 102."

Complainant offers in evidence Freight Tariff No. 202-F of the Mobile & Ohio Railroad Company, effective August 1st, 1898.

Above exhibit is marked "Complainant's Exhibit No. 103."

Complainant offers in evidence Freight Tariff No. 203-F of the Mobile & Ohio R. R. Company, effective August 1st, 1898.

Above exhibit is marked "Complainant's Exhibit No. 104."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the C. & A. Railroad, via East St. Louis, No. I. S. 12468; together with Amendment No. 1 thereto, and Division Sheets Nos. 1 and 2.

Above exhibit is marked "Complainant's Exhibit No. 105."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in con-

nection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558, and Division Sheets Nos. 1 and 2 thereof.

Above exhibit is marked "Complainant's Exhibit No. 106."

Complainant offers in evidence Joint Freight Tariff of the St. Louis Iron Mountain & Southern Ry. Co, in connection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558-A, and Division Sheets Nos. 1, 2 and 3 thereof.

Above exhibit is marked "Complainant's Exhibit No. 107."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558-B, and Division Sheets Nos. 1 and 2 thereof.

Above exhibit is marked "Complainant's Exhibit No. 108."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558-C, and Division Sheets Nos. 1, 2 and 3 thereof.

Above exhibit is marked "Complainant's Exhibit No. 109."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Railway Co., in connection with the Chicago & Alton Railroad, via East

2549

St. Louis, No. S-2558-F, and Division Sheets Nos. 1 and 2 thereof.

Above exhibit is marked "Complainant's Exhibit No. 110."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Railway Co., in connection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558-H, together with Amendment No. 1, and Division Sheets Nos. 1 to 5 inclusive thereof.

Above exhibit is marked "Complainant's Exhibit No. 111."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Railway Co., in connection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558-J, together with Amendment No. 1, and Division Sheets Nos. 1 to 4 inclusive thereof.

Above exhibit is marked "Complainant's Exhibit No. 112."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Railway Co., in connection with the Chicago & Alton Railroad, via East St. Louis, No. S-2558-K, and Division Sheets Nos. 1 to 4 inclusive thereof.

Above exhibit is marked "Complainant's Exhibit No. 113."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the Wabash Railroad, No. I. S. 12096-K, together with Amendment No. 1, and Division Sheets Nos. 1 to 4 inclusive thereto.

Above exhibit is marked "Complainant's Exhibit No. 114."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the Wabash Railroad, No. I. S. 12096-L, and Division Sheets Nos. 1 to 4 inclusive thereto.

Above exhibit is marked "Complainant's Exhibit No. 115."

Complainant offers in evidence Joint Freight Tariff of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the Wabash Railroad, No. S-2735, and Division Sheet No. 1 thereto.

Above exhibit is marked "Complainant's Exhibit No. 116."

Complainant offers in evidence Joint Freight Tariffs of the St. Louis, Iron Mountain & Southern Ry. Co., in connection with the Wabash Railroad, Nos. S-2425, S-2425-A, S-2425-B, S-2425-C, S-2425-D, S-2425-E, S-2624, S-2624-A, and S-2624-E.

Above exhibit is marked "Complainant's Exhibit No. 117."

Complainant offers in evidence corrected Coal Tariff No. C. A. 684 of the C. C. C. & St. L. Ry. Co., in connection with the C. & E. I. R. R.

Above exhibit is marked "Complainant's Exhibit No. 118."

Complainant offers in evidence Coal Tariff No. C. A. 684 of the Cleveland, Cincinnati, Chicago & St. Louis Ry. Co., in connection with the C. & E. I. R. R.

Above exhibit is marked "Complainant's Exhibit No. 119."

Complainant offers in evidence Coal tariffs of the Illinois Central Railroad Company to East St. Louis, Ill., from coal mine stations in State of Illinois on said railroad, from January 1, 1900, to December 31st, 1904, inclusive.

Above exhibit is marked "Complainant's Exhibit No. 120."

Complainant offers in evidence Coal tariffs of the Illinois Central Railroad Company to Chicago, Ill., from coal mine stations in the state of Illinois on said railroad, from January 1, 1902, to December 31, 1905, inclusive.

Above exhibit is marked "Complainant's Exhibit No. 121."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Company No. 20342, effective August 1, 1899.

Above exhibit is marked "Complainant's Exhibit No. 122."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 20342-C, effective January 18, 1902.

Above exhibit is marked "Complainant's Exhibit No. 123."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 27692, effective May 23, 1902.

Above exhibit is marked "Complainant's Exhibit No. 124."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 27692-A, effective June 13, 1902.

Above exhibit is marked "Complainant's Exhibit No. 125."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 28614, effective October 20, 1902.

Above exhibit is marked "Complainant's Exhibit No. 126."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 28614-A, effective November 13, 1902.

Above exhibit is marked "Complainant's Exhibit No. 127."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 28614-B, effective November 25, 1902.

Above exhibit is marked "Complainant's Exhibit No. 128."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 28614-C, effective January 1, 1903.

Above exhibit is marked "Complainant's Exhibit No. 129."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 28614-D, effective April 7th, 1903.

Above exhibit is marked "Complainant's Exhibit No. 130."

Complainant offers in evidence Coal Tariff of the Wabash Railroad Co., No. 21302, effective January 1, 1900, together with Amendment No. 14 thereto.

Above exhibit is marked "Complainant's Exhibit No. 131."

Complainant offers in evidence Freight Tariff of the Chicago & Alton Ry. Co., C. & A. G. F. D. No. 3490, effective September 1, 1900; C. & A. G. F. D. No. 8475, effective November 20, 1902; C. & A. G. F. D. No. 11888, effective April 1, 1904; C. & A. G. F. D. No. 14366, effective April 1, 1905; C. & A. G. F. D. No. 17331, effective April 1, 1906; C. & A. G. F. D. No. 780-A, effective May 24, 1907.

Above exhibit is marked "Complainant's Exhibit No. 132."

Above exhibit is marked "Complainant's Exhibit No. 133."

Complainant offers in evidence Amendment No. 2 to L. & N. Tariff G. F. O. No. 266, effective April 9, 1900.

Above exhibit is marked "Complainant's Exhibit No. 134."

Complainant offers in evidence Amendment No. 3 to L. & N. Tariff G. F. O. No. 266, effective November 14, 1900.

Above exhibit is marked "Complainant's Exhibit No. 135."

Complainant offers in evidence Amendment No. 6 to L. & N. Tariff G. F. O. No. 266, effective March 8, 1901.

Above exhibit is marked "Complainant's Exhibit No. 136."

Complainant offers in evidence Amendment No. 7 to L. & N. Tariff G. F. O. No. 266, effective March 20, 1901.

Above exhibit is marked "Complainant's Exhibit No. 137."

Complainant offers in evidence Amendment No. 10 to L. & N. Tariff G. F. O. No. 266, effective May 6th, 1901.

Above exhibit is marked "Complainant's Exhibit No. 138."

Complainant offers in evidence Amendment No. 11 to L. & N. Tariff G. F. O. No. 266, effective August 1, 1902.

Above exhibit is marked "Complainant's Exhibit No. 139."

Complainant offers in evidence Amendment No. 12 to L. & N. Tariff G. F. O. 266, effective September 23, 1902.

Above exhibit is marked "Complainant's Exhibit No. 140."

Complainant offers in evidence Amendment No. 14 to L. & N. Tariff G. F. O. No. 266, effective January 10, 1903.

Above exhibit is marked "Complainant's Exhibit No. 141."

Complainant offers in evidence Joint Freight Tariff G. F. D. No. 10837 of the C. & E. I. R. R. in connection with the B. & O. S. W. R. R., effective August 1, 1898.

Above exhibit is marked "Complainant's Exhibit No. 142."

Complainant offers in evidence Joint Freight Tariff G. F. D. No. 10838 of the C. & E. I. R. R., in connection with the Louisville, Evansville & St. Louis Consolidated R. R., effective August 1st, 1898.

Above exhibit is marked "Complainant's Exhibit No. 143."

Complainant offers in evidence Joint Freight Tariff G. F. D. 14813 of the C. & E. I. R. R., in connection with the B. & O. S. W. Railway, effective August 21, 1901.

Above exhibit is marked "Complainant's Exhibit No. 144."

Complainant offers in evidence Joint Freight Tariff of the C. & E. I. R. R., in connection with the Southern Ry., G. F. D. No. 14814, effective August 21, 1901.

Above exhibit is marked "Complainant's Exhibit No. 145."

Complainant offers in evidence Joint Freight Tariff No. 129 of the C. & E. I. R. R., in connection with the B. & O. S. W. Ry., effective April 1, 1903.

Above exhibit is marked "Complainant's Exhibit No. 146."

Complainant offers in evidence Joint Freight Tariff No. 130 of the C. & E. I. R. R., in connection with the Southern Railway, effective April 1st, 1903.

Above exhibit is marked "Complainant's Exhibit No. 147."

Complainant offers in evidence Joint Freight Tariff No. 548 of the C. & E. I. R. R., in connection with various other roads, effective November 5, 1906, and Supp. No. 2 thereto.

Above exhibit is marked "Complainant's Exhibit No. 148."

Complainant offers in evidence list of properties of the Wiggins Ferry Company, furnished by J. E. Gathright, Auditor, under date of June 5, 1907.

Above exhibit is marked "Complainant's Exhibit No. 149."

Complainant offers in evidence list of properties of the St. Louis Transfey Railway Company, and the East St. Louis Connecting Railway Co., as furnished by J. E. Gathright, Auditor, under date or June 5, 1907.

Above exhibit is marked "Complainant's Exhibit No. 150."

Complainant offers in evidence statement of Coal westbound, and Lumber and Chatts east bound, transported via Waterloo & Carondelet Turnpike & Ferry Co. in connection with the East St. Louis and Carondelet Ry., during the year 1902.

Above exhibit is marked "Complainant's Exhibit No. 151."

Complainant offers in evidence telegram from J. Ramsey Jr. to Julius S. Walsh, dated New York, April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 152."

Complainant offers in evidence telegram from Geo. J. Gould to Julius S. Walsh, dated ——(No date).

Above exhibit is marked "Complainant's Exhibit No. 153."

Complainant offers in evidence telegram from Geo. J. Gould to Julius S. Walsh, dated New York, April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 154."

Complainant offers in evidence telegram from M. H. Smith to J. S. Walsh, dated Louisville, Ky., April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 155."

Complainant offers in evidence telegram from M. H. Smith to J. S. Walsh, dated Louisville, Ky., April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 156."

Complainant offers in evidence telegram from M. H. Smith to J. S. Walsh, dated Louisville, Ky., May 1, 1902.

Above exhibit is marked "Complainant's Exhibit No. 157."

Complainant offers in evidence telegram from James McCrae to J. S. Walsh, dated Pittsburg, Pa., April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 158."

Complainant offers in evidence telegram from James McCrae to J. S. Walsh, dated Pittsburg, Pa., April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 159."

Complainant offers in evidence telegram from E. F. Osborne to J. S. Walsh, dated Cincinnati, Ohio, April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 160."

Complainant offers in evidence teiegram from M.E. Ingalls to J. Ramsey Jr., dated Hot Springs, Va., May 1, 1902.

Above exhibit is marked "Complainant's Exhibit No. 161."

Complainant offers in evidence telegram from L. F. Loree to J. S. Walsh, dated New York, April 26, 1902.

Above exhibit is marked "Complainant's Exhibit No. 162."

Complainant offers in evidence rate sheets of the St. Louis Association of General Passenger Agents.

Above exhibit is marked "Complainant's Exhibit No. 163."

Complainant offers in evidence the map prepared by Julius S. Pitzman.

Above exhibit is marked "Complainant's Exhibit No. 164."

St. Louis, September 16th, 1907.

Met, pursuant to agreement of parties, on Monday morning, September 16th, 1907, at half past ten o'clock, in the office of the Special Commissioner, Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared on behalf of the Complainant.

Messrs. M. F. Watts and F. W. Lehmann appeared on behalf of the Defendants.

Not being able to proceed, on account of the absence of certain papers agreed to be produced by the Defendants, an adjournment is taken until this afternoon at half past two o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, September 17th, 1907.

Not being able to preceed on Monday afternoon, September 16th, 1907, as above, met pursuant to agreement on Tuesday afternoon, September 17th, 1907, at half past two o'clock, in the office of the Special Commissioner.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared on behalf of the Complainant.

Messrs. M. F. Watts and F. W. Lehmann appeared on behalf of the Defendants.

Counsel for the Complainant called for the following information from the Defendant:

1. What rolling stock, if any, was owned by the St. Louis Belt & Terminal Railway Company at the time of the sale to the Terminal Company in July, 1902; and if any was owned, from whom was it purchased, and what was paid for the same, and of what did it consist?

2. Have the Auditor furnish the exact figures as to how much was paid for the St. Louis Belt & Terminal Railway Company, who paid it and whether or not any commission was paid in the sale to any one, and if so, to whom?

3. Have the Auditor furnish statement as to what amount of money has been paid by the Merchants' or the

Terminal Railroad Company for real estate other than that actually used and occupied by the company in its business at the present time?

4. Also, have the Auditor give detailed statement of location and extent and amount paid for the real estate purchased by the Terminal Company and the Merchants' Bridge Terminal Company since the completion of the Merchants' Terminal Railway Company, and whether or not any commissions were paid for the purchase of the same by either one of the companies, and if so, to whom and how much?

5. Have the Auditor prepare a statement of the exact amount the Union Station cost, together with the train shed; Also, what the ground cost; and how much commission, if any, was paid to any one for the purchase of the ground, and from whom it was purchased.

6. Have the Auditor furnish a statement as to the number and extent of the yards acquired by the Terminal Railroad Association, and the Merchants' Bridge Terminal and the track connections with the Terminal Railroad Association.

7. Have the Auditor furnish a statement showing whether or not any commission has been paid for the sale and negotiation of any of the issues of bonds of the Terminal Railroad Association and the Merchants' Bridge Terminal Railroad Company, and if so, to whom, and when, and how much.

8. Have the Auditor furnish a statement as to how many yards they have and when they were bought and what they cost; whether any commission was paid for the purchase of same, and whether any commission was paid generally for the purchase of real estate, and if so, to whom, and how much and when.

9. Have the Auditor give a statement of the items and when they accrued, and what they were for, that constitutes the floating indebtedness of $3,000,000 referred to by Mr. Walsh in his testimony at pages 3163 and 3164 of typewritten record.

10. Furnish statement as to what was the $1,000,000 in bonds taken down for the year 1906 applied.

11. Have the Auditor furnish a statement of the receipts and expenditures of the Terminal Railway Company and the Merchants' Terminal Railway Company, for 1901, 1902, 1903, 1904 and 1905.

12. Have the Auditor of the Terminal investigate the books and see what the Interstate Car Company had spent $100,000 for between March and July, 1902, and if not $100,000 how much, and for what.

13. Have the Auditor or the Secretary of the Terminal Company furnish a statement as to what the records of the Terminal Company show with reference to the purchase of the Interstate Car and Transfer and the Belt and Terminal Railway and what the records of the Interstate Car Transfer Company and the records of the St. Louis Belt & Terminal Railway Company show with reference to said purchase.

14. Have the Auditor furnish a statement showing whether any company other than the proprietary companies pay any portion of the rental for the Union Station, and if so, how much.

15. Have the Auditor furnish a statement of revenue for the Union Station other than what is paid by the railroad companies upon a wheelage basis; also, ask him how much the express companies pay for the buildings they occupy.

16. Have the Auditor show how much the express com-

pany buildings cost and who advanced the money to build them.

17. Have the Auditor make a statement showing just what property the Interstate Car & Transfer Company had at the time of its acquisition by the Terminal Railroad Company in July, 1902 and a description of said property.

18. Have the Auditor make a statement as to whether or not there was any commission paid in the sale of the Interstate Car & Transfer Company, and if so, to whom, and how much.

19. Have the Auditor furnish a statement as to how much commission was paid by the Terminal Company or the proprietary lines or any one else in behalf of the Terminal or proprietary lines in the purchase of the Wiggins Ferry stock, and what was the expense of the purchase and if any other than the commissions paid.

20. Have the Auditor furnish a detailed statement of the property for which rental is paid by the Terminal Association, for what it is used and its location, and the amount of rental that is paid for each piece of property and to whom it is paid.

21. Have the Auditor furnish a statement showing the cost of the elevated structure on the levee.

22. Have the Auditor furnish a statement showing the amount of money invested in real estate and materials bought in contemplation of the building of the loop from the bridge onto the elevated structure in 1902, and is the money still invested in the real estate and materials purchased, and if not what has been done with the proceeds of the purchase above named.

23. Have Mr. Walsh furnish the correspondence and telegrams between Mr. Walsh and the officials of other

roads and proprietary lines with reference to the purchase of the Wiggins' Ferry.

24. Have the Auditor furnish a detailed statement of the expenditures of the nine million dollars in 1904.

25. Have the Auditor make an examination and see if his books show what amount was bid when the Merchants' Bridge was let for erection of the bridge, and whether it was for the spans and piers, or whether it was for the spans and piers and approaches; and if his books do not show this, ask the Secretary of the Merchants' Bridge Company what his records show in reference to that; also, who got the contract and who built the bridge.

26. Have the Auditor of the Wiggins' Ferry to furnish a statement of how many boats, when the Terminal bought them and what was paid for them, and how many locomotives they had when the Terminal bought them and how much they paid for them, and what buildings and how much ground and where located and what was paid for them.

27. Have the Auditor make a statement showing the date the Conlogue railroad was acquired and what besides road bed and rails was acquired with the property, and what the books show was the price paid for it, and whether or not it was paid in cash, and if so, whether or not it was paid for with the proceeds of the sale of the fifty million dollars of bonds.

28. Have the Auditor make a statement showing what property, if any, the Terminal owns that is not covered by the general mortgage of fifty million dollars.

29. Have the Auditor of the Wiggins' Ferry Company make a detailed statement of the property owned by the company when it was acquired, the time it was acquired, and the price paid for the same.

30. Have the Auditor make a statement showing how much equipment his books show that the Terminal Company has or owns at this time, and what did it cost, and of what does it consist."

The following statement was made by Counsel for Defendants;

That "the Defendants will furnish the information called for by interrogatories one (1), six (6), eight (8), (except as to commission, if any), thirteen(13), fourteen (14), seventeen (17), twenty-six (26), twenty-seven (27) and thirty (30).

The defendants will decline to furnish the information called for by the remaining interrogatories on the ground that the same is not pertinent or relevant to any issue involved in the case and is immaterial and irrelevant."

Complainant offers in evidence Rate Sheet of the Diamond Jo Line Steamers, dated St. Louis, May 1, 1904, containing the round-trip rates in effect season of 1904.

Above exhibit is marked "Complainant's Exhibit No. 165."

Complainant offers in evidence Rate Sheet of the Diamond Jo Line Steamers, containing the round trip rates in effect years 1900, 1901, 1902 and 1903.

of Coal Rates between all points in the State of Illinois, as prepared and adopted by the Railroad and Warehouse Commission of the State of Illinois, taken from the said Commissioner's specification and rates.

Above exhibit is marked "Complainant's Exhibit No. 207."

Complainant offers in evidence statement of coal tonnage furnished by Mr. Robert M. Fraser. It being a statement of tonnage of coal from Illinois Mines, reported through the office of the St. Louis Coal Traffic Bureau as being received at East St. Louis and vicinity for local consumption, and destined to points beyond, for the years 1903, 1904 and 1905.

Above statement is marked "Complainant's Exhibit No. 208."

Complainant offers in evidence statement furnished by Mr. M. F. Watts, on behalf of the Terminal Railroad Association, in response to request made by counsel for Complainant.

Above statement is marked "Complainant's Exhibit No. 209."

Complainant offers in evidence Statement of Receipts and Expenditures of the Terminal Railroad Association from January 1st, 1898, to June 30th, 1906, furnished by Mr. M. F. Watts, on behalf of the Terminal R. R. Association.

Above statement is marked "Complainant's Exhibit No. 210."

Complainant offers in evidence Statement furnished by Mr. Ives, in regard to the tonnage of soft coal shipped by

each coal mining company operating on the Wabash Railroad in the State of Illinois, during the year 1904.

Above statement is marked "Complainant's Exhibit No. 211."

Complainant offers in evidence Statement furnished by Mr. Watts, in behalf of the Terminal Railroad Association, upon request of counsel for Complainant, in regard to Bonds issued and sold, and application of proceeds. Statement of tonnage handled for account National Enameling and Stamping Company, and Granite City Steel Company, from January 1, 1904, to September 30, 1906, inclusive; and copy of agreement between W. K. Kavanaugh, for himself and his associates, and the Mississippi Valley Trust Company.

Which exhibits are marked respectively "Complainant's Exhibits 212, 213 and 214."

Complainant offers in evidence Local Passenger Tariff of the Diamond Jo Line Steamers, effective April 1st, 1900.

Above exhibit is marked "Complainant's Exhibit No. 215."

Complainant offers in evidence Commodity Tariffs of the Alton Bridge from January, 1898, to July 1906, inclusive, by months.

Which exhibit is marked collectively "Complainant's Exhibit No. 216."

Complainant offers in evidence Interchange Tariffs of the Alton Bridge from March, 1900, to August, 1905, inclusive, by months.

Which exhibit is marked collectively "Complainant's Exhibit No. 217."

Complainant offers in evidence "Abstract from the records of the St. Clair, Madison & St. Louis Belt Railroad, and the Missouri & Illinois Bridge & Belt Railroad, operating the Alton Bridge.

Above exhibit is marked "Complainant's Exhibit No. 218."

Complainant offers in evidence Passenger Tariff No. 1 of the St. Clair, Madison & St. Louis Belt Railroad Company, operating the Alton Bridge, effective February 25th, 1897.

Above exhibit is marked "Complainant's Exhibit No. 219."

Complainant offers in evidence Passenger Tariff No. 2 of the St. Clair, Madison & St. Louis Belt Railroad Company, operating the Alton Bridge, effective June 15th, 1897, and Amendment No. 1 thereto.

Which exhibit is marked "Complainant's Exhibit No. 220."

Complainant offers in evidence Freight Tariff No. 2 of the St. Clair, Madison & St. Louis Belt Railroad Company, operating the Alton Bridge, effective September 25th, 1899.

Above exhibit is marked "Complainant's Exhibit No. 221."

Complainant offers in evidence Amendment No. 1 to Freight Tariff No. 1 of the Missouri & Illinois Bridge & Belt Railroad Company, effective January 10th, 1906.

Above exhibit is marked "Complainant's Exhibit No. 222."

Complainant offers in evidence Passenger Tariff No. 1

of the Missouri & Illinois Bridge & Belt Railroad Company, operating the Alton Bridge, effective October 1st, 1906.

Above exhibit is marked "Complainant's Exhibit No. 223."

Complainant offers in evidence Freight Tariff No. 2 of the Missouri & Illinois Bridge & Belt Railroad Company, operating the Alton Bridge, effective August 20, 1906.

Above exhibit is marked "Complainant's Exhibit No. 224."

Counsel for Complainant thereupon asked counsel for the Defendants to furnish the following information from their records, in lieu of Complainant's putting witnesses on the stand to testify in regard to same:

"Ask Mr. Watts to admit that the tracks of the Merchants' Bridge Terminal Railway Company, the Terminal Railroad Association of St. Louis, and the Wiggins Ferry Company connect with each other and with the various manufacturing plants in the city, constituting at least a majority of the manufacturing and shipping industries of the town.

"Ask Mr. Watts to give the length of the tunnel.

"Ask Mr. Watts to give the number of miles of railroad and switches of the Terminal Railroad Association, as at present constituted.

"Ask Mr. Watts to admit that the dividends and interest on the bonds are a part of the fixed charges which the revenue on the Terminal Company is employed to meet.

"Ask Mr. Watts to admit that the railroads make a common rate to St. Louis and East St. Louis.

"Ask Mr. Watts to admit that when the bridge property was sold under the foreclosure to Anthony Johnson Thomas, it was sold for the sum of $2,000,000; that said An-

thony Johnson Thomas conveyed to the new Bridge Company for consideration of $5,000,000 in bonds and $2,490,000 first preferred stock, and $3,000,000 second preferred stock, and $2,500,000 common stock.

That the Tunnel property was sold under foreclosure and on July 1, 1878, conveyed to C. E. Tracy, trustee for the bond-holders, for $450,000; that on December 19, 1878, Tracy conveyed to Tunnel Railroad of St. Louis for $62,500, in money and $1,250,000 in fully paid up capital stock of the said company.

"Ask Mr. Watts for Freight Tariffs over the bridges and ferries for the years 1901 to 1905 inclusive.

"Ask Mr. Watts for coal tariffs over bridge and ferries for 1900 to 1907 inclusive."

Counsel for Complainants offer in evidence through rates of fare from St. Louis, in effect November 1st, 1904, I. C. C. 30; and Supplement No. 1 thereto, effective February 15th, 1905.

The above exhibit is marked "Complainant's Exhibit No. 225."

Thereupon, the further hearing is continued until Monday morning, December 23rd, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, December 23rd, 1907.

Met, pursuant to adjournment as above, on Monday morning, December 23rd 1907, at half past ten o'clock, when not being able to proceed with the taking of testimony in the above entitled cause, same is further continued, by consent, until Tuesday morning, December 24th, 1907, at ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, December 24th, 1907.

Met, pursuant to adjournment as above, on Tuesday morning, December 24th, 1907, at ten o'clock, when not being able to proceed, same is further continued, by consent, until Thursday morning, December 26th, 1907, at half past ten o'clock.

R. E. Rombauer,
Special Commissioner.

St. Louis, December 26th, 1907.

Met, pursuant to adjournment as above, on Thursday morning, December 26th, 1907, at half past ten o'clock, in the office of the Special Commissioner, Roe Building, St. Louis, Mo.

Present: Hon. R. E. Rombauer, Special Commissioner.

Mr. Edward C. Crow appeared in behalf of the Complainant.

Mr. Frederick W. Lehmann appeared in behalf of the Defendants.

The following proceedings were had:

In response to the request of counsel for the Complainant, counsel for the Defendants made the following statement:

"The length of the tunnel is 4,000 feet.

"The length of the main tracks of the three companies, the St. Louis Merchants' Bridge Company, the Wiggins Ferry Company, and the Terminal Railroad Association, and all subsidiary companies, is 26.06 miles; and side-tracks and switches 115.89 miles, as at present constituted.

"Railroads, since October 1, 1907, make the same rate, with few exceptions, to St. Louis and East St. Louis to and from all points located one hundred miles each of East St. Louis.

"When the Bridge property was sold under foreclosure to Anthony Johnson Thomas, it was sold for the sum of $2,000,000; said Thomas conveyed it to the new Bridge Company for consideration of $5,000,000 in bonds; $2,490,000 first preferred stock; $3,000,000 second preferred stock; and $2,500,000 common stock; this was in pursuance of the reorganization agreement of the bondholders under mortgages aggregating $11,000,000, bearing 7% interest. By the reorganization the stock of the old company was wiped out, the mortgages foreclosed, and the bonds and stock of the new company substituted.

"The Tunnel property was sold under foreclosure on July 1, 1878; conveyed to C. E. Tracy, trustee for bondholders, for $450,000, and on December 19, 1878, Tracy conveyed to the Tunnel Railroad of St. Louis for $62,000 in money and $1,250,000 full paid up capital stock of the company.

"Freight tariffs over the bridges and ferries for the years 1900 to 1907, inclusive, which also show the coal tariffs for the same years, have been heretofore furnished to General Crow. Only one copy of these tariffs is now in possession of Defendants, and Defendants desire to retain the same for its own uses. Copies of all such tariffs have been filed with the Interstate Commerce Commission.

"Coal tonnage over the bridges and ferries for the years 1901 to 1905, inclusive, is in tons as follows:

Terminal Association for 1901, 1,683,092; for 1902, 2,274,394; for 1903, 2,328,059; for 1904, 2,385,455; and for 1905, 2,316,824.

Merchants' Terminal for 1901, 334,099; for 1902, 547,782; for 1903, 535,632; for 1904, 609,037; for 1905, 787,092.

Wiggins Ferry Company, for 1901, 412,110; for 1902, 308,047; for 1903, 380,192; for 1904, 1,256,937; and for 1905, 1,166,865."

Thereupon the Complainant announced that they would close their case.

The hearing of evidence in the above entitled cause is thereupon adjourned by consent, to be resumed pursuant to agreement of parties.

R. E. Rombauer,
Special Commissioner.

71913

TRANSCRIPT OF RECORD

SUPREME COURT OF THE UNITED STATES

OCTOBER TERM, 1911.

No. 326.

THE UNITED STATES OF AMERICA, APPELLANT,

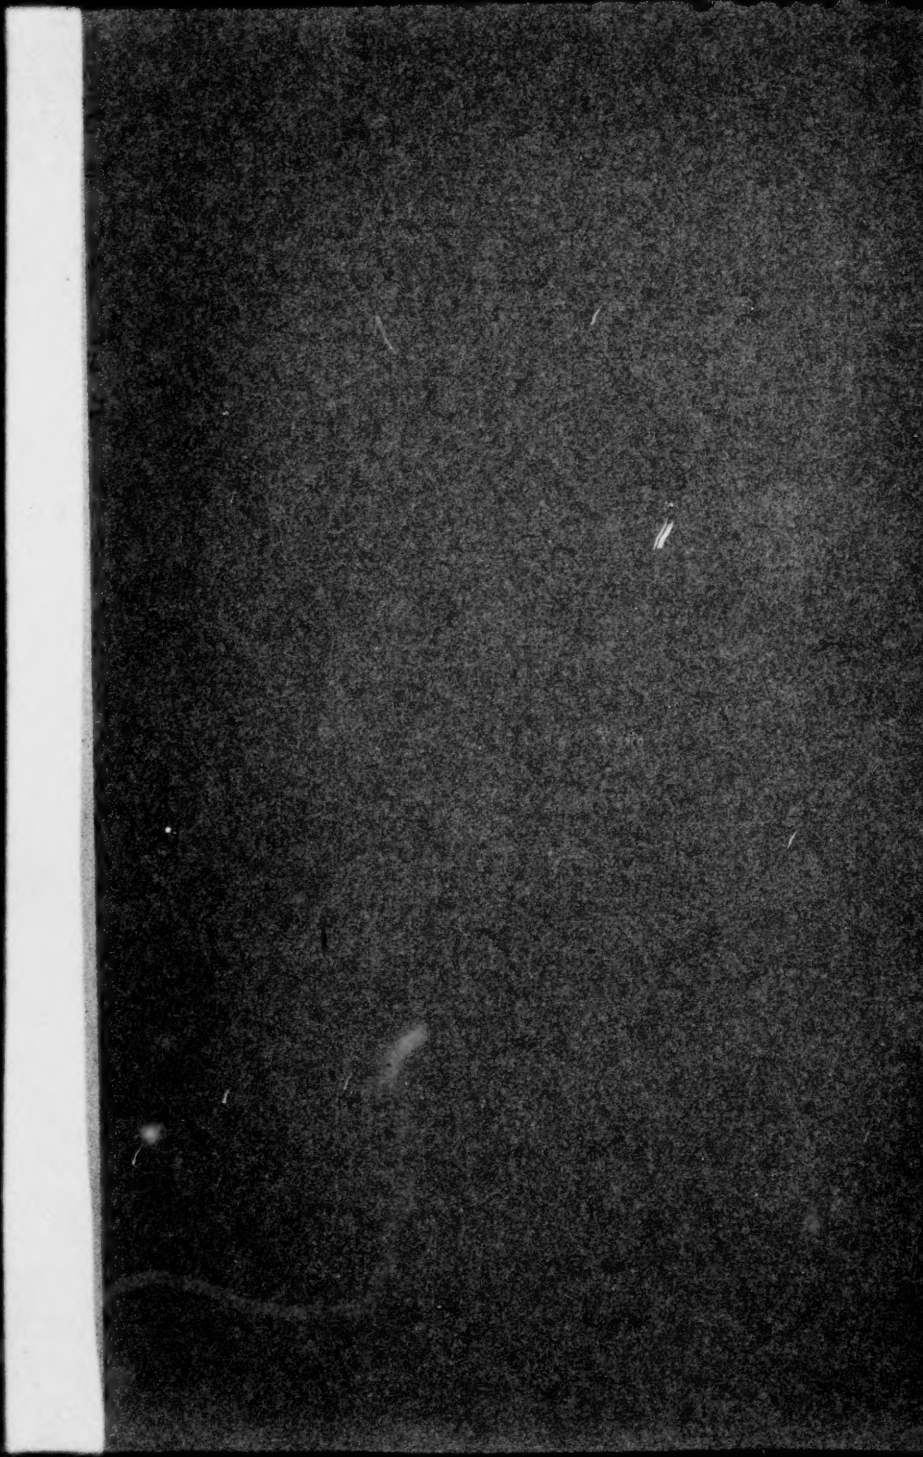
vs.

THE TERMINAL RAILROAD ASSOCIATION OF ST. LOUIS ET AL.

APPEAL FROM THE CIRCUIT COURT OF THE UNITED STATES FOR THE EASTERN DISTRICT OF MISSOURI.

FILED AUGUST 30, 1911.

(23807)



IN THE

Circuit Court of the United States of America,

For the Eastern Division of the Eastern Judicial District of Missouri.

THE UNITED STATES OF AMERICA,
Complainant,
vs.
TERMINAL RAILROAD ASSOCIATION OF ST. LOUIS, Et Al.,
Respondents.
No. A-328.

RECORD.

Vol. IV.

HENRY W. BLODGETT,
U. S. District Attorney,
CHESTER H. KRUM,
EDWARD C. CROW,
CHAS. NAGEL,
For Complainant.

J. W. Bloodgood & Co., Prs., 11 S. Third St., St. Louis.

INDEX.

Act—
- Of Missouri Legislature incorporating St. L. & Ill. Bridge Co., Feb. 5, 1864 2948
- Of Illinois Legislature, dated Feb. 16, 1865, authorizing construction of bridge 2948
- Of Congress, July 25, 1866, authorizing bridge 2948
- Of Missouri Legislature, authorizing consolidation of St. L. & Ill. Bridge Co. and Ill. & St. L. Bridge Co 2948
- Of Illinois Legislature, incorporating Illinois & St. L. Bridge Co. 2948
- Of Congress, July 20, 1868, recognizing consolidation and authorizing construction of bridge 2948
- Of Congress 2951, 2953, 2956
- Authorizing construction of Merchants Bridge 2950

Admissions by railroads 2951

Alton Bridge—Controlled by part proprietary lines 2726

Arbitrary—
- Reduction in bridge arbitrary—effect on citizens of St. Louis 2851-2852
- Voluntary agreement between Terminal Commission and Railroads as to reduction of bridge arbitrary 2872
- Up to two years ago Perkins says, collection of bridge arbitrary was a direct discrimination against St. Louis 2880-2881
- Absorbed and table of same 2886, 2890, 2891
- Practical operation of arbitrary gave E. St. Louis advantage over St. Louis so far as rate concerned 2795
- Absorption of arbitrary on business beyond one hundred mile radius; saving to St. Louis people; source of computation of saving 2919, 2920, 2921
- Reduction in arbitrary made basis of rates reasonable and just 2921, 2922

Refuses to say price paid for Ranken tract was unreasonable 2760
Says from operating standpoint it is feasible for T. R. R. A. to make practical arrangements at Cuples Station and provide for proper handling of business in Mill Creek Valley 2830, 2831
Believes adequate facilities for crossing river exist now if additional adequate warehouses and team tracks were provided on each side of the river..... 2832, 2833
Says roadway of Eads Bridge should be free..... 2833
Believes railroad companies should build an adequate railroad bridge 2833
Says ferry and bridge could handle present but not future business if proper facilities provided on both sides of river 2833, 2834
Thinks consolidation of Wiggins with T. R. R. A. enabled more systematic methods of operation..... 2834, 2835
Says he favored C., B. & Q. acquiring Wiggins property when he was with C., B. & Q. Ry..... 2835
Claims rebate to individual shippers prohibited. Common access to common terminals better for railroads 2836, 2837
Gives R. I.'s reason for willingness to pay great price for Wiggins property 2837, 2838
Says if one railroad controlled T. R. R. A. Merchants Bridge and Wiggins Ferry, any other road would have hard time getting business in St. Louis..... 2838
Says if all roads were charged same rate for haul across river there would likely be no competition in rates 2844, 2845
Cannot say what road has best equipment..... 2848, 2849
Disavows knowledge of comparative shipment from Atlantic coast points to E. St. L., between Pennsylvania and Clover Leaf 2872, 2873
In 1893 Perkins thinks Mo. Pac. could have delivered car direct from its rails on levee to Wiggins Co..... 2877, 2878
Says answer that movement there described was ordinary movement of traffic not intended to mean witness was describing usual and ordinary movement of traffic..... 2879
Superintendent of Burlington in 1904; territory confined to western half of Missouri and Iowa..... 2802

Phantom Car, how routed by Perkins..... 2867, 2868

Page

Philadelphia—
What system of railroads enter....2912, 2913
Roads have separate entrances to city and separate freight yards and tracks....2913
Property—
Some pieces of property east of 30th St. that can be purchased and used for terminal purposes, as cheap or cheaper than the Ranken tract....2761
Some property can be purchased at $3.00 per sq. ft. as far west as Grand Ave., south of Mo. Pac. & Frisco tracks, in Mill Creek Valley....2762
Perkins admits fifty acres of property might be acquired in Mill Creek Valley for terminal use, between 7th and Gratiot and Grand Ave. or 36th St....2763
Amount per sq. ft. paid for property for terminal purposes recently....2778, 2779
Ranken property leased on $3.00 per sq. ft. valuation and 5 per cent on said valuation....2781
Storage for passenger cars adjacent to Union Station now occupies 35 acres in Mill Creek Valley....2782
Property available for Merchants and Terminal Co. on both sides of Mill Creek Valley, between 12th and 16th streets....2783, 2784
Amount and location of property in Mill Creek Valley that Terminal could buy and use for terminal property....2784, 2785, 2786
Sufficient room to handle business on east end of Mill Creek Valley of commerce that could be obtained in neighborhood of the present warehouses....2787
On the south side of Mill Creek Valley, south of Merchants Terminal, plenty of vacant room for extensions for some years to come....2823
Proprietary lines, 16 in number, in St. Louis....2839
Supplemental agreement of proprietary lines....2951

Railroads—
Twenty-eight in St. Louis....2839

Wiggins Ferry—
In 1902, when Wiggins Co. was bought by T. R. R. A. Wiggins rails reached more private industries than T. R. R. A. rails, and Wiggins' facilities covered more territory, but had less team track....2746
Wiggins Co., in 1902, had more direct and complete connections with railroad companies than T. R. R. A....2746
In 1902 all west side lines could reach Wiggins' rails for the purpose of east side business....2747, 2748
Wiggins and Merchants companies independent carriers and not agents merely of individual roads before consolidation in 1903 2754

Page

Before consolidation in 1903, Wiggins had connection with every railroad in E. St. Louis, Ill.....2862
Wiggins could deliver freight direct to all roads in St. Louis except the Frisco and Colorado roads.....2862
Wiggins could handle, with one intervening movement, traffic from west over Mo. Pac. road destined any east side road 2874, 2875
Wiggins route was practical and speedy for traffic crossing river 2875

Washington—
Act of Congress authorizing erection of passenger station in Washington, D. C. 2915
Not manufacturing city 2915

Yards—
Storing, assembling and distributing should be owned by each railroad 2621
Extensive yards for making up, breaking up and storage recently provided on both sides of river by railroads...2871

St. Louis, Mo., April 6th, 1908.

Met, pursuant to adjournment as above, on Monday, April 6th, 1908, at the office of the Special Commissioner, Honorable R. E. Rombauer, in the Roe Building, in the City of St. Louis, Missouri.

Present: Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Government.

Messrs. H. S. Priest and M. F. Watts appeared in behalf of the Defendant.

By consent a further adjournment was made to Monday, April 13th, 1908, at 9:30 a. m.

R. E. ROMBAUER,
Special Commissioner.

St. Louis, Mo., April 13th, 1908.

Met, pursuant to adjournment as above, on Monday, April 13th, 1908, at 9:30 a. m., in the office of the Special Commissioner, Honorable R. E. Rombauer.

Present: Messrs. E. C. Crow and Chester H. Krum, appeared in behalf of the Government.

Messrs. H. S. Priest and M. F. Watts, appeared in behalf of the Defendant.

The following proceedings were had:

ALBERT T. PERKINS, a witness of lawful age, being duly produced, sworn and examined on the part of the defendant testified as follows, to-wit:

DIRECT EXAMINATION BY MR. HENRY S. PRIEST.

Q. What is your name? A. Albert T. Perkins.
Q. You reside in the City of St. Louis? A. I do.
Q. How long have you resided in the City of St. Louis?

A. I have been here a little over two years this time. Prior to that, however, I had been here a little over ten years. I have resided in St. Louis about twelve and a half years altogether.

Q. You are familiar with the topography of St. Louis and vicinity? A. Yes, sir.

Q. What is your present occupation? A. I am Adviser to the Municipal Bridge & Terminal Commission of the City of St. Louis and also managing executive of the St. Louis, Brownsville & Mexico Railway.

Q. Have you ever been in the railroad service? A. I have been in the railroad business all my life, ever since I was twenty-two years old.

Q. What is your present age? A. Forty-two. I have been in the railroad service over twenty years.

Q. What is the Municipal Bridge & Terminal Commission? A. That is a commission of nine members, of which the Mayor is Chairman, and the President of the Board of Public Improvements a member, and seven citizens appointed by the Mayor, and under an ordinance of the Municipal Assembly, to examine into St. Louis bridge and terminal conditions and to advise as to what part the citizens and what part the city should take in correcting any hinderance to the commerce of St. Louis that might be found arising from bridge and terminal conditions, and to recommend necessary legislation in regard thereto.

Q. Do you recall the number of the ordinance under which this Commission was created? A. That is a matter of public record, shown on all the reports of the Commission.

Q. Was it Ordinance No. 22,026? A. Yes, sir.

Q. You say the Mayor of the City of St. Louis, the Honorable Rolla Wells, is Chairman of that Commission? A. He is.

Q. And the President of the Board of Public Improve-

ments, Mr. A. J. O'Reilly, is also a member of that Commission? A. Yes, sir.

Q. Mr. Robert H. Whitelaw is Vice-Chairman? A. Yes, sir.

Q. And Joseph D. Bascom, C. W. S. Cobb, R. S. Colnon, Homer P. Knapp, Hugh McKittrick and R. W. Shapleigh, are the other members? A. They are all members.

Q. And you and Mr. Robert H. Moore were appointed advisers to the Commission, were you? A. Yes sir. Mr. Moore is not at present with the Commission. He was employed in an advisory capacity in connection with bridge matters, and for nearly a year there has been little physical work done in connection with the bridge matters, for which we have not already been supplied with data; and, therefore, Mr. Moore for the time being, that is for the past year, has not been in the service of the Commission.

Q. Prior to that time he was? A. Yes, sir. I said "a year." I should say, perhaps, ten months.

Q. By whom were you and Mr. Moore appointed as advisors to the Commission; by members of the Commission? A. We were appointed by the members of the Municipal Bridge & Terminal Commission. They appointed a committee to make arrangements with me, and that arrangement was approved, as shown on their minutes, at certain meetings of the Commission.

Q. After your appointment, either individually or in association with Mr. Moore, what did you do? A. There were two classes of work that were taken up: one was the matter of freight charges and conditions surrounding the billing, the receipt and delivery of freight, as affected by bridge and terminal conditions; and the other was the matter of the physical development of St. Louis terminals.

In connection with that latter phase of the question, we made some quite thorough investigations of St. Louis ter-

minal conditions, going carefully over the ground, with which both of us had previously been thoroughly familiar.

Mr. Moore and I made a trip together over the largest terminals of the United States, and looked into their facilities quite thoroughly. Later I made a trip alone over a number of the principal European terminals, in order that we might combine, so far as we could, methods that would have application to St. Louis conditions or that would be desirable to apply to St. Louis conditions.

Q. You say you went over and examined the St. Louis terminals? A. Yes, sir.

Q. What do you comprehend in the use of the word "terminals" for "St. Louis terminals?" A. All the track, warehouse and railroad facilities by means of which the railroad companies interchange or transact their business with the public, in the way of collecting and distributing freight, and in connection with which they make up and distribute their trains, both freight and passenger; and all facilities in which passengers are received and discharged, within what might be called "the commercial district" of a city.

Q. Are you familiar, by segregation, with what was commonly called the Terminal Railroad Association of St. Louis system, the St. Louis Merchants Bridge Terminal Railway system, and the Wiggins Ferry system? A. I am; yes.

Q. Do you comprehend all of those in the meaning of the term "St. Louis terminals?" A. I do.

Q. Do you regard all those different lines as a unit in the meaning of that term "terminals?" A. Yes, sir.

Q. Take the St. Louis Merchants Bridge Terminal Railway system: can you define, in a general way, that system separated from the other parts of terminals of St. Louis? A. The St. Louis Merchants Bridge Teminal Railway system would naturally be considered to include the Merchants Bridge to start with, the approach on the west side, the

small yard at Bremen avenue, connection through property in the neighborhood of Angelica street with the Chicago, Burlington & Quincy Railroad and the double tracks running down Hall street and a portion of Main street. Later that was connected with the Elevated Railroad system running around to the Mill Creek Valley. It was later connected with the Belt Line, some years ago, running around the west part of the city.

Q. At the north? A. At the north. It also made a few years ago an extension into the St. Louis Car Company's plant at Baden. Some of that has been a development of the last few years.

Q. Did I understand you to include within the terminals of St. Louis the terminal facilities in East St. Louis as well? A. I certainly should. I should regard St. Louis and East St. Louis, and the manufacturing towns immediately north of East St. Louis as one commercial and manufacturing district, which necessarily must be treated as a whole. The business is transacted in such an interchangeable way that it would be impossible to separate as a terminal proposition, I should say, the two sides of the river here.

Q. I have asked you to define the Merchants Bridge Terminal system as separated from the other associated systems of St. Louis and vicinity.

I will now ask you to define the terminals of the Merchants Bridge system in East St. Louis? A. They consist of a Belt Line—The Madison, Illinois & St. Louis Railway—connecting with the several lines at the north end of East St. Louis, Granite City and Madison, with the line down to the Stock Yards, and a line connecting them to the East St. Louis Belt Line of the East St. Louis Terminal Railroad Association.

Q. Now, answer my question in regard to the system of the Terminal Railroad Association, both on the east and

west sides of the river at St. Louis. A. The system of the Terminal Railroad Association of St. Louis proper would consist in the first place of the Eads bridge, on which it has a lease, the tunnel running from the Eads bridge to Eighth street, down through Eighth street to the Mill Creek Valley. The Union Passenger Station property between Eighteenth and Twentieth streets; the freight stations between Tenth and Twelfth streets, south of Clarke avenue; and yards of various kinds for team track purposes, switching, car cleaning, storage, etc., between Twelfth street and Compton avenue, in the Mill Creek Valley. The Terminal Railroad Association of St. Louis also has in construction a belt line, already completed from a point a short distance south of the Clayton road, around the west side of the city down to a connection in North St. Louis with the St. Louis Merchants Bridge Terminal Railway.

On the east side of the river, it has the East St. Louis Belt Line, and owns at present, by lease or purchase, the Illinois Transfer Railroad and the Conlogue road running down on the east side of the river to a point opposite Carondelet.

Various connections on the east side with all east side railroads; connections into the Relay Station at East St. Louis and yards just north of there, machine shops and engine round houses, car repair yards just north of East St. Louis, and connection into the National Stock Yards.

Q. You may describe, in a similar manner, the Wiggins Ferry Terminal system in St. Louis. A. The Wiggins Ferry Company owns a system of transfer boats across the river, with inclines at several points on both banks of the river. That system, as you might call it, controls the St. Louis Transfer Railway, which extends about seven miles from Grand avenue down through Hall street and along the river bank to Arsenal street in the southern part of the city; yards at the south end and also at Mound street, for making

up and distributing cars; some six hundred yards of team track room. On the east side it owns the East St. Louis Connecting Railway, with almost exclusive control of the property, from a point adjoining the Southern Railway Company's yards, just north of the Pittsburg dyke to a point a considerable distance above the Eads bridge—about half the distance between the Eads bridge and the Merchants bridge.

The East St. Louis Connecting Railway connects with all railroads running into East St. Louis on the river bank, and it has some yards at the south end of its property. It also has connection with the Terminal Belt Lines at East St. Louis.

Q. All of these properties which you have described in detail are embraced within the definition of "St. Louis terminals?" A. They are a part of it; yes, sir. They are embraced within the limits.

Q. And are there any other terminals outside of those systems that you have described? A. Oh, yes; a good many.

Q. What? A. There is on the east side of the river the Venice & Carondelet Belt, a line which has a number of industries located on it and has some connections. On the west side of the river there is a small terminal property called The Manufacturers Railway, which has yards principally for the benefit of the brewing interests in South St. Louis.

Q. What brewing interests? A. The Anheuser-Busch Brewing Association principally, although they do some work for others, too.

I should also embrace in answer to that question the individual terminals of all the individual lines.

Q. You mean to say that each line has its own yard or depot? A. Each line has to a certain extent its yards and depots. All lines have yards for making up or breaking up

of their own trains to start with. They have their yards for interchange purposes. They all have one or more freight stations and team yards for the conduct of their business, in certain portions of the district. I say "district" because some of them have these facilities in East St. Louis, some in North St. Louis and some in South St. Louis.

Q. During the time you have been employed in St. Louis, by whom were you employed and what were your duties? A. I was employed the greater part of the time by the Chicago, Burlington & Quincy Railroad. I was superintendent here for a number of years.

Q. How many years? A. Well, I was superintendent I should say about five years. I was here in some other capacities, too.

Q. Do you know the extent of the first terminals in St. Louis?

What I would like to have you do is this: Describe the development of the terminal system in St. Louis from its earliest commencement.

Mr. Krum: Has he personal knowledge of all that?

Mr. Priest: He has some personal knowledge and some historical knowledge.

Mr. Crow: History will speak for itself. Let him give his personal knowledge.

A. My knowledge of that before 1890 would be entirely a matter of investigation of records, etc.

Mr. Priest: Tell the sources from which you got it. Give us your personal investigation and knowledge.

A. I would say my personal knowledge of St. Louis terminal conditions began in 1890. At that time the present Terminal Railroad Association of St. Louis had just been formed. I am pretty familiar with that from the fact that for the years following that time the Chicago, Burlington & Quincy Railway Company, with which I was connected, had quite extensive negotiations as to what its relations to

the Terminal Railroad Association of St. Louis should be. I, therefore, was familiar with the form of the organization and the way in which it was brought about.

Q. State that, please. A. The Terminal Railroad Association of St. Louis was organized in 1889 to take over the old Union Railway and Transit Company and the St. Louis Terminal Railroad property and to acquire for the benefit of a number of railroads the leases of the Eads bridge and the tunnel that were at that time in the possession of the Missouri Pacific and the Wabash railways.

The Missouri Pacific and the Wabash and the Iron Mountain railways being practically all there was here in the way of St. Louis railroads coming in on this side of the river. The Chicago, Burlington & Quincy Railway came in at that time over the Wabash tracks. The Missouri, Kansas & Texas Railway did not come in here at all.

These properties then in control of the Missouri Pacific and the Wabash roads, were taken over by a terminal company with the intention that they should be shared equally by all the roads that wanted to come in here and use them. And from that time I should place the real beginning of the development of a terminal system in St. Louis.

Q. At that time what physical properties were constructed and in operation and owned or controlled by the Terminal Railroad Association of St. Louis? A. Those owned and controlled by the Terminal Railroad Association of St. Louis at that time were simply the bridge and tunnel, the old Union Depot property at Twelfth street, and some team tracks and sorting and assembling tracks in the neighborhood of the Union Depot, owned by the Union Railway & Transit Company and the Terminal Railroad Association of St. Louis.

Q. Can you point out on the map there the lines acquired by the Terminal Railroad Association of St. Louis when it was first organized? A. You mean those in 1889?

Q. Those that were in existence at that time.

NOTE: The witness here examines map heretofore offered in evidence and identified as the "Pitzman map."

A. Those that were in existence at that time were the Eads Bridge line, the tunnel through Eighth street, coming out in the neighborhood of Spruce street, the Union Railway & Transit Company, connecting with the tunnel and running up through the old Union Depot, which was located at Twelfth and Popular streets.

Q. Up to Twenty-first street? A. It extended to beyond Eighteenth street, I think, not quite to Twenty-first street.

Q. What on the east side of the river do you recall? A. My recollection is it consisted of the Union Railway & Transit Company of Illinois, and, I think, the Terminal Railroad Association of St. Louis immediately built some additional tracks to the Terminal Railroad of East St. Louis. I think they built those about that time.

That they had no further property than that at that time, is my recollecion, when they started in business.

Q. Did the Terminal Railroad Association of St. Louis system as it existed at that time, connect with any lines on the west side of the Mississippi River, except the Missouri Pacific and the Wabash railways—I mean directly? A. There were not any others to connect with.

Q. The Frisco? A. They did not get very far into St. Louis with that line. There was quite a little gap in there. I think they had no connection with them at that time.

Q. Those were the only two lines that immediately connected? A. Yes, sir.

Mr. Crow: In the Missouri Pacific Railway you include the Iron Mountain Railway? A. Yes, sir; I think I said in the first place, including the Iron Mountain.

Mr. Priest: Q. Did the Iron Mountain Railway at that time have any physical connection with the terminal tracks

of the Terminal Railroad Association of St. Louis? A. I think not, at that time.

Mr. Crow: Q. The Poplar street track? A. I think that was connected later.

Q. Didn't it come into the Union Depot? A. If I understand your question, it was this: Whether the Iron Mountain Railway had a connection independent of the Missouri Pacific Railway in there. Was that the question?

Mr. Priest: Q. Yes. A. I don't think the connection was independent of the Missouri Pacific Railway at that time; that is my recollection of it.

Q. What connection did the Terminal Railroad Association of St. Louis have with the railroads on the east side of the Mississippi River, at the time I allude to? A. My recollection is that it had not at that time acquired a connection with either the Illinois Central Railroad or the Mobile & Ohio Railroad, but had to do any business with those two roads over an intermediate connection. I shall have to say that is my recollection. I have not looked into the question recently; but that is my recollection that they had not at that time acquired a connection with either the Illinois Central Railroad or the Mobile & Ohio Railroad.

Q. Since that time what railroads have been built into St. Louis? A. Into St. Louis proper, the Chicago, Burlington & Quincy Railroad has been built in, and the Missouri, Kansas & Texas R'way. has come in here over the Chicago, Burlington & Quincy Railroad Company's tracks.

The Rock Island Road has acquired the old Colorado Road, and is now a St. Louis line. It has completed that into St. Louis.

If you require also the roads that are constructed, of course, the St. Louis, Memphis and Southeastern Road was also built in, but that was absorbed by the Frisco on the west side of the river.

Q. What roads on the east side have built in since then?

A. The St. Louis, Peoria & Northern Road was built into East St. Louis, and then its interests divided up between the Chicago & Alton Railroad and the Illinois Central Railroad.

So with the Valley line, which was called the St. Louis & Valley Railroad, which was built from East St. Louis to Cairo, down the river, which was bought by the St. Louis, Iron Mountain & Southern Railway Company, and is now operated as a division of the St. Louis, Iron Mountain & Southern Railway.

The different trunk lines running into East St. Louis have changed, more or less, their lines in there, but the main lines into East St. Louis are as they were in 1889, generally.

The Ohio & Mississippi Railroad, then so-called, has been changed into the Baltimore and Ohio-Southwestern Railroad, controlled by the Baltimore & Ohio Railroad.

The Louisville, Evansville & St. Louis Railway is now a part of the Southern Railway.

This line has been changed and its terminals enlarged, and that line controls the old Venice & Carondelet Railroad.

There have been a lot of changes in the arrangements of the roads into East St. Louis, but other than those changes the new roads are simply coal carrying roads like the St. Louis & O'Fallon Railroad and the St. Louis, Troy and Eastern Railroad and the St. Louis and Belleville Electric Railroad, and the St. Louis, Belleville & Southeastern—I believe that is what it was called. Those are very large coal-carrying roads built in there that do very little business except a coal-carrying business.

Q. What additional terminals have been built since the organization of the Terminal Railroad Association of St. Louis? I speak now, to be more specific, of both St. Louis and East St. Louis? A. In the first place, the lines of the Terminal Railroad Association of St. Louis have been ex-

tended west to Compton avenue. The new Union Station has been built. Extensive yards were put in east of Eighteenth street and east of Compton avenue. Freight stations were built between Tenth street and Twelfth street, engine houses were put up on a part of the site of the old Union Depot in the neighborhood of Twelfth street. A belt line running around the west part of the city, not quite completed yet, although the grading is nearly finished, has been built by the Terminal Railroad Association of St. Louis proper.

The Wiggins Ferry Company got a charter, or rather, the St. Louis Transfer Railway got a charter in 1884, or somewhere along there, to build a line along the river bank and put its line into operation, I think, in the same year the Terminal Railroad Association of St. Louis was organized, that is to say the year 1889. It was within a year of that time, and I am quite sure it was in 1889. They put into operation some eight (8) miles of line along the river bank, connecting with their boats.

Mr. Crow: Which bank? A. On the west bank. I am describing the west bank first.

They gradually built their yards in the neighborhood of Mound street, which have been added to from time to time, even during the past year, extending from North Market street down to Ashley street, and also extending their yard room in the neighborhood of Miller street and Lesperance street, down in the south end of town.

The Merchants Bridge had been built. The Merchants Bridge started in to build a short section of belt line and some facilities. That, however, was abandoned at the time, for want of money to carry it on and for want of any transfer business in sight, to pay any return on the investment. There was trouble in connection with that.

Shortly after that was started, the north approach was

torn down, as it seemed unlikely anything would be done with it for some time.

An extension was also built from Main street by means of the elevated road around the levee and up to the neighborhood of Gratiot street, coming to the surface in the neighborhood of Eighth and Gratiot street. That was supplemented a little later, after the building of the new Union Station and lease to the Terminal Railroad Association of St. Louis of rights of use of the Merchants Terminal, in order that the connection might be made into the new Union Station by an elevated track going over the top of the Missouri Pacific and Frisco freight houses, and coming down to the Terminal Railroad Association tracks. That was brought about partly by the pressure of the Chicago, Burlington & Quincy Railroad Company, to get into the Union Station, in a convenient way.

The Chicago, Burlington & Quincy Railroad Company up to that time had to bring its trains into the Mill Creek Valley over the Wabash Railway Company's tracks from the west, and an arrangement was made whereby the Chicago, Burlington & Quincy, and the Missouri, Kansas & Texas, and the St. Louis, Keokuk & Northwestern, the last one being afterwards absorbed by the Chicago, Burlington & Quincy Railroad Company, guaranteeing quite a large rental charge, in order that that connection might be built into the Union Station.

I might add that the Chicago, Burlington & Quincy Railroad coming into North St. Louis, built from 1892 to 1894 quite large terminals at North St. Louis for the use of itself and the Missouri, Kansas & Texas Railway.

They were rather isolated, entirely isolated at that time, from Mill Creek Valley, and much of the middle and south part of the City of St. Louis, and had no connection with the Terminal Railroad Association property. It was largely their pressure, in connection with getting a connection with

the Terminal Railroad Association of St. Louis, that brought about the building of this extension of the elevated line.

I do not know that you would care to have mentioned a lot of miscellaneous extensions, made up of individual lines and their terminals, all about St. Louis. A good many of them have grown on a very large scale. The only thing that might now be necessary, if I am supposed to make this fairly complete, is to mention the acquirement by the Terminal Railroad Association of St. Louis of the interests of the Wiggins Ferry Company, and of the St. Louis Transfer Railway Company properties.

Arrangement was made whereby the tracks down through Hall street and Main street were entirely re-arranged to provide for through passenger train service from the Merchants Bridge, without getting tangled up, as it was all the time previously, with the freight switching going on on both sides of Hall street.

At that time the Wiggins Ferry Company, rather peculiarly, kept its rights to tracks in the middle of Hall street, and crossed from those tracks into industries all along on both sides, as they were in there long before the Merchants Bridge Terminal Railway, and the Merchants Bridge Terminal Railway coming down in there on those two tracks had to go outside the Wiggins Ferry Company's tracks and cross a large number of these industrial tracks and it made a very difficult proposition to get passenger trains, or any other kind, through there without delay.

Those, I think, are the main features of the development on the west side of the river.

Q. So, practically all the Merchants Bridge Terminal Railway system was built after the Terminal Railroad Association of St. Louis had been organized? A. There was practically nothing but the bridge and the line to Gratiot

street at that time. They had made a start on other facilities, but it was abandoned and almost nothing done.

Did you intend that I should go over all those on the east side, too?

Q. Yes. But particularly about this Hall street: What was the situation there, at the time the Terminal Railroad Association of St. Louis acquired an interest in the Merchants Bridge properties? A. Well, there were two tracks part way down Hall street and one down Main street from North Market street to Biddle street. As I stated, they had to take what was left after the St. Louis Transfer Railway had taken up the center of Hall street, and put spurs out in all directions, all along and through Hall street from North Market street north to the different lumber yards, rendering works and other industries located along up there.

Q. Which rendered it possible to run through passenger trains from the Merchants Bridge to the Union Station? A. Yes, sir. At that time the Chicago, Burlington & Quincy Railroad Company, with which I was then connected, in order to get around and into the Mill Creek Valley, had either to run over the St. Louis Transfer Railway Company's tracks to a connection with the Iron Mountain Railway, and then up and through the Missouri Pacific yards and up Poplar street, over a three per cent grade, and over the Missouri Pacific tracks into the Terminal Railroad Association yard, or over the Wabash Railroad Company's tracks and over the Iron Mountain Railway Company's tracks, and from there on the same process.

Q. Why was it desirable to run passenger trains through Hall street and over the Merchants Bridge from the Union Depot? A. That has seemed quite desirable for some of the lines running out of the north end at St. Louis, and also to avoid the tunnel. Some roads have thought it advisable to go six or eight miles, or even more, out of the way in order to avoid the tunnel with their most important trains.

Q. What tunnel? The one used in connection with the west approach of the Eads Bridge? A. Yes, sir.

Q. Because of the discomfort produced by the smoke? A. Yes, sir.

Q. And the fumes of the engines in the tunnel? A. Yes, sir.

Q. What have been the developments generally—I do not speak particularly—on the east side of the river and terminals since that time? A. The East St. Louis Connecting Railway had tracks over there prior to 1889. The Terminal Railroad Asociation of St. Louis built the Illinois Transfer Railway and the East St. Louis Belt Railroad on the east side of the river, connecting all the lines over there; and built new yards for the general interchange of traffic; built a joint station for the handling of passenger traffic at East St. Louis; and also acquired the East St. Louis & Carondelet Railway running down to a point opposite Carondelet.

I think I have already outlined the number of additional roads that come in there, and the individual roads have built very large additions to their properties since that time. They have built outer yards.

Q. For their own use? A. Yes, sir; for making up and breaking up trains.

Q. What has been the growth in the railroad tonnage in the City of St. Louis in the past fifteen or twenty years? A. It has been practically doubling at the rate of once every seven years for some years, now—or about on that basis.

Q. Have you recently prepared a schedule showing the increase in tonnage by rail in St. Louis and East St. Louis? A. Yes, sir.

Q. Does this paper which I hand you represent the result of your investigation into that question? A. (After examining paper handed him.) This is a table compiled from figures that are furnished weekly to the Merchants Exchange

by all railroads, and I compiled them for a period from 1886 up to date.

Q. And those tables show that the tonnage of St. Louis has doubled every seven years?

Mr. Crow: That is objected to, as to what the tables show. It will speak for itself. When the tables are offered in evidence I want to inspect them and may have some objection to make.

A. I would answer that I figured that out and published a statement two years ago, which shows that within the previous seven years the tonnage had almost exactly doubled.

The gross in 1906, was, after that, the largest gross figures in tonnage that there had been in the history of the city.

The gross last year was not quite as great, because it fell off quite materially during the last two or three months of the year. The first part of the year was quite heavy.

Counsel for defendant offers in evidence the paper identified by the witness.

The paper referred to is marked "Defendant's Exhibit No. 1."

Defendant's Exhibit No. 1 is in the words and figures following, to-wit:

Mr. Crow: Q. Do you, personally, know that these figures are correct?

A. When you ask me that question, I would say they are based on figures furnished by all the different railroads. I do not know whether they add up their figures correctly or not. Nobody could know that. It would be absolutely impossible. I know they come from authentic sources.

Q. You have their statement for it? A. Yes, sir.

Q. Personally, you have no knowledge as to the authenticity of the figures? A. I know they were furnished by the railroad companies.

Q. That is not what I asked you. You, personally, have

no knowledge of the correctness of the figures furnished by the railroads? A. No, sir. I have not gone over their books.

Q. Is this part of the official report of the Bridge & Terminal Commission? A. Yes, sir, I think that is a part of the last report.

Mr. Crow: We make formal objection that it does not show it is an authentic report of the tonnage, being a mere statement of the railroads, and is not the best evidence.

A. As I say, it was compiled from weekly statements furnished from week to week, and checked each week, and furnished separately from week to week by the different railroads to the Merchants Exchange.

Mr. Priest: Q. Please state, Mr. Perkins, whether the terminals of the Terminal Railroad Association of St. Louis reach the same places as the terminals of the Merchants Bridge Terminal Railway and the Wiggins Ferry Company, on either side of the river—I mean reach the same connections?

A. No, sir. In general they serve rather separate sections and interests.

Q. In what part of the City of St. Louis do the terminals of the Terminal Railroad Association of St. Louis lie? A. The Terminal Railroad Association of St. Louis terminals occupy mainly certain parts of the so-called Mill Creek Valley; that is really the business center of St. Louis, Missouri.

Q. What part does the Merchants Bridge Terminal Railway Company's lines occupy? A. The Merchants Bridge Terminal Railway lines occupy principally certain portions of North St. Louis and Baden at the present time.

I should have said one thing before: I think the Belt Line around the west of the city should properly be regarded as part of the Terminal Railroad Association of

St. Louis system. I intended to say that. That, of course, gives connection into a large district west of the city.

The Merchants Bridge Terminal Railway after the extension made, as I have said, in order to get into the Union Depot and into the Mill Creek Valley, connected into a small team track yard at Gratiot Street, between 8th and 10th Streets. They had just two or three tracks there at first. It has been extended somewhat during the last year. That, however, was afterwards. The yard extensions were all built under the direction of the Terminal Railroad Association of St. Louis and not under direction of the Merchants Bridge Terminal Railway Company. That, is, however, a part of the Merchants Bridge Terminal Railway Company's property.

Q. That serves the industries in North St. Louis on the west bank of the Mississippi river down as far as that connection with the Terminal lines by the elevated track? A. Yes, sir.

Q. And the Wiggins Ferry System: What territory does that serve? A. The Wiggins Ferry System, that is the St. Louis Transfer Railway, serves the territory along a lower level, practically along the Levee front from Grand avenue away down nearly to the Arsenal. That serves a territory for the most part east of the Merchants Bridge Terminal Railway, east and south of the Merchants Bridge Terminal Railway properties. The Merchants Bridge Terminal Railway connection to the elevated is through Main street, on a comparatively high level.

Q. Would there be room in the Mill Creek Valley for an additional Terminal System? A. No, sir, I should say not. It is only with great difficulty that room is found at the present time for the necessary extensions to the present terminals to keep pace with the growth of their business.

Q. How about the territory occupied by the Merchants Bridge Terminal Railway property. Is there room there

for an additional terminal system? A. It might be said there is, to a limited extent. There are certain territories into which additional tracks could be built. There is some land at North St. Louis, especially north of Grand avenue. That has not all been taken up as yet, and some is still available. There is very little room for any large yard, however, for making up trains, etc.

Q. But taking the route all the way through, is there room for an additional, independent, terminal system? A. I should say not, without causing a great deal of damage and confusion. Damage to the present business interests, and confusion in the operation of the business.

Q. How about the Wiggins Ferry System: Is there room there for an additional system? A. No, sir, except for isolated tracks. The only possible room in that region would come from change in the harbor line and extension of the levee front. And further tracks built there, through what you might call the "throat" of that system, in the neighborhood of between say Carr and Ashley streets, or between Carr and O'Fallon streets, perhaps it would be better to say, could only be built through there by an elevated structure, or by going through tremendously expensive buildings, and buildings of a very permanent nature, like the Union Electric Light & Power Company's building and the Cold Storage Company's building, etc., which practically block off any further extension right in that place.

There are outlying districts to the southwest, and far out in the Mill Creek Valley, where there is still room for some railroad facilities, but not a very large proportion of the business.

Conditions under which I am saying these things, have changed so much that it makes it more difficult to build terminal tracks into the city than formerly. I think it is generally admitted that there should be no further terminals

built into the city, allowed to cross at grade on streets that are open to any considerable amount of traffic.

Q. Naturally and topographically, into how many terminal districts is the city of St. Louis divided? A. I have usually divided it, for my own purposes, into four districts. In doing so I call East St. Louis part of St. Louis, or the St. Louis business district.

Q. Call it that? A. I have divided it into North St. Louis, South St. Louis, Mill Creek Valley, and East St. Louis, including in East St. Louis, Madison, Granite City, Brooklyn and Venice.

Q. Why do you so divide it? A. It divides that way naturally, for topographical reasons. It is perfectly evident what causes the division between East St. Louis and St. Louis, the river and the state line. The Mill Creek Valley and North St. Louis bottoms, one might say, and the South St. Louis comparatively level area form three natural divisions for railroad purposes, and they form three separate groups of manufacturing and business interests here, too.

Q. Intervening between North St. Louis and the Mill Creek Valley is a comparatively hilly and elevated territory, isn't there? A. Yes, sir, we found it very much so when we proposed a line for the Chicago, Burlington & Quincy Railroad down through 19th street.

Q. The same condition exists between the Mill Creek Valley and South St. Louis? A. Yes, sir.

Q. What you call the Mill Creek Valley is the valley of a stream running into the Mississippi river from the west. A. Yes, sir. That originally was a stream. I never saw the stream, but that is historical, I suppose. I take it for granted that there was one there. At any rate, there is a great volume of sewage goes down there, more than the present sewer is capable of carrying.

Q. You say these districts are divided into three separate and distinct manufacturing districts. In what respect? A.

I say the manufacturing interests have, in a way, grouped themselves into three separate and distinct parts in these three different parts of the city. They have naturally settled into three groups that are accommodated by what are three sets of railroad terminals.

Q. That is to say, a manufacturing interest is located in one or other of those three divisions, the Mill Creek Valley, or North St. Louis, or South St. Louis, to get the benefit of the terminals there? A. That has been the tendency. That does not mean they are all located there, because some are located a long distance from the railroads. But there are three very perceptible groupings there.

Q. Tell me, if you please, the advantage or disadvantage in having all of these terminals which you describe, under a single control and management.

I desire you to answer now with respect to the operating service, as well as to the convenience of the traffic of the city of St. Louis.

Mr. Crow: We object to the question because it calls for a mere expression of opinion, while the facts as to the operation and the results of operation are really primary evidence, and opinion of the witness on this question is wholly immaterial.

A. It is my opinion, from many years' pretty close study of terminals in a good many places, that a really satisfactory system of terminals for any large city which is served by a considerable number of railroads, must be an arrangement whereby all the railroads can reach on practically even terms all the business divisions of that city. And where the manufacturers and merchants located in each of the business parts of that city will have free access to all those railroads.

That is, that the merchants and manufacturers of the city can not carry on their business in a broad way, if they have convenient access to only one of perhaps fifteen or twenty or more railroads. The business of most of them is dis-

tributed all over the country, and that of the receivers comes from a good many different sources. Consequently it is very important to the business interests of a city, that all the merchants and manufacturers shall have some means of access, without going to expensive teaming service, long hauls, inconvenient locations, to all of those railroads.

And, conversely, if all of the railroads are going to compete for the business of a city they must, under present conditions, have access to all the business localities. If one railroad company monopolizes favorable terminal locations, that has been in the past, I should say, one of the greatest factors in the conditions that brought about discriminations and demoralized service for this reason; if a half dozen lines, for example, are doing business between St. Louis and New York, taking the first example that occurs to me, and one of those lines has terminals extending right into the heart of the city where the business to and from New York is handled, and the other roads cannot get there, except under some disadvantage, one or other of two things has happened in the past: either the other roads have gone without the business or they have paid for it in some way, either by rate allowance or by absorption of switching charges or absorption of cartage charges. And since the passage of the Interstate Commerce Law, or since that has been made thoroughly effective, the opportunities of railroads that have not had the first chance, so to speak, at property, or had not originally the foresight to extend their lines into the portion of the city where business had developed, have been very much diminished.

So it has seemed to me that, under present conditions, where the business of the railroads has come down more and more to the straight transportation of the goods from one place to another, some arrangement must be made whereby all can do business everywhere in a large city.

And it seems to me that has been the general tendency

and general feeling of railroad men who have looked at the question from the point of view of all the transportation interests in the city together, for some years past.

I know I have heard a very marked change of sentiment in regard to that particular thing in the past six or eight years.

If one road, however, gets into and has its tracks extended conveniently into a big manufacturing district, into an area where a large amount of jobbing or anything of that kind goes on, it is going to fight the entrance of other lines into that district and is going to keep them out of its monopoly, so to speak, of the business in that particular district, if it can.

Q. What effect has the unification of terminals under one management upon competition between different lines?

Mr. Crow: That is objected to as wholly irrelevant, because the effect of unification does not tend to prove or disprove the charge in the bill in this case.

Mr. Priest: The gist of the gentlemen's charge is to suppress competition. We intend to show that it does not suppress, but tends to foster and encourage competition.

A. I think the answer to that question is simply a corollary to what I have just said, and is simply this:

The unification of the terminals, as you have expressed it, is brought about by the joint interests of the different lines which need to have service into a city, that unification puts all those lines on an equal basis to compete for the traffic to and from that city. That makes the condition such that each one of those roads or that any one of those roads, to compete successfully for the business must give at least as good service as, or better service than, all others.

It means that any one road to get the business must give the best service or it must give the best rates. If their conditions for receiving and delivering freight are equal to all the rest, it means their transportation, both in charges and

service, must be the best possible, to secure the traffic or secure a large volume of the traffic.

Q. Assuming that all the roads have an interest in the unified terminals, what would naturally follow with respect to the economical management of the terminals?

Mr. Crow: We object to that because the question of economy of the management of property is not an issue in this case, and can not possibly be an issue under the allegations and averments of the Bill and Answer.

A. The result, in general, where a large volume of business is transacted, as is the case in a city of the size of St. Louis, is the cutting out of duplication and often triplication of service; the reduction of much friction in operation; a very desirable reduction in the amount of valuable city room taken up by unsightly railroad tracks and taken away from other valuable uses.

And in connection with all that, the reduction of operating expenses and a reduction in the expense of the public from the fewer places at which they have to transact their business, and from the reduction in their delays.

Q. How about the expedition in operation of the terminals? Is the transfer of traffic more rapid under one management than it would be under three or four distinct managements? A. Very decidedly so. So much so that under the recommendation of the managements of the Chicago roads some time ago—

Mr. Crow: We object to the statement of any recommendation made by any Chicago roads.

A. I was going to say, that they recommended that in the interchange of freight of all these roads, nearly all the important roads into Chicago should be put under the management of one man who should have entire charge and say how the interchange should be handled.

The position was offered to one man and he was not in a position to take it. What has been done since I cannot say.

I know it was offered and I talked with various members of the Committee. I merely quote this as an example.

Q. Suppose you illustrate my question by taking a carload of freight from a terminus of the Missouri Pacific Railway at St. Louis and deliver it to the Vandalia Line at East St. Louis. Assuming in answering my question that the Terminal Railroad Association of St. Louis is operated independently of the Merchants Bridge Terminal Railway and the Wiggins Ferry Company? A. The way the Missouri Pacific Railway Company's business is handled at present, primarily—

Mr. Crow: We object to any statement of present conditions. Anything that happened prior to the filing of this Bill is competent.

Mr. Watts: Conditions have not changed since 1905.

A. Yes; but the connection is very simple since that time. If you will have that answer cut out I will state what I meant to say.

Mr. Crow: Proceed. I merely wished to preserve the record.

A. I was going to answer his direct question by stating what I do not think was expected, that the Missouri Pacific Railway Company's business would be largely handled by its own ferry to the east side. It does, however, handle some of its business, and at the time I judge is referred to—

Mr. Priest: Q. I am assuming it passed over the tracks of the Terminal Railroad Association of St. Louis, the Merchants Bridge Terminal Railway tracks, and the tracks of the Merchants Bridge Terminal Railway Company at East St. Louis, and the Terminal Railroad Association of St. Louis tracks at East St. Louis.

A. Let me understand this clearly. You mean a shipment going over the Merchants Bridge from the Missouri Pacific Railway prior to the time at which the Merchants

Terminal was connected into the Mill Creek Valley and arrangements made for through terminal connections: Is that right?

Q. Yes. A. At that time the Missouri Pacific would have had to offer that shipment to the Iron Mountain Road at Poplar street. Then the Iron Mountain Road would have it delivered to either the Wabash Railroad or the St. Louis Transfer Railway; and the Wabash or the St. Louis Transfer Railway would have delivered it to the Merchants Bridge Terminal Railway Company. The Merchants Bridge Terminal Railway Company would have taken it across the river and taken it down over the Madison, Illinois & St. Louis Railway to a connection with the East St. Louis Belt Railway, and the East St. Louis Belt Railway Company would have taken it to a connection with the Vandalia.

Q. Through how many different hands would that car have passed on this route, within the terminal district of St. Louis? A. I think it is perhaps fair to take the Missouri Pacific and Iron Mountain interests as one, although they were operated by two entirely different sets of men at that time. Taking those interests as one, as they are now, that would have passed over five lines; or, if you regard those as two, over six lines.

Q. Coming to the first delivery, that by the Missouri Pacific Railway to the Iron Mountain Railway, assuming them to be independently operated lines: What would be the process of delivery of one to the other? A. They would simply place cars on a delivery track, carded for a certain place. They were using chalk marks mostly then, but were introducing cards about that time. They would send a way-bill after them by a messenger, or possibly by the foreman of the switch crew. They would take it up again by the Iron Mountain Railway Company's crew—

Q. Let us get through with the first delivery: The first delivery would necessitate the use of a delivery track.

What is a delivery track? A. A track on which cars are placed by one railroad for delivery into the care of another railroad.

Q. That in turn requires the provision of a place to receive it? A. Yes, indeed.

Q. And the number of delivery tracks would depend upon the volume of interchange of business at that point between those two lines? A. Yes, sir.

Q. It would further involve the notification to the connecting line that the car had been placed there for acceptance by it? A. Yes, sir.

Q. And it would further involve the services of an inspector to see that the car was in proper condition to be received, wouldn't it? A. Yes, sir.

Q. And then, after the inspection and ascertainment that it was in proper condition to be received, an independent switching crew would take it from the delivery track for transportation to the next connecting carrier? A. Yes, sir.

Q. And that same process would be gone through with it on each connection? A. Yes, sir.

Q. You would then have the necessity of five separate crews to handle at these separate points what could be done by one crew under a single management? A. Yes, sir.

Q. You would have more than that: You would have twice five, less two, wouldn't you? A. I don't quite follow that.

Q. One crew for delivery, another for acceptance? A. The same crew would do both things,

Q. Then you would require a multiplication of tracks? A. Yes, sir.

Q. Then what would be the average loss of time by this process of delivery from one terminal carrier to another? A. Probably several hours at each point.

Q. Would it tend to facilitate or congest traffic in the City of St. Louis? A. It would congest it very much.

Q. How greatly would it congest it? A. Very seriously, indeed. It is pretty hard to say how far you might carry a thing of that sort, of course. There would be all sorts of grades of such arrangements. But it might very easily decrease the capacity of general terminal interchange by one-half, if that sort of process were carried to any such extent as you indicate.

Q. You have described the ordinary process of delivery between independent carriers, haven't you? A. Oh, yes; yes.

Q. So, if these companies were all independent, you would have this process gone through with on each delivery by one or the other? A. Yes, sir.

Q. The system of the Merchants Bridge Terminal Railway does not reach any of the business of the Terminal Railroad Association of St. Louis, does it, except by common connection of the two systems? A. No, sir; not to any great extent.

Q. In other words, there would have to be an interchange of freight between those two systems, except such freight as originated on the Merchants Bridge Terminal Railway and was destined to some trunk line with which it had direct connection. A. Yes, sir.

Q. Mr. Perkins, what is the function of terminals in a large city?

Mr. Crow: The question is objected to for the reason that it is not a matter requiring any expert opinion or knowledge; it is merely a question of fact.

At this point, by consent of counsel, the further hearing of testimony herein was adjourned to Tuesday April 14th, 1908, at the office of the Special Commissioner, at 10:30 a. m.

Special Commissioner.

St. Louis, Mo., April 14th, 1908.

Met, pursuant to adjournment on Tuesday, April 14th, 1908, at the office of the Special Commisioner, Honorable R. E. Rombauer, in the Roe Building, at 10:30 a. m.

Present: Honorable R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Government.

Messrs. M. W. Watts and H. S. Priest appeared in behalf of the Defendant.

The following proceedings were had:

DIRECT EXAMINATION BY MR. H. S. PRIEST.

(Continued.)

Q. Mr. Perkins, what is the function of terminals in a large city?

Mr. Crow: We renew the objection to this question made yesterday.

A. The function of railroad facilities that would come under the head of terminals, would be divided into two parts: First, those facilities with which the railroads do business with the public, consisting of freight houses, passenger stations, team tracks for the loading and unloading of freight by teams, and private tracks to industries.

The second group, or second function, if you want to call it that, consists of yards provided for the assembling and distribution of cars; that is, the making up and breaking up of trains; the storage of freight and passenger cars; roundhouses, shops and repair facilities.

The functions in general, therefore, of the terminals are for the assembling and distribution of frieght and passengers which have been transported or which are to be transported. The terminals are facilities with which the rail-

roads interchange their business with the public, and with which they handle their equipment at terminal points.

Q. Would that include furnishing motive power and moving cars from point to point? A. It would. When you say "from point to point" it would include, as generally understood, the furnishing of motive power and moving cars from point to point in what is regarded as a terminal district, or what is regarded as a district for the receiving and distribution of articles or persons to be transported.

Q. To particularize: What is the function of the terminal lines owned and controlled by the Terminal Railroad Association of St. Louis? By that I mean lines on both sides of the river operated by the Terminal Railroad Association of St. Louis. A. The functions of those terminal properties are: First, to provide means for receiving passengers and delivering passengers for all railroads entering St. Louis.

Secondly, to provide means for receiving freight and delivering freight either on tracks or through warehouses for all railroads entering St. Louis or East St. Louis, or those parts of St. Louis and East St. Louis which are reached by the tracks of the Terminal Railroad Association of St. Louis.

Thirdly, to expedite the interchange of cars of all kinds, passenger and freight, between the different railroads.

Fourthly, a very small factor comparatively with the total business, the switching of freight from one point on their properties to another point on their properties for the convenience of the public. That is, to take the place of presumably more expensive teaming.

It also has the function of providing bridge facilities for the passage of their passenger trains across the river, of all such roads as wish to avail themselves of that privilege.

Q. To express it briefly, then, the purpose and the work accomplished by the Terminal Railroad Association of St.

Louis is to act and it is acting as general agent for all of the railways which enter St. Louis for assembling and distributing the freight between them? A. Assembling and distributing freight and passengers.

Q. I mean to comprehend East St. Louis in my question. I am talking about East St. Louis as well as St. Louis. A. I understand the question to cover East St. Louis.

Q. That is freight which arises in or is destined to St. Louis, and freight which passes through St. Louis as a gateway from the east to the west? A. I answer the question yes, with the modification that it covers freight and passenger traffic both.

Q. What proportion of the business done by these roads is confined to that which has its origin in St. Louis and which is destined in East St. Louis, on some one or all of the lines owned or controlled by the Terminal Railroad Association of St. Louis? A. That would be extremely small. That would be really what I mentioned as switching business practically.

Q. Would that business be of such proportion as would justify the investiture of the amount of capital which is invested in the terminal properties in St. Louis and East St. Louis?

Mr. Crow: That is objected to as wholly irrelevant in this case, because it is not a question whether or not the amount of capital is justified by any particular volume of business.

A. That volume of business would justify only a very small investment of capital. The amount of that business would probably not justify in any way the providing of steam railroad facilities for handling it. The volume of that business, the greater part of which is probably handled by teams, would probably justify the building of a bridge for that traffic and team traffic combined, but not the furnishing of a steam railroad.

Q. Then I understand you to say that the great bulk of the business handled by the Terminal Railroad Association of St. Louis— A. May I interrupt a moment. I want to be quite sure my answer was understood. I want to be sure that I understood the question as covering business that absolutely originates in St. Louis and ends in East St. Louis, or absolutely originates in East St. Louis and ends in St. Louis and does not apply to any business coming in over roads and then brought across here.

Mr. Crow: Q. You don't mean to limit that to East St. Louis? A. The East St. Louis district I call it. Perhaps that will be a better term to use. That includes the Madison business, etc.

Mr. Priest: Q. Then I understand you that the main volume of business done by the Terminal Railroad Association of St. Louis line in the St. Louis and East St. Louis district, is business originating in St. Louis and handled by some of the main lines of railroad entering St. Louis or East St. Louis, or business destined to St. Louis from outside points or business passing through St. Louis as a gateway? A. Yes, sir; so far as applied to the business handled in cars.

Q. That is the great volume of business? A. Yes, sir.

Q. The business which I have last described, I will ask you whether the terminal charges are generally absorbed by the railroads handling the business?

Mr. Crow: That is objected to for the reason that it does not fix a time anterior to the filing of the bill.

A. If I understand, the time of filing the bill was something like two and a half years.

Mr. Priest: Answer it without any reference to that. That does not make any difference.

A. The greater volume of revenue of the Terminal Railroad Association properties comes from charges that are paid directly by the railroads out of their freight rates. That proportion has, however, very materially increased in the

past two years. Up to two years ago a large proportion of charges assessed by the Terminal Railroad Association of St. Louis on freight handled to and from eastern points was charged directly to the shippers or consignees. That was not, however, the case with business to and from the west or to and from the southeast.

At present the rates to and from St. Louis are made right through to St. Louis, and the transfer charges across the river are paid by the railroads out of their through rates.

The revenues of the Terminal Railroad Association of St. Louis and the allied properties that are charged to the public are at the present time such switching charges as are made on cars that are switched from point to point in the switching limits of the St. Louis district. I say "St. Louis district" including the whole of it hereafter—

Charges on such business as is handled across the river by some short local coal lines which decline to make interstate rates.

Car service charges that are assessed under car service rules, on cars standing on Terminal Railroad Association Railway tracks.

Storage charges which are assessed on freight left in warehouses beyond a certain time, as provided for by law.

Charges made for teams and pedestrians across the bridges and ferries.

Q. All others than these you last mentioned are absorbed in the through charges? A. I don't think of any others at present. I think that makes it complete.

Q. What proportion of the terminal charges are these absorbed in the tariffs of the proprietary lines of the terminals of St. Louis, of the lines using the terminals in St. Louis?

The Commissioner: You mean what proportion of the whole?

Mr. Crow: This question is objected to for the same rea-

son as before stated, it does not fix a time prior to the filing of the bill.

A. The amount paid directly by the railroads from the rates, the greatest part of it—I have not figured that over from the regular records since, I think, the last time I went over that was in 1906. I remember I gave to the Globe-Democrat for June 30, 1906, a complete statement, dividing the revenue from different sources, that all the terminal properties obtained, which figures were compiled at that time from sworn statements made to the Interstate Commerce Commission and based roughly on the division at that time (but I haven't figured that out directly), I should say the amount paid directly by the public in these various ways, would be now between five and ten per cent of the total revenue.

Q. All of the rest is paid by the lines taking advantages of the terminals? A. Yes, sir. That I could figure out exactly if I knew it would be asked for.

Q. How many roads enter St. Louis? A. Counting all the small roads there are twenty-eight (28) lines that enter St. Louis and East St. Louis operating under different names.

Q. Do all those lines use the terminals of the Terminal Railroad Association of St. Louis in St. Louis and East St. Louis? A. Yes, sir.

Q. Do you know how many lines own the stock of the St. Louis Terminal Railroad Association of St. Louis? A. I do.

Q. How many? A. There are fourteen proprietary interests, fourteen different names. That is, counting the Missouri Pacific Railway and the Iron Mountain Railway as separate interests, and the Rock Island and Frisco as separate interests. They each own a one-fourteenth interest.

Q. This arrangement enables each of the lines entering

St. Louis to have the same advantage of access to freight and facilities for discharging freight that every other one enjoys? A. Yes, sir. Nearly all the lines of any consequence are really taken into the Terminal Railroad Association ownership through lease or control. The Mobile & Ohio Railroad for example, is controlled by the Southern Railroad, at least it is generally supposed to be.

The Toledo, St. Louis & Western and the Chicago & Alton are practically a consolidation under the same management and the same set of officers.

The Valley Line, so-called, is owned by the St. Louis, Iron Mountain & Southern Railway Company, so that the roads which have not a direct interest in the Terminal Railroad Association of St. Louis, consist of the Chicago, Peoria & St. Louis, a small road, and a number of coal roads whose traffic is almost exclusively local coal from nearby Illinois mines, and they have the same privileges as anybody else of using that.

The only qualification I make to that statement is that I see every day the cars of those roads, every time I go over the property of the Terminal Railroad Association of St. Louis, on the tracks of the Terminal Railroad Association of St. Louis, delivering coal in this city. But I understand that it has been their policy to try to avoid direct arrangement for interstate traffic.

That applies to those four or five coal roads I mentioned before.

Q. But all the railroads which enter St. Louis, whether proprietary lines, or otherwise, are placed on the same footing so far as the use and privilege of the terminals are concerned? A. Yes, sir. The ordinance under which the Union Station was built provides for that.

Q. The same is true with reference to freight? A. Yes, sir.

Q. What, from your experience in railroad management,

would be the effect upon the economical management of the terminals of St. Louis, of the absorption by the lines using them, of its charges in their through freight tariffs? Would it tend to reduce terminal charges to the lowest possible economical point? A. If I understand your question, it is, what would be the effect of all lines entering St. Louis absorbing all terminal charges for the delivery and the receipt of their freight on Terminal Railroad Association property.

Q. Yes. A. Well, as I have already said, that is already done to a very large extent. There is but a very small proportion that is not so absorbed.

According to my own theory of the proper management of terminals it all should be absorbed by the lines which are proprietors of the Terminal Railroad Association of St. Louis, and certainly the present arrangement comes very near carrying out that theory.

Q. Would that make the management of the terminals more extravagant or more economical? A. The effect of that is very decidedly to make it more efficient and economical, for this reason I should say:

The various railroads having to pay the charge of the Terminal Railroad Association of St. Louis out of their own revenue and having to bear in their competition for business, the effect of quality of service rendered, such as it is, must necessarily, if they keep in line for a large volume of business, insist on that business being done in an economical and efficient way.

Every railroad manager, or at least all I know well, and whose business I see going on from time to time, checks carefully the arrangements on the terminal properties for which he has to pay, and it is just as much his business to do so, as it is his business to check the expenses of his own railroad. And it is just as much his business to see that the service rendered by the joint agency that is employed to do his business is good, as on his own railroad.

Q. Mr. Perkins, I will ask you, from your familiarity with the railroads coming into St. Louis, and the terminal arrangements of St. Louis—I mean to comprehend also East St. Louis in this question—and from your knowledge of the traffic coming into or going out from and passing through St. Louis, whether the unification of all the terminals in St. Louis under one management, is promotive or restrictive of commerce?

Mr. Crow: We object to the question because it is a question of fact how it operates and not a matter of expert opinion at all.

A. I should have to qualify my answer to that by saying this:

Every important railroad, in my opinion, should have its own assembling, distributing and storage yards, and should have a main freight house for the assembling and distribution of its less than carload business, as a nucleus for the handing of its business.

But that such facilities might, however, be located perfectly well in any part of its general business district, East St. Louis, North St. Louis, or South St. Louis.

But that by united facilities spreading over all parts of the city and reaching into all parts of the city and all parts of the district, they can give much more efficient service to all concerned.

Any arrangement of that kind tends to promote efficiency and it tends to cut down the amount of work that the merchant or manufacturer has to do. It gives him, so far as possible, one place for receiving and distributing freight in his immediate neighborhood.

Q. Would the consolidated operation of say the properties originally of the Terminal Railroad Association of St. Louis, the Merchants Bridge Terminal Railway system of St. Louis, and the Wiggins Ferry system, both in St. Louis

and East St. Louis, be promotive or restrictive of commerce entering, going out from, or passing through St. Louis?

Mr. Crow: We object to that question for the same reason as given before.

A. My opinion would be that it is decidedly promotive of the facility with which commerce moves and promotive of competition among lines reaching out or running into St. Louis.

Q. Then it promotes instead of retarding or destroying competition? Such a combination would promote instead of destroying or impairing competition? A. Yes, sir; any arrangement that tends to open up a part of a district to a good many railroads instead of to only one railroad, certainly tends to increase competition in that direction.

Q. Out of St. Louis, what is the general tendency with respect to the common ownership and use of terminals in large cities?

Mr. Crow: We object to that question as wholly immaterial. No matter what the tendency is elsewhere, the question is what are the conditions here. It is a question of what the facts are.

A. Both efforts and material progress are being made in a great many of the large cities to bring such united arrangement about.

Q. Will you give illustrations?

Mr. Crow: We object to that for the same reason given above.

A. To take the two worst cases I think of, which are perhaps Buffalo and Chicago, where the diversified interests of a large number of separate properties on which business has to be handled cause a great burden on commerce. I should say that those two, Buffalo and Chicago, are two of the largest terminal points in the country, and the problem in both places has been extremely difficult, and both the

railroads and the public have been at work upon some arrangement to bring them together for a good many years.

Just this past year, in Buffalo for example, a joint committee appointed by the Mayor of Buffalo and by all the railroads running into Buffalo, having agreed upon a report recommending to the city and to the railroads a unification of passenger terminals and freight terminals. That committee I refer to consists of three men appointed by the Mayor of Buffalo and three men appointed by the railroads, the latter being Mr. Wilgus, Vice-President of the New York Central Railroad Company, Mr. Rea, Vice-President of the Pennsylvania Railroad Company, and the Vice-President of either the Erie Railroad or the Lackawana Railroad is my recollection, but I have forgotten which one.

At Chicago several committees have been at work on this same thing, because, for example, one-fourth of the main business area, the down town business area of Chicago is covered with badly arranged steam railroad tracks; and as business from one railroad to another, and from one part of the city to another has to go over several independent companies, not only are there tremendously high accumulations of switching charges, but most serious delays.

I believe the figures of these committees shows it takes several times as long to get freight through Chicago as it does here in St. Louis.

A good deal of work has been done in the last few years in Kansas City, towards the same arrangement. For a good many years Kansas City has done most of its passenger business through a Terminal Union Depot Company, of which I was a director for a number of years; and they have been trying to bring about a general terminal company for the handling of much of the freight traffic in addition.

I might mention a great many others, but perhaps those are sufficient—unless you care for some foreign ones.

Q. How about Washington City? A. At Washington

the passenger traffic is all done under a union arrangement. That was brought about by the action of the United States Government. I think the Government started with some resolutions as far back as 1881. I have kept track for some years of the progress they were making. Finally a Washington terminal company was organized under an act of Congress, of which the Pennsylvania lines and the Baltimore & Ohio were allowed to own one-half of the stock; I think the stock was authorized at five million dollars, of which to begin with two and a half million dollars were paid in in cash. And all the other lines came into the arrangement as tenants, the act of Congress providing that they should come in on fair terms for the use of these facilities; and my recollection is that it provided further that if there was any disagreement it should be submitted to the Supreme Court of the District of Columbia to arbitrate.

They issued some twelve million dollars of bonds besides the stock, and they have that in operation now and have torn down most of the other pasenger stations. All of the roads are running into the Union Station at the present time. It is a very large and comprehensive arrangement, and one from which I judge the railroads can not for a great many years get any return on their investment.

Q. Do you know anything of any arrangement on the Continent, in such cities as Paris and Berlin? A. Yes, sir; I am familiar with those.

Mr. Crow: We object to any statements about conditions at Paris and Berlin, for the reason that proof of that will not tend to prove or disprove any issue in this case or tend to prove or disprove the allegations in the bill or answer.

Mr. Priest: Q. Describe them. A. When I went over the terminals at Paris I was interested to find two Belt Lines there, Petite Ceinture and Grande Ceinture, they call them, organized almost exactly like the Terminal Railroad Association of St. Louis. The Little Belt provides connections

inside the city, mostly inside the old walls of the city, and the Big Belt about five or six miles out, connecting up all the railroad facilities about Paris. And of the seven railroads that enter Paris, five are joint stockholders in those two so-called belts.

The other two railroads also use them on terms provided in their agreement. Those are used alike by the very small government roads in France, as well as by the private roads.

Q. I will ask you if this diagram, I show you, illustrates somewhat the situation at Paris. A. (After examining paper handed him). That illustrates it exactly. That is a print I had made.

Mr. Priest: I will offer in evidence this diagram in connection with the testimony of the witness.

Mr. Crow: The introduction of this diagram is objected to for the reason above stated, as not being material to any issue in this cause.

The paper referred to is marked "Defendant's Exhibit No. 1."

Defendant's Exhibit No. 1 is in words and figures following, to-wit:

A. The freight from any of the railroads running into Paris goes around over these belt lines to the terminals of any of the roads.

The difference in the arrangement there and our own arrangement is that a through distance tariff applies to whatever tracks goods are delivered on; that is, if it is five miles further to the terminals on one side of the city than to the terminals on another side of the city, a greater rate applies to one than to the other, instead of the same rate applying to both, as obtains here.

The arrangement in Berlin is very similar, except as you know, the government owns nearly all the railroads. The Government owns about nine-tenths of the railroads, while in France the government owns probably less than one-tenth.

2625

Q. Does this map I hand you illustrate conditions at Berlin? A. (After examining paper). Yes, this is a reduced cut, I had made from a large map of the Berlin terminals that I obtained from the German Government state railroad officials.

Mr. Priest: We offer in evidence the map referred to.

Mr. Crow: We object to the introduction of this map for the same reason stated above.

The map referred to is marked "Defendant's Exhibit No. 2."

Defendant's Exhibit No. 2 is in words and figures as follows, to-wit:

A. The same arrangement I referred to about Paris applies to Berlin, that goods can be delivered to any one of those eight or nine groups of facilities from any of the roads entering Berlin on a through distance tariff basis.

That "Ring Bahn," as they call it, connects all the railroads, and the line going right through the middle of the city, the elevated, the "Stadt Bahn," handles the greater part of the passenger traffic from the different lines.

There are a number of different passenger stations, but the greater part of the traffic is handled right through that line, and the passengers stop at a central station on that line, or at some of these other stations, as they see fit.

Those two are simply types of the arrangements that exist at a good many other foreign cities I have examined.

In several of the cities, the lines have combined in one union station, so far as the passenger service is concerned.

Q. Do you know whether the Terminal Railroad of St. Louis owns any freight cars? A. Not unless it has got some very recently. I can not tell you at the present time, because I have made no recent inquiry.

Q. So far as you know, it does not? A. I don't know of any, except for its own supplies, some supply cars.

Q. Mr. Perkins, you and Mr. Robert Moore as advisers

to the Municipal Terminal Commission of St. Louis, made a preliminary report of July 6th, 1906, didn't you? A. Yes, sir.

Q. I will ask you if this paper I hand you is a correct report of that Commission to the Municipal Assembly of the City of St. Louis, incorporating your report to the Commission? A. I would like to look at it. There is one figure that I think was changed in many of the copies. (After examining pamphlet). Yes, that is all right.

Mr. Priest: We offer in evidence this report in connection with the testimony of Mr. Perkins.

The pamphlet referred to is marked "Defendant's Exhibit No. 4."

Defendant's Exhibit No. 4 is in words and figures as follows, to-wit:

Mr. Crow: That is objected to because it is a report made after the institution of the suit here, and secondly no report or action of the Commission can affect the status of matters involved in this suit, and is simply hearsay testimony.

Mr. Priest: Q. Did you make a like report to the committee on February 11, 1908? A. Yes, sir.

Q. Is this paper I hand you a copy of that report? A. (After examining paper). There was a report made at that time, but not quite a "like" report.

Q. A report was made to the Municipal Assembly? A. Yes, sir, except that a chart was in there, otherwise it is the same report made at that time.

Q. In addition to the chart which I tore out and offered in evidence yesterday, it is a correct copy of that report? A. Yes, sir.

Mr. Priest: We offer in evidence this paper referred to.

The paper referred to is marked "Defendant's Exhibit No. 5."

Defendant's Exhibit No. 5 is in the words and figures following, to-wit:

Note: There is no objection made to the admission of the reports above referred to, on the ground that they are not certified copies.

Mr. Priest: In connection with Mr. Perkins' testimony, I wish to introduce in evidence the ordinance under which the Municipal Bridge & Terminal Commission was created, being Ordinance No. 22,026.

The ordinance referred to is marked "Defendant's Exhibit No. 6."

Defendant's Exhibit No. 6 is in the words and figures following, to-wit:

At this point the further hearing of the testimony was adjourned to May 1st, 1908, at 10:30 in the forenoon.

Special Commissioner.

St. Louis, Mo., May 1, 1908.

Met, pursuant to adjournment, on Friday, May 1st, 1908, at 10:30 a. m., at the office of the Special Commissioner, in the Roe Building, City of St. Louis, Mo.

Present: Honorable R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Government.

Messrs. M. W. Watts and H. S. Priest appeared in behalf of the defendant.

On account of engagements of the Special Commissioner, and by consent of counsel, a further adjournment was made to Tuesday, May 5th, 1908, at 10:30 a. m.

Special Commissioner.

St. Louis, Mo., May 5th, 1908.

Met, pursuant to adjournment as above, on Tuesday, May 5th, 1908, at 10:30 a. m., in the office of the Special Commissioner, in the Roe Building, City of St. Louis, Mo.

Present: Honorable R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Government

Mr. M. W. Watts appeared in behalf of the defendant.

The following proceedings were had:

CROSS-EXAMINATION BY MR. E. C. CROW.

Q. Mr. Perkins, are you a civil engineer? A. Well not technically.

Q. You are not a graduate of any civil engineering school? A. No, sir. I studied engineering to a considerable extent myself in the course of my railroad experience. But I am not a graduate of any engineering school.

Q. Your engineering experience results from the fact that you have been practically in the railroad business? A. Yes, sir; and from my own studies.

Q. What studies have you pursued along those lines? A. Well, I do not know exactly what you mean by that question. Studies of engineering books, and attending lectures on engineering subjects and the practical study of engineering works on the ground.

Q. When and where did you attend those lectures, and under whom? A. I do not mean any engineering school lectures, but of engineering societies.

Q. You mean you have attended the meetings of engineering societies and listened to the papers read there, and participated in the discussions with reference to the practical side of propositions? A. Yes, sir.

Q. Now, what, if any railroad or public service corpora-

tion were you with when you made the arrangement to serve the Mayor's Muncipal Terminal Commission? A. I was at that time with the Chicago, Burlington & Quincy Railroad Company.

Q. In what capacity? A. Superintendent.

Q. Superintendent of what? A. Of what is called the St. Joseph Division of that road.

Q. What extent of territory did that serve? A. Approximately six hundred (600) miles of line—

Q. Lying where? A. Lying largely in Western Missouri and Western Iowa and of terminals at Kansas City, Atchison, Leavenworth, St. Joseph and Council Bluffs.

Q. The Chicago, Burlington & Quincy Railroad is one of the proprietary lines of the Terminal Railroad Association of St. Louis, which is the defendant in this case, isn't it? A. It is; yes, sir.

Q. How long have you been with the Burlington Railroad Company? A. At that time nearly eighteen (18) years.

Q. Nearly eighteen years? A. Yes, sir; in different places.

Q. Where was your office? A. At that time it was at St. Joseph, Missouri.

Q. Were you personally acquainted with the members of the Mayor's Municipal Bridge and Terminal Commission prior to their appointment? A. Yes, sir; with a number of them.

Q. Which ones? A. With the vice-chairman, Mr. Robert Whitelaw. With Mr. Hugh McKittrick. With Mr. R. W. Shapleigh. I think possibly I was better acquainted with those two than with the others. Some of the others I knew only slightly or not at all.

Q. Had you met them socially or in a business way, or both? A. Why, more socially than otherwise, I should say.

Q. Who of the Mayor's Municipal Bridge and Terminal Commission, if anyone, first talked to you about accepting the position you now hold of adviser to the Terminal Commission? A. The Commission asked me to meet a committee they had appointed to talk with me, consisting of Mr. Whitelaw, the vice-chairman, and Mr. McKittrick, two of the gentlemen I have mentioned as being best acquainted with.

Q. They made this request by letter? A. They requested by letter that I meet with this committee.

Q. The commission did? A. Yes, sir.

Q. What conversation had you had with reference to your appointment before that? A. Absolutely none.

Q. That is the first information you had? A. Yes, sir.

Q. You have now no knowledge as to how or why this committee requested you to meet them? A. No, sir; except from my general talk with them.

Q. Prior to that? A. Prior to that time?

Q. Yes. A. Oh, no.

Q. Are you connected now with any public service corporation? A. Yes, sir.

Q. What one? A. The St. Louis, Brownsville & Mexico Railroad.

Q. Where does this road run to and where from? A. Its main line runs from Houston, Texas, to Brownsville, Texas.

Q. Who is the president of that road? A. I have all the duties of president. Mr. B. F. Yoakum, in New York, is nominally the president, but he takes no active part in it.

Q. Mr. Yoakum is connected with the 'Frisco Railroad Company in what capacity? A. He is chairman of the Board of Directors. He had nothing to do with my appointment to this place.

Q. The Frisco Railroad Company is a defendant also in this case, and is one of the proprietary lines of the Ter-

minal Railroad Association of St. Louis, is it not? A. Yes, sir.

Q. The road you speak of, of which you are an official, is a road just in process of construction? A. All the road that has been surveyed up to the present time is actually in operation now.

Q. How much is that? A. That is approximately four hundred and fifty (450) miles. A little less than four hundred and fifty miles.

Q. That road is operated in connection with and controlled by the same interests that control the Frisco and the Rock Island System? A. No connection in the least. It has no connection of any kind with it.

Q. Who does control it? A. It is controlled by a syndicate which I represent, consisting largely of St. Louis people, however. There is no connection with any other road in any way.

Q. What portion of your time has been given to the duties of this railroad company's work since you have been employed as expert by the Commission? A. Well, I have only given time to this railroad company's work since the first of this year. I continued as adviser to the Commission this year under an arrangement with them by which I should divide my time between the Commission and this railroad work. That was my own suggestion, as I had several propositions to take my time and I felt that the Commission's work this year would not need my entire time, and I therefore made a new arrangement with them for this year.

Q. The position you occupy with the railroad company is, of course, a salaried position? A. Yes, sir.

Q. As I understand you, you are dividing your time under an arrangement with the Commission, about equally between the work of the city and the work of the railroad company? A. Yes, sir.

Q. Upon what particular questions did you and the Commission agree you should advise the Commission? A. Questions in regard to railroad terminal development, railroad terminal plans, railroad operating and traffic questions affecting terminal conditions. I think the Commission asked me to come here on the ground that I had not only a good deal of experience in the charge of large terminals and had given that subject a good deal of study, but I had also had experience in the traffic parts of the work and in the operating of railroads, and in railroad construction. That is the result of conversations I have had with them, as to why they chose me for this position.

Q. I understand the two propositions upon which they employed you as expert was first, in relation to terminal questions, so far as it related to the development of terminal conditions, and control and handling of the traffic; and, second, the proposition of rates and the adjustment thereof? A. Rates and the adjustment thereof and the operating conditions as affecting terminal development; all of which would be factors in proper railroad development.

Q. And you had had experience in both these lines? A. Yes, sir. And in the construction and planning of railroad yards, and other terminal properties.

Q. You stated in your direct examination that yourself and Mr. Moore made a trip over the largest terminal properties in the United States; will you please state the cities you visited and the time you spent in the examination of each? A. Why, yes. I think we were three days going over the Pittsburg terminals. That is, three days in a lump, I might say, in addition to several little trips I have made there from time to time to look at them. During which time we had every facility given us to make the most of our time. We had officers of the various railroads there to go around with us and show us what there was, and an engine to take us about. Then my recollection is that we

spent about two days in the Philadelphia district, going over matters in the same way. And we were several days about the New York district.

Q. How many days, about, were you in the New York district? A. I think on that trip we were three days.

Q. Did you make another trip? A. I have been there a good many times and I looked over the New York terminals.

Q. Since you have been connected with the Commission? A. Yes, sir.

Q. How many times? A. I was going to say we were not only taken over the different terminals on both sides of the harbor at New York, but in order to get around to all the terminals we had one entire day a tug boat that belonged to the Pennsylvania Railroad Company; and another entire day a tug boat belonging to the New York Central Railroad Company, in order that we might land every where around the river and harbor where there were railroad terminals, and go over the various facilities carefully.

Q. How many trips did you make to New York? A. Since I have been with the Terminal Commission?

Q. Yes; for that purpose, of examining those terminals? A. Well, the other trips, the main purpose was not to examine the physical terminals, but, rather, to talk with railroad officials about the conduct of our work here. But in those trips I spent part of my time in going over terminal properties.

Q. How many days did you put in, on the main trip, when you went to examine the physical properties? A. I have already said that my recollection is we were three days on it.

Q. What other cities did you go to, Mr. Perkins? A. I went alone to Baltimore. I put in an entire day there. I was taken about by the railroad people, and we had a little

launch to take me around there. I have also been around Washington along about that same time.

Q. On this same business, Mr. Perkins? A. Yes, sir. Mr. Moore and I were also in Chicago altogether one day, only a part of which was looking at railroad facilities, as we had both been there a great many times and were pretty familiar with the Chicago terminals.

Q. I am not asking you what you were familiar with, but specifically what you did since you were a member of this Commission? A. Yes, sir. I was just saying that Mr. Moore and I were both at Chicago together on this business. And I had been in Chicago, connected with this business of the Commission, a considerable number of times since I have been employed by the Commission.

Q. Pardon me, but will you please confine yourself to answering my questions. My question was how many days did you put in specifically in examining terminal properties in the various cities? A. I put in a day in Cincinnati specifically for that purpose.

Q. Are those all the towns you now recollect? A. Oh, no. I was just trying to recollect how much time I put in in Boston.

Q. Approximate it, if you cannot give it exactly. A. Well, I have been in Boston two or three times, putting in parts of days only. Then I put in parts of days in connection with my other trips, around at various places.

Q. What other places? A. Buffalo and Toronto. I was in Toronto several days. Then, as I stated last time, I spent a good deal of time looking over European terminals.

Q. How much time did you put in in Berlin and Paris? A. Well, I put in four or five days at each of those points on the terminals, with the aid of the government officers and railroad officials. I put in quite a lot of time, both night and day, upon the London terminals. I put in a day on the Yorke terminals. And I put in a day on the New-

castle terminals. That, as you know, is one of the largest coal handling terminals, and I went there especially on that account, although a tremendous miscellaneous business is also done there. I put in some time—I put in a day at the Cologne terminals. And a part of a day at the Frankfort terminals. Then various short times at a good many other places, but not as much time as those I have mentioned, as they are rather typical of the best terminals.

Q. That about covers the field of your examination, does it? A. Well, you might say that covers it where I made specific trips for that purpose. I have examined a great many other terminals in the course of my study of terminal conditions. I have been always interested in that subject.

Q. But since you have been connected with the Commission that covers generally the field, does it not? A. That covers pretty generally the field, I think.

Q. In your direct examination, in answer to a question as to what you comprehended in the use of the word "terminals" or "St. Louis terminals," you said as follows: "All the tracks, yards, warehouse facilities by means of which railroad companies interchange or transact business, in the way of collecting or distributing freight, and in connection with which they make up and distribute their trains, both freight and passenger, and all facilities in which passengers are received and discharged within what might be called the commercial district of a city." I want to ask you if your definition thus given, above quoted, would not include all tracks, warehouses and yards and railroad facilities used for general railroad purposes by each individual railroad company? A. Yes, indeed; that is, used for similar purposes.

The previous question is here read to the witness. A. General railroad purposes. If you add in there, "in the terminal district;" used for general railroad purposes in the

terminal district, I would answer yes. That question would be pretty sweeping as it stands, I think.

Q. That is your answer, is it? A. If you add that in, yes.

Q. I am not adding anything to it, but I am asking you that question. You are an expert, qualified as such, and I ask you that question. Let the question be read to you so there may be no misunderstanding about it.

NOTE.—The question is here reread to the witness.

A. If it is agreeable to you to strike out my entire answer, I will simply answer no.

Q. I do not care to have a witness strike out an answer, but he can change the answer. A. I am perfectly willing to allow what I said to stand if you wish. But unless you could modify it, that those facilities are in the terminal district, I would have to answer no, because that would have to include all railroad property all over the country, no matter where and what it is.

Q. I will ask you if you are not familiar with the general physical condition of the terminal property in the city of St. Louis and East St. Louis, and the Merchants Bridge Terminal Railroad Company, the Wiggins Ferry Company, the Terminal Railroad Association of St. Louis and the different lines controlled by each of those respective corporations, and if you have not been so familiar with them for many years? A. Yes, sir, in a general way.

Q. I will ask you what you mean to say by "in a general way?" A. You asked me if I were not familiar with the physical condition of the property. I do not make periodical examination of it in detail, as I would in a property under my own charge. I go over the properties from time to time in a general way, not to investigate the condition of each individual part. That is, I know the general character of its physical condition.

Q. Have you made any specific investigation since you

have been adviser to the Mayor's Terminal Commission, as to the exact physical condition of these properties and their relation to the surounding properties? A. On a great many of them.

Q. Then aren't you now familiar with their condition, specifically? A. Well, but you asked me in regard to the physical conditions. May I ask if you mean by that the condition of tracks, rails and ties, and the condition of the buildings and so forth, and the motive power, and that sort of thing—the present physical condition?

Q. I am asking you the question. You can construe that question to suit yourself. You are a railroad expert and adviser to the Commission.

Mr. Watts: It may have a general or technical meaning.

A. I am simply trying to get at what you mean by "physical condition." A railroad man would mean by "physical condition of the property," whether the track and buildings and appliances, and the motive power, etc., were all kept up in first-class condition. And whether the proper repairs and renewals had been made from time to time. Or, whether, on the other hand, there had been a good deal of slackness in the management and certain parts of the property had been allowed to run down, etc. I answer, in a general way, that I am familiar with that, but I cannot tell you whether possibly on some pieces of this property joints had been allowed to be battered down, or whether some buildings had been allowed to fall into bad repair.

Q. Is that your answer? A. Yes, sir.

Q. Is that all the answer you want to make to that question? A. Well, I should say so, yes. I don't see how I can answer it further until I am clear just what you mean by your question.

Q. You began when you were appointed adviser to the Mayor's Commission to make inspection of these properties

in the city of St. Louis? A. Yes, indeed; I made a good many inspections of them.

Q. You went all over the property, didn't you? A. Yes, sir.

Q. You went over and around all the warehouses of these three companies? A. Yes, sir.

Q. You went over their tracks? A. Yes, sir.

Q. Over all the surrounding property? A. Yes, sir; all over each.

Q. You are familiar, then, with the physical condition, as well as the location of all these properties? A. I would modify that by saying I am, in a general way; yes, sir.

Q. Did you inspect these properties with reference to the condition they were in for the purpose of operation, so far as being in good repair or otherwise? A. Well, incidentally, yes.

Q. But more particularly with reference to the facilities they afforded for the transaction of business, your inspection was? A. Yes, sir.

Q. You inspected likewise, for a similar purpose, the properties of these companies in East St. Louis? A. Yes, sir.

At this point counsel for defendant being summoned as a witness in a case in the Circuit Court of the city of St. Louis, by consent of counsel, adjournment was made until tomorrow, Wednesday, May 6th, 1908, at 10:30 a. m.

Special Commissioner.

St. Louis, Mo., May 6, 1908.

Met, pursuant to adjournment as above, on Wednesday, May 6th, 1908, at 10:30 o'clock in the forenoon.

By agreement meeting was continued until 2:30 o'clock this afternoon.

Special Commissioner.

St. Louis, Mo., May 6th, 1908.

Met, pursuant to adjournment as above, on Wednesday, May 6th, at 2:30 o'clock p. m.

Present: Honorable H. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Government.

Mr. M. W. Watts appeared in behalf of the Defendant.

The following proceedings were had:

CROSS-EXAMINATION BY MR. E. C. CROW.

ALBERT T. PERKINS continued.

Q. Mr. Perkins, I will ask you if you are familiar with the conditions of these properties I have mentioned, the Wiggins Ferry Company, the Merchants Bridge Terminal Railroad Company and the Terminal Railroad Association of St. Louis, in 1890, 1891, 1892 and 1893, with reference to the amount and extent of their trackage and their location with reference to the business industries of the city and their adaptation to the uses and purposes for which they were designed? A. I have been familiar with them from 1890 on.

Q. Mr. Perkins, will you please turn to the report of July 6, made by yourself and Mr. Moore to the Terminal Commission, and refer to pages 5 and 6 of that report? A. I have it.

Q. That is the report, isn't it, that was made by yourself and Mr. Moore as expert advisers to the Municipal Terminal Commission? A. Yes, sir.

Q. I will ask you if on pages 5 and 6 of that report dated July 6th, 1906, made by Mr. Moore and yourself, you did not state that "in the three sections on the west side of the river we believe it to be to the best interests of the city that, subject to the maintenance of streets necessary for

public use, and subject to any desirable reservation for park and other public purposes, every facility should be given for acquiring and utilizing property for railroad purposes; and for reasons which we shall explain further on, it seems to us desirable that the property should be acquired and franchises granted in such shape that the property can be used for all railroads desiring to do business in those localities, rather than that it should be tied up to the uses of single railroad companies." I will ask you now, in connection with that statement, if you have not heretofore stated that no property should be acquired in the Mill Creek Valley for additional terminal facilities. Bearing in mind that statement I have read you? A. No, sir; I said I thought the property now there was not more than ample for the development of terminals now in the Mill Creek Valley—development and extension.

Q. That is what you meant to say? A. Yes, sir.

Q. It is unnecessary for me to follow up with a question I was going to ask you, because the quotation I have read indicated that you and Mr. Moore reported that additional terminal facilities should be acquired along the line of the terminal property and river front. A. That is true.

Q. Turning again to the same report, on page 6, I will ask you if that report does not say in substance: "The acquiring of terminal facilities on the part of the different roads should be facilitated and encouraged?" A. I did. I believe that thoroughly.

Q. I will ask you if you did not also in that same report and in that same connection say: "The corporation which operates the terminal agency of a city should not be one for profit or gain, but should be organized and clearly recognized solely as an agency of the combined railroads?" A. I did, yes, sir.

Q. And you still are of that opinion? A. Yes, sir.

Q. I will ask if you meant, when you used the term

"as an agency of the combined railroads" that the terminal company should simply act as transfer agent between the different lines at a common point? A. No, sir; that would not be all. That would cover only a part of the service to be rendered by such an association.

Q. Turn to page 7 of your report there. I want to ask you if in that report, on that page, you did not say that your problem was divided into two parts:

First: That of providing facilities in St. Louis for the prompt and economical receipt and delivery of freight.

Second: That of providing for exchange of freight between two sides of the Mississippi river. That is the problem of bridges and ferries? A. Yes, sir; I did.

Q. And you still say that is the problem and the difficult one which confronts the city, or did confront it? A. Yes, sir.

Q. I will get you to state if you did not say on page 7 of that report, that for your purposes the land required for railroad track facilities might be roughly divided into two classes in this city:

First, that required for, A,freight houses; B, team tracks; C, sidings to industries.

Second, that required for A, classification and storage yards; B, round houses and shops? A. I did.

Q. That is correct, in your opinion, as an expert? A. Yes, sir. I was going to state that as far as the general terminal problem is concerned, we were undertaking in this report to discuss freight facilities only at this time, because passenger facilities would be under a different heading.

Q. That would come up later? A. Yes.

Q. I will ask you if the freight houses provided by the Terminal Railroad Association, when you assumed your duties as expert adviser to the Commission, were adequate

for handling the freight? A. I did not regard them as adequate, no, sir.

Q. Do you know how many freight houses the Terminal Railroad Association had at that time, and where they were located? A. Yes, sir.

Q. Will you please name them and locate them? A. The freight houses were at Twelfth and Poplar streets and at Eleventh and Clark avenue.

Q. Is that all? A. I should put them both at Eleventh and Poplar streets, between Spruce and Poplar streets. One ending on Twelfth street and one ending on Eleventh street and running eastward from those two streets. Those two freight houses were the main freight houses in St. Louis operated——

Q. Just a moment, please. Those two freight houses you mentioned are located in the Mill Creek Valley, aren't they? A. Yes, sir.

Q. Go ahead, now? A. In addition to that, the Terminal Railroad Association served the Cupples Station, which was also treated as a railroad station by the constituent lines of the Terminal Railroad Association. They were all in one group.

Q. But the Cupples Station was not owned by the Terminal Railroad Association or by any other railroad company? A. No, sir; not the Cupples Station itself.

Q. And it was not a public station for the general handling of freight, but only for the handling of freight of the tenants of the Cupples Station? A. At times outside freight has been handled there, but not in any general way; but right across the street at the other station.

Q. It was not a public station as you term public warehouses of a public railroad, a public service corporation? A. I think there would be a little doubt as to whether that should be classified as a public station or not. I think it probably would, because when requested to do so, outside

merchandise has been handled there in the past, but merchandise from firms outside of the Cupples block usually is taken to the other station right across the street from the Cupples Station.

Q. Mr. Perkins, you have been a railroad man many years? A. Yes, sir.

Q. You know that with any and all public service corporations, if a man brings freight to them they are bound to receive it? A. Yes, sir.

Q. But at the Cupples station they are not bound to receive it, the people who own the station? A. I think they would be.

Q. Under what law? A. Under their general understanding with the railroad companies.

Q. Under what law would they be compelled to receive it? There is no law that would compel them to receive it, is there? A. I am not so sure about that. The railroad companies have always recognized the Cupples station as a railroad station, and received their freight there. And they have provided check clerks to receive and check it there, just as at any other station; and they have in fact paid for the handling of it there. That being the case, I should feel rather far from saying that they might not be compelled to receive freight from anybody at that point.

Q. Don't you know, as a practical railroad man, that that is not a public railroad station within the meaning of the term as used here in St. Louis? That is, that it does not belong to any railroad company? A. I think that is true, but there have been many questions up in the past as to just what its relations to railroads should be. And I imagine that it is an unsettled question. But the understanding with the railroads, when they went in there was, that if they wanted other freight handled in there it would be handled there.

Q. The Cupples station is owned by a private corpora-

tion, isn't it? A. I understand it is owned by the Washington University.

Q. That is a private corporation, isn't it? A. Yes, sir.

Q. That corporation owns no public utilities, such as a railroad company would require for the handling of its business? A. No, sir.

Q. Where were the other freight houses located? A. That is all.

Q. That is all they had? A. That is all the Terminal Railroad Association had. That is, at the time this report was written.

Q. Do you know what was the size of those freight houses. You investigated that, of course? A. Oh, yes; I investigated their size and capacity.

Q. You have those figures somewhere? A. I have those figures in my possession, and the amount of tonnage they handled, and so forth.

Q. Approximate it now, and I will ask you to get those figures and put them into the record here, if Mr. Watts has no objection?

Mr. Watts: I have no objection.

Mr. Crow: You may have it in that report? A. I can give it to you approximately, if it is not in this report (witness examines report). Well, I will say that one of them was six hundred and fifty (650) feet long by one hundred and thirty (130) feet wide.

Q. Approximately? A. Yes, sir; approximately. And the other perhaps six hundred and fifty (650) feet by forty (40) feet, or something of that kind.

Q. Something about like that? A. I will correct those figures later.

Q. You may put them in accurately thereafter. That will do for my purposes now? A. That area I include there includes everything under cover. Where tracks are under cover it includes them.

Q. It includes only such team tracks as are under cover? A. No team tracks at all. That width I have given includes tracks inside of houses for loading or unloading merchandise from the platform.

Q. These buildings are each one story, are they? A. Yes, sir.

Q. No more? A. No, sir; except for the office part.

Q. For freight purposes they are one-story warehouses? A. Yes, sir; one-story worehauses.

Q. Just approximately, what amount of ground in acres do those two warehouses cover—about two hundred and nine (209) square feet, I believe? A. Forty-three thousand, five hundred and sixty (43,560) feet. The two would cover probably three acres.

Q. Approximately about three acres? A. Yes, sir; I can give you that exactly later; I have the figures in my office.

Q. For our purposes now, it is approximately three acres? A. Yes, sir.

Q. Do you know how many miles of team tracks the Terminal Railroad Association had at the time you became adviser of this commission? A. I have given that exactly in this report, if that will be satisfactory to you.

Q. If you say it is accurate and will swear to it, that is the most accurate way to get it.

Mr. Watts: Have you offered this report in evidence, General Crow?

Mr. Crow: No, sir; I have not.

A. I took out the Terminal Railroad Association properties on this side of the river——

Q. I am talking about the Terminal Railroad Association of St. Louis and not the Merchants Bridge Terminal Railroad Company or the Wiggins Ferry Company or the St. Louis Transfer Company, but just the Terminal Railroad Association of St. Louis. You have figured it accurately in

car lengths? A. Yes, sir; as near as could be done. Cars vary.

Q. Use car lengths; for storage tracks it makes no difference whether miles, car lengths or what. I will change the form of the question to save time. A. That was five hundred and fourteen (514) car lengths of the Terminal Railroad Association Company's tracks.

Q. How many car lengths of team tracks has the Terminal Railroad Association proper in the city of St. Louis? A. Five hundred and fourteen (514) car lengths, and approximately four miles, reducing it to miles.

Q. Which requires the greater amount of room, freight houses, team tracks, sidings to industries or classification train and storage yards, round houses and shops—those two groups into which you divide it? A. Classification and storage yards take the greatest amount of room.

Q. In what you call the Mill Creek Valley, you include all that area from practically the levee up the Mill Creek Valley to Grand avenue and following the course of the Missouri Pacific and the Frisco roads to Tower Grove Station, don't you, and thence westward to the city limits, or practically to the city limits. The Missouri Pacific turns off a little bit, I believe, before you get there. Is that correct? A. I think that would be substantially correct.

Q. In territory east and west that would cover an area of how many miles, approximately? A. That would cover —well, I should hardly say you could consider the Mill Creek Valley going beyond Tower Grove avenue, which would make the entire length of room something less than five miles. A little less than five miles, perhaps.

Q. Does not the Mill Creek Valley run out into the Des Peres river? A. Yes, sir.

Q. Doesn't the Des Peres river strike it about a mile west of Tower Grove station? A. I was considering only that distance available for terminal purposes.

Q. I am speaking of it topographically. Topographically it runs from the Mississippi river to the River des Peres practically? A. Yes, sir. That is, a little west of Kingshighway where that crosses. Then it is perhaps a mile or three-quarters of a mile from there to the city limits.

Q. You say from a point some distance beyond Kingshighway, where the River des Peres comes into contact with the Mill Creek Valley? A. I think it would be fair to say that.

Q. It is true that the Missouri Pacific Railroad runs up that valley to the point you have described, where the junction is made? A. Yes, sir.

Q. How far is that point from where it strikes the River des Peres to the Mississippi river? A. That is about five miles.

Q. It is five miles almost to Tower Grove, isn't it; it is three miles into Union Station from Tower Grove Station, isn't it? A. I should say it is, in a direct line, probably a little over five miles.

Q. Following the valley I mean. Take the Missouri Pacific Railroad tracks? A. That may be six miles.

Q. Between five and six miles? A. I should say so. I said a little over five miles in a straight line, and probably it may run a little over, I don't know.

Q. I will ask you if you know whether or not the Merchants Bridge Terminal Company west of Seventh street has now, or had when you entered the employ of the Commission, any team tracks located in the Mill Creek Valley? A. Yes, sir.

Q. Where are they? A. That located on Gratiot street.

Q. How far is that from Seventh street? A. It is only about a block, on Eighth and Gratiot.

Q. Have they any in the territory I have described west of Gratiot street? A. A little group of tracks have recently been extended up to Twelfth street. Within the last few

years they have been increased quite a little. Their capacity has been increased and some additional trackage put in there last year, for instance.

Q. By the Merchants Bridge Terminal Company? A. Put in by the Terminal Railroad Association of St. Louis, but in connection with the old Merchants Bridge Terminal Railroad Company's property. It was an extension of the original Merchants Bridge Terminal Railroad Company's property at Eighth and Gratiot street.

Q. Do you know in car lengths what they have room for on those team tracks? A. At the time of this report there were two hundred and five (205) car lengths there. Those have been gradually built up within the last six or eight years.

Q. West of Gratiot street has the Wiggins Ferry Company any team tracks in the Mill Creek Valley? A. No, sir.

Q. Then no one of the Terminal properties of the Terminal Railroad Association of St. Louis have any team tracks in the Mill Creek Valley other than what you have described? A. No, sir.

Q. And that comprises the holdings of the Merchants Bridge Terminal Railroad Company and the Terminal Railroad Association of St. Louis? A. Yes, sir.

Q. You are familiar and have been, of course, with the use that the Terminal property in the Mill Creek Valley has been put to? A. Yes, sir.

Q. Has any of it been used for yard or storage purposes for either passenger or freight cars? A. Yes, sir.

Q. How much of it and for how long a period of time? A. Well, part of it has been used for the storage of passenger cars ever since the Terminal Railroad Association was organized. At the present time there are portions just east of Eighteenth street and south of Clark avenue, also some portions west of Twenty-first street that are used for the

storage of passenger cars. Those are tracks that adjacent to the Union Passenger Station.

Q. The tracks you refer to have been used for the storage of passenger cars ever since the Union Station has been operated, haven't they, or at least a portion of them? A. Substantially so. They change more or less their arrangements to make improvements and economize room and so forth from time to time.

Q. I will get you to state, if you have any idea of the number of pasenger cars that are handled by the railroads here and necessary to be stored daily. What I am getting at is, I am going to ask you the question how much room they need for the storage of passenger cars in and about the Union Station? A. Well, I should say at the present time from eight hundred to twelve hundred passenger cars. I can give you that exactly, but I have not the figures here.

Q. Just approximately? A. Eight hundred to twelve hundred passenger cars, I should say.

Q. Is it less or greater in number now than in 1904 or 1905. 1904 would not be fair, as that was the World's Fair year. Say for 1905? A. It does not run much short of World's Fair year. It has run up to about that again.

Q. I will ask you if the majority of those eight hundred to twelve hundred passenger cars are stored in these yards in the Mill Creek Valley by the railroad companies that use them? A. Yes, sir. They are going back and forth all the time, but a number are there a part of the day, for instance.

Q. There has to be room for them there when they come in? A. Yes, sir.

Q. Are those tracks used there in the Mill Creek Valley, adjacent to the Union Passenger Station, the tracks of the Terminal Railroad Association of St. Louis? A. Yes, sir.

Q. How much territory in point of blocks or acres would those eight hundred to twelve hundred cars occupy on an

average? A. I should say they would take up perhaps thirty-five (35) acres of land.

Q. Thirty-five acres of land? A. I should say fully that.

Q. How many miles of railroad tracks, team tracks room are located on that amount of ground? A. How many team tracks for freight car purposes?

Q. Yes.

Mr. Watts: You are speaking of passenger trains.

Mr. Crow: Team tracks I am speaking of now? A. Seven to eight hundred cars.

Q. How many cars now for team track purposes are there in the Mill Creek Valley available and that can be used? A. By the Terminal Railroad Association itself there were five hundred and fourteen.

Q. And by the Merchants Terminal Railroad Company about two hundred? A. At Eighth and Gratiot two hundred and five. They have been increased since this time.

Q. I am talking about the period of that report? A. At the time this report was made?

Q. That would make about seven hundred car lengths? A. Seven hundred and twenty.

Q. About seven hundred and twenty cars that the Terminal Railroad Association and the Merchants Bridge Terminal Railroad together would have team tracks for in Mill Creek Valley, aside from the passenger station? A. Yes, sir.

Q. And if the passenger coaches were removed from there and the ground used for the storage of passenger cars in and about the Union Station was used for team tracks, it would just about double the capacity for team track purposes of the Terminal Railroad Association in the Mill Creek Valley, wouldn't it? A. Yes, sir.

Q. Turn to page 7 of your report that you made to the Terminal Commission, and I will ask you if you did not

say in the report that the classification train and storage yards, round houses and shops might very properly be located several miles from the warehouses and tracks on which the public does its business with the railroad companies? A. Yes, sir.

Q. Is that true with reference to the cars stored down there, that they could be stored in North St. Louis or South St. Louis—those passenger cars? A. No, sir.

Q. Why? A. As I stated here, this section was intended to refer to freight cars.

Q. It is for freight cars only? A. Yes, sir.

Q. Why could not the same thing be applied to the passenger cars? A. Simply because they would take too long to get them to and from the station. Passenger trains have to be adjusted very often at very short notice, as they are set into the station. While it is not an impossibility, it would be a great inconvenience to have passenger cars any considerable distance from the passenger station.

Q. But it is very frequently done? A. Yes, sir.

Q. Very often done? It is practicable and it can be done? A. It is a possibility.

Q. You have stated too that Terminal Railroad Association was very much crowded for room for team tracks in the Mill Creek Valley, you stated that in your direct examination, I believe? A. Yes, sir.

Q. And you said in your report to the Commission that additional team track room and additional warehouse room are the two pressing necessities to assist in solving the transportation difficulties of the city of St. Louis? A. Yes, sir.

Q. Doesn't it strike you, a practical railroad man, that if ground is scarce with the Terminal Railroad Association it would be more practical for it to discommode itself a little bit in the handling of passenger cars by hauling them a little bit farther to and from their station, than to discom-

mode seven hundred and fifty people in the transaction of their business? A. That has already been arranged for.

Q. I am asking you the question? A. I say that has already been arranged for.

Q. I ask you if it is not practicable? A. If the passenger traffic can be cared for in some other place, to reasonable advantage, that is all right. But I regard the convenience and performance of the passenger traffic of as much importance to the people as the performance of the freight traffic. I think that is what you mean?

Q. Let the question be read. I want an answer, yes or no.

The question is here read to the witness.

A. I think I would have to answer that question, no, as it stands; because I think passenger traffic should have the preference. That is almost necessarily so in the business.

Q. As a matter of dollars and cents the loss might be very great to the citizens of the city of St. Louis? A. Well, it might help you if in answer to that question I answer by saying that arrangements have been made for handling that business.

Q. We are not supposed to know. That has not been disclosed to the Commission.

Mr. Watts: You are at liberty to tell.

Mr. Crow: He can tell in answer to any question you ask him.

Mr. Watts: He can answer it in his own way.

Mr. Crow: But not by injecting any improper matter in here.

A. I should say that the matter of providing freight facilities should not be allowed to interfere with such handling of the passenger equipment as is necessary to the prompt setting and rapid handling of passenger trains in and out of the passenger station. If it came to a question between moving passenger facilities or having to provide for

freight facilities somewhere else, the freight facilities should be provided somewhere else.

Q. You say on page 7 of your report to the Commission that in spite of the development of the business of the city of St. Louis, the total team track room of the Terminal Railroad Association of the city of St. Louis is practically the same as it was ten years ago; that is a correct statement, is it? A. Yes, sir.

Q. The business has grown at least two hundred and fifty (250) per cent, hasn't it, the freight business, in tonnage? A. In ten years very nearly that.

Q. Approximately that? A. I think I said it has doubled in seven years. I think I said that in this report. That is my recollection.

Q. I will ask you if aside from the Wabash, if you consider it an east side line, and the Rock Island-Frisco, if any of the east side lines have any terminal facilities of their own in the city of St. Louis in the way of team tracks and storage warehouses? A. Apart from the Wabash and the Chicago and Eastern Illinois?

Q. Yes? A. Yes. The L. & N. The Pennsylvania also own some, but do not operate them.

Q. They do not operate them? A. No, sir.

Q. Isn't it true that within the last ten years the Frisco and the Missouri Pacific, Rock Island and the Wabash have each in the business portion of the city of St. Louis acquired property, quite extensive holdings, for team track room and the building of sidings? A. Yes, sir.

Q. As I gather it from your report, you have there (indicating) the gist of the troubles from the standpoint of handling freight traffic in and out of St. Louis, has been a lack of warehouse room and team track room for the public use? A. Yes, sir.

Q. And I believe if you will turn to page 11 of your report there, you will find that you said the following, or that

in substance: "On account of this lack and of sufficient and satisfactory team tracks on the west side of the river, furnished by the Terminal Railroad Association, in many cases the additional cost of teaming from East St. Louis is paid by the shipper, in order to get freight promptly and avoid delay to teams."

Is that statement correct, based on your investigation? A. Yes.

Q. I will ask you if it is not a fact that the western lines, the Frisco, Wabash, Missouri Pacific, coming into St. Louis from the west, have extensive and good team tracks in the city of St. Louis? A. The Wabash and the Chicago, Burlington and Quincy have. The Missouri Pacific has not at St. Louis.

Q. What about the Frisco? A. Well, I should say their team tracks are rather limited for their business.

Q. Limited in what section, near the Union Station? A. In all sections of the city.

Q. What about their team tracks in and around Tower Grove Station? A. Well, for the business out there, I presume they have sufficient team tracks.

Q. They have a considerable amount of ground on which team tracks could be located, haven't they? A. In that region, yes.

Q. Between that and Union Station, and west of Tower Grove Station? A. Yes. Some four miles out there.

Q. I will ask you if any of the land in the Mill Creek Valley that is occupied by the tracks of the Terminal Railroad Association is used for the storage, or has been used for the storage of freight cars? A. Only for holding a few cars for loading as wanted, or a few cars for placing. They have certain tracks where they place a certain number of cars for unloading, so that when a team track is empty other cars can at once be placed upon it and exchange take place between loads and empties.

Q. That is the only use they put those to? A. Yes, sir.

Q. In 1905 how far west did the tracks of the Terminal Railroad Association extend up Mill Creek Valley? A. In 1905?

Q. Yes? A. As far as Compton avenue.

Q. That is how far, approximately, from the Union Station, how many blocks. Union Station ends at Twentieth street. A. I think it is about fourteen blocks, or something like that.

Q. You said awhile ago that it was a fact that the Wabash, Missouri Pacific and the Frisco had acquired extensive properties for team tracks and railroad warehouse purposes in the city of St. Louis, on the west side of the river in the last ten years.

I will ask you if that is true, if the Terminal Railroad Association could not also have acquired extensive properties for additional terminal facilities, such as team tracks and additional warehouses, if they had been disposed to spend the money therefor, or, rather, did spend the money therefor? A. It has acquired a large amount of property in the Mill Creek Valley for that purpose.

Q. When? A. Last year.

Q. Had it acquired any to any great extent, prior to the filing of this suit in 1905? A. I do not think the Terminal Railroad Association proper had. But considerable property in North St. Louis has been acquired for the Merchants Bridge Terminal Railroad Company.

Q. For team track purposes? A. For whatever it might be used for.

Q. But my question was directed at the two things you say are necessary to solve the problem, team tracks and warehouses. Let us stick to that. Was it acquired for team track and warehouse purposes or either? A. I think not.

Q. You think not? A. No, sir.

Q. Well, now, I will broaden my question.

In the ten years prior to the filing of this suit has the Merchants Bridge Terminal Railroad Company, the Wiggins Ferry Company, the St. Louis Transfer Company, or the Terminal Railroad Association of St. Louis, or their allied or subsidiary corporations which they control, acquired in the business portion of the city of St. Louis, any extensive property adapted to be used, or designed to be used, and which are now being used for team track purposes, or for storage warehouse purposes, to be used in connection with the freight transportation business—if so, where? A. I don't know of any extensive pieces. There have been some small pieces.

Q. Do you know where they are located? A. I am unable to say what time the various pieces of property along Hall street, south of Bremen avenue, where team tracks are now located, were acquired.

Q. Those are in what is called North St. Louis? A. Those are in the north part of the city—yes, in the North St. Louis district.

Q. Away from the central business district? A. The Wiggins Ferry——

Q. Before you get away from that subject: How much did they buy up there, do you know, just in extent, and how much track room did that make? A. I have given in this report (witness indicates) the amount of track room they put up there—that is team tracks. Well, they have approximately four hundred (400) car lengths of team track room up there.

Q. Have they the tracks or just the room for the tracks? A. Actual car lengths of tracks they have built. I do not know the terms under which they acquired the property right south of Tyler street, formerly belonging to the Pennsylvania Railroad Company. I presume that is under leases,

but I do not recollect what that arrangement was. That has been made within that time, I think.

Q. That is part of what you figure as the four hundred (400) car lengths? A. Yes, a little over four hundred car lengths, and a little has been added since.

Q. How much of that four hundred car lengths was in the original Pennsylvania property? A. This includes thirty-four (34) car lengths there, and I think some has been added since this report was made.

Q. You mean thirty-four (34) car lengths of the Pennsylvania? A. Thirty-four car lengths of team tracks on that property. There is quite a little additional property.

Q. When was that acquired, within the last ten years? A. I think so.

Q. Ten years prior to 1905? A. Yes, some little time before that I should say.

Q. Some time before that?

Mr. Watts: Before what?

A. He asked if before 1905.

Mr. Crow: I said, within ten years before 1905? A. Yes. But not within ten years from the present time. Within ten years of 1905, is what I am trying to say. I think it was.

Q. The Pennsylvania property was acquired, wasn't it, by lease in 1897, after the contract of the Pennsylvania road with the Merchants Bridge Terminal Railroad Company ran out and the Terminal Railroad Association of St. Louis raised the rate on the Pennsylvania and forced the Pennsylvania to go to the east side and abandon its west side station? A. I could not agree with the premises of that question.

Q. You have knowledge of that question, have you? A. I think it was subsequent to that time, yes.

Mr. Watts: What was subsequent to that time, Mr Perkins? A. The acquirement by lease, or otherwise, of the

property on Tyler street, where the Terminal Railroad Association of St. Louis as present has some team track facilities in North St. Louis.

Mr. Watts: Do you mean that the premises are not true according to your understanding? A. My opinion is that they are not correct, yes, sir. A good many factors, I suppose, entered into the reasons for the Pennsylvania Company giving up their business there at the time.

Mr. Crow: We will reach that later on, when you can give us the benefit of your knowledge on that question.

Q. The team tracks you mention up there are near the west approach of the Merchants Bridge, aren't they? A. It is a considerable distance from the Tyler street tracks to the approach to the Merchants Bridge, but, in general, you might say, they are served and would naturally be served by the Merchants Bridge, yes, sir. They are in the North St. Louis group connected with the Merchants Bridge facilities.

Q. Aren't those tracks, according to your idea, and from your knowledge of terminal conditions here in St. Louis, too far removed from the central portion of the city to relieve the congested conditions arising from the heavy traffic in the central business portion of the city of St. Louis? A. Well, there is a pressing necessity for those tracks right where they are. That does not prevent a necessity existing for similar tracks in other localities farther south.

Q. I will put the question to you in another way.

Do those tracks, located where they are, and has their acquisition been sufficient, to relieve the inadequate facilities supplied by the Terminal Railroad Association, according to your own statement, in the central business portion of the city for the handling of the freight traffic of the city of St. Louis? A. No, sir; it has not.

Q. Then the acquisition of those tracks has not been sufficient to give the needed relief? A. No, sir.

Q. The Wabash and the Missouri Pacific and the Frisco team tracks and the ground for warehouse purposes, which I have referred to as having been acquired in the last ten years, are located where they are accessible and have relieved the freight traffic conditions considerably, haven't they? A. They have been absolutely inadequate to meet the demands of shippers.

Q. I would like to have the question read to you. You have not exactly answered it.

(Previous question is here read to the witness.)

A. I should say this: So far as they have gone, they have tended towards doing that.

Q. I would like to have the question read to you once more.

(The previous question is here read to the witness.)

A. Yes, sir.

Q. Will you please designate where these freight houses of the Wabash, the Missouri Pacific and the Frisco are located? A. The Wabash Company has a series of freight houses between Third street and Collins street, north of Franklin avenue.

Q. Are they a group of buildings? A. I should really say, rather, between Second and Third street. Collins street is simply an alley, you might say, between the two groups of Wabash freight houses. The Wabash Company has in that group of freight houses three distinct buildings.

Q. Have you any knowledge of the extent of these buildings in point of area? A. Yes, sir. The outbound freight house fronting on Third street is approximately eight hundred and fifty (850) feet long, I should say. I have the exact figures of these in my office. It is eight hundred and fifty (850) feet long and about thirty (30) feet wide.

The inbound freight house, on the west side of Collins

street, is of about the same length and about fifty (50) feet wide.

There are some six tracks between those two houses.

Q. Team tracks? A. No, house tracks.

Then on the south side of Collins street is a freight house completed this last fall, which is not quite as long, perhaps, eight hundred (800) feet long and approximately sixty (60) feet wide, I should say.

Q. The west approach of the Eads Bridge meets Washington avenue on the surface of the street, doesn't it? A. The wagon approach?

Q. Yes? A. Yes.

Q. That street, Washington avenue, is about the central business retail portion of the city, isn't it, in the neighborhood of it, if not exactly? A. Well, yes.

Q. How far from Washington avenue is located these three freight houses you mentioned of the Wabash Railroad Company? A. They are four blocks, I believe it is.

Q. And how far from the levee, or river front? A. Three blocks from the river front, leaving out those two so-called streets, Waddingham street and Collins street. They are hardly worthy the name of streets, but they are shown as such.

Q. A good many of the heaviest shippers in the city, in the wholesale line, have their places of business on, and receive and send out goods from Washington avenue, don't they? A. Yes, sir.

Q. And some of the heavy retail shippers also? A. Yes, sir.

Q. When I say "shippers" I mean, of course, inbound and outbound, both? A. Yes.

Q. Is that all that the Wabash Railroad Company has acquired and erected within the last ten years? A. Well, these past few months they have built some team track room on the site of their old freight house at the foot of

Franklin avenue, Franklin avenue and the levee. Not a good location, in my opinion, on account of the heavy grade up Franklin avenue, but evidently of a good deal of use just the same.

Q. It might be improved, in your opinion, by the erection of a two-story warehouse building, with elevator service down the track? A. I made a plan which I thought, in connection with all parties concerned in that neighborhood, would be more desirable.

Q. What was it, substantially? A. It was raising the elevation to the main street level.

Q. How much team track room has the Wabash Railroad Company at the point where these three stations have been erected for freight purposes at Collins street, say, or in that Collins street district? A. They have very little. They have a track on Second street, east of their east freight house, which can be used for team track purposes, and part of which I think is occasionally used. They have not encouraged that very much, however.

As I say, they have built within the last two months, I should say, roughly, sixty to seventy-five car lengths of room at the foot of Franklin avenue.

Q. At the place where these three warehouses of the Wabash Railroad Company we have been talking about are located, their proximity to the shippers renders it unnecesary, doesn't it, to have much team track room? A. No, sir; I should hardly say so. They serve a pretty large territory there and have a very pressing demand for team tracks now. They can not supply the demand to the shippers in that neighborhood.

Q. Is it true that the further removed from the business district the team tracks for the reception and delivery of freight is, the more team track room it needs? A. Yes, sir.

Q. And the nearer in to the business it serves the less team track it needs in proportion to the business done? A.

The more rapidly the cars are loaded or unloaded, under ordinary circumstances, I would say, and the more trips a team may make in a day, the more the congestion would be relieved.

Q. A team going only four blocks could make five times as many trips as a team going twenty blocks? A. No, sir; that would not be the case at all. A very large part of the time of the team is taken in the loading and unloading of the cars, and loading and unloading at the warehouse. You could not figure it out on a ratio of that kind.

Q. Do you know how much space, in point of blocks, these three warehouses with their grounds occupy? A. They occupy two double blocks.

Q. How far are these warehouses from the tracks of the Terminal Railroad Association, speaking now of the Terminal Railroad Association as comprising the Merchants Bridge Terminal Railroad Company, the Wiggins Ferry Company and the Terminal Railroad Association? A. Right close by. That is, the north end entrance to this group of warehouses is right side by side with the Terminal Railroad Association tracks.

Q. Has connection been made with the Terminal Railroad Association at that point or near there with the Wabash Railroad Company's tracks? A. Well, there is a connection within a reasonable distance north for that purpose.

Q. I mean topographically, and the physical location of the Terminal Railroad Association Company's tracks is such that anybody erecting stations there, proper track connection could be made with the Terminal Railroad Association Company's properties? A. The Terminal Railroad Association Company's properties serve the Missouri Pacific freight house immediately north.

Q. Please confine yourself to my question. A. They could serve anybody in that district that could get in there.

Q. They could serve warehouses built on the ground that the Wabash Railroad Company has in there? A. Yes, sir.

Q. Where is the Missouri Pacific Railway Company's warehouse located? A. The Missouri Pacific Railway Company's warehouse is located north of Biddle stret.

Q. How far is that from Washington avenue? A. That is about six blocks further north. They are located on Biddle and Second streets.

Q. Now, how much, in point of territory, does that warehouse occupy? A. That occupies, with the adjacent tracks, a double block.

Q. What is the size of it, do you know? A. Just approximately, it is eight hundred (800) feet long—between seven and eight hundred feet long—and I should say probably about forty-five (45) feet wide.

Q. Do you know when that was built, Mr. Perkins? A. Yes, sir; it was built in the years 1906-1907.

Q. The Frisco people have a warehouse near there, have they? A. In the double block west of the Missouri Pacific.

Q. That is located about six blocks from Washington avenue? A. Yes, sir.

Q. What is the size of their warehouse? A. Their's is a double warehouse, arranged in a similar way to the Wabash. They have an outbound house fronting on Third street that has a platform approximately eight hundred (800) feet long. That is only an approximate figure, however. It is twenty-four (24) feet wide. I can give you the width exactly, but not the length. Then they have an inbound house, on the other side of that block, on the east side of their block, that I presume is forty (40) to forty-five (45) feet wide, but not quite as long.

Q. Has the Missouri Pacific or Frisco any team tracks at these warehouses? A. A short stretch of team track, a few car lengths.

Q. Has either the Frisco or Missouri Pacific or Wabash

or any other railroad company coming in from the east or west, or from the north or south, to St. Louis, acquired any room for warehouse or team track purposes within the last ten years prior to the filing of this suit in 1905? A. I think a considerable part of the property for these had been acquired before that time—for these I have mentioned.

Q. That was not what I asked you, though. A. That is the way I understood the question. (Previous question read.) A. You mean any other than those you have mentioned. I understood you to mean those or any others.

Q. I mean other than the warehouses you have described? A. The Frisco is said to have acquired property for team track purposes. I can not think of the name of the street. It is south of Tyler street.

Q. I don't know it, either. A. Chambers street, I think it is. Then there are several little streets in there. It is said to have acquired some property in the neighborhood of Chambers street in North St. Louis. I think it is Chambers street, but I am not sure.

Q. How much? A. I don't know how much there is in there. There is a piece of property in there which I am told was acquired by the Frisco Railroad Company.

Q. Has any warehouse been built on it by the railroad company? A. There is a little warehouse on part of it that used to belong to the St. Louis & Eastern Railway Company, which went out of existence some years ago.

Q. None has been built by the Frisco Railroad Company on it? A. No, sir; not that I know of.

Q. Has any other railroad acquired any ground for team track or warehouse purposes? A. This is within ten years of 1905? That would take it back to 1895. I am afraid you are making me pose as a real estate expert.

Q. You have been investigating these subjects for the last two years, haven't you? A. I am trying to think what

has been built since 1905. I do not think of any others since 1905.

Q. Now, Mr. Perkins, you qualified yesterday, I believe, as a traffic expert, in that you said you had had a great deal of experience in handling freight traffic, did you not? A. Yes, sir; I have had quite a good deal of experience.

Q. You have been superintendent of six hundred miles of the Chicago, Burlington & Quincy Railroad, which ran into St. Louis, Kansas City and St. Joseph in this state? A. Well, I take it you mean by "traffic" what you might call the "commercial department."

Q. Yes; in a broad sense. A. I was at one time in the commercial department of the railroad.

Q. In your services that you have been rendering as expert adviser to the Municipal Terminals Commission, you have investigated not only the operating facilities and the physical terminal facilities of the present properties, with an eye to the future development, but also the traffic, the volume, and method of handling the same in and out of St. Louis? A. Yes.

Q. And of course in doing that you had occasion to examine into the extent of that tonnage? A. Yes.

Q. I will ask you if it is not a fact that of the total tonnage, inbound and outbound, of the city of St. Louis, speaking of the city in its broad sense now, sixty per cent of it, or about that approximately, moves backward and forward along the lines of travel of the eastern roads that enter St. Louis by way of the Terminal Railroad Association's tracks? A. The question is, does approximately sixty per cent of the traffic handled in and out of St. Louis pass over lines running east of the Mississippi river. Is that the question?

Q. Yes; and into St. Louis from the east. The same thing, yes. A. Yes; I think that is approximately correct.

Q. And that would leave the western lines, or those having termini on the western bank of the river, to handle only

forty per cent of the St. Louis tonnage? A. Well, I presume it would be approximately that. Those would not be quite the figures. It would take a little while to figure that out.

Q. Approximately it would be in the neighborhood of that? A. Yes.

Q. How many lines are there that have their termini on the east bank of the river—that is, what you would call St. Louis lines— lines that serve our city? Name them? A. It is a little difficult to draw the line on some of these new electric lines and so forth. I might name them right down the line

Chicago, Peoria & St. Louis.

C., B. & Q.

Chicago & Alton.

Baltimore & Ohio Southwestern.

Vandalia—or Pennsylvania lines.

Louisville & Nashville.

Big Four—the New York Central lines.

Illinois Central.

Mobile & Ohio.

The Southern.

The Cotton Belt.

Toledo, St. Louis & Western (it has been treated as a separate road, but is now doing its business with the C. & A.).

St. Louis & O'Fallon.

St. Louis, Troy & Eastern.

St. Louis & Belleville Electric (coal business).

St. Louis, Belleville & Southeastern.

Wabash.

Chicago & Eastern Illinois.

I believe I have mentioned all.

Q. Did you mention the Belt Route? A. I included that as the Cotton Belt. I said the Cotton Belt. It might be

perfectly proper, though, to put the Iron Mountain as a separate road. The Valley road belonged to the Iron Mountain and is used by the Cotton Belt and Iron Mountain both.

Q. There is one track along there and the Thebes bridge? A. It would be proper to say the Missouri Pacific also. The Iron Mountain road runs in there.

Q. That makes eighteen lines? A. There is one other electric line that does some coal business. There is an additional electric line that does a coal business, outside those I have mentioned. Then the McKinley lines undertake to do some freight business, but it does not amount to much yet.

Q. These other roads are all in operation? A. Yes, and these electric lines I have mentioned, which do a coal business.

Q. They haul freight? A. That is about all they haul, coal.

Q. That is freight? A. Yes.

Q. These roads you have mentioned, about twenty in number— A. About twenty, yes.

Q. All have their termini at East St. Louis or in the vicinity of East St. Louis, opposite St. Louis, Missouri? A. Yes.

Q. Of course you investigated those terminals, you said, on the east side; I will ask you how many of those roads have termini over there, in the way of team tracks and warehouses? A. Well, there are, roughly, about fifteen hundred car lengths of team tracks over there.

Q. What roads own those team tracks? A. Nearly all of them have more or less team tracks.

Q. You investigated the team tracks of each one, did you not? A. Yes, sir; I have in my files a memorandum of each one of them.

Q. That was not included in the report to the council

or to the Commission, whichever body you made the report to, of yourself and Mr. Moore—the individual terminal facilities on either side of the river, was it? A. No, sir.

Q. But, of course, you have knowledge of them, as you say? A. Yes.

Q. Now, just begin and tell me what roads own team tracks and warehouses there, and what the extent of them is? A. I don't know that I could say offhand exactly the number of car lengths each road has. They run all the way up from thirty to two hundred and fifty, on these different roads I have mentioned . But the approximate total of them all, as I have said, is about fifteen hundred car lengths. Some of those larger roads have as much as two hundred and fifty car lengths of team tracks there, such as the Big Four and the L. & N. Railroad.

Q. Let us begin with the Illinois Central: How much team track has it, and how many warehouses, and where are they located, and what space does it cover? A. The Illinois Central has two freight houses over there across the river.

Q. What are their sizes? A. One is about 900 by 40 feet and the other is 420 by 32 feet.

Q. And where are they located with reference to the east approach of the Eads bridge? A. They are south of the east approach to the Eads bridge.

Q. Approximately how far south? A. Oh, I suppose 1,500 feet or so—1,200 or 1,500 feet or so.

Q. How far back from the river front? A. The end of them is right on the levee. All these roads right along the river, with the exception of the Southern, have their freight houses right on the levee. The Southern's freight house is back on Seventh and Broadway.

Q. We will get to that a little later. How much team track has the Illinois Central at the point where its two

warehouses are located? A. I don't remember the exact figure.

Q. Just estimate it. You can verify it and correct it at any time you want, from your memorandum. A. I presume they have a couple of hundred car lengths.

Q. That is located where, with reference to these two warehouses? A. Right close by.

Q. The object and purpose of these two warehouses of the Illinois Central Road, which you have described, together with the team tracks belonging thereto, which you have described, is to serve principally traffic in and out of St. Louis A. A very large proportion of it, yes.

Q. That is what I said, "principally." A. Yes.

Q. Do these team tracks of the Illinois Central connect with the track of the Terminal Railroad Association of St. Louis? A. The Illinois Central does.

Q. Oh, no; that is not what I asked you: The team tracks you have described to me, do they connect directly with the tracks of the Terminal Railroad Association of St. Louis? A. No; they connect into an Illinois Central lead—into what is called a "lead track."

Q. I understand where they connect, but I want to make this record. A. No.

Q. Your answer to that question is no? A. That is correct.

Q. What is the next warehouse down the river, and to what road does it belong? A. The Mobile & Ohio road has a warehouse there.

Q. How large a warehouse has it? A. They have one 480 by 31 feet and the other is 200 by 30 feet.

Q. Have they any team tracks in connection with that warehouse? A. Yes.

Q. How much have they, in form and extent? A. They have about 120 car lengths.

Q. Do the team tracks that are used in connection with

the freight stations you have last described connect directly with the tracks of the Terminal Railroad Association in East St. Louis? A. No, sir.

Q. What is the next warehouse down the river? A. The Mobile & Ohio is the last one.

Q. Just locate another one and describe it. A. There is the Louisville & Nashville. They are all right along there, the L. & N., the Big Four and the Vandalia.

Q. Take the L. & N. first; where is it located, with reference to the east approach of the Eads bridge and the Mississippi river? A. That is located just a little south of the Eads bridge.

Q. And how large is it? A. It is of a similar size to those I have mentioned. It is 600 by 50 feet.

Q. And how much, if any, team track has the L. & N. in connection with its warehouse? A. I presume it has 200 car lengths.

Q. Do those tracks connect directly with the Terminal Railroad Association's tracks? A. No, sir.

Q. Where is another one located there. You said the Vandalia had one. A. The Big Four has one beyond that.

Q. South of it? A. The Big Four is just south of the Eads bridge.

Q. How far? A. Just a short distance.

Q. And how far from the river? A. They are all right on the levee; the ends of them are on the levee.

Q. And how large is the warehouse of the Vandalia? A. We were talking about the Big Four.

Q. Well, take the Big Four. A. One about 700 by 50 feet and three smaller ones from 100 to 367 feet long and varying from 30 to 40 feet in width. They have inbound and outbound houses.

Q. With a house track between the two? A. Yes.

Q. Any team tracks? A. Yes.

Q. About how many car lengths? A. 100 or more car lengths.

Q. What other road has a freight station in there? A. The Vandalia is the first station north of the Eads bridge.

Q. Have you described all the freight stations south of the Eads bridge? A. Yes, I think so, except the Southern; which, as I said, is back on Seventh street and Broadway.

Q. Then describe the Southern first; how large is it? A. There are two, an inbound and an outbound house over there, located some little distance apart. Oh, I suppose they are 300 to 500 feet long, each of them.

Q. Have they any team tracks in connection with those? A. Yes, they have some team tracks over there.

Q. How much? A. Oh, I presume about 125 car lengths or so.

Q. With each warehouse, or for the two? A. They are right around in a sort of group, all the facilities. They are exactly adjacent to the freight houses.

Q. But they can be used in connection with the handling of that business? A. Well, they are a group of facilities together, in charge of an agent who is right there.

Q. How far are they from the east approach to the Eads bridge? A. They are, I suppose, about six blocks.

Q. They are on Seventh and Broadway, aren't they? A. Yes.

Q. How far are they from the river—ten or twelve blocks? A. No, not quite.

Q. Eight or nine blocks, approximately? A. Yes.

Q. Those are all the freight stations that lie south of the east approach to the Eads bridge, as you recollect it? A. That is all in actual freight stations; there are one or two of these electric roads that have team tracks.

Q. Which ones? A. The St. Louis & Belleville electric road.

Q. Do you know the extent of their team track room?

A. I don't remember it. I have a memorandum of it, but I don't recall it.

Q. Could you approximate it? Is it a couple of hundred car lengths? A. Not as many as that, I think.

Q. You have a memorandum of it? A. Yes.

Q. Will you get it and put it into the record here for me, if you can find it? A. Yes.

Q. Going north of the Eads bridge, what stations are there? A. The Vandalia line has the first one.

Q. How large is that? A. They have two stations.

Q. Inbound and outbound? A. Yes, an inbound and an outbound station.

Q. With a house track between? A. There is a house track just next to them.

Q. What is the size of it? A. They are between 500 and 600 feet in length, approximately.

Q. And how wide? A. One of them is 42 feet wide and the other is probably 60 feet wide.

Q. Are there any team tracks in connection with those? A. They have team tracks right close by.

Q. What is their extent? How many car lengths? A. I presume nearly 150 car lengths.

Q. Do their tracks connect directly with the Terminal Railroad Association's tracks? A. These team tracks?

Q. Yes. A. No.

Q. The team tracks connect directly with the main line of the Vandalia road, do they? A. No, sir; they connect with what would be called a switching lead to a team track lead.

Q. What other station is there? A. The Baltimore & Ohio Southwestern station, which is a similar one.

Q. How big is that, and where is it located? A. That is very similar in size to the Vandalia station.

Q. It is adjacent to it? A. Just north of it.

Q. They have some team track room? A. They have, yes; 90 car lengths.

Q. Then what is the next station? A. The Chicago & Alton, I believe.

Q. Do they have a similar size station? A. No, their station is a little longer, but is narrower.

Q. Have they any team track room? A. A very small amount.

Q. How much, probably? A. I don't know. Probably 80 or 85 car lengths.

Q. What is the next station? A. I believe the next one is the C., B. & Q.

Q. How large is it? A. Not a very large station; it is a small one.

Q. How large is it? A. They have a station there I suppose 400 or 500 feet long, possibly; and about 40 feet wide.

Q. Is there a house track in it? A. Oh, yes, they have a house track for loading and unloading merchandise; and I think they have about 40 to 50 car lengths of team track.

Q. What other stations are there; freight stations? A. There is the Wabash station.

Q. How big is that? About the same size as the Burlington? A. No, sir; it is larger.

Q. How large is it? A. Well, I suppose 600 to 700 feet long.

Q. Is it a single station or a double one? A. It is a double station.

Q. Inbound and outbound? A. Yes, but most of the time for some time one part of it has been closed up. I don't know whether they are using that part of it now; that is the inbound station.

Q. How wide is that station? A. Oh, I suppose the inbound station would be 50 feet wide.

Q. Have they some team track room? A. Yes, they have a small amount of track room.

Q. How much, do you think? A. I suppose about 120 car lengths.

Q. What other stations are there there, beside those you have mentioned? A. The Toledo, St. Louis & Western, which I believe is at present closed. The business of the Clover Leaf is done over in the Chicago & Alton's station. It is a small station and a very small amount of team track room there.

Q. How much team track room? A. Oh, 30 to 40 car lengths, probably.

Q. What other stations are there? A. The Chicago, Peoria & St. Louis has a small station.

Q. How much team track room have they? A. About 70 car lengths.

Q. Is there any other road there that has a station? A. The St. Louis & O'Fallon and the St. Louis, Troy & Eastern have no stations.

Q. Those are the coal roads? A. Yes, coal purely.

Q. Have they stations? A. Not that I know of.

Q. Have they track room? A. Yes, they have track room.

Q. What extent of team track room have they? A. The St. Louis, Troy & Eastern has 145 car lengths and the other about 100 or so.

Q. Is there any other road there that has team track room or a station that you have not mentioned? A. I don't think of any just now.

Q. Generally speaking, all the steam railroads that enter St. Louis and East St. Louis, and do a general freight business southeast and north, have freight houses and team tracks, to a certain extent, owned and controlled by the separate roads? A. Yes, all but the coal carrying roads.

Q. I said the steam railroads that do a general freight business? A. Yes.

Q. In your report to the Commission of 1906, you refer to the number of car lengths there are in East St. Louis as compared with that in St. Louis, don't you? On page 12 you state: "The total team track, excluding the T. R. R A. and Wiggins Ferry, is about 1517 cars." That statement is correct? A. That is approximately correct. That is the one I gave you when you asked for it. I did not remember that I had it in this report.

Q. On the same page, in the same report, you say: "In St. Louis the total team track room of the Terminal Railroad Association of St. Louis, including that of the Merchants Terminal Railway Company, the Wiggins Ferry Company, and the St. Louis Transfer Railway, is about 1,600 cars, or only about 100 more car lengths for the terminals in the city of St. Louis than there is of the individual railroads in East St. Louis." Is that correct? A. Yes.

Q. That statement would indicate to you, as a railroad man, would it not, that the team track room in the city of St. Louis provided by the Terminal Railroad Association is wholly inadequate to the demands? A. Yes.

Q. If the 1,517 car lengths provided and owned by the individual roads in East St. Louis were owned and controlled in the city of St. Louis, and as accessibly located to the central business districts as they are to the central business district of East St. Louis, it would double the present capacity, at least, of the Terminal Railroad Association, would it not—so far as handling the volume of business is concerned? A. You mean if that additional number of car lengths of team track room were added to the Terminal Railroad Association's facilities?

Q. That is not what I asked you. I asked you if these individual roads owned the same number of car lengths for team tracks in the city of St. Louis, Missouri, that they now

own and control in East St. Louis, would not that enable the facilities of the city of St. Louis to be just about double what is now owned and controlled by the Terminal Railroad Association? A. No, sir; I should say not anywhere near.

Q. Why? A. If these individual roads owned in the city of St. Louis that number of car lengths of team track room, I should say on the whole there could not be much more than one fourth of the use made of them that is made use of by an equal number of car lengths of team track room owned by the Terminal Railroad Association, on account of the less friction and less interruption of the work of serving certain special districts. The complications of serving that number of team tracks separately owned and operated about the city of St. Louis would be almost impracticable—would make business almost impracticable.

Q. They are not impracticable as they are located in East St. Louis? A. Not entirely so, but of course they are located where business from them has to be teamed for long distances and that is an expensive way.

Q. Then your idea is, there is a large waste, so far as location is concerned, in the location in East St. Louis of the stations of these individual roads? A. Not so much a waste as far as they now go, because each road should have a freight house and tracks where it can assemble its traffic, but I say it would be a waste for those roads to undertake to duplicate those tracks in another part of the business district.

Q. I will put the question to you this way: If the car lengths of room for team tracks provided by the roads you have mentioned in East St. Louis were located in St. Louis, would it not greatly relieve what is considered the congested condition of traffic here by reason of lack of team track facilities? A. It would only if there were a tremendous amount of additional facilities provided for serving those tracks. Team tracks and freight houses by themselves

are only one factor in the giving of service. There has got to be plenty of leads and switching tracks and so forth, or mediums of circulation you might say, for the business after it is collected or before it is discharged at these team tracks and freight houses. And while it might relieve the situation, and undoubtedly it would relieve the situation in certain respects for certain roads, if such roads would have such facilities on this side of the river, it would be doing it, in my opinion, in a wasteful and ineffectual way.

Q. In other words, you mean to testify as an expert on terminal matters, that it is impracticable and would be wasteful for the east side lines to have individual termini in the city of St. Louis? A. For any large number of them, yes.

Q. That is your statement? A. Yes.

Q. Then please explain why you say in this same report "Individual roads should be encouraged to develop individual terminals?" A. You will notice that repeatedly in the report I am speaking of the St. Louis district as a whole, including St. Louis and East St. Louis, and I said in my direct testimony that I thought each road should have a certain amount of facilities of its own for collecting and distributing its business; but that when it comes to reaching out over different parts of the business districts, all the roads could not do that, and, therefore, some other agency that could do that jointly was the desirable thing.

Q. But team tracks do not reach out all over the business district? A. But they should if they do not.

Q. The team tracks of individual roads—you say that is practicable? A. Oh, no, I did not say that.

Q. You all the time go back to your theory of the terminal system in this city. Please confine yourself to the questions I ask. I am asking about team tracks of the individual roads. If your statement is correct, that the individual roads, either west lines or east lines, should not

be encouraged to develop individual termini in the city of St. Louis, I will ask you why it was that the officials of the Burlington Railroad, with whom you were then, and from whose employ you came into the employ of the city, undertook to develop individual terminals for their own road fifteen years ago, and get into the business part of the city? A. That is exactly what I have been arguing the roads should do. I simply say that in my opinion the Burlington should not undertake to go down the Mill Creek Valley, or in the neighborhood of the Mill Creek Valley, or down into South St. Louis with its tracks.

Q. You are not answering my question. Why did they attempt to get into the business portion of the city and attempt to develop individual terminals, if your statement is correct? A. As I have said, each road should have one set of terminals as a nucleus for handling its own business; and it should also try to get into all business districts some way or other. If it cannot get into one part of the city by one means, it should by another. But it should try to reach out into all parts of the business district, where business is, in order to get that business. Every railroad, to get its share of the business, on an equal rate basis, has to reach out where the business is and get hold of it on equal terms with other railroads. The Burlington Railroad undertook to establish its terminals in North St. Louis.

Q. Is that all? Didn't it buy right-of-way practically down to the Mill Creek Valley? A. It undertook at one time—it had a proposition at one time to build a passenger station at Nineteenth street and Washington avenue. It had an option on the Wrought Iron Range Company's property there. It had pieces of property down along Nineteenth street, various pieces of property, with the idea that it might come down there and build its passenger station at Nineteenth and Washington avenue. Later on it decided

to give that up, as a bad thing to do for itself, and, instead, to run its passenger trains into the union station.

It discussed for a long time what it would do about extending its freight facilities. It was not until 1903 or perhaps it was late in 1902, that the Chicago, Burlington and Quincy Railroad Company decided to go into the terminal Railroad Association of St. Louis, and make that its medium for getting into other portions of the city. Before that it had various plans. At one time it thought of acquiring the Wiggins Ferry Company itself.

Q. Now, frankly, Mr. Perkins, do you think you are answering my question? A. So far as I understand your question, yes.

Q. I asked you if they did not attempt to get into the Mill Creek Valley with their tracks. Now you are telling me what they planned to do about getting into the Union Station, and about getting into the Terminal Railroad Association.

Mr. Watts: That is the Mill Creek Valley.

A. You asked about a line down Nineteenth street.

Q. I beg your pardon, I said nothing about Nineteenth street. You inducted that into it. I know where the property is that they bought? A. I will say they bought a piece of property—it is perfectly true they bought a piece of property on the west side of Twentieth street, on the southwest corner of Twentieth and Market streets. It was thought at an early time they might try to get into the Mill Creek Valley that way, but it was given up as entirely impracticable, and not a good thing to do.

Q. Where is the Burlington freight house located at the present time? A. The Burlington freight house is located between Franklin avenue and Carr street, north and south, and between Waddingham and Main streets east and west.

Q. How far north of Washington avenue is that freight house? A. About four blocks north of Washington avenue.

Q. It is accessible to the central business district? A. Except it is somewhat down the hill; there is a hill to climb.

Q. But it is accessible in point of distance? A. Yes.

Q. How far is that from the North St. Louis yards of the Burlington road? A. About five miles. Yes, to about the middle of the yards it is five miles.

Q. According to your theory, that it is impracticable for railroads to undertake to develop terminals in the city of St. Louis, would it not be more practicable, or just as practicable for the Burlington to build its freight house up there, and then use the Terminal Railroad Association, or some one else's switching facilities into St. Louis? A. I have been very far from saying it is impracticable, or that they should not do so. I have been saying they could do so, with one set of terminals.

Q. Why do you insist no east side road should cross the river with its terminals? A. I do not insist they should not, if they want to. But if they have a freight house at East St. Louis I think they should keep it there. My own view of the matter is, that the whole St. Louis district should be treated as one business center; and East St. Louis is just as much, commercially, a part of St. Louis as North or South St. Louis.

Q. I will ask you this question, to get right at it: Would it not be better for the handling of the freight traffic of the city of St. Louis, if these different railroads which have their freight houses and team tracks in East St. Louis, had the same team tracks and freight houses and other facilities in St. Louis as they have in East St. Louis? A. No, sir; I don't think it would.

Q. Why? A. I undertook to explain that some little time ago by saying that the fact of undertaking to provide for all these——

Q. Did you catch my question? I said, if these roads had these facilities. I am not assuming, what you might

assume, as to what trouble they might have in acquiring them. But assuming they had the facilities in St. Louis that they have in East St. Louis. I do not think the other problem is one you are called upon to solve, as a witness—at least not in this examination? A. I must say my imagination is not sufficient to lay them down on the map of St. Louis.

Q. I am not asking you what you might possibly imagine about such a thing as that. I am asking you if it is not a fact? A. I am not prepared to give my opinion as to an impossibility. I cannot do that.

Q. Now, Mr. Perkins, as a practical railroad man, you came here, and you state you are qualified as an expert to advise this Mayor's Commission as to what was best for the development of the terminal facilities of this city, both as to the operation of the railroad business, and the development of it. Now I put to you the hypothetical question, if the terminal facilities you have described as being located in East St. Louis, such as freight houses, team tracks and so forth, were similarly located to the business district of the city of St. Louis, if it would not be better for the handling of the freight business, and would it not facilitate it? Do you want to go into this record as saying, as an expert, that you refuse to answer that question? A. I will consider that matter (witness pauses). My direct answer would be that I think it would be a very bad thing, indeed, for the city of St. Louis, if they were dumped down here on this side of the river; bad for its business interests, and everything else.

Q. Located with similar facilities to what they have over there? A. No matter what they have. That is taking them all arranged as they are over there and dumping them down over here, it would be a very bad thing for the city of St. Louis.

At this point, by consent of counsel, the further hearing

of testimony herein is continued until tomorrow, Thursday, May 7, 1908, then to be resumed at the same place, at the hour of half past ten o'clock in the forenoon.

Special Commissioner.

St. Louis, Mo., May 7, 1908.

Met pursuant to adjournment as above, on Thursday, May 7, 1908, at half past ten o'clock in the forenoon, at the office of the Special Commissioner, in the Roe Building, City of St. Louis, Missouri.

Present: Hon. R. E. Rombauer, Special Commissioner; Mr. E. C. Crow appeared in behalf of the Government. Mr. M. W. Watts appeared in behalf of the defendant.

The following proceedings were had:

The cross-examination of the witness, Albert T. Perkins, was continued as follows:

Mr. Crow: Mr. Perkins, in your testimony in chief you referred to the terminal agencies at St. Louis as a physical transportation and commercial unit; now, isn't it a fact that before the consolidation those terminal agencies were known as "The St. Louis Terminals" and that since the consolidation they are still the "St. Louis Terminals,' so far as the St. Louis people, and the public, are concerned, but for convenience, merely, are designated "The Terminal Railroad Association of St. Louis"? A. They were and are a part of the terminals of St. Louis. The terminals of St. Louis are the terminals of all of the railroads, individually or collectively.

Q. That is your answer, is it? A. Yes.

Q. You said in your testimony in chief that the Conlogue Railroad was owned and operated by the Terminal

Railroad Association; I will ask you if it did not belong to the Vandalia, or Pennsylvania Company? A. Yes, sir; I understand it did—at least largely.

Q. Do you know if the Terminal Railroad Asociation purchased that property, and if so, how much it paid for it? A. I don't recollect the exact amount paid. That is a matter of record. I have it roughly, but I could not give the exact amount.

Q. Do you remember the date? A. I think it was either in——

Q. About 1903, was it not? A. Yes, I think it was in 1903; at least negotiations were begun to purchase it in 1902.

Q. It was at or about the same time that your road and the Rock Island went into the Terminal Railroad Association, was it not—within a year or so of that time? A. It was about the same time that the Chicago, Burlington and Quincy Railroad and Rock Island went into it. I can hardly call it my road now, as I am no longer an officer of it.

Q. I will ask you if you are not familiar with the Conlogue road, its location and the service for which it is used? A. I have been over it a number of times.

Q. You have been familiar with its service for a good many years, have you not? A. Yes.

Q. One of the important lines for transportation in East St. Louis, is it not? A. Yes, there is a good deal of business done over it.

Q. And has been for a good many years? A. Yes, sir.

Q. I will ask you if the Coulogue Road is used as extensively now for transferring, as when the Burlington operated it in opposition to the Terminal Railroad Association. And when I say "transferring" I mean transferring over the river? A. You mean as much as it was used by the Wiggins Ferry Company prior to the taking over——

Q. I did not say by whom. I just said "used for trans-

fer purposes"? A. I could hardly say. The business is all taken into the amount of business handled by the Wiggins Ferry below the bridge.

Q. You did not investigate that part of it in your investigations, to see what had been the effect on the other transportation agencies of this consolidation? A. Well, in a general way, yes. I could not say exactly, but I presume—well, I cannot say just what the change has been since that time, whether particularly marked or not.

Q. Have you been down there and investigated it since you have been with the Commission? A. Oh, yes, I have been down there.

Q. Did you make any inquiry about the business, the volume of it as compared with what it was when it was operated independently by the Pennsylvania Road? A. Well, yes, I think the business over part of it—I was told that business over part of it had increased quite a little.

Q. But the transfer across the river; that portion of it. That was one of the problems you had to deal with, wasn't it, the transfer across the river? A. Oh, yes, indeed.

Q. Did you make any inquiry at all as to the volume of business that went over the Conlogue road, as compared with what it was before the consolidation? A. I presume I did, but I don't recollect just now, what inquiry I did make about that. I did not regard it as a matter of particularly great importance.

Q. Why? A. Well, I did not regard it as a particularly important place for transferring across the river.

Q. Isn't it a fact that a very large volume of business was transferred over that line across the Mississippi river before the consolidation, when those boats were run by the Missouri Pacific road? A. You mean before——

Q. Before the Terminal Railroad Association acquired the Conlogue road? A. Well, yes, the business of the Missouri Pacific, I suppose, to some extent, handled there, was

naturally taken down to the landing further south, that they control themselves, Ivory and Bixby.

Q. But you are not answering my question. Pardon me, but will you just answer the question.

Mr. Watts: He is trying to.

At this point the previous question is read to the witness.

A. As far as I know the Missouri Pacific were running no boats there.

Q. Then you never investigated and ascertained the fact that the Missouri Pacific Railroad controlled the ferry boats operated in connection with the Conlogue road, prior to the sale of Conlogue road to the Terminal Railroad Association? A. Not inside St. Louis—except such as might have been run——

Q. Just answer the question. I did not ask you about inside St. Louis. Across the river, I asked you, Mr. Perkins.

I believe you stated you had been familiar with the terminal conditions around St. Louis for a long time? A. Yes.

Q. You have made a special study of them for the last two years, have you not? A. Yes, I have been studying them for two years.

Q. Don't you know, then, that it is a fact that the Conlogue boat was used extensively for transferring cars across the Mississippi river for direct connection with the Conlogue road, and for handling cars, before the Terminal Railroad Association got hold of it? A. I think they had one small boat, but the amount was insignificant, taken down probably in the Ivory Station district. I don't know just what amount of business they were doing down there at that time, but it was very insignificant.

Q. Do you know whether or not the volume of business has been largely increased for transfer purposes across the river, that goes over the rails of the Conlogue road since the Terminal Railroad Association took possession of the Con-

logue road? I mean that goes over the river in transfer boats? A. I don't know what the figures are. I presume it has, for certain reasons, but I don't know what the figures are.

Q. Isn't it a fact that there was a line of boats operated there, and at the cradles where the Conlogue boats touched on the east bank of the Mississippi river, in connection with the Missouri Pacific road, and that these have been transferred down the river, to the Ivory Ferry, by the Missouri Pacific road? A. The boat that was transferred down the river to the Ivory Ferry belonged to the Interstate Car and Transfer Company, and was bought by the Missouri Pacific road. That boat was in service between North St. Louis and the old V. & C. cradle belonging to the Southern Railway, not in service at the Conlogue landing. That is a four track boat.

Q. Now, Mr. Perkins, you know just exactly the question I am getting at. I don't want to undertake to make suggestions to you all the time, but I submit you know what that question it. I am asking you if it is not a fact that the boat that was operated in connection with the Conlogue road by the Missouri Pacific Railroad, was not transferred down to Ivory Station because the Terminal Railroad Association would not make connection with the Missouri Pacific road there any longer. You certainly understand that question. A. Well, I am not positive as to that. I think it is probable it was, but I really could not say yes or no to that question.

Q. Wasn't this boat that was used by the Missouri Pacific road in connection with the Conlogue road, before the consolidation, entirely in the service of the Missouri Pacific? A. I cannot say positively as to that.

Q. Those are questions you did not investigate? A. I don't recollect them, if I did. I presume I knew them at one time, but I haven't them in mind now.

Q. Did you investigate the tonnage that was handled in 1900, 1901 and 1902 by the six separate agencies that were then independent transfer agencies across the river? A. Well, no; the only exactly analyzed figures I made and published were those for the year—the first figures were for the year 1905. I made an analysis of those in 1905, but I did not make any analysis of the divisions of the traffic crossing the river, for 1900, 1901 or 1902.

Q. Mr. Perkins, I will ask you whether you know or not whether the Missouri Pacific Railroad operates its own transfer across the Mississippi river, and is independent of the Terminal Railroad Association on that question? A. I do.

Q. Do they operate their own transfer? A. Yes.

Q. Where is it located? A. South of the St. Louis city limits at Ivory on the Missouri side of the river.

Q. The Missouri Pacific Railroad has very extensive terminals on this side of the river, hasn't it? A. Yes, sir.

Q. Considering it as including the Iron Mountain Railroad also? A. Yes, quite extensive terminals.

Q. If consolidated terminals are better, why is it that the Missouri Pacific road, owning lines on both sides of the river, operates its own terminals and transfer facilities across the river? A. I presume it finds it economical to do so for the business on the south end, and away at the extreme south end of the city, on account of the location of its two yards, away at the extreme south of the city, and a considerable distance south of East St. Louis, at Bixby.

I don't understand that any considerable volume of Missouri Pacific business proper is handled over that ferry. The business handled there is principally Iron Mountain and Cotton Belt business.

Q. It is west side business and east side business both, is it not? A. Part of it is; a considerable volume of the business handled there goes over the river and comes back

again, as a matter of fact, say by way of the Thebes Bridge and over the Valley line and back to South St. Louis. One of their objects in doing that is to avoid their heavy grades south of here.

Q. Did you ever make an investigation, since you have been acting as expert to advise the city here, as to whether any vast amount of Missouri Pacific business went down over the river that way, and whether any great amount of business of the Iron Mountain and the Cotton Belt roads went over to Ivory Station and up to St. Louis, west and north? A. Yes, I have made a great many inquiries in regard to that. I have had several conferences with the superintendent operating it.

Q. Didn't you find there was a vast amount of traffic that flowed along the route I have indicated, such as lumber, grain and cotton? A. Quite a large volume of business, yes.

Q. That was all Missouri Pacific business, wasn't it? A. I showed you a chart yesterday that showed the proportion of business went that way. The exact figures are given there.

Q. I don't know what you refer to. I did not ask you any such question yesterday? A. Are those reports here that were referred to yesterday?

Q. Yes, here they are.

I am not referring to all the business that crosses the river, but just on the Missouri Pacific? A. Perhaps what I have here will exactly answer what you want. Here is the percentage for the year 1905 (indicating).

Q. Percentage of what? A. Of the total business crossing the river in the neighborhood of St. Louis, and the different way it crosses.

Q. That is, 9.68 per cent, according to your map, of the business went over the Ivory Ferry? A. Yes.

Q. You say you presume the Missouri Pacific road oper-

ates its own transfer because of the fact that owning lines on both sides of the river, and having terminals very extensive on this side, it finds it more economical to do so? A. I said, on account of their location at the far south, far from their other facilities.

Q. Mr. Perkins, isn't it a fact that the Missouri Pacific owns as fine individual terminals as any line in St. Louis, and that it extends right into the heart of the city and through to the western side of the city, from the Mississippi river? A. Altogether their terminals are more extensive than any other road has.

Q. Then they are not confined to the south side of the city? A. They are not particularly well arranged, but they are a very extensive system of terminals.

Q. They come right down to the levee, through what you say it is the best for terminal purposes in the city, in the Mill Creek Valley? A. They have a very excellent situation.

Q. They come right down over Poplar street to the levee? A. Yes.

Q. And its business that arises from the north and west, over the Ivory Ferry to the south and southeast via the Missouri Pacific and its allied lines, must pass up through the central portion of the city, or around over the Oak Hill branch and to the western part of the city, in that direction? A. Yes, sir.

Q. Then it does reach the central part of the city, and it is not because of the fact that it is located down there in the southern end of the city, is it, that this transfer is made? A. Why, yes, that the Iron Mountain yards are, and that the Bixby yards are.

Q. The Burlington road owns a line coming down on the east bank of the Mississippi river, and controls it? A. Yes.

Q. And they own one on the west bank of the Mississippi

river, do they not? A. Well, they do not own it quite into East St. Louis.

Q. But they operate it? They have an operating arrangement in there? A. They operate at East St. Louis.

Q. Now if that is true, and the reason you give for the Iron Mountain road operating a ferry down there in the south end of town is correct, why wouldn't it apply to the Burlington road, and if it was economical, induce the Burlington road to operate its own ferry in North St. Louis, where its extensive yards are located? A. The Burlington has no very extensive yards in East St. Louis, or very extensive terminal properties. Its business at East St. Louis is very small as compared with the Iron Mountain and Cotton Belt business that comes up over the Valley road. The C. B. & Q., as a matter of fact, actually does the same thing that the Missouri Pacific does, with such business as it can handle to advantage on the other side of the river. That is, it sends certain business across the Alton Bridge at Alton, for which it pays the owners of the Alton Bridge a trackage charge for going over the bridge.

They found that desirable for some business, just as the Missouri Pacific system finds it desirable to send certain portions of its business across this Ivory ferry.

Q. You had jurisdiction and control of that Alton Bridge, when you were Superintendent of the Burlington Road, did you—I mean of the tracks of the Burlington and the business of the Burlington that went over that bridge? A. I had jurisdiction up to West Alton. The C. B. & Q. never owned or controlled in any way the Alton Bridge.

Q. I did not put my question that way. I limited it properly. A. Well, the Alton Bridge is a separate proposition.

Q. I understand that. There is no use encumbering the record with all that.

Mr. Watts: You asked him if he had control of the Alton Bridge.

Mr. Crow: He said he had control up to West Alton? A. I did not personally control that which comes from the north to West Alton, but I had a good deal to do with it.

Q. Don't you know it to be a fact that in order to starve the Alton Bridge to death, the Burlington road repudiated its agreement with it and transferred its traffic and diverted it until the Alton Bridge went into bankruptcy and was absorbed by the Terminal Railroad Association? A. No, sir, I do not.

Q. You don't know anything about that? A. I know something about it, but I don't know that what you say is correct.

Mr. Watts: You know it is incorrect?

A. I think it is incorrect.

Mr. Crow: That is where we differ. I will convince you.

A. The C. B. & Q. took no part in that.

Q. Does the Southern Railway own its belt line connecting the different railways at East St. Louis? A. What is called the Venice & Carondelet Belt, I presume you refer to?

Q. Yes. A. I understand they own a controlling interest in that.

Q. And have for many years? A. Yes. It was out of their hands, under a lease, for a long time. I don't know just how their ownership stands at present, but I think they control it.

Q. Is it not a fact that what we call the Southern Belt over there, connects with almost every railroad in East St. Louis? A. Yes, with most of them.

Q. All the principal lines, doesn't it? A. Yes, sir.

Q. It goes right across them? A. Yes.

Q. When the Southern Railway went into the control of the Terminal Railroad Association, I will ask you if it

puts its terminal belt under the control of the Terminal Railroad Association? A. I think not.

Q. The Southern Belt Line is a very important factor, is it not, in handling business in East St. Louis, of all the railroads? A. Yes, sir.

Q. And especially so with the Southern Railroad? A. Yes.

Q. I will ask you if it is not a fact that the Southern Belt I have mentioned, known as the Venice & Carondelet Railroad I believe, technically, has not more industries located on it than any other of the East St. Louis Lines, or lines that come into East St. Louis? A. Well, it has a very large proportion of the best industries. It has, so far as the town of East St. Louis itself is concerned.

Q. That is what I am talking about. A. When you come to the north end there, that would not apply. Or if you take the whole group together, it would not apply.

Q. Where does it reach from? A. My recollection is that reaches from a connection with the Southern Railway east of the Pittsburgh dyke.

Q. Near the approach to the Eads Bridge on the east side? A. Oh, no, nowhere near the approach to the Eads Bridge. It is away south of there.

Q. You are talking about the southern terminus of that Belt? A. I am talking about the terminus of that Belt. I understood you to say, where did it reach. I say it reaches from a point east of the Pittsburgh dyke; (that is approximately I should say five thousand feet south of the Eads Bridge) around East St. Louis, with a connection to the stockyards and up to Venice.

Q. That is how far above the bridge? A. Venice is, I suppose a mile and a half above the bridge.

Q. And how long would you say, approximately, this road is? A. My recollection is that it is somewhere be-

tween three and four miles long. I have forgotten the exact figure. I had it to an inch at one time.

Q. It passes right up through East St. Louis? A. Yes, sir.

Q. Does it touch Madison? A. No, sir.

Q. Or Granite City? A. No, sir. It comes in down where the old Pope Glucose Works were.

Q. Was there formerly a ferry and cradle operated in connection with it, on the east side—that is, with the Southern terminus? A. Yes.

Q. What ferry was that? A. The Inter-State Car Transfer Company's ferry.

Q. And it was so operated up to the time the Interstate Car & Transfer Company was absorbed by the Terminal Railroad Association? A. Yes, and I think it still is.

Q. But it was operated as an independent Company then? A. Yes, at that time it was operated as an independent Company, up to about the end of 1902.

Mr. Watts: What Company do you mean by "independent Company"? A. The Inter-State Car & Transfer Company.

Mr. Crow: Q. Since the consolidation of the Inter-State Car & Transfer Company with the Terminal Railroad Association, the boats are still operated? Operated as part of the Terminal Railroad Association's property? A. Yes.

Q. But the Southern Belt Line—the Venice & Carondelet road—is operated by the Southern Railroad independently? A. Yes, so I understand.

Q. Does the Southern Railroad have any terminals on this side of the river? A. No, sir.

Q. The Terminal Railroad Association has terminals on the east side of the river? A. Yes, sir.

Q. And the Southern Railroad also has terminals on the east side of the river? A. Yes, sir.

Q. And warehouses? A. Yes, sir.

Q. Team tracks? A. Yes, sir.

Q. Your last answer about the boats indicates that the Terminal Transfer Agencies reach a point of connection with the independent terminal of the Southern Railway, at the southern end of it? A. Yes.

Q. If consolidation terminals are best, why doesn't the Southern Railway put its splendid belt line you have described, into the Terminal Railroad Association? A. Well, I cannot say as to that, just why they have not. The other roads, very likely, do not care to pay their part of it, as they have sufficient facilities of that kind without it.

Q. Do you mean to say that if the Southern Belt Line was taken up, it would not inconvenience the other roads in East St. Louis? A. Well, it might to some extent—it would to some extent.

Q. What substitute would there be for the Southern Belt Line? A. The general exchange business is pretty well taken care of by other facilities. Of course the industries on that must be served. I don't know what the negotiations between the Terminal Railroad Association and the Southern Railway Company may have been in regard to it. I am not familiar with those. They were made, undoubtedly, while I was away. To what extent the Terminal Railroad Association and the Southern Railway Company negotiated for that piece of property I do not know.

Q. You don't know that they negotiated at all, do you? A. No, sir. As I say—

Q. Your answer to my inquiry would be, that you simply don't know why? A. Yes, that is true.

Q. In your direct examination you stated, as follows, in substance: "The Terminal Railroad Association of St. Louis was organized in 1889 to take over the old Union Railway & Transit Company and the St. Louis Terminal Railroad property and to acquire for the benefit of a number of railroads the lease of the Eads Bridge and the tunnel,

that were at that time in the possession of the Missouri Pacific and the Wabash Railways. The Missouri Pacific and the Wabash and the Iron Mountain Railways being practically all there was here in the way of St. Louis railroads coming in on this side of the river. The Chicago, Burlington & Quincy Railway came in at that time over the Wabash tracks. The Missouri, Kansas & Texas Railway did not come in here at all. These properties, then in control of the Missouri Pacific and the Wabash roads, were taken over by a Terminal Company, with the intention that they should be shared equally by all the roads that wanted to come in here and use them. And from that time I should place the real beginning of the development of a terminal system in St. Louis."

That is about the substance of your testimony in chief on that question? A. Yes. I think I explained later that the Frisco did not get into connection with this particular piece of property.

Q. You said in that answer that the Chicago, Burlington and Quincy Railroad was already in the city, but using the Wabash Company's tracks, in 1889? A. I said—

Q. Here is an official copy of your testimony, Mr. Perkins. Here is what I read from, right there (handing paper to witness). A. Yes; I take it for granted you have no objection to my calling the old St. Louis, Keokuk & Western the Chicago, Burlington & Quincy?

Q. No, it is all the Burlington system. A. It was after that it was absolutely acquired.

Q. They were operating it? A. Operating it by a receiver.

Q. But the statement is substantially correct, that the Burlington Railroad was running its trains into St. Louis at that time? A. Yes; over the Wabash Company's tracks —passenger trains, I should say.

Q. You think they were operating it under a receiver?

When did they commence running their freight trains in—just approximately? A. I think they began running some trains in over the Wabash North St. Louis line about 1890. They did not begin the use of their own freight station until 1892, and had been using a little station of the Wabash at North St. Louis for two or three years prior to that. Well, they may have been running some little trains into North St. Louis to that little freight station up from 1889.

Q. Say from 1892? A. They were running freight trains in there from that time.

Q. That is, from 1892 the Burlington Road was in here, running its passenger and freight trains into the City of St. Louis? A. Yes. It began in 1892 using its own freight station, but had no other terminals. It came in over the Wabash line with its freight trains and ran its passenger trains in over the Wabash tracks.

Q. It was in here, asking for competing business, seeking it? A. Yes.

Q. You said in this answer I have quoted from: "These properties then in control of the Missouri Pacific and the Wabash Railroads were taken over by a Terminal Company, with the intention that they should be shared equally by all the roads that wanted to come in here and use them."

I will ask you when the Chicago, Burlington & Quincy Railway Company became a member of the Terminal Railroad Association of St. Louis, and gained the use of all tracks by the consolidation? A. Not until the end of 1902.

Q. If it was the intention of the Missouri Pacific and Wabash Railroads, and of the Terminal Railroad Association of St. Louis, that all these roads should share equally the use of the terminal facilities, and if union or consolidated terminals are such a good thing for the City of St. Louis, why did not the Burlington Company avail itself of that use during the ten or twelve years that elapsed while they operated independently? A. They did avail themselves of

the passenger facilities, and also availed themselves of the freight facilities in the Mill Creek Valley, paying tonnage and switching charges to the Terminal Railroad Association for handling their business in the Mill Creek Valley.

The Chicago, Burlingon & Quincy Railroad at one time figured on building its own passenger station, as I think I explained yesterday; and did build a small station for temporary use, in North St. Louis; but decided it was a wiser thing to use a union passenger station, and, therefore, made an arrangement with the Terminal Railroad Association for running into the Union Passenger Station.

The Chicago, Burlington & Quincy Railroad Company, however, did not for a long time decide it was best to become a joint owner, and assume its share of the joint responsibility of the Terminal Railroad Association. There were a great many discussions about that, for many years, as to what it was advisable to do about it. But the management of the road finally decided it was the most up-to-date thing to do, to go into the Terminal Railroad Association of St. Louis; and the wisest thing for the future growth of the business.

The man who was the General Manager of the C. B. & Q. at the time, told me he had for a long time doubted whether it was a wise thing for the C. B. & Q. to join in the Terminal Railroad Association, but he had changed his mind and thought it was decidedly the best thing to do.

Q. Isn't this a fact, Mr. Perkins, and don't you know it to be true, that the C. B. & Q. Railroad would never have gone into the Terminal Railroad Association but for the efforts of the Rock Island Railroad to buy the Wiggins Ferry Company? A. Well, no; I hardly think that is true. I think eventually it would have gone in anyway. To confirm my own opinion about that I was talking to Mr. Howard Elliott awhile ago, who is now President of the Northern Pacific Railroad, and he said he had long since changed

his mind about that, and thought it was the wisest thing anyway for the road to do.

Mr. Watts: You might state his connection with the Burlington Railroad. A. During the greater part of the period we are talking about Mr. Howard Elliott was the General Manager of the Chicago, Burlington & Quincy, and later was its Vice-President.

Mr. Crow: Q. Then its going into the Terminal Railroad Association was really precipitated by the efforts of the Rock Island Road to get in here? A. I think probably that was one of the factors in precipitating it, as you say, at that time. That was not the only factor, though.

Q. Were you connected with the Burlington Railroad in an operating way in 1889, when this Terminal Railroad Association of St. Louis was formed? A. No, sir; I was in the Traffic Department at that time.

Q. Don't you know that it was generally understood among railroad men, and was a fact, that the consolidation effected by Mr. Gould in 1889, by the union of the Missouri Pacific, Iron Mountain and Wabash, the Louisville & Nashville, Baltimore & Ohio, etc., was brought about to prevent the Merchants Bridge enterprise, and to keep the Big Four, Baltimore & Ohio, and Louisville & Nashville from an alliance with the Merchants Bridge, then being built? A. No, sir; I was unaware of that. I have talked to a great many of the people who worked it up. I have talked a great deal with Dr. Taussig, who organized the Terminal Railroad Association, and I never gained that impression from him in any way; nor from any of the officials of the different railroads that went into it at that time.

Q. Mr. Priest asked you if the Iron Mountain Railroad, in 1889, at the time of the organization of the Terminal Railroad Association, had any physical connection with the tracks of the Terminal Railroad Association of St. Louis: You said, "No, I think not at that time."

I will ask you if the Poplar street track was not then where it is now, and if it was not owned by the Missouri Pacific Railroad, and operated by it? A. There were two questions beyond that, which explain that, where I said I was under the impression that the Missouri Pacific Railroad controlled that practically at the time, as distinguished from the Iron Mountain. I remember asking him if he meant by his question whether the Iron Mountain independently of the Missouri Pacific had that connection. And I said I did not think the Iron Mountain independently of the Missouri Pacific had.

Q. As a matter of fact, Mr. Perkins, the Iron Mountain is operated in connection with the Missouri Pacific and has been for many years, because the Missouri Pacific owns practically all the stock of the Iron Mountain Company, doesn't it? A. Yes, it now is.

Q. And was at that time, wasn't it? A. No, sir; the operations were quite distinct at that time, while I presume the ownership was about the same as it is now.

Q. Will you explain any difference in the operation of those two roads then as compared with now? A. Yes.

Q. What were they? A. They had separate General Managers and Superintendents; and entirely separate freight agents and organizations.

Q. Aren't there separate General Managers and Superintendents now, for the Iron Mountain and Missouri Pacific roads? A. No, sir. Mr. Sullivan, as I understand, is General Manager of both roads.

Q. Since when? A. I don't know on just what date that took effect, but for some time I think they have had the same General Manager and Freight Agent and the same Superintendent of Terminals.

Q. The difference you mention is simply one of the evolutions of the railroad business in the intervening years? A. Yes, sir.

Q. And has taken place on the Burlington and a great many other lines? A. Yes, sir.

Q. But for practical purposes the operation was the same before as now? A. No, quite different.

Q. Mr. Perkins, do not misinterpret my question. You know I do not refer to the mere official operation, but to the actual control of the traffic. A. The actual control was of course the same. But there were two different managements.

Q. I do not mean actual control of the stocks of the companies. I mean the actual control of the traffic. A. I think it could hardly be said to be the same then as now.

Q. Is that your answer? A. Yes, sir.

Q. You know, don't you, that the Poplar street track connects with the Wiggins Ferry tracks on the levee? A. Well, indirectly, yes; through the Iron Mountain track on the levee.

Q. You say the roads are operated as one now: Then the connection must be direct one, is it not? A. So far as the Missouri Pacific and the Iron Mountain roads?

Q. Yes. A. It is the same now.

Q. It is a direct one? A. They have the same Superintendent and the same Agent.

Q. This connection on the levee is a direct connection? A. Yes, sir.

Q. The connection between the St. Louis Transfer Railway Company's rails and the Missouri Pacific Railway Company's rails is a direct one? A. Yes; I would call it that.

Q. With what other roads does the Missouri Pacific Railroad connect at that point? A. At Poplar street?

Q. Yes. On the levee, where it strikes the rails of the St. Louis Transfer Railway? A. Right there, there are no other connections. Further north the Iron Mountain track (or the Missouri Pacific track, if you choose to call

it that) connects with the Wabash. That is up in the neighborhood of Carr street where it connects with the Wabash.

Q. How many tracks are on the levee, of different companies I mean, from Poplar street north? A. Three.

Q. Which ones are they? A. The St. Louis Transfer Railway, the Iron Mountain (or Missouri Pacific) and the Wabash.

Q. Do the Missouri Pacific and the Wabash connect at a point north of the Eads Bridge, with the Merchants Bridge Terminal Railroad tracks? A. The Iron Mountain does not; the Wabash does.

Q. Does the Missouri Pacific? A. No, not with its main line. There is a connection into their North St. Louis freight house. They have no connection of their own up there.

Q. Has not the North St. Louis freight house connection with the tracks of the Missouri Pacific going up the levee? A. No, sir.

Q. How do they reach it? A. Over the Merchants Bridge Terminal.

Q. Then the Merchants Bridge Terminal tracks must touch the Missouri Pacific's levee tracks somewhere? A. They touch them in the Mill Creek Valley at about Eighth or Ninth street.

Q. They have no connection on the levee? A. None whatever; no, sir.

Q. There is no connection between the St. Louis Transfer Railway, or the Merchants Bridge Terminal Railway, north of Eads Bridge? A. We are talking about the St. Louis Transfer Railway?

Q. Yes. A. Oh, there is a connection there. There is a cross-over switch there, where they can get in; but they do not make their interchange there.

Q. I was not asking you where they made their interchange? A. I want to be perfectly straight in what I say.

I understood you were referring to a method of getting into the Missouri Pacific freight house in North St. Louis.

Q. No, sir, you inducted the freight house into that statement. I said nothing about a freight house.

Mr. Priest asked you, in your examination in chief, this question: "What connection did the Terminal Railroad Association of St. Louis have with the railroads on the east side of the Mississippi River, at the time I allude to" (referring to 1889). And your answer was: "My recollection is that it had not at that time acquired a connection with either the Illinois Central or the Mobile & Ohio, but had to do any business with those two roads over an intermediate connection. I shall have to say that is my recollection. I have not looked into the question recently, but that is my recollection, that they had not at that time acquired a connection with either the Illinois Central or the Mobile & Ohio Railroads."

Now do you know anything different about that question at this time? A. I have not looked the matter up. It was just a casual question, and I gave my recollection of it.

Q. It is a material question I suppose, in this inquiry, because it referred to the consolidation. But you hadn't looked it up then, and haven't now, to see what the connections of the Terminal Railroad Association on the east side of the river were, at the time it was formed, with these east side lines? A. Well, I have looked it up in the past.

Q. How long in the past? A. I cannot say when I last looked it up.

Q. Since you have been adviser to the Commission? A. I presume—well, I don't know thoroughly whether I have gone over that particular thing in that time or not.

Q. That would be an important fact in the history of the organization of this company? A. That would have cut no figure whatever with the Municipal Bridges and Terminals Commission's work, as that Commission was dealing with

present conditions. They are not interested, so far as their work is concerned, in what may have been the case eighteen or twenty years ago.

Q. Mr. Perkins, in your answer to the question I have read to you, didn't you mean to convey the impression, and didn't you mean to say, that that consolidation in 1889 was good because of the fact that the Terminal Railroad Association, by that consolidation, acquired vast connections on the east side of the river? A. Why, that was an important thing, yes.

Q. But didn't you mean to say that by the answer to the question which I read you, and wasn't that the idea you were trying to convey? A. Yes, that it acquired and arranged to make connections.

Q. And, therefore, the consolidation was a good thing. A. Yes, sir.

Q. Now, then, isn't it a fact that for years after the consolidation it had no more connection on the east side than it had had theretofore for thirty years; and in that view of it would not the suggestion as to the heretofore part of it be material? A. No, sir, not for the work I have mentioned. The work I mentioned, the facts necessary to that are, what are present conditions, and what could be done with present conditions, to put them in shape to do the business of the City of St. Louis. Those are the two things.

Q. Do you or don't you know, as a terminal expert, advising the City of St. Louis through this Municipal Bridges and Terminals Commission, that the East St. Louis lines have been connected with what are now the Illinois Central lines thirty-four years? A. I said at that time that I didn't remember whether they had been or not.

Q. If it had been connected so, then the consolidation did not help the Illinois Central any, so far as getting on the Eads Bridge from the East is concerned, did it? A. I

should say that it did, as far as providing facilities on this side of the river to do business over here.

Q. Don't come on this side of the river. Stick to the other side. I said, so far as getting on the east approach to the Eads Bridge was concerned? A. I cannot remember. Very likely it did.

Q. Don't you know it to be a fact, as an expert on Terminal matters, that the Mobile & Ohio Railroad had access to the east approach to the Eads Bridge, through the Conlogue road, for years before the consolidation took place over there? A. That is what I had in mind, about the Mobile & Ohio, and possibly I got it mixed with the Illinois Central. I said it had to go through an intermediate channel.

Q. But it had that access, through the Conlogue road? A. Yes, I said they had to go through an intermediate channel to the Mobile & Ohio; and I happened to have in mind they did a similar thing for the Illinois Central; I don't know it.

Q. Do you know, as a man who has examined conditions in East St. Louis and in St. Louis, as an expert on railroad questions, that the tracks of the old Terre Haute Road run right into the east approach to the Eads Bridge, and that that road was acquired by the Illinois Central road in 1896, by the purchase of a majority of its stock, and that an operating agreement with the Big Four enables it to come in over these Terre Haute Railroad's rails, right into the east approach to the Eads bridge; and that this arrangement let the Big Four and the old Terre Haute, and also the other lines that used its rails, into the East approach of the Eads Bridge, before the Terminal Railroad Association of St. Louis was formed in 1889? A. You refer to the old St. Louis, Alton & Terre Haute line?

Q. Yes. A. I think that was the case.

Q. Do you know whether or not it is true that the Con-

logue Railroad, in connection with the Missouri Pacific Railroad's transfer boats at Carondelet, had operated a transfer line complete, and open to all lines, since 1873? A. I don't know anything about that. I cannot say as to that date. I presume if a man wished to send business down that way, he could.

Q. The Conlogue road was operated long before the formation of the Terminal Railroad Association of St. Louis in 1889, was it not? A. Yes, sir, it was in the market for any business that could go over it.

Q. And the physical condition and operation of the Conlogue road has not been changed any since the Terminal Railroad Association of St. Louis was formed in 1889, except that it cut off the connection of the boats of independent lines? Isn't that true? A. I don't know there was anything else. The last time I went over it it looked about as usual.

Q. Isn't it true that the Southern Railway, or its predecessor, operated a complete Belt Line, open to all railroad companies; and that it operated its own transfer boats, and later in connection with the St. Louis Transfer Railway Company, to and from both sides of the river, for many years? A. It operated a Belt Line, and later on it leased that Belt Line to the Inter-State Sand & Car Transfer Company, which later on became the Inter-State Car Transfer Company.

Mr. Watts: You are referring to the Southern Belt? A. Yes, sir.

Q. Do I understand you to say that was leased to the Inter-State Car & Sand Company? A. The rights to operate over the V. & C. Belt were leased to the Inter-State Car & Sand Company for a period of years.

Mr. Crow: Q. That lease has since expired, I believe? A. Yes, sir.

Q. That Venice & Carondelet, or Southern Belt Line,

was operated many years before 1889, was it not, by the predecessor of the Southern Railway? A. The old L. E. & St. L.

Q. The old Air Line? A. Yes.

Q. And that was a terminal that has not been affected, so far as being physically changed, or any change being made by reason of this consolidation, in East St. Louis? A. No, sir, I don't think there has been any material change in it.

Q. Isn't it true that the Mobile & Ohio, for years before 1889, when the Terminal Railroad Association of St. Louis was formed, had access to the St. Louis terminals from the east bank of the Mississippi river, through the Wiggins Ferry, and its boats and tracks on this side of the river? A. Yes, I stated in my testimony they had that.

Q. Isn't it true that the Mobile & Ohio, after the erection of the Merchants Bridge, could also reach the Merchants Bridge and all its terminals, through the Southern Railway Belt? A. I don't know at what time the Madison Belt Line got a connection to the Venice & Carondelet Belt; but I assume it did at an early date.

Q. It didn't do it before 1889; I do not fix any time in that question. A. Oh, yes, it could, after the Merchants Bridge was finished, through the Belt Line.

Q. The Merchants Bridge was not opened until 1890. A. I am aware of that. But I mean, the completion and the connection between the Madison Belt Line connecting with the Merchants Bridge, which was an entirely separate Company. It would mean that the Mobile & Ohio would have to use an intermediary Company to get on to the Merchants Bridge.

Q. But the Mobile & Ohio had that connection, and has it now, with the Merchants Bridge, if they want to use it? A. Yes, I think they can get through there. I think there is a connection north of the Stock Yards.

Q. The Southern Railway Belt, or its predecessor, before 1889 reached nearly all of the railroads in East St. Louis that were then there, didn't they? A. The Southern Railway, through its belt, yes.

Q. What is now the Southern Railway; I said, it or its predecessor? A. Yes.

Q. And it had access to the Wiggins Ferry through its connection, if it wanted to use them, also? A. Yes.

Q. Then if these facts are true, isn't it true that the development of the terminals of St. Louis, speaking of it as you term it, the East St. Louis, Venice, Madison, and St. Louis, Missouri, began a good while before 1889? A. Prior to that time, just a haphazard putting down of tracks most anywhere. There was no real system about it before that time.

Q. It was an independent system of terminals before that time? A. Yes, very largely.

Q. What you mean to say is, that the beginning of union terminals was in 1889? A. Not entirely. All the railroad business of the city about that time began to assume some form. The railroad people could naturally see how it had to be worked out, more or less. They began to get a little light on it then.

Q. But these independent roads owned then, as they do now, more combined property than the Terminal Railroad Association of St. Louis when it was formed in 1889, and more than it does now? Isn't that true? A. All the railroads together, yes.

Q. You would not say those independent terminals are scattered, disjunctive and impracticable, would you? A. I think they are a necessity, and I have always said so. But many of them are badly arranged, and they are badly arranged in connection with other railroads interests.

Q. Almost equally badly arranged as some of the Terminal Railroad Association's property? A. Some of that is

very badly arranged; but perhaps not as badly as some of the individual roads.

Q. You made the statement in your examination in chief, in substance, that the development of the Merchants Bridge terminal facilities practically all occurred after the consolidation in 1889.

Now I want to ask you if it is not a fact, and don't you know it to be true, that the Merchants Bridge itself was not finished and opened for business until 1890; and that no effort was made to put down any terminal tracks or build warehouses on this side of the river until they had completed the bridge, and it would have been impracticable to have done so to any great extent, as they could not have been used in connection with the Bridge until the Bridge was finished? A. Surely.

Q. Then it is not true that the consolidation in 1889 caused the development of the terminal facilities that the Merchants Terminal Bridge Company owned, when it was taken over in 1893 by the Terminal Railroad Association of St. Louis? A. Some of the most important facilities were. That is true of some of the most important facilities. It is true of their connection into Union Station.

Q. They did not have a connection into Union Station in 1893? A. Oh, no.

Q. Do you comprehend that question?

At this point the previous question is read to the witness.

A. No.

Q. Mr. Perkins, Mr. Priest asked you this question: "What additional terminals have been built since the organization of the Terminal Railroad Association of St. Louis? I speak now, to be more specific, of both St. Louis and East St. Louis."

These connections that have been made and built since that time, Mr. Perkins, are simply a part of the general evolution of railroad management and development of rail-

road facilities, that have been taking place all over the country, aren't they? A. Yes, sir.

Q. And in line with them? A. To a large extent in line with them. There are mistakes everywhere.

Q. You stated in your direct examination that the connection between the elevated structure of the Merchants Bridge Terminal Company at Eighth and Gratiot Streets and Union Station, was brought about largely by the pressure of the Burlington Company wanting to get into the Union Station, and run its passenger trains over the Merchants Bridge Terminal Company's tracks? A. That was a very important factor, I think.

Q. Then what steps did the Burlington Railroad Company take that forced that connection at Eighth and Gratiot streets, between the Terminal Railroad Association and the Merchants Bridge Terminal Railway Company? A. So far as the C. B. & Q. was concerned, that was a matter of negotiations for means of getting into the Union Station.

Q. The Merchants Bridge Terminal Company's tracks had been built down to Eighth and Gratiot streets for some time, hadn't they? A. Yes, sir.

Q. By the Merchants Bridge Terminal Railway Company? A. Yes, sir.

Q. The Merchants Bridge Terminal Railway Company was then operating as an independent company? A. Yes, sir.

Q. The Burlington Railway Company was connected in the northern part of the city with the Merchants Bridge Terminal Railway Company's tracks, was it not? A. Yes.

Q. Or at least, could make the connection if it had not done so? A. It could make the connection.

Q. Eighth and Gratiot streets was a point where the Missouri Pacific Railroad tracks and the Terminal Railroad Association's tracks, all came down to a very close connection with the then Merchants Terminal Railroad's tracks?

A. The Merchants Bridge Terminal Railway Company's tracks there had no connection with the tracks of the Terminal Railroad Association.

Q. I did not say they had connection. I say they came down to a point where they were close to the tracks of the Merchants Bridge Terminal Railroad. A. Oh, yes; only a short distance.

Q. But unconnected? A. The Missouri Pacific Railroad tracks were between them.

Q. The end of the Merchants Bridge Terminal tracks was in the Mill Creek Valley? A. Yes.

Q. A few blocks from the levee? A. Yes.

Q. About Seventh or Eighth street? A. Yes.

Q. The end of the Terminal Railroad Association's tracks was located within a short distance, in the same Mill Creek Valley? A. Yes.

Q. The Missouri Pacific Railroad ran through that Mill Creek Valley, and between those two roads I have mentioned? A. Yes.

Q. The Missouri Pacific Railway was one of the owners of the Terminal Railroad Association at that time? A. Yes.

Q. Now, isn't it true that the Missouri Pacific Railroad Company refused to permit the Merchants Bridge Terminal Company to cross, and that the Merchants Bridge Terminal Railway Company had to institute condemnation proceedings, and were blocked there by the Missouri Pacific Railway Company first? A. I think that was the case.

Q. And isn't it true that the Terminal Railroad Association refused to make any connection, or connect its rails by means of the elevated structure with the rails of the Merchants Bridge Terminal Railway Company? A. I cannot say as to that; I do not know.

Q. As far as you know that is true? A. I cannot say positively. I think it probably was, but I don't know. I should think very likely it might have been the case.

Q. The Merchants Bridge Terminal Railway was endeavoring to get into the Mill Creek Valley, so as to open up connection with passenger and freight, with all that net work of tracks leading up through the terminal yards of the Terminal Railroad Association to the Union Station, at that time? A. I presume so.

Q. Don't you know so? Didn't you say you had largely to do with the arrangements for getting them in there? A. I said I had something to do with the arrangements of the Burlington Railroad to get into an arangement with the Merchants Bridge Terminal Railway Company, but that was an arrangement made with the Terminal Railroad Association.

Q. Did you have anything to do with the direct arrangement between the Terminal Railroad Association and the Merchants Bridge Terminal Railway Company? A. Not a thing.

Q. In what way did the Chicago, Burlington & Quincy Railroad Company bring that about? A. It was simply a matter of conference and negotiations as to how the Burlington should get into the Union Station.

Q. The Burlington did not own any property down there, did it? A. No, sir.

Q. You said it was the pressure of the Burlington that brought that about: That is what I want to get at. What kind of pressure did they put on to force those two roads to join? A. By coming in here with a good big railroad, that should properly come into the Union Station.

Q. But the Burlington Railroad was in here before the Merchants Bridge Terminal Railroad was built; so the coming in here of the Burlington Railroad did not force them, did it? A. No. The railroad did not open business into St. Louis until March 4, 1904.

Q. You said awhile ago that you were operating passen-

ger and freight trains in here in 1892? A. That was over the Wabash tracks, down through Mill Creek Valley.

Q. You mean you did not acquire— A. We had no line in here of our own. Our own line we opened on March 4th, 1904.

Q. But your railroad was running in here, and carrying passengers and freight, just the same in 1892 as in 1904? A. Not in North St. Louis. The only way it could get in was at the west end of the Mill Creek Valley.

Q. Who conducted these negotiations that led up to the joining of the rails of the Merchants Bridge Terminal Railroad Company and the Chicago, Burlington & Quincy Railroad Company, in the Mill Creek Valley, at Seventh and Gratiot streets? A. I presume they were conducted by the different people especially concerned in it, Mr. Howard Elliott, Mr. C. E. Perkins and Mr. Morrison, our Chief Engineer.

Q. Where are they now? A. Mr. Perkins and Mr. Morrison are both dead. Mr. Howard Elliott is President of the Northern Pacific Railroad.

Q. Hadn't your road been trying to have this arrangement made for some time before it was sucessful—for a year or two? A. It had negotiated back and forth as to what it should do; whether it would build its own passenger station or go in down there. There was a difference of opinion between our different people as to whether we should try to get into the Union Station, or whether we should try to build our own station where we had gotten an option on some property at Nineteenth and Washington avenue.

Q. Had not the tracks of the Merchants Bridge Terminal Railroad Company been built for a good while down there at Eighth and Gratiot streets before that connection was made? A. Yes, for some time. As I say—

Q. Just answer the question, please. They could not get a connection? A. I don't know anything about that.

Q. They were unable, up to the time you people took hold of it, to get a connection in there? A. I really do not know what the condition was.

Q. You have been employed as an expert by the City of St. Louis, to investigate the growth and development of terminals, and you stated in your own report that it was a part of your business to investigate this growth and development: You had to have this knowledge and information in order that you might properly advise about conditions. Do you mean to testify that you have not investigated all about that failure to connect down there, and the troubles the two terminal companies had? A. Well, as to just what negotiations were between them was really not a matter that concerned me, except as a matter of general curiosity. I just had a general knowledge such as anybody might have, of what was going on.

Q. If it was a fact that the Merchants Bridge Terminal Railroad Company was kept out of the Mill Creek Valley, and kept from serving what you say is now, and was then, the most central terminal facilities in the city, by reason of the refusal of the Terminal Railroad Association of St. Louis to join rails with it and interchange traffic, would not that be an important factor in your consideration of the question of the development of these terminals? A. No; I think the situation was, as much as anything else, that the Merchants Bridge Terminal Railroad Company could not have paid to make the connection. In fact when the Terminal Railroad Association undertook to have that made, after getting control of the Merchants Bridge Terminal Railroad, it had a whole lot of difficulty, and was put to a whole lot of expense to get it made even then; notwithstanding the fact that the interested parties were members of the Terminal Railroad Association.

It had to cut through the top of the Frisco freight house, as you know, and pay a large amount of damages to go over that property.

Q. Your road put up one hundred and fifty thousand dollars, didn't it, and took it in three years' rental: Isn't that the fact? A. The arrangement made was made jointly by the Chicago, Burlington & Quincy, the St. Louis, Keokuk & Northwestern (which was later absorbed by the Burlington) and the Missouri, Kansas & Texas. They put up that rental between them, the rental being divided into three parts. That was rental for the use of the Merchants Bridge Terminal Railroad or its connection.

Q. The amount was advanced on rental, and used for the purpose of paying for the damages in making the connection there. You don't mean to testify here, as an expert, that the matter of making the payment was what was keeping the Merchants Bridge Terminal Railroad Company out? A. The settlement for getting across there was one thing that delayed the connection badly.

Q. You mean the agreement on the amount? A. Yes.

Q. Then it was not a matter of the payment? A. Yes—whether they could afford to pay for it.

Q. Hadn't they already settled the question of whether they were able to pay or not by instituting condemnation proceedings to condemn a right-of-way over the Missouri Pacific? A. My recollection is they had instituted such proceedings, but I don't believe they could have afforded to pay the real amount of damages if they had been allowed to cross there at grade.

Q. That is a matter of opinion. Isn't it a fact that the elevated structure of the Merchants Bridge Terminal Railroad Company at Eighth and Gratiot streets, and the Terminal Railroad Association, for some years were connected with the Missouri Pacific tracks, prior to the time the Wiggins Ferry Company was absorbed by the Terminal Rail-

road Association? A. You say, isn't it a fact that the Merchants Bridge Terminal Railroad Company's elevated was connected with the Terminal Railroad Association and the Missouri Pacific Railway, before the Wiggins Ferry Company was taken in?

Q. Yes. A. Yes, for a long time prior to that.

Q. Isn't it true that the Merchants Bridge Terminal Railroad was kept out of making that connection at Eighth and Gratiot streets for some time by concerted action of the Missouri Pacific Railway Company and the Terminal Railroad Association of St. Louis? A. I don't know. I think probably they were not favorable to it, but I don't know.

Q. Isn't it a fact that the Frisco Railroad finally came forward, and through its efforts assisted the Merchants Bridge Terminal and the Burlington and the Katy to get an agreement made, because the Frisco also wanted to have a connection with the Merchants Bridge Terminal Railroad Company? A. I think that is very likely. I don't remember about that, but I presume that is so, and I presume I knew about it once.

Q. You stated that the *Burlington Railway Company* was isolated in the northern part of the city and that was the reason why it wanted to get into Mill Creek Valley: I will ask you if it is not a fact that at the time it secured connection to the Merchants Bridge Terminal it had connection with the Wiggins Ferry Company on the west side of the river, and could reach a connection with the Wiggins Ferry Company? A. Yes.

Q. And the Wiggins Ferry Company had St. Louis Transfer Railway Company tracks then down the levee, didn't it? A. They were opened in 1890.

Q. That was in 1893 that this connection was made, wasn't it? A. Yes.

Q. And the St. Louis Transfer Railway Company's

tracks connected with the Iron Mountain and the Missouri Pacific on the levee? A. Yes, sir.

Q. That opened up the entire southern end of the city, didn't it? A. The southern end; yes.

Q. You stated as a reason why they wanted to get in, that they simply were cut off from the southern end of the city. Now the facts are, that they had access to these facilities I mentioned, at that time, at the southern end of the city? A. If I understand your question, you mean the Merchants Bridge Terminal Railroad Company's object in getting over the Missouri Pacific or Terminal Railroad Association—

Q. I am talking about your own road, the Burlington Road I mean, you know. A. You are talking about the Burlington going into the Terminal Railroad Association?

Q. Going in over the Merchants Bridge Terminal Railroad Company's tracks? A. In connection with that, what I meant to say was, I should perhaps have modified that by saying the Mill Creek Valley and the southern part of the Valley. I suppose I had the Eighth and Gratiot street region in mind at the time, if I said that.

Q. The Missouri Pacific Railway Company's tracks connected with the St. Louis Transfer Railway Company's tracks on the levee; and the Missouri Pacific Railroad ran up Poplar street, didn't it, into Mill Creek Valley? A. Yes. When I say "Missouri Pacific" I mean including the Iron Mountain. The Iron Mountain track it was that runs up there.

Q. No, it was the Missouri Pacific. A. That ran up the levee?

Q. No; up Poplar street? A. I think so.

Q. Hasn't the Missouri Pacific Railway a track on the levee? A. Not that I know of.

Q. The connection, then, from the Burlington yards in North St. Louis with the St. Louis Transfer Railway, down

over a connection with the Iron Mountain and up Poplar street, let it into the Mill Creek Valley also, didn't it? A. After a fashion, but a difficult connection to make, on account of the heavy grades and sharp curves.

Q. That Poplar street track is still being used by the Missouri Pacific and Iron Mountain roads right along, is it not? A. Yes, but at that time it was impossible to get long passenger cars up through the St. Louis Transfer Railway connection.

Q. You don't mean to say you ran your passenger cars in that way? You ran them in over the Wabash tracks at that time, before you came in over the Merchants Bridge Terminal? A. At that time we ran some passenger cars around there—a little later. But before the Merchants Bridge Terminal arrangement was made, we were running our passenger trains over the Wabash Railroad from St. Peter's through the Mill Creek Valley line.

Q. That was a good entrance, wasn't it? A. We had to pay the Wabash, of course—

Q. I am not speaking about what you had to pay, but the physical operation of your trains: It was the main line of the Wabash Railroad, wasn't it? A. Yes, that was a fair line—not very good.

Q. The Wabash operates its trains in that way, through the Mill Creek Valley? A. Yes. They have greatly improved the line.

Q. It has simply been put in better physical condition, and the main line of the Wabash Railroad was operated there then? A. Yes.

Q. Isn't it a fact that the reason you wanted to get in over the Merchants Bridge Terminal into Union Station was that it was the direct route, and the natural route, for your north line through the Mill Creek Valley and into Union Station? A. Yes, sir.

Q. And along the line of least resistance, over an elevated track, and avoided grade crossings? A. Yes.

Q. Are these tracks of the St. Louis Transfer Railway along the levee, and of the Missouri Pacific Railway up Poplar street, and of the Iron Mountain on the levee, still used for the interchange of business with these roads, and for the handling of freight? A. They are still used for freight business to some extent.

Q. Aren't they used right along, every day? A. Oh, yes, they are used right along.

Q. You said, in answer to Mr. Priest's question: "It seemed quite desirable for some of the lines running out of the north end of St. Louis to go over the Merchants Bridge and avoid the tunnel. Some roads have thought it advisable to go six or eight miles, or even more, out of the way in order to avoid the tunnel of the Eads Bridge."

Isn't it true that their running passenger trains out of the Union Station, over the Merchants elevated and along Hall street and over the Merchants Bridge, is simply a matter of evolution in the management of railroads, that is followed in all lines of business? That is, that operations of all kinds should be carried along the line of least resistance, and where it is easiest? A. Yes, if you take into "the line of least resistance," counting as a factor, the convenience of the public and catering to the comfort of the public.

Q. If it had not been for the failure of the Terminal Railroad Association to act promptly in connection with the Merchants Bridge Terminal Railroad, and aid and assist in obviating the use of the tunnel, this connection would have been made before 1893, wouldn't it, between the Merchant's Bridge Terminal and the Terminal Railroad Association, and the public would have had the benefit of what is now the improved service by reason of avoiding the tunnel? A. As I understand its finances and condition after, it would not. I know they took up some of their

North St. Louis extension at the time, that they could not use, because they did not see any business in sight to pay for it, and could not do it.

Q. What Company are you talking about? A. The Merchants Bridge Terminal Railroad Company.

At this point the question is read to the witness.

A. I don't believe there would have been a demand for it before that time, sufficient to cause the necessary expenditure of money to do it, until it came to a matter of getting the Burlington and the M. K. & T. trains in, after the spring of 1894. It is only in recent years that this matter of routing passenger trains around that way has come up. That has come up from entirely different causes than a matter of making the connection.

Q. Do I understand you to say, and that you want to be understood as testifying, that traffic from lines to the north or south of the city could not get into other parts of the city except through the use of the Terminal Railroad Association, and except through the use of the Mill Creek Valley? A. Before I answer that question, there are two things I will have to ask. First, you mean the entire Terminal Railroad Association's facilities?

Q. No, I am speaking of it back in 1893, when this consolidation was made by the purchase of the Merchants Bridge Terminal Railroad by the Terminal Railroad Association of St. Louis? A. Are you speaking now, when you say "couldn't they get into other parts of the city, except by means of the Terminal Railroad Association's tracks," as then existing?

Q. Yes. A. Oh, I don't say that.

Q. I will ask you this question: Is it a fact that lines from the north and south could have gotten into the city of St. Louis, in 1893, without the use of the Terminal Railroad Association's tracks? A. From the north and south?

Q. Yes. A. They could get into such parts of the city

as were covered by the St. Louis Transfer Railway Company's tracks.

Q. And no other? A. No others that I know of, so far as public team tracks and so forth are concerned, which the individual lines do not throw open to their competitors.

Q. They could have run their trains in here, couldn't they? A. They could run in by trackage arrangements, yes. They could run in from the south over the Iron Mountain or they could run in from the north over the Wabash, or the Burlington, just as the M. K. & T. came in over the Burlington, later.

Q. The Wabash Railroad had its tracks on the levee, prior to 1889, hadn't it? A. Yes.

Q. And have been running their passenger trains, Ferguson and other accommodation trains, down over the levee for twenty-five years? A. Yes.

Q. And they still do? A. Yes.

Mr. Watts: Q. Do those combination trains still come in over the levee?

A. One does; unless they stopped very recently, I think they are running one down there.

Mr. Crow: Q. The Wabash Railroad, prior to 1889, had its freight warehouses down near the Levee and near the business center of the city, didn't it? A. Yes, sir.

Q. It had pretty extensive facilities there? A. They had a pretty tumbled down affair at that time, but still they had facilities there for doing business with the public.

Q. And they had team tracks? A. They had one small team track down there, that they used to call their "iron track." It held but a few cars.

Q. The old Iron Mountain passenger station and freight station was down on Plum and Lesperance streets before 1889? A. Yes, sir.

Q. They had extensive team tracks and terminal yards there? A. They had quite a lot of facilities down there.

Q. Was there any other railroad warehouse on the levee, before 1889? A. I think in 1889 there was at that time a little warehouse on Biddle street, that had formerly belonged to the Wabash Railroad, then being rented by the Burlington Railroad. Along about that time, 1888 or 1889, or somewhere in that neighborhood. I think that is all.

Q. At that time, in 1893, when the Merchants Bridge Terminal Railway and the Terminal Railroad Association were consolidated, a car could reach any part of the city from any railroad, by the railroad or the Terminal Railroad Association absorbing the transfer or switching charges out of the freight rate, could it not? A. A car from what road?

Q. A car from almost any railroad. A. A car from any railroad here could reach any other part of the city?

Q. Where the rails reached. A. Yes, by absorbing the switching charges.

Q. Isn't it a fact that under the franchises granted to the Terminal Railroad Association, the Merchants Bridge Terminal Railway, and all of the railroads who have franchises to do switching business in the city, they are obliged to take any car that is offered to them? A. Yes, but not for delivery to their public team tracks.

Q. Not for delivery on public team tracks? A. No. I understand that is the general rule.

Q. Is that in the Merchants Bridge Terminal Railroad Company's franchise? A. Oh, you say of any railroad? Oh, no, that is part of the business of the Merchants Terminal.

Q. And also that of the Terminal Railroad Association of St. Louis? A. Yes.

Q. They are obliged to take it and deliver it anywhere? A. Yes.

Q. Doesn't the franchise of the other railroad companies, such as the Missouri Pacific, Wabash and Frisco, require

them to also deliver cars and receive cars from anyone? A. Yes, but I understand that has always been interpreted not to cover their freight houses and team tracks.

Q. Explain what you mean by that? A. I mean that one railroad providing team tracks or a freight house for its own business, is under no obligation to and is not required to allow any other railroad company the use of those particular facilities. In fact, that was so generally recognized everywhere that it was recognized in the Interstate Commerce laws, and was put in there specifically.

Mr. Watts: And also in the statutes of Missouri.

A. I think so, yes.

Mr. Crow: Q. If a car at that time, 1893, came from the Wabash Railroad, destined to an industry on any other road in the city, it could be sent to that industry, could it not? A. Oh, yes, indeed.

Q. And the Railroad Company and the Terminal Companies were bound to accept it? A. Yes, sir.

Q. And the Terminal Companies' charges—both the Merchants Bridge Terminal Railroad Company and the Terminal Railroad Association of St. Louis, for services rendered in handling cars, were fixed by their franchises, were they not? A. Yes, that was one of the reasons given for the discontinuance of the extension of the Merchants Bridge Terminal Railroad Company's facilities at North St. Louis, at that time.

Q. You have investigated those questions, have you not, as to what they were required to do? A. Yes, sir.

Q. They were required to switch all cars for $1.00 a car, and so was the St. Louis Transfer Railway Company? A. There was a variation in the St. Louis Transfer Railway Company's charge. I think they were allowed on a certain part of their business to charge $1.50 a car. The Chicago, Burlington & Quincy Railroad Company's ordinance provided for $1.00 per car.

Q. The Merchants Bridge Terminal Railroad Company's ordinance provided for a charge of $1.00 per car, did it not? A. I have forgotten whether that read one dollar or two dollars.

Q. You know what the Terminal Railroad Association ordinance provided, don't you? Those are matters of importance to people who do a large business, aren't they? A. Yes, sir.

Q. It is a subject which you would naturally investigate, as an expert on traffic questions, is it not? A. My recollection is, that the ordinance does not provide a fixed charge for the Terminal Railroad Association of St. Louis. It may have.

Q. You say their original ordinance did not provide for what that charge should be? Didn't you investigate that? A. Oh, yes, I looked into those things.

Q. That goes right to the question of dollars and cents, in the matter of operation and in the matter of handling freight traffic, does it not? A. Yes, sir.

Q. I will get you to look at this ordinance, No. 12975, section 2, and see if it does not fix the amount the St. Louis Transfer Railway Company shall charge. (Handing copy of ordinance to witness). A. We were talking about the Terminal Railroad Association of St. Louis.

Q. I am talking now about the St. Louis Transfer Railway Company. The Terminal Railroad Association of St. Louis owns the St. Louis Transfer Railway, doesn't it? A. I have already stated that it did. I think one of its ordinances allowed it $1.50 a car on a part of its business, as I stated before. (Witness examines ordinance). My recollection is, that one ordinance it has allows it to charge $1.50 per car on a certain part of its business. I have that in mind.

Q. I never could find such an ordinance. I do not say there is not; there may be such a one. A. I will answer

your question, that on a part of its business it was restricted to a charge of $1.00 per car; but my recollection is that on a certain part of its business it was allowed to charge $1.50 per car.

Q. And the Terminal Railroad Association of St. Louis is also restricted to a charge of $1.00 per car? A. The Terminal Railroad Association?

Q. Yes. A. I don't think so. I do not recollect such an ordinance.

Q. What about the Merchants Bridge Terminal Railroad Company? A. The Merchants Bridge Terminal Railroad—

Q. Had an ordinance restricting it to a charge of $1.00 per car, did it not? A. Yes, sir.

Q. That ordinance has never been amended, so far as you know? A. I don't think so. I don't remember that it has.

Q. I will ask you, Mr. Perkins, if it is not a fact that both the St. Louis Transfer Railway Company, and the Merchants Bridge Terminal Railroad Company, have been charging largely in excess of $1.00 per car; and haven't you investigated that particular question? A. Yes, they have higher rates than that.

Q. You investigated that, in behalf of the Municipal Bridges and Terminals Commission, did you not? A. What their rates were, yes.

Q. And they still make that charge, don't they, so far as you know, higher than $1.00 per car? A. So far as I know, yes.

Q. Do you know whether or not the Terminal Railroad Association of St. Louis, as it is now constituted, controls the Alton Bridge? A. It does not.

Q. It does not control it? A. No, sir.

Q. Do you know whether or not it is controlled by the officials of the proprietary lines of the Terminal Railroad Association of St. Louis? A. I understand it is controlled

by part of the proprietary lines of the Terminal Railroad Association.

Q. Do you consider it a part of the terminal facilities of St. Louis? A. Well, hardly.

Q. You said in your direct examination "In order to compete for the business of a city the railroads must, under present conditions, have access to all business localities."

Haven't the merchants of St. Louis always had access to the business portion of the city? A. Haven't the merchants of St. Louis always had access to all the business localities?

Q. Yes. A. That is not quite in line with what I said, I think—

Q. Here is exactly what you said (handing witness official copy of testimony). A. I do not mean what you are reading, but your question. You say "Haven't the merchants of St. Louis always had access to all parts of the city."

Q. No, sir, to the business parts of the city. A. The business parts of the city?

Q. Stick to the business parts of the city. A. They have, in certain ways, by teams and so forth.

Q. And also by means of the various terminal agencies that operated here? A. Not on any practical basis, no, sir.

Q. In what physical way have the properties of the Terminal Railroad Association changed since 1902, when the Wiggins Ferry Company property was absorbed, and the Rock Island and the Burlington Companies joined the Terminal Railroad Association of St. Louis—that is, up to 1905, when this suit was filed? A. There was a good deal of additional track laid to facilitate interchange and connection.

Q. Where and when? A. In 1903 there was quite a good deal of track laid.

Q. Where was it laid. That was in the neighborhood

of the World's Fair, wasn't it? A. Oh, no; there was track laid in the Mill Creek Valley. The tracks up through Hall street were rearranged. Additional track was laid down Main street, jointly by the Terminal Railroad Association and the Burlington Railroad Company. There has been a re-arrangement of tracks west of Twelfth street; and a re-arrangement of yards, and extension of yard, west of the Union Station. And there has been an extension of the Belt Line; and a re-construction of the north approach to the Merchants Bridge. There has been considerable construction in connection with the Belt Line connections on the east side.

Q. All you have described is simply a natural process of evolution in railroad development, to meet the demands of increased business? A. Why, certainly; to improve the handling of the business and provide for additional business; those two things.

Q. And which would have taken place, no matter by whom these properties were owned, if the business had demanded it as it has? A. I don't know that it would have taken place in the same form, quite.

Q. What particular connection has been made that could not and would not have been made if the terminals had been operated independently and the connection had been made in the Mill Creek Valley as it was made in 1893? A. The entire work that has been done, has been done with the idea of taking the property as a whole and making it the best machine possible to transact the business. If the facilities were all provided separately, they would naturally have to have more facilities in certain places. They could not be connected up for through operation, unless they were operated together, in the same way.

Q. But you have not yet answered my question: What particular things were done that would not have been done, had the business demand been the same, and the same fa-

cilities had been owned and operated separately. A. That I cannot say, what might have been done.

Q. I am not asking you what might have been done, but what was done.

As a practical expert you might be able to anticipate what a railroad man would naturally expect to do in a certain line of improvements, might you not? A. I don't believe there is any railroad man in the country who could tell you what a railroad might do under certain circumstances.

Q. Then what it ought to do? A. I think I know what it ought to do under certain circumstances.

Q. Then what improvements have they made, that ought not to have been made, if they were operated independently? A. If they had been operated independently, probably all these improvements ought to have been made; and, if there were no other way of getting around it, probably additional improvements ought to have been made, because it would have taken more room to handle the business.

Q. Then it was the growth of the business that caused these improvements to be made, and not the mere consolidation; isn't that the fact? A. The growth of the business has brought that about, but the consolidation probably has made possible the means to do it. Because otherwise some of the properties might not have been developed; I don't know whether they would or not; maybe they would and maybe they would not. If they had money to develop them, and could get the business to pay for it, at remunerative rates, they would certainly make the improvements.

Q. As a matter of fact, this consolidation simply wiped out competition in the transfer agencies across the river, or any room for competition, didn't it? A. I understand they are all under one control; yes, sir.

Q. Prior to 1902 and from 1893 up to 1902, the Merchants Bridge Terminal Railroad and the Terminal Railroad Association, were operated as one agency for trans-

ferring business across the river; and the Wiggins Ferry Company, operated as another and independent agency, served the same purpose; and the Inter-State Car & Transfer Company was operated simply as an agency to transfer cars across the river only. Now these lines, you know don't you, were operated (at least the two I first mentioned) under an arrangement and agreement for a division of traffic at an agreed rate for the service rendered? The Wiggins Ferry Company, the Merchants Bridge Terminal Railroad Company and the Terminal Railroad Association of St. Louis. A. They were operated under an agreement for maintenance of certain schedules of rates, you say?

Q. Yes, and division of tonnage? A. I don't know that there was any agreement about a division of the tonnage. While it may have taken various form from time to time, there were agreements in regard to freight rates, in some form or other.

Q. The rates were the same, practically? A. They were usually about the same.

Q. And there was no competition, so far as rates were concerned? A. You say prior to 1902?

Q. Yes. A. Well, I should say there always was. I think sometimes the rates were agreed to and sometimes they were not, I presume.

Q. You say the value of the services of the Terminal Railroad Association of St. Louis is to furnish an opportunity to reach track located industries? A. That is one.

Q. And that is one of the most important, is it not? A. It is a very important one; yes, sir.

Q. You said, or I understood you to say, that this unification of the terminals here in the City of St. Louis, by reason of the fact that the St. Louis Terminal Railroad Association, formed in 1889, controls so much terminal property in Mill Creek Valley, and affords access to so many track located industries, benefited very largely the City of

St. Louis? A. Well, in its general development; yes. I don't think there were many industries located on it at that time.

Q. Are there now? A. They are pretty rapidly developing on the Belt Line of the Terminal Railroad Association, with the most satisfactory results to the people out there—so they tell me.

Q. How many new industries have been started on the Belt Line? A. Curtis & Company have developed a very large plant out there.

Q. For what purpose; what business? A. The manufacture of saws and machinery.

Q. What else? A. The Wagner Electric Company that makes dynamos, a very large electric company, is located there.

The Leschen Rope Company has a very large plant. The St. Louis Frog & Switch Company. The Evens & Howard Fire Brick Company. And several others I don't think of just this minute. Those all have very large plants and are doing a large business. They have all located recently.

Q. Mr. Perkins, I want to understand your testimony thoroughly on this point: I understand you to say that one of the great benefits to the City of St. Louis and its commerce, and in general to its business, is caused by the unification of the Wiggins Ferry Company, the Merchants Bridge Terminal Railroad, the St. Louis Transfer Railway Company, and the Terminal Railroad Association of St. Louis, and that by reason of the fact that it places so many of these track located industries on the lines of these consolidated corporations, and thus enables the service to be so much better? A. Yes, sir; I say that is an advantage, so far as it goes. It is an advantage that will grow continually, as they are operated more and more as one railroad machine.

Q. Do you know that of the seven hundred track located

industries in the City of St. Louis more than five hundred are on the Rock Island, Frisco, Wabash, Iron Mountain and Missouri Pacific Railroads, and that less than two hundred of them are on the St. Louis Transfer Railway, the Wiggins Ferry Company, the Merchants Bridge Terminal Railroad and the Terminal Railroad Association of St. Louis.? A. I should say that is probably about the case.

Q. Then it is the individual and independent terminals of the independent roads that really furnish the conveniences to the track located industries of this city, is it not? A. That has been the case to a very large extent.

Q. We are talking about conditions as they exist now. A. Oh, yes; to a large extent as they exist now, that is true.

Q. Then the only service that the Terminal Railroad Association of St. Louis does these five hundred industries, located on these independent roads, is simply to deliver a car to these independent roads, and make a switching charge for it, is it not? A. No, it serves as a medium of interchange between the roads on which the industries are located, and all other railroads, or very nearly all.

Q. So far as these industries are concerned, the only service of the Terminal Railroad Association is to deliver the car and charge for switching it, or to come and take the car away, and charge for it? A. In a large portion of cases they make no switching charge for it against the industry.

Q. If a car is sent from Effingham, destined to an industry located on the Wabash Railroad tracks in St. Louis, and is handled over the rails of the Terminal Railroad Association, will the Terminal Railroad Association make a charge for delivering that car to the Wabash Railroad, or for receiving it from them? A. No, sir.

Q. Make no charge? A. No, sir; not against the shipper or consignee.

Q. And not against the industry? A. No, sir; their rate is made a rate from Effingham to the connection.

Q. To the connection of the Wabash Railroad? A. Yes, sir.

Q. Then the Wabash Railroad makes the switching charge? A. Yes, sir.

Q. How long has that method been in force? A. That has been in force, I suppose, approximately a year.

Q. That is by reason of the absorption of the arbitrary, which you talked about? A. Yes.

Q. That is true on all freight beyond the one hundred-mile limit, or on certain classes of it? A. It is true within the one-hundred mile limit, so far as the rate is concerned. Those rates are different within the one-hundred mile limit.

Q. You spoke in your testimony about this consolidation making more accessible to the mercantile and manufacturing industries of St. Louis, by reason of doing away with the team haul, and the long hauls, and the inconvenient locations: What inconvenient locations have been done away with and what team hauls have been avoided, and what new stations have been erected by the Terminal Railroad Association of St. Louis, the Merchants Bridge Terminal Railroad Company, or the Wiggins Ferry Company, since 1902? A. No freight stations, that I know of.

Q. No hauls have been done away with by that consolidation which occurred in 1902, have there? A. Well, yes; in a way. You might say it has given the Wiggins Ferry Company and the Merchants Bridge Terminal Railroad Company facilities the use of the Terminal Railroad Association's stations in the Mill Creek Valley, which have been somewhat enlarged, and vice versa.

At this point, by agreement of counsel, the further hearing of testimony herein is adjourned until Tuesday, May

12, 1908, then to be resumed at the same place, at the hour of half-past ten o'clock a. m.

Special Commissioner.

Saint Louis, Mo., May 12, 1908.

Met, pursuant to adjournment as above, on Tuesday, May 12th, 1908, at 10:30 o'clock in the forenoon.

By consent, a further adjournment was made to Monday, May 18th, 1908, at 10:30 a. m.

Saint Louis, Mo., May 18, 1908.

Met, pursuant to adjournment as above, on Monday, May 18th, 1908, at the office of the Special Commissioner, in the Roe Building, at half-past ten o'clock in the forenoon.

Present: Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Government.

Messrs. M. F. Watts and H. S. Priest appeared in behalf of the Defendant.

The following proceedings were had:

Cross examination of Mr. Perkins continued as follows:

By Mr. E. C. Crow: Q. Mr. Perkins, I will ask you if it is not a fact that prior to 1893, when the Terminal Railroad Association of Saint Louis acquired the control of the Merchants' Bridge Terminal Railway Company and its subsidiary companies, the Merchants' Bridge Terminal Railway Company and the Terminal Railroad Association of Saint Louis, were independent, competing railroad companies, competing for the business of transporting freight and passengers from East Saint Louis, Illinois, to Saint Louis, Missouri?

The question is objected to by counsel for the defendant,

on the ground that it involves conclusions of both law and fact, and not an opinion.

A. To a limited extent.

Mr. Crow: Q. Wherein was it limited? A. Limited by the restriction of the facilities which they could afford for doing the same class of business.

Q. What do you mean by that? Just explain it? Didn't they both reach the same towns? A. Both reached the same towns, but not the same parts of those towns. And their main competition would have been on through business passing through this gateway between Eastern railroads and Western railroads. The business they competed for was passing through the cities rather than a strictly local business for the city, except in cases where the location of facilities did not cut any especial figure in the matter of teaming and soforth, or, except in connection with the business located in the rather undefined limits between the facilities of the two companies—or the three companies.

Q. You have already testified that you were familiar with locations, prior to 1903, and in 1903, of the Terminal Railroad Association of Saint Louis and the Merchants' Bridge Terminal Railway Company? A. Yes, sir.

Q. I will ask you if it is not true that the Merchants' Bridge Terminal Railway Company, in 1903, prior to the acquisition of its control by the Terminal Railroad Association, did not touch every railroad, through its connections in East St. Louis, Illinois? A. Through its connections?

Q. From the connections with the Terminal Company on the east side? A. Yes, I have testified it did, indirectly.

Q. Just as directly as the Terminal Railroad Association reached them all, didn't it? A. No, sir.

Q. At that time? A. No, sir.

Q. Wherein was the difference? A. Well, the Merchants' Bridge Terminals could not have connected with a large part of the east side roads without the business pass-

ing over some of the Terminal Railroad Association properties, or the Venice & Carondelet Belt.

Q. Did not the Merchants' Bridge Railway Company at that time have a direct line down into East St. Louis? A. I think not, for connection with all of the railroads.

Q. With a great per cent of them? A. I should not say a great per cent of them.

Q. Do you state from your knowledge of the situation at that time, that the Merchants Bridge Terminal Railway Company did not have access to more of the roads, in a more direct manner than the Terminal Railroad Association had at that time, on the east side? A. My recollection is that it certainly did not.

Q. You know, do you? A. Yes, sir.

Q. We will reach that a little later.

Q. I will ask you if that service performed by the Merchants Bridge Terminal Railway Company and the Terminal Railroad Association, that I have mentioned, in carrying on business between East St. Louis, Illinois, and St. Louis, Missouri, was not that of a carrier for hire?

Mr. Priest: That is a matter of law.

A. Yes; I should say so. It is a question of what a public carrier is. I think it is proper to answer that, yes.

Mr. Crow: Q. I will ask you, Mr. Perkins, if it is not a fact that the Merchants Bridge Terminal Railway Company, in 1893, did not have more facilities, and better terminal facilities, than the terminal facilities of the Terminal Railroad Association, considering both sides of the river? A. No, sir; I should say decidedly it did not.

Q. Will you please describe and locate definitely, the terminal facilities of both those companies in 1893, giving the exact location of those facilities on each side of the river? A. I have already done that. It is shown in the previous testimony.

Q. I hardly think so. A. Well, while I would like to

say, this is purely a duplication and bringing me here and wasting my time, I don't know that there is any objection to repeating it.

Q. Allow me to ask you one question, Mr. Perkins? A. Yes, sir.

Q. What salary are you receiving from the city as an expert? A. I don't think that that has anything to do with this case.

Q. I think it is as pertinent as the remark you made. I did not call you here as a witness.

Mr. Priest: That is not pertinent at all.

Mr. Crow: I agree with you. But neither was his remark.

Mr. Priest: I think it is a very proper answer for him to say he had already answered the matter and it was useless going over it again.

A. I came here to answer any questions on either side of the case, absolutely impartially. I don't care what it is as long as it is connected with the case. I did not come here of my own motion, by any means. I was summoned to come here. I had no interest in coming here on either side of the case. But I have had to use up a very large amount of my time. I have been here several times when I was told to come here, and nobody was here, without any notice that there was any postponement. I have answered all your questions fully for the few days you cross examined me, and I am willing to answer any question I know or have knowledge of that is in any way connected with the case. The reason I made that remark was, that that particular thing had been thoroughly gone over at the first hearing.

Mr. Crow: Q. I differ with you. A. If it is to be gone over again, I suggest that we get out a map and go over it again to start with.

Q. Go over it any way you please, but answer the question. A. I suggest you get out the maps. While I have

not any hesitation in giving it offhand, I noticed that there were a good many little slips in that first testimony, when I came to read it over, apparently from misunderstanding of the questions.

Commissioner: You have a right to correct your testimony after reading it over, if there is any mistake in it. A. I did that at the time.

Mr. Priest: What he wants now is to refer to the maps.

Mr. Crow: I have no objection to his referring to the maps.

A. I don't care particularly if it is going to be a lot of trouble, but if we have to go over this again thoroughly from the beginning, I think we should have a map here and point it out; but I am not very particular about it.

At this point Mr. Pitzman's map is produced and previous question read to the witness.

A. The Merchants Bridge Terminal Railway Company, which I think at that time included the Merchants Bridge, and Merchants Bridge Terminal Railway, and so forth, had a bridge across the river, near Grand avenue on this side, with a belt line on the east side, extending south to the neighborhood of the stock yards, with a connection extending into Granite City, north of the approach. On the west side of the river, the tracks extending south from the approach to the bridge, through Hall street, Main street, and an elevated structure along the levee, south to Cerre street, turning west and coming to the surface in the neighborhood of Eighth and Gratiot street. It had two or three team tracks in the neighborhood of Eighth and Gratiot street. It had a small house—

Q. What kind of a house? A. A small freight house at the corner of Biddle and Main streets.

It had the beginning of an inclined approach to the north, but no extension of that was made for any practical purposes, and that was afterwards taken down.

It had a few tracks for general purposes, at or near Bremen avenue, down Hall street. That is about all, so far as I remember.

Q. Have you described all the connections of the east side at that time? A. No, sir, I have not described any connections.

Q. Do you consider the connections of a railroad as part of its terminal facilities? A. Yes, sir. It had connections, as I recollect it, at that time only at Granite City, with the Big Four, the Alton, and the Wabash tracks, and I think there was a connection at that time with the old Bluff Line.

Q. Wasn't there a connection over the belt lines with the roads down in East St. Louis? A. Whether one of the connections into the Venice & Carondelet Belt had been made directly at that time I am not quite sure, but I do not think it had. I think it had to go over a short piece of intermediate track.

Q. Was it so connected that freight sent from the west side to the east side roads could reach East St. Louis over the Merchants Bridge Terminal Railway Company's tracks? A. Not over the Merchants Bridge tracks, no, sir.

Q. Over the Merchants Bridge Terminal Railway Company's lines in connection with the lines it operated with? A. Yes, sir. I understood you to say directly over the Merchants Bridge Terminal Railway Company's tracks.

Q. I did use the word "tracks." A. Not over their own tracks, no, sir.

Q. It was so connected that it was used by the roads of East St. Louis for sending freight to St. Louis? A. Yes, sir, indirectly it could be used, as I said, to start with.

On the west side it had a connection with the Wabash Railroad and the St. Louis Transfer Railway, but not until—well, the connection with the Burlington cuts no

figure, because the Burlington did not begin operations until a year later.

Q. Is that the only road it connected with on the west side? A. No, sir; I think it had connection with one of the Missouri Pacific Tracks in the neighborhood of Gratiot street. That is all.

Q. Will you please describe and locate the terminal facilities of the Terminal Railroad Association of St. Louis at that time? A. The Terminal Railroad Association of St. Louis at that time had a lease of the St. Louis Bridge, and of the Tunnel, the Passenger Station at Twelfth street, and some tracks running out to a little beyond Twenty-first street. Various tracks for handling freight and passenger equipment in that neighborhood, between Twelfth and Twenty-first street.

Q. Describe where they were located? A. Very largely in the neighborhood of Sixteenth street, between Twelfth and Sixteenth streets, in the neighborhood of Sixteenth.

At that time arrangements were going on for the construction of a new Union Station between Eighteenth and Twenty-first streets.

They had on the east side of the river, for a connecting belt, the Union Railway & Terminal Company of East St. Louis, which made connections with a number of east side lines.

Q. Where did it extend from and to, that Union Railway & Terminal Company? A. It extended from the neighborhood a little west of the present Relay Station.

Q. Over the east approach to the Eads Bridge? A. Yes, sir, near the east approach to the Eads Bridge.

Q. Extending where? A. That extended up towards the north end of the island, so-called, to connections with the north group of roads.

Q. In what way did it connect with that north group of roads and what is that north group of roads you speak of?

A. That is composed of the Wabash, and the Clover Leaf, and the old Bluff Line, and the Big Four—I think it was called at that time—Bridge Junction, as it is now called—where the roads meet.

Q. It did not meet all those roads at one place, did it? A. They all come in there pretty closely, in a bunch.

Q. Didn't it connect with an independent piece of property not owned by the individual roads yet mentioned or by the Terminal Railroad Association? A. Independent piece of property?

Q. Independent of the Terminal Railroad Association or of the individual roads you have mentioned. A. I think not. I do not remember that it did.

Q. No intermediate connection with the rails of the individual roads you mentioned and the Terminal Railroad Association? A. I think so. Coming right in that same neighborhood was the Venice & Carondelet Belt, but for a while that connection was out. Whether it was out at that particular time, 1903, I do not remember.

Q. The Venice & Carondelet Road was not controlled at the time by the Terminal Railroad Association? A. It was controlled by the Louisville, Evansville & St. Louis Railway at that time.

Q. And is now controlled by the Southern Railway Company? A. The Southern Railway Company was the successor to the property of the Louisville, Evansville & St. Louis Railway Company.

Q. That connection which you think existed at that time was at a point below Madison and Granite City, was it? A. Well, I say I am not sure whether it was in at that time. I know some time later there was no connection there. Whether it was in at the time you mention, I do not remember.

Q. You are speaking of the connection of the Terminal

Railroad Association. A. I am speaking of the connection in 1903.

Q. You speak of the Terminal Railroad Association and individual roads, not a connection between the Venice & Carondelet Belt Line and the Terminal Railroad Association and individual roads? A. Whether that had connection with the individual roads there, including the Terminal Railroad Association, I do not remember.

Q. If what had, the Venice & Carondelet Belt? A. Yes, sir. I doubt if it had. But I can not say positively whether it had or not at that time.

Q. Can you say positively whether or not the individual roads you mentioned there had direct connection with the tracks of the Terminal Railroad Association at that time? A. While there were one or two short stretches of track used jointly there, I can not say offhand just what those were. I have gone over them a number of times in the past, but there were just a few rail lengths in places where they were used jointly, under various arrangements to get to the Terminal Railroad Association. There was substantially a connection, however.

Q. At that time the Terminal Railroad Association of St. Louis on the east side could only reach Madison and Granite City by operating over the tracks of other lines? A. That is true.

Q. In the same manner that the Merchants Bridge Terminal Railway Company operated over other lines to reach East St. Louis? A. Yes, sir.

The Terminal Railroad Association of East St. Louis, also had at that time a line running out from the Relay Station towards the National Stock Yards and connection with the Conlogue Railway, which was then controlled by the Vandalia Line.

And also it had St. Louis proper freight stations east of Twelfth street.

Q. How many freight stations? A. Two.

Q. Located where they are now? A. Yes, sir, but smaller in extent.

Q. That is the extent of those facilities? A. I think I have not mentioned that it had connection at the location of the present Relay Station with several of the eastern lines, the Ohio & Mississippi and the Evansville & Terre Haute, I think it was called at that time, now called the Vandalia Line.

Q. That is all, is it? A. And one of the smaller lines taken in by the Illinois Central. I think that was taken in later. I think I have mentioned everything now.

Q. Isn't it a fact that in 1893, then and before the acquisition of the Merchants Bridge Terminal Railway Company by the Terminal Railroad Association of St. Louis that the Merchants Bridge Terminal Railway Company had facilities for connecting with and had business with every railroad on the west side save and except the Terminal Railroad Association of St. Louis and the Missouri Pacific Railway track in the Mill Creek Valley? A. Why, no. It had no connection with the Frisco or with the Mill Creek Valley Line of the Wabash.

Q. It had connection with the Wabash Railroad north of Washington avenue, didn't it? A. The reason I mentioned no connection with the Mill Creek Valley Line of the Wabash Railroad is that that is the only part of the Wabash Line, that the Colorado Line, which is now the Rock Island, had trackage rights over.

Q. The Colorado line at that time extended only to Union, fifty-four miles out? A. It was very small.

Q. It simply had right-of-way from Forsythe Junction in Forest Park in St. Louis, over the Wabash tracks into Union Station, and no further? A. Yes, sir.

Q. So the connection of the Wabash Railroad beyond

Union Station availed the Colorado Road nothing? A. No, sir.

Q. Except as any carrier might avail itself of those facilities? A. Yes, sir, that is correct.

Q. Isn't it a fact, Mr. Perkins, that at the time I mention, 1893, the Merchants Bridge Terminal Railway Company had connection with every east side road through its terminal facilities on the east side and freight was actually handled from all those roads on the east side to the west side roads and *vice versa*, over the Merchants Bridge Terminal Railway Company's property? A. No, sir; except as I have said, indirectly. It had no direct connection. That does not mean that the business could not be handled. It could be handled.

Q. Wasn't it handled? That was in the question as I asked it.? A. I presume it was in some cases. But not in very large volumes.

Q. Don't you know that in 1892 and 1893 the Merchants Bridge Terminal Railway was handling a large volume of business over the Merchants Bridge between east side and west side roads? A. Your question I think was as to all of the railroads of East St. Louis?

Q. Answer the question I am asking you now. A. I think it had a considerable volume of business, but what that was I am not prepared to say now. I do not know what it was at the present time.

Q. The only indirection about the movement of freight over the Merchants Bridge Terminal Railway between the east side and the west side lines, between East St. Louis and St. Louis, was some indirection that would take place over the Terminal Railroad Association tracks between St. Louis and Madison and Granite City, Illinois? A. Exactly.

Q. And that indirection was not such that it would interfere at all with the practical operation of the railway, was it? A. Well, as business does everywhere else, to use the ex-

pression I think you originally used—it naturally went in the line of the least resistance.

The business naturally went to the Merchants Bridge Terminal Railway where its facilities were located to the best advantage, and business went to the Terminal Railroad Association facilities where it could go there to the best advantage. It was simply a matter of the people who controlled the routing of the business sending it in whichever direction they found it to their advantage.

Q. But it was naturally backward and forward over both these lines between Granite City and Madison and East St. Louis, Illinois, and St. Louis, Missouri? A. Certainly.

Q. I will ask you if it is not a fact that in 1893 the Merchants Bridge Terminal Railroad Company of St. Louis, Missouri, did not have more track located industries upon its rails that did the Terminal Railroad Association? A. Both had so very few at that time that it would be difficult to answer that question. The actual number of both of them is actually insignificant.

Q. Are you able to say which one would have the more at that time or was considered to have more?

(Witness pauses).

Q. If you don't remember about it, never mind. A. I was trying to think up exactly what they were. I can think of three that might have been on the Merchants Bridge Terminal Railway at that time. I am not sure they were actually put in at that time. I know one was, but whether the other two were I am not sure. They were so very few, I think the number would be well within a half dozen on each and I can not say now which one had the most.

Q. At that time? A. Yes, sir.

Q. I will ask you this question: Isn't it a fact that in St. Louis, Missouri, at this time on the properties of the Merchants Bridge Terminal Railroad there are many more track-located industries than there are on the rails of the

Terminal Railroad Association? A. That is taking in all extensions that have been made since that time?

Q. The tracks as they stand today. A. Yes, sir, I should say considerably more.

Q. Mr. Perkins, isn't it a fact that— A. Especially if you leave out the Central Belt. If you regard that as a separate property. It would be rather a question of whether that would belong to the Merchants Bridge Terminal Railroad or to the Terminal Railroad Association development. Of course, that goes to a certain extent on its own merits, but it connects with the Merchants Bridge Terminal Railroad Company's property and does not connect directly with the Terminal Railroad Association property. If one takes that into consideration there are very decidedly more track-located industries on that property than on the Terminal Railroad Association property in the Mill Creek Valley.

Q. The franchise for that, of which you speak, was granted to the officers of the Merchants Bridge Terminal Railroad Company, wasn't it? A. No, sir, there was a franchise granted for extension. There were several franchises granted. The present belt as it stands is a combination of two or three of those. It connects, however, with the old Merchants Bridge Terminal properties and it does not connect with the Terminal Railroad Association properties, directly.

Q. I will ask you if it is not a fact that in 1893, at the time of the acquisition of the Merchants Bridge Terminal Railroad Company's property by the Terminal Railroad Association that the Terminal Railroad Association had no rails north of the Eads Bridge on the levee? A. Yes, sir.

Q. Did the Terminal Railroad Association at that time have any rails anywhere north of the Eads Bridge adjacent to the river front? When I say adjacent, I mean in the vicinity. A. No, it had none adjacent to the river front.

In fact it had none anywhere north of the line of the Eads Bridge.

Q. And all of the territory north of the Eads Bridge, in St. Louis, Mo., had to be reached then through what you would call intermediate connections or indirect connections from the Terminal Railroad Association tracks? A. Yes, that had to be done by the St. Louis Transfer Railway Company or the Merchants Bridge Railroad Company or the Wabash.

Q. And that business, however, was carried on over the rails of the Terminal Railroad Association to industries in North St. Louis? A. Yes, sir.

Q. And it was done in a practical manner? A. Yes, sir.

Q. Now, I will ask you if the Wiggins Ferry Company did not have facilities in 1902 at the time it became the property of the Terminal Railroad Association that exceeded in extent on both sides of the river the facilities of the Terminal Railroad Association, leaving out now the matter of warehouses from the present consideration. A. Independent of the Merchants Bridge Terminal Railroad Company?

Q. Yes, independent of the Merchants Bridge Terminal Railroad Company now. A. Their facilities on the west side of the river were spread over a greater area, a greater length I should say, on account of the north and south side lines. The capacity of their public team tracks, however, was not half that of the Terminal Railroad Association. They reached, on the other hand, a considerably larger, much larger, body of private industries and independently they had more complete and direct connections with the railroad companies.

Q. With all the railroads or with more railroads? A. I say, more complete connection with the individual railroads. Neither company had connection with them all. The Wiggins Ferry Company for example, connected with

the Iron Mountain, and Wabash, and Burlington. Of course, you count the Iron Mountain and the Missouri Pacific as one property and say the Missouri Pacific. They did not, however, connect with the Frisco.

Q. No direct connection? A. No direct connection with the Frisco.

Q. The business of sending freight, however, or cars, was carried on over the property of the Wiggins Ferry Company to the east side lines by way of a connection in the Mill Creek Valley with the Iron Mountain track? A. Yes. sir. On the east side of the river they had connection with all the lines up and down the levee. Their connections there were complete and all of a direct nature.

Q. When you say "direct" you mean the rails of the Wiggins Ferry Company touched the rails of the individual roads? A. When I am speaking of the Wiggins Ferry Company I am speaking of all their allied property.

Q. Yes. Now, isn't it true that in 1902 all the railroad companies in St. Louis, Missouri, could reach very practically and speedily the rails of the Wiggins Ferry Company and did so for the purpose of sending cars backward and forward? A. All the west side lines reached them?

Q. Yes. A. Well, with the exception of the Frisco and the Rock Island, as I have mentioned. They did not reach them.

Q. The Rock Island? A. Well, the Colorado road.

Q. Could not the Colorado Road reach them through the Wabash? A. No, sir.

Q. Could not the St. Louis Transfer reach the Wabash on the Levee at the Eads Bridge? A. But the Wabash north St. Louis line had nothing to do with the Colorado Road.

Q. But they had the same right to use them by payment of the price demanded, as any other road would have? A. Only such rights as they would have to use any rails.

Q. That is what I say. I believe you misapprehended my question. I am not asking for the direct rail connection, but I am asking you if it is not a fact that all the roads could and did use the Wiggins Ferry Company's tracks for the purpose of handling the business of St. Louis, Missouri? A. Yes, sir; I said that. I said they reached it indirectly through some other railroad but had no direct rail connection.

Q. I will ask you, Mr. Perkins, if you make any distinction between a terminal railroad designed only for furnishing connection for interchange of traffic between different roads, having terminals in a given city, and a terminal railroad owning all these terminals, either freight or passenger, of every description, in a city, and controlling all communication across the adjoining river? A. That says "owning and controlling." Does it say "operating," too?

Q. Owning and controlling all communication across the adjoining river? A. Well, I would say the principle is the same. There is a great difference in degree and scope between those two limits you have set. There might be all sorts of degrees of furnishing facilities between those two limits you have set to the ownership and control of means for interchange, and means for the collection and distribution of traffic. Those are the two things, as I understand it, your question covers. Ownership or control of the facilities providing means for the interchange, first providing means for simply the interchange of traffic, secondly, providing means for the collection and distribution of traffic.

Now I should say there is very litle difference in the principles underlying the ownership and control of all those things. But all degrees between those two limits.

Mr. Priest: You mean to say the common measurement is the business arising, whether large or small, or whether confined to one municipality or extended to the adjoining municipality? A. I do not quite think that was the ques-

tion. It was a question rather of the extent of facilities owned or operated by some one agency, owned and controlled by some one corporation—the extent of those facilities.

In other words, whether they are simply a connecting track, or whether they are a collection of yards, team tracks, freight houses, and soforth, in addition to team track.

Mr. Priest: I did not understand General Crow's question as you do. I do not know that the General understands it as either of us does. I understand his question to be simply this: Whether you make any distinction between terminals confined to a single municipality, or whether terminals which connect several municipalities, being within the same business radius.

Mr. Crow: That is not the question. The question is directed at this proposition: Whether or not there is any distinction between a terminal railroad company that is designed and used only for the purpose of furnishing connection for the interchange of traffic between individual lines having individual terminals in a city, and a terminal railroad association that controls all of the terminal properties and means of communication between the city and over an adjoining river.

It goes to the use of the property as well as the ownership and control of it.

A. Well, now, that puts another element into the question, when you speak of use. And that is, one question—and that is why I tried to get at it when you said "ownership and control."

Mr. Crow: Yes, that is right, and I was going to follow it up by asking you whether the use and operation of those facilities would make any difference. But counsel on the other side seemed to want me to explain it and I did so. I did not want to put it all in one question.

A. My answer covers it, then?

Q. You have answered it from your standpoint. A. There would not be any difference in the principle underlying that, but all degrees to the extent to which said terminal properties could be used.

Q. I will ask you, Mr. Perkins, if you make any distinction between a terminal railroad designed and used and operated only for the purpose of furnishing a connection for the interchange of traffic between different roads, having terminals in a given city, and a terminal road designed and used in controlling and operating all the terminals for freight or passengers in the city and controlling and operating all means of communication across an adjoining river? A. Yes, sir. The first proposition, laid down in that question covers simply a medium of exchange between the railroads themselves and has nothing to do with the direct dealing with the public.

In the second proposition the terminal company, or whatever you call it, would be used as a medium of doing the business between the railroads and the public.

Q. As an independent carrier? A. If it is an independent company and not acting as agent of the railroads.

Q. I did not say anything about agent in my question. A. I simply answered it by saying that if the terminal company is organized independently to act as a means of doing business between railroads that have no direct facilities for dealing with the public, and is so operated, not as a part of the railroad facilities, but is operated entirely independently, then it would be quite different from the first case.

Q. It would be the difference between an operative company and a mere terminal line, wouldn't it? A. That might be so. But in the first case it might be an independent operative company, too. It might or might not be. It would depend simply on whether it was operated by the railroads for their benefit, or whether they simply operated over it, or whether a company entirely apart from the railroads

controlled and operated that. As is the case in a great many places.

Q. But in the statement of fact in the question I put to you, the second part of it, whether they control the facilities and own and operate them across an adjoining river to a city, makes a connecting line of the railroad, doesn't it? A. I would say, in a great many cases it would. That would depend upon the organization.

Q. In the statement I gave you, it makes it a connecting line, doesn't it? A. Presupposing an entirely independent company and operated by itself, yes.

Q. Not presupposing anything that is not in the question. A. The question, I do not think carries the principles of such an answer in itself.

Q. You say the question as put to you does not make in the second instance a connecting line? A. It might or might not make a connecting line. I will say that. It may perfectly well be a connecting line. On the other hand it might be so operated that it would be simply a part of the other line.

Q. Will you reflect for a moment, by means of collecting your thoughts.

The statement was that this terminal railroad company owned and operated all these facilities. Nothing was said about anybody else owning them or controlling them or having any agency. I tried to put it that way purposely. A. I think all I could say to that would be as to whether it were an independent carrier—

Q. I did not say independent carrier. I said independent line.

Mr. Priest: Let him answer the question.

A. As to whether is was a connecting line?

In ordinary railroad language it would not be exactly a connecting line except where the business was operated independently and not as a part of the service of the lines out-

side of the terminal district or switching district, or whatever you may call it. In one way, I suppose, technically, it might be called a connecting line. One would speak, perhaps, of an agent of the railroad, turning business over to his connection, possibly, when he turned it over to a company operating with separate engines and not under the same set of operative officers.

I think one method of distinction might be that possibly it would depend upon whether a regular separate freight rate or regular division of freight or passenger rate were made by the two companies, as connecting lines, or whether they were simply paid a certain sum to take care of the terminal business of the company, just as railroads pay to an omnibus company, or drayage company.

It would certainly be a part of the through service, I should say,—a part of the through freight and passenger arrangement.

Q. Independent of the terminal service: Is that what you mean? A. Independent of such terminal business as they would do directly and solely for the public.

Q. Pardon me, Mr. Perkins. I am not interpolating that word "independent service" into my question. I asked you if you meant, when you said "part of the through service" you distinguished between the terminal service and the through service? A. Why, yes; the terminal service as such would consist of two parts, perhaps: That which is done in connection with the railroad companies for which the terminal company receives and distributes freight and passengers, interchanges freight and passengers, and the business that is done directly for the public, without any direct connection with any other company.

Of course, almost any terminal company that reaches any number of industries, to a certain extent does a local business through the switching of cars from one place to another.

In the case, as you have put it, taking cars as a complete transaction from one side of the river to the other side of the river, that is a different class of business from the providing of terminal facilities for the railroad companies.

That is a case of doing business as a Switching Co., independently of the railroads.

I suppose in that case it cuts no figure whether they are borrowing the equipment of a railroad company to do it, or providing their own. Almost any terminal company does a certain amount of that business. Now I suppose there would be cases in which a terminal company of that kind would be regarded directly as a connecting line.

I think that might be so in connection with certain of the coal roads in Illinois, that I have mentioned. They are unwilling to take any part in getting that business, so to speak, across the State boundary. I rather think there was a good deal of fallacy in the position—but as I understand it some of the coal roads want to confine their business to Illinois and make no arrangement with the Terminal Company for handling the business across the river—but deliver the business to the Terminal Company as if it were a separate railroad company.

In that case I should say for practical purposes that the Terminal Company was a connecting line, although the originating line I think claims it is not. I should not suppose the latter claim could be maintained.

These are the three classes of business I should say a terminal company would do. It does business for railroads as their agent. It interchanges business between railroads. It does a local business of its own for the public.

I think that is about as clearly as I could answer the question—which is sweeping.

Q. I will ask you, Mr. Perkins, if it is not true that prior to 1903, when the Terminal Railroad Association acquired control of the Merchants Bridge Terminal Railway, that

the Merchants Bridge Terminal Railway, the Wiggins Ferry Company and the Terminal Railroad Association were all operated, controlled, and made an independent charge, separate from the individual railroads, entering Saint Louis, Missouri, and East Saint Louis, Illinois? A. Yes, sir.

Q. I will ask you if after the acquisition of the Merchants Bridge Terminal Railway Company by the Terminal Railroad Association of Saint Louis, if the Terminal Railroad Association of Saint Louis and the Wiggins Ferry Company were not operated independently of the individual roads entering East Saint Louis, Illinois, and Saint Louis, Missouri, and made a separate charge as a carrier, for service rendered? A. Yes, sir.

Q. I will ask you if it is not true that in the operation and use of those properties in the manner indicated by the last two questions, those roads, the Wiggins Ferry Company and the Terminal Railroad Association, were not independent carriers, and not agents, merely of the individual roads? A. You say in 1903?

Q. Yes, 1902. Before the consolidation. A. Why, yes; the Merchants Bridge Terminal Railway Company and the Wiggins Ferry Company were so entirely, and the Terminal Railroad Asociation was to a certain extent.

Q. Wherein was there any difference in the operation of the Terminal Railroad Association and the Wiggins Ferry Company properties, so far as being independent of the railroads is concerned? A. Prior to that time the railroads did not own or control either the Wiggins Ferry, or the Merchants Bridge, and the Merchants Bridge Railway Terminal Company.

Q. This was prior to 1903? A. Yes, sir. And, as I tried to point out, the situation has changed gradually. Only a part of the roads controlled and owned the Terminal Railroad Association properties. The Terminal Railroad Association and its properties did business for every other rail-

road on a similar basis that it did for its own stockholders.

Q. But in the method of its operation, so far as its charges were concerned, and its dealing with the public, it dealt with the public as an individual corporation, separate from the railroad, and made its independent charges? A. Yes, sir. It operated independently.

Q. And the distinction you make is as to the ownership of the Terminal Railroad Association and the Merchants Bridge and the Wiggins Ferry, in 1903 and prior thereto? A. Well, yes. The distinction I made is as to its ownership and the control of its policy. So far as its actual operation was concerned it was actually independent, as if a separate company.

Q. I will ask you if it is not a fact that you stated in a report that yourself and Mr. Moore made, I believe, as experts, on this terminal situation, that a terminal corporation operated as a terminal agency should not be one operated for profit or gain, but should be organized and clearly recognized solely as an agency of the combined railroads? A. That is what we represented as the ideal condition as far as we could.

Q. I believe you stated the other day that the warehouses provided now by the Terminal Railroad Association were inadequate for the handling of freight at this time? A. I did.

Q. Do you know the number of industries that are located on the Terminal Tracks proper? A. No, sir.

Q. Did you ever investigate that? A. Yes sir, but I could not say right now what the number is.

Q. You have a memorandum of it? A. Yes, sir, I think I have.

Q. Could you lay your hands on that, do you think? A. I think I could tomorrow.

Q. I meant that. I supposed you had investigated these questions, and this would be the proper source to get them. A. I think I have that in my files.

Q. Did you also investigate the number of track located industries on the Merchants Bridge Terminal property proper? A. Yes, sir.

Q. You also have that memorandum? A. Yes, sir, I think so.

Q. You also have the number of track located industries on the Wiggins Ferry Company property? A. Yes, sir. As a matter of fact those are all published in very simple shape in the switching tariffs of those properties.

Q. I suupose you made an independent investigation? A. I will see if I have that memorandum. But if I have not that memorandum I can verify the other from my personal knowledge, if that is what you wish, by checking them over and thinking over them at my leisure.

Q. I believe you stated the other day, in answer to my inquiry, that for freight purposes you regarded Mill Creek Valley as the best terminal property in the city, everything considered? A. That is the most centrally located district.

Q. That is what I meant. A. Yes.

Q. You spoke the other day about the acquisition, I believe, of the Ranken tract, by the Terminal Railroad Association? A. Yes, sir.

Q. How far from the Union Passenger Station is the Ranken tract located in point of blocks? A. That would be approximately ten blocks.

Q. Westward, and immediately up the Mill Creek Valley? A. Yes, sir. The Terminal Railroad Association had acquired quite a little property in that neighborhood in addition to the Ranken tract.

Q. By lease? A. Probably by purchase. Part of the property is purchased and, in fact, part of the Ranken property was purchased outright. There were quite a number of heirs to that property and a part of their interest was purchased outright and a part leased. Robert Ranken's part was bought outright.

Q. Whereabouts is the additional property located with reference to the Ranken property? A. Both east and west.

Q. What is the extent of it? A. I do not think I can say, offhand.

Q. As much in area as the Ranken property? A. No, sir.

Q. There is about 35 acres in the Ranken tract?

Mr. Watts: There are 37 acres in the Ranken tract.

A. No. There are about 18.6 acres not including streets and alleys. Probably about 21 acres including streets and alleys.

Mr. Watts: Just as it stands today? A. There are a lot of streets that were dedicated but never have been opened.

Mr. Crow: Q. There are streets, however, just the same?

A. Streets that must be closed to make use of the property but even that would bring the area below what you said. I made a memorandum of that at one time.

Q. It makes about 38 acres and a fraction, without the streets, in the leased property? A. No, approximately, 21 as I have stated.

Q. The property adjacent, that was acquired as a property without any improvements or incumbrances upon it, in the shape of buildings? A. Part of it is and part of it has some small dwelling houses on it.

Q. None of it goes north of the adjoining street—I mean where the Market street line runs? A. None of it goes north of the street cars, no.

Q. I don't know what that street is there? A. The Old Manchester Road.

Q. Mr. Perkins, is the property described there as the Rankin property located on or near Compton avenue, a desirable property for freight facilities to provide warehouses and team tracks? A. Yes, I should say so. Of course that was not the controlling factor, but it was in accordance with my recommendation—

Q. I am simply asking you if it is practical to use it for that purpose? A. Yes.

Q. Then all property that far west you regard as practical for such purposes? A. Yes, sir, I recommended that it be bought.

Q. It is as good property as could be acquired in the Mill Creek Valley? A. I recommended that it be acquired for that purpose.

Q. This property that intervened between that and Union Station and down to Gratiot street would be good property, wouldn't it? A. South of Spruce street, I should say, yes.

Q. South of Spruce street? A. Yes, possibly a little south of Clark avenue.

Q. Spruce street runs east and west, parallel with the Mill Creek Valley? A. Yes.

Q. Did I understand you to say in your testimony the other day that no property could practically be acquired for terminal facilities, for freight purpose, such as team tracks and lead tracks, in the Mill Creek Valley, in addition to what the Terminal Railroad Association, the Missouri Pacific, Frisco and the Wabash Railroad already had? A. No, sir.

Q. I got that impression and I wanted to be clear about it? A. No, sir. I think you will find I stated there, in addition to what they might need for necessary and reasonable extensions for the future.

Q. I will ask you then, if this is a fact: That there is additional property in the Mill Creek Valley that the Terminal Railroad Association could now and for many years past could have acquired, that would have been suitable and practicable, as much so during the whole period as any property in the city, for team track and warehouse and freight house purposes? A. Well, yes, but I should not want to mix my answer up with any matter of prices.

Q. I am not saying anything about prices? A. Regardless of prices I might say yes.

Q. I will ask you if it is not a fact that the price fixed on the Rankin tract was a reasonable price? A. I thought it pretty high.

Q. I am speaking of it now as Terminal property, considering the size of the city and the railroad interests? A. I believe it was a much higher price than could have been obtained for the property in any other way. It was a very high price to pay for such property.

Q. For terminal use? A. Yes, considering its location, I want to say.

Q. Do you consider the price that was paid or the rental which fixed the valuation of the Rankin land was a high and unreasonable price, taking it for terminal property and the purposes for which it was bought, considering the city of St. Louis, its size and railroad interests in comparison with other cities, and the value of terminal properties of a similar kind and class in other cities in this country? A. That, of course, depends upon several factors. First, whether it is known that the railroad actually needs the property and must have it upon any terms, in order not to be absolutely swamped in its business. Secondly, location of the property as compared with the best business parts of the city. And, thirdly, the uses for which the property is being put or is likely to be put, and other uses to which the property might otherwise be put.

Those three things, of course, have to be taken into consideration.

Of course, my knowledge of the price of real estate simply comes from general knowledge of what I have known of prices paid by railroads for such property, and what experience I have had in having to get property for railroads I have been connected with.

I would say this: I have from time to time investigated

the prices of property where I was figuring on what might be done. I would say that, but I could not say I am qualified to pass on the value of real estate, because I am not. I could only give my own general impressions from my experience in dealing with real estate from a railroad point of view.

Q. But you have been employed for the purpose of passing on this terminal problem here, and you have passed upon that question, and would not that inform you as to the value of ground to be used for terminals? A. I have already outlined what my exerience has been in that respect.

When I want to get some idea of what property could probably be acquired for, or whether probably for a practicable price or not, I ask some real estate men representing different interests. I might go to two or three firms in the real estate business and say: "About what do you think would be a fair price and what might be demanded for a certain piece of property?

Q. Haven't you investigated the prices paid for similarly situated terminal properties in other cities with a view of determining whether or not it was practical for the Terminal Railroad Association to purchase sufficient terminal property? A. I have known of the prices paid for a good many different pieces of property. The conditions in all of them vary extremely. I don't carry them all in my head particularly.

Q. Take your knowledge of the value of terminals in other cities, similarly situated, and you say now that was an unreasonable valuation? A. I do not say it was unreasonable. I say it always struck me as a high price to pay for that particular piece of property, situated as it is, and in regard to the availability for other purposes.

Of course, the prices of property for railroad purposes has been advancing of late years. But it is a tremendously high price compared with what was paid for all of the rail-

road property up in North St. Louis until you get down south of North Market street. This would not be a high price for property bought in the neightborhood of Twelfth street.

I should say if that had been property east of Twentieth street it would be a very reasonable price, indeed, and perhaps a low price.

Q. East of Twentieth street? A. Approximately so. Ten blocks further east of its present location, say.

Q. Are you familiar with what the Terminal Railroad Association sold two blocks of land for some eighteen years ago to the Burlington Railroad Company in St. Louis? A. Not at the present time. I don't remember at all about that.

I have seen prices paid for various pieces of property, but the matter has not come into my head for a great many years.

Q. I will ask you if you know if you investigated to find out whether or not east of Twentieth street the Terminal Railroad Association could have acquired property for the same or a less figure that would be equally adaptable when acquired as the Rankin tract, for warehouse and team track purposes? A. Well, people from time to time have spoken to me about property they would like to sell to the Terminal Railroad Association, with which I told them I had nothing to do.

And I have heard of pieces of property offered to the Terminal Railroad Association at various prices. I don't know how far they ever got with negotiations for such pieces of property.

I can not say now what they paid for such pieces of property as they had.

Q. Was it a less price than the Rankin tract was valued at, or about the same? A. I think some of them less and some of them more. I know certain parties were inter-

ested in getting up a scheme for the use of the property west of Twelfth street and south of Clark avenue. They expected to propose a considerably higher rate than that.

I think there was a man named Peck who got options on a whole lot of property there and had a scheme to wipe that all off and make a freight or terminal station or something of that kind there. But his idea of price was a good deal higher than the Rankin property.

I can not certify to it, but I have heard that the Tiffany property, I think it was, at Eleventh and Spruce streets, was offered to the Terminal Railroad Association at a considerably higher rate than that, and later sold at a higher rate than that, to parties who were putting up a warehouse.

Q. You did not investigate the values of property that might be used for terminal purposes in the Mill Creek Valley? A. I can not say I did make a general investigation of it all. Only in a general way, different pieces of property I asked about.

Q. That would be one of the problems you would have to determine, wouldn't it, in making a recommendation? A. Oh, yes, I have a general idea of what the property might be got for or could be sold for.

Q. Do you know the Frisco renewed its leases on the property on Spruce street east of Eleventh street for ten years at a valuation of three dollars and ten cents per square foot? A. No, sir; I do not know it.

Q. Haven't you heard that? A. No, sir; I do not remember hearing the valuation. I think that is very likely, and if that is the case that is a fair basis.

Q. Isn't it a fact that property can be purchased say from Gratiot street west as far as Grand avenue, on the south of the Frisco and the Missouri Pacific tracks there for approximately an average of three dollars per square foot? A. I think there are some pieces that can. They are rather badly cut up, though.

Q. Didn't you investigate that question? A. Oh, yes, I went over that property.

Q. Did you make any calculation as to the extent of territory from say Seventh street and Gratiot street out to Thirty-sixth street, or Grand avenue, that might be utilized for terminal facilities? A. Yes, I went all over it and made a map of my own, a map I used for a long time, showing just what could be used.

Q. How many acres could be used? A. I don't remember now.

Q. Isn't it approximately, considering the streets, if they were condemned, and adding that to the total area, about one hundred and fifty acres? A. Beginning where?

Q. Beginning at Seventh street and running out to Thirty-sixth street—that is, Grand avenue? A. Why, no, I should not think so, or anywhere near that.

Q. You would not think so? A. No, sir

Q. That would be about twenty-eight blocks, wouldn't it? A. No, sir, I do not believe it. I doubt if there are fifty acres available. I do not care to make any different estimate now.

Q. It is a very easy matter to make that estimate by taking the blocks as they occur? A. Not so easy as you might think, considering what is on some of them.

Q. Is there anything on any of them that could not be removed? A. You could remove the Eads Bridge, if you want. You could remove anything.

Q. It would not be terminal property if the Eads Bridge was removed? A. What I mean is, you can remove anything from property if you can pay for it.

Q. All kinds of buildings were removed for the purpose of making terminal property, weren't they? Considering it without reference to the question of price of making it. I am talking now about the amount of ground that might be utilized there?

Mr. Priest: I suppose you might utilize the whole city.

Mr. Crow: The whole city does not lie in Mill Creek Valley and this property does. That makes a difference.

Mr. Priest: It is contiguous to it.

Mr. Crow: Your witness has said that Mill Creek Valley is the proper place for centrally located freight terminals. I am taking him on his own statement and I think he is correct about that.

A. I think very limited areas are available on the south side. Here and there are different sized tracts that are available if they could be obtained.

Q. From Seventh street to Twelfth street is five blocks, isn't it? A. Seventh street to Twelfth street on the south side is pretty well occupied.

Q. What is it occupied with? A. The Merchants Bridge Terminal Railroad Company's tracks down Gratiot street. And Gratiot street is a main thoroughfare up and down there, and south of there the land is very rolling. The Terminal Railroad Association team tracks now extend west to Twelfth street, occupying all the available space south of Gratiot street, right up to the edge of the curb.

Q. You say that territory is occupied? A. Yes, sir.

Q. From Twelfth to Sixteenth streets, it is occupied south of the Frisco tracks, by the tracks of the Terminal Railroad Association? A. No, sir; there is quite a little property in there available for terminal purposes.

Q. What will those blocks average, two hundred and fifty feet in length, do you think? A. I think two or three short blocks and one pretty long one.

At this point a recess is taken until 2:30 p. m.

After recess on Monday, May 18, 1908, the following proceedings were had:

Cross-examination of Mr. A. T. Perkins continued:

Q. Did I understand you to say that between Seventh and Twelfth, south of the Frisco tracks and north of Chou-

teau avenue the ground was occupied by railroad tracks? A. Between Seventh and Twelfth streets south of the Frisco tracks, is that right?

Q. Yes, and north of Chouteau avenue. I understood you to say it was occupied by tracks. I want to find out if I understood you correctly? A. I said, north of Gratiot street. You remember, I said Gratiot street was a thoroughfare there.

Q. How much space in there is occupied by tracks, between Gratiot street and the Frisco tracks and between Seventh and Twelfth streets? A. Most of it is. The tracks go to the edge of Gratiot street, up to the sidewalk.

Q. How much is that—a block or two blocks? What is the distance between the Frisco tracks and Gratiot street? A. Not a very great distance.

Q. As much as a block? A. There is not a block of open property there, no.

Q. There is a block in extent, without regard to whether it is open or not. Is there a block in extent between the Frisco tracks and Gratiot street? A. Oh, yes, just about a block.

Q. There is no intervening street between Gratiot street and Frisco tracks and between Seventh and Twelfth streets? A. No open street, no, sir.

Q. What would you judge it to be, two or three hundred feet in distance between Gratiot street and the Frisco track? A. I should say not more than a couple of hundred feet.

Q. Do those tracks between Gratiot street and the Frisco tracks and Seventh and Twelfth streets extend the whole length from Seventh street to Twelfth street? A. Yes, sir; about the whole width, somewhat irregularly arranged, on account of the contour of the ground. It had to be built up in certain places and there are driveways in there; driveways coming in from Twelfth street, that wind around.

Q. They go through there from Seventh to Twelfth streets, those tracks? A. They go through there, parts of them, yes.

Q. Are they team tracks or warehouse tracks? A. Team tracks.

Q. And used for that purpose? A. Yes.

Q. Aren't those team tracks on the property of the Merchants Bridge Terminal Railroad Company? A. Yes, sir. They are the extension of the old Merchants Bridge Terminal Company's tracks.

Q. They stop at Twelfth street, don't they? A. Yes, except for certain spurs going into certain industries there.

Q. But the team tracks stop at Twelfth street? A. Yes, sir; and there are a few industry tracks that cross Gratiot street into mills and so on.

Q. The Terminal Railroad Association proper has no tracks between Seventh and Twelfth street south of those tracks of the Merchants Bridge Terminal Railway Company which you have described? A. No.

Q. From Twelfth to Eighteenth street, south of the Frisco tracks and north of Chouteau avenue, are there any railroad tracks, and if so, of what companies? A. There are a number of tracks there, branching out from the Missouri Pacific.

Q. Are there any terminal tracks used for team track purposes, or warehouse purposes, or anything other than spurs to industries? A. I think not.

Q. Neither the Merchants Bridge Terminal Railway nor the Terminal Railroad Association has any tracks in that territory from Twelfth to Eighteenth street, bounded on the north by the Frisco tracks, on the south by Chouteau avenue, unless one or two spur tracks, and they are principally from individual roads, aren't they? A. Yes, the Missouri Pacific.

Q. From Eighteenth to Jefferson avenue, south of the

Frisco tracks and north of Chouteau avenue, are there any tracks other than spurs to industries? A. I think the Missouri Pacific has in there a track on which it places some cars for loading and unloading.

Q. South of the Frisco tracks? A. The Frisco has no tracks there.

Q. Whereabouts? A. I am not sure whether that is east of Jefferson avenue or not, but I think possibly they have one track in there, where they place cars to load and unload.

Q. Do you know on what streets it lies between, east and west? A. Come to think of it, that is just west of Ewing avenue instead of Jefferson avenue.

Q. Ewing avenue is west of Jefferson avenue? A. Yes. I don't remember just now any regular public team tracks right in that section of the Missouri Pacific Railroad.

Q. And there is no railroad warehouse in there between Eighteenth and Twenty-sixth streets, and neither the Merchants Bridge Terminal Railway Company or the Terminal Railroad Association has any property in the way of team tracks or warehouse facilities, in the region between Eighteenth street and Twenty-sixth street, and between the Frisco tracks on the north and Chouteau avenue on the south? A. The Frisco has no track in that district, after passing Twelfth street, no tracks of any kind of either the Terminal Railroad Association or the Merchants Bridge Terminal Railway Company on the south side of the valley, at the present time, except as I have said, one or two tracks lead off across Gratiot street into property just south of Gratiot street there.

Q. From Jefferson avenue (Twenty-sixth street) to Garrison avenue (Thirtieth street) what tracks, if any, are there in the way of either team tracks or tracks for warehouse purposes, or warehouses of individual roads, or the Terminal Railroad Association or the Merchants Bridge Terminal

Railway Company, south of the Frisco tracks and north of Chouteau avenue, and between the streets named—that is, between Jefferson and Garrison avenues? A. The Frisco Railroad has a team track lying between Jefferson avenue and Ewing avenue. They have two. They have a couple of team tracks in there. The Missouri Pacific has some tracks in between Ewing avenue and Compton avenue on the south side. For instance it has a track south of its old shop property in there, which I believe is used for team track purposes.

There are several others in along that same neighborhood. I cannot place them offhand by the streets.

Q. Several others of what road? A. Of the Missouri Pacific. Everywhere along the south side of the valley there is Missouri Pacific.

Q. Have you investigated those team tracks out there, from Jefferson avenue west, to find out what their car capacity is? A. Yes, I have been over them many times.

Q. Is it a limited car capacity? A. Yes, it is not a very large right along in there. It is quite limited.

Q. What would you call "limited"? What number of cars—25 or 30? A. Well, no; I think there is considerably more capacity than that there, but I cannot say offhand, right now, what capacity there is in those several tracks along there. They serve people in that neighborhood. Most of the tracks in that neighborhood are tracks into industries.

Q. From Garrison avenue or Thirtieth street, to Grand avenue or Thirty-sixth street, and between the Frisco tracks and Chouteau avenue, what team tracks or warehouses of either individual roads or of the Merchants Bridge Railway or the Terminal Railroad Association of St. Louis are there? A. On the south side of the valley?

Q. Yes, between Frisco tracks and Chouteau avenue? A. None at all, except the Missouri Pacific tracks. The Mis-

souri Pacific has considerable team tracks in there and in the neighborhood of Theresa avenue and along there.

Q. Have you any idea what is the car capacity of those tracks? A. I don't remember just now what their capacity is. I could give a rough guess at it. I suppose it is between 50 and 100 cars. I don't remember it exactly. I haven't looked that up for a long time.

Q. Do you know the distance between the Frisco property on the north and Chouteau avenue on the south from say Twelfth street to Eighteenth street? Doesn't that map give the distance? A. (After examining Pitzman map) No, that map does not show its scale.

Q. Did you ever measure those distances? How many blocks is in that territory I have described between the Frisco tracks and Chouteau avenue? A. We have been talking about Gratiot street all the time.

Q. But I said from Twelfth to Eighteenth streets? A. From Twelfth to Eighteenth streets and between there and Chouteau avenue?

Q. Yes? A. The Frisco has no property there; but I should suppose it would average about a block and a half to two blocks from the Missouri Pacific tracks.

Q. Exclusive of streets? A. Exclusive of the street? I meant between their line and the north line of Chouteau avenue.

Q. There are streets laid out on the map, aren't there, on the city plat? A. There are, a part of the way.

Q. Aren't there all the way between Twelfth and Eighteenth streets? that is, I don't know that they are open? A. Oh, yes; I think they are laid out all right. I don't know just what there is there that is really opened. I have a complete map of all that in my possession, drawn up carefully.

Q. And giving all those figures? A. Giving everything exactly, all the boundary lines and everything else.

Q. That would be the better thing for you to refer to in answering these questions, because then you could state exactly? A. I can give you the exact figures if you want to use those maps. It is on a very large scale.

Q. The figures are all I care about. If you have those figures I would like you to get them and refresh your memory, because I want to put them in the record, and put them in through you.

Mr. Perkins, I will ask you if, acording to the best of your recollection, the distance between the Frisco tracks and Chouteau avenue, at Eighth street, is about 715 feet, inclusive of east and west streets and alleys?

Mr. Priest: I submit whether Mr. Perkins has made any examination, as the basis of recollection——

Mr. Crow: I gave him my figures and he stated that they coincided with his recollection of the figures he had made, substantially.

A. I said, from going over it, and without looking at my map and figuring out the exact number of feet at these different locations, I would say that is not very far out of the way, but I have all those figures and can furnish you with them tomorrow if you care for them. I have maps drawn exactly to scale, showing the whole thing, the result of careful investigations. I did not personally make the measurements of the ground, of course.

Mr. Crow: But it was done under your direction? A. Yes, under the direction of Mr. Moore and myself.

Q. What would be your answer to my question? A. I would say the approximately the figures you mentioned are correct.

Q. I will ask you, Mr. Perkins, if at Twelfth street, between the Frisco tracks and Chouteau avenue, the distance is not about 1016 feet—in the neighborhood of 1000 feet, say? A. I should say so, approximately.

Q. I will ask you if, at Eighteenth street, the distance

between the Frisco tracks and Chouteau avenue on the south is not in the neighborhood of 700 to 712 or 715 feet; my exact figures are 712 feet? A. I think you must mean the Missouri Pacific instead of Frisco. If so, I should think very likely that is correct. I would have to make the same answer as to the other question; very roughly, I do not think that is very far out of the way, but I do not say it from any exact recollection.

Q. I will ask you if at Thirty-fourth street, between the Frisco tracks on the north and Chouteau avenue on the south the distance is not in the neighborhood of 875 to 900 feet? My exact figures are 878 feet? A. Yes, sir; I should think so, approximately.

Q. I will ask you if two blocks further west, at Grand avenue or Thirty-sixth street, the distance between Chouteau avenue on the south and Frisco tracks on the north, does not widen that distance, making it approximately 1100 feet; my exact figures are 1097 feet? A. Yes, I should say that is very nearly correct.

Q. Then, Mr. Perkins, if those figures are correct, from Twelfth street to Thirty-sixth street (which is Grand avenue) wouldn't it average two good blocks in width? A. Between the Frisco tracks and Chouteau avenue?

Q. Yes? A. Well, the Frisco has no tracks over much of that distance, but from the Missouri Pacific, yes, I should think it would.

Q. And how many blocks in length would that be, from Twelfth street to Thirty-sixth street? A. I should say that in there there are approximately twenty blocks.

Q. Aren't there more than that? A. No, I hardly think so, right in there.

Q. What runs it less than twenty-four? A. There are several streets that do not go through there. For instance, instead of there being three blocks where the Frisco tracks are, between Jefferson and Ewing avenues, which lie on

the north side of the valley, there is only one, I think, laid out. It runs from three over at Laclede avenue down to one at Gratiot street.

Q. You are talking about the distance north and south now, are you? A. No, sir, east and west. Those blocks are all of a very irregular size.

Q. You think there are twenty blocks in there, east and west. A. Yes, sir. I would say it is fair to call it twenty blocks east and west.

Q. And two blocks in that prescribed territory? A. Between the railroad tracks and Chouteau avenue?

Q. Yes? A. I should say so.

Q. That would make a total of forty blocks? A. Yes, that is right.

Q. How many square feet are there in one of those blocks —just approximately? A. Well, some of them have not more than one acre and some of them——

Q. Put it in square feet. Won't they average 250x300 feet, those blocks? A. I should think so, on the average.

Q. That would give about 75,000 square feet to the block, wouldn't it? A. Is this map (indicating Pitzman map) ten hundred or twelve hundred feet to the inch?

Q. I don't know? A. About 1200 feet to the inch. I think—250x300 feet, you said?

Q. Yes, that would make about 75,000 square feet? A. I imagine that is not much out of line.

Q. And if there are 75,000 square feet in one block, in the forty blocks there would be of course forty times that, wouldn't there? A. Yes, sir.

Q. Which would make, as I figure it here, three million square feet approximately in that area—or whatever it would figure, if my figures are wrong. But that would be the basis of calculation, wouldn't it? A. Yes, sir.

Q. There are about forty-three thousand square feet to an acre? A. Forty-three thousand five hundred and

sixty feet, I believe. About seventy acres you would figure it, that area.

Q. Mr. Perkins, in the territory between Seventh street and Twelfth street, bounded on the north by the Frisco tracks and on the south by Chouteau avenue, how much space is unoccupied by railroad tracks? A. With the exception of the industry tracks that go into the mills there, there are no tracks south of Gratiot street. The property north of Gratiot street is all occupied

Q. North of Gratiot street? A. It is all occupied north of Gratiot street about as fully as possible. South of Gratiot street there is a track that leads off from Gratiot street right at Gratiot street, right on top of the hill here.

Q. Whose track is that, the Missouri Pacific? A. That is the Merchants Bridge Terminal Railroad track.

Q. That is an industry track, isn't it? A. Yes.

Q. What industry does that go to? A. That goes into, I think it is used by the Purina Mills. I think they have a different name for it now.

Q. The Ralston Food Company, isn't it? A. Yes, that is right.

Q. How much in territory and number of feet is there between the tracks of the Merchants Terminal Railroad Association, between Seventh and Twelfth streets, south of the Merchants Bridge Terminal Company's tracks that are unoccupied by any tracks, if you know? A. How much south of the Merchants Bridge Terminal Railroad Company's tracks and between there and Chouteau avenue?

Q. Yes, just approximately. I know you never measured that proposition? A. Well, I should suppose roughly three or four acres.

Q. Three or four acres? A. Yes, sir.

Q. I believe you stated that from Twelfth street to Twenty-sixth street there was nothing south of those Frisco tracks except industry tracks? A. I suppose you mean

south of the Missouri Pacific. Nothing except industry tracks. There were one or two tracks leading off into that old Harrison & Howard Iron Company property and one or two other industries west of there.

Q. Take the territory from Jefferson avenue to Garrison avenue, that is, from Twenty-sixth street to Thirtieth streets; I believe you stated that the Missouri Pacific had some small team tracks south of the Frisco and north of Chouteau avenue? A. Yes, sir; I think they have. The Missouri Pacific property begins to widen out about on the west side of Ewing avenue and then about one block north of that it goes away through to Chouteau avenue, either between Ewing avenue or possibly a very small block north of there, and Compton avenue. It owns and occupies all the property right through to Chouteau avenue.

Q. How much territory in point of feet and blocks is unoccupied by railroad tracks between Jefferson avenue, or on Twenty-sixth street and Garrison avenue, or Thirtieth street? A. Not very much. Possibly two blocks of property, I should imagine. Not more than that, I imagine.

Q. Say four or five acres? A. No, sir; I do not think as many blocks as that.

Q. Two hundred and nine square feet is an acre, approximately? A. Nearly two hundred and nine on each side.

Q. Square feet? A. No, feet square. Jefferson avenue runs, as you know, southwest and northeast and cuts it down in that neighborhood to a pretty narrow space in there.

Q. Where it cuts it on the west it widens the block on the east, doesn't it? A. I think you are speaking—perhaps I misunderstood your last question.

Q. If it runs this way (indicating) it makes this block longer and this block shorter (indicating). Jefferson ave-

nue runs slightly southwest at that point? A. Yes, sir; very decidedly.

Q. Well, just approximately, how much territory do you think it is, two or three acres, or whatever you say it is? A. You are speaking of between Jefferson avenue and Thirtieth street?

Q. Yes, between Twenty-sixth and Thirtieth streets, a distance of four blocks? A. I doubt if there is much more than a couple of acres there. I may be wrong about that, but my recollection is that there is comparatively little in there.

Q. From Garrison avenue, or Thirtieth street, to Grand avenue, or Thirty-sixth street, south of the Frisco Railroad and north of Chouteau avenue, how much territory is occupied in there by tracks, in your judgment? A. It is all occupied between Thirtieth street and Compton avenue.

Q. What is Compton avenue, Thirty-second street? A. Yes, sir. Then from Compton avenue to Grand——

Q. What occupied it up there from Thirtieth street to Thirty-second street? A. The Missouri Pacific tracks.

Q. Clear to Chouteau avenue? A. Yes. It is occupied by tracks and shops. They made plans to take out the shops and put tracks in their place. From Compton avenue to Grand avenue. I imagine there are a half dozen acres of property in there. I can not say exactly.

Q. Of the space mentioned, from Seventh street to Twelfth street, and from Twelfth street to Eighteenth street, from Eighteenth street to Jefferson avenue or Twenty-sixth street, and from Jefferson avenue to Garrison avenue or Thirtieth street, and from Garrison avenue to Grand avenue or Thirty-sixth street, bounded on the north by the Frisco tracks and on the south by Chouteau avenue the figures you have given, according to the best of your recollection, would leave an unoccupied space, so far as team tracks and warehouses are concerned, of seventy acres, four

acres, three acres and six acres, making a total of eighty-three acres in the Mill Creek Valley? A. No, I should hardly say that. These figures recently given—I do not exactly understand how you get at that.

Mr. Watts: Those were taken out of the seventy. He said seventy in the first instance.

A. What you figure there is Seventh street to Grand avenue.

I did not say it was available for railroad purposes.

Q. I didn't ask you that. I asked you for the territory. A. I don't think you have that right at all. Well, while I dislike to be making rough estimates, the area of seventy acres, as I understand it was figured out, was the area of the property between the Missouri Pacific right-of-way and Chouteau avenue, Twelfth street and Grand avenue; isn't that it?

Q. That is right. A. These figures you have added on there are a lot of them in that same territory. On the other hand, in that seventy acres are all of the Missouri Pacific facilities from Grand avenue to Twelfth street. Their yards and everything of that kind.

Q. You didn't figure in that property from Seventh to Twelfth street? A. Yes, as I said, the only property that has not railroad tracks on it between Seventh and Twelfth streets is that property between Gratiot street and Chouteau avenue, a very small amount.

Q. Did you ever have made any survey of those yards to ascertain how many car lengths of tracks from Twelfth street to Thirty-sixth street the Missouri Pacific and the Frisco have in there, that they use for team track or yard purposes? A. Yes, sir; I have been over that.

Q. You have that, have you? A. Yes.

Q. Will you furnish it to me? A. Yes, I think I have the Missouri Pacific. I know I have the Frisco on file. I

am not positive whether I still have the Missouri Pacific or not.

Q. Have you the figures showing how much in car lengths or car space, is left, that is not occupied in that territory between Twelfth street and Thirty-sixth street? A. I could figure it up in just five minutes in my office. I have the exact data.

Q. You have the data, have you? A. Yes, I have the data.

Q. Will you get those figures for me? A. Yes, sir; I have them.

Q. I wish you would make a memorandum of those things so you will not forget them. A. Very well. You want the area of land unoccupied by railroad tracks between Twelfth street and Grand avenue and between the Frisco tracks and Chouteau?

Q. Frisco or southerly tracks? A. The southerly tracks are the Missouri Pacific tracks.

Q. Not all the way? A. For the greater part of that stretch in there.

Q. That is the space, anyway, the unoccupied space there? A. That is a very different proposition. What you asked me originally was the space between the Frisco tracks and Chouteau avenue. It is a different proposition whether you want it between the Frisco right-of-way or between the Missouri Pacific right-of-way.

Q. Give me both of them and that will cover all? A. Then you want the area between Seventh and Twelfth streets and Chouteau avenue and Gratiot street?

Q. Yes, and you also have the data showing the number of streets and the width thereof, between Seventh street and Thirty-sixth streets, north and south streets; your map will show that? A. I have a map showing all this property on a large scale, 200 feet to the inch.

Then you wanted the number of Frisco and Missouri Pacific car lengths of team tracks?

Q. Now the territory occupied by the Merchants Bridge Terminal Railway Company between Seventh and Twelfth streets and north of Gratiot street and south of the Frisco tracks, furnish about one hundred car lengths or more car space, didn't it? A. I have given the number exactly as it was in 1906 in one of those reports you have there, and it has been increased a little since that time—about twenty-five car lengths.

Q. You do not remember what it was? A. (After examining report.) That was two hundred and five car lengths at that time. That is, Gratiot street team tracks.

Q. Return to that Ranken lease. That covered some thirty odd acres of ground, I believe you said, between Compton avenue and Ranken avenue and Missouri Pacific tracks and the Manchester road? A. Between Atlantic avenue and the Manchester road some twenty-one acres, including streets and alleys.

Q. Which do you call Atlantic avenue? A. Atlantic avenue is an east and west street that bounds the south side of the Ranken property. It is a street that is really a platted street, while not open for business.

Q. This was leased on a valuation of about two dollars and forty cents per square foot? A. About $3.00 per square foot on a 5 per cent basis for actual property leased; $2.51 per square foot for what was bought outright.

Q. And that lease figures in that valuation the taxes on the property? A. I think so.

Q. At the rate of five per cent per annum on the valuation, as an annual rental, would make about twelve cents per square foot, plus the taxes, wouldn't it? Or, did you ever figure it on that basis? A. I don't know that I ever figured it out on that basis.

Q. Of course, if you did not, I would not ask you to

make the computation in your mind? A. I could figure it out very quickly for you if you wish me to do so.

Q. You gave an example on page fifteen of the third report (indicating) of terminal property, in which you fixed the valuation at two hundred and fifteen thousand dollars? A. I remember which you mean.

Q. The exact question, the example you figure there would be about four dollars and sixty cents per square foot, wouldn't it? A. (After examining report.) The example I had in mind was a small piece of property, right in the business district, got to close up the block the Wabash occupied.

Q. That the Wabash occupied where? A. Between Franklin avenue and Carr street. That was just a small example I happened to have in mind when I wrote that, one or two lots that belonged to the School Board, originally, right in that double block between Franklin avenue and Carr street, a little southwest of Second street, where it curves around. More west than south.

Q. Is that the property of the Wabash railroad? A. Yes, sir; the whole double block is.

Q. That would make the valuation about four dollars and sixty cents a square foot, wouldn't it? A. Approximately that. I have not figured it up.

Do not understand me as saying this was the exact figure paid.

Q. I am taking your assumption. I am not asking you the exact figure paid. But taking your example? A. The exact figure made a little more than that.

Q. Assuming this four dollars and sixty cents a square foot that was paid, or about two hundred thousand dollars per acre, and assuming as you stated, there would be about twenty-five car lengths to the acre, that the team tracks, and on a 4 per cent interest charge per annum, or three hundred and twenty thousand dollars valuation per year, or

one dollar per day, practically, per car length, exclusive of Sundays, would be the actual cost to a railroad using that ground for team track purposes, wouldn't it? A. Yes.

Q. That is the way you figured it out there? A. Yes.

Q. But on the basis of two dollars and forty cents per square foot, or upon the basis approximately the Ranken lease was made, it would make a valuation of only about one hundred and thirty-one thousand dollars per acre, wouldn't it? A. I think that ran up rather more than an average of two dollars and forty cents per square foot. The property leased figured about $3.00 per foot on a 5 per cent basis; and that bought outright at $2.51 per foot.

Q. Do you remember now from your figures, about how much per annum rental per car length the charge amounted to for the ground? A. No, because the plans for the use of that property involved a good many different facilities. It was proposed to put on that property and the adjoining property acquired, passenger car storage and cleaning yards, team tracks, and it was proposed to take part of the tracks off of the property south and rearrange them entirely, rearrange them on a through basis, taking the whole property right through, and to erect, eventually, a round house on the property east of Compton avenue, in order that there could be a large development of team tracks, both on the lower part of the Mill Creek Valley and in that neighborhood.

There would be a very extensive system of team tracks between Compton avenue and Ranken avenue, on the Old Manchester road, and the passenger equipment now handled east of Eighteenth street out of a part of this property, and eventually also to move the engine houses and so forth from Twelfth street.

Q. That was the Terminal Railroad Association's engine houses? A. Yes, sir. That will provide a very large amount of team track room right in the heart of the city.

And that would make it the finest lay-out of team tracks that I know of in the country, perhaps, utilized for that purpose, right in the heart of the city.

Q. For that reason it was not contemplated to use it all for team tracks?

You have not made the figure on the basis of how much per car length the rental would be if used for team track purposes? A. No, sir.

Q. But that is a matter which could be computed very readily? A. Oh, yes.

Q. Get your other figures, will you, and we will make that calculation? A. What figures?

Q. You said you had exact figures of the cost of this Ranken property? A. Yes. The figures of $3.00 per foot for property leased on 5 per cent basis and $2.51 per foot for property bought, which I have given you, are doubtless correct.

I have not seen the lease.

Q. The lease is a matter of record? A. The figures were told to me by parties who knew.

Q. I suppose they were told to you correctly. There was no reason for secrecy, that I could see? A. It is perfectly easy for any one to get this information if anyone wanted to know it.

Q. I obtained it on the basis of two dollars and forty cents. May be I am mistaken? A. You perhaps included streets and alleys.

Q. To digress a little from the course of this examination, I want to ask you if it is practical to store passenger cars that are now stored east of Eighteenth street and used in connection with the passenger business in and out of the Union Station, on this tract of land known as the Ranken land? A. It is practicable to do so, but it is not as convenient. They are more conveniently arranged now, in a way, than they will be then.

The proposition to move them is one of comparative convenience, and of the comparative pressure of the different classes of business.

Q. How much ground did you say the other day was occupied by the passenger cars adjacent to Union Station, for storage purposes? A. I made just a rough estimate, offhand, and my recollection is that the estimate I gave you was thirty-five acres.

You understand that it is only the passenger equipment handled east of Eighteenth street, which it is proposed to move out there.

A very large part of the passenger equipment is now handled west of Twentieth street. It is only proposed to move out of there what is handled east of Eighteenth street.

Q. They have not sufficient accommodations out there to take care of the rest of it and also make additional team tracks? A. There were some desirable features of splitting it on the two sides of the station, for the different roads. That will have to be overcome.

Q. And all that portion stored west of Union Station will remain there? A. Probably there will be pretty extensive rearrangement, I presume, of the whole track layout.

Q. How much additional team track room, in car lengths or acres, will this give by the removal of these passenger cars from east of Eighteenth street? A. I think something in the neighborhood of four hundred additional car lengths, in the rearrangement of that.

Q. How many are there at present that the Terminal Railroad Association has, how many car lengths in Mill Creek Valley? A. Well, at the time I made this report, they had one hundred and eighty-nine cars at what they called the Sixteenth street yard, and thirty-six car lengths at the Tenth street.

Q. Is that all? A. That is about all—well, you say how much east of Eighteenth street in the whole valley?

Q. In the whole valley east of the Ranken tract? A. They have right east of Compton avenue a large amount of team track room in there, two hundred and eighty-nine car lengths.

Q. Do you include east of Eighteenth street the Merchants Bridge Terminal? A. No, sir.

Q. How much have they? A. At the Gratiot street yards was two hundred and five car lengths when I made this report.

As I said, both that yard and the Sixteenth street yard have been slightly increased in the past year, perhaps twenty to twenty-five car lengths of additional room in both by a rearrangement, or a better arrangement, of tracks. The number of team tracks that can be put on an acre of land depends on how big a bunch you put together. If you put tracks on a piece of property with very few roads and very few switches you can put a good many on it.

But this is about a fair average as the thing generally runs in a city, this estimate I have given you.

Q. We will go back to that proposition about the Mill Creek Valley land when you get your figures.

I would like to ask you to figure this for me if you can: How much additional ground between Twelfth and Sixteenth streets in the Mill Creek Valley is there that could be used for team track purposes, and for which property would it be available, for the Merchants Bridge Terminal or the Terminal Railroad Association? A. How much additional property might be available for team tracks for the Terminal Railroad Association or for the Merchants Bridge Terminal Railway?

Q. Yes, between Twelfth and Sixteenth streets, and if there is any that would be, would it be available for either the Merchants Bridge Terminal or the Terminal Railroad Association—which one? A. There is property available for both companies on both sides of the valley, regardless

of price. Of course, the matter of prices has got to be considered.

Q. Let us take it now on the south side, between Twelfth and Sixteenth streets:

How much space is there available there for team track purposes?

Mr. Watts: That is the territory you want him to figure out, isn't it?

Mr. Crow: He is going to figure the whole territory.

A. I would suggest that I bring this map down here, and it makes it perfectly plain, on both sides of the valley.

Mr. Crow: Very well, we will let that question stand, then? A. Then you can see at a glance the size and what there is there. I will bring that map down here if you say so.

Q. Have you some map with references to the Biddle street property? A. Yes, I have for the whole city, as far west as Grand avenue, but not for the western part, beyond Grand avenue.

Q. Bring down the map for Biddle street, please? A. I made those two years ago. The map for the south end is a map about twenty-six feet long. I will cart those maps down here; they are in three sections, for North St. Louis, for South St. Louis, for the Mill Creek Valley section.

You understand I don't have to leave those here. We need them in our work.

Q. I don't want them. You don't want to part with them by putting them in the record. That is what you mean? A. Yes; that is what I mean. They cost us too much money and time, for that.

Q. In the Mill Creek Valley, I will ask you if that property there, from Seventh street westward to say Grand avenue, any portion of it, and if so, about what locations, would

be available for warehouse facilities? A. From Seventh to Grand avenue?

Q. Yes. A. There is quite a good deal of property that is available for warehouse purposes.

Q. Let us take it say from Seventh to Twelfth streets. First: Is there any property that would be available there, that could be used in connection with the Merchants Terminal Railway Company, for warehouse purposes? A. Yes, sir, there is some property between Eleventh and Twelfth streets, a part of which belongs to the school board and part to—I cannot remember the name of the owners. It has slipped my mind just now.

Q. The property is there, anyhow? A. Yes; between Eleventh and Twelfth streets, on Spruce.

Q. How large in extent is that property—a block or more? A. Yes, sir, about that. So far as the actual possibilities are concerned, the entire property between Clark avenue and Poplar street, and between Twelfth and Sixteenth streets, is available if you want to take off everything that is on there. There are lots of other things on them.

Q. How much space would that cover? A. It would cover about a half a dozen blocks, I suppose.

Q. Is that west of the Cupples station? A. Yes, sir; that is all west of the Cupples station. The Cupples station only comes up to Tenth street.

Q. Do you know what that property is worth per square foot up there? A. The Cupples property?

Q. No, the other property you mentioned, that could be used for warehouse purposes? A. Some of it I understood was available awhile ago, on a basis of Five Dollars per foot. I should not say it was worth as much as that, quite. I guess a good deal of it is held at double that, if it were wanted for railroad purposes, at least.

Q. Is there any property on the south side of the tracks

there, between Seventh street and Twelfth street, that could be made available for warehouse purposes, considering the location of the city and everything? A. No, sir, I should say not, not between Seventh and Twelfth streets.

Q. It would not be practicable? A. No, sir.

Q. Is there any between Twelfth street and Sixteenth street that it would be practical to build on, considering the location of the city; and if so, on which side of the track? A. There is some property on the south side of the Valley there, west of Twelfth street and south of Gratiot street, that could be used, if there were no obstructions in the way.

Q. How much territory would that amount to, several blocks? A. Yes, sir.

Q. Would it be a practical thing to utilize that property for warehouse purposes, from the standpoint of its location? A. Yes, so far as location goes, yes.

Q. When you get west of Sixteenth street, from your knowledge of the business of the city, and your knowledge of the railroads and the industries, would it be beneficial and practicable to have warehouses for either the Merchants Bridge Terminal Railway or the Terminal Railroad Association? A. I am recommending that the Terminal Railroad tracks be extended through to Spring avenue, with a station out beyond there. I do not think they want to be too near together, yet at the same time I think there ought to be stations in several parts of the city, for the convenience of the public in different parts of the city.

Q. Adjacent to Vandeventer avenue there are tracks of the Missouri Pacific Railroad that could be available and practicable to use for the Merchants Bridge Terminal Railway and the Terminal Railroad Association if their tracks were extended out there? A. I think the necessary property could be acquired. I think that is practicable.

Q. With additional warehouse facilities at the three points you have suggested that warehouses could be located, in

the Mill Creek Valley, if built of the proper size and capacity, would it relieve the situation and enable freight to be handled adequately, in and outbound? A. That is not what I would recommend at all for handling the business. It is not necessary to do so, to provide sufficient room to handle the business—

Q. I understand what you recommend.

Mr. Watts: Let him finish his answer.

A. Sufficient room to handle the entire business, so far as the east end of the valley is concerned, could be obtained right in the neighborhood now of the present warehouses.

My own recommendation has been to consolidate in one large arrangement for that end of the valley the Cupples station facilities— that is, the lower part of the Cupples station buildings, and the space occupied by the present warehouses and the intervening tracks.

I think a very ideal arrangement could be made out of that, for handling the traffic of that center.

Then I think they should make a jump, at least as far west as Vandeventer avenue before another station is needed.

There are serious objections to splitting facilities up any more than the convenience of the public demands, because the more business that can be centered in on place, the more through merchandies cars they can load and the better service they can give, where it is not on too big a scale to handle it economically.

Q. Now will you please answer my question? A. I understood my answer was completed.

Q. Not at all. You gave what you thought was better.

(The previous question is read to the witness.)

A. No, on the contrary, I think it would seriously block matters and make it worse.

That is just the trouble they have down there now with two, the Tenth street outfit and the Cupples warehouse out-

fit. The failure to consolidate the business in a way in which it could be smoothly and adequately handled, greatly impairs the quality of the service.

Q. You say that in your judgment as a railroad man, the practical thing to do would be to consolidate those two stations for freight purposes, the Cupples station and the Tenth street station? A. Yes.

Q. In their operation? A. Yes; you understand I mean an entire reconstruction of the whole thing on a modern basis.

Q. And that the practical thing for the Terminal Railroad Association, in attempting to handle their inbound and outbound freight in the Mill Creek Valley and in the city, would be that thing? A. Yes.

Q. You say on page 19 of the report you have before you that in some cities, like Baltimore, the railroad companies, in order to remove the inbound merchandise in the quickest manner and with the least warehouse freight space, are making, at their own expense, direct store door deliveries, by contract with the drayage companies? I will ask you if the Terminal Railroad Association of St. Louis could relieve some of the delay of inbound merchandise and hasten the delivery by such a system as that, in St. Louis? A. Well, it is a very long story to go into. That has, as you know, been done to a considerable extent, from the east side stations of the railroad companies to the store doors of the consignees, through the St. Louis Transfer Company and the Columbia Transfer Company.

Q. With a united charge for the transfer? A. Yes. That is partly the case in Baltimore and Washington. I did not mention anything about their expenses, as you did. On some of the business the railroads absorb the expense. On parts they do and on parts they do not.

Q. What parts don't they, at Baltimore? A. At Baltimore, for example—take the traffic between Baltimore and

Washington, they have two sets of rates, one set of rates applying for business actually handled between the freight stations of the companies.

The other set of rates applies where the business is to be delivered by the railroads to the consignee, or collected from the consignee, within certain limits.

Outside of that limit there is an additional charge far beyond those separate sets of rates—

Q. Is there any separate charge on the business between the railroad companies?

Mr. Priest: Let him answer the question.

Mr. Crow: I just want to understand him as he goes along.

A. I was only answering the rest of your question, which was to say that on business west of Philadelphia an arrangement has grown up as a matter of competition between the different lines there, whereby the schedule of rates applies for delivery in a certain district, without additional charge. Or, for collection in that district without additional charge.

Outside of that specified downtown district they charge an additional amount for delivery or collections.

There are a few different places in different parts of the world where they do that.

The railroads collect and deliver a large part of the freight in London with their own teams, but they make a rebate of about three cents per hundred pounds on all freight which the shippers or consignees come to the station for. So that it really amounts, in the long run, to the same thing as the man going and getting it, or delivering it, except for the matter of saving room.

Q. That is England you are talking about now? A. I was just talking about London being the place where the railroads do that to a greater extent than any other place I know of. But, as I say, they really make an extra charge

for doing that, because while they have a schedule for doing it, they make a rebate to the consignee if he comes and does it himself.

Q. Isn't it true, over in Europe, that they make delivery to the consignee and charge him in the rate? A. About two-thirds of the business in Paris is handled that way, with a separate charge made for it, however.

But take it in the German cities, however; the consignee or shipper handles his own freight almost exclusively. A very small proportion of it is handled by the railroads' own teams, except such things as they have to take around because it has been delayed, or something of that kind, and they want to get rid of it.

Q. What proportion of the business in St. Louis has there been a store door delivery on, free of charge? You said that had been done extensivly here? A. Oh, I beg your pardon. If you understood me to say "free of charge" that is a mistake.

I said delivery of freight had been made direct from East St. Louis to a great extent, to the consignee's door. But not free of charge; and I also added that I did not say in this report that it was done free of charge in Baltimore, althought I afterwards explained to you that on a part of the business it was done free of charge. I had no intention of implying that it was done free of charge.

Q. There never has been any store door delivery free of charge here in St. Louis? A. No, sir, not to the present time. Up to five or six years ago all kinds of things were done, but not nowadays.

Q. I will ask you, Mr. Perkins, if it is not true that the Terminal Railroad Association of itself has had no authority over the question of rates or methods of billing, or the question of charge, or the question of improving the facilities on freight into St. Louis, but that matter rested wholly in the hands of the proprietary lines, who were

largely east side lines? A. The affairs of the Terminal Railroad Association are handled by an executive board of the proprietary lines, composed of officials of the proprietary lines. One can not say they are largely east side lines, because fully half of them are west side lines. The Chicago, Burlington & Quincy, the Missouri, Kansas & Texas, the Wabash, Frisco, the Rock Island, the Missouri Pacific and the Iron Mountain—seven-fourteenths—interests are on the west side, primarily on the west side.

Q. Eliminate the question of whether east side or west side lines; is it true that the Terminal Railroad Association could not act without authority from the proprietary lines on the matters I have mentioned in my question; that is, on the question of rates, on the question of terminal charges, and the improvement of facilities for handling freight? A. They can not on any large questions of policy about those things, or any large expenditures, or in any radical rearrangement of rates, as the by-laws of the Terminal Railroad Association provide that the directors shall arrange for a schedule of rates sufficient to pay the interest on its obligations, and to provide for the maintenance and operation of the property. And within certain limits, of course, the handling of these rates is left to the proper officials of the association.

The by-laws also provide that the lines, of course, shall make up any deficit, and where there is a deficit, then readjust their charges for the future, as the charges are primarily or principally paid by the proprietary lines themselves into the Terminal Railroad Association.

But I take it you mean any radical change in the policy of the Terminal Railroad Association, in that respect.

Q. When did you go with the Municipal Bridge & Terminal Commission? When did you become their adviser? A. On April 1, 1906.

Q. You had nothing to do with their reports prior to

that time—the reports of the Commission prior to that time? A. No, sir.

Q. Then you know nothing about the correctness of the statements in them? That is, you are not responsible in any way for the correctness of their statements prior to that time, and you did not see them any more than any other citizen? A. Not any more than the first preliminary report. I assisted in making the reports subsequent to that—that second report.

Q. November 15, 1905? A. That is the one I call the preliminary report. I had nothing to do with the making of that.

Q. But the subsequent one you did? A. Yes, sir; I wrote the subsequent report with the exception of the third report which Mr. Moore and I together wrote. Or, at least, I wrote a draft of them, on instructions of the Commission, and the Commission revised them to whatever extent they thought necessary, the result of discussions at various meetings.

Q. The situation prior to 1905 was that the east side lines acquired the terminals on the east, and the west side lines acquired terminals on the west side, with the exception of the Rock Island, the Frisco, Wabash, the Missouri Pacific and Iron Mountain roads, which had some property on either side; and the east side lines, with the exception of those I have enumerated, had no terminals in the city of St. Louis proper, but their rates were made and their haul ceased at East St. Louis, Madison or Granite City? A. That is substantially true for strictly eastern business, all except southeastern business.

Q. Green line territory? A. Green line and Mississippi Valley territory.

Q. The haul from East St. Louis, or Madison or Granite City, was made by either the Wiggins Ferry Company, the Terminal Railroad Association of St. Louis, the Mer-

chants Bridge Terminal Railway Company, the Interstate Car & Transfer Company, or the Southern, or Conologue Belt, operating with the Missouri Pacific transfer boats, at Ivory ferry, wasn't it? A. Yes.

Q. And that was a haul for which a charge was made for the specific service of transporting from the east side of the river, from the towns mentioned, East St. Louis, Granite City or Madison, as the case might be, to St. Louis, Missouri? A. Yes, sir.

Q. The practical operation of that was, that the rates were fixed by the east side lines, except on Green line territory, to East St. Louis, and the business interests of this city, or the shippers, were compelled to pay the cost of the operating expenses across the river for the service that was performed? A. They were obliged to pay the rates, whatever they were.

Q. Put it that way, then, pay the rates; and those rates were fixed, wern't they, or supposed to be, to pay the expenses of the Terminal Railroad Association of St. Louis? A. Approximately. Some years there would be a deficit and some years they would come out all right.

Q. Was this a charge independently made for the service of transporting goods and passengers across the river, imposed on any shipper of freight outside the limits of the city of St. Louis, where the merchandise passed beyond St. Louis from the east? A. Yes, up to, roughly, a radius of about one hundred miles.

Q. Beyond a radius of one hundred miles north, south, northeast and southeast of East St. Louis, was this charge put on goods consigned to points beyond St. Louis and beyond St. Louis as a gateway? A. I don't know that I quite caught that question.

Q. Was the arbitrary charge for hauling the goods across the river placed beyond the one hundred mile radius, from points east of that radius to points west of St. Louis? A.

Yes, sir, there would be that charge for crossing the river on all business that came from east of the Mississippi river, through here, to points within a radius of from one hundred to two hundred miles west and north of here. Let me illustrate—

Q. I stated that proposition in my question. I said one hundred miles and excluded it from my question. I understand this one hundred mile radius goes west, likewise. A. All right.

Q. So, a shipment from Boston to, say Nevada, in Vernon county, Missouri, consigned through the gateway of St. Louis, would there be any arbitrary charge for the haul across the Mississippi river? A. No, sir.

Q. Then, other points beyond the one hundred mile radius east to points beyond the one hundred mile radius west, there was no arbitrary charge? A. Those charges were entirely absorbed in the rate. The railroad companies paid those charges themselves to the Terminal Railroad Association for that.

Q. But the shipper paid none of it, as did the man in St. Louis who received the goods? A. No, sir.

Q. What was the result of this practice of charging arbitrary on St. Louis consignments, as to affecting the business interests of St. Louis?

Mr. Watts: The witness has not said there was any arbitrary.

Mr. Crow: Call it charge, or what you please.

A. Oh, well, arbitrary and differential are sort of technical phrases, anyway.

It makes no difference whether you call it arbitrary or differential, or what, it is an amount paid.

The effect of these charges was, of course, to put the man doing business in St. Louis at a disadvantage to that extent with the man doing business at East St. Louis, on his eastern business.

It meant that the St. Louis receiver, so far as his eastern business was actually handled in St. Louis, paid the amount of the bridge toll more than the man who did business in East St. Louis.

Q. It was just that much more burden on the business? A. It was just that much more burden on the business—well, at any rate, he paid that much more money, whether you call it more of a burden on the business I can hardly say.

Q. Take a shipment from East St. Louis to, say Independence, Missouri, on the Missouri Pacific Railroad, would there be any distinct charge made to the consignee, if he paid the freight, for the crossing of the river? A. Not at the time—I understood we are talking about 1903?

Q. Yes. On business originating in East St. Louis. A. No, sir. At that time he did not pay it, and had not for some years.

Q. In what way did this extra charge and the freight conditions of St. Louis affect the manufacturing interests of St. Louis, and in what way, if any, did it give East St. Louis and the east side towns, the advantage of the city of St. Louis, Missouri, in the manufacturing line? A. Well, it meant that materials of various kinds from the east into East St. Louis, were transported for an amount by the bridge toll lower than to St. Louis. And, on the other hand, the shipments to points beyond the one hundred mile limit, if we call it that—that was a very rough boundary and sometimes went up to two hundred miles—but, at any rate, to points beyond that radius, on his output to the west, were just the same as from St. Louis. On the other hand, his eastern shipments were less by the bridge toll than from St. Louis.

Q. And the practical operation of that was to give East St. Louis a distinct advantage in the manufacturing line, wasn't it, its location there? A. So far as the rate basis went, yes.

Q. It is true that the great majority—a very large per cent of coal, which is very necessary to manufacturing and to the existence of a city, comes from east and north and south of East St. Louis, in the state of Illinois, to the city of St. Louis? A. Yes, sir.

Q. And on all of that a charge was made for crossing the river to St. Louis? A. Oh, yes, a charge was made for crossing the river. Coal rates are made up in a rather different way. Those local coal rates from the Illinois mines are governed by the Illinois State Distance Tariff, as a maximum, and of course, under that arrangement, as long as that were true, the rates to St. Louis would naturally be higher.

That situation, as long as you have asked about those rates, is one of the difficulties we had to work against in adjusting rates. It is understood, inside the one hundred mile limit, that the Illinois Railroad Commission would never allow the same rates to apply to St. Louis as to East St. Louis, as they had those rates under their jurisdiction.

Q. The Illinois Railroad Commission had nothing to do with St. Louis, Missouri, did they? A. Yes, to this extent: they were interested in maintaining the one advantage held by East St. Louis—that is the way the general basis of rates was adjusted. The fact that the Illinois State Commission had that interest in maintaining the differential, and the fact that the local coal roads running into East St. Louis insisted on keeping out of any complications in and expense for crossing the state boundary (partly on account of the provision in the Hepburn Act), made it impossible, practically, to make any better readjustment of rates inside this one hundred mile limit.

Q. I beg your pardon, but I did not ask you anything about that. A. I thought you were asking me about coal rates, and I thought I would explain it.

Q. I just asked you if it was added onto the coal rates, and you answered that. What has been the effect—

A. I would like to say, for fear you may think I said that for a purpose, that it cuts no figure with the Terminal Railroad Association whether it is absorbed or not. That is, it does not affect the Terminal Railroad Association as such.

Q. I will ask you what has been the effect, as to driving manufacturers away from St. Louis, or preventing them locating in St. Louis, as to this condition you mention, with reference to the charge on goods consigned to St. Louis from east? A. Well, I should say, primarily, the development of St. Louis has been rather more as a jobbing center than as a manufacturing center, although we have some of the largest manufactories of their kind in the world in St. Louis. The car shops and breweries, and the shoe manufactories, etc.

But it had been claimed in the past that industries consuming a large amount of coal naturally located at East St. Louis, as against locating in St. Louis, and I presume to a certain extent that is quite natural and true.

I speak of the past. The adjustment of the coal rates is very different from what it was in 1903.

I have no doubt in the adjustment of 1903, or prior to that time, industries that consumed a very large amount of coal, and where that was the main item of expense, or that used large quantities of heavy material, like pig iron, added to the fact that land was very cheap in East St. Louis, naturally located there, instead of coming to this side of the river.

Q. The result of it, in general, has been to upbuild these east side cities rather at the expense of St. Louis? A. Well, I don't know about that. As a citizen I am not sorry to see industries of that kind across the river. I think it is a good thing. That is, of the particular class I have men-

tioned, as long as there are plenty of facilities for free movement back and forth across the river.

I think we have had and are now having a pretty large development of the best class of manufactories for a residence city, on this side of the river.

That is not an opinion that I regard as for or against the arbitrary proposition.

Q. You said that this arbitrary charge applied on all except the Green line territory, and to that territory—

A. Mississippi Valley territory south of the Ohio.

Q. That is true, south of the Ohio river and east of the Virginias and Carolinas and extending to the Gulf, and bounded on the west by the Mississippi river? A. At that time the Mississippi Valley was a distinct association.

Q. Define what states that was in? A. Business running down to New Orleans, Vicksburg and that territory.

Q. What were the boundaries? The Ohio river on the north? A. Yes, sir.

Q. Carolinas and Virginias on the east? A. It practically embraced that whole territory .

Q. And ran around by Georgia? A. That is, Green line territory you are now speaking of? Yes.

Q. It was also absorbed, was it, on territory through to the coast, which you call the Mississippi Valley territory, taking in New Orleans and Georgia? A. That takes in all that territory to New Orleans, by way of the Mississippi river.

At this point the further hearing of testimony herein was continued until tomorrow, Tuesday, May 19th, 1908, at 10:30 a. m.

St. Louis, Mo., May 19, 1908.

Met pursuant to adjournment as above, Tuesday, May 19th, 1908, at half past ten o'clock in the forenoon.

Present: Honorable R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Government.

Messrs. M. F. Watts and H. S. Priest appeared in behalf of the Defendant.

CROSS-EXAMINATION BY MR. E. C. CROW.

ALBERT T. PERKINS continued:

Q. The arbitrary charge to that southeastern territory had been absorbed for several years, hadn't it, Mr. Perkins? A. Yes.

Q. And its absorption was caused by the erection of the bridge at Memphis over the Mississippi river, and by the transfers of the Iron Mountain across the river by boat, wasn't it? A. No, sir.

Q. It could just as readily have been absorbed on all eastern territory by the railroads, couldn't it? A. I do not know just what you mean by that question.

Q. All eastern roads, I said, as to the southeastern territory? A. It is just a matter of their rate adjustment.

Q. That does not quite answer the question. I will repeat it.

The bridge arbitrary to the Atlantic Coast points, and all points beyond the one hundred mile radius could just as readily have been absorbed as that to the southeastern territory in which you say it was absorbed?

Mr. Watts: The last question was about the bridge.

A. I answered that No, Mr. Watts.

As I understand the meaning of this question, it is this: That the railroads running east from here could just as

easily have made arrangements to apply their rates through from St. Louis to the east as from St. Louis to the southeast.

Q. That is hardly the question. A. I know the wording of the question may be a little different, but I do not know just where it leads to. There is a good deal in that. I do not see how I could answer that outright, yes or no, for this reason:

The rate adjustment to the south and southeast grew up as a matter of competition between the roads running out of the west side of the river and the roads running out of the east side of the river, which handled business for the same points. There were some roads running south from the west side of the river, in competition for the business from East St. Louis and some running south from East St. Louis in competition for the business of St. Louis. So their rates were adjusted, so far as they were able to adjust them, on a basis of applying those rates equally from St. Louis and East St. Louis.

The west side roads transferred from East St. Louis and the east side ones transferred from St. Louis.

Similar causes brought about an adjustment of the rate from the west to St. Louis on account of the Chicago & Alton having business out of St. Louis by way of East St. Louis and Louisiana, ninety miles north of here.

On the other hand, the entire adjustment of eastern rates was made on a basis of the east side of the Mississippi river, all the way along, East Burlington, and so forth. The combination of rates to and from the west was made on that basis.

The entire adjustment of eastern rates grew up on that basis, on an arrangement of a certain percentage of the Chicago to New York rates.

Now there was no impossibility for the roads to have made the adjustment on the basis of St. Louis, as well as East St. Louis, taking the thing as a whole. That was

simply the way the adjustment of their through rates worked in combination with the rates of western lines. And they were not made on the theory that any charge for facilities across the Mississippi river was to be included in these rates. They made simply what they regarded as fair rates between the east bank of the Mississippi river and the east.

Now, I presume, that answers your question: There was no reason why an adjustment could not have been made on a St. Louis basis, or west bank of the Mississippi river basis, if the combinaton had grown up in that way.

Q. The net result of the answer was that it could have been done by the railroad companies. Is that right? A. Yes, it could have been done. That is, it could have been done if they could have gotten the eastern connections, that is,the railroad companies that had nothing to do with St. Louis, to join with them in that arrangement.

It was a matter of great difficulty to get the eastern railroads to join in a general readjustment, because a large part of them had no direct interest in St. Louis or East St. Louis whatever. They make their rates on a certain fixed basis.

Now, when you get the lines that actually run into St. Louis into a mood to do what you want, it is necessary also to bring all the pressure we can bring to bear by reasoning the problems out with the other lines.

Q. A large measure of the difficulty comes from the traffic associations that fix the rate, doesn't it—the trunk line and the Central Traffic Association? A. Why, a very large number of associations are concerned, yes. Perhaps six or eight of them.

Q. You know Mr. Miller, the former freight traffic manager of the Burlington Railroad? A. Yes, sir.

Q. Where is he now? A. Chicago.

Q. What position does he occupy with the Burlington Railroad? A. First vice-president.

Q. Were you superintendent of the Burlington Railroad in 1904? A. In Western Missouri and Iowa.

Q. How far east did your territory extend? As far as Hannibal? A. No, sir; I had nothing to do with the eastern half of the state. I had those parts of the road up and down the Missouri river to Kansas City, St. Joe, Council Bluffs. Those were all in my territory, and the lines that run up and down the river and a number of different lines in the west of Missouri and west of Iowa.

Q. You were familiar with the controversy that the traffic department of the Burlington Railroad had with the Central Traffic Association and the Trunk Line Association in 1903 and 1904, with reference to wanting to haul eastern freight via Chicago over the rails entirely of the Burlington Railroad into the city of St. Louis via the Quincy crossing, and the objection made by the Central Traffic Association and the Trunk Line Association, weren't you? A. No, sir, I was not very familiar with that except in a most general way. I was occupied pretty nearly every minute with other matters, at that time—with matters of rebuilding and operating the railroad in my territory and with the different terminals, and matters on the Missouri river.

Q. You do not know anything about the details or the result of that controversy? A. No, sir; I could not give you any information about that.

Q. Let us get rid of this Mill Creek Valley territory matter. You have your map here, haven't you? A. Yes, sir. I made a memorandum of these Frisco team tracks. It had sixty-five car lengths at Seventh street, thirty car lengths at Ewing avenue and ten car lengths at Tower Grove.

Q. That makes a total of what? A. One hundred and five car lengths.

Q. In a distance of about four miles? A. Yes.

Q. Or three and a half or four acres—somewhere from three and a half to four acres of ground? Did you get a memorandum for the Missouri Pacific car lengths? A. I could not find that this morning. I was interrupted so much while at my office. I will try to make that out for you.

Q. They are very large and extensive? A. I have not the Missouri Pacific details of track capacity in my office.

Q. You have your maps here and I have a map here, too. You are familiar with this plat of the city, I suppose (indicating)? A. Yes. I think these maps of mine will give you everything you want.

Q. This plat gives it exactly, and I just want to make a comparison. This is brought right down to date, the owners and everything. At Seventh and Gratiot streets, what railroad is farthest south? A. The Merchants Terminal.

Q. How close to the north line of Gratiot street does it go? A. Right up to the edge of the street.

Q. Are there any tracks between Seventh and Twelfth streets, from Gratiot street, that are used for anything except industries? A. No, sir, except three or four industry tracks.

Q. Are they marked on your map? A. Yes.

Q. From what road are those industry tracks? A. The Merchants Bridge Terminal Railway.

Q. And they are three in number, or four? A. Three crossing the street, I believe. There is one into the Ralston Food Mills there. It has a couple of different tracks after the street is crossed. There are one or two little spurs off.

Q. From the north line of Gratiot street at Seventh street to the north line of Chouteau avenue, what is the distance? A. About six hundred and fifty feet.

Q. What is the width of Gratiot street at Eighth. I think it is a sixty-foot street? A. That is fifty feet.

Q. What is the distance at Eighth street from the north line of Gratiot street to the north line of Chouteau avenue? A. That is very little different there. That is about six hundred and seventy-five feet.

Q. What is the distance at Ninth street? A. About seven hundred feet.

Q. What is the distance from the north line of Gratiot street to the north line of Chouteau avenue at Sixteenth street? A. About the same thing; about seven hundred feet.

Q. What is it at Eleventh street? A. About seven hundred and twenty-five feet.

Q. And about the same at Twelfth street, isn't it? A. There is not much difference, a few feet more.

Q. What is the distance from the west line of Seventh street to the east line of Twelfth street? A. About seventeen hundred and twenty-five feet.

Q. In square feet what is the area? A. About 1,180,625 feet.

Q. Are there any tracks between the west side of Twelfth street and the south side of Gratiot street, and the east side of Fourteenth street and the north side of Chouteau avenue? A. I think there is one leading across Twelfth street on the south side.

Q. An industry track? A. Yes, sir, I think so.

Q. To what industry does it go? It is not shown on that map? A. No. I think there is one, but it has not been in use for a long time. My recollection is there is one there leading up into the old Shickle-Harrison-Howard Iron Works.

Mr. Watts: That is west of Twelfth street?

A. There are no railroad tracks of any great importance there.

Mr. Crow: The only one, you say, would be one of those unused industry tracks?

A. I do not think there is any particular use made of it at present.

Q. From what track does that industry track come, the Merchants Bridge Terminal Railway or the Terminal Railroad Association? A. It is a Merchants Bridge Terminal track.

Q. What is the distance between Twelfth street and Fourteenth street along the north line of Gratiot street? A. About seven hundred and twenty-five feet.

Q. What is the distance along the west line of Twelfth street from Chouteau avenue to the north line of Gratiot street? A. About seven hundred and forty feet.

Q. Mr. Perkins, south of Austin street, west of the west line of Twelfth street, and east of the east line of Fourteenth street, north of the north line of Gratiot street, are there any railroad tracks? A. No. The approaches to the Twelfth street and the Fourteenth street bridges come in in that section; as the bridges now stand they block up that piece.

Q. Entirely? A. Practically so, for railroad purposes—railroad tracks.

Q. What is it that blocks it? A. The approaches to the bridges.

Q. The bridges come so low that trains cannot go under? A. Yes.

Q. Are the Twelfth and Fourteenth street bridges both in that stretch at Austin street? A. Yes.

Q. They can be raised, can't they? A. They could be extended to Chouteau avenue and carried further.

Q. That would enable that strip to be utilized? A. It might be.

Q. What is the amount of space in the territory between Twelfth and Fourteenth streets and Austin and Gratiot streets? A. It is about seven hundred and twenty-five feet by two hundred and fifty feet.

Q. Did the city build the Twelfth and Fourteenth street bridges, or did the railroad companies, or did they combine, or do you know? A. I do not remember the exact facts about that. It would be only a rough recollection I could give about that.

Q. From the north line of Gratiot street to the north line of Chouteau avenue, and from the west line of Twelfth street to the east line of Eighteenth street, I will ask you if there are any railroad tracks in there? A. No, sir; I do not remember any.

Q. What tracks at that point come nearest to the north line of Gratiot street? A. The Missouri Pacific.

Q. And north of the Missouri Pacific tracks are the Terminal Railroad Association tracks? A. Yes. I take it you had in mind yesterday the Missouri Pacific instead of Frisco tracks. I think that is where we got tangled up yesterday.

Q. What is the distance from the north line of Gratiot street at Fourteenth street down to the north line of Chouteau avenue? A. From the north line of Chouteau avenue to the north side of Gratiot street at Fourteenth street, at the west side of Fourteenth street, because there is quite a change in there, is approximately seven hundred and ninety feet.

Q. How many streets have been platted, running east and west in that seven hundred and ninety feet from the north side of Gratiot street to the north side of Chouteau avenue, according to the plat? A. There are two. At Pennsylvania avenue and Singleton street.

Q. What is the distance from the west side of Fourteenth street along the north line of Gratiot street to the east line of Eighteenth street? A. That is about thirteen hundred and forty feet.

Q. Now from the north line of Gratiot street along the east line of Eighteenth street to the north line of Chouteau avenue, what is the distance? A. Eight hundred feet.

Q. In the block or territory bounded on the north by Gratiot street, on the east by Eighteenth street, on the south by Chouteau avenue and on the west by Twenty-first street, I will ask you if there are any platted streets between Gratiot street and Chouteau avenue? A. There is one platted street shown, Papin street.

Q. From the north line of Gratiot street to the north line of Chouteau avenue along the west side of Eighteenth street, is what distance?

A. It varies so in there you can not go by the streets.

From the north line of Gratiot street to the north line of Chouteau avenue on the west side of Eighteenth street?

Q. Yes. You see there is a difference between west and east sides? A. That is about six hundred and ninety feet.

Q. Along the north line of Gratiot street from the west line of Eighteenth street and the east side of Twenty-first street, what is the distance? A. It is about eleven hundred and eighty feet.

Q. Along the east side of Twenty-first street and the north line of Chouteau avenue, from the north line of Gratiot street, what is the distance? A. It is just the same as the other, about six hundred and eighty feet.

Q. In the territory bounded by Gratiot street on the north and Chouteau avenue on the south, and by Eighteenth street on the east and Twenty-first on the west, are there any tracks, and if so, of what railroad and how many? A. There are two or three industry tracks of the Missouri Pacific Railroad.

Q. There are only two shown on the plat? A. There are shown only those going in. I think possibly they spread out a little in there.

Q. They are both north of Papin street? A. Yes.

Q. Describe the territory in here (indicating on map). A. This territory just north of Gratiot street, between

Eighteenth and Fourteenth streets, is also blocked out by the approaches to the Eighteenth street bridge.

Q. How much of that territory is there in point of area that lies north of Gratiot street, west of Fourteenth street and east of Eighteenth street, not occupied by the bridge approaches or by tracks? A. Not occupied by tracks?

Q. Tracks of the Missouri Pacific Railway. Aren't those the only tracks in there? A. Yes. About twenty-five thousand square feet.

Q. How much of that is occupied by the east approach to the Eighteenth street bridge? A. None of it.

Q. How much of it is occupied by the bridge? A. None of it.

Q. I understood you to say the bridge interfered with its use. A. I did say that. I said the approach to the bridges in Fourteenth street and Eighteenth street interfered with the use of that for railroad purposes, just as the approaches to the bridges at Fourteenth street and Twelfth street would interfere with the piece between Austin street and Gratiot street, and Twelfth and Fourteenth streets.

Q. In just what particular way does it interfere there between Gratiot and Fourteenth and Eighteenth streets? A. Getting into it with practical railroad curves.

Q. It does not occupy any of the ground, does it? It is overhead? A. The approaches go down there so one could not go under them, to get in there.

Q. The approaches are too low? A. No, it is not a matter of the approaches being too low. It is a matter of their location. To make such property available, the approaches to the bridge would have to be carried further south.

Q. Wouldn't they have to be carried north? A. No sir; that would block up the track here (indicating). These tracks I show here go under the bridge, you understand.

Now beyond there are the supports to the approach to the bridge.

Q. Is it the supports to the approach you are talking about that interfere with the use of this property between Fourteenth and Eighteenth on Gratiot street? A. No, sir; not at all. Not only the supports but the approach. The approach, you understand, is an inclined plane.

Q. Yes, that is what I thought it was? A. And the headroom under the approach, no matter how far apart the supports may be, is insufficient for a railroad train to go under.

Q. That is what I asked you a while ago. You misunderstood my question.

If the bridge was too low, too near the ground, so as to interfere with the use of the surface for railroad purposes? A. Yes.

Q. That is the kind of obstruction you mean when you say those bridge approaches obstruct the use of this ground for railroad purposes? A. Yes, sir. Railroad trains can not go under these approaches.

Q. That is a matter which would have to be remedied by elevating the structure and elevating the bridge or at least the approach? A. Or carrying the approach further away.

Q. Making it recede from the point where it now is? A. That is, carrying the full height of the structure further south. Perhaps that is a better way to put it.

Q. And that would be entirely practicable at this point between Fourteenth and Eighteenth on Gratiot street? A. So far as I recollect. I do not remember any obstruction to doing so.

Q. Now take the territory bounded on the east by the west line of Eighteenth street, on the west by the east line of Twenty-first street, and on the south by Gratiot street and on the north by the Missouri Pacific tracks: What is

about the extent of that territory? A. Between the north line of Gratiot street, west line of Eighteenth street, west line of Twenty-first street and south of the Missouri Pacific right-of-way? That is about two hundred and thirty-six thousand square feet.

Q. Are there any railroad tracks in there? A. There is one industry track in there.

Q. It occupies a very small amount of space? A. Drop off the odd six thousand feet and say twenty-three thousand feet in that tract.

Q. Take along the north line of Gratiot street from the west line of Twenty-first street to the east line of Twenty-second street, what is the distance? A. About four hundred and sixty feet.

Q. From the north line of Gratiot street to the north line of Chouteau avenue, along Twenty-first street, what is the distance? A. From the north line of Chouteau to the north line of Gratiot on Twenty-first street?

Q. Yes? A. Along Twenty-first and Twenty-second streets, I will take them together as they are the same, is about six hundred and eighty feet.

Q. Can you tell me what if any tracks north of Gratiot street, west of Twenty-first street and east of Twenty-second street and south of the Missouri Pacific tracks? A. There are none south of the Missouri Pacific tracks. The Missouri Pacific has a track down Gratiot street, but there are no other tracks between the tracks on the Missouri Pacific right-of-way and the Missouri Pacific tracks on Gratiot street.

Q. What is the extent of territory there between Twenty-first and Twenty-second streets, south of the Missouri Pacific, and north of the north line of Gratiot street, not occupied by tracks? Just estimate it roughly? A. That is taking the whole piece, there would be a little over one hundred thousand square feet.

Q. Which whole piece? A. To describe that as an area of ground unoccupied by railroad tracks between the north line of Gratiot street and the Missouri Pacific property, and between the west line of Twenty-first street and the east line of Twenty-third street is a little over one hundred thousand square square feet.

Q. From the west line of Twenty-second street to the east line of Twenty-third street, along the north line of Gratiot street, what is the distance? A. From the west line of Twenty-second to the east line of Twenty-third street, along Gratiot street, is about four hundred and sixty feet.

Q. From the north line of Gratiot street to the north line of Chouteau avenue, along Twenty-third street, what is the distance? A. From the north line of Chouteau avenue to the north line of Gratiot street, along Twenty-third street, is seven hundred and twenty-five feet.

Q. Taking south of Gratiot street, in the territory between Twenty-second and Twenty-third streets, and Chouteau avenue, are there any railroad tracks, and if so, what? A. No, sir; there is not.

Q. What is this running down here (indicating)? A. That is an alley.

Q. From Twenty-third to Twenty-first street is Gratiot street vacated? A. From Twenty-first to Twenty-third?

Q. Yes? A. No, sir; that is an open street.

Q. But the Missouri Pacific Railroad has a track laid down that street? A. I think they have an ordinance allowing them to put a track down that street, yes.

Q. Is that street in condition to be used for teams? A. Yes.

Q. And is it used for that purpose? A. Yes.

Q. From the alley south of Gratiot street, on Twenty-third street, how far is it to the north line of Chouteau avenue? A. About four hundred and fifty feet.

Q. From the alley south of Gratiot street, at the intersection of Jefferson avenue with the alley, how far is it from that point to the north line of Chouteau avenue? A. About four hundred and fifty feet.

Q. About what is the extent of territory north of the alley and south of Gratiot street west of Twenty-first street and east of Jefferson avenue, that the Missouri Pacific owns or controls, that is unoccupied by tracks of the Missouri Pacific Railroad or by any other tracks? A. North of the alley and south of the tracks, and between Twenty-third and Jefferson avenue, is about thirty-five thousand square feet.

Q. Do you know for what purpose they used that? A. The Missouri Pacific Railroad Company?

Q. Yes? A. They have buildings in there for different purposes.

Q. Used in connection with their road? A. Yes, sir; I think so, most of it.

Q. Is that where those frame buildings stand up the valley there? A. I think there is one brick building in there, is my recollection. I could not swear to that.

Q. At what point does the Jefferson avenue bridge coming north reach so close to the ground that it would interfere with the use of the land in its present condition for railroad tracks? A. It comes up pretty close to the Missouri Pacific tracks.

Q. How far? A. At Jefferson avenue, you say?

Q. Yes. How far north of Chouteau avenue? A. It comes very close to the present Missouri Pacific tracks. Less than six hundred feet in there now.

Q. How much less? A. I should say about five hundred and ninety feet in there now, or five hundred and eighty feet, perhaps.

Q. You mean that is the distance from the tracks to Chouteau avenue? A. Yes, about five hundred and ninety

feet. It takes about that. It will take just about that at a four per cent grade, to get up with fair clearance.

Q. How much of that five hundred and ninety feet is left available, as the bridge exists there, for track purposes? A. I think none. I think the tracks come right up close to the pier, now, is my recollection.

Q. At this point, Jefferson avenue, the tracks in the Mill Creek Valley, besides spurs to industries, reach as near to Chouteau avenue as they do anywhere else in the valley, up to a point where they cross Chouteau avenue, near Tower Grove avenue? A. No, they come considerably nearer to Chouteau avenue at Ewing avenue.

Q. Yes, perhaps you are right. They may? A. At Ewing avenue they come within about four hundred and twenty-five feet of Chouteau avenue. And then west of Ewing avenue they spread out until they come right up to the edge of Chouteau avenue, between Ewing and Compton avenues.

Q. That is, the Missouri Pacific tracks and Frisco tracks? A. The Missouri Pacific only.

Q. From the west line of Jefferson avenue to the east line of Ewing avenue, what is the distance, on Papin street? A. From the west line of Jefferson avenue to the east line of Ewing avenue, along Papin street, is about seventeen hundred and twenty-five feet.

Q. From the north line of Papin street to the north line of Chouteau avenue, what is the distance? A. About three hundred and ten feet.

Q. From the north line of Papin street at Jefferson avenue, on the west side of Jefferson avenue, to the Missouri Pacific right-of-way, what is the distance? A. Along the west side of Jefferson avenue from the north line of Papin street to the Missouri Pacific right-of-way is about two hundred and seventy-five feet.

Q. In the territory bounded on the north by Papin street,

on the west by Jefferson avenue, east of West Jefferson avenue, and south of the Missouri Pacific right-of-way, approximately how many square feet are there? A. Between the north line of Papin street and the west line of Jefferson avenue, the east line of West Jefferson avenue, and the Missouri Pacific right-of-way, there are about ninety-eight thousand square feet.

Q. Is the alley that runs from Twenty-third street north of Papin street and west of West Jefferson avenue, vacated or open? A. It is open, so far as I know. I can not say as to that, but so far as I know it is open.

Q. In the territory between the Missouri Pacific property on the north, West Jefferson avenue on the west, Chouteau avenue on the south, and Twenty-third street on the east. I will ask you if thre are any railroad tracks other than industry tracks? A. No.

Q. Are there any industry tracks in there? A. I do not recollect any.

Q. Will you please tell me approximately what is the extent of territory between the west line of West Jefferson avenue and north line of Chouteau avenue and the right-of-way on the north of the Missouri Pacific Railroad and Ewing avenue? A. Between the north line of Chouteau avenue, the west line of Chouteau avenue and the east line of Ewing avenue and the Missouri Pacific right-of-way there are, including Papin street and the alley, about two hundred and ninety-five thousand square feet.

Q. On the west line of Ewing avenue, to the east line of Montrose avenue, along Chouteau avenue, what is the distance? A. From the west line of Ewing avenue to the east line of Montrose—I suppose what you really want is the Missouri Pacific property?

Q. Yes? A. From the west line of Ewing avenue, westward to the west line of the Missouri Pacific property, on

the north side of Chouteau avenue, is about four hundred and thirty-five feet.

Q. Going north on Ewing avenue, and on the west side thereof, is there an alley? A. Yes, sir.

Q. How far north of Chouteau avenue on Ewing avenue is the alley? A. One hundred feet.

Q. Is there any street, north of the alley going north on Chouteau avenue, before you reach the Missouri Pacific right-of-way? A. There is a platted street, Papin street.

Q. What is the distance from Chouteau avenue, along Ewing avenue, on the north side of Chouteau avenue to the Missouri Pacific right-of-way? A. That is about four hundred and thirty-five feet.

Q. Is there any space south of the Missouri Pacific property and right-of-way and north of Chouteau avenue, west of Ewing avenue, which is unoccupied by tracks? A. There is a triangular piece of property there containing approximately ninety-two thousand square feet.

Q. Beginning at the northwest corner of Montrose and Chouteau avenues, running westward along the north line of Chouteau avenue to Compton avenue, the property immediately adjacent to Chouteau avenue is occupied by the Missouri Pacific shops and tracks, isn't it? A. By Missouri Pacific tracks, shops and round houses. It is mostly tracks.

Q. About how much territory do the shops and the tracks leading into the shops occupy—just approximately? A. Roughly, half and half, perhaps, between Papin street and Chouteau avenue.

Q. You do not quite comprehend the question. I mean, how much territory do the shops occupy between Montrose avenue and the north side of Chouteau avenue—regular tracks of the Missouri Pacific Railroad used for yard purposes, and main line purposes, in the Mill Creek Valley? A. You mean how much area do their shops occupy?

Q. The shops and the tracks connected with the yards? A. They expect to take these shops out and replace them with coach tracks, etc., but I suppose they occupy now——

Q. I mean the entire place there. They have a lot of yard room there on Chouteau avenue? A. I think it would be near enough for your purposes to say that they occupy approximately five hundred thousand square feet, with their tracks, round houses and shops, between the north line of Chouteau avenue and the west line of Ewing avenue, the east line of Compton avenue, and what would be the extension eastward from Compton avenue to Gratiot street.

Q. Now, Mr. Perkins, the space you describe as being approximately in the neighborhood of five hundred thousand square feet, now ocscupied by the Missouri Pacific Railroad in the manner you have indicated, would be more valuable for team tracks, warehouses and coal track purposes than the purposes for which it is now used, wouldn't it? A. Yes. The Missouri Pacific Railroad have under way the matter of changing it into that sort of a facility.

Q. Mr. Perkins, from the west line of Compton avenue along the south side of the right-of-way of the Missouri Pacific Railroad, to the east side of Theresa avenue, what is the distance? A. From the west line of Compton avenue to the east line of Theresa avenue (which is an open street) along the north side of Chouteau avenue, it is approximately twelve hundred and seventy-five feet.

Q. From Compton avenue to Theresa avenue the Frisco tracks and the Missouri Pacific tracks turn northwestwardly, don't they? A. Yes, they make a slight turn toward the north.

Q. Along the east line of Theresa avenue, along the north line of Chouteau avenue, to the Missouri Pacific right-of-way, is what distance? A. Along the east line of Theresa avenue to the right-of-way of the Missouri Pacific railroad is about nine hundred and seventy-five feet.

Q. From the point where Theresa avenue touches the south side of the Missouri Pacific right-of-way on the east side of Theresa avenue to the east line of Compton avenue, along the right-of-way of the Missouri Pacific, what is the distance? A. From the point where the Missouri Pacific right-of-way touches Theresa avenue, on the east side, to the west side of Compton avenue,—that is a diagonal measurement of about thirteen hundred and twenty-five feet.

Q. Between Theresa avenue on the west, Compton avenue on the east, there is Ranken avenue and Dennis street, on the plat. Are those both open streets? A. No, sir.

Q. Both closed? A. I do not remember positively about Dennis street. It is a little short street that may possibly be open.

Q. Is Ranken street open? A. Ranken avenue is a platted street, but never has been opened.

Q. Never has been opened? A. No, sir.

Q. You do not know whether Dennis street has been used or not? A. I can not say positively. It is a sort of an alley proposition. It can scarcely be dignified by the name of street.

Q. Between Chouteau avenue on the south, Missouri Pacific right-of-way on the north, Theresa avenue on the west and Compton avenue on the east, are there any railroad tracks used as team tracks or warehouse tracks or coal purposes or for storage or yard purposes, and if so, what? A. No.

Q. No team tracks leading into industries? A. There is a power house and industry track and one or two things of that kind—electric light and power.

Q. Of the railroad companies are those? A. No.

Q. The industry tracks are all from the Missouri Pacific road, aren't they? A. When I answered I thought you were speaking of Ranken avenue. The Missouri Pacific has some team tracks right east of Theresa avenue.

2817

Q. How far south of their tracks? A. Well, they run south into the property of the Missouri Pacific, south of their right-of-way.

Q. Do you know what car space those team tracks furnish? A. I haven't that in my head now. Oh, I suppose you might put it down roughly at perhaps twenty-five car lengths. I would just have to make a very rough guess at it now. I haven't it in my head.

Q. According to your plat, the industry tracks seem to run down to Chouteau avenue? A. Two of them run down to Chouteau avenue—Well, no. I don't think they do, quite. They run only to Papin street.

Q. I will ask you this queston. Is it a fact that the tracks of the Missouri Pacific Railroad between Theresa avenue and Compton avenue extend down Papin street to Chouteau avenue? A. Yes, just over Papin street.

Q. Approximately, how many square feet are in that area bounded on the north by the Missouri Pacific right-of-way, on the east by Compton avenue, on the south by Chouteau avenue and on the west by Theresa avenue? A. About one million square feet.

The usual hour having arrived, recess was here taken until half past two o'clock, p. m.

After recess on Tuesday, May 19th, 1908, the following proceedings were had:

CROSS EXAMINATION BY MR. E. C. CROW. CONTINUED.

MR. PERKINS: I would like to make a little statement before we start in this afternoon. I do not feel that I ought to be kept here indefinitely answering questions of the nature I was asked this morning, and I would like to say this: I am willing to start in here now and stay here from now until the time that all the questions which the attorneys on either side want to ask me have been completed. That

is, I am perfectly willing to sit here from now until tomorrow morning if it is necessary. But in connection with that I want to say that when we adjourn this time I shall not come back again. That I will submit to you as a reasonable request and as a reasonable decision, and ask you if you do not rule that I am justified in saying that, and that you will submit it to the United States Circuit Judge.

The Commissioner: I am instructed by the Court to keep you here until you are through. I am instructed by the Court to conclude this examination now.

Mr. Perkins: I do not care to be in contempt, but I wish to make this statement, that unless the United States Circuit Court, or a Judge of the United States Circuit Court, rules that I should return after leaving here this time, I will not return. But I am perfectly willing to stay here just as long as the rest of you are, to complete this examination; no matter how long it is, I will stay all night, if necessary, or right straight through tonight and tomorrow.

The Commissioner: I told Judge Adams what the situation was, and he told me to start in with your examination yesterday and conclude it without any delay.

Mr. Perkins: I wish to submit to you that the case has proceeded since yesterday morning, over a day and a half, with no sign of termination, and I feel that the class of questions asked today could be answered perfectly well by some one who has more time to give to it than I have at present; and, therefore, I feel I am justified in that position, and that is the position I will take unless I am notified to do otherwise by the United States Circuit Court.

The Commissioner: On that proposition, of course, I can not pass.

Mr. Perkins: I ask you if you can not pass on it to the extent of putting my position up to the United States Circuit Court?

The Commissioner: I understand you are willing to stay here until your testimony is completed?

Mr. Perkins: Yes; I will stay here forty-eight hours if necessary, until we get through.

Mr. Crow: I say that statement is unfair. We adjourned here for a week to accommodate Mr. Perkins. My business is just as important as his.

Mr. Perkins: I was willing at that time to go on with the cross examination until it was finished.

Mr. Crow: You asked for an adjournment to go east?

Mr. Perkins: Not until there had already been three or four days' adjournment.

Mr. Crow: We are going to finish this examination if it takes all summer, and you are not to pass on the character of the questions, either.

Mr. Perkins: The question of whether I am to be present after the conclusion of the present session can be submitted to the Court.

The Commissioner: There is no use in submitting that.

Mr. Perkins: I asked legal advice on that this noon, so I know just how I stand.

Q. Will you tell me, Mr. Perkins, what the distance is, along the north line of Chouteau avenue from Theresa avenue to Grand avenue? A. Seven hundred feet.

Q. What is the distance along Grand avenue from the north line of Chouteau avenue to the north line of Gratiot street? A. About six hundred and thirty-five feet.

Q. What is the distance from the west side of Theresa avenue to the east side of Grand avenue? A. Exactly the same as the other, seven hundred feet.

Q. There are no tracks in that space bounded by those streets, Chouteau avenue on the north, Gratiot street on the south, Grand avenue on the west, Theresa avenue on the east, except industry tracks? A. No, sir.

Q. Approximately, what is the amount of space between

Gratiot street on the north and the south line of the Missouri Pacific right of way, Theresa avenue on the east and Grand avenue on the west—that triangular shaped piece of ground? A. One hundred and eighty thousand square feet, including alleys.

Q. About what, approximately, is there in the block between Chouteau and Gratiot, and Grand and Theresa? A. About four hundred and thirty-five thousand square feet, including Papin street.

Q. Grand avenue is Thirty-sixth street in point of numbers? A. Yes.

Q. Mr. Perkins, from your map here and from your knowledge of the situation of the Mill Creek Valley, I will ask you if it is not a fact that the Missouri Pacific Railroad has larger terminal facilities in the Mill Creek Valley than the Merchants Bridge Terminal Railway or the Terminal Railroad Association, exclusive of passenger business. I mean for freight. A. No, it has not.

Q. What is the difference, as far as space is concerned, of the two companies? A. You mean for purely freight purposes?

Q. Yes. A. I could not say offhand. I should say probably the Terminal Railroad Association has at least three times as much for team track purposes.

Q. Aside from team track purposes, does not the Missouri Pacific, including the Iron Mountain, own more property available for terminal purposes, than the Terminal Railroad Association? A. No, sir.

Q. Do you know the number of miles of track the Missouri Pacific Railroad own in the Mill Creek Valley, from Grand avenue east? A. No, sir; I have not the number of miles here.

Q. Have you the number of miles here from Grand avenue east that the Terminal Railroad Association owns? A.

I have figured that up, but I do not now remember it separately.

Q. Have you got the figures for the Missouri Pacific and the Terminal Railroad Association at your office, how many miles of track these companies respectively own? A. I do not think I have the Missouri Pacific figures. When I looked this morning I could not find I had them.

Q. Did you look to see if you had the figures giving the exact amount of space between the Missouri Pacific tracks and Chouteau avenue? I thought you said yesterday you had that. A. I said I had it on this map. That is why I brought this map here.

Q. I will ask you if you ever made computation to determine how much that is in there, taking the blocks and streets as we have gone over them here today? A. No.

Q. With those figures you can readily figure it or have it done? A. Very easily, although that property is not all available for railroad purposes.

Q. That is another proposition. Will you kindly have that done? A. I have no objection to having it done, as soon as I have time. I am away behind now with the work that ought to be done. Just as soon as I can I will be very glad to do it for you.

Q. I have a map here with the names of the owners of that property on it, clear out to Grand avenue, and I think I know pretty well what is on it. I could go over that property and what you think could be used if the improvements on it could be removed, and get the amount of that space. You said, roughly, there were about seventy acres that could be use? A. Not that could be used. That was figured out roughly yesterday as to the amount of space there was there.

Q. Did you have figured out as to the amount that could be used south of the Missouri Pacific tracks? A. There are some pieces in there I figured up at the time.

Q. I mean the total of it? A. No, sir; there were some

pieces that the Missouri Pacific might use if necessary for extensions, but there is no way for the Terminal Railroad Association to get into that property except at the lower part of it, from the Merchants Bridge Terminal Railway.

Q. You have never made a calculation, have you, of the total amount that could be utilized there? A. Not any accurate calculation; no, sir.

Q. Isn't it a fact that the Merchants Bridge Terminal lies south of the Missouri Pacific and Frisco at the east end of the Mill Creek Valley at Seventh street? A. Yes.

Q. And if extensions were made, they would have to be made of the Merchants Bridge Terminal Railway, wouldn't they? A. On the south side of the Valley, yes. If your question is, whether there was plenty of room for all extensions for a long time to come, on the south side of the Valley, south of the Merchants Bridge Terminal, I would say yes, property can be gotten for extensions for some years to come.

Q. Have you made up your mind as to the most practicable places where the acquisition could be made? A. The acquisition recently made at Compton avenue is going to supply what is necessary for some time.

Q. You mean the removal of the passenger business from east of Eighteenth street will give enough additional team track room to properly handle the business? A. That will remove the pressure there. But there are certain places where there is a large pressure for facilities. Mill Creek Valley is only one tract.

Q. Has not the pressure been greater in Mill Creek Valley than anywhere else? A. No.

Q. Isn't it a fact that it would be practicable for the St. Louis Terminal Railroad Association, from a railroad standpoint, in the development of terminals, considering the size of the City of St. Louis, and the location of Mill Creek Valley, between Seventh street and Grand avenue, to acquire

and properly equip with proper terminal facilities, team tracks and warehouses and other necessary lead tracks, sufficient to properly handle business for some years to come in that section? A. Yes.

Q. Will you indicate to me where the other pressure for relief in the shape of terminal facilities is strong? A. At North St. Louis.

Q. At what piont in North St. Louis? A. In the district between Franklin avenue and North Market street, east of Broadway.

Q. How far north is North Market street? A distance of how many blocks is there between Franklin avenue and North Market street, approximately? A. About fifteen blocks on Broadway.

Q. How far back from the levee does that extend? A. That district?

Q. Yes, where you say the pressure is strong for terminals? A. It runs from three to five blocks back from the river front. Broadway is Fifth street down here, but it gradually runs into Third street.

Q. As you go north? A. Yes.

Q. Is that territory the district in which the Wabash and the Frisco have recently acquired warehouses? A. Yes.

Q. What kind of facilities are needed by the Terminal Railroad Association in that district? A. A freight warehouse and additional team tracks.

Q. Is it practicable and feasible from a railroad standpoint, considering the size of the city and the development of business, and the need there is there for these facilities, for the Terminal Railroad Association to acquire property and make the developments? A. I believe so. I think with proper co-operation between the Terminal interests and the city.

Q. You think it would be practicable from an operative standpoint? A. Yes, sir.

Q. Both as to cost and as to territory? A. Yes. The Terminal Railroad Association at present has to furnish all the means for serving and handling the cars, all the leads for handling the cars for the Missouri Pacific, the Frisco and the L. & N. freight houses in that territory. Of course, additional freight houses mean additional track room as a basis for serving them.

Q. Were you acquainted with the conditions here in 1903 in the Mill Creek Valley and up in that district, as to whether there was a demand for such additional facilities as you speak of now, such as team tracks and additional freight houses? A. Yes, sir; there was a demand at that time.

Q. And this acquisition of additional facilities could have been acquired at that time, the same as now, or practically so? A. Yes, sir; I should say it could have been done.

Q. Is there any other point in the city now where the pressure is or has been strong for additional facilities of this character? A. Well, there has been quite a demand for some freight houses in the Mill Creek Valley district, some where between Vandeventer and Tower Grove avenues. It is for that rason I have been recommending extension westward of the Terminal Railroad Association tracks beyond Grand avenue, in order that some freight house facilities for the benefit of all the railroads might be provided for the district between Vandeventer avenue and Tower Grove avenue, where there is a considerable manufacturing district developed.

Q. From a practical railroad standpoint is it feasible in the matter of cost and territory and conditions, and the business of St. Louis, for warehouse and team track facilities sufficient to meet the demand now and for some years to be acquired in the territory you mention, between Vandeventer avenue and Tower Grove station on the Missouri

Pacific and Frisco roads? A. I believe that could be done, with the co-operation of all the railroads that are there. There would have to be a little give and take proposition about it. I think it is entirely practicable, though.

Q. In the acquisition of property in the Mill Creek Valley, either in or about the Union Station or anywhere between Seventh street on the east and Grand avenue on the west, necessarily there would have to be a good many streets that are now used, or practically used, closed and vacated by the city, wouldn't there? A. Yes. There are a good many streets that are not in use that would have to be vacated.

Q. Some used, some partly used, and some not used: Do you know anything about the width of those streets north and south, or are they uniform in width? A. They are not entirely uniform.

Q. Would they average fifty feet? A. Some of them are more than that. My recollection is that Compton avenue is fifty-six feet.

Q. Do not measure it, but just give your idea of it, Mr. Perkins. A. Well, I suppose they vary from forty to sixty feet.

Q. Have you any idea about the width of Gratiot street, Singleton street and Papin street on the south side? A. Gratiot street I think varies a little in width in different places, but I think I should say it is in some places forty feet and in some place more. I should say it averages about fifty feet wide.

Q. Are Singleton street and Papin street about the same? A. No, sir. Papin street runs down to a very narrow street in part of it, and part of it widens out. A part of it would be about fifty feet wide and a part of it I should say not more than thirty.

Singleton street is a very narrow street. I doubt if it is wider than thirty-five feet. I don't know the width of

it, but I doubt if it is more than thirty-five feet, perhaps not that.

Q. Are there any industries located on the Terminal Railroad Association tracks proper, west of Compton avenue? A. No, sir.

Q. Are there any on the Terminal Railroad Association proper tracks west of Jefferson avenue? A. Yes.

Q. Whereabouts are they located? Not the names, but what section? A. In the territory between Montrose and Compton avenues there are some.

Q. Are there many or few? A. There are only a few outside of the coal companies. There are quite a number of coal companies there.

Q. I do not mean that kind of industry. I mean a manufacturing plant or wholesale house. The coal yards are nearly all above Compton avenue, from Compton avenue to Ewing. A. There are quite a number there.

Q. Take this section of the Merchants Bridge Terminal Railway down here (indicating), are there many track-located industries there in that two hundred and five car lengths of space? A. I think only about three. Two or three, or not more than three or four.

Q. Most of the track located industries in St. Louis, Missouri, are on the lines of the individual roads and not on the lines of the Terminal Railroad Association of Saint Louis, the Merchants Bridge Terminal Railway Company or the Wiggins Ferry Company, aren't they? A. There are quite a good many on the Wiggins Ferry, but the number on the Merchants Bridge Terminal Railway and on the Terminal Railroad Association was quite small. That is, at that time.

Q. But the greater number are on the tracks of the individual roads in St. Louis? A. Yes.

Q. The switching list shows that, doesn't it? A. Yes.

Q. You spoke in your direct examination about the ten-

dency at Chicago—or at least the disposition on the part of certain railroads there to have a unified system of terminals —or I understood you so to indicate? A. Yes.

Q. Isn't the plan you referred to there the plan of Mr. Delano? A. Mr. Delano's plan, which you refer to, I think, is a system of unified passenger terminals. I was not referring to that.

Q. Which plan did you refer to? A. The plan of the General Committee on the assembling of traffic of all Chicago railroads.

Q. That plan has not been carried out? A. Not yet. The Committee has been re-organized. They have had a pretty difficult proposition before them. There has been quite a lot of work in trying to get some basis of action.

Q. Do you know whether or not it is a fact that the New York Central Railroad in the last five years has spent twenty-five million dollars on its individual terminals in Chicago and is still spending money thereon? A. I don't know how much they have spent, but they have spent quite a good deal.

Q. Are you familiar with the purchase recently of the outer belt of Chicago by the New York Central Railroad at a cost of about A. I heard that reported a short time ago. I generally ask Mr. Brown about such affairs, but I have not seen him for a couple of months.

Q. You mean Mr. Brown of the New York Central? A. Yes, sir; I know him very well.

Q. You know of the fight between the Burlington and the Baltimore & Ohio for the control of the Chicago Transfer Company? A. Just as much as any other outsider could do. I was then out of it.

Q. Do you know that the B. & O. finally obtained control of that terminal property in Chicago at a cost of about twenty to twenty-five million dollars? A. Yes. When I say yes, I do not remember the figure, but I know it was quite large.

Q. Do you know that the Pa. R. R. is spending about twenty-five million dollars for the purpose of extending their own terminals in Chicago? A. I don't know that they have decided to go ahead with the plan or not, but I know they have been planning for a rearrangement of terminals on a large scale.

Q. Do you know that in the last few years the has been buying property near Madison to be used by the road individually as a terminal property? A. Only from mere heresay that they have been buying property. I don't know whether they have or not.

Q. You know it to be a fact, don't you, Mr. Perkins, that the several railroads are engaged at this time in tunneling at an expense of several million dollars the river at New York for the purpose of acquiring individual entrance into New York City? A. Yes, sir; I have looked that proposition over several times.

Q. That is occuring now, isn't it? A. Yes.

Q. If what I have suggested is correct, as to the vast expenditures that are being made and contemplated and already made at Chicago for terminals, would you still say that Chicago was endeavoring to maintain a system of unified terminals, such as we have at Saint Louis? A. I presume they are still trying to work on some scheme. I know they are going to have to do so.

Q. What? A. I presume they are still at work on that. Some new members of their Committee were appointed a while ago. They will certainly have to make further joint terminal arrangements in order to handle their business economically or effectively.

Q. I believe you stated yesterday that since you have become adviser to the Municipal Bridge & Terminal Commission you had advised, or at least assisted in the preparation of the reports that were issued by that Commission? A. Yes.

Q. And in a report issued in 1906 I believe the Commission advised that one of the objections to the then existing terminal situation was, that the public did not deal with the individual roads over which the shipments were made, but dealt with the Terminal Railroad Association, and that the Terminal Railroad Association ought to act as the individual agent of each road, so that in dealing with the agent of the Terminal Railroad Association a man would be dealing directly with the individual road itself. A. We thought that would give better satisfaction to the public.

Q. And that is your opinion now, is it? A. Yes; that it should be a joint agent.

Q. And not an independent carrier? A. Not make a separate transaction of this business is what I meant to say.

Q. Prior to 1905, the time this suit was instituted, the business had been carried on as a separate transaction? A. To a very great extent, yes.

Q. Is it your view that it is the business of the Terminal Railroad Association, if it should act as the joint agent of the individual railroad for purely terminal business in handling the business of the connecting line, to do away with the waste you spoke of, at the Cupples Station and the station at Tenth street? A. Sometimes they call it one and sometimes the other. It runs from Tenth to Twelfth street.

Q. Is that your opinion that it should be the business of the Terminal Railroad Association to do that, to do away with that waste? A. The Terminal Railroad Association should carry out that general improvement, there, to do away with the waste in doing business, yes.

Q. You stated that in your report, you know? A. Yes, I am very firmly of that opinion. All three factors, the Terminal Railroad Association, as such, and the railroad companies, and the public would benefit by it.

Q. Is it a fact that from an operating standpoint it is feasible for the Terminal Railroad Association to make

practical arrangements at the Cupples Station and provide for the proper handling of the business in the Mill Creek Valley in connection with the three entrances to that valley you have mentioned? A. Yes.

Q. Is it true, or not true, that the westbound roads from St. Louis, those having their termini on the west bank of the Mississippi River, and having independent and individual terminals in St. Louis, Missouri, handle their business in a fairly satisfactory manner, so far as inbound and outbound freight is concerned? A. In a general way their individual ends of the city they do. I do not think the business from the Mill Creek Valley is handled in an entirely satisfactory manner, or at least it is not at present. That is due to the defects in the methods of doing business on the individual railroads. Their failure to handle promptly, and so on.

Q. In your report of July 6, 1906, on page 27 you state, We believe a very considerable extension of yard facilities for the holding and classification of cars should be undertaken by the T. R. R. A. at North St. Louis, for use in connection with the Merchants' Bridge transfers and the belt line work. We find interchange still delayed to some extent in North St. Louis by shortage of such track room.

The West Belt line should be completed to a connection with the Frisco and Missouri Pacific Railroads as planned.

The belt affords extensive opportunities for the location of manufactories at the present time. A. I understand that they have done so.

Q. Then you understand no reason why they should not do so? A. No. I understand they have already done so. I understand business is going much more smoothly than at the time I wrote that.

Q. You stated on page 27 of that report. "Another requisite for adequate and satisfactory railroad service is a new and better entrance into the city from the east side of the river." A. Yes.

Q. You are still of the opinion that another bridge is needed here? A. Yes, I am still of that opinion, in connection with the things Mr. Moore and I have recommended in connection with a proposed use of the present bridge. I am not of the opinion that an additional bridge is needed so far as railroad capacity is concerned at this time. It is a matter of convenience, convenience of operation, and it is a matter of what is the opinion of Mr. Moore and myself ought to be done with the Eads Bridge and the tunnel properties for the future development of the city. We both felt that plans for a new bridge at some location at or near Poplar street should be got under way and agreed to.

Q. In your report you stated that the bridge was not a practical bridge to use, and that a sufficient amount of trade could not pass over it on account of the trouble in getting through the tunnel and that that limited the capacity of the bridge itself? A. That limits the capacity of the steam railroad deck of the bridge.

Q. Now, then, I understood your remark a while ago was that you did not think any additional bridge was needed for railroad facilities alone? A. I do not, at the present time. I suppose the Merchants Bridge is not used to one-third of its capacity at the present time. The ferry arrangements are used by no means to their capacity. The Eads Bridge is congested only at certain short periods of the day. At those periods there is a congestion and there is a decided discomfort to passengers and limitation as to the size of freight trains, on account of the tunnel. The tunnel not only has an eight and a half degree curve in it, but it has a heavy grade in both directions, up into the middle of it, something like one and one-half per cent, my recollection is.

Q. Then your view is that there are plenty of facilities for handling the business backward and forward across the river, if adequate warehouse facilities and team track room and storage room were provided on this side of the river

and on the other side also? A. For strictly railroad purposes at the present time, yes.

I explained fully in there that the inconvenience from trains having to go around by the Merchants Bridge to avoid the tunnel, is an operating inconvenience and delay both to the railroads and to the public.

I have further explained and published in various places, as well as Mr. Moore, the view we jointly had as to the ultimate use—not the immediate use, but in the course of say ten years, of the tunnel properties and of the Eads Bridge.

We felt that arrangements should be made to make the roadway of this bridge absolutely free to the public going back and forth, for passengers as well as for wagons.

We also felt that eventually the lower deck of the Eads Bridge might to much better advantage be used for electric cars.

Q. With a separate entrance at Washington avenue? A. At the time when we recommended that, no arrangement had been made to build the McKinley Bridge.

The idea we had in mind was that when it could be worked out arrangements should be made to allow the McKinley, as well as other electric car systems, coming into East St. Louis over that bridge, to come into St. Louis underground for a short distance through the most congested part of the city. And that on the other hand the railroad companies should build a bridge, adequate for many years to come, in the neighborhood of Poplar street.

That, of course, was a very expensive proposition, but we felt it could be worked out.

We submitted, as you will not in that report, some estimates on that bridge which we did not think excessive for the future traffic of the city.

Q. Then I gather your present view is that the business of the city could be promptly handled if proper facilities were

provided on either side of the river, with the present means of transfer, the ferry and bridges, so far as the railroad business is concerned? A. The actual present business, with the modification I have mentioned, the delay to trains in avoiding the tunnel.

Q. But those delays are not such as to render it impracticable to carry on the business? A. Not at all.

Q. And it is carried on that way now? A. Yes, it is carried on with fair satisfaction.

Q. I believe in your report you recommended that a third bridge should be built at or near Chouteau avenue? A. No, sir; our report said near Poplar street.

Q. That is not far from Chouteau avenue? A. That is not far from Chouteau avenue. From a strictly railroad point of view the routes by way of Poplar street to Cerre street, as shown in that report, seemed to us more advantageous than going a couple of blocks further south.

Q. That is really the most accessible point in the city from the east side of the river, for landing on the west side for railroad uses? A. It contemplates very long approaches on the east side. The difficulty on the east side is on account of the tremendous net work of tracks and the very low character of the country. So in order to come to a landing without crossing the railroad yards at grade, the approaches have to be carried for a long distance, perhaps a mile and a half. But that is entirely practicable. The plan we recommended, a long span cantilever bridge designed by Mr. Moore, worked out very nicely so far as the railroad connections were concerned.

Q. Now, I believe you stated in your direct examination that the consolidation of the Wiggins Ferry property (meaning now all its allied corporations that it controls), with the Terminal Railroad Association in 1902 or 1903, whichever it was that it occurred— A. I think it was in December, 1902.

Q. Well, somewhere along there. That it added greatly to the facilities of the city so far as handling of inbound and outbound traffic is concerned? A. Yes, I should say it added to the facilities by enabling more systematic methods of operation to be carried out and enabled the different classes of business to be carried through on most effective routes.

Of course, the greatest danger I had in mind, and Mr. Moore, too, was the absorption of the Wiggins Ferry facilities by one railroad or by a very small group of roads, those facilities being of tremendous extent and having great possibilities for future development.

It seemed to me at that time, and it does now, that these facilities should be controlled in such a way that all the railroads could have equal benefit of them.

I think I stated at the time you mention, in my first examination here, that at one time the Chicago, Burlington & Quincy Railroad Company, years ago, figured on trying to acquire the Wiggins Ferry Company property and I said I thought from the point of view of the interests of the city—

Q. You mean from the railroad point of view? A. No, sir; from the point of view of the commercial interests of the city, and also the general railroad interests, that it should have been an unfortunate thing if that had taken place. I think it would have been very unfortunate for any railroad or any one small railroad or any one small group of railroads to have obtained possession of them.

Q. That would simply have insured lessened competition for the business backward and forward across the river, between the Terminal Railroad Association and the Wiggins Ferry properties? A. No, I don't think it would have, in a broad way. I was in favor of acquiring the Wiggins property when I was with the Chicago, Burlington & Quincy Railroad Company. I thought it would be a tremendous cinch for the Burlington Road to have that property all to itself.

Q. Explain what you mean by "in a broad way?" A. Just as I tried to explain some time ago, that the business people of the city, the business interests of the city, necessarily had to do business with substantially all of the railroads. And it was, therefore, to their interests that all of the railroads have good facilities of different kinds in the different parts of the city. That the having of good facilities on the part of all the railroads enables all of the railroads to compete for all of the business on practically equal terms.

Q. Explain what you mean by "having good facilities for all of the railroads?" A. If a railroad can use practically the best facilities in a district, that railroad is in a position to compete for the business of that district and the business that is naturally handled on that group of facilities, on practically an equal basis with any other railroad, if it gives the same rates and same class of service. If they both have the same character of facilities, they are then in a position where the one that gives the best service and gives the best rates gets the business.

Now the railroads are not at the present time, and legally have not been since 1887, in a position to give allowances to overcome their defects in terminal facilities. They are not allowed, fortunately by law at the present time., to say to a man, "Well, as we are further away from your place of business than the X. Y. Z. Road we will give you a couple of cents a hundred pounds to send it over to us." They can not do that. They can not say to this business man, "Well, if you send your business to us we will pay you the cost of carrying it over to us." They can not say it to one merchant unless they say it to everybody else.

So the necessity, taking the railroad interests all together, and taking the business interests all together, for all the railroads to get equal facilities, practically, in a business district.

Q. And your view is, that it is better for the railroad companies and better for the public to have common terminals? A. It is better for the railroads and better for the public to have a perfected arrangement, such as we have gone a long way towards here in St. Louis, and which in St. Louis is better than in any other place I know of, to handle a large part of the business in a joint way.

Q. If that is true, Mr. Perkins, why was it that the Rock Island Railroad Company was willing to pay three or four times the actual value of the Wiggins Ferry Company, in order to gain an independent terminal entrance into St. Louis? A. It comes right back to the foundation of what I have said. If any one railroad can get the pick of the best locations and can get into every part of the business district of the city to a better advantage than the rest of the railroads, it has got a cinch on the business right there. It has got an advantage that other railroads can not get, under the present law; and really could not formerly, as I understand it, if the common law had ever been carried out in the matter, overcome.

Q. The selfish interest of any one railroad is to get hold of everything it possibly can.

Now, I understand, and I believe, judging from general conversation, that if you should ask the officers of the Rock Island and the Frisco Railroad Companies now if they believe, taking the railroad interests at a whole, they were right in trying to acquire that property for themselves, I think they would tell you they were not.

Q. That is your opinion only. You don't know that? A. I should not care to say what their opinion is, but I simply say I gather that from my conversations. At the same time you might still say if they could get hold of such a valuable property, with connections into every railroad and connection into a large number of industries and great possibilities of extension if they could get necessary franchises, that one

railroad acquiring that would have a tremendous advantage in getting the business of the city.

Q. Isn't it true that if one railroad company, as this Terminal Railroad Association of St. Louis, controls not only the Wiggins Ferry Company, but the Terminal Railroad Association and also the Merchants Bridge, haven't they complete control of the business interests of the city? A. If one railroad controlled this?

Q. Yes. A. If one individual railroad corporation controlled all that property it would mean any other railroad would have a mighty hard time getting business in St. Louis.

Q. If a half dozen railroads controlled it, wouldn't any other railroad outside of the half dozen have to come in on the terms of the half dozen that owned it? A. I think that would depend upon the way it was organized, on the terms of its organization and its policy.

Q. But as a matter of law or right, rather, they could not force their way in except on the terms that the owning corporation would permit: isn't that true? A. I do not say that. They would simply acquire the right to use the facilities of any such company on reasonable terms.

The ordinance under which the Union Station, for instance, was erected here provided that all railroads, any railroad coming into St. Louis, can use it on equal terms.

Q. After they reach the limits of the City of St. Louis: isn't that the ordinance? A. There is no difficulty in getting to the limits of St. Louis.

Q. Isn't that the ordinance? A. Yes, but the City of St. Louis has nothing to do with what railroads do outside of St. Louis.

Q. Certainly, and as far as crossing the river is concerned that ordinance has no effect whatever, has it? A. No, sir; and on the other hand my recollection is, in the past the charter under which the bridges were constructed, gives all the right to use them on practically equal terms.

Q. Will you look up those sections that gives that right and let us put them in the record here. I would like to see those. I have been looking for them for a good while.

You said there were twenty-eight roads coming into St. Louis, including the electric lines? A. Approximately that, yes.

Q. There are only sixteen proprietory lines, aren't there? A. There are fourteen direct proprietary lines. Those proprietary lines, though, control or are controlled by all the rest of the large railroads that come into St. Louis.

Q. You mean the fourteen proprietary lines control the other roads, all of them? A. Not altogether.

Q. I mean individually. A. Not all the other twenty-eight. But all those of any considerable size.

For instance, what I mean is this: The Southern Railroad controls the Mobile & Ohio—at least it is supposed to.

The Missouri Pacific and Iron Mountain interests control the entrance into St. Louis of the Cotton Belt.

The Clover Leaf owns or controls the Chicago & Alton.

I think that covers all those that really have any considerable volume of general business.

Q. You said a while ago, if I understood you correctly, that you believe there was a legal right by virtue of the bridge and by law, for any road to use the facilities across the river of the owning road, that is the proprietary line, on equal terms? A. I should have said on reasonable terms.

Q. Well, on reasonable terms, then? A. I simply gave that as my recollection. I have read a great many bridge acts, and I simply gave that from my general recollection of these.

Q. Take it as you said it, for what it is worth: I will ask you if you think that is true, to point out to me what particular statute or principle of law that yourself and the Mayor's Committee used, to enable you to get what you say

is the removal of the bridge arbitrary and thus change the existing rates, that had existed heretofore for the business across the river? A. Never used any law at all.

Q. If there had been a law you would have envoked it if necessary, wouldn't you? A. Only as a last resort.

Q. Did you intimate or say to the railroad officers that you could legally force them to do that? A. I don't think we ever did.

Q. The fact is, that question was never up, was it? A. The question of the legality?

Q. The question as to your right to force them to do it? A. The right to force an absorption of differentials?

Q. Yes. A. No, indeed.

Q. Don't you know as a railroad man and expert adviser to the Mayor's Commission, that you had no legal remedy by which the Mayor's Commission could force them or anybody else to absorb it? A. That Commission had no arbitrary authority to compel anybody to do anything. It simply had, you might say, the general power of the city behind it, and the sentiment of the actual business people behind it.

It conducted its negotiations with the railroad companies on strictly business lines. There were no fireworks about it in any way. It was simply a long series of purely business conferences, and all kinds of arguments brought to bear, of course, with all possible legitimate leverages we had to bring to bear on the problem.

The Commission gradually succeeded in making a majority of the railroads believe that what they asked was reasonable and right for the development of the future.

Q. You knew all the time that there was no legal method by which that Commission could command the abolishment of that arbitrary, and it was done by persuasion and negotiation, wasn't it? A. We did not feel that there was going to be any necessary resource to legal methods.

Q. You do not answer my question. A. I do not know that that was carefully gone into, to see whether there was or not, but I don't think there was.

I don't see how there could have been, except the question as to whether the Interstate Commerce Commission could say whether a scale of rates were reasonable or unreasonable, or whether the scale of rates was discriminatory against this city.

Those are legal propositions that would come before the Interstate Commerce Commission, as to whether the scale of rates of themselves, to and from St. Louis, were reasonable or unreasonable, or whether they were discriminatory, compared with the scale of rates of other cities.

Q. You have said before in your answer, and have repeatedly stated in your answer, that unified terminals would enable all the railroads to compete on a broad scale for business: Is that your idea? A. Yes, sir.

Q. You mean by that they could all have equal access to the rails of all companies?

For instance, take the Chicago & Alton Railroad from here to Chicago. You mean by the use of the terminal facilities that each should have equal access on equal terms to all the terminal property of the city of St. Louis? A. You say "equal access:" Do you mean with their own trains and soforth?

Q. I am leaving that for you to say. You are a railroad man. What is your idea about it? That is what I am going to ask you. A. I mean that to compete for all business, the service of any railroad should be carried on with as good a system of terminals and on as good a basis as the conduct of business on any other railroad.

Q. What do you mean by that? Let us be specific. You have been dealing with generalities all the time on that question. Let us get to the details so I can understand it. You say they should be dealt with on equal terms. You

mean for the rates charged, for instance, the Chicago & Alton from East St. Louis into St. Louis? A. Both for charges for the same kind of service and as to character of the service rendered. Both those things.

Q. They ought to be equal? A. Two similar pieces of service to two different railroads should be charged for on the same basis. Service of the same character to two different railroads should be the same.

Q. In that event there would be no difference and no objection between them as to the rates for terminal services, would there, as to anything that should be charged to the shipper? A. As to what should be charged to the shipper?

Q. Yes, if it were added in the freight rate. There would be no competition about that? A. No, sir.

Q. So the broad competition you speak of there on the rate question would be eliminated? A. No, sir, I do not see that it would be at all.

Q. Why not? The same rate for the same service. A. Not at all—

Q. Bear in mind what I said.

Mr. Watts: Let him finish his answer.

Mr. Crow: Let him answer my question.

This is my assertion, that the charge for the service rendered by the Terminal Railroad Association is added to the freight rate? A. That no more affects the question of the competition on the through rates than does the fact—

Q. I am not asking you about the question of through rates.

Mr. Watts: Answer the question.

A. Than does the fact that the Illinois Central pays the same rate of wages to its conductors as the Chicago & Alton pays to its conductors, or the Chicago & Alton pays the same rate for engine coal. They make their rates from St. Louis to Chicago, both of them. It cuts no figure with the public that one may pay for a certain part of its service

a higher rate than the other. The railroad performs a completed service. As long as the public gets a reasonable price for the service rendered it, it does not concern the public what the constituent parts of that rate are.

As a matter of fact, those two roads pay the same rates of wages, in a general way, to the same class of employees.

Q. Mr. Perkins, you must confess that you have not answered my question. The difficulty is that you insist on interjecting your theories in answering my question. I am not criticising your theories at all.

But the question I asked is, if from East St. Louis to St. Louis the Illinois Central and the Chicago & Alton Railroad had equal access to the terminal facilities of the Terminal Railroad Association and paid the same price for the service rendered by the Terminal Railroad Association, and if that service price, whatever it was, was added into the rate from Chicago to St. Louis by both roads, then there would be no competition on that rate for that service from East St. Louis to St. Louis on the Chicago rate, would there? A. Yes, sir, I should say there would.

Q. Wherein would the competition in rates exist? A. The competition in rates?

Q. From East St. Louis to St. Louis, now. A. We are not talking about that. We are talking about the rate from Chicago to St. Louis.

Q. I am talking about the service from East St. Louis to St. Louis. A. I can not answer a question comparing a rate from Chicago to St. Louis with a rate from East St. Louis to St. Louis.

Q. I am not talking about that. I was asking you a plain question about this haul from East St. Louis to St. Louis? We are talking about no competition in rates on the terminal properties here, now. A. You want me to answer a proposition of this kind. That it would be better for the Illinois Central and the Chicago & Alton Railroad to stop at

East St. Louis and make their rates there, and have several means of getting across the river as a separate proposition, so there would be competition for the final section of the trip, you might say, from Chicago to St. Louis. That is what I gather.

Q. That is not what I asked you at all. A. If on the other hand you mean to ask me if, provided the Chicago & Alton and Illinois Central were in business between Chicago and St. Louis, and had their rates between Chicago and St. Louis, and had several means by which they could get across the river, controlled independently of themselves, and had to pay market price for that, would there be greater competition between the Chicago & Alton and the Illinois Central Railroads then there would be if they controlled and operated one means of getting across the river?

Q. That was not the question I meant to ask you at all. You made the statement, I believe, that if there was common use of the common terminals there would be competition then between all the roads, in a broader sense. A. Yes.

Q. Now, then, I ask you if the Chicago & Alton and Illinois Central Railroads were doing business between Chicago, Illinois, and St. Louis, Missouri, and if the charge for a haul across the river, whatever it was, was made the same by the terminal companies of both roads, and both roads had equal access to the terminal facilities in St. Louis, and terms of equality as to prices of everything, if there would be any competition than in the rate for the service that was rendered between East St. Louis, Illinois, and St. Louis, Missouri? A. That would just depend on whether the Terminal Company were an entirely independent organization.

Q. How would being an independent organization affect it if they charged the same rate? A. If the terminal company were an independent organization, for the object of

getting everything it could out of the business, with no interest outside of its own restricted interests in the city limits, I should say very likely that that might not result—that particular thing would not result itself in any competition in rates.

Q. That would be the same rate. The question supposed that. A. That is one side of the thing. The other side is that where railroads control their terminal properties jointly, each railroad having to bear its share of operating and maintaining those terminals, it is naturally keen to have that expense of operating as low as possible, consistent with good service.

On the other hand, each railroad as against all its competitors, is keen to get the best possible service for its own business or for those terminals.

There is, therefore, under those circumstances, a keen competition, you might say, to keep down the cost of the doing of the service and also a keen competition on the part of each one of the railroads to get the best possible service for its business.

So, the result of that, in my opinion, is more competition, than in just the other way. The competition is of a slightly different character, of course.

Q. The fact remains that in the proposition I put to you there would be no competition between the two roads on the rates between East St. Louis and St. Louis, Missouri, for the service rendered, would there? A. Under those circumstances those two roads would not be doing business between East St. Louis and St. Louis. I don't see how I can possibly answer that question.

Q. Why not? If their trains came in here and they made a through bill of lading? A. In that case they would be paying a trackage charge for operating over those facilities. In that case I don't say there would be any question one way or the other about it.

Q. There would be no competition as far as that service is concerned? A. If there was simply one bridge here and those two roads made use of it and paid so much trackage charge over it, there would be no competition unless they saw fit to provide some competition themselves on their business.

Q. By way of rebates, naturally? A. No, sir, I don't mean that.

Q. I mean as to the rates? A. The situation would be this: If there was simply one bridge here, over which the different railroads could come in here, presupposing that bridge were an entirely independent outfit, with which the railroads had nothing to do, and it was simply up to them to pay a prescribed trackage charge over that bridge to get into St. Louis, then it would be simply a question with them as to whether they could better afford to go ahead and build a bridge of their own than to pay that trackage charge. Whether it would be more economical to have a bridge of their own—that is just an ordinary business proposition on the face of it.

Q. You are supposing things I did not put to you in my question.

Come back to the proposition.

Isn't it true that under the facts I assume, the common terminals, the common use and common charge for the service rendered, there would be no competition in the rate between East St. Louis, Illinois, and St. Louis, Missouri, between those two roads? A. They would not make any rates between East St. Louis, Illinois, and St. Louis, Missouri, under these terms. Their rates are between Chicago and St. Louis under the supposition you have made.

If you want to say that those two roads are going into business between East St. Louis and St. Louis and are going to run over an independent bridge, and pay for running

over that, I would say yes, there is competition between them.

It would be simply how close to the trackage charged for getting over this bridge will we come? How close to our actual operating expenses, plus our trackage charges, shall we come for transporting business across the river.

That is the only possible competition between those two roads. It is not competition between their Chicago business that your question covered. It is a question of any business they may do between East St. Louis and St. Louis.

Q. In all your reports, and in your direct and cross-examination, you have steadily put forth the idea that a union system of terminals here, owned by certain proprietary lines, was an ideal condition for St. Louis.

If that is true, then there must be a charge for the use of those terminals.

You knew that and accordingly you said that the charge should be unform for all roads using it.

I asked you the direct question and I desire a direct answer. I asked you to give that.

If it is true that a common charge should be the same for all the roads, is there any competition between any of the roads for that terminal service?

Mr. Watts: That is the question he has just answered.

A. There is a most emphatic competition in that.

Mr. Crow: Q. Wherein is the competition?

A. It is the competition as I have already explained, between all the members doing that, to get the lowest possible rate for themselves that they can. If they find that there is too high a charge for the use of their terminal facilities they are going to kick about it right away. They will say, "We will try to bring our own business to our own freight houses." I have recommended that each railroad have its own freight house in each district, at least one.

Now there is the competition all the time trying to get

its business to a road's own main house and tracks, or between its other facilities. It is a matter of getting the thing right down to rock bottom all the time.

Q. Your answer assumes that there was no difference in the charge for the terminal. If that is true there is no competition in the charge for the service and no competition in the rate for the service, necessarily. A. If you compare it with some possible theoretical property in the hands of a receiver there might be some competition further than I have outlined. But further than that I can not say there is.

Q. Competition between railroads consists of furnishing quicker delivery of inbound and quicker exit of outbound freight, or better cars, or better rates, or better team track facilities. Isn't that true? A. Yes.

Q. Those are things you call competition, where one road can furnish better facilities of that kind, either all of them, or one of them, than another road? A. Yes; every road tries to furnish the best facilities it can.

Q. Now you have stated that this system of common terminals here resulted in broad competition? A. Yes.

Q. Now, then, competition in what? Does one line of railroad furnish better cars than the other for the eastbound freight? If so, what road? A. It is competition on through rates and through service?

Q. Be specific. Take the question of cars. Is there any competition about the kind of cars they furnish? A. Certainly.

Q. Does one road furnish for eastbound business better cars or system of cars than some other road? A. Yes, sir.

Q. What road furnishes the best system of cars? Take it for the seacoast business? A. I can't answer that.

Q. You have been investigating this question of traffic across the Mississippi river moving east and made this recommendation that unified terminals would make competition. If one road furnishes better cars than the other

you ought to be able to tell which one it is. A. Oh, well, there are all degrees of that, so far as that is concerned. They are continually changing and getting new equipment and better equipment, bringing about a better handling of it.

Q. You are unable to designate, then, any particular road that in your judgment furnishes better cars as a means of competition for Atlantic seacoast business out of St. Louis than any other road?

Mr. Watts: I don't think that is a fair question to ask the witness. That is advertising one road against another.

Mr. Crow: It is not a question of asking him to advertise any one road. He is not in the railroad business now, or at least with any of the roads here.

A. I could not say offhand what road furnishes the best cars. I would seriously object to saying it if I could. I don't think that would be fair.

Q. I will ask you this question: What road furnishes the best team track and warehouse facilities competing for eastbound business from St. Louis? A. Well, I should say on the whole the Wabash does at the present time.

Q. The Wabash team track facilities and warehouse facilities are the property of the Wabash R. R. itself? A. Well, you are speaking of the individual railroad facilities. They are all located in the north part of the town and in the western part of the Valley. They also use the Terminal Railroad facilities as the other railroads do.

Q. What railroad, if any, furnishes the best rate on St. Louis business from here to the Atlantic Seat Coast? A. The rates by the direct lines are all the same. All roads have various differential arrangements, by the water routes and round-about routes that take a long time.

Q. Take the Pennsylvania and the Clover Leaf, they compete directly for Atlantic Sea Coast business; which of those roads furnishes the better rate? A. I suppose lower rates, on account of their water connection, might be ob-

tained over the Clover Leaf. I doubt if the Pennsylvania out of here has as low a rate into New York as the Clover Leaf.

Q. Is there any other Atlantic Sea Coast line that has any different rate for the same class of business as the Pennsylvania? A. Yes, there are a good many lines that compete for Atlantic Sea Coast business under many different conditions.

Q. Under the same conditions, and for the same class of traffic? A. You say the same class of traffic. Do you mean the same character of goods, or the same character of service?

Q. The same character of traffic. A. Why, certainly, there are a good many different rates.

Q. You are talking to me as an expert. Of course, I am not an expert. You understand clearly, I think, what I am asking you, so there need not be any misunderstanding about that.

For instance, take the proposition of shipping dry goods from New York to Saint Louis, Missouri, by the roads that compete, other than the Clover Leaf. I ask you if there is any difference in the rate on that class of goods? A. Yes, a very material difference.

Q. What are the roads and what is the difference? A. There are the direct fast through routes you talked of, like those directly through over the Pennsylvania, or over the New York Central or the Big Four, or over the Lackawanna or the Wabash.

Q. Those you mention are all similar service, are they? A. There might be a little differential on the Lackawanna business. I am not quite sure of that. But there are a good many different routes, and parts of the same lines and parts of different routes, by which the rates are materially different.

Q. For the same service? A. For transporting the goods from New York to St. Louis.

Q. In the same manner, by rail? A. By rail, and a still greater difference where part of it is by water.

Q. Mention two roads which have direct rail connection from here to New York, that have a different rate on dry goods from here to New York, either by fast line or by part water route. A. I think there is a lower rate by way of the Ogdensburg Route.

Q. Where is that? A. Ogdensburg is in the northern part of New York.

Q. That travels around through Canada? A. Yes.

Q. Confined to the United States by these direct lines? A. I can not say just how those are arranged now. I have not looked them up for a long, long time. There are different combinations, and they vary from year to year.

Q. I will ask you, Mr. Perkins, if it is not true that the Central Freight Association and the Trunk Line Committee and the East Bound Committee fixed these rates from St. Louis, Missouri, to New York and the Atlantic Sea Coast? A. I suppose it practically amounts to that.

Q. Mr. Perkins, do you know what relative per cent the Clover Leaf carries of Atlantic Sea Coast business from St. Louis, compared to the Pennsylvania System, or didn't you ever have occasion to look into that? A. The annual exact figures on that are published each year in the Merchants Exchange report. The exact figures and the amount of tonnage handled by each railroad. I have figured many of those out, from time to time, taking them from the annual reports to the Merchants Exchange. But I could not give them offhand. However, they are easily available.

Q. In the report of the Municiple Bridges & Terminals Commission they state finally that about two million dollars has been saved to the citizens of St. Louis by the absorption or the so-called absorption, of the bridge arbitrary on certain

classes of freight by the railroads. That is, two million dollars per annum.

I will ask you if that amount of money had annually theretofore been taken from the people of the city of St. Louis, or those who paid that arbitrary, by the railroads owning the Terminal Railroad Association? A. I think that was the estimate for 1908. Various terminal properties had collected that amount, or various agencies for crossing the river, had collected a considerable part of that amount in proportion to the business of past years, directly from the public, as additional charges on the business.

I don't think your question was entirely a fair way to put it. It was a charge for the service rendered, which, however, the railroads have now agreed to make a part of their through service, covered by their through rates.

Q. I will ask you this question: Since 1902, when the Wiggins Ferry Company, the Merchants Bridge Terminal Railway and the Interstate Car & Transfer Company were consolidated, is there not now, between East St. Louis and St. Louis a railroad business on simply a common rate and a common terminal charge, with a choice of routes only? A. I think so.

Q. That same choice of route obtained at the same price for the same service, is not competition, either as to service or as to route, so far as the terminal properties are concerned? A. No, sir, it is not competition as to charge.

Q. Do you know what railroad gets the biggest percentage of eastern traffic in and out of St. Louis—only in a general way, without going into the figures? A. You mean of the eastern traffic as distinct from the southeastern?

Q. Yes, in and out of St. Louis? A. My recollection is that the Vandalia does.

Q. I will ask you if it is not the Wabash? A. I think that is very doubtful. The amount has increased on the Wabash very greatly in the last year or so.

Q. You have those figures, haven't you? A. Yes, they are all published, as I said, in the reports to the Merchants Exchange.

Q. Will you kindly look that up and furnish the stenographer with the memorandum as to which is the larger, the Vandalia or the Wabash? A. Yes.

Q. Isn't it true that as far as the physical condition of the roads is concerned there has not been any benefit added by the consolidation of the Wiggins Ferry Co., the Merchants Bridge Terminal Railway and the Terminal Railroad Association of St. Louis? A. No, not as far as physical condition is concerned.

Q. I will ask you if there was any improvement by reason of the consolidation in the physical connection and use of the roads? A. Yes.

Q. Were there more switches connected up? A. There was a rearrangement of tracks and switches.

Q. Where? A. All up through Hall street.

Q. After the Wiggins Ferry purchase? A. Yes.

Q. That would be disclosed, then, on the Wabash tariffs, wouldn't it, and on the connection of the switches, wouldn't it? A. No.

Q. You used to be a member of this Association here, of local switching agents? A. A great many years ago I was.

Q. Examine that list and see if it does not purport to show all connections? This is a book called "Switching Rates of St. Louis and East St. Louis and List of Railway Connections, Public and Private Switches." A. Yes, but I am told this needs a very thorough revision at the present time.

Q. It was good up to 1905, wasn't it? A. I think so, practically.

Q. Here is an amendment, which brings it down— A. The Terminal Railroad Association properties all have their own tariffs, distinct from this.

Q. But the connections are all shown, of the various properties. That is what this list is issued for and is one of the objects for isuing it, isn't it? A. Yes.

Q. To show railroad men and shippers how to route cars? A. Yes.

Q. I will ask you if it is not a fact that aside from the new roads that have been built, and aside from the connection at Gratiot street, there has not been any additional connection physically made between the Terminal Railroad Association, the Wiggins Ferry Company tracks and the Merchants Bridge Terminal Railway tracks from 1892 up to 1902? A. No, I don't think that is a fact at all.

Q. Up to 1902, I said. My last question was limited to up to 1902. A. Your question was whether up to 1902, there had been any additional connections made, since when?

Q. From 1892 to 1902. A. From 1892 to 1902?

Q. Yes, between the three properties? A. On this side of the river?

Q. No, on both sides of the river—other than the new roads and the connection at Gratiot street.

Here is a list of the railroads and their connections in St. Louis and East St. Louis. Look at that and perhaps if there have been changes you can tell more readily where the changes have been made. A. This does not cover anything in 1892. It was 1898 when this was published.

Q. Well, I will ask you whether you know or not if there were any changes from 1892 to 1898?

This book purports to be issued April 1st, 1905, doesn't it? A. (After examining book.) Yes.

Q. The one you have is just the same, isn't it? Aren't they duplicates? A. Yes. This one (indicating) is 1898. I did not notice which one I had.

Now the question, as I understand it, is, whether between 1892 and 1902 there have been any changes in the connections between the three properties, the Terminal Railroad

Association, the Merchants Bridge Terminal Railway Company, the Wiggins Ferry Company, as between themselves?

Q. Yes, on either side of the river, and between any other railroads, except for the building of new lines and the connection at Gratiot street between the Merchants Bridge Terminal track and the Terminal Railroad Association track—or the Missouri Pacific? A. Yes, there have been.

Q. Where were they, and when? A. Additional connections were made by the Merchants Bridge Terminal Company with the C. B. & Q., through Angelica street, during that period.

Additional connections were made by the Merchants Bridge Terminal Company, by an extension north to Baden, through the tracks of the St. Louis Car Company into the C. B. & Q. tracks.

Q. What time was that connection made? A. I suppose along about 1900.

Q. What time was the connection made with the Burlington? A. I think the one at Angelica street was made about 1895.

Q. Therefore, there had been physical connection between the Burlington and the Merchants Bridge Terminal, and a use of the Merchants Bridge Terminal tracks by the Burlington Company? A. They had a connection down at North Market street.

Q. Where is Angelica street? A. Angelica street is about two blocks south of Grand avenue.

Q. In North St. Louis? A. Yes, in the northern part of the city, south of the Merchants Bridge. It is either two or three blocks south of Grand avenue.

My impression is that during that time there were several re-arrangements in connection with the district between North Market street and Bremen avenue between the Wiggins Ferry Company, the Merchants Bridge Terminal Rail-

way Company, the Wabash and the Burlington Railroads together. They all come into that neighborhood there.

Q. Wasn't that connection made before that time? A. There were connections there. I say there was a re-arrangement of them. There were actual connections of a certain character.

There was, during that time, a connection made in Main street, right north of Ashley street, between the Merchants Bridge Terminal tracks and the C. B. & Q. tracks.

Q. Was that a connection for an industry track? A. No, sir.

Q. What year was that made? A. That was either the last of 1901 or the first of 1902.

There was a connection made in 1902 by the Wiggins Ferry Company, through the stock yards, into the C. B. & Q. track at Bremen avenue.

Q. In North St. Louis? A. Yes. I think that connection was made; they had built up to the road, but the connection had not been made when I left there to go to St. Joseph. I think it was made shortly thereafter. That is simply my supposition.

A new connection was made between the C. B. & Q. and the Wiggins Ferry, a double track connection, down the levee from Wright street to North Market street. That was made in 1901, I think.

Q. Between what was that connection? A. I said between the C. B. & Q and the Wiggins Ferry tracks.

Also, during that period, there was a connection made between the Wabash and the C. B. & Q., through Humboldt avenue. An exchange between the Wabash and the C. B. & Q. was originally down at North Market street, and later on a connection was put in through Humboldt avenue, in addition, for various classes of business.

That is all I think of right now, on the west side of the

river, during that period. It would be hard to recall them without taking considerable time.

Q. No additional ones, beside those you have enumerated, in the period between 1892 and 1902, were made between the Wiggins Ferry, the Merchants Bridge Terminal Railway, and the Terminal Railroad Association, but connections have been made between those three terminals, or between two independent railroads? A. Well, I am not sure.

Yes, in that time I think connections were made north of North Market street between the Merchants Bridge Terminal and the Wiggins Ferry.

Q. At what point? A. A very short distance north of North Market street.

Q. Do you know about what time that was accomplished? A. I presume along about 1893.

Q. About the time the Merchants Bridge Terminal was completed down to Gratiot street? A. I think such a connection was made in 1894, and I presume— Well, I can not say just when it was put in. I don't know that I ever had any occasion to inquire.

Q. That is the only connection directly between those three properties that you remember being made between those dates, 1892 and 1902, in St. Louis? A. I think one additional connection was made up in the neighborhood of Bremen avenue, south of Bremen avenue, but I don't know of any others than those two except the one you have spoken of.

Q. You mean the one between the St. Louis Transfer Railway and the Merchants Bridge Terminal tracks at or near Bremen avenue? A. Yes.

Q. About what year was that? A. I think along about that time.

Q. That is the one you refer to, then? A. I think there were two switches connecting, one a little north of North Market street, is my recollection, and one nearly up to Bre-

men avenue, up in the neighborhood of the old St. Louis stock yards.

Q. After the acquisition of the Wiggins Ferry Company by the Terminal Railroad Association of St. Louis, in 1902, you say the tracks of Hall street were rearranged? A. Yes; rebuilt.

Q. That was the only additional physical connection between the Terminal Railroad Association and the Wiggins Ferry that occurred in St. Louis, was it? A. I think that was the only change, yes. They have made various plans but none have been carried out as yet that I know of.

Q. The change you speak of was merely a rearrangement of them, simply to facilitate the transaction of business? A. Yes.

Q. I show you this book entitled "Switching Rates, St. Louis and East St. Louis, and List of Railway Connections to Public and Private Switches," purporting to be compiled by the local freight agents, superceding that of April 1, 1898, and reissued April 1, 1905, and I will ask you to state if that is the authorized publication of that Association? A. Yes, but it has not been kept up to date, I am told. There have been a lot of—

Q. You do not mean to say it has not been kept up to 1905? A. I think it was undoubtedly correct up to that date.

Q. That is what I am asking about. A. Yes.

Q. I will hand you a book marked "Switching Rates, St. Louis and East St. Louis, and Switching Connections to Public and Private Switches," purporting to be compiled by the local freight agents, issued April 1, 1898.

Now I will ask you if that was correct, in your judgment, up to that time—or, purported to be correct, at least? A. That for 1898 I think was correct at that time.

Q. As a local freight traffic agent for the Burlington Railroad you were at one time a member of that Associa-

tion, weren't you? A. Yes, I was a member of it. I still was technically, at that time, as while I was also acting superintendent. No agent had then been appointed as successor to myself, and I was still officially its local freight agent. The book still bore my name, and I notice I was president of the local freight agents association at the time this book was issued.

Q. Mr. Perkins, I will ask you if you remember the clause of the Merchants Bridge franchise requiring it to build a passenger station at a cost of ten million dollars within two years from the time of the passage of the ordinance? A. There was some passenger station clause; but I have entirely forgotten the terms of it.

Q. Those were the terms of it.

Supposing those were the terms, I will ask you to assume that those were the terms, that the Merchants Bridge Terminal Railway Company was required to build a station in North St. Louis for passengers, costing two million dollars, within two years of the passage of the ordinance: If that were in that franchise, and the station had been built, would or would it not have been beneficial to the City of St. Louis? A. I doubt it very much. In fact, I believe it would not have been, as against having all the roads come to one union station; centrally located.

Q. But that would not have prevented the roads coming to a union station, would it? A. Possibly not. Still, if a large station were to be built somewhere, as an auxiliary to the Union Station, I doubt if it would have been properly located, if it had been built at that time.

Q. I want to get myself straight in my own mind about an answer you made in your examination in chief.

I understood you to say it took several times as long to get freight through Chicago as it does to get freight through St. Louis: Is that correct? A. Yes.

Q. In that statement did you refer to freight destined to

a point beyond Chicago, to a point west of Chicago? A. Yes.

Q. You did not refer to freight destined from Chicago to some point in Illinois or Missouri, or from some point in Illinois or Missouri, with Chicago as its destination? A. I was referring to the passage of freight through the terminals of the two cities.

Q. That is freight going beyond? A. Yes, that passed through from one road to another, or through a number of roads.

Q. And which did not stop in the city—or, did you confine it to that? A. My recollection is that what we were speaking of—

Q. Did you say you meant to limit that to any particular class of freight, with reference to the time it took to get through Chicago? A. Any particular class, no.

Q. I mean as to destination, whether destined beyond Chicago, or beyond St. Louis, or simply going into the city of Chicago or the City of St. Louis? A. I think I was talking at the time of freight business through—through shipments—speaking of Chicago or of St. Louis as a gateway.

Q. That is what I thought, but I did not get it very clearly from reading the record.

I will ask you if you know, or have any knowledge, of the expedition with which business, prior to 1905, outbound, was handled from St. Louis into Illinois territory, as compared with similar business, outbound, in Chicago, destined to some point in Illinois? A. Only in the most general way.

Q. You never had any occasion to investigate that? A. Not specifically, no.

Q. I will ask you if it is not a fact that in the case of the Terminal properties you speak of, in Paris and Berlin, aren't those properties belt lines around those cities, and used to connect with the various railroads? A. Yes.

Q. Isn't it a fact that at St. Louis the Merchants Terminal

Railway and the Terminal Railway Association and the Wiggins Ferry Company were straight lines of railroad, furnishing transportation across the river and forming a part of the railroad transportation necessary to be used to get freight and passengers from the east side railroads to St. Louis, Missouri, and that prior to 1905, a separate charge was made for this haul by these companies, to-wit, the Wiggins Ferry Company, the Merchants Terminal Bridge Railway Company and the Terminal Railroad Association, which three companies were operated independently of the east side roads, so far as charges were concerned? A. Prior to 1905 their charges were separate?

Q. Yes, prior to 1905? A. That was true on eastern business, yes.

Q. Isn't it true that prior to January 1, 1902, the operating railroads were independent and competing railroads and transportation companies, engaged in transporting for hire, between Missouri and Illinois, at St. Louis, Missouri, and East St. Louis, Illinois, passengers and freight, to-wit: the Terminal Railroad Association of St. Louis, the Wiggins Ferry Company and the Conlogue Belt Railway, operating in connection with the Missouri Pacific Railway, car transfer boats, and the Interstate Car Transfer Company?

I don't put the Merchants Bridge Terminal in, because they considered it a part of the Terminal Railroad Association at that time. A. Yes, they were entirely separate, doing their separate business for hire, or for certain rates.

Q. Mr. Perkins, in performing this service and making the charge they did for the haul across the river, in addition to the freight rate of the east side roads to east St. Louis, Illinois, weren't those companies that I have above named, the Terminal Railroad Association, the Wiggins Ferry Company, and the Conlogue Belt Road, operating in connection with the Missouri Pacific Car Transfer boats and the Interstate Car Transfer Company, performing a part

of the railroad haul between St. Louis, Missouri, and the territory east of the Mississippi river? A. Yes.

Q. Now I will ask you if it is not a fact that the Wiggins Ferry Company, before the consolidation with the Terminal Railroad Association, in 1903, had connections with every railroad in East St. Louis? A. I think so. I don't remember any exception.

Q. The only road it could not deliver direct to in St. Louis, Missouri, was the Frisco road, wasn't it? A. Yes, the Frisco and the Colorado roads.

Q. Isn't it a fact that where traffic was destined from the Wiggins Ferry Company, or over its rails in East St. Louis, to the Frisco-Rock Island Road, west of the river, it was delivered directly to the Terminal Railroad Association, or to the Merchants Bridge Terminal Railway by the Wiggins Ferry Company in East St. Louis? A. I don't understand that.

Q. If it was destined to the Frisco Road from the Wiggins Ferry Company's tracks in East St. Louis, wouldn't they deliver it directly to the Merchants Bridge Terminal or to the Terminal Railroad Association, prior to 1903, when the roads were consolidated? A. Either to the Merchants Bridge Terminal or to the Missouri Pacific, at the two different gateways.

Q. Either to the Merchants Bridge Terminal or to the Missouri Pacific? A. Yes.

Q. Either route offered as little resistance to the traffic as the other, did it? A. I don't know that there was very much difference.

Q. It is true it would move along the line of least resistance—that is, where the connection would be the most direct, if it was the proper route? A. It would depend a little on where the business landed, so far as that is concerned.

Q. Isn't it true that prior to 1903, when traffic was des-

tined to the Rock Island Road at East St. Louis— A. You mean St. Louis, don't you?

Q. No, I mean traffic destined to the Rock Island, the Chicago & Eastern Illinois—when traffic from the west side was destined to the Rock Island at East St. Louis, Illinois, it would be delivered by the individual road that carried it into St. Louis, Missouri, to the Terminal Railroad Association or the Merchants Bridge Terminal, which delivered it directly to the Rock Island at East St. Louis? A. I was trying to think as to whether they were actually in business there before that time or not. The question is, whether before 1902 all west side lines—

Q. January 1, 1903. The question is, if the traffic was destined from west side lines to East St. Louis, wouldn't it be delivered by the individual road which carried it into St. Louis, Missouri, either to the Merchants Bridge Terminal or the Terminal Railroad Association, which in turn delivered it direct to the Rock Island Railroad? A. The Chicago & Eastern Illinois was more of a Frisco than a Rock Island road.

Well, yes, except I am inclined to think that at that time the Chicago & Eastern Illinois was not using any tracks of its own into East St. Louis.

Now, however, it has a joint arrangement with the Big Four. It is a simple track proposition which they went into jointly. As to whether they were actually operating their own track at East St. Louis by that time, I do not feel quite certain just now.

They have not, you know, any facilities, at East St. Louis—that is, the Chicago & Eastern Illinois has not. I don't think at that time they had even their own tracks into East St. Louis; but now, as I say, by combination they have their own track into East St. Louis.

Q. I believe you said that Union Terminals was a reduction of expense to the public, on account of fewer places

to transact its business. I believe you stated that in your direct examination? A. Yes.

Q. You also stated that by consolidation of these properties these railroads had created more terminal facilities, built more tracks, and made more connections, didn't you? A. Yes, there was a good deal of additional trackage arranged for improving the internal circulation, as you might call it, between the different parts of the city. And of course, at the time, and the time shortly before the World's Fair, energies were mostly bent on getting ready to handle the additional traffic that would come on account of that event.

Quite a large additional scheme was agreed to, I understand, between the Terminal Railroad Association and a Committee of citizens, prior to the World's Fair, but the necessary franchises for that were refused by the Municipal Assembly.

Personally, I never was very much in favor of the plan proposed. But of course that has nothing to do with it.

A large amount of work in certain directions was put off, on account of the failure of certain proposed franchises to pass the Municipal Assembly, and a good deal of money was locked up in land and material.

Q. Mr. Perkins, if more tracks had been built and more connections made, would not the public then have had more places to transact its business? A. Well, no, not necessarily. For example, the team tracks at Sixteenth street have been rearranged, raised from three to five feet, and paved with vitrified brick, so it is generally estimated that the capacity of those, so far as the public was concerned, as I understand, was increased by the better arrangement, something like twenty-five per cent.

Similar work has been done in the Gratiot street yard and in other places.

What I say about the public gaining by not having a mul-

tiplicity of places to go to is, that they can do business with a number of different railroads at one place.

That, however, is a very different proposition from facilities being provided at a considerable number of different places in a city.

Q. You mean to say the improvements have been limited to the Mill Creek Valley, so far as additional team tracks are concerned? A. No, sir, I do not.

Q. When were those additional team tracks provided? A. In the Mill Creek Valley?

Q. After the consolidation, you said? A. These improvements have been made in the last couple of years, these improvements I have just referred to.

Q. Subsequent to 1905, then? A. Yes, those were made subsequent to 1905.

Q. I will ask you if there were any additional warehouse or team track facilities provided between 1902 and 1905, say October, 1905? A. I think some additional room at the north end was provided during that time. So far as I recollect, I do not recall any additions being made in the Mill Creek Valley, that is, in the lower part, during that time.

Q. I am speaking about the Terminal Railroad Association now, not the Merchants Bridge Terminal Railway. A. I understand. I do not think there is any change in that time in the Mill Creek Valley, in the amount of team track room or the amount of warehouse room.

Q. There was no change at all in the warehouse room, was there? A. No.

Q. Was there any change in the north part of town? A. I think during that time there was some additional team track room built at points between Dock street and Bremen avenue.

Q. By the Terminal Railroad Association? A. By the Merchants Bridge Terminal Railway Company?

Q. How much car length space? A. (After examining report of Commission). Well, in that district I have mentioned, between North Market Street and Bremen Avenue, there were some extensions during that time; but just how many car lengths I couldn't say, Twenty-five or something like that.

Q. It was a natural development of the property, without regard to whether it had been consolidated or not, wasn't it? A. Yes. Extensions were needed there at different places, and at the time of the building of the new track down Main street there was some extension, I think, of the amount of team track.

Q. Of the Merchants Bridge Terminal, down Main street? A. Yes.

Q. When was that built? A. In 1902.

Q. 1902. A. Or the Terminal Railroad Association tracks in Main street were rearranged between Florida street and Biddle street and a third track built jointly by the Terminal Railroad Association and the C. B. & Q. and that was taken over almost entirely by the Terminal Railroad Association. I don't think the C. B. & Q. ever used it to any extent. I think along in that time there were some small extensions in the track in the small yards there at Florida and Carr streets, but they were comparatively very limited.

Q. The Merchants Bridge Terminal tracks that you speak of as being extended in 1902, were extended from where to where? A. That was an additional track in Main street from Florida street to Biddle street.

Q. How far is that? A. Four or five blocks.

Q. That was also a natural development of the Terminal Railroad Association's property in that direction, and not necessarily caused by the consolidation? A. It was the natural result of the growth of the business from the north end into the Mill Creek Valley.

That track, as I say, was built jointly by the Terminal Railroad Association and the C. B. & Q. The ultimate uses of that track were not what was at first contemplated.

Q. In your direct examination you said in reply to a question which assumed that if the Missouri Pacific Railroad on the west side wished to deliver a car to the Vandalia Railroad on the east side, prior to the connection between the Merchants Bridge Terminal and the Terminal Railroad Association and the Missouri Pacific Railroad tracks in the Mill Creek Valley, the Missouri Pacific Railroad would send that car over the tracks of the Merchants Bridge Terminal in St. Louis and the Terminal Railroad tracks in East St. Louis.

In reply to that question you stated that the first delivery would be from the Missouri Pacific to the Iron Mountain proper, provided that they were independently operated lines (which they were not, as you stated) then the Iron Mountain would deliver it to either the Wabash or the St. Louis Transfer Railway. And the Wabash or the St. Louis Transfer Railway would deliver it to the Merchants Bridge Transfer, and the Merchants Bridge would take it across the river and down over the Madison & Illinois Railway to a connection with the East St. Louis Belt Railway, and that road would take it to a connection with the Vandalia.

You were familiar with the traffic conditions at the time you assumed the course this phantom car would pursue, and I will ask you, keeping in mind the railroad principle that traffic should move along the line of least resistance, would you have routed a car in this manner if you had wanted to deliver it, under the existing conditions you have described, from the Missouri Pacific on the west side to the Vandalia on the east side? A. Oh, no.

Q. How would you have routed it, so it would go along

the line of least resistance? A. Either over the Terminal Railroad Association Bridge or over the Wiggins Ferry.

Q. And that would have involved simply one movement of the car between the Missouri Pacific tracks and the Vandalia tracks? A. Yes, simply over one intermediate line.

Q. I will get you to state if it is not a fact that the Vandalia Road owned or controlled the Conlogue Belt Line, which is operated in connection with the Missouri Pacific Car Ferry at Carondelet, and was exchanging traffic with the Missouri Pacific at that point, daily, and had been since 1873, thirty-five years ago; and wouldn't that have been a point of direct connection also between the Missouri Pacific and the Vandalia, at the time prior to the connection between the Merchants Bridge Terminal and the Terminal Railroad Association tracks and the Missouri Pacific tracks in the Mill Creek Valley, which was in 1893? A. At that time I do not think the Missouri Pacific was operating its business from Carondelet, or any point inside the limits of St. Louis, Missouri, in that way.

Q. In 1893? A. I don't think it was.

Q. When did it begin? A. Oh, I think it began long prior to that, but I don't think it was doing that then.

Q. Where was it operated from in connection with the Conlogue Road? A. Well, it was possible it had some boats running across at that time. I am not sure about that.

Q. If it did have boats running across there at any point in or out of the city, and operating in connection with the Conlogue Road, that is the place where that supposed car could have been sent, with one intermediate movement, from the Missouri Pacific on the West to the Vandalia on the east side? A. We regarded the Conlogue Road as a separate property; still, the Vandalia controlled it. I think they handled it as a separate proposition.

At this point, 5:30 p. m., by consent of counsel, an adjournment was taken until tomorrow, Wednesday, May 20, 1908, at 10 o'clock a. m.

St. Louis, Mo., May 20, 1908.

Met pursuant to adjournment as above, on Wednesday, May 20, 1908, at 10 o'clock in the forenoon.

Present: Honorable R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the Government.

Mr. M. F. Watts appeared in behalf of the Defendant.

On account of the absence of the witness, recess was taken until half past two o'clock p. m. of the same day.

After recess, on Wednesday, May 20, 1908, the parties met and the following proceedings were had:

CROSS-EXAMINATION BY MR. E. C. CROW.

ALBERT T. PERKINS continued:

The Witness: To go back to one of those questions, I ought to have told you that the Vandalia Line did the biggest eastern business in and out of here, taking the eastern lines alone. I would like to have that corrected.

Mr. Crow: After this record is written up I suggest that you go over it at your leisure.

The Commissioner: I have called your attention to that before, Mr. Perkins. After the record is written, you are at liberty to read it over and correct any errors there may be in it.

The Witness: That is a change I desired to make. It used to be the Big Four, but it has dropped behind a couple of the others and the Vandalia is the leading one now.

I don't know whether it is in the record there or not. I

also got hold of this memorandum, this being the first chance I have had to dig it up.

Mr. Crow: Q. About the Ranken property? A. Thirty-four thousand, eight hundred and twenty square feet that were bought outright, cost two dollars and fifty-one cents per square foot, approximately.

Q. Is that of the Ranken tract? A. You know I stated in my testimony that part of it was bought outright from Robert Ranken and the rest of it was leased.

There were seven hundred and seventy-eight thousand, one hundred and fifty-seven (78,157) square feet, as I figure it, leased from the other Ranken heirs on a valuation of three dollars per square foot, figured on a five per cent basis. The total amount in that particular Ranken tract, exclusive of streets and alleys, is eighteen and six-tenths acres. I suppose the streets and alleys might run that up to three acres more.

I think probably the figures that you and Mr. Watts had in mind was the entire tract, including the property north and south of that. I think you said about thirty-five acres, and I think Mr. Watts said about thirty-one acres. I think I said that was rather high. I think, after looking up my memorandum, that you both had in mind the whole territory that the Terminal Railroad Association proposed to get hold of.

Q. What is the amount of this Ranken tract which should be acquired, or at least that could be acquired? A. Well, I haven't measured that up. Probably pretty nearly that.

Q. On the basis you mention there, of two dollars and fifty cents for the purchased block and three dollars per square foot for that which is leased, it would average them, for car space, per annum, on the basis of five per cent, about sixty-five cents per car, per year, wouldn't it, rental? A. Well, somewhere in that neighborhood.

Q. A little more or a little less? A. Well, in that neighborhood.

Q. Is that all? A. I think that was all you spoke of yesterday afternoon that I was to look up.

Q. Mr. Perkins, I will ask you if there was any additional physical connection made between the Merchants Bridge Terminal, the Terminal Railroad Association and the Wiggins Ferry Company, after the consolidation in 1903? A. No, only a rearrangement of what existed. I think no other.

Q. That is the rearrangement on Hall street, as you mentioned yesterday? A. Yes, I remember no other.

Q. Over the direct lines competing for business, from St. Louis to New York, isn't it true that the rates for the same class of goods, carried by the same kind of service, is the same? A. Yes.

Q. Isn't it true that on the east side, particularly, and to some extent on the west side, the various railroads entering the cities of St. Louis, Missouri, and East St. Louis, Madison and Granite City, Illinois, have in the last three or four years provided very extensive yards for making up and breaking up trains and for storing their cars? A. On both sides of the river, yes.

Q. And in some instances, some distance from the termini of their roads, particularly on the east side? A. Both sides.

Q. Isn't it true, that the additional yard room for the purpose of making up and breaking up trains and storing freight cars has relieved greatly, the congestion that formerly existed in East St. Louis, and to a great extent, in St. Louis? A. It has had a great effect on it, yes.

Q. It was one of the factors that contributed towards it, I mean? A. Yes, one of the great factors.

Q. You said it was a voluntary matter of the proprietary lines removing the arbitrary from the people here in St. Louis, on certain classes of goods, by absorbing it in the

freight rate: I will ask you if the power does not exist in those proprietary lines to restore that charge if they wish to do so? A. Well, I presume the power exists, except that they have an agreement to make the present new basis for St. Louis run indefinitely, and it would be an absolute impossibility, really, to make any agreement to get it back in the future. Of course, part of the lines would be glad to do it.

Q. They have an agreement with the Municipal Bridge & Terminals Commission, haven't they? A. Yes.

Q. And that agreement is based on no consideration that moves from the Municipal Bridge & Terminals Commission to the railroads? A. Absolutely none.

Q. It was voluntary? A. The railroads, as a committee, gave the Municipal Bridge & Terminals Commission a statement and guarantee, authorizing them to state to the public that hereafter this would be the basis.

Q. Mr. Perkins, the Pennsylvania Railroad reaches the east side of the river with its line? A. Yes.

Q. And it reaches from the Mississippi river to New York City, the Atlantic Seaboard, touching Philadelphia and many large cities with its radiating lines in Indiana, Ohio and Illinois? A. Yes.

Q. Naturally it does a big business between the Mississippi river and the seaboard, doesn't it? A. Yes, a very large business. It does a larger proportion of the whole business than it used to, I should say.

Q. The Clover Leaf Line reaches from Toledo, Ohio, on the lakes, to East St. Louis, Illinois, doesn't it? A. Yes.

Q. That is the limit of its trackage? A. Yes.

Q. It has no branch lines, to speak of, or very few? A. No, it is pretty nearly one straight line. It has not very much in the way of branches.

Q. Do you know whether or not it is a fact that the Clover Leaf for several years prior to 1905 had hauled more

freight from the east, and especially from Atlantic seaboard points, that is, freight destined to or coming from Atlantic seaboard points, than the Pennsylvania system handled? A. I don't know, but possibly that may have been the case in some years, because in some past years the Pennsylvania lines did not stay in the market at all on either grain or packing house business.

For some years in the past, from my experience, the Pennsylvania system took the attitude that that business was not remunerative to them and they did not care to go into it. I can not say about that offhand, though. However, the figures are entirely available. I have heard it claimed that that was the case.

Q. Isn't it true that the Clover Leaf has been cutting the rates for several years on Atlantic Seaboard business from St. Louis? A. Cutting the rates?

Q. Yes. A. I can not say as to that, I am sure.

Q. Don't you know they have been hauling goods for less rates than the lines that belong to the traffic associations? A. They made very low rates on their lake and rail business, I have understood. I don't know, that is, as far as I know, that they were any lower than the others under similar circumstances—I mean a similar character of service; that is, water service.

Now I am not quite sure whether you mean they have made tariff rates lower than the others, or whether they have actually cut their rates by rebating processes.

Q. No, not by rebating, but straight rates, the same as everybody.

I will put it, all rail, and eliminate the water question; an all rail rate to the Atlantic sea coast? A. That is what I said yesterday. It is my impression that some of the all-rail lines had lower rates, by some of the round-about routes. I really haven't that information.

Q. You don't really know about those facts? A. Except

in a general way. I haven't looked them up for a long time.

Q. You don't know whether it is true that the Clover Leaf route is furnishing quicker service by its own rails and the Michigan Central and the Lake Shore, on different commodities, to the Atlantic coast, and made the haul for lower rates than has the Big Four and the Pennsylvania or other roads? A. No, except in a general way, as I have stated. Where they have differential rates, a lower basis of rates than, for instance, over the Pennsylvania.

Q. My question was specific. A. I will have to say no in answer to your question.

Q. I believe you stated in your direct examination, and also in your cross-examination heretofore, that it was a principle of railroad management that, as far as possible, traffic should be forwarded along the lines of least resistance, meaning by that a line over which the movement could be the more easily made in the shortest time? A. Yes, substantially that.

Q. Bearing that in mind, Mr. Perkins, I will ask you if it is not a fact that the Wiggins Ferry Company, before the consolidation with the Terminal Railroad Association, including the Merchants Bridge Terminal Railway and St. Louis Transfer Railway Company, in 1903, had connection with every railroad in East St. Louis? A. Yes.

Q. And couldn't it deliver to any railroad in East St. Louis? A. Yes.

Q. And wasn't it a fact that when traffic from the west side over the Missouri Pacific rails was destined to any road in East St. Louis, the Wiggins Ferry could handle it with one intervening movement between the rails of the eastern road and the rails of the western road? A. Taking the St. Louis Transfer Railway and the Wiggins Ferry and the East St. Louis connecting railway as one proposition, they would make three different sets of crews handle the thing, but all under one management.

Q. It would be just one movement between the rails of the two roads, wouldn't it? For instance, from the west side road to the east side road? A. The movement would be divided into three parts, the original movement from the Missouri Pacific to the ferry incline, the movement over the ferry; and the movement with a third crew from the ferry incline on the east side to the East St. Louis connecting railroad to that railroad. It is really one movement in three parts, you might say. It is a movement, according to what you mean.

Q. That was a practical and speedy way of handling the business, wasn't it? A. Yes.

Q. And the business was carried on that way in 1893, wasn't it? A. Yes.

Q. And has been all these intervening years? A. For many years, yes.

Q. In your direct examination you were asked by counsel for the defense to describe the movement of a car, prior to 1893, that was on the Missouri Pacific rails in St. Louis, Missouri, and which it was desired to deliver to the Vandalia road on the east side, by way of the Merchants Bridge Terminal Railway Company; you did so describe the movements that the car would follow.

I will ask you now, bearing in mind the question and answer in your examination-in-chief, would the example that was given to you in the question asked you by counsel for the defense be a typical movement of traffic in 1893, between the rails of the Missouri Pacific on the west side and the rails of the Vandalia on the east side, provided that the movement of the traffic was made under the direction of a prominent railroad man, acquainted with terminal conditions as they existed, and as they existed before the connection of the Merchants Bridge Terminal, the Missouri Pacific and the Terminal Railroad Association tracks in the Mill Creek Valley? A. No.

Q. Isn't it true that the movement as given in the example and in accordance with the answer you made, would impede the traffic? A. Yes. I answered the question No, and properly so, before this—well, I don't think there was any exception. I was thinking of the exception in the winter when the ferries were blocked, but it would still go over the Eads bridge.

Q. I was going to ask you if the movement as indicated in the question of counsel for the defense would not result in impeding traffic? A. Oh, yes; that would not be a natural movement.

Q. The Missouri Pacific, in 1893, at the time of this hypothetical question, when this imaginary car was routed as indicated in the question, was one of the proprietary lines of the Terminal Railroad Association, wasn't it? A. Yes.

And isn't it true that the Missouri Pacific Railroad, as one of the six proprietary lines of the Terminal Railroad Association, and to that extent responsible for its revenue, would have given its business to the Terminal Railroad Association in preference to the Merchants Bridge Terminal Railway—that is, prior to their consolidation? A. Yes.

Q. And it would route its livestock, destined to the Vandalia, which it did not handle, over its own ferry, over the Terminal Railroad Association, in preference to giving it to the Merchants Bridge Terminal Railway, prior to the consolidation? A. Yes, I think it would, and still does. Its live stock still goes over the Eads bridge.

Q. At the time mentioned in that question asked you by counsel for the defense, isn't it true that the Missouri Pacific before the connection in the Mill Creek Valley of the Merchants Bridge Terminal Railway and the Terminal Railroad Association tracks, owned and controlled a track on Poplar street? A. Yes.

Q. Now, if that is true, did not the Missouri Pacific

operate its own locomotives from that connection and this track over the Iron Mountain track, and make direct deliveries at that time, in 1893, to the St. Louis Transfer Railway, which is the Wiggins Ferry track, on the west side of the river? A. I think they did at that time, but I can not say that positively, because I have not particularly looked into their operations, but I should say they did.

Q. Assuming that is true, that they so operated over their track down Poplar street to the levee, and ran their own locomotives over the Iron Mountain track to the connection that then existed with the Wiggins Ferry in the shape of the St. Louis Transfer Railway, then this imaginary car you were asked to route over the Merchants Bridge Terminal and over the Missouri Pacific could have been delivered at the Poplar street track, over the rails of the Iron Mountain road to the Wiggins Ferry? A. I think it could.

Q. I said, assuming that to be true. A. Yes, assuming that it could, and I think that was the case. I can not say it positively.

Q. If the car had been given by the Missouri Pacific to the St. Louis Transfer Railway, could not the St. Louis Transfer Railway at that time, 1893, by virtue of its connection on the river front with the Merchants Bridge Terminal Railway, have delivered the car in one movement to the Merchants Bridge Terminal Railway, and that company in turn have delivered it directly to the Vandalia? A. No, they could not have delivered that directly to the Vandalia Line, I think.

Q. The Merchants Bridge Terminal Railway could not have delivered it? A. No, I think not.

Q. But the St. Louis Transfer Railway could have delivered it? A. Yes, the St. Louis Transfer Railway could have delivered it direct to the Merchants Bridge Terminal Railway Company, north of North Market street.

Q. In the movement of the imaginary car you were asked to route, I will ask you if the Missouri Pacific Railway, on this side had delivered the car to the Wabash Railroad, under the conditions existing at the time you assumed, in 1893, would not the movement then have been directly from the Wabash to the Merchants Bridge Terminal Railway, and from the Merchants Bridge Terminal Railway to the east side and then to the Vandalia, over the proper connection? A. Yes.

Q. Then that would have involved only two movements instead of five; there would have been only two points of resistance instead of five, as indicated by the question asked you? A. Well, no, I should say it would be first the Missouri Pacific, then over the St. Louis Transfer Railway or the Wabash, and the third would be the Merchants Bridge Terminal Railway.

Q. It was to go over the Merchants Bridge Terminal Railway. That would not be a point of resistance. The other point would be the point of connection between the Merchants Bridge Terminal Railway and the Vandalia Railroad. A. Oh, no, I did not understand the question that way. I understood it meant how many different operating properties this car would go over to get from a point on the Missouri Pacific to a delivery point on the Vandalia Line. That was my understanding of the question at the time it was asked. On this present supposition there would be at least four movements.

Q. On page 3456 of the record in this case this question, in substance, was put to you and the following answer given:

"Have you described the ordinary movement of traffic under the above conditions? A. Yes."

Now I will ask you if by that answer you meant to say that you intended to state that the ordinary movement of traffic between the Missouri Pacific on the west side and

Vandalia on the east side of the river, was, in 1893, carried on in the circuitous manner you stated? A. No, I did not understand that to be the question put to me.

Q. Mr. Perkins, I will ask you this question: Isn't it true that at that time, 1893, freight traffic was conducted between the rails of the Missouri Pacific Railroad on the west side and the Vandalia on the east side, and that it was conducted largely in the same manner it is now? A. I think there has been very little change.

Q. You stated in your direct examination, at page 3457, that there would have to have been an interchange of freight between the Merchants Bridge Terminal Railway and the Terminal Railroad Association, for the reason that the system of the Merchants Bridge Terminal Railway did not reach any of the business of the Terminal Railroad Association except by common connection of the two systems, except as to such freight as originated on the Merchants Bridge Terminal Railway and was destined to some trunk line with which it had direct connection.

Now, I will ask you if it is not true that between all lines of railways, centering at a common point, there has to be interchange of freight? A. Yes, there are points to make connections. Business is coming from all directions and going to all directions.

Q. It is constantly gonig on between all lines of railroads at the common center? A. Yes.

Q. And, as a matter of fact, for practical railroad management, that interchange is accomplished in the most direct manner, to save both time and expense, considering the conditions under which they have to work? A. Well, there is always an attempt to bring that about, and they are really always working toward that end. Operating and physical conditions grow up from time to time that put great barriers on the traffic, really, and make it very inconvenient. But

there is always a tendency to endeavor to overcome that and get rid of them as soon as possible.

There are always differences of opinion as to how this should be done, is one great trouble.

Q. Isn't the effort always to move the traffic by the quickest route and exchange it in the quickest way, with the least expenditure of time and money? A. Exactly.

Q. Now let us turn to another phase of this question: Have you ever made any investigation as to the number of track-located industries on the Merchants Bridge Terminal Railway Company, the Terminal Railroad Association, the Wiggins Ferry Company and the individual railroads? A. Yes, there are a number of industries on the individual roads. That number being much greater than those on the Terminal properties, and it always has been.

Q. Have you the figures on those things? Roughly speaking, do you know whether there are about eighty or eighty-five track-located industries on the Merchants Bridge Terminal Railway Association, and about twenty to twenty-five on the Terminal Railroad Association, in St. Louis, Missouri? A. I should say not more than that. I can not say that is the exact figure. But I should say not more than that; that is, not of any very great consequence.

Q. Mr. Perkins, you stated in your direct examination that up to two years ago, all business to and from St. Louis proper, and the east was compelled to pay the Terminal Arbitrary, in addition to the regular rate; while on traffic through St. Louis to the east and west the terminal charge was absorbed; that there was one exception to this rule on St. Louis business, and that was from St. Louis to the southeast, in which territory no bridge arbitrary was charged.

I will ask you if this admitted fact does not show that at that time there was a direct discrimination in rates and

facilities against St. Louis, Missouri? A. Yes, I think there was.

Q. Mr. Perkins, is this true: That the rates to a great many of the points on the Mississippi river, and perhaps some points west of it, have been based on what is known as the New York and Chicago rate for a great many years? A. Yes, that has been the case all up and down the Mississippi river—at any rate, to cover your purpose, from St. Louis to Davenport and Rock Island—well, go further still, and say St. Louis to Dubuque, anyway.

Q. Then the rate from East St. Louis was fixed somewhat in this manner:

The rate to East St. Louis would be made up of the New York to Chicago rate, plus whatever distance the haul from East St. Louis to Chicago was considered to be, which for many years was considered to be sixteen cents; and, therefore, the rate from New York to East St. Louis was one hundred per cent, plus the Chicago to East St. Louis rate, which was sixteen per cent, or one hundred and sixteen per cent? A. Yes. These rates were arranged in groups for certain boundaries in Illinois. And different rates were applied to different cities on the banks of the Mississippi river all the way from St. Louis to Dubuque. They ran from one hundred and ten, or possibly on a small district one hundred and five—they ran all the way from the basing rate of one hundred per cent up to one hundred and twenty-four.

Q. These territories in which these groups were arranged were fixed by representatives of the railroads who made the tariff sheets? A. Yes. The basis of it was all made a good many years ago.

Q. The rate to St. Louis, then, prior to 1905, would be the New York and Chicago rate, or one hundred per cent, plus sixteen per cent for the rate from Chicago to East St. Louis, plus the bridge toll? A. Yes.

Q. And that would be the charge on goods from New York to St. Louis—whatever in dollars and cents it was? A. Yes. All these questions and answers are based on the Seaboard-to-the-Mississippi rate, not intermediate territory?

Q. Yes, I understand that. A. It would not apply to a great deal of the intermediate territory.

Q. Mr. Perkins, you stated, or I understood you to state, in your direct examination, that the Terminal arrangement which has been arranged since the filing of this suit, enables each of the lines entering St. Louis from the east to have the same advantage of access to the freight facilities that every other one enjoys? A. I am not quite sure that I understand the scope of your question.

Q. (Previous question read.) A. No, I did not state it that way.

Q. You did not? A. No.

Q. What did you say about that? That the facilities were enjoyed equally by all of the roads? A. I don't remember the question in reply to which the remark referred to may have been made, or was made, but I presume I stated that the present arrangements enabled all the lines to come into St. Louis or East St. Louis and to have the same facilities for reaching business, as far as the Terminal Railroad Association properties went.

I am positive I didn't say in any way that the different lines coming into St. Louis had the same facilities for disposing of and collecting business, because that would be absurd on the face of it.

Some lines have much more extensive facilities than others. They all have the benefit of the Terminal Railroad Association's facilities, and they all, in addition, also have whatever of their own facilities there may be.

Three eastern lines on this side of the river have north end facilities. The Terminal Railroad Association has no freight house facilities in North St. Louis; therefore, those

three eastern lines, if you take it that way, have much better facilities, in a way, than any of the other eastern lines.

Q. You have developed just the point that I wanted to develop in my question. The record as it stood might be construed to mean just the other way. A. The question I think indicates that I was asked about lines having equal use of the Terminal Railroad Association facilities—which they do. I have never known of any discrimination.

Q. The fact you state on that question, as to the present operation of the Terminal Railroad Association is, that it would only open up the facilities that were on the Terminal Railroad Association tracks, equally to all roads, such as team tracks and warehouses? A. Yes, and the Terminal Railroad Association furnishes connection with these others, so far as that is concerned.

Q. Prior to 1905, the tracks of the Terminal Railroad Association and the Wiggins Ferry Company and the Merchants Bridge Terminal Railway were all opened to all of the roads that wanted to use them, on payment of the charges that were made, weren't they? A. Yes.

Q. And that charge would be supposed to be the same to everybody? A. Yes.

Q. And that was true prior to 1893, wasn't it? that whatever facilities those three companies had, the Merchants Bridge Terminal Railroad, the Terminal Railroad Association and the Wiggins Ferry Company, all roads could use them on payment of the charge made for the service? A. Yes.

Q. And, of course, upon paying the charge, they had equal access to the team tracks and warehouses for freight purposes, that might be located on either one of the three roads that they used? A. Yes.

Q. Do you know whether or not it was true that what are commonly known as the "Gould Lines," the Missouri Pacific, the Iron Mountain and the Wabash, have practically

monopolized in point of location, a great many of the best terminal points in St. Louis? A. Yes.

Q. I will ask you if these three lines have not been collecting a revenue on traffic from all other roads that move over their terminals, or were compelled to move over their terminals? A. You mean they collected switching charges on what they handled for other roads?

Q. Yes? A. Oh, yes.

Q. And the business which was compelled to go over those three roads in St. Louis from other roads is a pretty considerable volume, isn't it? A. Yes.

Q. These three roads are all members of the Terminal Railroad Association of St. Louis? A. Yes.

Q. And the most of the terminal properties that the three roads, the Missouri Pacific, the Iron Mountain and the Wabash have now, they had prior to 1905, and they had as far back as 1893, didn't they, at least in the center of the town? A. No, only in the Mill Creek Valley and the southern part of the city. Their properties in the north end have been acquired since 1893, that is, the Missouri Pacific properties in the north end of the city have been acquired since that time and a very important proportion of the Wabash facilities have. Their present freight houses have been acquired since that time, in North St. Louis.

Q. The consolidation of the Wiggins Ferry Company, the Merchants Bridge Terminal Railway and the Terminal Railroad Association did not and could not stop those three roads, the Missouri Pacific, the Iron Mountain and the Wabash, from receiving business and collecting charges for terminal service which you say is of quite large volume, which they had been receiving and collecting for before the consolidation? A. No.

Q. Before the consolidation of the three companies named, to-wit, the Wiggins Ferry Company, the Merchants Bridge Terminal Railway Company and the Terminal Rail-

road Association, isn't it true that if one of those lines of road did not reach a certain given territory with its connections in St. Louis the other did, so that business could be and was handled from any part of the city in and out, in all directions? A. Yes.

Q. I will ask you if the consolidation of the Merchants Bridge Terminal Railway, the Terminal Railroad Association, the Wiggins Ferry and the Interstate Car and Transfer Company, has opened up or made any more free, in the sense of the service being rendered without pay, the private terminals of any railroad in St. Louis or East St. Louis? A. No, while that has not changed exactly, the charges, as such, of the different individual railroads, I think it has been a factor, probably, and an important factor, in the bringing about in the last couple of years of the present coal adjustment and the absorption of the switching charges by the railroads on the soft coal traffic from Illinois.

That is one of the things that our Commission to start with, tried to push along as fast as it could, and I think the fact of the widespread deliveries of the combined terminals probably was one of the factors which enabled them to get that through—that arrangement by which coal would be delivered without extra charge to all industries on all railroads inside the St. Louis switching limits. Now perhaps that is somewhat indirect. In other respects I do not think it did affect it as you say. But——

Q. In other words—— A. I was going to say one other exception, that probably the extensions of the terminal system in St. Louis—but you are referring simply to St. Louis, aren't you?

I think the extension of the Terminal System in East St. Louis has made some change in the arrangement, because every time you go across another railroad it means one switching rate is cut out. There have been some extensions

there that have accomplished the purpose of reducing those cases.

That is true also at North St. Louis, at Baden. The extension of the terminal properties up to Baden, after that time, brought about a lower basis of switching charges. That made it necessary for the C., B. & Q. to come down on its switching charges very materially, into the Baden district. The method of the C., B. & Q. getting into the Baden district was around outside the city. It was not confined to the one dollar per car terminal charge. But the extension of the Terminal Company up there made it necessary to split the charge right in two.

Q. To go back to the proposition of rates: You defined very correctly, if I understand it, the East St. Louis and New York rate and the St. Louis and New York rates for freight.

Now I will ask you if prior to 1905 it is not true that all rates from New York on say business destined to St. Louis were made to East St. Louis, Illinois, where it came by rail? A. Yes.

Q. Since the institution of this suit, and since 1905, isn't it a fact that the proprietary roads owning the Terminal Railroad Association, the Wiggins Ferry and the Merchants Bridge Terminal Railway, and which proprietary lines, through their ownership of the Terminal Railroad Association of St. Louis, formerly assessed a bridge arbitrary of about two cents per hundred pounds, have taken off the arbitrary and, it is claimed, have absorbed it in freight rates as follows:

First class	1c	per 100 lbs.
Second class	1c	per 100 lbs.
Third class	1c	per 100 lbs.
Fourth class	1½c	per 100 lbs.
Fifth class	1½c	per 100 lbs.
Sixth class	1½c	per 100 lbs.
Commodities	1c	per 100 lbs.

And that the freight rates have been increased to and from East St. Louis territory and through that gateway to territory beyond, as follows:

From Trunk Line territory, being that portion of the country lying east of Buffalo and Pittsburg, and between the Virginias and the Canadian line, and passing into and through the St. Louis and East St. Louis gateway, including in that territory all that country in Illinois between Springfield and the lines of the Louisville and Nashville Railroad on the south, being that territory within a radius of one hundred miles around East St. Louis, known now as the one hundred and seventeen per cent rate point; and the rates *on second class* merchandise have been raised one cent per hundred pounds to and from the Trunk Line territory described above, to St. Louis and the territory beyond; and on second, third and fourth class freight the rates have been raised, each, one-half cent per hundred pounds; and to and from St. Louis and all territory beyond, as above described, and to and from all central freight association territory, being that portion of the country lying between the Mississippi river on the west, Buffalo and Pittsburg on the east, Canadian lines on the north and the Ohio river on the south, rates have been raised on first class merchandise one cent per hundred pounds; on second, third and fourth class, one-half cent each, per hundred pounds.

So that while it is true that the St. Louis arbitrary has been partially removed on some classes of freight, it has been restored to the revenues of the proprietary railroads, to a considerable extent, by the increase of freight rates to and from St. Louis and to and from points located beyond St. Louis, and outlying territory, and the burden of the former arbitrary across the river, while it has been partially shifted from the people of St. Louis alone, has been put upon the commerce of the general public, which passes

through the St. Louis gateway? A. The first part of your question as to arbitraries absorbed is incorrect. The amounts absorbed are much larger. The second part of your question as to advance in rates to and from St. Louis is entirely wrong; as the rates between St. Louis and the east were reduced. There were a few slight advances in the highest classes between East St. Louis and points in Trunk Line and Central Traffic Association territories. As to the third part of your question the advances on East St. Louis rates were insignificant as compared with the reductions in St. Louis rates.

Q. Is it true that what we have termed the "arbitrary" that is charged for the haul across the river, prior to 1905, had always been absorbed on through traffic, to-wit, traffic that originated at points beyond the one hundred mile limit and destined for points westward beyond the one hundred mile limit? A. Substantially. The only divergence has been that several years ago when there was a rate war and it got to a point where there was practically nothing to the rates, they did not absorb it, but under ordinary circumstances it has all been absorbed.

Q. Then this so-called "St. Louis arbitrary" was understood generally to apply only to St. Louis traffic? A. So far as the public were affected, yes.

Q. The fact is, that traffic originating in St. Louis proper for eastern points paid this arbitrary? A. Yes.

Q. And all traffic from eastern points to St. Louis proper paid it? A. Yes.

Q. The only exception, where traffic originating in St. Louis did not pay it, was for what was known as "Green Line" or southeastern territory? A. Well, substantially so.

Q. The adjustment that has been mentioned as having been made since the institution of this suit, in 1905, whereby the so-called "arbitrary" has been absorbed in the freight rate, to some extent at least, or is claimed to have been

absorbed in the freight rate, has not and did not disturb the adjustment of any territory on any business outside of the one hundred mile limit in and around St. Louis city, and St. Louis city business alone?

In other words, the through traffic was not affiected by this adjustment of the arbitrary.

I do not mean now as to the freight rate, but that the arbitrary was not removed from any through traffic by this adjustment? A. No, I should say not. No arbitrary was removed on through traffic.

Q. All traffic to and from St. Louis, and between points within the one hundred mile radius, still carries the arbitrary charge as it did before? A. Still carries an additional charge.

Q. Well, an arbitrary charge? A. There have been some material changes——

Q. That is sufficient; an arbitrary charge? A. But I should have to add to that, of course, that the through rates are published. It is not shown as a separate charge.

Q. That is another proposition. We will reach that later.

The bridge arbitraries were generally about as follows, I believe, with perhaps some exceptions, where rates on lighter articles were greater—but, as a general proposition, they were about as I will indicate, and if am wrong, you may correct me:

First class freight	2c	per 100 lbs.
Second class freight	2c	per 100 lbs.
Third class freight	2c	per 100 lbs.
Fourth class freight	1½c	per 100 lbs.
Fifth class freight	1½c	per 100 lbs.
Sixth class freight	1½c	per 100 lbs.
Commodities	1c and 1½c	per 100 lbs.

A. (After examining report of Commission.) Fourth class should be two cents. Those were the minimum charges. First class in some cases went up to ten cents.

If you wish, I will read out the scale as I have it here in the report.

Q. Very well. That is what I want to get, just what it is?

A.

First class	10c to 2c	per 100 lbs.
Second class	10c to 2c	per 100 lbs.
Third class	5c to 2c	per 100 lbs.
Fourth class	5c to 2c	per 100 lbs.
Fifth class	2c to 1½c	per 100 lbs.
Sixth class	2c to 1½c	per 100 lbs.
Commodities	2c to 1c	per 100 lbs.

Those are the limits between which they vary. There are a great many fifth and sixth class commodities which were two cents before any of this work was started. That is, as they stood prior to 1905.

Q. Will you please indicate, so I can put it in the record, the time that arrangements were made for what is claimed to be the absorption of the bridge arbitrary, whatever it was, into these through rates. Just approximately, the month and year? A. The first slice, I should say, the first reduction, was made in November, 1905. At that time a uniform basis was agreed to as follows:

First class	2c	per 100 lbs.
Second class	2c	per 100 lbs.
Third class	1c	per 100 lbs.
Fourth class	1c	per 100 lbs.
Fifth class	½c	per 100 lbs.
Sixth class	½c	per 100 lbs.
Special commodities	½c	per 100 lbs.

There was no change in the rate basis made, when those were cut out. These reduction were simply entirely absorbed in the rates.

Q. When was the last change made, after those other changes? A. Well, it has been going on during the present

year. There have been different tariffs for different eastern lines coming out since February 1st last. In fact there are still a few that did not publish their hard coal rates. I understood they had a meeting yesterday in Ohio. Occasionally we find that will be the case. We found a short road down in Maine that had not issued its tariff on paper to St. Louis, although it had been sending paper to one of the St. Louis newspapers. That was taken up and they were notified to publish their tariff on same basis as everybody else.

There are a few of those little things that have been coming up for the past few months, but they are pretty nearly all lined up now, I guess.

Q. At this time, is it true that the following amounts are claimed to have been absolutely absorbed in the through rates:

First class	1c per 100 lbs.
Second class	1c per 100 lbs.
Third class	1c per 100 lbs.
Fourth class	1½c per 100 lbs.
Fifth class	1½c per 100 lbs.
Sixth class	1½c per 100 lbs.
Commodities	1c to 1½c per 100 lbs.

A. No, the amounts now actually absorbed in the rates vary for the different classes from one and one-half to five cents per hundred pounds that the railroads are paying out of their rates for the transfer.

The only cases where that has been, in a way, recouped as you suggest, by some advance in the rates, was where this adjustment and revising of the different groups in Illinois put these New York rates on the one hundred and seventeen per cent basis, and whereby the method of figuring fractions some of the rates were raised slightly. That is, it was only a very slight fraction. In some cases it came out

a little over half instead of under half a cent, as it had in the original basis of figuring.

Other than those cases, in general the amounts actually absorbed by the railroads ran from one and one-half to five cents per hundred pounds.

Q. But upon the principal articles and in the great volume of traffic it runs along the lines I have indicated in the different classes, doesn't it? The exceptions where it runs to five cents are isolated? A. The five cents per 100 pounds is what the railroads pay on a large proportion of the merchandise handled through transfer stations. They absorb that in the rates.

Q. That is the transfer charge they absorb? That is only a small proportion of their business, however, isn't it? A. In tonnage, yes. Of course, they pay the Terminal Railroad Association for transferring that particular business to the Twelfth street station two cents per hundred pounds.

Q. Do they pay that to the Terminal Railroad Association or to the drayage company? A. To the Terminal Railroad Association.

You ask, on a large proportion of business: The greatest one item that is sent out of here from St. Louis to the east, the heaviest one item, is beer, in which they absorb outright the two cents per one hundred pounds.

Q. That is all absorbed? A. This whole arbitrary of the Bridge Company, the charge for transporting and handling that across the river, the terminal charges and bridge charges and so on.

Q. That goes in what class? A. The fifth class.

Q. That is one-half cent per hundred pounds? A. No, that was two cents.

I said here that the old arbitrary charge, or bridge charge —it amounted to that—well, not a bridge charge exactly, but the charge for the Terminal Railroad Association's ter-

minal and bridge service was from two to one and one-half cents on fifth class, according to commodities. They had their own schedule apart from the classification. Now the charge on beer was two cents per hundred pounds. That is absorbed entirely.

Q. But the five cents you referred to is paid only when the goods are handled by the St. Louis Transfer Company? A. That is when it is handled by the Transfer Companies to their stations.

Q. As a matter of tonnage, that is a very small propor- of the railroad business of St. Louis, isn't it? A. I am unable to say what proportion of the total the actual business handled by the St. Louis Transfer Company would be.

The figures I published here (referring to report of Municipal Bridge and Terminals Commission) for 1905. showed that 15.88 per cent of all the freight crossing the river crossed by wagons over the bridge and ferries.

Q. That includes private teams as well as the transfer companies? A. It includes everything.

Q. Those other figures are in the record somewhere, but I cannot recall now just where? A. I remember giving some figures of the different divisions of the wagon transfers, in an address to the Railway Club. But they are not included in these Reports of the Commission. However, they are to some extent available. I have forgotten to what extent the details were described at that time.

Q. On the rest of the business the reductions have been from one cent on first class along down the line to two cents per hundred pounds in the different classes? A. You mean handled by rail?

Q. The absorption? A. The absorption in the business handled by rail has run from two cents down to one and one-half cents per hundred pounds. There was an evener scale on the business handled by rail than on the wagon business.

Q. Is it true that substantially the following rates were added to the old rates to East St. Louis when this claimed absorption was made:

Old rates to East St. Louis from Trunk Line territory and all one hundred and sixteen per cent rate points as described, the rates to East St. Louis which have been in effect since 1877, or thirty years, were raised as follows:

First class, one cent per hundred pounds.

Second class, one cent per hundred pounds.

Third class, one cent per hundred pounds.

Could you answer that without looking the matter up? A. I think only those first two figures are correct.

Q. First class one cent and second class one cent; you think the third is not correct? A. I think it is not correct.

Q. From Trunk Line territory? A. No. There was a little difference in the way that figured out between eastbound and westbound business. The fifth and sixth classes figured out on the old East St. Louis basis just the same on the car load classes, the fifth and sixth classes, the entire arbitrary was absorbed and the old East St. Louis rate applied to both cities.

My recollection is that was also true in one direction on the fourth class, but I think in the other direction there was one-half a cent per hundred pounds difference on fourth class.

I can get you the exact figures. They are open to anybody who desires to look them up.

Q. Suppose you see if they are correct, and if not, we can correct them here later. A. I think your trouble is on the third and fourth classes.

Q. I didn't mention fourth class. I only mentioned three classes? A. On looking these up, I find the advance on rates from Trunk Line territory to East St. Louis was one cent on the first three classes and no advance on the last three.

Q. I will ask you if "Trunk Line territory" means all that portion of the country east of Pittsburg and Buffalo, between the Atlantic sea coast and as far northeast, I believe, as Boston? A. Yes.

Q. And New York City on the south? A. They have a separate New England Association, but the Trunk Line adjustments always affect Boston, and practically it has to be considered in any adjustment on the part of any trunk line association. But there is a separate New England Association which publishes its own rates. You set a limit on south?

Q. North of the Virginias and Carolinas? A. Yes.

Q. Is it true that the following amounts were added to the old rates to East St. Louis, in Trunk Line territory, from East St. Louis and all one hundred and sixteen per cent rate points:

First class .....½c per 100 lbs.
Second class .....½c per 100 lbs.
Third class .....½c per 100 lbs.
Fourth class .....½c per 100 lbs.

A. If you are now referring to eastbound rates from East St. Louis to Trunk Line territory, the advance was one-half of a cent on the first four classes; but no advance on the fifth and sixth.

Q. Will you please describe what is known as "Central Freight Association territory"? A. That covers, roughly, the territory west of Buffalo-Pittsburg line, which is the western boundary of the Trunk Line teritory, north of the Ohio river and east of Illinois and Indiana state line, and south of the Great Lakes.

Q. I will ask you, Mr. Perkins, if it is true that to and from Central Freight Association territory and East St. Louis, the old rates which had been in effect since 1877 were raised as follows:

First class .....½c per 100 lbs.
Second class .....½c per 100 lbs.
Third class .....½c per 100 lbs.
Fourth class .....½c per 100 lbs.

A. I think that is true, on part of them. That would cover only a part of them.

I will check those rates as I agreed to do the others, if you please.

On checking I find advances were one cent on the first and one-half of a cent on second, third and fourth; and no advance on fifth and sixth.

Q. These figures I have mentioned above, this increase in the rates on these different classes to and from the different territories, to-wit, the Trunk Line territory and the Central Freight Association territory, applies on all traffic originating in or consigned to all points in the one hundred and sixteen per cent freight rate group to and from eastern territory, and it also applies on all traffic to and from St. Louis proper, and on all traffic to and from all western territory passing through the so-called St. Louis gateway, which includes also Alton and Bixby, Illinois; isn't that true? A. Everything up and down the river.

Q. At the points named, Alton and Bixby, Illinois, and St. Louis, Missouri? A. Yes, that is true here and away up to East Burlington.

Q. There are some commodities, such as grain, hay, etc., upon which this arbitrary is not intended to be absorbed and on which it still exists, aren't there? A. There are still what are called "proportional rates" on grain and flour, to be adjusted.

Several meetings between the eastern and western lines in regard to that have been held and a final meeting was set for yesterday, which had to be postponed on account of the necessary absence of two or three traffic officials, but which will be held at an early date.

The delay in settling this matter of bridge charges on the proportional rates on grain and hay, or at least such of them as have not been settled, has been due largely to the attempt of western lines to dump over, to that extent, onto the eastern lines the payment of the bridge toll. That is, it has been partly due to that. However, that is now in a fair way of adjustment. It is pretty sure of adjustment as a compromise between the eastern and western lines.

Q. And it is a matter that will have to be adjusted between the traffic committees of the different asociations whose territory is affected? A. Well, these adjustments of course affect—well, it is like knocking down ten pins, when it starts it affects everybody in the country.

Q. When you or anyone states that the arbitrary has been absorbed, of course you always except the one hundred mile radius? A. Yes.

Q. And when you or anyone says it is absorbed, what is intended to be conveyed, that the charge for service between St. Louis, Missouri, and East St. Louis, Illinois, has been abolished, so far as being an independent and direct charge to the consignee or shipper, and that it is absorbed in the rate? A. That is also true within the one hundred mile limit.

In answer to this last question I would say that the whole territory is included in that, the one hundred mile limit and all. The only thing is that the rates between St. Louis and points within the one hundred mile limit are a certain amount higher than the rates between East St. Louis and those points. The through rate is published.

Q. In other words, the charge is still there, but it is included in the freight rate instead of being a separate charge? A. Yes. The idea of the Commission was to get it to a basis where there would be one rate, and then it would be a matter of showing whether that was a reasonable rate or not.

Q. To boil this whole thing down as I have gotten it through my head (whether correctly or not) isn't it a fact that with reference to this claimed absorption of the arbitrary at St. Louis, it is about as follows:

There was absorbed, or claimed to be absorbed:

First class, from one cent per hundred pounds.

Second class, from one cent per hundred pounds.

Third class, from one cent per hundred pounds.

Fourth class, from one and one-half cents per hundred pounds.

Fifth class, from one and one-half cents per hundred pounds.

Sixth class, from one and one-half cents per hundred pounds.

Commodities, from one to one and one-half cents per hundred pounds, on all-rail business.

A. No, sir; that is not a correct statement.

Q. You mean not correct as to the figures? A. The amounts absorbed are considerably larger than that.

Q. There is a discrepancy, you think, in the amount per hundred pounds that you want to investigate? A. I can say offhand that is not correct. The greater part of the business where it is first class business, where you state on account of readjustment of parts of one cent on the through rate, on through business where anywhere from four to ten cents per hundred pounds was being paid, and where a large proportion was being handled by the wagon transfer companies through their stations——

Q. But I am speaking of all-rail business? A. All-rail business into St. Louis?

Q. Yes? A. No, it would average very much higher than what you stated.

Q. Then will you investigate that and we will get it straight in the record so we can put the proper amounts in that question? A. I have already correctly stated that

the amounts absorbed on business coming into St. Louis by rail run from one to two cents per hundred pounds.

Q. Mr. Perkins, isn't it true that from the Trunk Line territory above named there was added to the rate to East St. Louis and all one hundred and sixteen per cent territory as follows:

First class .....1c per 100 lbs.
Second class .....1c per 100 lbs.
Third class .....1c per 100 lbs.

A. That is the question I was to check, isn't it?

Q. Yes. Now your answer will be yes, with the figures, corrected, as I understand it? A. Yes.

Q. Were added to the old rate? A. Yes.

Q. And the Trunk Line territory to East St. Louis, and all one hundred and sixteen per cent points rates were raised as follows:

Q. And isn't it true that on all traffic betwen East St. Louis and all one hundred and sixteen per cent rate points, that is to and from East St. Louis, and on all strictly Central Freight Association territory, the rates were raised about as follows:

First class ..... 1c per 100 lbs.
Second class .....½c per 100 lbs.
Third class .....½c per 100 lbs.
Fourth class .....½c per 100 lbs.

No advance on fifth and sixth.

A. Yes. There was no advance, however on rates between Chicago and East St. Louis or between Milwaukee and East St. Louis. The old East St. Louis rates in those cases and in territory based on those points, were applied as they were to St. Louis.

Of course, the car load traffic on which there were no advances is by far the largest part of the total.

Q. Mr. Perkins, you said, I believe, that you helped to

formulate the reports of the Municipal Bridge and Terminals Commission after you became associated with the Commission? A. Yes, I assisted in doing so.

Q. That would apply, then, to the last four reports that were made, wouldn't it? A. Yes.

Q. I will ask you if either one of these four reports mentioned this increase in the rates? A. I don't think we ever mentioned any rates in any of the reports except the coal rates.

Q. Mr. Perkins, I will ask you if you ever made an estimate of the number of millions of people whose railroad business would be affected by the increase of these freight rates over the old rates we have been discussing? A. No.

Q. Roughly speaking, it would affect, wouldn't it, the freight rates of all those people whose business passed through the St. Louis gateway, and which business was affected by the increased rate; and that would cover largely the territory to the south and west of St. Louis, wouldn't it, which we consider our trade territory by reason of the fact that our railroads carry their products to the market and carry to them in return largely what they use? A. Well, such increases as there were, were on less than car load classes.

Q. The commodity rate is a car load rate, isn't it? A. The commodity rates would have no connection with this. There have been some increases in commodity rates in different parts of the country.

Q. You will find that commodity rates were mentioned in some of these questions I have asked you? A. Where there were any increases they were made simply as the result of advances that were made in the rates to Chicago and other points. I don't know of any that was made in connection with the St. Louis adjustment. I cannot

think of any at the present time, but there may have been some.

Q. Isn't it a fact that this increase would affect a large part of the traffic that St. Louis had with the state of Illinois, and a large part of the traffic St. Louis had with all of the southeastern territory? A. Well, the amount would be very small. I have made an estimate on that. The whole thing would not amount to five per cent of the whole absorption involved.

Q. What do you mean by that? I do not understand your statement? A. I mean that where these advances on Trunk Line business and such points in the Central Freight Traffic Association as were involved, and on less than car load classes, were the only advances made, they would be probably considerably less than five per cent of the total amount absorbed.

Q. You mean that the increased freight rates on the through business would be less than five per cent of the amount absorbed on the local business? A. No, I am speaking, so far as St. Louis business is concerned, that the advances on those less than car load classes would be a good deal less than five per cent of the amount of bridge toll absorbed, or the amount of the arbitrary, if you wish to call it that.

Q. You have reference now to business which stops at St. Louis? A. Yes.

Q. I was not referring to that business? A. I have made no figures on the other.

Q. I thought you misapprehended my question:

I had reference to the business passing beyond St. Louis, using St. Louis as a gateway; and when I say, St. Louis as a gateway, I include business at Bixby, Illinois, and Alton, Illinois, which are a part of the St. Louis gateway; I was trying to ascertain if you had ever made any estimate of the number of people whose business would be affected by this

increase of rate if any was made? A. No, but that would be very small, however, because most of the business goes through here that could be affected by those classes, or the great part of it is rehandled at St. Louis.

The business that goes through is of course to a very great extent car load business. The business comes in here and is rehandled by our jobbing houses to the south and southwest.

I believe the Merchants Exchange figures show only a little over thirty per cent of the whole business handled is through business, and the rest of it is local business.

Q. Haven't you that turned around? A. No, I think not.

Q. Don't the figures show that the first four classes, which you say constitute a small proportion of the business, and on which the increases were made, amount to ten per cent of the total tonnage? A. I should not say so.

Q. If the figures as reported develop that fact, you have not estimated the classes in tonnage? A. Even with that figure I do not think the percentage I have given would be out of line, even allowing for your figure.

Q. You mean the percentage of St. Louis local business? A. Yes.

Q. But I had reference to the business that passes through St. Louis both ways, and the number of people affected by it, which would include all the local St. Louis business and all business from Illinois through St. Louis to the Southwest and from the Southwest to points in Illinois? A. It is very limited in those classes.

Q. Whatever it is in point of tonnage, it would affect the shipment of many millions of people, wouldn't it, because there are many millions of people who use St. Louis as a gateway for through business? A. If you meant it would affect to that extent, that is, to the extent of those highest classes on the Trunk Line territory one-half a cent

and one cent, the through rates into territory occupied by several millions of people, that would be true.

Q. That is just what I meant. That is true? A. But it would not, I think, affect the business in any way of very many thousand people or very many hundred people, appreciably.

Q. On whatever business belonging to these classes that they did, they would have to pay those increased rates, wouldn't they? A. To that extent, yes. A very small per cent.

Q. The fact is, that this arbitrary, be it large or small, was abolished on the traffic to and from St. Louis, a city of about seven hundred and fifty thousand people, and the rates were increased on a community of several million people on the classes named? A. Such increase of rates as was made was on an almost insignificant part of the total business.

Q. That does not exactly answer my question. I have asked you as to the number of people affected by the increase? A. To the extent of such increases as were made, the people making use of those rates in the territory west of St. Louis would be affected in the same way that the people of the city of St. Louis would be affected.

Q. The people east of St. Louis, in the same manner, too? A. In a very small division.

Q. I will ask you if it is not a fact that the rates have been increased on the first four classes, on all classes moving under those classes in the entire territory east of the Mississippi river to East St. Louis and all one hundred and sixteen per cent rate points in Illinois, and on all traffic, or the greater part of it, moving into the territory west and south of St. Louis, and conversely, from this territory west and south of St. Louis to all Central Freight Association and Trunk Line Association territory in the east, to-wit, the territory from the Mississippi river east to the Atlantic sea-

board, bounded on the north by the Great Lakes and roughly on the south by the Ohio river? A. I think not.

Q. If you think not, why do you think so? A. Because, for example, there was no increase in the class rates between East St. Louis and Chicago and Milwaukee and territory basing on those points; and because there was no advance in fourth class from Trunk Line territory to East St. Louis.

Q. I didn't fix any amount. I just said weren't the rates affected. I said haven't the rates been increased on the first four classes? A. You make your question too sweeping for me to answer yes. If you make your question so sweeping that it covers all that territory I will have to answer no, I don't think so. In fact, I can answer that I know it is not so.

But if you will say, a large part of that territory, I can answer the question yes. That is the difficulty, you see.

Q. Seventy-five per cent of it? A. I would not care to say what percentage until I checked it up.

Q. Can you check it up and find that fact is true by looking at the figures? A. Yes, roughly.

Q. Will you do that and put it in the record? A. Yes.

Q. Whatever that territory is, on both sides of the river, it includes many millions of people, doesn't it? A. It certainly does not on the east side. Yes, it would include territory occupied by several million people on the west side. The people in Western Missouri, Kansas, Nebraska and a part of Oklahoma.

On the other hand, people living within the one hundred mile radius west of here get the St. Louis benefit from these other reductions applying across the river. That is, the people living out at St. Charles, and Fayette and Moberly and such places as that, get the benefit of the remaining ninety-five reduction in the rates from the east applying to St. Louis. It has benefitted them very largely.

Take it just outside St. Louis, it would be much more

than an offset itself for the disadvantages from the advances on those three or four classes.

Q. I did not exactly catch the point in that last answer. The bridge arbitrary is still on that business within that one hundred mile radius west of St. Louis, and has been added to the freight rate simply?

A. When stuff is shipped into St. Louis and out of St. Louis——

Q. You mean eastward? A. Westward I am speaking of.

Q. If it stops within the one hundred mile radius the arbitrary is added to the freight rate, isn't it? A. No, not where it comes from or goes beyond that limit.

All these questions and answers for some little time have been referring to business that comes from or goes to points on the Trunk Line or Central Freight Traffic Association territory?

Q. Yes? A. Well, now, that does not cut any figure where that goes to points west of here, whether it goes to points twenty miles out of St. Louis or one thousand miles beyond St. Louis, as long as those rates from here applied to St. Louis, the St. Louis rates beyond that will apply, don't you see?

It is not like a shipment coming from within the one hundred mile radius to St. Louis, or going from a point within the one hundred mile radius to St. Louis, or going from a point within the one hundred mile radius west of East St. Louis. That is a different proposition.

Q. Didn't you say a while ago that on business one hundred miles west of St. Louis the arbitrary was still charged? A. The rates to East St. Louis are that much higher. They do not absorb the charges to East St. Louis in their rates from St. Charles, say, any more than they did before.

But this is the proposition: What is the rate from New York to St. Louis, plus the rate from St. Louis to St.

Charles? That is a different proposition from what is the rate from St. Charles to St. Louis as compared with the rate from St. Charles to East St. Louis.

Q. Yes, but if the shipment originates in New York and goes to St. Charles, is the bridge arbitrary added to the rate? A. No.

Q. If it originates in an Indiana city, is it? A. No.

Q. Then I did not understand you correctly, your statement a while ago, that on all goods destined to points within one hundred miles of St. Louis the bridge arbitrary was still added to the freight rate? A. That is entirely correct. We were speaking then of East St. Louis and St. Louis business. Now we are speaking about the through, long distance business.

Q. There would not be any arbitrary possible on business originating in St. Louis and destined to a point one hundred miles beyond St. Louis? A. Not at all. Bu that is a different proposition entirely.

Here are two things: The proposition we were talking about then was the basis of rates between St. Louis and points within one hundred miles and the rates between East St. Louis and points within the one hundred miles. Either way it does not cut any figure. The line is a very irregular one on the west side more than on the east side.

But the basis of rates between St. Louis and points within the one hundred mile radius east of here, is higher than between East St. Louis and those points, taken by itself.

The basis of rates between East St. Louis and the points within one hundred miles west of here is higher than the basis of rates between St. Louis and points west of here.

Now, however, when you come to a shipment from New York to points within a one hundred mile radius, or bringing a shipment from Kansas City to a point within the one hundred mile limit east of here, that cuts no figure; because a shipment coming from say Kansas City to St.

Louis has the same rate as a shipment coming from Kansis City to East St. Louis. So the combination of those rates, Kansas City to East St. Louis, plus the rate say East St. Louis to Belleville or O'Fallon or Cartersville, or any of those little towns around here, is on the lowest basis, that is, on the East St. Louis combination. There is no arbitrary in that, either way.

Just the same the rates from New York to St. Louis, take the lowest combination. That is the ruling of the Interstate Commerce Commission, as I understand it, that the rates must eventually be adjusted on the combination of the locals if there is not a lower through rate.

Q. Let me see if I understand your answer correctly: I understood you to say that the business of the people living within a radius of one hundred miles west of St. Louis, on shipments that originated beyond one hundred miles east of St. Louis, would equal by reason of this distance—the amount they would gain would equal the amount of the increase that might be made on the business of all the people affected by these increased rates on all through business that passes through St. Louis as a gateway, east and west? A. Well, it would go a long way towards it. I would not want to say positively whether it would equal it or not. It would require a little figuring to find out. But they get the benefit, as I say, of the ninety-five per cent or more reduction in the rates.

Q. Then this ninety-five per cent reduction on these four classes must amount to only five per cent of the business? A. Oh, not at all, because on these four classes you have a big reduction.

When you talk about these classes, and percentages, do you refer to tonnage or the value of the property?

Q. I am talking, Mr. Perkins, about the per cent of the tonnage and not about the amount of freight collected? A.

Yes, is comes right back to the same thing as tonnage, or the amount of freight collected on the tonnage.

Q. I prefer to deal with it from the standpoint of tonnage, because the matter of the classification in tonnage decreases or increases the revenue of a railroad very materially? A. Yes, except on these arbitrary rates, as far as the proportion handled across the river is concerned the variation of rates in different classes is very small. Most of them were one and one-half and two cents per hundred pounds; the variation, therefore, is very slight, as compared with the variation in the classified rates of the railroads.

Q. You have investigated the volume of this traffic, of course? A. Yes, I went through it carefully when we made these estimates.

Q. Do you know that it is a fact that the six classes of freight on which the absorption was made, or claimed to made, constituted forty per cent of the traffic? A. I could not say, offhand, as to that.

Q. Do you know that the first four of those classes constitute ten per cent of the traffic, in tonnage, and that they are the four upon which the rates were increased? A. Well, I should say not more than that. I would doubt if it would be ten per cent of the tonnage.

Q. My figures may be wrong, but those are my figures? A. I have not the percentages of the various classes in my head.

Q. To go back to the condition in 1893, when the Merchants Bridge Terminal Railway was refused connection at Gratiot street with the Terminal Railroad Association, I will ask you if you remember that at that time the Merchants Bridge Terminal Railway Company reached every railroad in East St. Louis and St. Louis, except the Terminal Railroad Association of St. Louis, the Missouri Pacific Railway in St. Louis and the Iron Mountain Railroad in St. Louis? A. No, it did not reach all the railroads in

East St. Louis, directly; but only through intermediate connections.

Q. It had connection so it was practical to use it, and it was used right along, wasn't it? A. To a very limited extent, by a part of the roads; hardly at all by part of the roads, according to my recollection.

Q. I will ask you if through the connections it had the Merchants Bridge Terminal Railroad Company did not reach every railroad in East St. Louis and St. Louis, prior to the connection at Gratiot street, except those I have mentioned, to-wit, the Missouri Pacific and the Iron Mountain Railroads and the Terminal Railroad Association? A. Not only every railroad in East St. Louis, but also those you have mentioned.

Q. Prior to 1893? A. Yes, at that time. At the beginning of 1893 it reached, through its connections, everything.

Q. You are familiar with the location of the Interstate Car and Transfer Company before its absorption by the Terminal Railroad Association of St. Louis? A. Yes.

Q. I will ask you if it did not operate in connection with the Belt Line known as the Venice and Carondelet Belt Railroad, and through that connection made a complete belt reaching every railroad in East St. Louis; and didn't it connect with every railroad in St. Louis, Missouri, except the Frisco? A. No, it had no connection whatever with the Wabash Railroad. It connected simply with the Burlington and the Iron Mountain; that is all in St. Louis.

Q. It connected with the St. Louis Transfer Railway, didn't it? A. No.

Q. Through its connections with the Burlington and the Iron Mountain it had access to and was made use of by all the railroads, wasn't it? A. Yes, to some extent.

Q. And it was used to such an extent by the railroads that it did a large volume of business backward and forward between East St. Louis and St. Louis, across the river,

in freight service, did it not? A. It did quite a volume of business; not a large proportion of the total, but still quite a large business.

Q. I will ask you, Mr. Perkins, if the Wiggins Ferry Company, the Terminal Railroad Association and the Merchants Bridge Terminal Railroad were not all of them, prior to the consolidation in 1902, gradually extending their facilities on both sides of the river, for the handling of freight? A. I should say that the Merchants Bridge Terminal Company for some little time before that was doing practically nothing at all. The Wiggins Ferry Company had built its St. Louis Transfer Railway in 1889 and 1890. The Terminal Railroad Association was, in the period subsequent to 1890, doing quite a good deal in the way of extensions. I should say that is a pretty limited time to apply such a question to, because the terminal facilities of the Wiggins Ferry Company on this side of the river—that is, the St. Louis Transfer Railway—and the terminal facilities of the Merchants Bridge Terminal Railroad were comparatively new. They had been built prior to that time, both of them, but not very long prior to that time.

Q. Isn't it true that in 1893 the Terminal Railroad Association of St. Louis had no property north of Washington avenue, in the way of terminal facilities? A. Yes.

Q. What road or roads does the Terminal Railroad Association connect directly with, that are not reached by the Merchants Bridge Terminal Railway Company, the Wiggins Ferry, or either of them, in St. Louis, Missouri? A. Only the Frisco and the Colorado roads, I think.

Q. The Colorado has no line into the city limits at all, has it? A. It has a lease for using the Wabash Union Depot line.

Q. Its line ends at Forsythe Station, doesn't it? A. I should, on the other hand, include the M., K. & T. cer-

tainly as a St. Louis line, and that has no tracks of its own this side of Texas Junction. But through its lease of the Burlington property it connects with the Wiggins Ferry and connects with the Merchants Bridge Terminal. I think you would have to say that the Colorado, or Rock Island road it is now, is a road coming into St. Louis, because it has a right to the use of those tracks.

Q. You say the Colorado and the Frisco? A. Yes.

Q. You spoke about a belt line of railway that ran around to the north and west part of the city, belonging to the Terminal Railroad Association; doesn't that belong to the Merchants Bridge Terminal Railroad? A. No, only a small part of the right of way near it. That is a combination of two or three different belt propositions; they tried to figure out when they actually got to work, the best combination, and made it. A large part of it was what was called the Central Belt Company.

Q. It was built under ordinance No. 14708, wasn't it? A. I cannot say offhand the number of the ordinance. I have not the slightest idea what the number is.

Q. Is this true: That there is not a single industry located on the tracks of the Terminal Railroad Asociation, west of Union Station, except coal switches? A. No. My recollection is there are a few others.

Q. What are they, on the tracks of the Terminal Railroad Association? A. Of course there is that quarry at Montrose avenue.

Q. Is that on the Terminal Railroad Association's tracks? A. Yes.

Q. On the north side? A. Yes. There are industries in east of there, too. I cannot think of the names of them just now.

Q. If there are any, they are just a few? Most of them are located on the individual tracks of the Missouri Pacific and the Frisco, are they not? A. In the Mill Creek Valley?

Q. Yes? A. They are mainly located on the Missouri Pacific, Frisco and Wabash, and some on the Merchants Bridge Terminal; they are scattered all around.

Q. Mostly on the individual roads, though? A. Mostly further west than the Terminal Railroad Association goes.

Q. To go back to the operation of the lines before they were consolidated, do you know whether or not it is a fact that coal was delivered in St. Louis by the Merchants Bridge Terminal Railroad, prior to 1893, and prior to the acquisition of the Merchants Bridge by the Terminal Railroad Association, cheaper than it has been ever since? A. No, except that I have been told by coal operators that they made some contracts during their coal wars there——

The Commissioner: The question is whether you know. A. No. I don't know.

Mr. Crow: Do you know that the rates were very much lower during the period the Merchants Bridge Terminal Railroad was operated, prior to 1893, as an independent company, than they have been since, on almost all the different classes of freight and commodities? A. No, I cannot say offhand that I know it.

Q. Is it true that they were? A. I said I don't know.

Q. Do you know whether or not stock was handled from connections of the other roads, besides the Terminal Railroad Association, in Mill Creek Valley, to the National Stock Yards in East St. Louis, prior to 1893, and prior to the time of the connection at Gratiot street, for less money than it has ever been handled since that time? A. No, I don't know that.

Q. You have no knowledge of that? A. No, sir.

Q. Mr. Perkins, how many systems of railroads are there that go into the city of Philadelphia? A. The Pennsylvania, the Baltimore and Ohio, the Philadelphia and Reading. I think the Lehigh Valley gets in there by a trackage

arrangement. My recollection is it does not get in there over its own rails.

Q. Those are all? A. That is all I can think of just now.

Q. The Reading is owned by the Pennsylvania, or controlled by it—or it is so understood? A. I don't understand so.

Q. Each of those three roads, the Reading, the Baltimore and Ohio and the Pennsylvania, have separate entrances into Philadelphia? A. Yes.

Q. They have separate freight yards and separate tracks? A. Yes.

Q. Now, isn't it true that within the last year or two, or three or four years at least, these roads in Philadelphia have spent a large amount of money in improving their individual terminal facilities? A. The Pennsylvania Company spent a very large amount of money in the elevation of its tracks, improving its terminal facilities and providing a very wonderful arrangement to avoid grade crossing of tracks, with the tracks of its different divisions.

Q. Mr. Perkins, isn't it true that all of the railroads having access to the city of Chicago, or nearly all of them, have separate entrances, and mostly double tracks, to start from stations independent of each other? A. Well, that is true to a considerable extent. They come in in groups, you might say. The passenger facilities are in six groups, is my recollection. The freight facilities, however, are pretty generally distinct for the individual railroads, to a very large extent. There are several belt lines which do business for them all. The freight houses are, as a general thing, distinct—that is, for all the principal individual railroads.

Q. Mr. Perkins, in your testimony in chief you stated that the mayor of Kansas City, or a committee representing the municipality up there, had come down to St. Louis and investigated this terminal question, with a view of

putting a similar plan in operation in Kansas City, when the new terminals were built:

I will ask you if it is not a fact that when Mayor Beardsley returned to Kansas City he reported against such a system of unified terminals, as we have here? A. I don't know what he reported. He came to see me several times, and talked over what ought to be the provisions of an ordinance for such purpose. I thought we agreed very well about it, but I don't know what he finally did.

Q. You never saw the ordinance that they submitted to the people up there? A. I saw a short outline of the original ordinance. I don't know what was finally done by Mayor Beardsley about it, although he promised to let me have a copy of what he was going to propose; but I never received it.

Q. Did you ever see a copy of the ordinance which they were going to submit to be voted upon—you know according to their charter they have to vote on that? A. I don't know that I ever saw that, or any.

Q. You don't know that there was a clause that all switching done should be done so that they should be absolutely independent of any unified system? A. No, I did not know whether there was or not.

Q. You spoke of Washington City as a place having unified terminals: I will ask you if it is not a fact that there were formerly two passenger stations in Washington, both of which were east of Pennsylvania avenue, in the Potomac Flats? A. I would not say that the Pennsylvania station was in what you would call flats.

Q. You locate it. I thought it was, but I may be wrong about that; I don't mean the present, but the old station. A. I know what you mean. I can not say what you cover by the term "flats;" perhaps you are more familiar with the history of Washington than I am.

Q. Both stations were east of Pennsylvania avenue, were they not? A. That is my recollection.

Q. The tracks of both those stations crossed the public grounds of the government in Washington City, did they not? A. Yes.

Q. And those public grounds were very much disfigured by those tracks, were they not? A. Yes.

Q. Topographically speaking, it is impossible for any railroad to enter Washington except from the east side of Pennsylvania avenue, in the lower ground? A. I can not say as to that, offhand.

Q. We will pass that, then.

Mr. Perkins, is it not true that when the Pennsylvania railroad proposed to erect a new station, some eight or ten years ago, on the site of the old station in Washington, the government refused to consent to it, it being government property, unless both roads, the Baltimore & Ohio and the Pennsylvania, should join in the erection of a new station and remove their tracks from crossing the public grounds? A. I think that was the case—it certainly should have been.

Q. And on account of the great expense involved in removing those tracks from the public grounds, an appropriation was made on the part of the government to help them; and was it not specially provided in that appropriation that no other passenger station should be erected in the city, and that any other railroad should be authorized to use that new station? A. Yes, I think that is part of the law. I read it over.

Q. The Washington Union Station was erected solely for the purpose of handling passenger traffic? A. Yes.

Q. That had nothing to do with freight traffic at all? A. No.

Q. Washington itself is not a manufacturing city, is it? A. No.

Q. It has no freight tonnage of any consequence in

proportion to its population, has it? A. No, I should say not.

Q. Therefore, the question of freight terminals would be secondary, as applicable to Washington City, would it not? A. Yes.

Q. You spoke of Paris, and of the terminals there, in your direct examination.

I will ask you if it is not a fact that each of the seven roads entering Paris has its own special passenger station, at which and from which all of its own passenger trains enter and depart? A. Yes.

Q. And has not each of the seven roads entering Paris also its own individual freight station? A. Yes.

Q. Does not each road handle at its own station, with its own locomotives and cars, all of its own freight and passenger traffic? A. Directly into and out of the city?

Q. Yes. A. I should have to modify my previous answer, by saying that while each road has its freight station, business from any of the roads can go to any of the freight stations of any of the seven other roads.

Q. By the use of the Belt Line? A. Yes. That Belt Line is jointly owned.

Q. That does not change the fact in your first answer, that each one did have its individual freight station? A. Yes, it has, and should have.

Q. The belt lines, both inner and outer, are used solely to transfer freight and passengers from one road to another, are they not? A. No; the outer belt is also used for local trains on the belt, pure and simple.

Q. By "local" trains, you mean in the sense of being suburban trains in and out of the city? A. Yes, going around to suburban points.

Q. That is for passenger business? A. Yes.

Q. Isn't it a fact that there is no control by individual

roads over the business of the Belt Line? A. On the other hand, the individual roads control the Belt Line.

Q. But answer my question. There is no control over the business of the individual roads by the management of the Belt Line in Paris, is there? A. Not that I know of, no.

Q. And there is no attempt made to control the operations of the individual roads by the Belt Line; and there is no attempt to interfere with the separate terminals or freight facilities of the individual lines? A. I shall have to say I don't know to that question. I don't know of any.

Q. Who made the maps of Berlin and Paris, offered in evidence in this case? Who made the copies? A. I think J. W. Steele & Company printed them. Those copies were simply torn out of the Railway Club's printed proceedings. I got the originals abroad.

Q. Do you know the purpose for which the Staatbahn was originally built in Berlin? A. That was an elevated structure, and I think was originally made largely to take care of suburban service.

Q. Isn't it a fact it was built by the government and was originally intended as a military measure, to facilitate the handling of troops in Berlin, which was the largest garrison center in Germany? A. To the same extent that might be said of a great many other government stations and railroads. With great many of the railroad stations that was kept especially in mind when they were built; the matter of transporting troops with great rapidity. But I do not know that was true of the Staatsbahn; I don't believe it was, but I can not say that I know. I don't think it was, though; I can not see that that factor would control it to any greater extent than any other.

Q. Isn't it true that the Ringbahn connects with everything entering Berlin, a little outside of the city? A. Yes.

Q. And this Ringbahn has business that consists almost

entirely of transferring freight from one road to another? A. Yes.

Q. Isn't it true that almost all of the eight roads entering Berlin are owned by the Prussian government, and that each has its own individual terminal? A. Yes. But as I said, all available for every road entering Berlin. Every one could send its freight to each one of these individual stations around the town.

Q. By paying the charges? A. It is simply one, through, distance rate. There is no arbitrary charge. It is simply a through shipment rate from the point of shipment to the point of destination. The distance tariffs provided by the German government provide that on a shipment going to one station five miles further off than the other, that is the rate applied. It simply means that the distance tariff rate is charged for the actual distance travelled, whatever that may be.

Q. The freight rate in Germany includes the delivery to the consignee, as a rule? A. No.

Q. It does not? A. No; but a very small part of the business is delivered by the railroads to the consignees; hardly any of it, except in the case of delayed shipments, or something of that kind.

Q. These roads are operated, although practically under one ownership, as separate roads, are they not? A. About nine-tenths of them are controlled by the government.

Q. By the Prussian government, not German? A. The Prussian State Railroads. There are Prussian government roads, and the roads of other principalities.

Q. None but the Prussian government own them? A. At Berlin?

Q. Yes. A. That is true at Berlin, yes.

Q. I am talking about Berlin. A. But they have a general Prussian Board of Railroad Management, which has charge of the whole; and then they have their own individ-

ual managements beside. But they are all under one general control.

Q. They are enabled to use the terminals there jointly, by reason of the nature of the ownership of the roads and the control of them by the government? A. I should hardly say that was necessarily the result of the ownership. Perhaps it is a result of the control of the roads, because the same condition, as I explained, exists at Paris, where almost all of them are private roads.

Q. With the right in the government to purchase, which right the government is now exercising, is it not? A. Only to a small extent.

Q. Isn't it true, Mr. Perkins, of every railroad that has been built in France, that the French Government has always retained the right to purchase, on certain terms named in the charter? A. I understood you to say they were purchasing them.

Q. From time to time, to purchase. A. The government has been purchasing only to a very small extent.

I understand they have a right to purchase, but I don't think that is their present policy—if that is part of the answer—I have a pretty definite idea of what their policy is from talking to the different railroad managers.

Q. I believe in the report to the Municipal Assembly of June 1, 1906, on pages 1 and 2, it is stated that a reduction by reason of the absorption of the bridge arbitrary in the rates to St. Louis would save the people of St. Louis about eight million dollars per year, or about seventy per cent of the total amount of business to and from eastern points beyond the one hundred mile radius from St. Louis? A. No, the report says eight hundred thousand, not eight million.

Q. Now I will ask you, Mr. Perkins, if you had anything to do with the compilation of the figures upon which that statement was based? A. Yes.

Q. How did you arrive at that estimate? A. It was arrived at by getting up carefully, from all sources, the tonnage of each class of freight for the year.

Q. Where did you get that from, the tonnage of each class of freight? A. By the different railroads and the Terminal Railroad Association and by the transfer companies.

Q. They furnished it, did they? A. It was furnished from different sources, different parts of the information were furnished by different sources. It was a pretty long and elaborate computation, and was checked in several different ways, so as to be pretty sure it was approximately correct.

Q. Isn't it true, Mr. Perkins, that to begin with you had to have the tonnage, before you could make such figures? That was the basis. You had to have the tonnage of the different classes of freight? A. We had to have the tonnage and we had to have the earnings of the different Terminal Railroad Association properties, and of the Transfer Company properties, and so forth, on these different classes of freight handled; and there was a good deal of work gone through to dig that up and separate it for a year.

Q. Did you also get the tonnage for the through business, from the different railroads? A. We did, but that was not taken into account in this compilation.

Q. I am not talking about that. But you got it? A. I think we had the through tonnage.

Q. Have you those figures still, for the through tonnage, and the figures for the tonnage on which you arrived at this compilation as to the individual classes of freight? A. It is possible all this memoranda is in the files of the Municipal Bridge & Terminals Commission.

Q. You think it could be found there? A. I think most of it could. I can not say now whether all of it could or not. There was a tremendous amount of miscellaneous

figuring done, and the compiling of different figures together; and when we got the totals and checked them and felt sure we were right, I don't know that we kept all the memoranda. I can not say now whether they will all be there or not.

Q. Later on, another statement was made in one of those reports, that in round numbers two million dollars had been saved to the people of St. Louis by reason of the claimed absorption of the Bridge Arbitrary; I will ask you if you had occasion to assist in the compiling of those figures? A. I did.

Q. In your judgment the statement in both instances, the million and the two million, are correct, or as nearly so as it could be approximated? A. Eight hundred thousand was the first figure; not eight millions. The eight hundred thousand and the two millions are, in my judgment, approximately correct.

Q. And this resulted solely from the removal of the independent charge that had been theretofore made for the service of transporting freight traffic across the river at St. Louis, Missouri, from East St. Louis, Illinois, and Madison, and Granite City, Illinois, to St. Louis, Missouri? A. Yes. The latter figure, of course, is based on a very much greater tonnage than the first figure and on absorption of the rest of the arbitraries. It was intended for what would approximately be the saving from that time on, on the volume of expected business, compared with the 1907 business.

Q. In your view, as adviser to the Commission and as a railroad man, the reduction was proper and reasonable, in the charge on the St. Louis business, for the whole? A. We certainly maintained as strongly as we could that it was.

Q. I say, that is your opinion? A. My opinion is that the same basis of rate should be applied there.

I will have to say that I think in some cases it hit some

of the roads pretty hard to have to do it; but the basis of rates established I believe to be reasonable and just.

Q. Taking everything into consideration? A. Taking everything into consideration. But I think it is only fair to say, and I don't think I will prejudice anything in saying, that some of the roads on some of the rates were hit pretty hard in doing it.

Q. Taking into consideration everything prior to that, the rates theretofore charged were unreasonable for the service rendered to the extent that they have now been reduced? A. I don't think I could answer the question as to whether the rates in themselves were reasonable or unreasonable. I think the adjustment was unreasonable. I will say that. I can not go further than to say that.

To say the schedule of rates in effect to St. Louis, if you take the whole charge, was reasonable or unreasonable, is getting into pretty deep water, as you know.

But I will say the adjustment of it was unreasonable, as between St. Louis and East St. Louis.

Q. There is but one other question I want to deal with, Mr. Perkins, and I think by going over my memoranda at the recess I can facilitate matters.

At this point, by consent, an adjournment was taken to tomorrow, Thursday, May 21, 1908, at half past nine o'clock in the forenoon.

St. Louis Mo., May 21, 1908.

Met pursuant to adjournment as above, on Thursday, May 21, 1908, at 9:30 a. m., at the office of the Special Commissioner in the Roe Building, St. Louis, Missouri.

Present : Honorable R. E. Rombauer, Special Commissioner.

Messrs. E. C. Crow and Chester H. Krum appeared in behalf of the Government.

Mr. M. F. Watts appeared in behalf of the Defendant.

The following proceedings were had:

CROSS-EXAMINATION BY MR. E. C. CROW.

ALBERT T. PERKINS continued:

Q. Mr. Perkins, I would like to get you to define, if you will, the use to which team tracks are put. I believe that has not been put clearly in the record as yet. A. So-called team tracks are tracks provided for the purpose of placing freight cars at roadways for the loading or unloading of those cars by teams.

Q. And these team tracks are necessary to be used in the everyday business of transporting freight traffic, are they? A. On such tracks part of the miscellaneous car load business of the city is handled.

Q. Is any of the less than car load business, to any extent at all, handled on team tracks? A. Only as a temporary makeshift. There is some business handled by the Illinois Central, and occasionally some of the other roads at Eleventh street for want of sufficient room for the present setting of cars at the platforms there.

Q. Ordinarily it is true that the less than car load business can be handled from a railroad standpoint better at freight houses and platforms? A. Yes, that is the desirable thing from the point of view of all concerned.

Q. I believe you stated in your direct examination, or somewhere in the cross-examination, that prior to 1905 the western lines absorbed the charges known as the "arbitray" for the haul across the river between East St. Louis, Illinois, and St. Louis, Missouri, on through business? A. Yes, on through business to and from points outside approximately the one hundred mile limit.

Q. Mr. Perkins, I will ask you if you had occasion to investigate for some years prior to 1905 the rate on coal

from the Illinois coal fields into St. Louis, Missouri, and East St. Louis, Illinois? A. I have looked up the figures from time to time. They have gone up and down. I could not give you figures out of my head for any one special period.

Q. I will ask you whether or not you know it is a fact that last year, say 1907, there was about 8,000,000 tons in round figures, of coal shipped into East St. Louis; the actual figures are 8,600,000 tons for 1907? A. I have those figures in my desk for 1906 and 1907. The total amount of coal of all kinds brought into St. Louis in 1907?

Q. I said East St. Louis. A. St. Louis or East St. Louis, the figures are all lumped for the district, East St. Louis and St. Louis.

Q. That is, in your figures, in your report? A. Yes. The total amount brought into East St. Louis and St. Louis altogether, of all kinds of coal, is a little over 8,000,000 tons in 1907.

Q. You mean by that soft coal? A. Every kind of coal.

Q. You mean anthracite coal? A. Yes.

Q. How much? A. A little over 8,000,000 tons in 1907.

Q. Do you know whether or not it is a fact that at least 7,000,000 tons of soft coal comes to St. Louis and East St. Louis from within a distance of forty miles of St. Louis? A. I should not be able to divide it offhand, as between the different groups of mines. There are several groups. Those figures can all be had.

Q. That is a matter you did investigate, the extent of the haul? A. Oh, yes; I have memorandum about that somewhere.

Q. It is a short haul, isn't it, from the railroad standpoint? A. Oh, eys; the most of the soft coal is a short haul.

Q. In the report of the Mayor's Commission, in Volume 2, pages 4 and 5, you will find attention is called to the re-

duction of what is known as the coal arbitrary: I will ask you in the first place what was the arbitrary charge on coal for the haul across the river from the east side to the west side, prior to 1905? A. That rate was thirty cents per ton, except that on certain business for the railroads themselves a rate of twenty cents per ton was made. That is, two rates were provided in their tariffs.

Q. That is, for coal to be used by the railroad companies west of the river for their own purposes? A. Yes, and on some of the through business, for certain reasons, the rate was twenty cents per ton. That was covered by their tariffs.

Q. In the report I refer to attention is called to the so-called reduction in the coal arbitrary, in which it is said that ten cents has been removed from that charge, and that about two hundred and forty thousand dollars has been saved to the people of St. Louis by virtue of that reduction:

I will ask you if you went over those figures before that report was published? A. I did. I don't think they should be called "so-called figures," because they are figures.

Q. I didn't say "so-called figures;" I said "so-called absorption."

Do you know what the minimum rate on coal was from the coal mines of Illinois to East St. Louis on the first of January, 1906? A. I cannot say offhand what it was then. It had gone up and down at different times in the past, in an extremely irregular way, for the last twenty years.

Q. You say it had gone up frequently and had gone down frequently? A. Yes.

Q. Did you ever investigate those tariffs for a series of years to see what the changes had been, and if they were frequent? A. Yes, I looked them up.

Q. Don't you know that during 1895 and up into 1896 there was but one change in that tariff, and that was from the twenty-five-cent rate to the thirty-five-cent rate? A. No, sir; I do not think that is correct.

Q. Would you undertake to say how many changes were made in that, from your recollection? A. No, sir. All I can say is that there were quite a number.

Q. Do you know from your examination that from 1895 to 1905 the rate was practically stationary at twenty-five cents for the minimum haul? A. No.

Q. What was it for the minimum haul? A. Various rates.

Q. Mention some of them for the minimum haul? A. I had a memorandum of those rates. I would not care to state the exact figures for the minimum, because I do not recollect it right now, for special periods. There were times when it was much less than twenty-five cents. They got it down to a small rate per car, at one time.

Q. When was that? A. I don't remember the exact date.

Q. That was a great many years ago, wasn't it? A. No.

Q. Do you refer to the cut that was made in 1905, when the rate ran down to fifteen cents? A. No.

Q. What cut do you refer to, and what road made it, if it was not made over eighteen years ago? A. All these different roads were making these cuts and advances in rates at different times during that whole period, subsequent to 1895—is that the date you mention?

Q. Don't you know that the record in this case shows there was a coal traffic association in St. Louis that fixed those rates and maintained them? A. I don't know what the record shows about that. I will make my own statement independently of that, because the fact is rates were changing.

The Coal Traffic Association did not always hold together very well. The Coal Traffic Association was never able, until the pressure for absolute maintenance of rates everywhere that has gone on for the last three or four years, as you know, has put it into such shape that the Coal Traffic Association's arrangements can not be broken. But it was

going up and down and the Coal Traffic Association could not hold the coal-carrying roads and the coal-owning roads together.

I happen to know pretty clearly what I am talking about in that respect, because I have talked with the coal-carrying and coal-owning roads about that situation.

Q. I will ask you if it is not a fact that during the principal part of the time in 1895, 1896 and 1897, the coal rate for the minimum haul from the coal fields of Illinois to East St. Louis was twenty-five cents per ton? A. I don't think so. As I have stated, I can not say positively for any one year, offhand, what the rate was except in a general way.

Q. Just your general recollection?

I will ask you if during 1897 and 1898 it was not twenty-five cents per ton? A. My same answer will apply there.

Q. I will ask you if you do not know it is a fact, if you investigated the question, that a million tons of coal were contracted for at the rate of twenty-five cents per ton during the years 1905-6-7, by the various railroads for various periods, covering from one to five years? A. I don't know.

Q. I will ask you if it is not a fact that in June, 1906, the coal rate on the minimum haul, from the Illinois coal fields to East St. Louis was not twenty-five cents per ton? A. I don't remember. I can not say.

Q. Did you investigate to find out whether or not in 1906 it had been raised from twenty-five cents to forty cents? A. Yes, as I said, I looked up these coal rates for a long period, from time to time, and I simply reply to your question that I do not recollect what they were at any one special time, and I can not give you the rates offhand.

Q. About June or July, 1906, was not the rate for the minimum haul from the Illinois coal mines to East St. Louis raised from twenty-five to forty cents? A. Approximately

that. Yes. That had nothing to do whatever with this charge for the haul across the river.

Q. That is your opinion about it, you know. A. I had quite a good deal to do with it, and I know that positively.

Q. You say the ten cents had been absorbed on this charge across the river? A. Yes.

Q. I will ask you, in 1906, the rate being increased to forty cents, what was the total minimum cost on the haul of coal from the Illinois coal fields to St. Louis? A. Sixty cents.

Q. When was this "so-called absorption" made on this haul of coal across the river, reducing it from thirty to twenty cents? A. I don't remember whether I gave the date of that or not.

I remember the proofs for the through tariffs were published to be in effect on June 15, 1906. I don't remember whether in filing those tariffs with the Interstate Commerce Commission there had to be any modification of that date or not. But that was the date the proofs of the tariffs originally read, according to my report here.

Q. It showed a reduction from thirty to twenty cents per ton? A. That had been arranged a little prior to that time. I can not say the exact date, but at any rate it had been arranged in time for—That reduction on the Terminal Railroad Association tracks alone had been aranged some little time before that.

Q. I am not talking about a switching arrangement. A. No. I say the proportion the Terminal Railroad Association received for its service was cut down some time prior to that, to three cents per ton less than the Illinois Commissioners' rating for two miles, to cover deliveries on all the Terminal Railroad Association properties. That was cut down to a very low figure.

Q. I am talking about the reduction from thirty cents to twenty cents per ton on the bridge arbitrary. A. That is

what I am talking about now. This charge had, some little time previous to the publication of the through tariffs on coal, been cut down from thirty cents to twenty cents for deliveries on simply the tracks of the Terminal Railroad Association, or for deliveries to other roads.

Q. I am asking simply about the transfer across the river. The delivery to the other roads is a switching proposition which we will come to a little later. A. There was no separation of the charge for transferring across the river, furnishing the switching and furnishing the delivery track; probably if the charge across the river was divided up it would amount to only half of that.

Q. In your report they take credit for the fact that they had reduced ten cents on the "arbitrary" across the river, and that would save Two Hundred and Forty Thousand Dollars to the people of St. Louis. A. The Commission say that had been reduced. They do not take any credit for that, that I know of. In fact, I don't know that the Commission have tried especially to take any credit for anything. They were willing to let the results of their work stand for themselves.

Q. They state that fact, don't they? A. Yes.

Q. They did not say anything about the Illinois Railroad Commission rates, etc. They simply put the fact plainly before the people that that rate had been reduced ten cents a ton—and that was a fact, wasn't it? A. Yes.

Q. You say the rate was increased about that time, 1906, on the minimum haul from the coal fields of Illinois to East St. Louis, from twenty-five cents per ton to forty cents per ton, fifteen cents, or five cents a ton more than the reduction of the bridge arbitrary; and that fifteen cents rate applied on all coal coming into East St. Louis, whether it came to St. Louis, Missouri, or not? A. Yes.

Q. Did you ever investigate the figures to find out what proportion of the coal remained in East St. Louis that came

from the Illinois coal fields into East St. Louis. Of course, I am talking now all the time about soft coal, and I suppose you are? A. I think so, roughly. I can not say now what it was.

The situation is this, as I have explained before: A large part of the coal is handled by strictly coal roads that are owned by the coal companies—

Q. We will come to that question a little later. I want to get through with you and I know you want to get through. A. I want to explain my answers so you will know what they mean.

Q. When was the additional two cents per ton for the minimum haul from the Illinois coal fields to East St. Louis added to the forty cent rate, if you know? A. The additional two cents per ton?

Q. Yes, for the minimum haul from the Illinois coal fields to East St. Louis. A. I don't remember.

Q. Can you say it was the year 1907? Wasn't it then or the latter part of 1906? A. I really could not. I haven't paid any attention to that.

Q. It is since the Commission has been in operation, isn't it? A. Well, I think the minimum was simply lined up at one time on the basis of the Illinois Commissioners' tariff for the minimum distance. I can not say at what date that was done.

Q. The minimum rate now from the Illinois coal fields to East St. Louis is forty-two cents per ton on that coal, isn't it, and it has been for a year or two? A. I think that is the rate, either forty or forty-two cents.

Q. Did you ever make a calculation on the basis of the present tonnage, of about eight million six hundred thousand tons last year of soft coal into East St. Louis, to determine how much in dollars and cents the fifteen cents and the two cents increase over what the minimum rate was from Illinois coal fields to East St. Louis in 1906 would give

to the railroads as revenue? A. Well, that by no means applied on all that coal. All that coal did not come from those fields; and further than that, that is strictly a matter for the Illinois State Railroad Commission to deal with. We have nothing to do with that.

Q. That does not answer my question. Did you ever make that calculation? A. No.

Q. If there was an increase of seventeen cents on the eight million six hundred thousand tons, about what would it amount to, roughly?

Mr. Watts: You can multiply that, or the Court can multiply that.

Mr. Crow: He is an expert.

A. I don't care to have that put in as my testimony. This is purely a suppositious case. I have answered that in my opinion it is not a correctly stated case, and not a matter of fact.

Q. The seventeen cents increase was made, wasn't it, in May, 1906, on all coal and the minimum rate was increased from twenty-five cents to forty-two cents? A. I have already testified that the minimum rate was increased, but not on that amount of coal?

Q. Wasn't the rate increased to forty-two cents? A. My recollection is that that was the final figure. Not at that time, though. As I say, I don't remember the date, but I think it was to be the Illinois State Railroad Commissioner's rate from the nearest mines to East St. Louis. What is called the "inner" group of rates was put on the Illinois State Railroad Commissioners' soft coal rate from the nearest coal mine in that group to East St. Louis, and the whole group was given the benefit of that rate, which the Illinois State Railroad Commissioners are supposed to have provided as in their own minds, a reasonably low rate. Now that is the whole situation. Further than that, all we have said is in connection with the reduction of the addition

to that rate from East St. Louis into St. Louis, and the advances from the coal mines to East St. Louis have absolutely nothing to do with that, because they were brought about mainly by, or very largely by the coal carrying roads, which had no interest in what the charge was from East St. Louis —they care nothing about it, and do not care whether that is ten cents or ten dollars.

Q. How do you know it was brought about by that? A. I know that from talking with the coal carrying roads when it was done, and anybody with common sense could see that is how it must have been done. It is just a piece of common sense observation of railroads.

Q. That the short coal carrying roads could raise the rates? A. Yes. The coal miners have had more to do with that than the railroads. The coal miners are the people who control that, because they control at least two of the largest coal carrying roads in East St. Louis. They are simply coal carrying roads and nothing else, and the others have to meet their competition.

Then when it comes to figuring what rates they make, the trunk roads of course have got to put their own miners on a basis where they can compete, if they want the business as against the strictly coal roads.

Q. After all, this is true, isn't it: On whatever soft coal was hauled and is now hauled to St. Louis from the Illinois coal mines, the minimum rate has been increased since May or June, 1906, from twenty-five cents to forty-two cents per ton? A. It has been increased from the rate in effect at that time.

As I have said, that rate has gone up and down, some times higher and some times lower, for many years.

Q. Isn't it true that the increase was seventeen cents per ton on that large volume of tonnage of soft coal from the coal mines of Illinois to East St. Louis, and that it adds a very large revenue to that received prior to 1906 by the

railroads carrying coal into East St. Louis? A. Yes. It adds a part of that revenue to the rates coming into East St. Louis. Those roads, however, have been absorbing out of that, since that time, the switching charges on the west side of the river to an extent which they had not done before, as explained in the report of the Commission.

Q. We will get to that later. The seventeen cents a ton on all of the soft coal that came into East St. Louis from the Illinois coal mines would, as a matter of dollars and cents, exceed the ten cents reduction on the arbitrary for all of the soft coal that came over the river from the Illinois mines, wouldn't it? A. I haven't figured that. I don't know whether it would or not.

Q. Why don't you know whether it would or not? Does it require a calculation to determine that proposition? A. Yes, sir, it requires quite an elaborate figuring to find out where the coal comes from and so on.

Q. I said from the coal fields of Illinois.

At this point the previous question is read to the witness.

A. From the two nearby groups of Illinois mines?

Q. I will say from all the Illinois mines? A. No, I would not answer it that way, all Illinois mines, but from the two nearby groups of Illinois mines. I will answer it that way.

Q. Did you ever make any investigation to enable you to determine whether or not it is true that eighty per cent of the soft coal that comes into East St. Louis and St. Louis, Missouri, comes from within a radius of forty miles of East St. Louis? A. No, sir. I can not say that.

Q. Oh, yes, I remember now, you said you had not investigated that. A. I want to answer your questions as well as I can, but I wish to explain that I do not want to answer as to a computation of that sort. For instance, in the newspapers this morning, and other days, they take some

little item like that and say that I state it for a fact, no matter what the supposition might be.

Q. Of course you want to be careful. I simply want facts.

The sixty-two cent minimum rate from the Illinois coal fields carries coal now to any industry located on the tracks of the Terminal Railroad Association in the city of Saint Louis, doesn't it? A. Yes.

Q. What was the rate in May and June, 1906, to industries located on the tracks of the Terminal Railroad Association in St. Louis, provided the bridge charge of thirty cents per ton and the rate to East St. Louis, Illinois, had been included as one rate to Saint Louis, Missouri? A. The minimum charge from the mines to industries on the Terminal Railroad tracks in St. Louis was fifty-five cents.

Q. That was made up of the thirty cents charge for the haul across the river and the twenty-five cents charge from the nearby groups of Illinois mines to East St. Louis, making a total of fifty-five cents? A. From what is called the "inner" of the two groups of Illinois mines to St. Louis, made up of the twenty-five cents to East St. Louis, plus thirty cents for the bridge charge and terminal charges.

Q. If after it got onto the Terminal Railroad Association tracks, before the change from thirty cents to twenty cents, it was required to be switched to an industry on another track, was there a switching charge? A. Usually, yes.

Q. What was that, seven and a half cents? A. No. That varied a good deal on the different railroads, running anywhere from one dollar a car to possibly seven or eight dollars.

Q. In the report of the Mayor's Commission it is said that the ten cent switching charge that had theretofore been made for switching coal cars off the Terminal Railroad Association tracks had been absorbed: Is that correct? A. Yes, except that the Commission is not "the Mayor's Com-

mission," but the Commission of the Municipal Assembly, and the City of St. Louis. The statement, however, made in the report is correct.

Q. On about how much coal, in tons, was that absorption made? A. I don't recollect, although I made some figures on it at the time this report was made in 1906.

Q. There is a statement made in that report of the dollars and cents saved to the citizens of St. Louis. It is stated at two hundred and forty thousand dollars, isn't it? A. Yes.

Q. That would mean, then, that the switching charges were absorbed on about two million four hundred thousand tons only, approximately, if the figures are correct? A. I don't see how you could do that.

Q. Ten cents per ton. A. I didn't say anything about ten cents a ton.

Q. Doesn't it say that in the report? A. I don't see it.

Q. It is not in any of these reports? A. Oh, well—yes, that was roughly the case at that time. As I have just said, that varied a good deal. That is a rough approximation.

Q. I am just taking the approximation you made. Of course it varies from time to time? A. Yes.

Q. That was about May or June, 1906, that took place or was reported, at least? A. Yes, about that time.

Q. About that time the rate had been increased from twenty-five cents to forty cents a ton on all of the soft coal from the nearby coal mines into St. Louis, and from East St. Louis, Illinois, to St. Louis, Missouri, hadn't it? A. From the "inner" group of the nearby mines, yes.

Q. And this inner group furnished the larger per cent of the soft coal that came into East St. Louis, didn't it? A. Well, I can not say how that was divided between the two groups. Of course the two groups together furnished the

greater part of the soft coal. I can not say offhand how that was.

Q. Didn't you ever investigate that? A. Yes, I did, but I don't remember the figures at the present time.

Q. But the fact, without regard to the figures. Wouldn't it be an important factor in determining this fact of the coal haul, to determine the distance? A. Oh yes, I would say the greater part came from that group than from outside, but I don't know just how that would be divided, although, as I say, so far as the work I was engaged on was concerned, that whole proposition had nothing to do with it. Our proposition was simply a matter of terminal adjustment in the whole St. Louis district, and as to what the Illinois State Railroad Commissioners might regard as fair rates, we had nothing to do with.

Q. I haven't asked you anything about the Illinois State Railroad Commissioners' rates, Mr. Perkins. A. That is what they are controlled by. In fact, it was below the rates that the Illinois Commissioners authorized, because the rate is made on the basis of their rate for the nearest mine to East St. Louis.

Q. I will take up that question of the amount of rates a little nearer.

If it is a fact that half of the soft coal coming into East St. Louis from the coal mines in Illinois adjacent to St. Louis comes within a radius of forty miles, where the twenty-five cent rate would apply, and that rate was increased to forty cents; and if it is a fact that only about two hundred and forty thousand dollars per annum, or ten cents switching charge on less than two million tons of coal, was saved to the citizens of St. Louis by the absorption of this switching charge, then the increased revenue that the railroads received from the increased rate for the minimum haul from the nearby coal mines of Illinois to East St. Louis, of twenty-five cents to forty cents in 1906, would more than

compensate the railroads for the switching charges absorbed, wouldn't it? I am not asking you for any figure, but just for the fact? A. I cannot say as to that, because it would require quite a computation as between the coal brought in by the strictly coal carrying roads, and the trunk roads, and the way it was handled, etc. A large part of the coal, of course, is teamed across the river from East St. Louis.

Q. A large part of it? A. A very large amount is teamed across. A very large amount of it is teamed across the river from East St. Louis. Anybody can see that by standing on the bridge at any hour of the day, and a very large proportion of it is delivered on the tracks of the Terminal Railroad Association; therefore I can not answer the question.

Q. What caused the reduction of ten cents per ton in the terminal arbitrary, reducing it from thirty to twenty cents per ton on soft coal? A. Well, there was a combination of causes for that. The general pressure to get coal into St. Louis as cheaply as possible; the fact that the Terminal Railroad Association had made that rate to the various railroads on certain through business, and on their own coal supply. The greatly increased capacity of the cars, in a way would be given as some additional argument for the reduction of the charge, although that was offset very largely by the increased cost of cars and the increased cost of service for placing them. It was gradually gotten down to what I suppose was really an unremunerative basis for the service rendered, by the pressure of all the different interests, and interests of the different railroads concerned, and of the public for getting that reduced charge, etc.

Q. Do you mean to say that that charge of twenty cents per ton for the haul across the river is unremunerative? A. The haul across the river is only a small part of the service. The twenty cents per ton charge includes the reception at

the yards there at East St. Louis, the actual railroad haul, done by the Terminal Railroad Association's engines over the bridge, the return on the interest and maintenance of the bridge; but, beyond everything else, the switching and placing these cars and delivering them on very expensive property. All those are factors in that charge. It is not a fair statement to say that the twenty cents charge is a strictly bridge charge. It is not. It is a combination, bridge, terminal and transportation charge.

Q. The reports of the Municipal Bridge & Terminals Commission, and I understand you endorsed them, take the position that this haul across the river should be treated as a part of the main line of the road: is that correct? A. That point of view has absolutely nothing to do with the cost.

Q. But answer my question. Is that correct? What is your view of that? A. I will have to explain this: There are two features here. Of course, we have taken that position, and I think properly so, that this should be taken as a part of the through service. Now, on the other hand, a large part of the coal is carried by lines that will have nothing to do with this through service. They are absolutely out of it. Now supposing it is a through service, the charge that the Bridge Company makes, has nothing to do directly with the rates. That is a charge that they make against the railroads for their own operation and maintenance and for their own carrying charges. Now the railroads pay these charges to the Terminal Railroad Association. They may pay a greater or less charge. The question as to the through rates and through service is one of whether that through rate or through service is reasonable or not.

We took the position that outside of this one hundred mile limit it was reasonable, there should be one basis of rate, it should all be divided up, and that the business conditions and business interests of the city demanded that, no matter whether it caused some loss to the railroads or not.

The business interests of this district demanded that such should be the case.

Inside of the one hundred mile limit, in view of the conditions existing about State rates, etc., we admitted that the adjustment for the present was reasonable.

Just as the adjustment on New York business is, where the rates from New York to nearby points are three cents per one hundred pounds higher than from Jersey City or Hoboken. The arbitrary there, the same as in many other places, exists where there is a high terminal charge for terminal service, just as it does here.

But the matter of through rates, even within this circumscribed one hundred mile territory, was aranged so it would be put right on the basis of whether this rate from the Illinois mines to St. Louis was a reasonable rate or not. It all comes right down to that question, whether that rate is reasonable or not, and if not, the Interstate Commerce Commission can settle it.

Q. Isn't it a fact that 1906, in the early part of the year, Mr. Ives, the traffic official of the Wabash Railroad, announced that for all coal originating on the Wabash Railroad, destined for industries on the Wabash road in St. Louis, there would be no switching charges? A. I think so. I talked that over with him quite a good deal.

Q. And did not that force the Terminal Railroad Association to absorb the ten cent switching charge to industries located on its tracks, or, rather, force the other railroads originating coal and shipping it into St. Louis, to absorb the ten cent switching charges? A. That had something to do with it. That was one factor.

Q. That was the prime factor that compelled the other roads to meet the competition of the Wabash, because the Wabash was a big shipper of coal? A. That had a great deal to do with it. It was not the only thing, however. That was only one out of many factors. We tried to work every-

thing we could to get what we thought was a right basis. Where we could get one road to go in on a thing, that was so much leverage on the others.

Q. Mr. Ives did that of his own volition? A. Everything that was done was done of their own volition. We have not any power to compel anybody to do anything, or at least we have not tried to assume any such power.

Q. Do you know what coal crossed the river by the various terminals, say for the last year? A. I don't know that offhand.

Q. Did you ever make figures on that? A. You mean as between the different bridges, ferries, etc?

Q. No, I mean how much soft coal comes in across the river onto our terminals? A. I think I made estimates on that one time, but I don't know that I have them now. I don't think I have.

Q. It is safe to say that eighty to eighty-five per cent of the soft coal that comes from the Illinois coal mines comes over to Saint Louis, Missouri? A. Either locally or passes through St. Louis. A lot of it passes through Saint Louis to the West.

Q. Not twenty per cent of it passes through Saint Louis to the West that comes from East St. Louis? A. I don't remember that percentage. I have not carried that in my mind.

Q. That which goes west is practically railroad coal, isn't it? A. Oh, no. Some of it is railroad coal and some of it is coal for miscellaneous consumption for coal dealers in the west; and some of it is for large business institutions in the west.

Q. Coal does come in to some extent from points in Indiana to St. Louis, Missouri, doesn't it? A. Yes. Coal comes from Indiana and West Virginia and Pennsylvania.

Q. The arbitrary on that soft coal has not been absorbed, has it? A. Most of it has, yes.

Q. Where and when were the tariffs published, and by what roads was it absorbed? A. They had a meeting at Columbus, Ohio, yesterday afternoon to straighten up the rest of them.

Q. You mean from the Indiana mines, beyond the radius of one hundred miles from Saint Louis? A. I think all those from Indiana have been fixed, is my recollection.

Q. When were the tariffs published, and what roads published them? A. I can not say offhand.

Q. Will you please look that up and see? That is a fact I want to get into this record in your testimony. It bears on this question and bears on your testimony. A. I will if I have time.

Q. Did you ever investigate the tonnage and the rate great many years ago, from these same mines or mines in the same vicinity, in Illinois, from East St. Louis? A. No.

Q. You are not able, then to say what they were? A. No.

Q. Do you know what the average coal car coming into this gateway would haul fifty years ago? A. Fifty years ago?

Q. Well, say twenty years ago, and come down to your own experience in railroading. It was about seventeen or eighteen tons, wasn't it? That would be in 1888. A. I doubt if twenty years ago it would average quite that.

Q. A little less, perhaps? A. Fifteen tons thirty thousand pounds minimum, with sixteen tons maximum, was about the standard car, and there were a good many cars of less capacity used at that time.

Q. At the present time the average capacity of a coal car hauling coal from the nearby coal mines in Illinois to East St. Louis is about thirty-eight or thirty-nine tons, isn't it? A. During the last few years the different roads have been buying cars of from forty to fifty tons capacity. There are still, however, a great many cars of twenty to thirty

tons capacity in use. I suppose perhaps it would be fair to say that the average capacity coming into this market is somewhere in the neighborhood of thirty-five tons. That is an estimate on my part, now. There were many figures made from time to time, but they vary at different markets.

Q. Do you know what the average revenue was twenty years ago, say, on a car of coal from these nearby mines to East St. Louis? A. No, sir; I can not say that now.

Q. Did you ever investigate that? A. Yes.

Q. It is just about half what it is today, isn't it? A. I really can not say now. I don't remember those figures, just how they went.

Q. Have you those figures? A. I can not say whether I have them or not. I said I made a memorandum, just as I have of countless things of this kind, to be talked over in our Commission. We use what we think is of benefit to our work and we do not use the rest.

Q. Do you know what the revenue from these nearby mines in Illinois into East St. Louis was? A. No.

Q. Isn't it about sixteen dollars a car? A. You mean from the nearby mines?

Q. Yes, at the minimum rate of forty-two cents, with twenty cents added, making sixty-two cents? A. I doubt if it averages that.

Q. If they haul thirty-five tons, it would not run far from that, would it? A. I think probably the average will vary a good deal on the different railroads, according to their equipment.

Q. Did you investigate the tonnage on the average coal train from the minimum rate group of the Illinois coal mines into East St. Louis? A. I made no systematic figures on them. I have looked them up from time to time.

Q. Have you any idea what those trains would carry in the way of tonnage per train? A. It varies like everything else on the different railroads.

Q. I said the average, you know. A. Why, I suppose they run all the way from eight hundred to two thousand tons.

Q. They will average between those, from one thousand to fifteen hundred tons? A. I refer to their full train tonnage. I don't know that you could give a fair average on that, because the thing varies very much on the different railroads. Of course, that depends on the grades and curves of the different roads and the tractive force of their motive power; and it depends also on the average capacity of their cars.

Q. The principal items of cost in handling that train, or at least two of the principal items of cost to the railroad, are the train crew service and the fuel? A. Yes, train and engine crews and fuel are the heavy items of cost.

Q. Do you know that that matter of the cost of train crews and fuel has been considerably reduced in the last twenty years on the coal carrying roads, as well as other roads? A. The cost per ton has, somewhat.

Q. Yes, the cost per ton? A. The cost per train has very much increased. The cost per ton has somewhat decreased.

Q. Did you ever make an estimate to determine what the average cost today is to handle coal to East St. Louis from the nearby coal mines in Illinois for train service and fuel? A. No, I never did, on that particular business.

Q. Did your investigations ever disclose to you that some of the roads coming into East St. Louis, heavy carriers of coal, can haul it as low as two cents per ton, for train crews and fuel? A. I don't remember the figures, but I have talked to the people concerned, from time to time, about the items of cost. I have not any general figures and I never made any systematic investigation of that business, because I never had any charge of the handling of that particular traffic.

Q. The rate is made through to Saint Louis now, isn't it? A. Yes.

Q. All the elements of cost that go to make up that value of the service would be an item to be considered by you, wouldn't it, in determining whether or not the rate ought to be twenty or thirty cents for crossing over the river? A. That would have something to do with the question of whether the difference in rate would be reasonable or not. That is not the cost of doing business from the mines to East St. Louis. That would have nothing to do with the bridge or terminal cost whatever. The question of what is a fair addition to the rate across the river is an entirely different proposition.

Q. If the haul across the river is considered a part of the service, using the tracks across the river as a part of the main line, why would there be any difference? A. The service across the river, where that is a part of the through service, where through rates are made, is simply a matter of rates and contracts between the railroads, and the public would have nothing to do with the reasonable constituents of that rate, as to what they should be. That is a separate proposition by itself. That is, as far as the actual operations go, the handling of the coal across the river for all roads is an entirely separate transaction. The Terminal Railroad Association is acting for the railroads that make through rates, but bringing the coal across the river is an entirely independent operating movement.

The question as to what is the fair operating cost from the mines to East St. Louis has nothing whatever to do with what is a fair operating cost from East St. Louis to the delivery switches in St. Louis.

Q. Why? A. The conditions are absolutely different. You have for instance, on the Eads Bridge, a one and one-half per cent grade in each direction—

Q. But, Mr. Perkins, you are considering it as a part of

the through rate to Saint Louis? A. You were just talking about what was an average train tonnage of their solid coal trains from their mines into East St. Louis, and you were asking whether it was a fact that their locomotive fuel account and their engine and train service account would enable them to haul that far at a certain amount per ton, per mile, as I understood it. That is what I understood you to say.

Q. Train crew and fuel service? A. You are leaving out the engine service?

Q. Train crew and fuel service? A. Of course, it doesn't cut any figure one way or the other, but the engine crew service is a large part of the service on that train. The wages of the engineer and fireman are the highest wages.

Q. You say it cuts no figure, include them if you like? A. I told you I couldn't give you that, because I have made no systematic investigation of that. I said that is what you were talking about.

Now the different character of service for switching these cars out and taking them across the river, over the heavy grade of the bridge, and with the slow movement necessary, and with switch engines and switch crews distributing these cars and placing them at different points about the city, placing those cars on team tracks and leaving them there, and spotting them there where wanted, taking them off again and returning the empties, etc., is a very different proposition from taking a solid train of cars of coal from the mines and bringing it into East St. Louis.

Q. They are not placed around the city, except on the tracks of the Terminal Railroad Association, unless where there is an extra charge made for switching, are they? A. Why, certainly, so far as the public is concerned, they are.

Q. What is true? A. That they are being placed at the same rate at industries around on the different railroads in Saint Louis.

Q. Without any extra charge for switching? A. There is an extra charge to the railroads, but not to the public, on such business as the railroads make the through rates on. But the Terminal Association gets a train of coal cars at East St. Louis that may be going to a half dozen different places, and probably is, and may be to more than that. Say here is a train of coal coming in from a mine on one of the roads, delivered to the Terminal Railroad Association at East St. Louis. They get bills for cars all mixed up on that train, some cars going to industries out on the Belt Line, other cars going to the Sixteenth street team tracks, other cars to Compton avenue, some to the Burlington Railroad, some to the Wabash, some to the Missouri Pacific, some to the Frisco, and they have got to take those cars, switch them apart, that is break up that train and take the cars for the different roads and sidings and deliver them to all these different connections, which is an enormously expensive thing to do. It is a character of service in which there is no comparison with the character of the road service.

Q. Shipments of coal that are made now are made on the basis of a through St. Louis rate, and the arbitrary charge is simply added to the freight rate and paid by the consignee, or whoever does pay the freight to the railroads direct, and not to the Terminal Railroad Association, since this arrangement that you speak of was made? A. Well, it may or may not be collected by a collector of the Terminal Railroad Association. It is one through rate so far as a shipment through from the mines to St. Louis is concerned, where the railroad makes a through rate.

Q. The minimum rate from the Illinois mines to St. Louis, Missouri, is sixty-two cents, and that rate is collected from whoever pays it, by the railroad company and not by the Terminal Railroad Association? A. It is collected either by the railroad company or by the Terminal Railroad

Association acting as the agent of the railroad company, either way you wish to put it. It is the same thing.

Q. The public is dealing with the railroad individually, and the Terminal Railroad Association receives its compensation from the railroad company? A. Yes, on the through business, where the through rate is collected. I only wanted to make it clear that there is business from these strictly coal roads coming into East St. Louis that is simply reconsigned across the river, on which they make no through rate. They are not willing to make through rates. They put it into East St. Louis and it is reconsigned over here. ,

Q. Then they do not make any through rate to St. Louis on coal business? A. Oh yes, some of them do. But unless they have done it lately, some of these short coal carrying roads do not. They may have published tariffs later, but when I looked into it they had made their rates simply into East St. Louis, I judged on the basis of trying to keep within the provisions of the Hepburn Act, preventing railroads and coal operators from being really one and the same concern.

Q. Prior to January 1, 1905, the shipments of coal were managed this way: A rate was made to East St. Louis, Illinois, and then the coal crossed the tracks of the Merchants Bridge Terminal Railway, through the Wiggins Ferry Company and the St. Louis Transfer Railway Company, and an independent charge was made for that service across the river, and that charge was paid by the man who paid the freight, whether the consignor or the consignee, directly to the company that brought it across the river? A. Yes, that was a separate charge.

Q. I believe you said you did not know whether the cost of the train crew including the engine crew and fuel, from the nearby group of mines in Illinois, taking the forty-two cent rate to East St. Louis, would be as low as three cents

per ton? A. No, I never figured that up, on this particular business.

Q. Did you ever investigate to determine whether the total cost per ton, per mile from the group of mines, taking the twenty-five cent rate in Illinois to East St. Louis, Illinois, would be as low as fifteen cents per ton per mile for the total cost of transportation? A. No, I made no investigation of that.

Counsel for the defendants offered in evidence the following papers:

Special Act of Missouri Legislature incorporating St. Louis & Illinois Bridge Company, February 5, 1864.

Amendment to above, February 20, 1865.

Act of Illinois Legislature dated February 16, 1865, authorizing construction of bridge.

Act of Congress July 25, 1866, authorizing bridge.

Illinois Legislature Act of February 21, 1867, incorporating Illinois & St. Louis Bridge Company.

Missouri Legislature Act March 19, 1868, authorizing consolidation of St. Louis & Illinois Bridge Company and Illinois & St. Louis Bridge Company.

Consolidation of above companies July 9, 1868, under name of Illinois & St. Louis Bridge Company.

Act of Congress July 20, 1868, recognizing consolidation and authorizing construction of bridge.

First Mortgage, Illinois and St. Louis Bridge Company to Solon Humphreys, John A. Stewart and William McPherson, Trustees, dated March 15, 1870, securing $4,000,000 bonds dated March 15, 1870, payable April 1, 1900, bearing 7 per cent interest.

Second Mortgage, Illinois and St. Louis Bridge Company to Solon Humphreys and John A. Stewart, Trustees, dated May 15, 1871, securing $2,000,000 bonds of $1,000 each, dated May 15, 1871, payable July 1, 1901, bearing 7 per cent interest.

Third Mortgage, Illinois and St. Louis Bridge Company to Solon Humphreys, Henry F. Vail and William Taussig, Trustees, dated March 2, 1874, securing $3,000,000 bonds, dated March 2, 1874, payable March 1, 1886, bearing 7 per cent interest.

Ordinance No. 6442 of the City of St. Louis, approved March 14, 1868, authorizing construction of tunnel.

Ordinance No. 8088 of the City of St. Louis amending above ordinance.

Ordinance No. 8101 of City of St. Louis, approved November 29, 1872, transferring to above Company right to build tunnel.

Mortgage, St. Louis Tunnel Railroad Company to Barton Bates and Charles Edward Tracy, Trustees, dated January 1, 1873, securing 250,000 pounds sterling bonds of 200 pounds sterling each, dated January 1, 1873, payable January 1, 1888, bearing 9 per cent interest.

Order and decree of Circuit Court of United States, Eastern District of Missouri, entered October 17, 1878, ordering sale of bridge and tunnel properties.

Articles of incorporation Tunnel Railroad of St. Louis, December 18, 1878.

Mortgage, St. Louis Bridge Company to J. C. Rogers and C. E. Tracy, dated April 1, 1879, securing $5,000,000 bonds of $1,000 each, dated April 1, 1879, payable April 1, 1929,

bearing 3½ per cent interest until April 1, 1881, and 7 per cent thereafter.

First Mortgage, Terminal Railroad Association of St. Louis to Central Trust Company of New York, dated October 1, 1889, securing $7,000,000 bonds of $1,000 each, dated October 1, 1889, payable October 1, 1939, bearing 4½ per cent interest; Central Trust Company of New York, Trustee.

Second Mortgage, Terminal Railway Association of St. Louis to the Central Trust Company of New York, Trustee, dated August 1, 1893, securing $5,000,000 bonds of $1,000 each, dated August 1, 1893, payable August 1, 1943, bearing 5 per cent interest.

First Consolidated Mortgage, Terminal Railroad Association of St. Louis to Central Trust Company of New York, Trustee, dated November 10, 1894, securing $12,000,000 bonds of $1,000 each, dated November 10, 1894, payable August 1, 1944, bearing 5 per cent interest.

General Mortgage, Terminal Railroad Association of St. Louis to Central Trust Company of New York and Willliam Taussig, Trustees, dated December 16, 1902, securing $50,000,000 bonds of $1,000 each, dated January 1, 1903, payable January 1, 1953, bearing 4 per cent. interest.

Act of Congress, February 3, 1887, authorizing construction of Merchants Bridge.

Ordinance of City of St. Louis, No. 14,078, approved July 9, 1887, authorizing construction of railway of St. Louis Merchants Bridge Terminal Railway Company.

Mortgage, St. Louis Merchants Bridge Terminal Railway Company to St. Louis Trust Company, dated October 1, 1890, securing $3,000,000 bonds of $1,000 each and

$500,000 bonds of $500 each, dated October 1, 1890, payable October 1, 1930, bearing 5 per cent interest.

Mortgage, St. Louis Merchants Bridge Company to Farmers' Loan and Trust Company, Trustee, dated February 1, 1889, securing $2,000,000 bonds of $1,000 each, dated February 1, 1889, payable February 1, 1929, bearing 6 per cent interest.

Mortgage, Madison, Illinois and St. Louis Railway Company to St. Louis Trust Company, Trustee, dated October 1, 1891, securing $500,000 bonds of $1,000 each, dated October 1, 1891, payable October 1, 1911, bearing 6 per cent interest.

Admission of St. Louis, Vandalia & Terre Haute Railroad Company, February 13, 1902.

Admission of St. Louis & San Francisco Railroad Company, June 9, 1902.

Admission of Chicago, Rock Island & Pacific Railway Company and St. Louis, Kansas City & Colorado Railway Company, December 16, 1902.

Supplemental agreement of proprietary lines, January 16, 1903.

Articles of incorporation St. Louis Belt & Terminal Railway Company, March 14, 1902.

Various Acts of Congress with reference to terminals in Washington City, being to-wit:

Act of Congress February 12, 1901, Chapter 354, U. S. (L.) 31, page 774.

Act of Congress February 28, 1903, U. S. (L.) 32, page 909.

Entire record in the suit of the State of Missouri at the relation of the Attorney General vs. Terminal Railroad Association of St. Louis.

Counsel for the United States object to the introduction of that record, for the reason that it has no bearing whatever on this case and does not tend to prove or disprove any fact in issue here.

At this point the further hearing of testimony was adjourned to Thursday, May 28, 1908, at half past ten o'clock.

St. Louis, Mo., May 28, 1908.

Met pursuant to adjournment as above on Thursday, May 28, 1908, at 10:30 o'clock a. m.

Present: Honorable R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the United States.

Mr. M. F. Watts appeared in behalf of the defendants.

Counsel for the government not being ready to proceed, a further adjournment was made to June 19, 1908.

St. Louis, Mo., June 19, 1908.

Met pursuant to adjournment as above on Friday, June 19, 1908, at half past ten o'clock a. m.

Present: Honorable R. E. Rombauer, Special Commissioner.

Mr. E. C. Crow appeared in behalf of the United States.

Mr. M. F. Watts appeared in behalf of the defendants.

The following proceedings were had:

Counsel for the defendants offered in evidence pages 3 to 54, inclusive, of a book entitled "Volume 10 of the Cor-

porate History of the Pennsylvania Lines," giving a short corporate history of the various cases referred to in the pleadings in this case.

Objected to by counsel for the United States because the matter contained in the pages mentioned does not tend to prove or disprove any issue in this case, and are matters of hearsay, and for these reasons, incompetent.

Counsel for the defendants offer in evidence the original Act of Congress authorizing the construction of the Merchants Bridge.

Note: It is agreed that Group Rate Map, Exhibit No. . . ., shall be made a part of the record, subject to any objection as to competency. It is agreed by counsel that same is the copy used in fixing rates between the Mississippi river and New York and Chicago.

It is also agreed in reference to the appurtenances mentioned, that if there are omissions in the Pennsylvania book, the same may be offered subject to objection.

The case is here closed.

IN THE

Circuit Court of the United States of America

For the Eastern Division of the Eastern Judicial District of Missouri.

THE UNITED STATES OF AMERICA,
Complainant,

vs.

TERMINAL RAILROAD ASSOCIATION OF ST. LOUIS, ET AL.,
Respondents.

No. 5,250.

EXHIBITS.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 1, as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC ASSOCIATION.

Thursday, February 18th, 1897, 10:30 A. M.

There were present:
Wm. E. Guy, President St. L., P. & N. R. R.
W. D. Holliday, A. G. F. A., C., C., C. & St. L. R. R.
P W Coyle, A. G. F. A., Wabash Railway.
Geo. F. Randolph, Traffic Manager, B. & O. S. W. R. R.
W. W. Peabody, Jr., Coal Traffic Manager, B. & O. S. W. R. R.

W. S. McChesney, Jr., Supt. Terminals, L. & N. R. R.
C. D. Morris, Chief Clerk Frt. Dept., L. E. & St. L. R. R.
N. W. Taylor, Genl. Frt. Agent, Vandalia Line.
C. F. Parker, General Agent, Ill. Central R. R.
Geo. E. Lary, A. G. F. A., Ill. Central R. R.
W. J. Scott, Chf. Clerk, Frt. Dept., T., St. L. & K. C. R. R.

There were present on invitation of the Chairman, Mr. Ramsey, Messrs. Scullin, Sands and Bryan, of the Terminal Companies.

The meeting was called to order by the Secretary, and Mr. Guy elected chairman, the regular chairman, Mr. Ramsey, being absent.

On roll call, all lines were shown to be represented except the Mobile & Ohio Railway.

The Secretary: Mr. Poe, of the M. & O. Raiway, is in New Orleans, and finds it impossible to attend any meeting of the coal association this week. He stated that if the meeting could be postponed until Wednesday, the 24th, the M. & O. would be authoritatively represented. After hearing Mr. Poe, I telegraphed Mr. Randolph, at whose request this meeting was called, as follows:

"It will be impossible for the Mobile & Ohio Railway to be represented at any meeting of the association held next week, as all representatives will be in New Orleans during the entire week. They can attend Wednesday week. Will this suit you?"

Mr. Randolph telegraphed in reply as follows:

"Matter cannot wait. If you can get quorum of St. Louis roads, please issue call for Wednesday."

Mr. Randolph: There is a ruling to the effect that any change made in rates requires a unanimous vote, but I think that while the ruling says "unanimous vote," the meaning is a *unanimous vote* of *those present*. Mr. Chairman I would like your ruling on the subject.

Chairman: We had better refer to the original agreement. My impression is that it refers to a unanimous vote of all members of the organization.

Secretary: This is what the Agreement has to say on that point:

"Third: It is a fundamental principle of this Agreement that the rates on all coal transported between the points covered by this contract should be at all times reasonable, and that the Association ought to make from time to time such changes therein as justice may require; and in order to prevent all unjust discrimination among shippers and all unlawful deviations from schedule rates, it is hereby agreed, that, except as hereinafter provided, no action shall be taken by the officers, agents, employes or representatives of any party or parties thereto which will directly or indirectly reduce or affect the rates or revenues herein fixed for the transportation of said coal, or which may, directly or indirectly, affect such rates and revenues as may hereafter be fixed upon said traffic bp the *unanimous action* of the Association at any future meeting thereof. That is to say, unless the rates herein provided for shall be adjudged unreasonable, the same shall not be directly or indirectly reduced or changed by the officers, agents, employes or representatives of any party hereto except by the *unanimous* consent of all parties to this Agreement; but all other questions relating to the business of the Association shall be settled by a majority vote of the parties.

A. This agreement shall not be construed, however, as to prevent the Board of Directors of any Company, party hereto, from reducing or otherwise changing the rates herein agreed upon, over its own road, by resolution of its board of directors, and after such public notice as may be required by law. A copy of the resolution of the Board of Directors of any Company, party hereto, authorizing such change, shall be immediately forwarded by the Company making the same to the Joint Agent of this Association, and it shall thereupon become his duty to notify all the other parties thereof in writing."

Mr. Guy: I have in mind a communication from the Bituminous Coal Company which I will read. Meanwhile, I will ask Mr. McChesney to occupy the chair.

"To the Chairmen and Members, St. Louis Coal Traffic Association, City.

Gentlemen: At a meeting held by a number of Coal Mine Operators and representatives on Friday, 12th inst., the condition of the St. Louis Coal Market was the principal subject discussed, and the conclusions were that the undersigned meet and express the operators' views to Messrs. Wm. E. Guy and C. F. Parker, of the St. Louis, Peoria & Northern, and Illinois Central, respectively, and this letter is the result of a conference with those gentlemen on the 15th inst.

Since the effecting of an understanding among themselves, the Coal Mine Operators have very earnestly devoted themselves to the task of unifying, as equitably as possible, the interests of all parties.

It was not possible to create a foundation for this undertaking, by a few of the stronger Companies without incurring serious obligations. It was hoped and even expected that the result of the Election with the winter season following it, would bring a demand and result beneficially to all; in this, however, we have been disappointed. There has been no revival of business and the winter season has been discouraging; the lowest minimum of domestic tonnage has been handled by the guaranteeing Companies, resulting in a loss instead of profit to all of them.

It was not expected that a new mine line Mascoutah on the Louisville & Nashville Railroad would move the tonnage that it has, or that the Ruby and Darrow on the Baltimore & Ohio Southwestern Railway, and Johnson Mine on the Air Line would be put in operation and that coal be brought here from off the Chicago, Paducah & Memphis, and even had it ended there, we might still have overcome all the obstacles mentioned, but the low open rates made by the Bluff Line and Chicago, Peoria & St. Louis (35 cts. per ton and sometimes less), are conditions we cannot meet under the 45-cent rate which the Association Lines are charging.

The Madison Coal Co. has met the cheap rate competition of the Bluff Line at Granite City Industries, and

like the Consolidated Coal Co., have lost the Contracts at the Stock Yards which both of the Companies have held for several years.

Springfield coal is offered as low as 90 cts. at East St. Louis, and the product is now being furnished on trial at the South St. Louis Electric Railway, based on that figure.

Owing to the Springfield, Carlinville, Verdin and Girard Coal being brought in on such low rates, our Companies are forced to sell Nut Coal at 65 cts. per ton for which 80 cts. must be paid by the guaranteeing Companies. Within the past 60 days a new Mine at Litchfield has been shipping to this market over the Chicago, Peoria & St. Louis Railway at less than 35 cts. per ton, and this Mine, added to those in the towns named, make a total of six mines now sending their product here that did not furnish a single ton prior to the raising of the rate to 45 cts.

We are now close upon the Contracting Season, and we sincerely hope that you will conclude to grant us a 35-cent rate that we may be able to meet outside competition; we desire fair uniform rates, and would not have the least objection to a 45-cent or even higher figure, if it was in good faith adhered to by all the Coal-Carriers, and we do not believe it is your intention or desire to make the Operators on your respective Lines suffer in matters they did not create and have absolutely no control over.

Considering the hazardous nature of mining, 60 cts. per ton is the lowest minimum price that should be secured even by Companies "where" Mines have fair conditions", to keep them in reasonably safe condition and at that figure no better wages could be paid to the Miners and the accrued profit would be disappointing to any Investor; this being true, what can we be expected to do with a 45-cent rate to East St. Louis and coal offered there at 90 cents per ton?

We desire to see the Railroads as well as ourselves avoid conflict, and suggest that the rate be reduced only as low as is necessary, and we firmly believe that at the

35-cent rate a longer period of stability will result and in the end greater net gain will accrue to Coal Carriers as well as Coal Companies.

Respectfully,

(Signed) A. J. Moorshead,
E. C. Donk.

The Bituminous Coal Company endeavored to make contracts for as much of the outside coal as possible, so as to help both the markets and the railroads. They did this at the market rates at that time, so that when the railroad rates were advanced from 34 to 45c per ton, the railroads got the benefits of the figures, but the Bituminous Coal Co. people did not. In order to get some benefit, as they hoped, out of an increased demand in winter time, the Bituminous Coal Co. advanced its rates 15 cents in addition; which I think was a very great mistake, and opposed it at that time. If it had been an average cold winter, they could have taken care of this outside coal—not at a profit, because the coal Companies with which they contracted and the railroads got the benefit of all the rise in price; but a cold winter would have enabled them to have sold this coal at the same price which they paid for it. In placing their contracts with these outside parties they had to allow them also 7 per cent increase in tonnage, which was estimated to be about the amount of annual increase. But the winter was very mild, they did not have the demand expected, and not only was there no increase, but an actual loss of over 4 per cent. The result was that they had to take this coal and place it on low-priced contracts, which had been taken prior to the railroad agreement, resulting in a loss to the Coal Companies of about 25 cents per ton—being the extra 10c paid to the railroads and the 15c to the operators, which was a very great burden on the Coal Companies. They reduced the market prices on January 1st to 15c, but it still leaves them with a loss of about 10c per ton on the outside coal. In addition to the mild winter, coal has been coming from other outside mines on lines outside of this

association, as well as from some mines on lines of the association, not hitherto cutting any figure here at the time the Bituminous Coal Co. was formed. Coal has been coming in over the Bluff Line at cut rates on both sides of the river, and over the C., P. & St. L. on the east side, the line which—while nominally on our reports—has declined to maintain rates. The operators shipping over the Bluff Line have come into St. Louis over the Alton Bridge and the Burlington Road, with a rate into the city of 65 cents, as against the 75 cents which operators of the Associated Lines have been obliged to pay; and retail coal has been sold all winter through the northern part of St. Louis at 12½ cents lower than operators from the Associated Lines could offer. The season for making contracts for the ensuing year has already commenced, and operators of the Associated Lines have already lost several important contracts, both on the west and east side of the river, to operators on the outside lines. The burden has become so great on the operators on Associated Lines, and the situation is so dangerous, in view of contracts to be placed—both to them and to the railroads and the old Transfer Companies—that it is very necessary that some steps should be taken to meet the situation. Hence, at the request of a number of railroad representatives, the representatives of the Bridge & Ferry Companies were requested to be with us this morning for a conference. As has been stated, it was proposed once before that the railroads should make some reduction, provided the Coal Companies and the old Transfer Companies would also join. The Burlington road is making a rate from Alton over the Mississippi bridge at that point, and over its 23 miles of track into the city, of 35 cents. This makes the rate of 30 cents over the bridge or ferry alone at *this point* seem much *too high*. I have never been one to go before the public in such matters with a complaint; but while feeling very friendly to both the Bridge and Ferry Companies, and personally to their representatives, I think myself that the rate is higher in proportion to other things than it should be. Coal

is one of the lowest priced commodities, and yet the heavy cars which our company own, and the new cars of other companies that go across the bridge—that is 30 ton cars—are charged $9.00 per car. This is over twice the average per car of all other classes of commodities, including the highest-priced (and there are very few that are any lower priced than coal). Even taking off the switching that is absorbed on a smaller proportion, the average is still nearly double. In addition to this appeal from the old and large coal operators, and the reduction which will probably be made on their part and that of the railroad companies, there is a popular demand, which, unreasonable as it may be in regard to many things, and in many ways, is not so unreasonable as regards coal, for the reasons I have just stated. It must be recollected that the present rate of 30 cents per ton across the bridge and ferry was adopted years ago, when the maximum capacity of cars was placed at 24,000 pounds, or 12 tons; but comparatively few of those cars are left now, while new cars are almost all 30 ton cars. For instance, of our equipment—800 coal cars—(and we are one of the largest shippers across the bridge) we have none under 50,000 pounds, or 25 tons, and only 200 of these, the balance (600) being all 30-ton cars.

It is for the Bridge and Ferry Companies to say whether they will not be willing to join with the railroads and the Coal Companies in making some reduction to meet this new competition, and on their part also to meet, in this instance, a not unreasonable popular demand. I wish to say that in addition to this I am informed that another contract—a very large contract—one of the largest in the market here—has recently been placed with the Burlington Road—that is the Bonne Terre contract..

Mr. McChesney: That contract was placed with the Air Line.

Mr. Parker: Possibly the Air Line representative can inform us as to that.

Mr. Morris: I am not certain, but I think we have the Bonne Terre contract.

Mr. McChesney: Mr. Burns told me that he contracted with *Mr. Jarvis* for his coal from July 1, 1897, to July 1, 1898.

Mr. Guy: The conditions are such that it is a contract which comes in like some of the other contracts—over other ferries than the Wiggins Ferry Company and the Eads Bridge. The Ferry Company and the Bonne Terre of course make any rate they please—they combine something else and thus bring the rate across the river down. This only shows the necessity for some action by the railroads and by the transfer companies.

Mr. Bryan: I came here at the request of Mr. Ramsey, of the Wabash. He wrote a letter to both terminal companies, I believe. I had hoped to see Mr. Ramsey, but he was in Chicago yesterday, and I see he is not here this morning and presume he has not returned. I really do not know what you gentlemen want of us. The amount of coal that you speak of as coming in here other than through the recognized transfer companies, as far as I can learn has not been large, and certainly this Inter-State Sand Company business with the Bonne Terre Company cuts no figure with us, because it does not cross the river. It goes down from the East side. I understand it is in the neighborhood of 100,000 tons, and can readily see how it would be a contract that any of the companies would be very desirous of getting. It is not anything that we handle, and cannot be considered as business crossing the river.

I hope the gentlemen understand that we did not participate in any of this advance that you all made last Fall—last September—and that you will also bear in mind that our rate covers a *good many switching charges.* Thirty cents a ton takes the coal to all these manufactories. I have in mind one where it uses from eight to ten cars of coal a day. We are absorbing all these charges, and we do not feel, as we did not participate in the advance (at least I am speaking for the Terminal Association), that the present situation demands

any reduction on our part, unless we can be shown that we are likely to go to pieces without it. I have not, so far, seen or heard anything that would indicate that. The two coming together—the advance in the railroad rates from 35 to 45 cents, and the advance of the coal dealer's rate—made a very considerable advance in the price of coal, and of course allowed some of this outside coal to come in, which I understand cannot compete here with the old rates, or anything like them.

Mr. Parker: What old rates do you refer to?

Mr. Bryan: I refer to the former prices for coal of the coal dealers and the old railroad rates—35 cents per ton. I believe your rate from this mine near Springfield — What is it, Mr. Ward? 65c to East St. Louis?

Secretary: You mean over the K. Line, when it comes from the Bluff Line and Alton Bridge?

Mr. Bryan: Yes.

Secretary: The rate is 65c via the Alton Bridge, from Springfield to St. Louis.

Mr. Bryan: Is there any such tariff in existence—a published tariff of 65c?

Secretary: The proportional rate to Alton for Missouri points is 30 cents per ton; the Burlington makes the rate from Alton 35 cents. This makes a 65-cent through rate.

Mr. Bryan: Well, have you the figures here that will show how much coal has come in—I believe that is the coal that you re. " to particularly as being in competition?

Secretary: There has been about 250 cars of this coal since October.

Mr. Bryan: A matter of three cars a day. It don't seem to me that that amount of competition should cut as much figure as it seems to.

Mr. Parker: We are dealing with some figures of the past, when the coal business has been exceptionally dull, and it was hardly to be expected that operators on the Bluff Line and lines north that can ship coal to St. Louis on the 65c rate would get much of a foothold in St. Louis. While the tariff rates of the coal

dealers have been advanced, as a matter of fact coal has not been selling for that figure. Mr. Guy knows that, I presume. They have been trying from time to time to meet these prices made by the operators on the Bluff Line. Now, we are approaching the time in the year when large contracts will expire and new contracts made. I get it on pretty reliable authority that the Bluff Line people, as well as other people who have sent coal over these lines, are prepared to take those contracts. After they have taken them it will b too late for us to figure on any method or to devise any plan of securing that business. It will have gone, and the old lines can have no hope of getting it—at least for another year—and the old question of coal rates is now being agitated on that account. We are right on the eve of going after these contracts, and if the old rate is maintained we are not going to get them—I am satisfied of that. We are trying to prevent certain conditions which stare us in the face. It seems to me that inasmuch as you participate in this, that the transfer lines ought to participate in this slight reduction of 5 cents a ton, on each, which will secure that business to the lines and secure it to the transfer companies, the representatives of which are present. It is going through another channel, sure, if we do not.

Mr. Guy: Mr. Bryan and Mr. Sands, of course you will understand that you are not invited here to be assailed and to be attacked, or anything of the kind, but for conference. Mr. Bryan has forgotten one thing, I think, when he says the railroad companies advanced and the bridge company did not participate. He has lost sight of the fact that the railroad rate was 75 cents, then dropped to 50 cents, then to 45 cents and then to 25 cents. As far as that is concerned, there is no reason to use that argument. We want simply to restore the rate and not to advance it. The Ferry Company and the Transfer Company had, a short time previous, been getting a 30-cent rate, but it dropped to 22, 20 and 18c, so that I think that argument falls to the ground. It was simply an effort of the railroad companies to restore

what they had been getting before. The railroad companies had dropped, while the ferry companies had not dropped. As I stated before, Mr. Bryan, a large number of coal cars transferred over the bridge pay you $9.00 per car, while I notice that the average revenue per car, for all commodities handled, only amounted to $4.35.

Mr. Bryan: The average for last year was $4.55 per car.

Gentlemen, the way this thing appears to me is: (I am going to state it just as it appears to me). You speak of a railroad rate one time of 75 cents. I believe that is correct. Then it was 50 cents; then it went to 45 cents. During that time the transfer companies maintained their rate at 30 cents, absorbing the switching. I happen to know something about the railroading on the other side. It was not long since that I saw a statement compiled by Mr. Ramsey, showing that in one instance, at least, we took that coal from the east side and handled it for thirteen miles. Why, some of your coal mines are not more than that from East St. Louis. You gentlemen have brought this condition upon yourselves, and now you ask us to help you out. You advanced, arbitrarily, the coal rate 25 per cent, from 35 cents to 45 cents—more than 25 per cent. The coal dealers advanced, taking effect the same time, the price on coal more than 25 per cent. According to Mr. Parker, you were not getting 95 cents—you were getting just about 80 cents. You advanced your price of coal then from about 80 cents to $1.20 per ton. What is the result? The result is you attract coal here from a distance that would not, otherwise, come in. I will submit to any one of those practical railroad men to take into consideration what we do and the outlays we have to do it with and the cost of the property, and our rate is not excessive, as compared with yours.

Mr. Parker: What is the average haul? This long-distance haul of yours is exceptional, is it not?

Mr. Bryan: Perhaps, but I say it goes that far, and while we do not want you to understand that we are

here not to meet you at any time when there is a threatened trouble, I am ready to do it, and I think Mr. Sands is, but I do not believe the time has yet come. I really do not believe you ought to ask us to do this thing. I know what 5 cents a ton means.

Mr. Guy: I think the time has come. Mr. Bryan has misunderstood what the coal company has been receiving for contract coal. It was only the outside coal companies which received that advance. None of their contracts are based on that at all. They are all of them based on just simply the lowest rates that they have been receiving from the railroads. They have not made one single contract based on such prices. The coal companies here that are asking this concession did not get the benefit of anything of that kind. Now, as for the railroads: If any one line could get the stream of business over it that comes over sixteen different railroads, it could afford to do the business very much cheaper. In other words, the 20-cent rate over the bridge means more to the bridge than a 35c rate does to the railroads.

Mr. Bryan: Another point: This rate of 65 cents that the competition is troubling you with is simply a terminal rate. That 65 cents, as I understand it, don't cover delivery to any part of the city. They simply deliver it on the line of that road. It is confined to a certain territory.

Mr. Guy: If you take the two lines converging from North Market Street to Bremen Avenue, and take any other line from any of your tracks that covers nearly all that part of the city—half of the city, excepting where they are reached immediately by the tracks on your line. We meet that every day from East St. Louis—the same state of affairs. There is where the shoe pinches—it is pinching all the time. It is very well known today, that the Wiggins Ferry Company has a very important tussle on hand, with the Sand Company, and, as I understand it, they have a contract for handling a great deal of coal formerly handled by the old terminal companies, and they don't get a 30-cent rate, either, and that would encourage them very probably to go into the

business. You see, there are concessions being made by some of the people outside. I think the old companies ought to come along with the railroad companies, and the coal companies, and try to help the situation as much as they can.

Chairman: Mr. Sands, have you any remarks?

Mr. Sands: I realize that, so far as the Wiggins Ferry Company is concerned, whatever is for the general good of the coal carrying roads must result to the interests of the Wiggins. If it is absolutely necessary for the coal carrying lines to make some concessions, it is probably no more than fair that the Wiggins should assist, so far as is just for them, and in the proper proportion. Still, it seems to me that Mr. Guy does not appreciate the service that we perform or the money that belongs to us for that service. We will take our seven miles of road—less than seven miles—The St. Louis Transfer Company has on this side, in which the Wiggins and Transfer Company together have put in nearly $600,000. That represents quite a mileage, as Mr. Bryan has indicated. The 30 cents per ton over the river car transfer, including East St. Louis switching and St. Louis switching, covers a delivery to any portion of St. Louis within St. Louis switching limits. About one-thrd of our total coal tonnage we absorb switching on. It may be that we could take a little less rate and still make expenses—I expect we could. Still, we do not like to cut our revenues, unless it is absolutely necessary. You bring up the proposition of 30-ton cars costing no more to handle the 30-ton than it used to to handle the 15-ton. While that will apply to some extent to your line (possibly to us) we found it quite a burden—the increased tonnage. Our grades on our inclines and our engine service were devised for the old style 8 cars to a boat—15 or 20 ton cars—8 cars to a side. The result is now we get hold of 7 of these 30-ton cars, loaded up to 40, and instead of coming off with one pull we have to take two pulls to get one side of the boat up our inclines. So that while, to a limited extent, the increased capacity will reduce our operating expenses, beyond that it increases them. This

Springfield coal and Bluff Line and K Line coal, as I understand it—and, understand, I am not at all well posted on the subject—, but, as I understand it, that is the principal competition that you have to contend with now, and, as Mr. Bryan says, the rate named on that simply covers the delivery in the K Line yards or at Mound Street or along their line—if they deliver to any other line on the Wabash or on the Wiggins, an additional rate applies, whereas our 30c rate delivers to any part of the city.

Mr. Bryan: If you gentlemen will bear in mind that if it becomes necessary to make a reduction in the rate we would want to make it to the end of our rails, and we would want to stop this absorption up and down the Mill Creek Valley.

Mr. Parker: I move that a committee of three be appointed by the chair to confer with the Terminal companies, to see what can be accomplished in this matter.

Mr. Guy: I second that motion.

Carried.

Chairman: I appoint Messrs. Parker, Ramsey and Randolph members of that committee.

(Messrs. Bryan and Sands retire, and Mr. Guy resumes the chair.)

Chairman: What is your further pleasure, gentlemen? Would it not be well to get from Mr. Randolph his reasons for calling the meeting?

Mr. Parker: As this meeting was called by the B. & O. S. W., would it not be well for the representatives of that road to state their objects in calling the meeting?

Mr. Randolph: We are confronted by a proposition from certain people to build a railroad from here to O'Fallon. I am informed that they have secured the right of way, and am reliably informed that their directors have passed a resolution authorizing the officers to go ahead and construct it, from O'Fallon to East St. Louis. They propose to erect their own terminals, or they give us the option of providing a terminal at this end, and are supposed to provide their own terminal at the east end. They desire us to include

in our price the terminal expenses at this end, or they can arrange it with the Terminal Association. This is all brought about by the fact that the minimum rate on short haul coal is too high. This has been our opinion all the time (and I think that we are on record as consenting to the advance, but being opposed to it), and we do not believe it was the proper thing to do. We do not desire to give these people trackage rights, but we prefer to give them such rights, rather than to see them in a position to make their own rates. They want all the rights that they would have if they owned the property. Their communication was referred to Vice President Peabody, and by him handed to me.

Mr. Parker: Mr. Randolph, can you tell us who the East St. Louis & O'Fallon Company is?

Mr. Randolph: The proposition that comes to us comes from the Consolidated Coal Company, as a coal company, not from the East St. Louis & O'Fallon Railroad Company.

Mr. McChesney: That would indicate that the Consolidated Coal Company are backing it?

Mr. Randolph: That is the communication and my information from outside sources. Mr. Ridgley so stated to our President in New York. There are several directors—there is one director—if our road who is a director of the Consolidated and a director of the Wabash, therefore I assume that our present sources of information on the subject are good.

Mr. McChesney: Do you understand, Mr. Randolph, that a reduction in the rates would prevent the construction of this road?

Mr. Randolph: It is not positive, but probable, that their sole idea in constructing this road is not only to protect themselves but to make money in applying the rates, but if the rates were reduced they could protect themselves wtihout building a road. As I understand the proposition, the probability is that they will not build the road if the rates are put on a satisfactory basis.

Mr. McChesney: That would be 25 cents.

Mr. Randolph: I think a higher rate would be satisfactory, but I do not know it positively. Our object in calling this meeting was to see if a minimum rate of 35 cents could be applied by the association.

Mr. Parker: Mr. Chairman, is there any objection to taking up this rate question and conferring with Mobile & Ohio people by wire? I would offer a resolution that we take the vote of the other members.

Mr. McChesney: The way I view this situation, Mr. Chairman, the conditions of the association are not as bad as you seem to think. One of our troubles has been due to the contract coal, which we all know is largely contracted on the basis of 25 cents a ton. Now, there has been a good deal said about outside coal, but the records show that there has only been about 34,000 tons of outside coal, and this includes 16,000 tons of the C. P. & St. L., which comes within this association. The C. P. & St. L. are allotted a percentage, which this association has given to the Wabash. As I understand, there was no agreement by which the Wabash, when they agreed to take care of this outside coal, should designate where it came from. So the outside coal (considering the 16,000 tons that is handled by the C. P. & St. L.) that has been offered here within the life of this association, is about 18,000 tons.

Mr. Guy: The C., P. & St. L. is really outside coal, because it is brought in at outside rates. Counting that, you have 34,000 tons outside coal.

Mr. Randolph: They make the statement that they are of the opinion that a 35-cent rate will materially assist matters. We are not sure that it would, eventually, but we believe that they are people who are willing to act fairly all the way through. A 35-cent rate will very materially improve the situation at the present. The Consolidated Company were not, and are not, dictating; but we must make some reply. I have got to make my report on it this week. I am inclined to the opinion that my way of meeting the question will not

be adopted by our President. I do not think he is inclined to go to the extreme.

Mr. McChesney: Is it not a fact that at this time every year, when contracts are expiring and new contracts are being offered, the question of rates has been agitated—just at this particular time? I know that our operators have told us from time to time (we have never had a less rate than 35 cents) that they could not get in on the market on account of other lines making a less rate; yet the fact remains that we have carried, both last year and this, large commercial tonnage. In fact, our excess is due to contract tonnage. Eliminate that, and we have about our allotted tonnage. If it were true that they could hold the business in the past, why can't they hold the business in the future?

Mr. Guy: You would not have had the tonnage had it not been for the organization known as the Bituminous Coal Company. The Bituminous Coal Company has been buying from a number of the operators on your road, who are among the largest shippers to the Bituminous Coal Company. The L. & N. has gained this tonnage at the expense of other roads. If you had not got the Bonne Terre contract, and the heavy Bituminous shipments had not come in, you would not have been in excess. The St. L., P. & N. is falling away behind its per cent., for the reason that it is sustaining this burden. The Madison Coal Company is losing at the rate of 25 cents a ton on its coal.

Mr. Randolph: I would like to ask Mr. McChesney if he thinks the 45-cent rate could be maintained?

Mr. McChesney: I believe, by this association standing together, it can.

Mr. Randolph: In other words, you do not want to answer the question.

Mr. Guy: I agree with Mr. Randolph in regard to this question. My knowledge of the coal situation is that it was a mistake to make the advance. The Coal Companies felt that the outside coal would come in in this way, and now when these outside mines begin to

attack the contract coal it affects the coal companies and affects the rates also, and therefore the question of maintaining the 45 cent rate—I do not believe it can be done. The coal companies are bound to protect themselves, and they will do it in some way or another, and this is just one of the results. The 35-cent rate would meet the situation, and I would urge upon the association by all means to adopt it. I think the sooner it is done the better it will be. In speaking for the coal companies at large (including the Madison Coal Company) they feel that they are driven to some kind of measure to meet the competition. They will encourage going into outside places to do it. It seems to me that it is very necessary to act, and act promptly. Now is the time to act, because the contracts are coming. I would like to ask the representative of the Air Line what rate they named on Bonne Terre coal?

Mr. Morris: 45 cents.

Mr. Parker: Do you know positively?

Mr. Morris: No, sir.

Mr. McChesney: I understand the contract was made with Mr. Jarvis, in Louisville.

Mr. Randolph: Well, to speak very plainly—I do not see any reason for beating around the bush—I think every man in this room who has had anything to do with the Bonne Terre contract knows that it *could not* have been secured on a *45-cent rate*. It was offered to the L. & N., to the Vandalia, and I think the Big Four had a chance at it, and I suppose every one of us knew how *we* could get 45 cents a ton out of coal, and at the same time *not* get 45 cents out of coal. I started to ask a question: Did not the association, or the committee representing the association, during a conference with the coal operators last Spring, make some promise to the operators about a Summer rate of 35 cents and a Winter rate of 45 cents per ton? Was there not some understanding as to a Summer rate and a Winter rate?

Mr. Guy: That is quite true. At that time the operators wanted the lines to postpone the putting into effect of the 45-cent rate until Fall. The lines at first de-

clined to postpone the rate, but finally concluded to adopt the 35-cent rate until the 15th of September, on which date the 45-cent rate was adopted.

Mr. Parker: Is it not a fact that they were practically assured?

Mr. Randolph: I thought they had practical assurance.

Mr. Parker: That was suggested, I know, and I remember a great deal was said about a Winter rate and a Summer rate.

Mr. McChesney: Did they not give us an assurance in April that if we would continue the 35-cent rate until September they would be willing to pay 45 cents thereafter? But then, when we came to September, did we not find that they were in the same condition that they were in April, and still insisted on one month longer?

Mr. Parker: Do you remember, Mr. Ridgley assured us our rate would drop to 35 cents?

Mr. McChesney: One of the Consolidated officials told me that rather than pay the 45-cent rate they would build a railroad.

Mr. Peabody: What difference does it make if the proposition is right?

Mr. Randolph: Well, I have had the opinion of several coal men, and they seem to think that 35 cents will in all probability be low enough. I think this is agreed among the coal men themselves. You probably know more about that, Mr. Guy, than I do. A 35-cent rate would assist the situation, and probably we would be able to maintain that, right along.

Mr. Guy: I have not heard of any expression for anything less than a 35-cent rate. I would like to hear Mr. Parker's opinion on the subject of the reduction of the 35-cent rate.

Mr. Parker: I am inclined to agree with Mr. Randolph on that subject, and I endorse his position. I do not think we ought to wait any longer, and be driven to it, and then have new conditions to contend with when we do make the reduction.

Mr. Holliday: If the reduction is made, the roads should have some assurance from the operators that the percentage will be carried out. Now, we have had several meetings with them, and we have never been able to get any assurance whatever from them. They have never been willing to discuss the question to the finish. As far as the Big Four road is concerned—during the past six years we have never had any contract coal. We have handled less coal, under the association, this last year, than we have during any corresponding period during the previous six.

Mr. Parker: You have not made less money, though?

Mr. Holliday: Yes, sir. We never gave a cent to the coal operator on any coal that we have handled. We have made less money for the road. We have not carried as much coal, and, therefore, we have not made as much money. We have carried less coal, and we never did carry any coal at less than the tariff rate, except the period last Summer when we reduced to 40 cents.

Mr. Randolph: There is only one point in this question that refers to the Consolidated Coal Company: That is, their expressed intention to build a railroad. This is the one point of contact between the Consolidated Coal Company and a 25-cent rate, in my mind. I will tell you frankly I shall endeavor to get you gentlemen to agree with me to the 35-cent rate, anyhow.

Mr. Holliday: If we have gone into this association in a spirit of fairness, for an equitable distribution of tonnage on the natural basis of percentages, we should have some concessions from the operators, and assurances that they will work with us.

Mr. Randolph: Up to a certain point they did agree to that. When we came to a disagrement as to the rate that should be charged, then they ceased to agree with us. The association agreed to work in harmony with the coal operators, but when they went into practical operation of their scheme, they found it impossible to do this.

Mr. Holliday: If we reduce the rates, we should have some assurance of co-operation on their part.

Mr. McChesney: Have they not withdrawn their tonnage from your line, Mr. Randolph?

Mr. Randolph: There is no reason to wonder at that. I think we could hardly expect them to ship at 45 cents on our line, against the contract rates prevailing on other lines.

Mr. Holliday: I think the whole difficulty in the first place was these long-time contracts. Some of them ran along for a year, and some of them for a good deal longer.

Mr. Guy: Very few of these, I may say, disturb the situation. As Mr. Parker says, I do not think there is much to be hoped for from the Bituminous Coal Company, so far as adjusting is concerned. They tried to do that, as far as they could, but interests were so varied it was a difficult matter to do.

Mr. Randolph: In order to get the sense of the association, I offer the following resolution:

Resolved, That the minimum rate of 35 cents per ton on coal to East St. Louis be re-established as soon as the necessary notice can be issued by the secretary; rates from points taking higher than the minimum rate being reduced accordingly.

Chairman: Gentlemen, if there are no further remarks, the secretary will call the roll.

The following is the vote:

C., C., C. & St. L., No. (See telegram changing vote to Aye, page 16.)
Wabash, Aye.
B. & O. S. W., Aye.
L. & N., No. (See remarks, changing vote to Aye, page 16 and telegram, changing vote back to No, page 17.)
L. E. & St. L., Aye. (Subject to approval.)
Vandalia Line, Aye.
Illinois Central, Aye.

Mobile & Ohio, not represented and declined to vote. (See telegrams, pages 15 and 16, and letter, page 26.)
T., St. L. & K. C., willing to adopt association rules.
St. L., P. & N., Aye.
St. L., B. & S., Aye. (See page 25 for record of final vote.)

Mr. Randolph: I would like to ask Mr. Holliday if there is any possibility of inducing him to change his vote?

Mr. Holliday: As far as that is concerned, I do not know just what Mr. Cost's position is, I wrote him a day or two ago, and have not received any instructions since. I am going to Cincinnati, and will explain the matter fully to Mr. Cost and see if he has changed his mind.

Mr. Randolph: Have you any objections to being recorded as not voting? Is there any possibility of the L. & N. changing its vote?

Mr. McChesney: I vote "No," for the reason that I do not think a 10-cent reduction would bring about the conditions that you think it would. I cannot change my vote.

Mr. Randolph: Under the rules of the association the vote must be unanimous.

Chairman: The agreement provides for unanimous ocnsent of all members. Gentlemen, I earnestly ask you to put your votes in such a way that there can be a chance for reconsideration.

Mr. McChesney: My position is a good deal like Mr. Holliday's. I believe that conditions will not be improved by a reduction of 10 cents, and if the object of the reduction is primarily to prevent the construction of another coal carrier, I do not believe this reduction will prevent the construction of that coal carrier, and, as I said, I do not believe that 10 cents will have any effect. If there is to be a reduction, I think it would be better to make the reduction sufficient to meet the situation. Under my instructions, I cannot change my vote.

Mr. Randolph: I understand that you are voting under instructions?

Mr. McChesney: Well, yes and no. I am, to a certain extent, and I am not; but I take the correspondence of our people to indicate that they do not favor the reduction of 10 cents.

Mr. Parker: I cannot help but feel that Mr. McChesney does not fully realize the situation. The reduction is going to be forced upon us, and we might as well accept it gracefully, and if it is forced upon us it won't stop at 35 cents—it will be something lower—much lower.

Mr. McChesney: What assurance have we that we can maintain a 35-cent rate?

Mr. Parker: As sure as the sun rose this morning, there is going to be a reduction of rates. This will be forced upon us. Then, if we ever do get together again, we will have this contract question again staring us in the face. It is only a question of time until we will be obliged to come to it. We had better take a half a loaf than no loaf at all. I would like to get the 45-cent rate as well as you, but I think that we ought to make some concession. I hope, Mr. McChesney, you will reconsider your vote.

Mr. Taylor: I am of the opinion that a 35-cent rate will satisfy the operators; it will certainly relieve the situation for the time being, at least. I think there is no question about that.

Mr. Parker: There is no advantage in waiting until you have to do a thing of this kind. In the first place, a new road would come in, and we would have to meet new competition and be forced to accept new conditions. Mr. Randolph speaks advisedly, I know, from the way he put this. If we get another road in here from the new fields we will not only have another carrier but we will have all these contracts to contend with.

Mr. McChesney: Do you believe that we can retain the 35-cent rate?

Mr. Parker: I think we can maintain the 35-cent rate to this extent: That where it is cut it won't make any figure in the situation. If that is he case, we are getting all we wanted to. We wont' get it with a 45-cent rate—that is just as sure as anything can be. I felt that way before and I feel still stronger that way now. You must give some weight to the opinions of those who are in other ways interested in the coal business. You have the assurance of a number of members here who have people who are interested also in coal mines. Knowing how others feel, I know how the coal men in general feel about that, and I want to impress that upon you as much as I can—that it is the thing to do, and if you find that you have to do anything more, take the benefit of the 35 cents as long as you can.

Mr. Randolph: The best opinions are to the effect that we can maintatin the 35-cent rate, or, rather, as you put it, we can come so near to maintaining the 35-cent rate that outsiders will make a very small showing in the market.

Mr. Guy: Make the rate 35 cents per ton, and the operators will take care of the business and not let any outside coal trouble this association.

Mr. Randolph: Not in the way of a guarantee, but at the same time they feel confident that they can take care of it. It certainly would have a very disastrous effect to have this association go to pieces; and that is just what is staring us in the face.

Mr. McChesney: I do not feel like I can change my vote, Mr. Chairman. This seems to me a matter of such importance, and I do not like to appear as holding out against the judgment of so many of you, among whom are those who are so much better posted in the coal business than myself. I am willing—rather than as indicated here, have the association go to pieces on account of any arbitrary stand that this company would take—to submit this matter to Mr. Knott for his decision.

Mr. Randolph: Leaving your line recorded as not voting?

Mr. McChesney: No, sir—leaving my line recorded as voting "No". I understand that Mr. Holliday's position is similar to mine; and it takes unanimous action to change the rate.

Mr. Holliday: I suggest that we adjourn until 3:00 p. m. today, and in the meantime I will take it up with our people by wire.

Mr. Parker: I take it that Mr. Poe, being in New Orleans, would want to confer with his people in Mobile. The probabilities are that we could not get an answer this afternoon. I would suggest that we adjourn until tomorrow at 11:00 a. m., and the matter be presented to Mr. Poe by wire.

Mr. Holliday: I will not be here tomorrow, but I will telegraph the Secretary.

Mr. Randolph: I move we take a recess, and the secretary secure the vote of the Mobile & Ohio, and endeavor to secure the vote of the Big Four and L. & N.

Mr. Taylor: I second that motion.

Motion to take recess adopted.

Meeting called to order at 11:00 a. m., February 19th —Mr. Guy in the chair.

Present: Messrs. Ramsey, of the Wabash; Orr, of the B. & O. S. W. Ry.; McChesney, of the L. & N. Ry.; Campbell, of the L. E. & St. L.; Taylor, of the Vandalia Line; Parker and Lary, of the Illinois Central; Scott, of the T., St. L. & K. C., and Guy, of the St. L., P. & N.

The Secretary: All lines are present, except the Big Four and the M. & O. Ry.

Chairman: Have you any communication from the M. & O. Ry.?

Secretary: The pending resolution, and vote on the same, was telegraphed to Mr. Poe, with the following message:

"This resolution is submitted to you so that you may vote on the same by wire, as the meeting adjourned to meet at 11:00 a. m. tomorrow, with a view of securing your assent. There was manifested a strong sentiment

towards a reduction in the rates, and this resolution was offered as a compromise. I feel quite sure, from what has occurred in the meeting, that if this resolution is not adopted a general reduction of rates will be forced upon us. You are urgently requested, in view of the importance of the subject, to wire me your vote at once.

(Signed) E. M. Ward, Joint Agent.

The following was received from Mr. Poe:

New Orleans, Feby. 18, 1897, 6:30 P. M.

E. M. Ward, Joint Agent:

The Mobile & Ohio Railway joined the Coal Association with the understanding that the rates would be advanced and maintained. Unless this can be done, and the Mobile & Ohio Railway accorded its proper share of the coal tonnage, we do not care to remain a member of your association. It has been of no benefit to us.

(Signed) J. T. Poe.

The following reply was immediately sent to Mr. Poe:

St. Louis, Mo., Feby. 19, 1897.

Message received. The question resolves itself to this: No association and no rates at all, or, an association with fairly remunerative rates. The situation is threatened in the extreme, and if some basis of compromise is not reached we will have no rates whatever. Had you been at the meeting, and heard and seen what was presented, I have no doubt but you would agree with the majority, and accept 35 cents rather than be forced to lower basis. Do you vote *Yes* or *No?* Answer.

This is Mr. Poe's reply:

New Orleans, February 19, 1897.

The Mobile & Ohio Railroad does not intend to continue in the Coal Association, as it has carried out none of its obligations to us. I cannot vote for a reduction in Coal Rates to East St. Louis."

(Signed) J. T. Poe.

The following was received from Mr. Holliday, of the Big Four:

Cincinnati, O., Feby. 19, 1897.

E. M. Ward, Joint Agent,
St. Louis.

Referring to the resolution presented at the meeting yesterday: Please change our vote to "Aye".

(Signed) W. D. Holliday.

Mr. McChesney: Mr. Chairman, at the meeting yesterday I voted No on the resolution to reduce the rate, and at that time gave my reasons for so doing. I did not believe then, nor do I believe now, that the conditions warrant this reduction, nor can I add anything to what I stated at the meeting yesterday. In view of the fact that it seems to be the desire of all members of the association to reduce this rate, we do not desire to hold an arbitrary position; and, in deference to the wishes of the majority, I will change our vote to Aye.

Mr. Campbell: I desire that our vote be changed to Aye.

Chairman: I think the Coal Association will appreciate the spirit of the L. & N., and I think events will justify it. As it stands now, the Mobile & Ohio stands on record as declining to vote.

Mr. Ramsey: That is not a withdrawal from the association, as I construe it. It is simply an intention, and there are lots of intentions formed that are never carried out.

Mr. McChesney: I think it would be well to put the new rate into effect the first of March. I think it would be well to have the reduction apply from March first.

Mr. Ramsey: If the rate is going in, it might as well go in as soon as possible.

Secretary: I have a Tariff in the printer's hands, effective Monday, February 22nd, which will be issued if the resolution is adopted today.

Chairman: I will ask for information in regard to announcing the vote. Of course, all those voting here

have voted unanimously in favor of the reduction. The M. & O. simply decline to vote.

Mr. Ramsey: Their intention to withdraw is based on the assertion that the agreement has not been carried out; so if that were made good I presume they would not withdraw.

Mr. Campbell: Mr. Poe is still a member of this association, and the rules of the association call for a unanimous vote to make a reduction.

Mr. Parker: If a line refuses to vote, it is fair to presume it will be guided by the action of the other lines.

Mr. Ramsey: I think the adoption of the 35-cent rate is an advisable thing to do. The only thing that I regret about it is that it was apparently brought about by a threat.

Mr. McChesney: Since the result of the vote on the pending resolution has not been announced, I desire to change my vote. I have just received a telegram from Mr. Knott, which has some bearing on this question. This is his telegram:

New Orleans, La., February 19, 1897.

W. S. McChesney, St. Louis, Mo.:

While you advise that certain lines claim the necessities of the situation demand the reduction, nothing is brought out to support it. Is anyone prepared to assert, or to believe, that the surrender of three hundred thousand dollars of annual revenue by the lines in interest will satisfy the demands of certain shippers? I fully appreciate the position of the B. & O. S. W., having been through the same experience. The roads standing together can and should protect it and stop such practices. I find it difficult to believe that the members of the Coal Association can get their consent to yield to blackmail demands of other interests and assume the ridiculous attitude of promptly withdrawing under the attack of the Consolidated Company, from the position we have been for twelve months past insisting should be maintained. Not believing that the reduction is either demanded or excusable, it would be improper for us to

go on record as favoring it. The L. & N. believe firmly in the maintenance of the association. The agreement provides how changes in rates shall be made, and if made under the rules all lines I feel sure will honestly co-operate in maintaining them.

(Signed) S. R. Knott.

I ask for a reconsideration—I cannot have my vote recorded as favorable. Of course, we desire to vote on all propositions that come before the association; but, under the instructions contained in the telegram that I have just read, it seems to me that I have no alternative, if I should vote, but to vote no. If the chair and the members of the association will adjourn this meeting until Wednesday, I will endeavor to get Mr. Knott here or have a personal conference with him between now and then, and advise him more fully as to the present status of the coal situation. I take it that under the rules it requires a unanimous vote to either increase the rates or reduce them, and, in view of that fact, and that the M. & O. have indicated a negative, I do not think that we would be proceeding in the regular line if we should declare the motion carried; and then, too, I believe that by a further postponement until Wednesday there would be no interest hurt in that time, and we could get the M. & O. here in conference with us.

Mr. Parker: Will Monday do as well?

Mr. McChesney: This is Friday, and Mr. Knott is in New Orleans. That would give me more time for conference with him.

Secretary: The Mobile & Ohio cannot be represented until Wednesday, anyway.

Mr. McChesney: I see that there would be no interest hurt or affected by that adjournment. I would offer this as a resolution:

Resolved: That all resolutions now pending be held in abeyance, to be considered at a meeting of the association, to be held Wednesday, the 24th, at 10:30 a. m., and that this meeting adjourn until that time.

Seconded by Mr. Taylor.

Chairman: Gentlemen, you have heard the resolution. Are there any remarks?

Carried unanimously.

Chairman: Gentlemen, this meeting stands adjourned until Wedesday, February 24th, at 10:30 a. m.

Meeting February 24th, 10:30 A. M.

Present: Messrs. Cost and Holliday, Big Four; Ramsey, Wabash; Knott and McChesney, L. & N.; Peabody, B. & O. S. W.; Campbell, L. E. & St. L.; Taylor, Vandalia; Parker and Lary, Illinois Central; Denyven, M. & O. Ry.; and Guy, of the St. L., P. & N. Ry.

The meeting was called to order by the Chairman, Mr. Ramsey.

The call of the roll showed all lines present except the T., St. L. & K. C. Ry.

Secretary: The Clover Leaf advised me by telephone that it would abide by the decision of the majority, in regard to the adoption of a 35-cent rate.

Chairman: As I understand it, this is an adjourned meeting; the question under discussion—final termination of which was postponed until today—was the question of reduction of rates. We are ready now to take up the question again. We adjourned, I believe, on the suggestion of Mr. McChesney, in order to hear from Mr. Knott or try and have him present, and also to have the Mobile & Ohio represented. All of the lines have voted in favor of a reduction of the rate, except the L. & N. and the Mobile & Ohio, who decline to vote. We are now ready to take into consideration that question again. Mr. Knott, are you prepared to handle the matter now, on the part of the L. & N.?

Mr. Knott: I think our views on the question are pretty well understood. The question has been discussed here so often. I see no reason for changing the conclusions that we have reached ater so long a discussion—that is, two or three years.

Mr. Ramsey: I was not present at the first meeting, when the B. & O. S. W. explained their reason for mak-

ing the call for the meeting, but prior to that I had—so far as the Wabash was concerned—come to the conclusion that the reduction of rates was probably advisable, under the conditions and circumstances surrounding the coal traffic at present. While I was absent the day of the meeting, we had instructed our representative to vote in favor of a reduction, if that was the matter to be considered at that meeting. I think all of the gentlemen understood the situation as well, if not better, than the chair does. The question was somewhat complicated at the last meeting by the messages which had been received from the Mobile & Ohio, stating that it was their intention to withdraw from the association (although they did not, at that time, make any formal withdrawal); therefore they declined to vote on the question. One of the reasons they gave for withdrawal was that the conditions of the agreement had not been carried out, so far as the treatment they had received from the associated lines was concerned, and therefore they intended to withdraw.

Mr. Denyven: We are not in favor of a 35-cent rate. The association, when it was formed, was formed with the idea of securing higher rates, and I think the old rate was 35 cents—at least, that was our rate. Our people have been very much dissatisfied in regard to carrying out the agreement that we have been supposed to be working under. When we joined the association, we supposed it would be a benefit to us, but it does not appear to have been of any benefit to the Mobile & Ohio Road, and, as the agreement has not been carried out, my instructions are to give notice that the Mobile & Ohio will withdraw from the St. Louis Coal Traffic Association.

Chairman: What conditions have not been carried out?

Mr. Denyven: The agreement has not been complied with.

Chairman: As I understand, the reason given by your people for desiring to withdraw is the failure to carry

out the agreement. If that reason is removed, then there is no reason for your pulling out?

Mr. Denyven: As I remarked at the beginning—our people do not care to agree to the reduced rate of 35 cents, which seems very likely to be established. However, if all matters of difference can be adjusted satisfactorily, I think our line would be willing to remain in the associaton.

Mr. Peabody: When the rate was formerly 35 cents, or less, did your line carry 45 cents?

Mr. Denyven: No, sir. We carried 35 cents, up to the 15th day of September, 1896. After that date we made the rate 45 cents, which is our present rate.

Mr. Peabody: Mr. Chairman, I move that we proceed to consideration of the rate question.

Chairman: Has anyone any remarks to make on that question? Will some gentleman who is posted on the situation give Mr. Knott a little information—he was not present at the meeting the other day—and give the reasons why we think the rate should be reduced?

Mr. Peabody: I believe the original proposition to reduce the rate came from the B. & O. S. W. I think the last meeting was called at Mr. Randolph's request. Mr. Randolph stated our position in the meeting which was held last week. I expect Mr. Knott has had the situation explained to him by Mr. McChesney, and I do not know that I can give the matter the presentation that Mr. Randolph did. The matter came up while I was away, and he acted on it personally; but the situation in short, was to the effect that we had received a proposition from the Consolidated Coal Company to give them trackage rights, with or without terminals, between East St. Louis and O'Fallon; those rights to include privileges as if they owned their own railroad. Mr. Randolph went on to explain in detail how it all came about; that the original proposition had been to build. He felt that the 45-cent rate was too high, and that the Consolidated Coal Company felt that with a 45-cent rate—considering all the other circumstances—they could better afford to have their own railroad and

participate in the benefits to be derived from a 45-cent rate. On the other hand, they would be in better shape to protect themselves if there should be no agreement as to rates. Mr. Randolph stated that he was not sure that with a 35-cent rate we would be in beter position to deal with the question, and that it would leave matters in very much better shape for us if the 35-cent rate should be adopted. He stated further that it was our opinion that it was impossible to maintain this association on a satisfactory basis on a 45-cent minimum rate —that the rate was too high—it made it impossible for the Bituminous Coal Company to co-operate with the railroads; it made it too attractive for outside coal, and, considering all the conditions, we felt like pushing the question of the 35-cent minimum rate, and in this I believe that nearly all of the lines are in full accord with us. That was the statement of Mr. Randolph, with the addition that he was obliged to make his report the latter part of last week. We feel that we would like to get 45 cents as a minimum, if we could, but we do not believe it is practicable. You have all seen how our business is leaving us, until we have now practically no coal business left. In view of this condition (while of course we feel that we can afford to take reasonable chances as to the association hanging together and our company getting what is due it), and in the face of the strong conviction we have that 35 cents is high enough, and the further fact that the B. & O. has tried to live up to this agreement, in accordance with the lines prescribed, for a year, and all other roads agreeing with us that it is time to try the 35-cent rate, we think the 35-cent rate should be adopted. That, Mr. Chairman, in substance, is the position of our company.

Chairman: Will Mr. Guy or Mr. Parker state the position, from their knowledge of the coal question, and the necessity of lower rates to keep out the outside coal?

Mr. Guy: No road finds the high rates more acceptable than ours—that is what we live upon, mostly—and no person would be more anxious to maintain the 45-cent rate, if we felt at all assured that it could be main-

tained. But from the knowledge that we have I feel very confident that it cannot be maintained, and I think the result would be disastrous to all in trying to maintain it. That is why I think we should gracefully submit to the inevitable.

Chairman: Mr. Knott, are you prepared to vote on that matter?

Mr. Knott: No, I prefer not to vote, Mr. Chairman. We do not favor the reduction, and I do not propose to say that we do.

Chairman: In your message the other day you said that if the reduction was made under the rules that, while you did not favor it, you would of course obey it. It would require your vote, you know, under the rules to put it into effect. You mean that, while still protesting, you would meet and maintain the rate?

Mr. Knott: That depends very largely upon what position the association is going to take or whether you are going to have an association or not.

Chairman: Under the rules, the resolution is not carried. Is the Mobile & Ohio prepared to vote on the question of reduction of rates?

Mr. Denyven: No, sir. We do not favor it.

Mr. Peabody: Is that a negative vote, Mr. Denyven?

Mr. Denyven: I do not care to vote for it. I am not in favor of the reduction.

Chairman: If I remember the agreement, it does not require simply a unanimous vote of all voting—it requires the consent of all parties to the agreement.

Mr. Peabody: I do not think any of us want to make the reduction for the sake of making it; but a good many of us voted in favor of it because we think it is necessary. I do not exactly see where we would stand, in view of this state of affairs.

Chairman: The rates cannot be changed by this association unless all of the members are in favor of it.

Mr. Peabody: I think you are right, Mr. Chairman. Of course it rather places us in a worse position than ever. I have said in former remarks that as long as there was an association and everything was satis-

factory and everybody seemd to be carrying it out in as good faith as we, that in spite of the fact that we have been losing all of our coal business we were not so badly off as the tonnage report would show; but here is a situation where most of the lines favor applying a 35-cent rate, and the Mobile & Ohio says the same. That perhaps might be satisfactory, but I do not know how our people would look on letting the thing drift along any longer with the association in such a condition as this will be, depending on getting our share of the traffic in one way or another. I feel that if we do not come to some amicable settlement of the thing today, it would not be safe for us to wait and depend on getting what was due us. Of course, we would like to haul coal at 45 cents, but, aside from the proposition that we have had made to us, we are thoroughly convinced that it would be very much more satisfactory if we were to drop to a 35-cent rate and try it that way. We would rather haul it at 35 cents than to have the whole thing go to pot and haul for 25 cents or less, as we certainly will be obliged to do if this association is dissolved.

Mr. Knott: We are, as it seems to me, assuming the rather unpleasant attitude of confessing that all we have done in the last two or three years has been done wrong; that we do not know anything about our own business, and must have outsiders tell us. And they put us in the attitude that the minute we try to proceed under the agreement we are told that the agreement is not to be minded—in other words, that while the agreement says "unanimous action," it means that when one line wants to make a change the other lines must consent to it.

Mr. Peabody: It seems to me that the gentlemen who voted to reduce the rate did not do so simply because the B. & O. wanted it done. I think I am safe in making that assertion. I do not think these gentlemen would have voted for it if they had not thought there was merit in it aside from that.

Mr. Guy: I have conversed with one or two of the other representatives, and they agree that there was

something necessary to be done, in regard to the rate. Circumstances will excuse us, and I do not think it is necessarily a lowering of pride to meet existing conditions; we can be consistent in changing to meet conditions.

Chairman: I would say that I came to that opinion without giving any weight at all to the Baltimore & Ohio Southwestern proposition. In fact, I did not know at that time that they had that proposition. I may over-estimate the competition from the Springfield, Girard and Virden district, because we are up in that territory ourselves, but I am satisfied that at the 45-cent rate the tonnage brought into St. Louis and East St. Louis from that territory, by the outside lines, will largely increase instead of decrease.

Mr. Peabody: Mr. Knott, will you not state a little more fully why you think a 35-cent rate would not be advisable?

Mr. Knott: The conditions that have been referred to have been well known to all of us for a considerable period of time. The anticipated competition of outside lines was thoroughly considered. While I defer to Mr. Guy's information in regard to the subject of coal prices and sales it has always seemd to be unwise to reduce on 98 per cent of the tonnage for the purpose of trying to force out 2 per cent. I see nothing to indicate any assurance from the parties backing this railroad scheme that they would abandon that scheme, whether we made a 35-cent rate or not. There is another scheme also talked about—a scheme to build a line from East St. Louis to Belleville. Who the parties are, I am not prepared to say just now. So if we are going to reduce the rates at all, we had better put it down to a much lower basis that 35 cents. I do not think the difference between 35 and 45 cents is the consideration that would control the parties back of the O'Fallon scheme.

Mr. Peabody: Mr. Randolph stated that he did not know whether it would or not. He thought it might, and he felt assured it would help the general situation. Of

course, the percentage of outside coal, as Mr. Knott says, may be small now, but we have no guarantee that it will continue to be the present per cent of the total amount. It is growing all the time. We feel that it will not grow if the rate is made 35 cents; we feel that it will continue to grow so long as the 45-cent rate is maintained, and we will have to come to it sooner or later.

Mr. Ramsey: Gentlemen, without the vote of those two members of the association, the chair will have to declare the resolution to reduce the rates as lost.

Mr. Peabody: Are there any provisions as to withdrawal from the association?

Chairman: Would you be in favor of a reduced rate, Mr. Knott, if the railroad coal was put on the same rate? Now we have 31½c for railroad coal—

Mr. Peabody: Mr. Knott, don't you think it would be better, if the 35-cent rate will enable all of the lines to come nearer carrying their allotted per cents., to do that than to have the present conditions, with some lines running very far ahead and others behind?

Mr. Knott: I see nothing to indicate that with 35 cents there would be any more equitable distribution of tonnage than at present—probably more inequitable.

Mr. Peabody: Your situation is different from ours. We are doing no coal business at all, and you are carrying in excess of your usual percentage.

Mr. Knott: Against our protest, and because of the refusal of the Consolidated Coal Companies to take action as we asked them to do. I do not see, so far as the transportation of coal tonnage is concerned, how it would be affected by the rate.

Mr. Peabody: Mr. Chairman, I would ask for a call of the roll, and have the vote on the question anyhow.

Chairman: We have the votes, Mr. Peabody, of all the roads except the two who declined to vote. They have all voted "aye." That is on record.

Mr. Peabody: Then I understand all the lines voted "Aye," except the two who are opposed to the reduction, and decline to vote. One is opposed to the reduction, and the other declines to vote.

Mr. Knott: There has been no negative vote cast.

Chairman: The chair would hold that, no matter what their reasons for declining to vote, it would require their assent to the reduced rate to change the rate which is fixed in the agreement here; because it expressly provides that it shall have unanimous consent. Now, if they simply declined to vote and said they did not care whether the rates were reduced or not, or that they would accept the rates—leaving it to the rest to decide—the chair might decide otherwise; but, under the agreement, as long as they decline to vote, without expressing any other view, we cannot admit that the resolution, as yet, is adopted.

Mr. Parker: It seems then that the association has decided that the rates shall remain at 45 cents. I sincerely hope that no line contemplates taking any independent action. We are now at a point where the associated lines can make a little revenue out of the coal business, whether it is a 35-cent or a 45-cent rate, and I sincerely hope that no line will contemplate withdrawing from the association, and that they will abide by the rules of the association.

Chairman: The mere refusal of the association to reduce the rates does not cancel the agreement, Mr. Parker. They are all bound by the agreement to maintain the rates—whatever they are.

Mr. Knott: Mr. Chairman, will you say whether the C., P. & St. L. is a party to this agreemnt or not?

Chairman: No, sir. They are not parties to it. There is a prospect, however, of getting them into it. Some efforts are being made to that end.

Mr. Peabody: Mr. Chairman, you could not stretch your opinion in this thing so far as to leave out these lines who decline to vote?

Chairman: The chair put the question a little while ago, whether their objection to the rate would simply be considered as a protest, and they would let the others make that rate, and they declined to put themselves in that position, as I understand it.

Mr. Knott: I said our position would be dependent on what the position of the association was. We have notice from one member that they have received no benefit in the association and propose to withdraw. They do not say when, but I suppose the notice might take effect at any time.

Mr. Denyven: If you have any proposition to make, I would be glad to submit it. My instructions were to withdraw from the association.

Chairman: Gentlemen, unless there is some resolution in regard to this rate matter, the chair will decide that, as stated a little while ago, it has failed to carry.

Mr. Taylor: There is one thing that I might state: A very prominent coal operator a few days ago said to me that a proposition had been made to him by a road that is not a member of the association to guarantee him a rate of 25 cents a ton, for all the coal he would put out for five years—that is, if he would sink a new shaft. I met him and told him that was what I had heard, and said I would like to know if it was true. He said that it was. These conditions of course, must be met in some way.

Chairman: Suppose the rate was reduced to 35 cents—the C. P. & St. L. would still be willing to give him a five-year contract. Would he not take it? Gentlemen, what shall we do?

Mr. Knott: I would like to ask the chairman what he considers the status of the St. Louis Coal Traffic Association, under the notice of the Mobile & Ohio?

Chairman: I consider the situation simply this: The Mobile & Ohio has served notice that it will withdraw from the association unless the terms of the agreement are fully carried out. I would suggest, however, that that matter be referred to the Executive Committee, in conjunction with Mr. Parker and Mr. Poe or Mr. Denyven, the representative of the Mobile & Ohio Road, and see if some satisfactory settlement could not be made. I understand that is their one condition, although of course they do not wish to commit themselves today, as withdrawing their notice if that is done; but, as I

understand it, from the notice and messages received, that is the trouble—that the terms of the agreement have not been carried out.

Mr. Knott: Then your idea is that the Executive Committee should act as an arbitrator between the Mobile & Ohio and the Illinois Central Railways?

I know that the Illinois Central is willing, and had supposed they had made the proposition in accordance with the agreement and are ready to do what is reasonable and fair.

Mr. Denyven: I will withhold the notice I have given until Mr. Poe returns, which I think will be tomorrow.

The following was offered by Mr. Guy, seconded by Mr. Holliday, and unanimously adopted:

Resolved, That the difference of the Mobile & Ohio Railroad with the association be referred to the Executive Committee for its consideration.

Chairman: The records will show that Mr. Denyven suspends his notice of withdrawal, pending the action of the Executive Committee at its meeting, which will be held tomorrow, at 2:00 p. m., in his office.

Mr. Denyven: It was merely a notice of our intention to withdraw.

Mr. Knott: In other words, let that notice of intention to withdraw be suspended, pending the report of this committee.

Mr. Denyven: There is no objection to that, Mr. Chairman.

Following is the resolution reducing the rate, and the result of the final vote on its adoption:

Resolved, That the minimum rate of 35 cents per ton on coal to East St. Louis be re-established as soon as the necessary notice can be issued by the secretary; rates from points taking higher than the minimum rate being reduced accordingly.

(These rates to become effective March 1, 1897.)

C. C. C. & St. L., Aye.

Wabash, Aye.
B. & O. S. W., Aye.
L. & N., (Mr. Knott: The L. & N. desires to state that in the event of the differences of the M. & O. Ry. being reconciled, so that its continued membership in the present agreement is assured, it will in deference to the views expressed by all of the other members of this association, not withhold its consent to establishing the rates of the association on the basis of 35 cents per ton minimum.)
L. E. & St. L., Aye.
Vandalia, Aye.
Illinois Central, Aye.
Mobile & Ohio, Aye. (See letter below from Mr. J. T. Poe, G. F. A.)
T. St. L. & K. C. (Willing to adopt any rates established.)
St. L. P. & N., Aye.
St. L. B. & S., Aye.

Mr. Parker: As I understand it, the Mobile & Ohio is the only line which will not vote. Is that one of the questions to be brought before the committee—the final vote on the reduction of rates?

Chairman: The chair will have to secure from the M. & O. its consent to the reduction in rate, or the resolution will not be carried. All the other lines now will assent to the reduction, and it remains with the M. & O. to cast its vote.

The meeting, on motion, adjourned.

E. M. Ward, Secretary.

Joseph Ramsey, Chairman.

The Executive Committee met in the Joint Agent's office on Thursday, February 25th, at 2:00 p. m. All members present.

All matters of difference between the Illinois Central Railroad and the Mobile & Ohio Railway were satisfactorily adjusted.

Since the announcement of the decision by the Executive Committee, both the Illinois Central and the Mobile

& Ohio have signified their willingness to abide by the result.

The following letter, being the vote of the Mobile & Ohio Railway, is appended:

St. Louis, Mo., Feb. 27, 1897.

Mr. E. M. Ward, Joint Agent, St. Louis Coal Traffic Ass'n., St. Louis, Mo.

Dear Sir: At the conference with your Executive Committee in your office on the 25th inst., I was asked if the Mobile & Ohio R. R. would cast an affirmative vote on the proposed reduction in coal rates of ten cents per ton, which would make the basis from the nearby mines 35 cents per ton to East St. Louis. I replied that the Mobile & Ohio R. R. was not in favor of the reduction, and very much regretted that it seemed by others to be necessary; but that if the Mobile & Ohio R. R. was the only objecting line, we would, in deference to the others, withdraw our objections, and vote "Aye."

I also, as you will remember, stated that the Mobile & Ohio Railway would remain a member of the association only on the understanding that all its terms would be fully carried out by its members.

Yours truly,

(Signed.) J. T. Poe, G. F. A."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 2"; as follows:

Meeting of the St. Louis Coal Traffic Association.

Friday, April 16th, 1897, 10:30 A. M.

All lines present, except the C. P. &. St. L. and T. St. L. & K. C. Railways.

The meeting was called on the request of Mr. W. W. Peabody, Coal Traffic Manager of the B. & O. S. W. Railway, who desired some information as to the intentions of the lines with respect to balances. This question was fully discussed, and after due consideration, it was the opinion of the lines, that owing to the recent Supreme Court decision, no action could be taken in the premises.

For some time past, coal has been coming to this market from off the line of the J. & St. L. Railway; this coal is transported to St. Louis over the line of the C. P. & St. L. Railway from Litchfield, Ill. In taking this coal to account, the Joint Agent has been charging the same to the proportion of the C. P. & St. L. Ry., which proportion, by virtue of an understanding between the Wabash Railway and the other members of the Association, has been credited to the Wabash,—that company having assumed, with the consent of the other lines, the proportion of the C. P. & St. L. Ry. Mr. Ramsey stated that when his line assumed the percent of the C. P. & St. L. Ry., he did not undertake to protect then, nor was he willing to assume now, coal coming from off a line not a member of the Association. He stated that while he was willing to assume all coal handled from off the line of the C. P. & St. L. Ry. in the combined percent, he was unwilling to assume coal from territories reached by lines entirely outside the jurisdiction of the St. Louis Coal Traffic Association.

After full discussion the Joint Agent was instructed to report the coal from off the line of the J. & St. L. Ry., transported to St. Louis over the C. P. & St. L. Ry., separate and distinct from coal mined on the line of the C. P. & St. L., and that no part of the coal off the J. & St. L. Ry., should be charged to the proportion of the C. P. & St. L., and that the monthly reports for January and February and March, for the year 1897, should be changed so as to show the J. & St. L. coal, separate and distinct from coal mined on the line of the C. P. & St. L. Railroad proper.

(Note: Peports for January, February, March, April and May, were made up in accordance with the above instructions. Beginning with June 1st, 1897, all coal handled over the C. P. & St. L., whether from off the line of the J. & St. L. Ry., or not, was charged against the proportion of the C. P. & St. L. Ry., the agreement between the Wabash Railway and the other members of the Association, with respect to the C. P. &. St. L. Ry's. percent, having expired on May 31st, 1897.)

On motion the meeting adjourned.
Joseph Ramsey, Chairman.
E. M. Ward, Joint Agent."

Complainant offers in evidence " Complainant's Exhibit Fraser No. 3," as follows:

Meeting of the St. Louis Coal Traffic Association.

Tuesday, May 25th, 1897, 10:30 A. M.

There were present:
Joseph Ramsey, V. P. & G. M., Wabash Railway;
Henry Gays, Gen'l Mangr., St. Louis C. & St. P. Ry.;
C. H. Bosworth, Gen'l Mangr., C. P. & St. L. R. R.;
Y. Van Den Berg, Traffic Mangr., L. & N. R. R.;
W. S. McChesney, Jr., Supt. Terminals, L. & N. R. R.
W. E. Keepers, G. F. A., Illinois Central R. R.
C. F. Parker, Genl. Agent, Illinois Central R. R.
Geo. E. Lary, A. G. F. A., Illinois Central R. R.
N. W. Taylor, G. F. A., Vandalia Line.
W. W. Peabody, Coal Tr. Mngr., B. & O. S. W. R. R.
R. A. Campbell, G. F. A., L. E. & St. L. R. R.
W. S. Weed, G. F. A., T., St. L. & K. C. R. R.
J. M. Denyven, A. G. F. A., Mobile & Ohio R. R.
Wm. E. Guy, President, St. L. P. & N. R. R.
W. D. Holliday, A. G. F. A., C. C. C. & St. L. R. R.
All lines present.

The meeting was called to order by the chairman, Mr. Ramsey, who stated that the conference had been called by the Executive Committee to consider the coal traffic situation in general, and, if possible, arrive at some understanding which would bring about a more satisfactory condition of affairs with respect to coal rates.

The following list of subjects was submitted for consideration:

Is it desirable that all coal carriers be members of this association?

Can rates be successfully maintained without full cooperation of all the coal carriers?

If the present basis of rates is to maintained, should any line make contracts for the future delivery of coal at less than thirty-five (35) cents per ton.

It was moved and seconded that the sense of the lines be taken as to the desirabilitiy of continuing the association, and if all lines would be willing to become members and undertake to carry out the rules and regulations of the same. The poll resulted as follows:

C. C. C. & St. L.—Think an association is desirable; that all lines should be members, and willing to join in any plan that would secure remunerative rates.

Wabash—The Wabash Railroad is heartily in favor of an association, for we believe that in no other way can equitable rates be secured and maintained, and that all lines should be members.

B. & O. S. W.—Same position as the Wabash.

L. & N.—Same position as the Wabash.

L. E. & St. L.—This company has heretofore participated in the maintenance of rates on coal and has co-operated with this association in every way it possibly could. We have, during the past year, refused to pay any portion of the expense, but we are willing in future, if the association rates are maintained, to pay our proper proportion of the expenses of the association. We cannot join in any arrangement looking to a division of the traffic.

Vandalia—This company favors the maintenance of an association, for in no other way can rates be successfully maintained. We cannot join in any arrangement looking to a division of the traffic.

Illinois Central—Same position as the Wabash.

Mobile & Ohio—Same position as the Wabash, provided a fair division of the traffic can be agreed upon.

T. St. L. & K. C.—This company is prepared to co-operate, and has co-operated, with this association. We cannot agree to any division of the traffic—will not pay, nor will we receive, balances.

St. L. P. & N.—Same position as the Wabash.

C. P. & St. L.—Will probably be willing to join the association, but not willing to join an agreement looking to a division of the traffic.

St. L. B. & S.—Same position as the Wabash.

St. L., C. & St. P.—This company is in a receiver's hands, and cannot join any agreement looking to a division of the traffic; we are willing to maintain rates.

The question of contracts for future delivery of coal at less than the agreed tariff rates was taken up and fully considered, and, it being thought advisable to ascertain what lines, if any, had taken contracts, a poll was taken with the following result:

C. C. C. & St. L.—This line has made no contracts at less than tariff rates.

Wabash—Same position as the Big Four.

B. & O. S. W.—Same position as the Big Four.

L. & N.—Same position as the Big Four.

L. E. & St. L.—Same position as the Big Four.

Vandalia—Same position as the Big Four.

Ill. Central—Same position as the Big Four.

M. & O.—Same position as the Big Four.

T. St. L. & K. C.—Same position as the Big Four.

St. L., P. & N.—Same position as the Big Four.

C. P. & St. L.—This company has two contracts, neither one of which should affect the rates on coal to this territory. One contract is with the Consolidated Coal Company, the other is with a new mine which we are trying to develop. One contract is to run for one year from May, 1897. (On being asked on what basis of rates these contracts were taken, Mr. Bosworth declined to make the rate known.)

St. L., B. & S.—No contracts.

St. L. C. & St. P.—Have two or three small contracts, at practically a 35 cent minimum rate to East St. Louis.

The Chicago, Peoria and St. Louis Railroad refusing to state at what basis of rates its contracts had been taken, the following poll of the lines was taken, as to whether contracts had been taken at a less rate than 25 cents per ton:

C. C. C. & St. L.—No contracts at less than 35 cents per ton.

Wabash—No contracts at less than 35 cents per ton.

B. & O. S. W.—No contracts at less than 35 cents per ton.

L. & N.—No contracts at less than 35 cents per ton.

L. E. & St. L.—No contracts at less than 35 cents per ton.

Vandalia—No contracts at less than 35 cents per ton.

Illinois Central—No contracts at less than 35 cents per ton.

Mobile & Ohio—No contracts at less than 35 cents per ton.

T. St. L. & K. C.—No contracts at less than 35 cents per ton.

St. L. P. & N.—No contracts at less than 35 cents per ton.

St. L., B. & S.—No contracts at less than 35 cents per ton.

St. L., C. & St. P.—No contracts at less than 35 cents per ton.

C. P. & St. L.—Declines to state.

(Meeting took recess, from 1:15 until 2:00 p. m.)

The following resolution was offered by Mr. Guy and seconded by Mr. Campbell:

Resolved, That it is the sense of the lines here represented that a 25-cent minimum rate be established from mines furnishing what is commonly known as "Standard" coals to East St. Louis or other points opposite the City of St. Louis, Mo.—the agreed differentials applying from other mines. This 25c-per-ton rate to remain in effect until June 1st, 1898; and all lines agreeing not to make any new contracts—or to extend existing contracts—beyond that date, at less than the rate of 35 cents per ton.

The following vote was taken:

C. C. C. & St. L.—No.

Wabash—Vote reserved. (Vote no.)

B. & O. S. W.—Vote reserved. (Vote no.)

L. & N.—No.

L., E. & St. L.—No, for the reason that 25 cents per ton is not low enough.
Vandalia—No, subject to approval.
Illinois Central—No.
Mobile & Ohio—No.
T., St. L. & K. C.—No.
St. L., P. & N.—No.
C., P. & St. L.—No.
St. L., B. & S.—No.
St. L., C. & St. P.—No.
The resolution was declared lost.

The following resolution was offered by Mr. McChesney and seconded by Mr. Holliday:

Resolved.—That the present minimum rate of 35 cents per ton, with the agreed differential rates from the various distant territories, be absolutely maintained by all the lines here represented, and no change be made therein without five days' notice to the Joint Agent, who shall advise all lines.

Mr. Campbell moved to amend the resolution by changing the five days' notice to ten days.'

The following vote was taken on the amendment:
C., C. C. & St. L.—No.
Wabash—Vote reserved. (Votes No.)
B. & O. S. W.—Aye.
L. & N.—No.
L. E. & St. L.—Aye.
Vandalia—Aye. Subject to approval.
Illinois Central.—No.
Mobile & Ohio—Vote reserved. (Votes No.)
T., St. L. & K. C.—Aye.
St. L., P. & N.—Vote reserved. (Votes No.)
C., P. & St. L.—No.
St. L., B. & S.—No.
St. L., C. & St. P.—No.

The amendment being declared lost, the following vote was taken on the original resolution:
C., C. C. & St. L.—Aye.

Wabash—Vote reserved. (Votes Aye.)
B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—No.
Vandalia—No.
Illinois Central—No.
Mobile & Ohio—No.
T., St. L. & K. C.—Vote reserved. (Votes aye.)
St. L., P. & N.—Aye.
C. P. & St. L.—Aye.
St. L. B. & S.—No.
St. L., C. & St. P.—Aye.

The chairman stated that inasmuch as the agreement provided that unanimous consent must be secured to any change in rates, *or the manner of making rates,* and, as this resolution provided for five days' notice in any change of rates, he was obliged, under the agreement, to declare the resolution lost.

After full discussion by all the lines represented, the following resolution was introduced by Mr. Parker and seconded by Mr. McChesney:

Whereas; It having been found impossible to perfect an organization suitable to all coal-carrying lines in interest; and

Whereas; It being desirable that some organization be maintained for statistical and other purposes; be it therefore

Resolved: *First*—That for purpose of forming and maintaining an organization of the coal-carrying lines, the office of joint agent be continued for statistical and other purposes until such time as the lines are able to form a more satisfactory agreement looking to the settlement of the coal situation;

Second—That the expense of the joint agent's office shall be apportioned between these lines, according to all current coal tonnage, exclusive of Western shipments.

Third—That all coal handled from mines in Illinois to St. Louis, Mo., East St. Louis, Venice, Madison,

Granite City and East Carondelet, Ill., shall be, reported to the joint agent, daily, in such manner as, in his judgment, the best interests of the lines may require.

Fourth—That the joint agent be, and is hereby, instructed to continue his reports to the lines, daily and monthly, as heretofore.

Fifth—That each road present submit to the joint agent the minimum rate which it proposes shall be in effect on and after June 1st, 1897, over its own line, and that the present agreed differential rates shall be maintained from the various distant coal territories; these rates to be of record with the joint agent,—each road agreeing to make no change therein without five (5) days' notice to the various members and the joint agent of this bureau.

Sixth—That the name of this organization be changed to the "Illinois Bureau of Coal Statistics," and the title of the joint agent be changed to that of secretary.

Seventh—That the executive committee be, and is hereby, continued, and that its membership be increased to five (5) members, instead of three (3), as at present constituted.

This resolution was discussed for some time, and, as the lines were not prepared to take a vote on same, the following was introduced by Mr. Holliday, seconded by Mr. Guy and unanimously adopted:

Resolved: That this meeting now adjourn until Tuesday, June 1st, at 10:30 a. m., and that the consideration of the pending resolution be postponed until that date, and each member be furnished a copy of the same, and that all lines here represented pledge themselves to maintain absolutely the present tariff rates of this association and make no contracts for the future delivery of coal at less than the said agreed tariff rates.

The following vote was taken on the above resolution:

C., C. C. & St. L.—Aye.

Wabash—Vote reserved. (Votes aye.)

B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—Aye.
Vandalia—Aye.
Illinois Central—Vote reserved. (Votes aye.)
Mobile & Ohio—Aye.
T., St. L. & K. C.—Aye.
St. L., P. & N.—Aye.
C. P. & St. L.—Aye.
St. L. B. & S.—Vote reserved. (Votes aye.)
St. L., C. & St. P.—Aye.

The meeting adjourned at 4:45 P. M., to meet in the office of the joint agent at 10:30 a. m., Tuesday, June 1st, 1897.

Jos. Ramsey, Chairman. E. M. Ward, Joint Agt.

Note:—See proceedings of June 2nd, 1897."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 4;" as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC ASSOCIATION.

Wednesday, June 2nd, 1897. 10:30 A. M.

There present were:
W. D. Holliday, A. G. F. A., C. C. C. & St. L. Ry.
Joseph Ramsey, V. P. & G. M., Wabash Railway.
Geo. F Randolph, Traffic Mgr., B. & O. S. W. R. R.
W. W. Peabody, Coal Tr. Mgr., B. & O. S. W. R. R.
Y. Van Den Berg, Traffic Mgr., L. & N. R. R.
W. S. McChesney, Supt. Terminals, L. & N. R. R.
Lee Howell, G. F. A., L. & N. R. R.
R. A. Campbell, G. F. A., L. E. & St. L. R. R.
N W. Taylor, G. F. A., Vandalia Line.
T. J. Hudson, Traffic Mgr., Ill. Central Ry.
C. F. Parker, Genl. Agt., Ill. Central Ry.
W. E. Keepers, G. F. A., Ill. Central Ry.
Geo. E. Lary, A. G. F. A., Ill. Central Ry.
J. T. Poe, G. F. A., Mobile & Ohio R. R.
R. B. F. Pierce, Receiver, T. St. L. & K. C. R. R.
W. S. Weed, G. F. A., T. St. L. & K. C. R. R.

C. H. Bosworth, Genl. Mgr., C. P. & St. L. R. R.
W. M. Bushnell, G. F. A., C. P. & St. L. R. R.
Henry Gays, Genl. Mgr., St. L. C. & St. P.
All lines present, except the St. L., P. & N. Railway.

The meeting was called to order by the chairman, Mr. Ramsey.

The resolution, which was pending at the meeting of the 25th of May, the consideration of which was postponed until this meeting, was withdrawn.

It was thought that a poll should be made with a view of ascertaining if the lines would be willing to maintain an association, and if the present percents are satisfactory.

C. C. C. & St. L.—Willing to remain in the association and satisfied with present percents.

Wabash—Same as the big Four.

L. & N.—Same as the Big Four, but all lines must be members.

B. & O. S. W.—Same as the Big Four, but want some understanding reached as to the settlement of balances.

L. E. & St. L.—Not a party to any percentage division; not satisfied with our present allotment; would be satisfied with a fair allotment, and would agree to maintain it. We are willing to become a member of the association, provided a satisfactory rate is established and maintained, and a proper allotment is given our line.

Vandalia Line—The Vandalia is not a party to the percentage division; we would, however, be satisfied with a fair percent if same is assigned us; we cannot allow any reduction from our present per cent for outside lines.

Illinois Central—Same position as the Big Four.

Mobile & Ohio—Same position as the Big Four, but it is with the understanding that balances must be adjusted.

T. St. L. & K. C.—Same as the big Four, excepting that we are not satisfied with the 2½ per cent; think we should have 3½ per cent.

St. L., P. & N.—Absent.

C. P. & St. L.—Cannot now say if we can join any tonnage division of the business; may be able to state at a later period, as to this. We are willing to make report of all our coal tonnage to the joint agent, daily.

St. L. B. & S.—Same position as the Big Four.

St. L., C. & St. P.—Would be willing to join the association provided a fair percentage were allotted to our line; we think 3 per cent would be fair.

The following was offered by Mr. Van Den Berg and seconded by Mr. Holliday :

Resolved, That the articles of organization, of date, July 21st, 1896, forming the St. Louis Coal Traffic Association, be, and are hereby, amended as follows:

First—That the Bluff Line be added to its membership.

Second—That section three, first page, be amended to read as follows: To fix just and reasonable rates from time to time, but nothing herein shall be construed as preventing any member from taking individual action in fixing rates; five days' notice thereof to be given all other members through the chairman.

Third—That the following be substituted for paragraph A, second page: It is agreed that rates fixed under the preceding paragraph shall be maintained until changed as provided for.

Fourth—Eliminate the whole of Section four.

Fifth—Eliminate the whole of Section five.

The following vote was taken on above :

C. C. C. & St. L.—No.

Wabash—In favor of this resolution, if we cannot otherwise maintain the association.

B. & O. S. W.—No.

L. & N.—Aye.

L. E. & St. L.—No.

Illinois Central—Aye.

Mobile & Ohio—No.

T., St. L. & K. C.—No.
St. L. P. & N.—Absent.
C. P. & St. L.—Aye, subject to approval.
St. L. B . & S.—Aye.
St. L., C. & St. P.—Aye.
The resolution was declared lost.

The following was offered by Mr. Randolph and seconded by Mr. Ramsey:

Resolved, That the minimum rate be made 20 cents per ton; and that the present agreed differentials be maintained from distant territories.

Vote:
C. C. C. & St. L.—No.
Wabash—Not voting.
B. & O. S. W.—Aye.
L. & N.—No.
L. E. & St. L.—No.
Vandalia Line—No.
Illinois Central—No.
Mobile & Ohio—No.
T., St. L. & K. C.—No.
St. L. P. & N.—Absent.
C. P. & St. L.—No.
St. L. B & S.—No.
St. L. C. & St. P.—No.
The resolution was declared lost.

Gentlemen: It is the ruling of the chair that the agreements of July 21st, 1896, are still in force and effect, and are binding on all lines, and that no line is at liberty to act independent of either.

The following was offered by Mr. Gays and seconded by Mr. Holliday:

WHEREAS, The situation as to the coal traffic has become a question as to the rates to be charged; and

WHEREAS, In order that each line may have an opportunity to indicate the rate he would endorse; be it

Resolved, That on roll call, each line shall designate which of the following named minimum rates he wishes to be applied:

Minimum rate of 35 cents per ton.
Minimum rate of 30 cents per ton.
Minimum rate of 25 cents per ton.
Minimum rate of 25 cents per ton.
Minimum rate of 20 cents per ton.
Minimum rate of 15 cents per ton.
Minimum rate of 10 cents per ton.

The rate receiving the greater number of votes to be then submitted to this meeting for consideration.

The following is the vote:

C. C. C. & St. L.—Votes for the 35c per ton.
Wabash—Votes for the 35c per ton.
L. E. & St. L.—Votes for the 35c per ton.
Vandalia Line—Votes for the 35c per ton.
Illinois Central—Votes for the 35c per ton.
Mobile & Ohio—Votes for the 35c per ton.
T. St. L. K. C.—Votes for the 35c per ton.
C. P. & St. L.—Votes for the 35c per ton.
St. L., B. & S.—Votes for the 35c per ton.
St. L. C. & St. P.—Votes for the 35c per ton.
Baltimore & Ohio—Votes for 20c per ton.
L. & N.—Votes for 25c per ton.
St. L., P. & N.—Absent.

Ten vote for 35 cents, one line votes for 25 cents, and one line votes for 20 cents per ton.

After full discussion, wherein it was found that a 35 cent-per-ton rate could not be maintained on account of the existing 25 cent contract of the C. P. &. St. L Railway, the following was introduced by Mr. Randolph, seconded by Mr. Hudson and unanimously adopted:

Resolved, That the minimum rate on coal to East St. Louis be reduced to 25 cents per ton of 2,000 pounds; and be it further

Resolved, That the agreed differentials applying from distant territories be reduced accordingly; except

that the differentials from Sandoval, Odin and Salem may be made 7½ cents per ton higher than the minimum rate; and be it further

Resolved, That this rate applies on all coal,—Railroad coal as well as Commercial coal; and be it further

Resolved, That these rates shall become effective as soon as the Association tariff can be issued by the Joint Agent.

The following is the vote:

C. C. C. & St. L.—Vote reserved. Vote Aye.
Wabash—Vote reserved. Vote Aye.
B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—Declines to vote.
Vandalia—Aye, subject to approval. (Vandalia vote approved by letter.)
Illinois Central—Aye.
Mobile & Ohio—Aye.
T. St. L. & K. C.—Aye.
St. L. P. & N.—Absent. (Vote Aye by letter.)
C. P. & St. L.—Declined to vote.
St. L. B. & S.—Aye.
St. L., C. & St. P.—Declined to vote.

The resolution is declared carried, and the 25 cent rate becomes the Association rate.

The meeting on motion adjourned.

Joseph Ramsey, Chairman.

E. M. Ward, Joint Agent."

Letters from the St. L. P. & N. and the Vandalia Railways approving of the reduction in the minimum rate to 25 cents per ton.

St. Louis, Mo., June 3, 1897.

Mr. Wm. E. Guy, P. & G. M., St. L., P. & N. Ry., City.

Dear Sir: Confirming my telephone message of yesterday, I beg to advise that, after five hours session, the lines, in their meeting of June 2nd, adopted a resolu-

tion to reduce the minimum rate on all coal to 25 cents per ton, with the agreed differentials applying from distant territories. All lines were present, excepting the St. L. P. & N. Ry., and voted "Aye." It was thought this was the best step to take in view of all the conditions.

I would be pleased to have you advise me by letter how you desire the vote of your company recorded. Of course, you understand that the rates were reduced because of the contract of the C. P. & St. L. Ry. with the Consolidated Coal Company. While unanimous consent is necessary for a reduction of rates, the lines, immediately on adjournment of the meeting, put in the reduced rate without waiting for the vote of the St. L., P. & N. These rates took effect by all lines on the morning of the 3rd of June. Joint Tariff No. 5, showing reduced rates, is issued today, effective June 3rd, 1897.

Yours truly,

E. M. Ward, Joint Agent.

St. Louis, Mo., June 4, 1897.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir: Your favor of June 3rd received. I presume the lines took it for granted that we would agree to the rate, which is correct, and you can record our vote in the affirmative for 25 cents per ton.

Yours truly,

Wm. E. Guy, President.

St. Louis, Mo., June 3, 1897.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir: I am in receipt of the following message from our Receiver, Mr. V. T. Malott:

"Your vote at yesterday's meeting in the matter of minimum rate on coal from inner group mines is approved."

This is for your information.

Yours truly,

N. W. Taylor, G. F. A."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 5," as follows:

Meeting of the St. Louis Coal Traffic Association.

Friday, July 16th, 1897, 10:30 A. M.

There were present:
Joseph Ramsey, V. P. & G. M., Wabash Railway.
W. D. Holliday, A. G. F. A., C. C. C. & St. L. Ry.
W. W. Peabody, Coal Tr. Mgr., B. & O. S. W. Ry.
W. S. McChesney, Supt. Terminals, L. & N. R. R.
N. W. Taylor, G. F. A., Vandalia Line.
C. F. Parker, Genl. Agt., Ill. Central Ry.
W. E. Keepers, G. F. A., Ill. Central Ry.
Geo. E. Lary, A. G. F. A., Ill. Central Ry.
M. C. Markham, Asst. Tr. Mgr., Ill. Central Ry.
J. P. Poe, G. F. A., M. & O. R. R.
Wm. E. Guy, President, St. L., P. & N. R. R.
The L. E. & St. L., T. St. L. & K. C. and the C. P. & St. L. Railways were absent.

This is the regular quarterly meeting.

The joint agent stated that there seemed to be some misunderstanding as to whether the tonnage agreement was still in effect, in view of statements made by several of the lines in the meetings of May 25th and June 2nd, and that the question of balances should also receive the attention of the lines,

Mr. Ramsey stated, that, in view of the statements made and the notices given in the meetings of May 25th and June 2nd, that the tonnage agreement could not be enforced after June 1st, 1897, that it would be unjust for some of the lines to maintain that agreement while other lines, carrying 30 per cent or more of the tonnage, remained outside and refused to participate in the burdens which were necessary.

Mr. Markham stated that the Illinois Central Railway is willing to settle balances up to and including May 31st, 1897, but it is not willing, in view of the fact that notice had been given by some of the lines at the meetings of May 25th and June 2nd, 1897, that they were unwilling to continue in the tonnage agree-

ment, with 30 per cent of the traffic outside of that agreement, to settle any balances after May 31st, 1897. He also stated, that when the Illinois Central Railway accepted 16 9-10 per cent as its proportion of the coal traffic, it was with the understanding that all lines would be members of the association, and that full agreed and remunerative rates would be maintained.

Mr. McChesney stated, that in view of the statements made by Mr. Van Den Berg, and himself, at the meeting on May 25th and June 2nd, to the effect that the L. & N. Railroad was unwilling to continue in the percentage agreement, when certain lines outside of that agreement were carrying 30 per cent of the traffic, and also in view of the qualified vote of the L. & N. Railroad to continue in the association only in the event of all the lines being members of the same, he did not feel that the L. & N. Railroad was bound by the tonnage agreement of July 21st, 1898, after June 1st, 1897. He felt in view of the position taken by several of the lines, that that agreement terminated on May 31st, 1897, that no line should be called on to adjust balances after that date.

Mr. Peabody stated that if the integrity of the association could be assured, and if rates could be restored and maintained, he was willing to proceed under the old agreement, whether all lines were members or not, if the best interests of the lines could be preserved thereby. The fact that the receiver lines were carrying 30 per cent of the traffic has been known to all members of the association for sometime past, and as this did not affect the tonnage agreement before, he did not think it should affect it now or at any time in the future, unless conditions became much worse than they are at present; he was willing to agree to any plan that would seem likely to secure and maintain rates and insure an equitable division of the traffic. He did not think the tonnage agreement should be abandoned, and that in his judgment, balances to June 30th, 1897, should be settled.

Mr. Poe stated that during the past few months, the conditions have not changed; that the same con-

ditions are present today that were present three and six months ago, and he could see no good reason for abandoning the tonnage agreement, for in no other way could rates be maintained than by an agreement which provides for a just apportionment of the traffic and settlement of balances on a reasonable basis.

Mr. Guy stated that he thought the notice given and the statements made at the meetings of May 25th and June 2nd, justified the lines in abandoning the tonnage agreement, as it was too much a burden for a few of the lines to maintain an agreement of this kind when other lines carrying 30 per cent of the tonnage and receiving all benefits, assumed none of the obligations which the agreement incurred.

Mr. Holliday stated that the fact that 30 per cent of the coal was handled by lines which are unwilling to be bound by the tonnage agreement, has been known to the various members of the association for months past, and he could not see, therefore, why, if the tonnage agreement was necessary during the past, it should not be in the future; that there were no developments in the situation at present time which justified the abandoning of the tonnage agreement.

Mr. Parker stated that the Illinois Central Railroad must insist on the notice given, that it could not undertake, as an excess line, to bear the heavy burdens which must be thrust upon it, when 30 per cent of the traffic was handled by lines unwilling to be governed by the agreement.

Mr. McChesney stated that the notice given by the L. & N. Railroad at the meetings of May 25th and June 2nd, must be considered, as far as that company was concerned, final and binding, and that it would not be bound by the tonnage agreement after May 31st, 1897.

After some further discussion, the chair was asked for a ruling on the subject:

The chair ruled that inasmuch as notice had been given at the meetings of May 25th and June 2nd, that the L. & N. R. R. would not be bound by the tonnage agreement with 30 per cent of the coal handled by lines outside of the association, he was forced to the con-

clusion that that agreement was terminated and that no line was bound by its provisions after May 31st, 1897. It should be borne in mind, however, (and this, with the consent and understanding of all the lines), that the other agreement, providing for the maintenance of the Coal Traffic Association and for uniform rates, is still in effect and binding on all the members.

The question of contracts was next taken up, and after full discussion, the following, which is a ruling of the executive committee, was unanimously adopted:

Resolved: That no contracts should be protected at the 35c. rate for a longer period of time than *one year from* August 1st, 1897; that is to say, all contracts, which are to be protected on the 25c rate, *must not* extend beyond *August 1st, 1898*. No line should, *Without the consent of the* association, undertake the protection of *any contract* for a *longer period* of *time* than *one year* at a less rate than 35c per ton.

This ruling is not intended to abridge the right of any line to protect contracts at the 25c rate; it is intended *only to prevent* their protection *after August* 1st, 1898, at that rate.

Mr. Ramsey gave notice to the association that the Wabash Railway would not assume the percentage of the C. P. & St. L. Railroad after June 1st, 1897, and that from that date, if the tonnage agreement is continued, the Wabash Railroad cannot, and will not, be responsible for the tonnage of that line.

On motion the meeting adjourned.

Joseph Ramsey, Chairman. E. M. Ward, Joint Agt.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 6"; as follows:

Meeting of the St. Louis Coal Traffic Association.

Wednesday, August 25th, 1897, 2 P. M.

There were present:

Joseph Ramsey, V. P. & G. M., Wabash Railway.

W. S. McChesney, Supt. Terminals, L. & N. R. R.

R. A. Campbell, G. F. A., L. E. & St. L. R. R.

N. W. Taylor, G. F. A., Vandalia Line.
G. L. Stevens, C. C., Vandalia Line.
W. J. Scott, D. F. A., T. St. L. & K. C. R. R.
Wm. E. Guy, President, St. L. P. & N. R. R.
W. D. Holliday, A. G. F. A., C. C. C. & St. L. R. R.
C. W. Galligan, G. F. A., St. L. C. & St. P. R. R.

The following lines were absent:

B. & O. S. W.; Illinois Central; M. & O. and C. P. & St. L. railways.

The meeting was called to order by the Chairman, Mr. Ramsey.

The Joint Agent stated that the meeting had been called on the request of the Illinois Central Railway, with a view of restoring the 35 cent rate on coal to East St. Louis; that Mr. Parker, of the Illinois Central, had requested a vote by letter or wire on the proposition to restore the 35 cent rate, and this having failed of unanimous consent,—the Big Four and Wabash having declined to vote, and the B. O. & S. W. and L. & N. Railways having voted in the negative, Mr. Parker thought it necessary to consider the question at a meeting of the Association. Several attempts having been made to agree upon a date at which all lines could be represented, and as some of the lines were unable to be represented on Friday, the 27th, it was thought advisable to secure a conference of the St. Louis representatives of coal carrying lines to consider the question, and the meeting was accordingly called for today.

The following letters from Mr. Parker were read:

St. Louis, Mo., August 17, 1897.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir: Upon receipt of this communication, will you please take up by wire with the various Companies members of the Association, and ask if it is agreeable that the minimum rate should be advanced to 35 cents, taking effect on Thursday, the 19th, with a corresponding advance in the various differentials.

I am advised that the M. & O. have taken independent action and will advance their rates to the figures above,

beginning with tomorrow, Wednesday the 18th. I think it advisable, however, if it can be done, to get a vote of the Association on this question, and have an advance on all the lines. I assume that you can get a wire vote.

Answer as promptly as you can do so and oblige,

Yours truly,

C. F. Parker, G. A.

St. Louis, Mo., Aug. 18, 1897.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir: Referring to the action taken at a meeting of the association held on July 16th, in which it was decided that no contracts should be protected at the 25 cent rate for a longer period of time than one year from August 1st, 1897.

I would request that a meeting of the Executive Committe be immediately called, in order to extend the time in which the 25 cent rate will be protected on contracts. As the matter now stands, our operators are unable to figure on any contracts at all, as none are made for less than one year, whereas their competitors on other lines are able to meet the conditions.

I think it important that this meeting should be called immediately.

Will you kindly call the Executive Committee together? I should be pleased to be present when this question is considered.

Yours truly,

C. F. Parker, General Agent.

After full discussion, wherein the question of restoration of the minimum rate of 35 cents per ton was considered by all lines, in which it developed that all lines present were anxious for a restoration of the 35 cent rate, provided the conditions were such as to justify the hope that this rate could be maintained, the following resolution was offered by Mr. Guy, seconded by Mr. Holliday and unanimously adopted:

Resolved, That in the opinion of the lines here represented, an advance in the rate to 35 cents is desirable, but so long as open contracts are held by some of the

coal producers on associated lines at 25 cents or less. which contracts extend for a period of one year or more from August 1st, it is not deemed practicable to maintain a 35 cent rate, unless such contracts are terminated, or limited so as not to affect contracts placed hereafter, or the open market consumption; and further

Resolved, That the minimum rate agreed to by the lines, does not prevent any road from advancing its rate, if it desires to do so; and, therefore, no authority from this association is necessary to permit the Illinois Central Railway to advance its rate to 35 cents per ton.

Vote:

C. C. C. & St. L.—Aye.
Wabash—Aye.
B. & O. S. W.—Absent. (Vote "Aye" by letter.)
L. & N.—Aye.
L. E. & St. L.—Aye.
Vandalia—Aye.
Illinois Central—Absent.
M. & O.—Absent.
T. St. L. & K. C.—Aye.
St. L. P. & N.—Aye.
C. P. & St. L.—Absent.
St. L., B. & B.—Absent.
St. L., C. & St. P.—Aye.

The question of extending the time for which contracts at the 25 cent rate should be protected, was next taken up and the following was offered by Mr. McChesney and seconded by Mr. Holliday:
McChesney and seconded by Mr. Holliday:

Resolved, That the lines here represented *are opposed* to the application of the Illinois Central Railway for an *extension* of the time fixed in the resolution of July 16th, for the protection of contracts on the 25 cent rate. The Joint Agent to secure from the lines not here present, their vote by letter on this resolution.

Vote:

C. C. C. & St. L.—Aye.
Wabash—Aye.
B. & O. S. W.—Absent. (Vote "Aye" by letter.)
L. & N.—Aye.
L. E. & St. L.—Aye.
Vandalia—Aye.
Illinois Central—Absent. (Votes No by letter.)
M. & O.—Absent. (Votes Aye by letter.)
T. St. L. & K. C.—Aye.
St. L., P. & N.—Aye.
C. P. & St. L.—Absent.
St. L. B. & S.—Aye. (Votes No by letter.)
St. L. C. & St. P.—Aye.

The resolution having received a majority in the affirmative is adopted. The lines decline to extend the date.

(The following is the rule which was adopted at the *meeting* of July 16th, 1897, and to which the above resolution refers:

Resolved: That no contracts should be protected at the 25 cent rate for a longer period of time than *one year from August 1st, 1897*, that is to say, all contracts, which are to be protected on the 25 cent rate, *must not* extend beyond *August 1st, 1898*.

No line should, *without the consent of the Association* undertake the protection of *any contract* for a *longer period of time* than *one year* at a less rate than 35 cents per ton.

This ruling is not intended to abridge the right of any line to protect contracts at the 25 cent rate; it is intended *only to prevent* their protection *after August 1st, 1898*, at that rate.

See next page for letters of the B. & O. S. W. Ry., M. & O. Ry. and Illinois Central Ry. voting on the above resolution:

Joseph Ramsey, Chairman.

E. M. Ward, Joint Agent.

Cincinnati, O., August 27, 1897.

Mr. E. M. Ward, Joint Agent, St. Louis, Mo.

Dear Sir:—On the resolution passed on the request of the Ill. Central Ry., for the extension of the time for the protection of contracts at the 25 cent rate, voted on at the meeting of coal carrying lines held in your office, Wednesday, the 25th, at which this company was not represented, you may record our vote in the negative.

We are unwilling to vote "Aye" on any proposition to change the present status of the association as to rates, contracts or other matters.

Yours truly,

W. W. Peabody, Coal Traffic Mgr.

St. Louis, Mo., August 27, 1897.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir:—Replying to your circular letter of the 25th, relative to the meeting of the association on Wednesday, the 25th:

I note that a motion to extend the time fixed in the resolution of July 16th, for the protection of contracts on the 25 cent rate, was lost by vote of the Association.

I wish to record our vote in favor of the motion.

I fail to understand the reason for the lines' action in their refusal to extend the time, and I see nothing for us to do but to arbitrarily take action to protect our interests in this matter. I do not give this as a notice to that effect, as I want to make further investigation, but as the matter now stands, we are called upon to say to our coal operators that they cannot take any more contracts on the 25 cent basis. This means that operators on other lines that are willing to protect contracts for one year, will get the business.

Will let you hear further from me on this subject.

Yours truly,

C. F. Parker, General Agent.

St. Louis, Mo., August 30, 1897.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir:—Replying to yours of the 25th inst., the Mobile & Ohio R. R. desires to cast a negative vote on the extension of the time limit to contracts at the 25 cent rate.

Yours truly,
J. T. Poe, G. F. A.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 7"; as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC ASSOCIATION.

Wednesday, September 29th, 1897—1:30 p. m.

There were present:
Jos. Ramsey, V. P. & G. M., Wabash Railroad.
W. D. Holliday, A. G. F. A., C. C. C. & St. L. R. R.
W. S. McChesney, Supt. Terminals, L. & N. R. R.
N. W. Taylor, G. F. A., Vandalia Line.
R. A. Campbell, G. F. A., L. E. & St. L. R. R.
Geo. E. Lary, A. G. F. A., Ill. Central R. R.
J. T. Poe, G. F. A., M. & O. R. R.
Wm. E. Guy, President, St. L. P. & N. R. R.
W. W. Peabody, Coal Tr. Mgr., B. & O. S. W. R. R.
W. J. Scott, D. F. A., T. St. L. & K. C. R. R.
Henry Gays, President, C. P. & St. L. R. R.
C. W. Galligan, G. F. A., St. L. C. & St. P. R. R.

The meeting was called to order by the chairman, Mr. Ramsey, who asked the joint agent to object of the meeting.

The joint agent stated that this was the regular quarterly meeting which should fall on October 12th; that he had called it two weeks earlier so as to give the lines an opportunity to restore the rate, if it was thought advisable to do so, on October 1st; that it seemed the coal miners' strike was over, and as the market was short upwards of two hundred thousand

tons of coal because of this strike, which shortage would move in the next three or four months, in addition to the regular tonnage for this period, and as about one million tons of uncontracted coal would move during the next six months, it would be a good time to restore the rate on free or uncontracted coal handled during the fall and winter months.

Mr. Ramsey stated that the coal situation was in bad shape; that the strike did not lead to nor did it cause the present conditions, nor would a suspension improve present conditions. He did not see how the rate could be restored until after next August because of the large number of contracts which had been taken on the 25 cent basis of rates extending to that time, and as all bona fide contracts *must* be protected, a restoration would not restore. However, he would ask the members their opinions regarding the restoration of rates and protection of contracts.

The question of the restoration to the 35 cent minimum rate, with the agreed differentials applying from distant territories, was taken up and after full discussion, wherein the question of contracts and the effect of these contracts on the rates was fully considered, and in view of other conditions, which seem at present irremediable, it was the unanimous opinion of the lines that the rates could not be restored at the present time.

In the discussion concerning contracts, the joint agent read the resolution of July 16th, concerning the protection of contracts at the 25 cent rate as follows:

Resolved, That no contracts should be protected at the 25 cent rate for a longer period of time *than one year* from August 1st, 1897; that is to say, all contracts, which are to be protected on the 25 cent rate, *must not* extend beyond *August 1st, 1898*. No line should, *without the consent of the association*, undertake the protection of *any contract for a longer period of time* than *one year* at a less rate than 35 cents per ton.

This rule is not intended to abridge the right of any line to protect contracts at the 25 cent rate; it is in-

tended *only to prevent* their protection *after August 1st, 1898*, at that rate.

Each line was asked if "it had departed in any manner from the above rule, limiting contracts taken at the 25 cent basis of rates to August 1st, 1898," with the following result:

C. C. C. & St. L.—Have not departed from the rule.
Wabash—Have not departed from the rule.
B. & O. S. W.—Have not departed from the rule.
L. & N.—Have not departed from the rule.
L. E. & St. L.—Have not departed from the rule.
Vandalia—Have not departed from the rule.
Illinois Central—Have not departed from the rule.
M. & O.—Have not departed from the rule.
T. St. L. & K. C.—Have not departed from the rule.
St. L. P. & N.—Have not departed from the rule.
St. L. P. & N.—Have not departed from the rule.
C. P. & St. L.—Have not departed from the rule.
St. L. B. & S.—Have not departed from the rule.
St. L. C. & St. P.—Have not departed from the rule.

After the above vote was announced, the chairman stated that the rule still holds good; that no contracts whatever will be taken on the 25 cent basis to extend beyond August 1st, 1898.

After further discussion, the following was introduced by Mr. McChesney, seconded by Mr. Gays and unanimously adopted:

Resolved: That on and after August 1st, 1898, the minimum rate on *all coal* shall be 35 cents per ton, with the agreed differentials applying from distant territories; and further

Resolved: That no contracts shall be taken at the 25 cent basis of rates to extend beyond August 1st, 1898, and for the balance of the contract year, no contracts shall be protected at less than the 35 cent basis of rates; and further

Resolved: That no contracts shall be taken covering a period of more than one year.

The following vote was taken on the above:

C. C. C. & St. L.—Aye.
Wabash—Aye.

B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—Aye.
Vandalia—Aye.
Illinois Central—Aye.
M. & O.—Aye.
T. St. L. & K. C.—Aye.
St. L. P. & N.—Aye.
C. P. & St. L.—Aye.
St. L. B. & S.—Aye.
St. L. C. & St. P.—Aye.

The expense account of the Coal Association for the months of August and September was next taken up, objection having been made by the Mobile & Ohio to its proportion of the expense for the month of August. Owing to the coal miners' strike, two or three of the lines have handled all or nearly all of the coal which moved during August and September, and the expense of the association, being assessed against the lines in accordance with the tonnage carried, fell principally upon two or three of the lines. After full discussion, the following was unanimously adopted:

Resolved: That the expense account of the Coal Association for the months of August and September be referred to the executive committee to decide what proportion shall be assessed against each line.

On motion the meeting adjourned.

Jos. Ramsey, Chairman.

E. M. Ward, Joint Agent.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 8"; as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC ASSOCIATION.

Friday, April 8th, 1898.—10:30 a. m.

There were present:
George T. Jarvis, Receiver, L. E. & St. L. R. R.
R. A. Campbell, G. F. A., L. E. & St. L. R. R.

S. T. McLaughlin, G. F. A., B. & O. S. W. R. R.
W. W. Peabody, A. G. F. A., B. & O. S. W. R. R.
Jos. Ramsey, V. P. G. M., Wabash R. R.
W. S. McChesney, Supt. Terminals, L. & N. R. R.
W. D. Holliday, A. G. F. A., C. C. C. & St. L. R. R.
N. W. Taylor, G. F. A., Vandalia R. R.
T. J. Hudson, Tr. Manager, Illinois Central R. R.
C. F. Parker, General Agent, Illinois Central R. R.
W. E. Keepers, G. F. A., Illinois Central R. R.
George E. Lary, A. G. F. A., Illinois Central R. R.
J. M. Denyven, A. G. F. A., Mobile & Ohio R. R.
W. J. Scott, D. F. A., T. St. L. & K. C. R. R.
W. E. Guy, President, St. L. P. & N. R. R.
George B. Simpson, G. F. A., St. L. P. & N. R. R.
Henry W. Gays, General Manager, C. P. & St. L. and Bluff Line Rys.

On roll call all lines were shown to be present.
Mr. Ramsey, chairman.

The following list of subjects was submitted for consideration:

Has the association reached the end of its usefulness.

Is it possible to re-form it, giving the lines an equitable portion of the traffic.

Are the lines—all of them—willing to accept an equitable proportion of the tonnage.

The lines should not overlook the fact that if an agreement is not reached, it will be impossible to maintain the 25 cent rate. This is a condition from which there is no escape. By far the greater portion of the tonnage will be handled at a rate as low, if not lower, than 20 cents per ton. Present indications promise an increase in tonnage of 15 per cent over the highest year. This tonnage at 35 cents per ton, minimum, produces a revenue of $1,300,000.00; the same tonnage at 20 cents per ton produces a revenue of $720,000.00. If the rate drops to 20 cents per ton, there will be a sacrifice in revenue of at least $600,000.00 per year. In demanding big percents, the lines should consider

whether 8 per cent of $1,300,000.00 is not better than 11 per cent of $720,000.00. If the subject of percents is approached in a spirit of compromise, the question of remunerative rates will be easy to solve.

In the event the association is formed to become effective on April 1st, are the lines in shape to restore the rates on August 1st, 1898.

Has the resolution of July 10th and September 29th been lived up to by all lines.

If the association is dissolved, are the lines willing to continue the office as a statistical bureau, contributing to the expense on a tonnage basis.

Should differentials be established for the St. L. P. & N., the C. P. & St. L. and Bluff Line Railways.

The joint agent explained that this was the regular April quarterly meeting of the association, and as a number of lines had served notice of withdrawal, effective April 8th, the subject of the meeting was to ascertain if the association had reached the end of its usefulness, and if it was the desire of the lines to abandon it. He stated that the following lines had served notice of withdrawal: The C. C. C. & St. L.; the Wabash; the B. & O. S. W.; the L. E. & St. L.; the Vandalia; the Mobile & Ohio, and the St. L., P. & N. Rys. These lines, with the C. P. & St. L. and Bluff Line Rys., made nine lines, which after this date would be outside of the association. The lines not serving notice of withdrawal are the L. & N., the Illinois Central, the T. St. L. & K. C. and the St. L., B. & S. Rys.

The chairman asked the withdrawing lines to give a reason for so doing.

L. E. & St. L.—Mr. Campbell explained that his line had not been a signatory member of the agreement, but had promised, and up to this date had fulfilled, all the rules and rates of the association, and, not a party to the tonnage agreement, he had fulfilled the obligations under the rate agreement, excepting that he had not paid his proportion of the expenses; he stated that within the past few months he had contributed a small amount and expected to do so until the 1st of August

next, when he hoped to become a full member of the association, if the rates were restored to the contemplated basis. His recent notice of withdrawal was made necessary because of the notices of withdrawal of other lines.

B. & O. S. W.—Mr. Peabody explained that the B. & O. S. W. had withdrawn because the Big Four and Wabash had withdrawn, and because other lines which should bear their full proportion of the expense were not doing so. He felt that with only a few lines in the association, the expense would be disproportionate to the benefits derived. He hoped that in serving his notice of withdrawal matters would be brought to a focus and an understanding reached whereby all lines would participate proportionately in the expense and some plan adopted which would realize the benefits supposed to be derived through the association.

C. C. C. & St. L.—Mr. Holliday explained that the Big Four withdrew from the association because it thought that the association was of no benefit to any one and especially to the Big Four; that if present conditions continued to prevail, no benefits could be derived. He thought that in serving notice of withdrawal, matters would so shape themselves as to bring about an agreement whereby all lines would contribute proportionately to the expense and an understanding reached concerning the restoration and maintenance of rates.

Wabash—Mr. Ramsey stated that the position of the Wabash was somewhat similar to the Big Four. He felt there was entirely too many lines outside of the association, and, unless there was full co-operation by all lines, each line paying its proportion of the expense and assuming the other burdens of the association, the best interests of the Wabash demanded that it withdraw. With 25 per cent of the traffic outside of the association, carried by lines which were not bound by its obligations, he felt that the obligations upon the Wabash were such that they could not be maintained without a sacrifice of revenue. The Wabash has been

in a position within the recent past to make contracts for a large tonnage of coal, much larger than it had ever carried, but as it was bound by the rules of the association and recognizing its obligations to the other lines it would not do it. Meanwhile, the Wabash has seen its traffic handled by other lines which were in no wise bound by the rules of the association and at rates menacing the entire coal situation. The Wabash is as anxious for the restoration and maintenance of rates as any line and it believes it can best be done through the agency of the association, but it cannot be done with four or five or even one important coal-carrying line on the outside. All lines must be full members of the association or remunerative rates cannot and will not be restored on August 1st.

St. L., P. & N.—Mr. Guy stated that his line served notice of withdrawal because other lines had withdrawn, and because, with so many lines outside of the association contributing nothing towards its maintenance, the burden of expense must, of necessity, fall upon those who remained on the inside.

After some further discussion, the resolution of July 16th and September 29th concerning the protection of contracts at the 35 cent rate up to August 1st, was read as follows:

Resolved, That on and after August 1st, 1898, the minimum rate on all coal shall be 35 cents per ton, with the agreed differentials applying from distant territories; and further

Resolved, That no contracts shall be taken on the 25 cent basis of rates to extend beyond August 1st, 1898, and for the balance of the contract year no contracts shall be protected at less than the 35 cent basis of rates; and further

Resolved, That no contracts shall be taken covering a period of more than one year.

On motion of Mr. Parker, seconded by Mr. McChesney, the lines were asked if the above resolution had been faithfully lived up to in the following:

"Has any line contracts in conflict with the above resolution, and has any line a contract which will prevent the putting into effect of the rates on August 1st."

On roll call the lines replied as follows:

C. C. C. & St. L.—We have no contracts, neither will we make any.

Wabash—Same as above.

B. & O. S. W.—No contracts in conflict with that resolution.

L. & N.—Same as B. & O. S. W.

L. E. & St. L.—Same as B. & O. S. W.

Vandalia—Same as B. & O. S. W.

Illinois Central—We are abiding by that agreement absolutely.

Mobile & Ohio—We have not violated that agreement.

T. St. L. & K. C.—My information from Mr. Weed is that we are, and have been guided by that resolution, and have no contracts in conflict with it.

St. L. P. & N.—We have no contracts in conflict with the resolution.

C. P. & St. L.—We have no contracts in conflict with the resolution.

St. L. B. & S.—Same position as the Illinois Central.

St. L. C. & St. P.—Same position as the C. P. & St. L.

Mr. Campbell—Mr. Chairman: If that agreement has been absolutely lived up to, and if there are no contracts which will prevent the putting into effect of the restoration of rates on August 1st, it seems to me that these lines are in a better position than they have been for the past four or five years.

Mr. Parker—Mr. Chairman: I agree that the lines are better prepared to restore the rates than they have been in years.

On motion of Mr. Guy, seconded by Mr. McChesney, the lines were asked if they would join in the maintenance of an association, having for its object the restoration and maintenance of rates.

The following expressions were made on roll call:

C. C. C. & St. L.—Mr. Holliday: As far as the Big Four is concerned we do not object to becoming a member of the association, provided there is some action taken towards advancing the minimum rate, but if the association is continued on the 25c basis we are not willing to become a member; because under such conditions we can handle coal without the assistance of the association. If the Chicago & Alton is not to become a member of the association, the lines will run up against the same snag as they did before. The Big Four thinks it is absolutely essential to the maintenance of a 35 cent rate for the Chicago & Alton to be a member of the association.

Wabash—Mr. Ramsey: The Wabash has no desire to disrupt the association and is willing to remain in the association provided all lines are members and the expense is borne according to the tonnage carried, and provided also the rates are restored and maintained.

B. & O. S. W.—Mr. Peabody: We are willing to become a member of the association provided rates will be restored on the 1st of August and maintained; and all lines are to be members, participating in the expense of the association on the tonnage basis instead of an arbitrary amount being set aside for certain lines.

L. & N.—Mr. McChesney: The position of the L. & N. is that we are for the association and that we will be full members on any basis contemplating the restoration of and maintenance of rates. I do not agree with the views expressed by the gentlemen that the association has been of no benefit for the past year. I claim it has been of great benefit. I do not agree with Mr. Holliday that the Chicago & Alton is essential to the maintenance of the association. It is a policy of that company to belong to no association. They have always maintained whatever rates we adopted, and this association has never been obliged to complain of the C. & A. in the matter of rates.

L. E. & St. L.—Mr. Jarvis: We are willing to come in and be a member of the association provided the

pooling feature is omitted and all other important coal-carriers are members.

Vandalia—Mr. Taylor. The Vandalia has always been a member of the association and has never at any time been a stumbling block to its success. We will continue to be a member of the association provided the rates are restored and maintained, and provided also, that all lines are members participating in the expenses of the association on the tonnage basis.

Illinois Central—Mr. Parker: The Illinois Central has always been and is ever willing to be a member of this association on any just and equitable basis, provided, of course, that rates are restored and maintained and all lines are full members joining in the expense of the association in accordance with tonnage carried. This line does not agree with the proposition that the association has been of no benefit nor does it believe that the membership of the C. & A. is essential to its success.

T. St. L. & K. C.—Mr. Scott: My instruction from Mr. Weed is to the effect that I may vote for the continuance of the association for the restoration and maintenance of rates and for statistical purposes and that we agree to pay our proportion of the expense according to tonnage carried. Any question of percentages must be referred to the executive officers, as I have no instructions from them on that point. This line is willing to join in the maintenance of the 35 cent rate.

Mobile & Ohio—Mr. Denyven: The Mobile & Ohio is willing to join the association again provided rates are restored on August 1st, and maintained; and provided also that some plan is devised whereby the Mobile & Ohio Railroad can be assured of its just proportion of the traffic, but I do not understand how this is to be brought about. From present instructions I am not advised that we will come in on any other basis. (See letter on last page.)

C. P. & St. L.—Mr. Gays: This line is willing to come in and be a full member of the association, provided rates are restored and maintained; we are will-

ing to come in with or without an agreement concerning tonnage.

St. L. P. & N.—Mr. Guy: This line is willing to join the association on any just plan which will restore and maintain the rate. We do not share the opinion that the membership of the C. & A. R. R. is essential.

St. L. B. & S.—Same position as the Illinois Central.

St. L. C. & St. P.—Same position as the C. P. & St. L.

The Chairman: It would seem, gentlemen, that there is no serious obstacle in the way of the lines getting together to restore and maintain the rate.

After further discussion the following was introduced by Mr. McLaughlin and seconded by Mr. McChesney:

Resolved: That the association be continued upon the division-of-traffic basis, such division to be agreed upon hereafter.

The following is the vote taken on the above:

C. C. C. & St. L.—Aye.
Wabash—Aye.
B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—No.
Vandalia—No.
Illinois Central—Aye.
Mobile & Ohio—Aye.
T. St. L. & K. C.—Not prepared to vote. Under my instructions from Mr. Wood, I cannot vote on this proposition.
St. L. P. & N.—Aye.
C. P. & St. L.—Aye.
St. L. B. & S.—Aye.
St. L. C. & St. P.—Aye.

There being two negative votes the resolution was declared lost.

The following resolution was offered by Mr. McLaughlin, seconded by Mr. Parker and unanimously adopted:

Resolved, That the association be continued on the basis of an absolute observance of the maintenance of rates and that the joint agent's office be continued for statistical purposes; it being understood that all coal-carrying lines are to become members of the association except the Chicago & Alton.

The following was the vote taken on the above:

C. C. C. & St. L.—Aye, with the understanding that some arrangement can be made for reducing the expenses.

Wabash—Aye.

B. & O. S. W.—Aye.

L. & N.—Aye.

L. E. & St. L.—Aye, with the understanding that the expenses are to be borne by all members in proportion to tonnage carried.

Vandalia—Aye, subject to approval (See letter last page.)

Illinois Central—Aye.

Mobile & Ohio—Not prepared to vote for this at the present time. If the rate is to be restored and maintained after August 1st, our company will doubtless become a member of the association with that understanding. (Vote passed with the understanding that the M. & O. would vote by letter after communicating with Mr. Russell. See letter last page).

T. St. L. & K. C.—Aye, with the understanding that this vote is in accordance with the avowed policy of this line touching membership in the association.

St. L. P. & N.—Aye.

C. P. & St. L.—Aye.

St. L. B. & S.—Aye.

St. L. C. & St. P.—Aye.

The following was introduced by Mr. Ramsey, seconded by Mr. McChesney and unanimously adopted:

WHEREAS, All the lines present, except one, have voted to continue the association, but some of the mem-

bers are of the opinion that certain changes are desirable in the agreement; and

WHEREAS, It will take time to carefully revise the old agreement; be it

Resolved, That a committee of five (5), consisting of the three members of the executive committee with two more added thereto, be appointed to revise said agreement and to make report thereon, at the earliest possible date, and that the joint agent submit such report to the members of the association for their vote by letter, and that upon its approval by all of the lines, the revised agreement be signed by the executive or other proper officer of each of the companies, members of the association, and that, pending the adoption by the association of such revised or amended agreement, all lines be bound by the rules and carry out all the obligations of the present agreement.

The names of the Special Committee, to whom is referred the question of a new agreement, are as follows:

C. F. Parker, Chairman, Henry Gays, N. W. Taylor, W. S. McChesney and W. D. Holliday. The committee is composed of three members of the executive committee and Messrs. Gays and Parker.

The following was offered by Mr. McChesney, seconded by Mr. Parker and unanimously adopted:

Resolved, That the resolution of July 16th and September 29th be re-affirmed, and that the minimum rate, with the usual differentials, be restored, to 35 cents per ton on and after August 1st, 1898.

Resolution of September 29th:

Resolved, That on and after August 1st, 1898, the minimum rate on all coal shall be 35 cents per ton, with the agreed differentials applying from distant territories; and further

Resolved, That no contracts shall be taken on the 25 cent basis of rates to extend beyond August 1st,

1898, and for the balance of the contract year no contracts shall be protected at less than the 35 cent basis of rates; and further

Resolved, That no contracts shall be taken covering a period of more than one year.

On motion the meeting adjourned.

Jos. Ramsey, Chairman.

E. M. Ward, Joint Agent.

See next page defining position of Vandalia and Mobile & Ohio.

TELEGRAM.

Indianapolis, Ind., April 15th, 1898.

N. W. Taylor, G. F. A., Vandalia Line, St. Louis, Mo.

Replying to your message. You may notify Mr. Ward that your vote is approved.

V. T. Mallot.

St. Louis, Mo., April 11th, 1898.

Mr. E. M. Ward, Joint Agent, St. Louis, Mo.

Dear Sir:—Referring to our conversation today, the position of the Mobile & Ohio Railroad is shown by the following copy of telegram which I have this day sent to Mr. Knott, First Vice President of the L. & N. R. R.:

"Your message 8th from Washington, D. C. If the proposed new contracts or agreement for the association is satisfactory, the M. & O. will become a member of the Coal Association, provided rates are advanced as contemplated August 1st, 1898, with no considerable contracts extending beyond that period. If the rates are not advanced at that time, and if material contracts are found extending beyond that period, we will withdraw at once."

This of course carries with it the understanding that all other coal-carrying lines will become members of the association with the possible exception of the Chicago & Alton R. R. Yours truly,

J. T. Poe, G. F. A.

Proceedings of meeting have been delayed waiting for confirmation of vote.

E. M. W., J. A.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 9"; as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU.

(Special Meeting.)

May 19th, 1898. 10:30 A. M.

There were present:
S. R. Knott, 1st Vice President, L. & N. R. R.
W. S. McChesney, Supt. Terminals, L. & N. R. R.
C. F. Parker, Genl. Agent, Illinois Central R. R.
Geo. E. Lary, A. G. F. A., Illinois Central R. R.
Walter Nichols, Genl. Agent, C. C. C. & St. L. R. R.
W. J. Scott, G. F. A., T. St. L. & K. C. R. R.
Jos. Ramsey, V. P. & G. M., Wabash R. R.
Geo. L. Stevens, Chief Clerk, Vandalia Line.
W. W. Peabody, A. G. F. A., B. & O. S. W. R. R.
W. S. McLaughlin, G. F. A., B. & O. S. W. R. R.
R. A. Campbell, G. F. A., L. E. & St. L. R. R.
J. M. Denyven, A. G. F. A., M. & O. R. R.
H. W. Gays, Genl. Mngr., C. P. & St. L. and St. L. C. & St. P. Rys.
Geo. B. Simpson, G. F. A., St. L. P. & N. R. R.

The joint agent stated that the meeting had been called to consider the new agreement submitted by a special committee, which committee was appointed at the meeting of the lines held on April 8th.

The chairman asked the committee if it was ready to report.

Mr. Parker, chairman of the special committee, stated, that the agreement had been adopted by the committee unanimously and had been submitted to the lines by the joint agent. This was the only report the committee had to make.

The joint agent stated that seven lines had replied to his letter of April 14th, submitting the agreement as reported by the committee. Six of these replies were favorable and one non-committal. The Big Four, B. & O. S. W., Vandalia, C. P. & St. L. and St. L., C. & St. P. Rys. were yet to be heard from.

The following letter was read:

April 29th, 1898.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir: Referring to yours of April 14th and 26th: I understand from another communication received from you that a meeting of coal lines will be held early in May to discuss the proposed coal agreement. I do not care to express an opinion until the matter can be discussed.

The joint agent stated that while the contract was agreeable to the Clover Leaf, that company was unable to sign any agreement and the position of the Clover Leaf was outlined by Mr. Weed, Freight Traffic Manager, in the following letter:

April 22nd, 1898.

Mr. E. M. Ward, Joint Agent, City.

Dear Sir: Referring to your letter of April 14th to all coal-carrying lines enclosing copy of agreement as proposed: I have presented the document to the Receiver and am advised by him that he is not prepared to sign an agreement of this nature with any association, but is prepared to co-operate and work in harmony with whatever lines of organization may be adopted by the coal-carrying roads at St. Louis. His policy is identical in the present as in the past, being under instruction of the United States Court to sign no document of this character. I believe it should not prevent the other lines going ahead with the agreement; we to line up with the methods agreed upon.

W. S. WEED, F. T. M.

The Chairman: Gentlemen, you have the committee's report before you in the shape in a proposed

agreement. Before proceeding to roll call on the adoption of the agreement, is there any clause in the agreement which should be discussed or modified?

Mr. Parker stated that it was well known by all the lines that a few contracts had been entered into prior to April 1st, 1896, which extended beyond August 1st, 1898, when rates are to be restored, and that these contracts had been filed and were of record with the bureau. It will be noted that the agreement does not provide for any protection of contracts after August 1st, 1898, but such contracts as were filed prior to April 1st, 1896, and which have not yet expired, must be protected under the proposed agreement.

After full discussion the following was offered by Mr. Peabody and seconded by Mr. Campbell, as an amendment to the agreement concerning railroad coal:

Resolved, That Clause B., Section 3, of the proposed agreement be amended to read as follows: All coal received as above provided, and consigned to and for use in the operating departments of railroads, terminals, bridge or ferry companies shall be known as railroad coal, and will be reported to the joint agent of this bureau accordingly. The transportation charge for railroad coal shall be as follows: When the minimum rate is 35c per ton, 10 per cent less; when 40c per ton, 15 per cent, less and when 45c per ton, 20 per cent less. This basis to apply from all territories within the jurisdiction of the bureau; provided, however, that railroad coal shall be billed and charged for at the rates effective on commercial coal and that the difference between the established tariff rate on commercial coal and the reduced rate on railroad coal as above authorized, shall be allowed only upon statements filed monthly with the joint agent of this bureau over the signature of the proper officer of the railroad company certifying that such coal has actually been received by the road for its own use; such statement to contain all information necessary to enable the joint agent to properly approve the allowance of the railroad rate.

The following amendment to the above was offered by Mr. Campbell and seconded by Mr. McLaughlin:

That these reduced rates are given with the understanding that the company for which the coal is intended shall furnish its own equipment for the transportation of such coal free of mileage in both directions. It is further understood that exceptions to this rule will be made as regards terminal or ferry companies at St. Louis.

The following vote was taken on Mr. Campbell's amendment :

C. C. C. & St. L.—No.
Wabash—Aye.
B. & O. S. W.—Aye.
L. & N.—No.
L. E. & St. L.—Aye.
Vandalia—No.
Illinois Central—No.
Mobile & Ohio—No.
T. St. L. & K. C.—No.
St. L. P. & N.—No.
C. P. & St. L.—No.
St. L. B. & S.—No.
St. L. C. & St. P.—No.

The amendment was declared lost.

The following amendment was offered by Mr. Knott and accepted by Mr. Peabody:

It being understood that when the railroad company for which the coal is intended as fuel supply, furnishes its own cars for such transportation, the mileage, both ways between East St. Louis and the mines, shall be waived.

The following vote was taken on Mr. Peabody's original motion as amended by Mr. Knott:

C. C. C. & St. L.—Aye, subject to approval.
Wabash—Aye.

B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—Aye.
Vandalia—Aye, subject to approval.
Illinois Central—Aye.
Mobile & Ohio—Aye.
T. St. L. & K. C.—Aye.
St. L. P. & N.—Aye.
C. P. & St. L.—Aye.
St. L. B. & S.—Aye.
St. L. C. & St. P.—Aye.

The chair declared the resolution adopted and that the agreement must be amended accordingly.

The following was introduced by Mr. McLaughlin, seconded by Mr. Knott and unanimously adopted:

Resolved: That the name of the St. Louis Coal Traffic Association be changed to the St. Louis Coal Traffic Bureau.

The following was offered by Mr. Denyven, seconded by Mr. Ramsey, and unanimously adopted:

Resolved, That Clause 12 of the proposed agreement which provided that the same shall become effective on April 1st, 1898, and continue in effect until April 1st, 1899, and thereafter until sixty (60) days' notice in writing shall have been given, shall be changed to read as follows: This agreement to take effect on April 1st, 1898, and shall continue in effect thereafter until ninety (90) days' notice in writing shall have been given to the joint agent of this bureau, by any member, party hereto, of a desire to withdraw. In the event of the withdrawal of any member, other members shall have the right to withdraw on the same date, by giving notice any time prior to the expiration of the notice aforesaid.

Moved by Mr. Knott and seconded by Mr. Parker:

That the agreement as amended be adopted as a whole.

The following vote was taken on the above:
C. C. C. & St. L.—Aye.
Wabash—Aye.
B. & O. S. W.—Aye.
L. & N.—Aye.
L. E. & St. L.—Aye.
Vandalia—Aye.
Illinois Central—Aye.
Mobile & Ohio—Aye.
T. St. L. & K. C.—Aye.
St. L. P. & N.—Aye.
C. P. & St. L.—Aye.
St. L. B. & S.—Aye.
St. L. C. & St. P.—Aye.
The chairman declared the agreement adopted.

The next question taken up was the election of officers.
On motion Mr. Ramsey was unanimously elected chairman.

The following was offered by Mr. Parker and seconded by Mr. Campbell:

That the present Executive Committee be continued.

The following amendment was offered by Mr. Knott:

That the Illinois Central and C. P. & St. L. Rys. be added to the Executive Committee.
Carried unanimously.

The Executive Committee as at present constituted is composed of representatives of the following lines: C. C. C. & St. L., L. & N., Vandalia, Illinois Central and the C. P. & St. L. Rys.
A proposition was submitted by Mr. Ramsey to appoint a joint agent who shall be joint agent of the Eastbound Traffic Association and the St. Louis Coal Traffic Association. After some discussion the question was left to the Executive Committee with power to act.

On roll call each line filed the line of rates it desires to become effective on August 1st, 1898, from the mines in Illinois to East St. Louis:

C. C. C. & St. L.—Minimum rate of 35c per ton to extend to and including Hillsboro, 67 miles, with agreed differentials applying from other territories; the rate from Montgomery Mine, Witt Station, 77 miles, 42½c per ton.

Wabash—Minimum rate of 35c per ton to and including Litchfield, 49 miles, with agreed differentials applying from other territories.

B. & O. S. W.—Minimum rate of 35c per ton to and including O'Fallon, 20 miles, with agreed differentials applying from other territories; Taylorsville and Pana, 95 miles, 65c; these rates are filed with the understanding that we claim the right, if necessity requires, to make a 35c rate from Trenton.

L. & N.—Minimum rate of 35c per ton, to and including Nashville, 48 miles, with the usual differentials applying from other territories.

L. E. & St. L.—Minimum rate of 35c per ton, to and including Germantown, 39 miles, with the usual differentials applying from distant territories.

Vandalia—Minimum rate of 35c per ton, to and including Troy, 18 miles, with the usual differentials applying from distant territories.

Illinois Central—Minimum rate of 35c per ton, to extend to and including Pinckneyville, 61 miles, with the usual differentials applying from other territories, excepting that, if the B. & O. S. W. reduces the rate from Trenton, we will make a corresponding reduction from the Du Quoin, Big Muddy and Carterville districts.

Mobile & Ohio—Minimum rate of 35c per ton, to and including Willis Coal Mine at Percy, 66 miles, with the usual differentials applying from other territories, excepting that, if the Illinois Central is forced to reduce its rate from Du Quoin and other territories, we will make a corresponding reduction from the Big Muddy group.

T. St. L. & K. C.—Minimum rate of 35c per ton, to and including Coffeen, 55 miles.

St. L. P. & N.—Minimum rate of 35c per ton, to and including Litchfield, 50 miles.

St. L. B. & S.—Same as the Illinois Central.

C. P. & St. L. and St. L., C. & St. P.—Mr. Gays stated that the minimum rate of 35c per ton must apply from Staunton to and including Litchfield, 50 miles on the C. P. & St. L., and Springfield, Cantrall and Athens on the St. L. C. & St. P. and C. P. & St. L. Rys., jointly.

The lines were unwilling to extend the minimum rate to the Springfield district, and on motion of Mr. Peabody, seconded by Mr. Campbell, the question of the differential rate applying from the district via the C. P. & St. L. and the St. L. C. & St. P. Rys., was referred to the Executive Committee for investigation and report.

On motion the meeting adjourned.

Jos. Ramsey, Chairman.

E. M. Ward, Joint Agent.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 10," as follows:

MEETING OF THE EXECUTIVE COMMITTEE.

A meeting of the executive committee of the St. Louis Coal Traffic Bureau was held in the office of the chairman, Mr. Ramsey, on Tuesday, June 28th, 1898, at 2 p. m.

There were present:

R. A. Campbell, G. F. A., L. E. & St. L. Ry.
W. S. McChesney, Supt. Terminals, L. & N. R. R.
H. W. Gays, Genl. Mngr., C. P. & St. L. Ry.
C. F. Parker, G. A., Ill. Central Ry.
N. W. Taylor, G. F. A., Vandalia Line.
W. D. Holliday, A. G. F. A., C. C. C. & St. L. Ry.
Jos. Ramsey, V. P. & G. M., Wabash R. R.

The meeting was called for the purpose of considering the present situation regarding coal contracts for the future.

After full consideration of the correspondence on the subject, Messrs. Parker, Taylor, Campbell and the secretary were appointed a committee to confer with Mr. Wm. E. Guy, president of the St. L. P. & N. Ry., and with any other parties that might be necessary, to investigate complaints that have been made regarding certain coal contracts. The secretary was instructed to endeavor to arrange for this conference on Friday, July 1st, at 2 p. m., or as soon thereafter as possible.

The secretary reported that he had been successful in his negotiations with the Bell Telephone Company, by which the several organizations would secure its services for $25.00 per quarter, payable in advance, by having the subscription appear in the Telephone directory as "R. M. Fraser, chairman, etc."

The following resolution was adopted:

Resolved, That the secretary complete arrangements with the Bell Telephone Company, and that the St. Louis Coal Traffic Bureau is to pay one-half the subscription, the other 50 per cent to be paid by the St. Louis Eastbound Traffic Association.

The amount that should be charged the Belleville & St. Louis Traffic Bureau for services, rent, etc., was next submitted and the following offered and adopted by Messrs. Parker, McChesney and Campbell on behalf of the Belleville & St. Louis Traffic Bureau:

Resolved, That the Belleville & St. Louis Traffic Bureau should be charged for services, rent, etc., not including printing or supplies purchased for that association, $60.00 for the month of June, 1898, and from and after July 1st, 1898, $35.00 per month.

The Secretary stated that heretofore the expenses of the St. Louis Coal Traffic Bureau had been apportioned between the members, pro rata, according to their respective percentage of the coal carried during the current month; this prevented the apportioning and making of the expense statement until complete report of the traffic has been compiled.

After full consideration of the above, the following resolution was offered and adopted:

Resolved, That the secretary is hereby authorized to apportion the month's expenses of this bureau between the interested parties according to their respective percentages for the *previous month;* and it is further

Resolved, That in order to permit the secretary to settle promptly all accounts against this bureau, his bills against the roads shall be promptly paid.

The following was also offered and adopted:

Resolved, That the secretary is instructed to include in his expense account for the month of June, 1898, $200.00 to E. M. Ward, and that said amount to be paid to Mr. Ward.

The secretary reported that application had been made by a weekly trade journal, the Black Diamond, for a report of the tonnage received at East St. Louis, etc.

After due consideration it was decided that the secretary could furnish to the daily papers or other journals, the gross tonnage received by all of the roads, but it was not deemed advisable to give for publication the amount of the tonnage carried by each road.

On motion the meeting adjourned.

Jos. Ramsey, Chairman.

R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 11;" as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU.

July 22nd, 1898—3:00 p. m.

There were present:

E. S. Orr, Gen. Agt., B. & O. S. W. Ry.

R. S. McVey, Coal Agent, B. & O. S. W. Ry.

W. D. Holliday, A. G. F. A., C. C. C. & St. L. Ry.

C. F. Parker, Genl. Agt., I. C. R. R.

R A. Campbell, G. F. A., L. E. & St. L. R. R.
W. S. McChesney, Jr., Supt. Terminals, L. & N. R. R.
J. J. Eddy, Chief Clerk, M. & O. R. R.
G. B. Simpson, G. F. A., St. L. P. & N. Ry.
N. W. Taylor, G. F. A., T. H. & I. R. R. (Van Line.)
W. J. Scott, G. F. A., T. St. L. & K. C. R. R.
J. Ramsey, Jr., V. P. & G. M., The Wabash R. R.

The C. P. & St. L. R. R. and the St. L. C. & St. P. Ry. were not represented.

Meeting was called to hear the report of the executive committee on the subject of differential rate applying from Springfield District via the C. P. & St. L. and St. L. C. & St. P. roads, referred by meeting of May 19th, 1898, to the executive committee for investigation and report.

The executive committee reported as follows:

"*Resolved*, That the question of the minimum rate applying on coal from mines in the Springfield territory on the C. P. & St. L. and St. L. C. & St. P. roads be referred back to the Coal Traffic Bureau without any recommendation whatever, the committee, on account of the absence of Mr. Gays, not being able to arrive at any definite understanding or agreement on the question."

After a full consideration of the above and other subjects, the following resolutions were adopted unanimously:

"*Resolved*, That the C. P. & St. L. and St. L. C. & St. P. roads be permitted to extend the rate of 35 cents per ton to include their Springfield district."

"*Resolved*, That the roll be called with a view of getting a statement from the roads represented, whether or not agreement effective August 1st is being absolutely maintained." (The roll being called, the representatives of each road present voted that the agreement effective August 1st, is being maintained absolutely."

"*Resolved*, That the secretary be directed to get a vote from the absent members on this resolution."

"*Resolved*, That W. S. McChesney, Jr., N. W. Taylor and R. A. Campbell, with the Secretary, be appointed a committee to meet Mr. Gays, G. M., C. P. & St. L. and St. L. C. & St. P., with a view of securing from him an explanation of certain contracts made by operators on his roads, at figures that indicate less than 35 cents per ton rate after August 1st, and to also take up with Mr. Gays other matters of interest to the Bureau."

"*Resolved*, That none of the lines, members of this bureau, shall absorb the trackage charge at the National Stock Yards of $1.00 per car."

On motion meeting adjourned.

Jos. Ramsey, Jr., Chairman.

R. M. Fraser, Secretary.

St. Louis, Mo., July 25th, 1898.

Gentlemen: Your committee, Messrs. McChesney & Taylor (Mr. Campbell being absent), and the secretary, called on Mr. Gays, as per appointment, Monday, July 25th, and have his positive assurance that rates agreed upon, effective August 1st, will be maintained.

Mr. Gays also assured your committee that the agreement which had been signed by him, would be carried out in good faith unless a change in the condition of affairs were made necessary by the appointment of receiver, of which due notice would be given to the bureau, but he does not anticipate that such action will be necessary.

By order of the committee.

R. M. Fraser, Sec."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 12;" as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU.

March 28th, 1899.

There were present:

B. & O. S. W. Ry.—Archibald Fries, R. S. McVeigh.

C. C. C. & St. L. Ry.—W. D. Holliday, per S. B. Knight.
C. P. & St. L. Ry.—C. Millard, W. M. Bushnell.
I. C. R. R.—T. J. Hudson, W. E. Keepers, C. F. Parker, Geo. W. Becker.
L. E. & St. L. C. R. R.—
L. & N. R. R.—W. S. McChesney, Jr.
M. & O. R. R.—Haiden Miller.
St. L. B. & S.—C. F. Parker, Geo. W. Becker.
St. L. C. & St. P. Ry.—W. M. Bushnell, C. Millard.
St. L. P. & N. Ry.—G. B. Simpson.
T. H. & I. R. R.—G. L. Stevens.
T. St. L. & K. C. R. R.—W. J. Scott.
The Wabash R. R.—S. B. Knight.

C. F. Parker, Chairman.

Meeting was called to order at 11:00 a. m.

Secretary stated, that the meeting was called for the purpose of considering matters in connection with the transportation of coal by the Mobile & Ohio R. R. Co. consigned to the Mississippi River & Bonne Terre Ry. Co., and any other subjects that might be presented.

After a general discussion on the subject of the M. R. & B. T. Coal, as Mr. Haiden Miller, G. F. A., M. & O. R. R., stated that he was not prepared to discuss the question at issue, the following resolution was adopted:

WHEREAS, The declination of the M. & O. R. R. to allow the secretary to inspect the movement of coal from that company to the Mississippi River & Bonne Terre R.R. according to the bureau agreement, threatens to disrupt the bureau; therefore, be it

Resolved, That this meeting be adjourned and the secretary arrange for another meeting Tuesday, April 4th, so that Mr. Carroll of the M. & O. and a representation of the L. E. & St. L. Ry. can be present at that time.

A request was then made that the roll be called to ascertain if the agreed tariff rates were being main-

tained, result of which was, that all roads present answered in the affirmative. Mr. Miller, for the Mobile & Ohio stated that he voted in the affirmative without a knowledge of the Bonne Terre business.

There being no further business the meeting adjourned to April 4.

C. F. Parker, Chairman R. M. Fraser, Secretary.

Note.—The secretary communicated with Mr. Richard Carroll, V. P. & G. M., Mobile & Ohio R. R., and received reply, that it would not be possible for him to attend meeting on the 4th. He advised later, that he could be present on the 8th, and meeting was called for that date."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 13;" as follows:

MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU.

April 8th, 1899.

There were present:
B. & O. S. W. Ry.—A. Fries.
C. C. C. & St. L. Ry.—W. D. Holliday.
C. P. & St. L. Ry.—W. M. Bushnell.
I. C. R. R.—C. F. Parker, Geo. W. Becker.
L. E. & St. L. R. R.—R. A. Campbell.
L. & N. R. R.—W. S. McChesney, Jr.
M. & O. R. R.—R. Carroll.
St. L. B. & S.—C. F. Parker, Geo. W. Becker.
St. L. C. & St. P.—W. M. Bushnell.
St. L. P. & N. Ry.—G. B. Simpson.
T. H. & I. R. R.—N. W. Taylor.
T. St. L. & K. C. R. R.—Samuel Hunt, J. W. Sherwood, W. J. Scott.
The Wabash R. R.—S. B. Knight.

C. F. Parker, Chairman.

Meeting was called to order at 11:00 a. m.

The chairman stated this was an adjourned meeting from March 28th, called to consider charges made

that the Mobile & Ohio Railroad was violating the agreement through a contract made with the Mississippi River & Bonne Terre Railway, under which the M. & O. was taking chatts from the Bonne Terre road, and paying for same in the transportation of coal at less than the agreed rates.

The secretary made the statement that he had been refused permission by the Mobile & Ohio officials to examine their coal records at East St. Louis, with a view to checking up the movement of this coal. The secretary read Article 6, Section B, of the Agreement, in which permission is granted the secretary to examine the records of the various lines members of this bureau.

Mr. Carroll made the statement that when permission to examine their records at East St. Louis was refused, he was under the impression that the Bonne Terre Coal was not subject to the agreement. Mr. Carroll further made full statement of his company's position in regard to their contract with the Mississippi River & Bonne Terre Railway Co., which is substantially embodied in the resolutions below.

After full discussion the following resolution was adopted, viz:

WHEREAS, The contract existing between the Mobile & Ohio Railroad Co., and the Mississippi River & Bonne Terre Ry. Co., under which Chatts shipped to the former by the latter company, to be paid for in transportation of coal to E. St. Louis, threatens to disrupt this bureau; and

WHEREAS, V. P. & G. M. R. Carroll of the Mobile & Ohio R. R., stated that there is in existence a contract between his company and the Mississippi River & Bonne Terre Ry., under which the latter Company is to deliver his line 300,000 cubic yards of chatts at 40 cents per cubic yard, and the Mobile & Ohio R. R. Co., to furnish transportation on a sufficient amount of coal, on the basis of 25 cents from mines to Eden and north thereof and 35 cents from mines south of Eden to East

St. Louis, in sufficient quantities to pay for the 300,000 cubic yards of chatts, of which approximately 110,000 cubic yards of chatts have been delivered, leaving approximately 190,000 cubic yards of chatts to be delivered under said contract, to be paid for in coal freights on basis above mentioned. It is the present understanding that Mr. Carroll agrees to limit the amount of coal delivered to the Mississippi River & Bonne Terre Ry. Co., an amount to cover payment of the 190,000 cubic yards of chatts yet to be delivered. And further agrees that the contract is not to be extended or renewed on present basis without conference with this bureau.

Resolved, That the lines here represented agree to maintain the rates now on file with the secretary of this bureau as the tariff rates of the various lines.

The following resolution was presented, viz:

Resolved, That the roll be called with a view of getting a statement from the roads present as to whether or not the agreement would be strictly maintained.

Carried: Each line voting in the affirmative.

Mr. Campbell, of the L. E. & St. L. R. R., made the statement that his line had been and is now furnishing coal to the Mississippi River & Bonne Terre road, on the basis of freight rate of 31¼c per ton to complete a contract made in 1897. He was unable to state the amount of this, but it is to cover several thousand dollars.

Mr. Campbell made the further statement that the Mississippi River & Bonne Terre people are now figuring with his line on a new contract for chatts, but he gave the bureau the assurance that if a contract is made it will be on terms that will not in any way affect the St. Louis coal market.

Mr. Fries, for the B. & O. S. W., made the statement that operators on his line were complaining that they have been unable to compete for certain contracts in the St. Louis and East St. Louis markets recently, ow-

ing to the low prices being offered from mines situated on other roads.

Upon call, all lines gave assurances that they were maintaining the agreed rate.

The secretary was directed to take up with the representatives of the lines, the question as to whether or not switching charges to the industries located at the National Stock Yards in East St. Louis were being absorbed by the lines.

For the sake of uniformity, it was decided by unanimous vote that claims on railroad coal shall be presented to the secretary for a certificate from the proper officer or officers of the roads using the coal, in accordance with Article 3, Clause B, and that said certificates are to be secured by the coal operators, shippers of the coal.

The annual election was held, and the following officers nominated and elected:

Jos. Ramsey, Jr., chairman of the Bureau and Executive Committee.

R. M. Fraser, secretary.

Executive Committee:

Illinois Central R. R.

Louisville & Nashville R. R.

C. C. C. & St. L. Ry.

Terre Haute & Indianapolis R. R.

C. P. & St. L. R. R.

There being no further business the meeting adjourned.

C. F. Parker, Chairman. R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 14;" as follows:

SPECIAL MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU.

St. Louis, Mo., July 6, 1899.

Representation:

B. & O. S. W. Ry.—A. Fries.

C. C. C. & St. L. Ry.—W. D. Holliday, per H. S. Bradley.
C. P. & St. L. Ry.—W. M. Bushnell.

St. L. P. & N. Ry.—Geo. B. Simpson.
T. H. & I. R. R.—N. W. Taylor, per G. I. Stevens.
T. St. L. & K. C. R. R.—W. J. Scott.
The Wabash R. R.—P. W. Coyle.

Mr. S. R. Knott, Chairman.

Meeting called to order at 11:00 A. M.

The chairman stated that members of the bureau had been requested to attend a meeting at this time for the purpose of considering the condition of affairs that have been very unsatisfactory to some of the lines, and reviewed the situation generally.

It was suggested by one of the members that it would be desirable to hear from the M. & O. R. R. in reference to the present status of their contract with the M. R. & B. T. Ry., which was under consideration at the meeting April 8th.

Mr. J. T. Poe, G. T. M., M. & O. R. R., thereupon made the following statement:

I can assure you that everything will be done on the part of the Mobile & Ohio that is possible to preserve and maintain the coal rates from Illinois points to East St. Louis. I do not know the exact status of our contract with the Bonne Terre Ry. Co. at the present time, but I will confer with our president and accounting department and get a detailed statement as early as possible, showing the amount of chatts already shipped, the amount yet remaining to be shipped, and the amount of coal already shipped and that remaining to be shipped to complete contract.

I am quite sure that there has been no renewal of this contract for any additional amount of ballast or coal.

Our president, Mr. Russell, will be in St. Louis next week, and I will arrange an interview between the Executive Committee of this association and himself, in which the position of the M. & O. will be clearly and finally outlined. And to ascertain after going over the contract, if it is possible to confine the shipments of coal at the reduced rates to coal for the use of Bonne Terre Ry., and not for commercial purposes.

The M. & O. Ry. has never sought contracts for coal at East St. Louis at low rates, but on the contrary has avoided them, as past records will show."

It was therefore

Resolved, That explanation of Mr. Poe. of M. & O. R. R., be accepted by the bureau and that the bureau await the report of the Executive Committee after their conference with President Russell and Mr. Poe on that subject.

Adopted by unanimous vote.

Then followed an informal and general discussion on the subject of maintenance of rates; sundry contracts were reported as having been made at figures that would hardly justify payment of the tariff rates for transportation.

The coal to fill these contracts was reported as coming from several different roads, and the representatives of said roads in each instance denied that any reduction had or would be made from their tariff rates.

It was therefore

Resolved, That the roll be called by roads, asking each representative whether he is maintaining the schedule of rates as filed with the bureau, whether any contracts on his road in existence at less than the agreed rates, when such contract was made and the date of expiration.

In submitting the resolution the chairman stated that the representative of each road is called upon to state, First, whether it is now or has been maintaining the rates over its line as filed with this bureau. Second, whether it has any contracts or agreements for the shipment of coal over its line at any rate in conflict therewith. Third, if so, how much tonnage remains to be shipped under such arrangement or agreement, and at what rates.

Roads answered as follows:

B. & O. S. W. Ry.: The first question, we have. Second, we have not. Third question is answered by the second.

C. C. C. & St. L. Ry.: Same as B. & O. S. W. Ry.

C. P. & St. L.: First question, we have. Second, we have not.

Ill. Cent. R. R.: Maintaining rate and abiding by the agreement.

L. & N.: No contracts and maintaining the rates.

L. E. & St. L. C.: No contracts and maintaining the rates.

M. & O. R. R.: No contracts and maintaining the rates.

St. L. P. & N.: No contracts and maintaining rates.

St. L. B. & S.: No contracts and maintaining rates.

T. H. & I.: No contracts, maintaining rates.

Wabash: No contracts and maintaining rates.

T. St. L. & K. C.: No contracts and maintaining rates.

At a meeting on the 5th of coal operators having mines on the roads, members of this bureau, a committee was appointed to have a conference with the representatives of the roads at this meeting.

The committee was as follows:

Mr. W. L. Schmick, Consolidated Coal Co.—B. & O. S. W. Ry., C. C. C. & St. L. Ry., T. H. & I., Wabash.

Mr. J. E. Rutledge—C. P. & St. L., St. L. C. & St. P.

Mr. Cameron, Sorento Coal Co.—T. St. L. & K. C.

Mr. W. S. Scott, Mo. & Ill. Coal Co.—L. & N.

Mr. Geo. Hippard—Ill. Cent., St. L. B. & S.
Mr. W. R. Borders—M. & O.
Mr. W. S. Walker—L. E. & St. L. C.
Mr. Geo. W. McCormick, Madison Coal Co.—St. L. P. & N.

Mr. Hugh Murray, chairman.

After general statements by Messrs. Murray and Walker, and a discussion with the members of this bureau, the subject of the conference with tables prepared by the operators, showing the coal tonnage shipped into this market during the years 1895, 1896 and 1898, it was

Resolved, That a detailed report of the discussion and the papers submitted by the Operators' Committee, be referred to the Executive Committee for consideration.

There being no further business the meeting adjourned.

R. M. Fraser, Secretary.

SUPPLEMENT TO PROCEEDINGS OF SPECIAL MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU, HELD JULY 6, 1899.

St. Louis, Mo., July 21, 1899.

To the Members of the Bureau:

Gentlemen:—As provided for by resolution adopted at meeting 6th inst., members of the Executive Committee, Messrs. Ramsey, Parker, Taylor and Holliday met President Russell, G. T. Poe and G. F. A. Miller of the M. & O. R. R. on Saturday July 15th, at the office of President Russell, and after an explanation by the committee as to the object of the conference, and expressing the hope that the trouble now being caused by a part of the coal transported to East St. Louis from mines on the Mobile & Ohio R. R. account the M. R. & B. T. Ry., in exchange for chatts, being sold on the market, and asked that President Russell take the necessary action to protect and ensure the maintenance

of tariff rates on all commercial coal.

The contract between the M. & O. and M. R. & B. T. was read, and after a general discussion on the subject President Russell dictated a letter to Mr. J. Burns, Genl. Supt., M. R. & B. T. Ry., requesting a conference on Monday, 17th.

The committee received the assurance of President Russell that he would endeavor to remedy the trouble complained of, and would advise result of his conference with Mr. Burns.

In accordance with above I am in receipt of letter as follows:

"St. Louis, Mo., July 20, 1899.
File 5078-A.

Coal, Mobile & Ohio Railroad Mines, for use of Mississippi River and Bonne Terre Railroad.
Mr. R. M. Fraser, Secretary, St. Louis, Mo.

Dear Sir: Referring to our conversation over the telephone this morning, I beg to confirm same to the effect that in accordance with the understanding had between the Executive Committee and our representatives, we have advanced the rate on coal from mines on our line, to the established tariff rates, and nothing less than full tariff rates will be charged on this business hereafter. Yours truly,

(Signed) Haiden Miller, Gen. Frt. Agt."

As instructed by resolution adopted at meeting 6th inst., the detailed report of the discussion and papers submitted by the Operators' Committee, were referred to the Executive Committee at their meeting July 17th, Messrs. Ramsey, Parker and Holliday being present.

After due consideration of the subject, the following letter was prepared and sent by the secretary to W. S. Walker, chairman of Operators' Committee, and is made part of these proceedings:

Mr. W. S. Walker, Chairman, Committee Coal Operators, 924-925 Century Bldg., City.

Dear Sir: Referring to the meeting of your committee with the members of this bureau on July 6th, will say that the subject presented by your committee at that meeting was referred to the Executive Committee of the Bureau, and at a meeting of that committee held on the 17th inst., I was directed to say to you that the railroads, appreciating the importance of some such plan as was suggested by your committee, for the purpose of maintaining stable and uniform selling prices on coal in the St. Louis market, will be very glad to co-operate with you in as far as they can consistently do so for the furtherance and maintenance of some equitable arrangement that may be agreed upon by the coal operators.

We submit that the normal output of the mines on any one of the railroads handling coal to the St. Louis market, determines the normal percentage of coal to be handled by that line. It would therefore appear to devolve upon the coal operators to re-establish the percentage that each road is to carry into this market. Some unsurmountable obstacles prevent the railroads from doing this. The railroads will, however, agree not to take any action that will have a tendency to disturb any fair and equitable arrangement that the operators may adopt.

As regards the maintenance of the present tariff minimum rate of 35 cts. per ton, will say that we are using every endeavor possible to maintain this rate, and have no doubt that it can be done with the full co-operation of the coal operators. We would mention the fact, however, that there seems to be a sustained effort on the part of some of the operators to break down the present rates, of course always with a view to securing private concessions and an advantage over their competitors in the market. It is conceded by all that the situation demands uniform and stable rates, and it is not a matter of great moment to the operator

as to what that rate is, provided his competitors do not get a lower rate of freight.

The maintenance of the present rates will more nearly place the railroads in a position to help you in the proposed plan, whereas under a demoralization of rates, no co-operation could be looked for.

Respectfully,
R. M. Fraser, Secretary."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 15;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU. PROCEEDINGS OF A SPECIAL MEETING, HELD IN THE OFFICE OF THE SECRETARY.

St. Louis, Mo., Jan. 4, 1900.

Representation:
B. & O. S. W. R. R.—Ed Keane.
C. C. C. & St. L. Ry.—E. D. Holliday.
C. P. & St. L. R. R.—W. M. Bushnell.

T. H. & I. R. R.—G. L. Stevens.
T. St. L. & K. C. R. R.—W. J. Scott.
The Wabash R. R.—Jos. Ramsey, Jr.
Mr. Jos. Ramsey, Jr., Chairman.

Meeting called to order at 11:00 a. m.

It being stated, that, call for this meeting had been issued on receipt of request from one of the members in which he said the present status of the Bureau was not satisfactory to some of its members, etc.

On request of the chairman the secretary read letters from some of the members giving notice of their withdrawal from the Bureau Agreement and after a

general discussion of the subject, the other members also gave notice of their withdrawal.

The following resolution was adopted:

Resolved, That, each road here represented, agrees to pay its pro rata share of the expenses, for the maintenance of the Bureau, for statistical purposes, and will continue to pay until notice is given to the contrary.

The St. Louis Coal Traffic Bureau, operating under the agreement, effective April 1st, 1898, thereupon adjourned sine die.

R. M. Fraser, Secretary.

Mr. Jos. Ramsey, Chairman.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 16;" as follows:

MEETING OF ROADS INTERESTED IN THE TRANSPORTATION OF COAL IN ILLINOIS.

St. Louis, Mo., Jan. 4, 1900.

Representation:
B. & O. S. W. R. R.—Ed Keane.
C. C. C. & St. L. Ry.—W. D. Holliday.
C. P. & St. L. R. R.—W. M. Bushnell.

St. L. B. & S. Ry.—C. F. Parker.
T. H. & I. R. R.—G. L. Stevens.
T. St. L. & K. C. R. R.—W. J. Scott.
The Wabash R. R.—Jos. Ramsey, Jr.

Mr. Jos. Ramsey, Jr., was elected Chairman and the meeting called to order at 12:00 o'clock.

The first subject proposed for consideration was the adoption of Articles of Agreement, which were submitted, and after being read, were adopted by sections and as a whole, to become effective January 4th, 1900,

and the secretary was instructed to prepare the agreement and send two copies to the representatives of each road. One copy to be executed by the proper officer of the road and returned to this office.

The name of the organization to be the *St. Louis Coal Traffic Bureau.*

The next subject taken up was the election of officers and the following were nominated and elected unanimously.

Chairman, Mr. Jos. Ramsey, Jr.

Executive Committee, C. C. C. & St. L. Ry.; C. P. & St. L. Ry.; I. C. R. R.; L. & N. R. R.; T. H. & I. R. R.

Secretary, R. M. Fraser.

The subject of rates on coal was considered and each individual road's representative delivered to the secretary a list of rates in effect on the road he represented.

The secretary was instructed to have printed, in pamphlet form, an Information Circular showing the rates charged, by the several roads, for the transportation of coal to East St. Louis, etc., as per memorandum furnished.

The subject of protecting Operator's Time Contracts being considered, the following resolution was adopted:

Resolved, That, the rates on coal, filed this day with the secretary, will be subject to change as prescribed by law. That, the Coal operators be advised, that, no line will protect its published rates, on coal, for any length of time, beyond that required by law.

The question being raised as to rates on "Railroad Coal" it was:

Resolved, That, this subject be referred to the Executive Committee for them to ascertain whether it is legal for roads to transport Coal, for use of railroads, ferry companies, etc., at reduced rates. The subject to be further considered at the next meeting.

The representatives of the roads, members of the Bureau, individually advised, that, it is the intention

of their company to advance the rates on coal, 5 cents per ton, effective March 1st, 1900.

Letter from the St. Louis Coal Exchange was read, in which enquiry was made regarding purchase of a Smith Premier Typewriter, the property of the bureau, and not needed by this office. The secretary was authorized to dispose of the machine.

The salary of the secretary was fixed at $100.00 per month.

There being no further business; on motion, the meeting adjourned until Tuesday, January 23rd, at 10:00 a. m.

R. M. Fraser, Secretary.

Mr. Jos. Ramsey, Jr., Chairman.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 17;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU. PROCEEDINGS OF A MEETING HELD IN THE OFFICE OF THE SECRETARY.

St. Louis, January 23rd, 1900.

Representation:
B. & O. S. W. R. R.—Ed Keane.
C. C. C. & St. L. Ry.—W. D. Holliday.
C. P. & St. L. Ry.—W. M. Bushnell.
Ill. Cent. R. R.—C. F. Parker.
L. E. & St. L. C. R. R.—R. A. Campbell.
L. & N. R. R.—W. S. McChesney, Jr.
M. & O. R. R.—J. M. Denyven.
St. L. B. & So. Ry.—C. F. Parker.
T. H. & I. R. R.—N. W. Taylor.
T. St. L. & K. C. R. R.—W. J. Scott.
The Wabash R. R.—Jos. Ramsey, Jr., by W. D. Holliday.

C. F. Parker, Chairman.

It being stated that, as this was an adjourned meeting, unfinished business should be the first disposed of, a motion was made by one of the members to that

effect, and the question of rate on Railroad Coal was first subject considered.

The secretary read resolution adopted at last meeting, as follows: "The question being raised as to rates on "Railroad Coal," it was:

Resolved, That, this subject be referred to the Executive Committee for them to ascertain whether it is legal for roads to transport coal, for use of railroads, ferry companies, etc., at reduced rates. The subject to be further considered at the next meeting."

After a general discussion and the roll being called to ascertain the views of the members on the subject, the representative of each and all of the roads, members of the Bureau, individually advised, that, it is their intention to make effective March 1st, 1900, the same rate on coal for use of railroads, ferry companies, etc., as charged on commercial coal.

After further discussion regarding "Railroad Coal" it was suggested and agreed, that, the roads having contracts for the protection of the railroad rate, on "Railroad Coal," that, they file the information with the secretary of the Bureau, relative to the date of expiration of these contracts.

The question being raised as to whether all members had given notice to operators and others interested, regarding advance in rates, effective March 1st, as advised by them at meeting 4th inst., and it was:

Resolved, That, the secretary take the question up with the lines from whom he had not received notice, asking what action they had taken regarding the proposed advances, effective March 1st, and requesting that he be furnished, by each of the roads, with a copy of the notice, which had been given to the coal operators and others interested.

Note—Circular letter dated 23rd, file 205, was issued asking for the information.

At meeting Jan. 4th, several of the members present, were not prepared to say positively, whether their

company would advance the rate on commercial coal, 5 cents per ton, March 1st. The subject was brought up at meeting today and after consideration, each road's representative stated, that, it is the intention of their company to advance the rates on coal 5 cents per ton, effective March 1st, and it was:

Resolved, That, if the representative of either road finds that, he cannot advance the rate, effective March 1st, that he notify the secretary to that effect, within 10 days from this date, (Jan. 23rd) and that the secretary advise the members accordingly.

After consideration of the subject of protecting contracts, it was the individual understanding of all parties, that, after March 1st, they will not protect a less rate than an advance of 5 cents per ton above the present tariff rates.

Enquiry being made as to whether the agreement had been signed by all parties and it being ascertained that reply had been received from all but three of the roads, the secretary was instructed to take the subject up with the members who had not replied.

Note—Letter was written to the parties 23rd inst., file 200.

One of the members stated, that, he received a letter January 14th, from the St. Louis Coal Exchange, requesting report of number of cars coal received each day at East St. Louis, for this market and further stated, that, he would like to have the subject placed before the bureau.

After a statement by the chairman as to the object of the St. Louis Coal Exchange and a recommendation to the members, that, the information be furnished, it was:

Resolved, That, the roads, members of this bureau, give to Mr. E. M. Ward, secretary St. Louis Coal Exchange, the information asked for in his letter of Jan. 14th, they to designate the manner in which the information shall be given, the secretary to notify Mr. Ward.

Note—The statement made by each member as to the manner in which he would furnish the information to the St. Louis Coal Exchange, was communicated to Mr. Ward, by letter dated 23rd inst.

The secretary read letter 6th from the secretary of the St. Louis Coal Exchange, requesting that, he be furnished with daily and monthly reports, issued from this office, and it was:

Resolved, That, the secretary furnish the St. Louis Coal Exchange, or any of the coal operators or dealers, with the daily or monthly coal report, at $1.00 per month, each.

The secretary called attention to the fact that, the agreement effective January 4th, 1900, did not provide for any regular meetings of the bureau, and it was:

Resolved, That the regular meetings of this bureau will be held on the third Thursday of January, April, July, and October of each year, unless otherwise unanimously agreed upon. The secretary shall furnish the members, ten days in advance, of these regular meetings, a list of the subjects which have been reported, by the various members, for consideration. Special meetings will be called by the secretary, on the request of one or more of the members.

Proof copy of information circular was submitted for consideration, and it was:

Resolved, That in the preparation of information circular the initials appearing after the name of the mines, indicating the operators of the mines, be omitted and that, the initials be shown on the daily report issued by the secretary.

Note.—The initials will be shown on daily report when next supply of blanks are printed.

The subject of publishing information circular No. 1, being considered, it was:

Resolved, That the secretary withhold the publication of information circular No. 1 until after the ex-

piration of 10 days from this date (Jan. 23rd.) and *in the event of not receiving notice from any of the lines, members of the Coal Traffic Bureau, that the advanced rates cannot become effective*, he issue the information circular showing the rates to become effective March 1st, 1900.

Adjourned.

C. F. Parker, Chairman. R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 18;" as follows:

C. F. Parker, Chairman.

Meeting convened at 11:00 a. m.

The secretary stated that the call for this meeting had been issued by request of one of the members to consider matters of great importance to the members.

The chairman stated, he had suggested that this meeting be called to consider the question of rates as filed with the secretary by the various lines, also as to the rates that are actually in effect by the various lines, We have not had a meeting for some time and I think possibly there has been an accumulation of matter that

needs some attention at the hands of the bureau and reviewed the situation generally.

The principal source of trouble appeared to be the contracts between the M. & O., B. & O. S. W. and possibly other roads and the M. R. & B. T. R. R. Co. for a supply of chatts.

After a general discussion of the subject it was:

Resolved, That the matter be referred to the executive committee and the lines who have contracts with the M. R. & B. T. R. R. be requested to come before the committee to consider the coal rate situation as affected by the contracts with the M. R. & B. T. R. R.

A letter was received from the St. Louis Coal Exchange dated April 18th and after being read to the members it was:

Resolved, That the letter from the St. Louis Coal Exchange be received and made a part of the records.

The question was raised as to whether the rates named by the several roads and published in information No. 1, Jan. 4th, 1900, included the entire cost of switching and trackage necessary to reach the industries at Granite City and after a general consideration of the subject, it was

Resolved, That the matter be allowed to stand as at present, it being optional with the roads as to whether or not they absorb the switching.

Note.—A circular letter will be issued giving information received in answer to circular letter 10th inst., file 213.

The following resolutions were adopted unanimously.

Resolved, That each road reaffirm its tariff rates as individually filed with the secretary of the bureau and as shown in information circular No. 1, Jan. 4th, 1900.

Resolved, That the rates on coal, filed this day with the secretary, will be subject to change as prescribed

by law. That, the coal operators be advised, that no line will protect its published rates on coal, for any length of time, beyond that required by law.

A member brought up the subject of rate on railroad coal, it having been stated by the individual members at meeting 23rd, that it was their intention to make, effective March 1st, the same rate on coal for use of railroads, ferry companies, etc., as charged on commercial coal.

At the suggestion of one of the members a vote was taken to ascertain whether any of the roads were making a refund on railroad coal. All representatives voted in the negative, except the T. H. & I., who stated that he has sent the secretary a letter a few days after the January meeting, giving notice that they would make a refund on railroad coal. The letter not having been received by the secretary a copy was requested.

After a general discussion it was decided that it was optional with the roads, whether or not they made a refund on railroad coal.

Below find a copy of the notice referred to which was also issued by circular letter as instructed.

"St. Louis, Mo., April 19, 1900.

RATES ON RAILROAD COAL ILLINOIS MINES TO EAST ST. LOUIS.

File T. 2167.

Mr. R. M. Fraser, Secretary, City.

Dear Sir:—Referring to our conversation today relative to rates on railroad coal from Illinois points to East St. Louis, I find upon returning to the office that we did not formally notify you at the time this matter was under consideration. By some oversight the papers were filed and the matter was overlooked. I would say, however, that in confirmation of my statement today, we reserve the right to continue the old practice of making rate on coal actually used by railroads and

ferry companies, etc., 10 per cent less than the authorized commercial rate.

Yours truly,
(Signed) N. W. Taylor, G. F. A."

It was suggested that the St. Louis Troy & Eastern Ry. should become a member of this bureau and the following resolution was adopted unanimously.

Resolved, That the bureau make a request or extend an invitation to the St. Louis Troy & Eastern Ry. to become a member of this bureau.

There being no further business a motion to adjourn was adopted.

R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 19;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU. PROCEEDINGS OF SPECIAL MEETING OF THE EXECUTIVE COMMITTEE, HELD IN THE OFFICE OF THE SECRETARY.

St. Louis, Mo., Nov. 13, 1900.

Representation:
C. C. C. & St. L. Ry.—W. D. Holliday.
C. P. & St. L. Ry.—W. M. Bushnell.
Ill. Cent. R. R.—C. F. Parker.
L. & N. R. R.—John Fitzgerald.
T. H. & I. R. R.—G. L. Stevens.
The Wabash R. R.—S. B. Knight.

C. F. Parker, Chairman.

The secretary presented reports showing the result of check at East St. Louis stations for the months of July, August and September.

After an examination of the papers, the opinion was expressed that the discrepancies were apparently the result of carelessness or by the change made in clerical

force at the several stations, as explained by the agents, and it was:

Resolved, That, the secretary of the bureau make check of the local freight stations, monthly, as to coal received by the various lines and should such check develop any errors they are to be entered on the last daily report of the month following, sent out by the bureau, with explanatory note.

The secretary informed the committee that Mr. E. H. Conrades, president St. Louis Troy & Eastern Railroad, signed the articles of agreement of the St. Louis Coal Traffic Bureau on November 15th, they had, however, been making daily reports to this office from October 1st and had paid a proportion of expenses of the bureau for the month of October.

Attention was called to the manner in which the St. Louis Troy & Eastern Railroad report their coal (as from Donk Bros. Coal & Coke Co. mines) and after due consideration, it was

Resolved, That, the secretary be instructed to call the attention of the officers of the St. Louis, Troy & Eastern Railroad to Article IX of the agreement of the bureau, relating to the reports of coal by the lines, members of the bureau, and that he request the St. Louis, Troy & Eastern Railroad to report coal from mines on that line in accordance with said Article IX.

Note.—The secretary to send a copy of the letter written to President Conrades to Mr. C. F. Parker.

The secretary read correspondence with Mr. Benjamin, General Coal Agent, Chicago & Alton Railway, regarding membership in the bureau, and it was

Resolved, That, the secretary present to the chairman, Mr. Ramsey, a copy of the correspondence with the Chicago & Alton people, inviting them to become members of the bureau, with the request that Mr. Ramsey take the matter up with President Felton of the

Chicago & Alton road and endeavor to secure their membership.

The secretary requested instructions as to whether he should continue carrying the Toledo, St. Louis & Western Railroad on letter heads, etc., of this bureau and he was instructed to drop the name in the reprint of papers in future.

There being no further business committee adjourned.

R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 20;" as follows:

SPECIAL MEETING OF THE ST. LOUIS COAL TRAFFIC BUREAU.

St. Louis, Mo., March 7, 1901.

Representation:

B. & O. S. W. R. R.—W. M. Greene, by E. S. Orr.

C. C. C. & St. L. Ry.—M. E. Ingals, by W. D. Holliday.

C. P. & St. L. Ry.—Curtiss Millard, by W. M. Bushnell.

Ill. Cent. R. R.—J. T. Harrihan, by W. B. Hurlbut.

St. L. B. & So. Ry.—C. F. Parker.

L. & N. R. R.—Y. Van den Berg, by A. W. Graham, John Fitzgerald.

M. & O. R. R.—E. L. Russell, by W. K. Vandiver.

Southern Ry. (St. L.-L. Lines)—H. B. Spencer, R. A. Campbell.

St. L. T. & E. R. R.—E. H. Conrades.

T. H. & I. R. R.—V. T. Malott, by N. W. Taylor

The Wabash R R.—J. Ramsey, Jr., by S. B. Knight.

C. F. Parker, Chairman.

Meeting of the executive officers called at the request of one of the members as shown in Circular Letter 26th, as follows:

"The situation with respect to rates on coal from Illinois mines to East St. Louis is in a very unsatis-

factory condition. I think it essential that a meeting of the executive officers of the lines interested in the transportation of coal to St. Louis should be held at an early date to consider the matter. I shall be glad if you will issue a call for a meeting to be held at St. Louis the first week in March."

After a general discussion as to the condition of affairs in connection with the coal traffic, the roll was called to ascertain whether there were any contracts by the railroads or coal operators, extending beyond March 31st, 1901, which resulted as follows:

B. & O. S. W. R. R.—I cannot answer that question positively, but I will say that several operators have been in to see me in the last few weeks, in regard to contracts that will be let on the first of the month, but I believe firmly that we have no contracts, but I will find out as soon as I get to the office and will inform the secretary.

C. C. C. & St. L. Ry.—The operators on our line have made no contracts whatever.

C. P. & St. L. Ry.—The contracts made by our people expire this month. We have no contracts beyond the 1st of April.

Ill. Cent. and St. L. B. & So.—We have no contracts with operators or dealers running beyond the 1st of April, nor do we know of any contracts being made that will run beyond the 1st of April.

L. & N. R. R.—We have made no contracts with our operators to protect the present rate or any other basis of rates beyond the legal notice required by law, and so far as I am advised the operators have made no contracts for the future delivery of coal beyond the 1st of April.

M. & O. R. R.—I do not know of any contract, except that with the Bonne Terre Company, but will advise the secretary later.

Southern Ry.—Mr. Chairman, we have no contracts at less than the present rate of 35 cents per ton. The

only contract we have is with the Bonne Terre Company.

St. L. T. & E. R. R.—Our road has no contracts whatever.

T. H. & I. R. R.—None beyond March 31st to my recollection.

The Wabash R. R.—We have no contracts for a freight rate.

A paper in the form of a resolution was handed to the chairman in which a plan was proposed for the handling of coal traffic and after being read the roll was called for a vote, which was as follows:

B. & O. S. W. R. R.—I have no authority to accept the percents. I can only say that we are desirous of doing anything in reason to bring about absolute maintenance of rates, and if this proposition seems fair to our people I think there will be no question about our agreeing to it.

C. C. C. & St. L. Ry.—I am not prepared to vote on the resolution. As I said before, the Big Four is only too willing to co-operate for the absolute maintenance of rates, but we prefer to have the matter considered at a later meeting.

C. P. & St. L. Ry.—Votes Aye on the resolution with the understanding that the J. & St. L. be eliminated.

Ill. Cent. and St. L. B. & So.—Votes Aye on the proposition.

L. & N. R. R.—We vote "Aye."

M. & O. R. R.—I am not prepared to vote on the resolution.

T. H. & I. R. R.—Not authorized to vote on the subject but will submit same to our receiver.

Southern Ry.—Willing to consider the proposition.

St. L. T. & E. R. R.—Willing to consider the proposition.

The Wabash R. R.—I have no objection to the plan, but have no authority to vote on the proposition.

And it was

Resolved, That a copy of the proposition which has just been read, together with a copy of the articles of

agreement at present in effect, also a copy of the statistics prepared by this bureau for the period named in the proposition referred to above, be sent to the representative of each road, member of this bureau, and that another meeting be called by the secretary at an early date to further consider the subject.

After some remarks by the general coal agent, Ill. Cent. R. R., regarding the rate situation in the past as well as at the present time, he stated that, we will make our rate from 35c points 15 cents per ton, and the higher rate points the same differential on the basis of 15c per ton as now in effect on the 35c rate. These reductions to become effective at once.

R. M. Fraser, Secretary.

C. F. Parker, Chairman.

N. B.—I enclose a copy of the "Proposed Plan," also a copy of articles of agreement, effective Jan. 4th, 1900, and copy of the report issued by this office for the year 1898 and Dec., 1900, showing the tonnage carried by each road during the years 1895-6-7-8-9 and 1900.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 21;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU. PROCEEDINGS OF A SPECIAL MEETING OF THE EXECUTIVE OFFICERS, HELD IN THE OFFICE OF THE SECRETARY.

St. Louis, Mo., March 16, 1901.

Representation:

B. & O. S. W. R. R.—W. M. Greene, by E. S. Orr.

C. C. C. & St. L. Ry.—M. E. Ingalls, by W. D. Holliday.

C. P. & St. L. Ry.—Curtiss Millard, by W. M. Bushnell.

Ill. Cent. R. R.—J. T. Harrihan, by T. J. Hudson, C. F. Parker.

St. L. B. & So. Ry.—J. T. Harrihan, by T. J. Hudson, C. F. Parker.

L. & N. R. R.—Y. Van den Berg, by A. W. Graham, John Fitzgerald.

Southern Ry.—H. B. Spencer.

M. & O. R. R.—E. L. Russell, Haiden Miller.

St. L. T. & E. R. R.—E. H. Conrades.

T. H. & I. R. R.—V. T. Malott, by N. W. Taylor.

The Wabash R. R.—J. Ramsey, Jr., S. B. Knight.

C. & A. Ry.—S. M. Felton, by G. W. Benjamin.

T. St. L. & W. R. R.—Benjamin Norton, by C. D. Whitney.

J. Ramsey, Jr., Chairman.

Meeting of the Executive Officers of Board interested in the transportation of coal in Illinois in accordance with request by one of the officials in telegram as follows:

"Referring to soft coal situation at East St. Louis. In order to prevent continuation of present demoralization in rates, I suggest executive officers members of St. Louis Coal Traffic Bureau meet at St. Louis Saturday, March sixteenth, for consideration of this situation with view of straightening matter out and for discussion of resolution looking to proper regulation of coal traffic adopted at meeting held March seventh.

After a general discussion as to condition of affairs in connection with the coal traffic, it was:

Resolved, That the roll be called to ascertain whether there are any contracts in effect or rates guaranteed at less than 30 cents per ton, that will extend beyond March 31st.

The representative of each road answered in the negative.

The following resolution was offered and declared adopted:

Resolved, That on and after March 20th, 1901, the minimum rate on commercial and railroad coal will

be 30 cents per ton, to East St. Louis until changed legally by open tariff by any of the lines represented here and that no contracts shall be made between now and March 20th, extending beyond that time, at less than the tariff rate, 30 cents.

And be it further:

Resolved, That 5 cents per net ton of 2000 lbs. be the maximum reduction from outside districts.

Roll being called the vote was as follows:

B. & O. S. W.—Aye.

C. C. C. & St. L.—The Big Four is opposed to any less rate than 35 cents per ton and they know of no good reason why the reduction should be made, but in the interest of harmony and in view of the fact being clearly determined that nothing higher than 30 cent rate can be maintained, we vote in favor of maintaining a rate of 30 cents per ton.

C. P. & St. L. Ry.—Aye.

Ill. Cent. R. R.—The Ill. Cent. votes Aye with the understanding that if we find that it is working an injury to our distant fields we want to bring it up before the bureau again and I want to add to what I have stated that the Ill. Cent. will abide by this rate absolutely, but if we find that this rate is being cut we will reduce our rate again.

L. & N. R. R.—The L. & N. believes that the rates can be maintained at 35 cents as well as at 30 cents, that there is no competition that demands a reduction in the present basis of rates and that if the other lines insist on the 30 cent rate we will consent to maintain the 30 cent rate.

So. Ry.—Aye.

St. L. B. & S. Ry.—Same as the Ill. Cent. R. R.

M. & O. R. R.—Aye. We desire to state that we are in favor of the 35 cent rate, but in the interest of harmony we are willing to make this concession.

St. L. T. & E. R. R.—Aye.

T. H. & I. R. R.—If it is understood that this rate is to be absolutely maintained we will vote "Aye," but it must be understood that the rate will be very different if it is cut again.

The Wabash R. R.—Aye.

C. & A. R. R.—We propose to maintain rates, but we desired a 35 cent rate with a percentage allotment.

T. St. L. & W. R. R.—Aye.

The question of making time contracts on basis of 30 cents per ton was brought up by one of the members and after discussion the following resolution was offered and adopted by vote as given below.

Resolved, That no contracts for the transportation of coal be made for any longer period than one year.

B. & O. S. W. R. R.—Aye.
C. C. C. & St. L.—Aye.
C. P. & St. L. Ry.—Aye.
Ill. Cent. R. R.—Aye.
L. & N. R. R.—Aye.
St. L. T. & E. R. R.—Aye.
T. H. & I. R. R.—Aye, with the understanding that if within 10 days I do not notify the secretary to the contrary the rate stands, in the meantime I will take no action.
M. & O. R. R.—Aye.
So. Ry.—Aye.
St. L. B. & So. Ry.—Aye.
The Wabash R. R.—Aye.
C. & A. Ry.—Aye.
T. St. L. & W. R. R.—Aye.

It being stated that reports of apparent irregularities in rates were occasionally brought about by the transfer-ferry or terminal companies not maintaining the same charge to all parties for similar service, it was:

Resolved, That the chairman appoint a committee of three to take this question up with the transfer-ferry or terminal companies.

The chairman appointed as the committee, Messrs. Parker, Spencer and Conrades, with Mr. Parker as chairman.

The question of the Chicago & Alton and the T. St. L & W. roads becoming members of the bureau was brought up, and it was:

Resolved, That the C. & A. and the T. St. L. & W. roads be requested to become members of the bureau.

In answer to the unanimous invitation of the bureau, Mr. Benjamin suggested that the invitation be extended by letter and he thought it would be favorably considered.

Mr. Whitney stated that he had no authority to decide the question, but would take the subject up with President Norton and advise decision.

The secretary requested instructions as to reissuing Information Circular No. 1 and it was:

Resolved, That Information Circular No. 1 be reprinted as Information Circular No. 2, naming changes as suggested and that each line now give notice to the secretary that they propose to change their tariff, effective March 20th, and that each road furnish the secretary a list of the rates that will be charged from their several mines.

There being no further business, the meeting adjourned.

J. Ramsey, Jr., Chairman.
R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 22;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU.

Proceedings of a Meeting of the Executive and Traffic Officers, Held in the Secretary's Office.

St. Louis, Mo., May 17, 1901.

Representation:

St. L. T. & E. R. R.—E. H. Conrades.
T. H. & I. R. R.—N. W. Taylor.
The Wabash R. R.—P. W. Coyle.

C. F. Parker, Chairman.

Meeting convened at 10:30 a. m.

Meeting of executive and traffic officers of roads, members of this bureau, in accordance with a call issued 13th inst., as follows:

"At a meeting of the executive committee today, I was instructed to call a meeting of the bureau at this office on Friday, May 17th, 10 a. m. *sharp*, to consider several matters of importance to the members.

"Will you therefore please be present or authoritatively represented without further notice?"

Attention having been called to the fact that the articles of agreement, dated January 4th, 1900, expired by limitation January 4, 1901, it was:

Resolved, That the agreement of the St. Louis Coal Traffic Bureau, effective January 4th, 1900, which expired on the 4th day of January, 1901, be made continuous from the latter date and to remain in force and effect until the withdrawal of parties to the agreement, after thirty days' written notice, as provided in Article VIII of the old agreement.

Note.—The secretary to submit the resolution to Mr. Jos. Ramsey and advise members if not concurred in. The resolution was read and approved by Mr. Ramsey, May 18th, A. M.

The terms of the above resolution will appear in the new agreement as Article XVII.

The chairman read resolution adopted at meeting January 23d, 1900, regarding regular meetings and sug-

gested that it would be desirable to have the first quarterly meeting near the expiration of the coal contract year and be incorporated in the agreement as Article X, and it was:

Resolved, That the regular meetings of this bureau will be held on the third Thursday of February, May, August and November of each year, unless otherwise unanimously agreed upon. The secretary shall furnish the members ten days in advance of the regular meetings, a list of the subjects which have been reported by the various members for consideration.

Special meetings will be called by the secretary, on the request of one or more of the members.

The next subject considered was the election of officers and the following were nominated and re-elected unanimously:

Chairman, Mr. Jos. Ramsey, Jr.

Executive Committee—The representatives of the C. C. C. & St. L. Ry., C. P. & St. L. Ry., Ill. Cent. R. R., L. & N. R. R., T. H. & I. R. R.

Secretary, R. M. Fraser.

It having been suggested by one of the members as highly important and very essential that the C. & A. and T. St. L. & W. R. Rs. become members of this bureau, it was:

Resolved; That Mr. Ramsey, the chairman of this organization, and Mr. Harrihan, V. P. and G. M. Ill. Cent. R. R., be appointed a committee to take this matter up with Mr. Felton of the C. & A. and Mr. Norton of the T. St. L. & W. R. R. and see if they cannot be induced to become members of the bureau.

It having been suggested by one of the members that it would be desirable to establish a coal contract year, the same to be incorporated as Article VII of the new agreement.

After a careful consideration of the subject, it was:

Resolved, That no contracts shall be guaranteed for a longer period than one year. The coal year of this bureau shall be understood to be from April 1st of one year to March 31st of each succeeding year and each road, party to this agreement, agrees not to guarantee or protect rates beyond the period so established.

Roll being called, all members voted in the affirmative.

At the request of a member the roll was called to ascertain whether any member has made contracts for the transportation of coal for a longer period than March 31st, 1902, and each member answered in the negative.

As several changes are to be made in the articles of agreement, it was:

Resolved, That the secretary prepare a new agreement including Articles VII, X and XVII, provided for above and send two copies to the representatives of each road, members of the bureau, one copy to be executed by the proper officer of the road and returned to this office.

The subject of absorbing switching at East St. Louis was brought up and after a general discussion, it was:

Resolved, That the subject be referred to the executive committee for investigation. The secretary to obtain information regarding industries located on the tracks of the various roads at East St. Louis and submit same to the executive committee.

Mr. Hurlbut called attention to the decreased tonnage carried by the Ill. Cent. R. R. as compared with same period last year, stating that the condition of affairs was not satisfactory to the Ill. Cent. R. R. and he did not believe all the roads were adhering to the tariff rates filed with the secretary. No definite action taken.

It was suggested that as there was really no bureau in existence when the rates in Information Circular No.

2 were filed, that the following resolution be adopted:

Resolved, That, pending the signing of the revised agreement, each road, party to the agreement, pledge themselves to absolutely maintain their rates as published in Information Circular No. 2, effective March 20th, 1901.

Roll was called on above resolution and all members voted in the affirmative.

Adjourned.

R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 23:" as follows:

ST. LOUIS COAL TRAFFIC BUREAU, PROCEEDINGS OF A SPECIAL MEETING, HELD IN THE SECRETARY'S OFFICE.

St. Louis, Mo., April 16, 1902.

Representation:
B. & O. S. W. R. R.—Ed. Hart, Jr.
C. C. C. & St. L. Ry.—Walter Nichols.
C. P. & St. L. Ry.—W. M. Bushnell.
I. C. R. R.—C. F. Parker.
L. & N. R. R.—John Fitzgerald.
M. & O. R. R.—J. M. Denyven.
Southern Ry.—R. A. Campbell.
St. L. B. & So. Ry.—C. F. Parker.
St. L. T. & E. R. R.—E. H. Conrades.
T. H. & I. R. R.—N. W. Taylor.
Wabash R. R.—

C. F. Parker, Chairman.

Meeting convened at 11:00 a. m.

Meeting was called by circular letter April 14th, file 201, as follows:

"You are hereby urgently requested to attend a meeting of the bureau at this office on Wednesday, April 16th, 10:30 a. m., in accordance with the following letter:

"It has been suggested that a meeting of the Coal Traffic Bureau be called as soon as possible for the purpose of considering matters of rates on coal from Illinois mines to East St. Louis for the coal season upon which we are just entering.

I would therefore be obliged if you will issue a call for such a meeting to be held at your office on Wednesday, April 16th. In issuing this call, kindly urge that full representation is desired.

It is thought advisable to call a meeting of the St. Louis Coal Traffic Bureau to consider important matters; therefore, please call meeting of the Chief Traffic Officials for Wednesday, April 16th, at 10:30 a. m."

After much discussion the following resolutions were adopted:

Resolved, That the roll be called and the representative of each line answer as to whether or not his line is maintaining the rates filed by his company with the bureau, as set forth in information circular No. 2.

Roll was called in accordance with the resolution and each member individually stated that his line was maintaining rates as published in information circular No. 2.

Resolved, That the roll be called and the representative of each line answer as to whether or not his line is applying freight charges on coal in exchange for chatts.

In line with the above roll was called and the representatives present, excepting the Southern and M. & O. stated that they had no such arrangement in effect on their line.

The representatives of the Southern and M. & O. answered as follows:

Southern Ry.—We have a contract for the exchange of coal freight for chatts, but it is inoperative at the present time on account that there is a large amount of chatts due us on coal that has already been delivered, to the extent of probably $25,000, and we will not

be able to resume the contract before next fall or winter.

M. & O. R. R.—I am not prepared to answer but will look into the matter and give the secretary reply by letter.

The secretary to notify members by circular letter of the reply received from M. & O. R. R.

Resolved, That the St. Louis & Illinois Suburban Railroad be invited to become a member of this bureau and the secretary be instructed to confer with the proper official of that company.

R. M. Fraser, Secretary.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 24;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU. PROCEEDINGS OF A MEETING HELD IN THE OFFICE OF THE SECRETARY.

St. Louis, Mo., March 18, 1903.

Representation:

B. & O. S. W. R. R.—Ed. Hart, Jr.
C. C. C. & St. L. Ry.—Walter Nichols.
C. P. & St. L. Ry.—W. M. Bushnell.
Ill. Cent. R. R.—A. N. Dale.
L. & N. R. R.—John Fitzgerald.
M. & O. R. R.—J. T. Poe, J. M. Denyven.
Southern Ry.—R. A. Campbell.
St. L. B. & So. Ry.—A. N. Dale.
St. L. T. & E. R. R.—W. F. Gould.
T. H. & I. R. R.—W. Hodgdon, G. L. Stevens.
Wabash R. R.—S. B. Knight.

A. N. Dale, Chairman.

At meeting of the Coal Traffic Bureau, held March 18th, 1903, each road there represented, individually announced that they would continue the rates shown

in information circular No. 4, on bituminous coal, until notice of their desire to change is filed with the Coal Traffic Bureau.

The Secretary was instructed to take up with the C. & A.—T. St. L. & W. and Electric lines the subject of rates on coal, with the view of ascertaining what rates they propose to maintain on bituminous coal from Illinois mines to East St. Louis and vicinity. Members to be advised of replies received.

It having been stated that the period for which the executive committee was elected had expired (as provided in articles of organization), it was

Resolved, That the present committee be re-elected, viz: the representative of the C. C. C. & St. L. Ry.—C. P. & St. L. Ry.—I. C. R. R.—L. & N. R. R. and T. H. & I. R. R.

The subject of absorption of switching at East St. Louis was next considered and after discussion, it was

Resolved, That the question of absorption of switching on coal, within the switching limits of East St. Louis, viz: on bituminous coal from Illinois points, be left optional, individually with the line that carries the coal. This does not apply to the *trackage charge* assessed for delivery of coal within the National Stock Yards. It being understood that this *trackage charge* will be in addition to the rate.

The secretary stated that the increased expense of living made it very necessary that the allowance for salary for clerical services, authorized in 1898, be increased from $100 to $125 per month and requested the bureau to authorize this amount and it was:

Resolved, That the matter be left with the secretary, with the understanding that the bureau expense for clerical services shall not exceed $125 per month.

It was suggested by a member that it would be advisable to have meeting of the bureau in April, and it was

Resolved, That the secretary issue a call for meeting of the bureau on April 14th, sending notice to the members in usual manner.

R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 25;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU.

Proceedings of a Meeting Held in the Office of the Secretary.

St. Louis, Mo., April 14, 1903.

Representation:
B. & O. S. W. R. R.—Ed. Hart, Jr.
C. C. C. & St. L. Ry.—Walter Nichols.
C. P. & St. L. Ry.—W. M. Bushnell.
I. C. R. R.—A. N. Dale
L. & N. R. R.—John Fitzgerald.
M. & O. R. R.—Haiden Miller.
Southern Ry.—R. A. Campbell.
St. L. B. & So. Ry.—A. N. Dale.
T. H. & I. R. R.—Wm. Hodgdon.
Wabash R. R.—
St. L. T. & E. R. R.—E. H. Conrades.

A. N. Dale, Chairman.

Meeting convened 10:30 a. m.

The meeting convened in accordance with resolution adopted March 18th. The minutes of meeting March 18th were read and after being corrected by Southern and L. & N. Railroads were approved.

The secretary reported having written to representatives C. & A. Ry., T. St. L. & W. R. R., and Belleville Electric Line, as instructed at meeting March 18th and replies received from C. & A. and T. St. L. & W. were satisfactory.

Mr. J. M. Bramlette, general superintendent of the East St. Louis and Suburban Ry. Co., not having replied to letter March 28th, the secretary was instructed to write him again.

After a general discussion between the members as to the condition of affairs regarding coal traffic, on motion, duly seconded and carried the chairman asked the roads represented to declare themselves individually as to their position on the following propositions.

First—Maintenance of rates as per St. Louis Coal Traffic Bureau Information Circular No. 4, from Jan. 10th to March 31st, 1903, as against contracts at less.

The roads were not prepared to express themselves, but would endeavor to do so at meeting, May 21st.

Second—Maintenance of rates as per St. Louis Coal Traffic Bureau Information Circular No. 4, April 1st, 1903, to March 31st, 1904.

The roads, members of the bureau, individually advised that they will continue rates as per information Circular No. 4, until notice is given to the contrary to the secretary of the bureau.

Third—Action contemplating refusal to protect rates annually or for a term, after March 31st, 1904.

Notwithstanding that article 7 of the agreement, effective January 4th, 1901, provides for a coal year, which has been construed not to prohibit entering into contracts with operators and others at current rates for the period therein specified, the roads, members of this bureau individually advised that, effective April 1st, 1904, they will not guarantee or protect rates for any period longer than that required to change tariffs.

The secretary was instructed to notify both the C. & A. and T. St. L. & W. regarding action taken in reference to time contracts.

On motion meeting adjourned until Thursday, May 21st.

R. M. Fraser, Secretary.

N. B.—I enclose two (2) copies of action regarding Time Contracts to attach to Article 7 of the Agreement."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 26;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU.

Proceedings of a Meeting Held in the Office of the Secretary.

St. Louis, Mo., May 21, 1903.

Representation:
B. & O. S. W. R. R.—Edw. Hart, Jr.
C. C. C. & St. L. Ry.—W. Nichols.
C. P. & St. L. Ry.—W. M. Bushnell.
I. C. R. R.—A. N. Dale.
L. & N. R. R.—J. N. Chandler.
M. & O. R. R.—J. M. Denyven.
Southern Ry.—R. A. Campbell.
St. L. B. & S. Ry.—A. N. Dale.
St. L. T. & E. R. R.—E. H. Conrades.
T. H. & I. R. R.—Wm. Hodgdon.
Wabash R. R.—
Edw. Hart, Jr., Chairman.

Meeting convened at 10:30 a. m. in accordance with resolution adopted April 14th and Mr. Edw. Hart, Jr., was elected chairman.

The minutes of meeting April 14th were read and approved.

The secretary reported having written again to the representative Belleville Electric Line, for information as to rates they propose to maintain, as instructed at meeting April 14th and read reply received and no further action required.

After consideration of the first proposition, as per proceedings of meeting held April 14th, it was:

Moved, That the subject be laid on the table.

As instructed, the secretary notified both C. & A. and T. St. L. & W. regarding action take on the third proposition (see proceedings April 14th) replies were received concurring in the action of the bureau.

There being no further business, the meeting adjourned until the third Thursday (20th) of August, unless

special meeting is requested at an earlier date.

R. M. Fraser, Secretary.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 27;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU.

Proceedings of a Meeting Held in the Office of the Secretary.

St. Louis, Mo., Aug. 20th, 1903.

Representation:
B. & O. S. W. R. R.—F. L. Tettemer.
C. C. C. & St. L. Ry.—L. H. Mussman.
C. P. & St. L. Ry.—
I. C. R. R.—C. F. Parker, A. N. Dale.
L. & N. R. R.—Jno Fitzgerald.

Southern Ry.—C. D. Morris.
St. L. B. & So. Ry.—C. F. Parker, A. N. Dale.
St. L. T. & E. R. R.—
T. H. & I. R. R.—
Wabash R. R.—P. W. Coyle.

A. N. Dale, Chairman.

Meeting convened at 10:30 a. m. in accordance with action of meeting May 21st.

Mr. A. N. Dale was elected chairman.

Minutes of meeting May 21st were read and approved.

After a general discussion regarding coal traffic matters, action was taken as indicated below:

Lines individually announce that they will not pay any claims for protection of rates, published in St. Louis Coal Traffic Bureau Information Circular No. 3, on shipments forwarded subsequent to the date of rates announced in Information Circular No. 4, on non-contract coal, without conference at special meeting of this bureau, to be called in usual way.

The secretary is hereby instructed to address all members of this bureau, requesting them to advise whether or not they have paid claims for refund on contract coal, shipped after date of Information Circular No. 4 and up to and including March 31st, 1903.

Note.—On receipt of reply from all members the information will be communicated by circular letter.

There being no further business meeting adjourned.

R. M. Fraser, Secretary.

N. B.—Leave of absence having been granted me by the eastbound committee, it was my intention to make similar request at the meeting today, but it was overlooked. I trust, however, that there will be no objection by members of the bureau, to my absence for a short time.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 28;" as follows:

ST. LOUIS TRAFFIC BUREAU.

Proceedings of a Meeting Held in the Office of the Secretary.

St. Louis, Mo., March 16, 1904.

Representation:

B. & O. S. W. R. R.—Edw. Hart, Jr.

C. C. C. & St. L. Ry.—Walter Nichols, by L. H. Mussman.

C. P. & St. L. Ry.—W. M. Bushnell, by C. W. Galligan.

St. L. B. & S. Ry.—A. N. Dale.

St. L. T & E. R. R.—E. H. Conrades.

T. H. & I. R. R.—Wm. Hodgdon, by H. R. Griswold.

Wabash R. R.—S. B. Knight.

A. N. Dale, Chairman.

Meeting convened at 2:30 p. m. in accordance with call issued March 2nd for the 15th inst. and postponed until the 16th inst., by notice dated March 14th.

The action taken at meeting April 14th, 1903, regarding time contracts for the transportation of coal on and after April 1st, 1904, was individually reaffirmed.

The subject of free transportation of coal from Illinois mines to Louisiana Purchase Exposition, submitted to members by circular letter February 16th, 1904, file 205, was ordered laid on the table.

As the period (one year) for which the executive committee was elected (March 18th, 1903) would expire on the 18th inst., as provided in the articles of organization, it was:

Resolved, That the present committee be re-elected, viz: the representatives of the C. C. C. & St. L. Ry, C. P. & St. L. Ry., I. C. R. R., L. & N. R. R. and T. H. & I. R. R.

R. M. Fraser, Secretary.

Adjourned.

A. N. Dale, Chairman.

Meeting convened in accordance with call issued June 10th.

The secretary read letter of 10th from general traffic manager T. St. L. & W. R. R., acknowledging invitation to become a member of the bureau, stating in effect that they did not at present desire to increase their expenses, were hauling very little coal to this market, but would work in concordance with the purposes of the bureau.

The secretary was instructed to write the representative of the St. Louis & Belleville Electric Ry. and East St. Louis & Suburban Ry. also the representative of the St. Louis & O'Fallon Ry. requesting them to become members of the bureau.

After further discussion of the general situation the meeting adjourned until the next regular meeting date, Thursday, August 18th.

R. M. Fraser, Secretary.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 30;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU.

Proceedings of a Special Meeting, Held in the Office of the Secretary.

St. Louis, Mo., Jan. 26, 1905.

A. N. Dale, Chairman.

At meeting of the St. Louis Coal Traffic Bureau, held this date, lines interested individually announced that they will charge from this date until April 1st, 1906, the rates shown in Information Circular No. 4 and Amendment No. 3, effective this date, and thereafter until formal notice.

The secretary read correspondence with freight traffic manager Mo. Pac. Ry., regarding membership in the bureau and was instructed to confer with Mr. Stith with the view of having the St. L. I. M. & So., Illinois Division, becoming a member of the bureau or to at least endeavor to arrange for daily report of the coal tonnage received at their East St. Louis or East Side station.

Messrs. J. M. Browning, John Fitzgerald and E. H. Conrades were appointed a committee to confer with officials of the St. Louis & Belleville Electric Ry. with the view of their becoming members of the bureau.

R. M. Fraser, Secretary.

Adjourned.

There was also present:
Mr. W. C. Stith, F. T. M., Mo. Pac., St. L. I. & So. Ry.

Mr. A. N. Dale, Chairman.

Meeting convened in accordance with call issued April 27th, on request of a member as follows:

"I have had several informal conversations with various members of the Coal Traffic Bureau and find that conditions are very unsatisfactory and for this reason I respectfully request that you call a meeting of the Coal Traffic Bureau, Saturday morning, at 10:00 a. m."

After a general discussion regarding the unsatisfactory conditions that prevail, the representatives of lines interested individually announced the minimum charges that they will make for the transportation of coal from Illinois mines to East St. Louis, etc., May 1st, 1905, to March 31st, 1906, inclusive, unless formal notice of change. It being understood that no contract would be made or protected extending the rates named beyond March 31st, 1906.

The rates effective May 1st, 1905, to be furnished by letter to the secretary and by him published in information circular No. 5, in accordance with resolution as follows:

Resolved, That the individual rates, effective May 1st by the interested roads be furnished the secretary by letter without delay to be promulgated by him in information circular No. 5 as effective May 1st, 1905.

R. M. Fraser, Secretary.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 32;" as follows:

There was also present:
Mr. W. C. Stith, F. T. M., Mo. Pac.—St. L. I. M. & So. Ry.

Mr. A. N. Dale, Chairman.

Meeting convened today in accordance with adjournment, May 24th, in consequence of all members not being present on that date.

After a general discussion today the representatives of lines interested individually announced the *minimum* charges that they will make for the transportation of coal from Illinois mines to East St. Louis, etc., effective June 5th, 1905. It being understood that no contract would be made or protected extending the rates named beyond March 31st, 1906.

The right was reserved to absorb switching charges on east side not to exceed 10 cents per ton.

The rates effective June 5th, 1905, to be furnished by letter to the secretary, and by him published in information circular No. 6, in accordance with resolution as follows:

Resolved, That the individual rates, effective June 5th by the interested roads be furnished the secretary, by letter, without delay, to be promulgated by him in information circular No. 6, as effective June 5, 1905.

It was also

Resolved, That Messrs. Wm. Hodgdon, E. Hart, Jr., and S. B. Knight be appointed a committee to confer with Mr. W. C. Stith, F. T. M., Mo. Pac., I. M. & So. Ry., Illinois division with the view of their becoming a member of the bureau or at least endeavor to arrange for daily report of the coal tonnage received at their E. St. Louis or East-side station.

And it was further

Resolved, That Messrs. J. M. Browning, J. Fitzgerald and E. H. Conrades be appointed a committee to confer with officials of the St. Louis & Belleville Electric Ry. with the view of their becoming members of the bureau.

R. M. Fraser, Secretary.

Adjourned."

Wabash R. R.—C. C. Landers.

A. N. Dale, Chairman.

Meeting convened in accordance with call issued June 26th, on request of a member, as follows:

"Please call a meeting of the St. Louis Coal Traffic Bureau, Wednesday morning, June 28th, at 10:00 o'clock, to discuss the matter of rates on Coal from outer groups to East St. Louis, particularly rate of 35 cents per ton, recently published by the Ill. Cent., and oblige.

The committee appointed at meeting May 29th to confer with officials of the Missouri Pacific, Iron Mountain & Southern Ry., and the St. Louis & Belleville Electric Ry., with the view of their becoming members of the bureau, reported action taken and were allowed further time to complete arrangements.

The secretary read correspondence with officials of the C. E. & I. Railroad regarding membership in the bureau and was instructed to continue his efforts to secure the membership of the C. E. & I. R. R. in this bureau and failing in this, that he endeavor to get a daily statement from them showing the coal tonnage that they handle into St. Louis, whether for railroad or other use.

After discussion of the situation generally and particularly of the subject for which the call was issued, the meeting adjourned.

Amendment No. 1 to Information Circular No. 6 will be issued at once showing the changes in rates announced by the Ill. Cent. R. R. from mines on the Ill. Cent. R. R., effective June 19th.

R. M. Fraser, Secretary.

Southern Ry.—R. A. Campbell, R. B. Pegram.
Vandalia R R.—H. R. Griswold.
Wabash R. R.—P. W. Coyle.

A. N. Dale, Chairman.

Meeting convened in accordance with call issued November 3d, on request of a member, as follows:

"Will you kindly call a meeting of the Coal Traffic Bureau, Monday, the 6th inst., 10 a. m., to consider an advance in the rates on coal for the remainder of the coal year?

"We believe that this would be an opportune time to take action in that direction."

After a general discussion of the subject the representatives of lines interested individually announced as follows:

The B. & O. S. W. R. R. announces that, effective April 1st, 1906, its coal rates will be subject to change upon ten days notice and all shippers and other interested parties will be so advised at once.

The B. & O. S. W. R. R. is not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The C. C. C. & St. L. Ry. announces that, effective April 1st, 1906, it coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The C. C. C. & St. L. Ry. is not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The L. & M. Ry. and C. P. & St. L. Ry. announce that, effective April 1st, 1906, their coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The L. & M. Ry. and C. P. & St. L. Ry. are not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The E. St. L. & S. Ry. and St. L. & B. E. Ry. announce that effective April 1st, 1906, their coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The E. St. L. & S. Ry. and St. L. & B. E. Ry. are not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The Ill. Cent. R. R. and St. L. B. & So. Ry. announce that, effective April 1st, 1906, their coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The Ill. Cent. R. R. and St. L. B. & So. Ry. are not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The L. & N. R. R. announces that, effective April 1st, 1906, its coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The L. & N. R. R. is not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The M. & O. R. R. announces that, effective April 1st, 1906, its coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The M. & O. R. R. is not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The St. L. & O'F. Ry. announces that, effective April 1st, 1906, its coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The St. L. & O'F. Ry. is not obliged to protect any coal rates into East St. Louis beyond March 31st, 1906.

The Southern Ry. announces that, effective April 1st, 1906, its coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The Southern Ry. is not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

The Wabash R. R. announces that, effective April 1st, 1906, its coal rates will be subject to change upon ten days' notice and all shippers and other interested parties will be so advised at once.

The Wabash R. R. is not obligated to protect any coal rates into East St. Louis beyond March 31st, 1906.

Note.—The announcemnts are made with the understanding that final action is to be taken at meeting of November 23rd, 1905.

The secretary was instructed to take the subject up with Messrs. E. J. Knickerbocker, C. T. M., C. & E. I. R. R.; E. H. Conrades, president, St. L. T. & E. R. R. and Wm. Hodgdon, G. F. A. Vandalia R. R., with the view of securing their announcement.

The secretary to also advise Mr. W. C. Stith, F. T. M., Mo. Pac.-I. M. & So. Ry. of meeting to be held November 23rd, and request him to be present.

There being no further business, the meeting adjourned until Thursday, November 23rd, 10 a. m., it having been deemed advisable to postpone date of regular quarterly meeting (November 16th) until the 23rd

inst., as several members could not be present on the 16th.

R. M. Fraser, Secretary.

A. N. Dale, Chairman.

Meeting convened in accordance with adjournment (Dec. 4th) and call issued Dec. 8th.

The Special Committee appointed at meeting 4th inst. requested further time to report, which was granted.

The representatives of roads individually announced that they would not quote or guarantee rates on Coal applicable after March 31st, 1906, until the Special Committee have submitted their report and same has been considered by this Bureau.

R. M. Fraser, Secretary.

Adjourned.

ST. LOUIS COAL TRAFFIC BUREAU.

Office of the Secretary.

St. Louis, Mo., Dec. 28, 1905.

Files 205-A. & 223.

To the Members of the Bureau:

Gentlemen:—I am in receipt of letter from a member as follows:

"*Rate Adjustment: Rates on Coal to St. Louis, Mo.*

"I am in receipt of advice that effective Jan. 1st, the rate on coal from East St. Louis to industries on the Terminal Railroad Ass'n and subsidiary Companies will be twenty cents per ton and that no switching will be absorbed out of this rate when business is destined to industries on the rails of connections beyond these companies.

"I understand that it is not the intention of the lines operating into East St. Louis to absorb any switching on any coal destined to the west Side, but in order to have the question a matter of record in your Bureau, I will be pleased if you will submit information to the various members of their views and advise."

"Kindly advise your views by return mail and when all answers are received, the informtaion will be communicated to all members.

Respectfully,

R. M. Fraser, Secretary."

Office of the Secretary.

St. Louis, Mo., June 20, 1905.

File 205-A.

To the Members of the Bureau:

Gentlemen:—I give below copy of letter, dated Chicago, June 19th, file 780-E, from the Coal Traffic Manager, Illinois Central R. R.:

"Effective at once, we will publish a rate of 35 cents per ton on coal, carloads, from our Carterville-Herrin District including Murphysboro, to East St. Louis.

"This is made necessary by reason of a rate of 35 cents per ton being carried by the Missouri Pacific from the same district to Bixby. The rate charged by the Missouri Pacific from Bixby to St. Louis is 30 cents per ton, which is the same as in effect via the Terminal Ass'n from East St. Louis to St. Louis. The Bixby combination makes a rate to St. Louis of 65 cents per ton and under the present adjustment via East St. Louis, our rate is 70 cents per ton. In order to meet this competition we are forced to reduce the rate to East St. Louis to 35 cents per ton."

This for your information.

Respectfully,

R. M. Fraser, Secretary."

St. Louis, Mo., March 8, 1901.

Please refer to file March 8, 1901.

To the Members of the St. Louis Coal Traffic Bureau.

Gentlemen:—At the request of several of the members of the Bureau, who attended the meeting yesterday, I give copy of remarks and resolutions offered by Traffic Manager Graham, as follows:

"I believe I appreciate the object Mr. Hurlbut has in view but I am inclined to doubt whether it will bring about the desired result. Now I would submit a resolution, as follows:

Resolved, That the Executive Officers of each of the lines, members of the St. Louis Coal Traffic Bureau, file with the Secretary, within 10 days, over his autograph official signature, a declaration that the Company he represents will absolutely maintain the individual rates, or rather, the rates of the individual lines, as published by the Secretary of the St. Louis Coal Traffic Bureau in Information Circular No. 1, effective Jan. 4th, 1900, and that no contracts guaranteeing a rate in the future, shall be made by any Railroad Company, member of this Bureau, until another meeting has been called to consider the question of apportionment."

Resolution was seconded by A. G. F. A. Holliday and on roll being called vote resulted as follows:

B. & O. S. W.—Aye.
C. C. C. & St. L.—Aye.
C. P. & St. L.—Aye.
Ill. Cent.—No.
L. & N. R. R.—Aye.
M. & O. R. R.—Aye.
Southern Ry—Aye.
St. L. B. & So.—No.

St. L. T. & E.—Aye.
T. H. & I.—Aye.
The Wabash—Aye.

As it required a unanimous vote, resolution was declared lost.

Respectfully.

R. M. Fraser, Secretary.

N. B.—This to be attached to or made part of proceedings of meeting March 7th.

ST. LOUIS COAL TRAFFIC BUREAU.

Paper Submitted at Meeting of the Bureau March 7th, 1901.

Whereas, Various efforts have been made in the past to provide for and maintain a remunerative rate on coal in this market, all, or nearly all, of which have failed of their purpose; and

Whereas, Experience having demonstrated that the only practical way by which stable rates on coal can be restored and successfully maintained is by an agreement or understanding which provides for an equitable division of the tonnage as between the various coal carriers handling coal to this market; and

Whereas, It being conceded that, before any just division of the tonnage can be accomplished between the various railroads, the same must be divided with due regard to the operators doing business on the various lines; and

Whereas, The records of the Secretary of the St. Louis Coal Exchange, together with the following table, showing the percentage earned by each railroad, including commercial coal, Railroad Coal and Western Coal, indicate (after making due allowances for new lines, new mines and other changed conditions), about what percentage should be given to each line:

	1895.	1896.	1897.	1898.	1899.	1900.
B. & O. S. W.	12.94	11.44	10.26	10.52	10.55	12.86

St. L., T. & E.						03.46
Chicago & Alton	00.05	00.35	01.10	00.18	00.36	02.09
	100.%	100.%	100.%	100.%	100.%	100.%

Resolved, First—That ——————————be, and he is hereby constituted a Special Committee to divide all the bituminous coal tonnage mined in the State of Illinois and shipped to or through this market, between the various coal-carrying railroads;

Second—That tonnage so divided shall include all so-called Commercial Coal, Railroad Coal, Western Coal and any and all other bituminous coal mined in the State of Illinois and passing into or through this market, excepting, of course, all coal handled by the respective lines intended for their own use as locomotive fuel, or used otherwise in their operating departments, which coal shall be reported to the Traffic Association daily; but all coal of this character produced by the mines on one line and handled to or through East St. Louis, Venice, Madison or East Carondelet, for the uses of another line must be subject to he operation of the percentages; *provided, however, that all coal for points beyond a radius of 100 miles from St. Louis, in the state of Missouri, passing through Alton via Alton Bridge, or other Alton transfers, may not and should not, be counted in the percentages so submitted* by the Comittee; and provided, further, that all coal passing through Alton for *points within* the 100 mile radius, including the cities of St. Louis and East St. Louis and the markets upon or on either side of the Mississippi River, at or near St. Louis or East

St. Louis, *shall be covered* by the percentages so submitted:

Third—That the basis so submitted shall not be binding unless approved by all of the members hereof; provided that no line shall be allowed a less per cent than the following minimum table shows each to be entitled to receive:

	Percent.	Tonnage on basis of 4,400,000.
B. & O. S. W.....	10.00	440,000
C. C. C. & St. L.....	04.00	176,000
C. P. & St. L. (includes J. & St. L.).....	07.50	330,000

Wabash	04.00	176,000
St. L. T. & F.....	07.00	308,000
C. & A.....	12.50	110,000
Total	94.00	4136,000
To be divided by committee	06.00	264,000
Total	100 %	4400,000

Fourth—That the 6 per cent to be divided, which is hereby placed in the hands of the Committe, shall be divided between the lines in such manner as the said Committee may determine, except that no line shall be given more than one per cent.

Fifth—The percentage allotted to each line, and to each operator on the respective lines, shall take effect on April 1st, 1901, and continue in effect until April 1st, 1902, and thereafter until sixty days (60) written notice to the Secretary shall have been given by any line of a demand for a readjustment of the same. It be-

ing expressly understood and agreed, however, that, pending a readjustment of new percentages after April 1st, 1902, the per cents so submitted by the Committee under the terms of this resolution, shall remain in full force and effect."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 43;" as follows:

ST. LOUIS COAL TRAFFIC BUREAU.

Office of the Secretary, 404-406 Union Station.

St. Louis, Mo., Feb. 3, 1900.
File 203.

To the Members of the Bureau:

Gentlemen: At meeting 23rd inst., the subject of advancing rates on Commercial Coal was further considered and each road's representative stated that, it is the intention of their Company to advance the rate on Coal 5 cts. per ton, effective March 1st., and it was:

"Resolved, That, if the representative of either road finds that, he cannot advance the rate, effective March 1st, that he notify the Secretary to that effect, within 10 days from this date (Jan. 23rd), and that the Secretary advise the members accordingly."

I am in receipt of letters from members as follows:

"After careful consideration of the action taken at the meeting on January 23rd, in which this Company gave notice that the tariff rates on coal to East St. Louis would be advanced on March 1st five cents per ton, we think it an inopportune time to make the advance in the rate, as per our notice of Jan. 23rd, and we desire to give further notice that the present tariff minimum rate of 35 cts. with existing differentials, will continue until further notice."

"In regard to advancing rates on commercial coal, beg to say that after full consideration of this matter I do not feel that it would be a good thing to make the proposed advance in rates."

Information Circular No. 1 will be issued at once, naming the Individual Rates, at present in effect, by the several roads. between the points named.

Respectfully,
R. M. Fraser, Secretary."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 52;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting, Held at the Louisville Hotel, Louisville, June 24th, 1900.

Representation:

T. H. & I. R. R., N. W. Taylor, by S. E. Mullings.
T., St. L. & K. C. R. R., ———.

R. M. Fraser, Chairman.

Meeting convened at 10:30 a. m.

Rates on Plaster, Carloads.

The Chairman called attention to Central Freight Ass'n Information No. 1927, authorizing rates on Plaster, etc., C. L. on basis 83.33 per cent of the 6th class rates, stating that he had written Secretary Fulton to ascerain if the C. & O. R. Committee would advance their rates in accordance with Information No. 1932 and received reply to the effect that they had decided not to advance rates to basis named, between Chicago, Cincinnati, Louisville, etc., and it was,

Resolved, That the roads, members of this Committe individually advise that no change will be made in the rates, on this tariff, named in this Committee's Tariff I. C. C. No. B-18, and subject to be tabled.

Rate on Hair, "Small Quantities," Loaded in the Same Car With Cement or Lime, C. L.

Attention was called to C. F. A. Information No. 1936, regarding rates on shipments of hair in small quantities loaded in the same car with Cement or Lime, C. L., and it was,

Resolved, That the members individually advise that on Hair in small quantities, loaded in same car with Cement or Lime in carloads, will be charged the less than carload rate, provided for Hair in the Official Class'n and that Joint Freight Tariff I. C. C. No. B-18 be amended accordingly, effective on Legal Notice.

Minimum Carload Weight on Provisions, Central Freight Ass'n. Information No. 1932, Dec. 21, 1899.

Chairman stated that, on receipt of the above information number, he had written the Secretary of the Chicago & Ohio River Committee to ascertain if that Committee's Through Freight Rates No. 41 would be amended in line with Information No. 1932, and received reply to the effect that the list of Articles taking Packing House Products Rates, would be amended in accordance with Information No. 1932, *except as to Bulk Meats*, which would continue at minimum weight of 28,000 lbs., and in view of same it was,

Resolved, That the roads, members of this Committee, individually advise, that, effective on Legal Notice, Joint Freight Tariff I. C. C. No. B-18 be amended so that list of Articles Taking Packing House Products Rates will be the same as authorized by Central Freight Ass'n. Information No. 1932 and Amendment No. 1954, also including Bulk Meats at Minimum 28,000 lbs., and further that Joint proportional Tariff I. C. C. No. B-17 be amended authorizing Minimum Weight on Bulk Meats, C. L. 28,000 lbs., and it is further,

Resolved, That as the following articles, viz.: Oils, Corn, Lard, Red and Tanners are not now included in C. F. A. Information No. 1932, they be also eliminated from Note 3, page 4, under Articles Taking Packing House Products Rates, and be included in the Tariff under separate heading, rate 12 cts., per 100 lbs., C. L. Minimum Weight 30,000 lbs., in line with rates on same traffic between Chicago, Cincinnati, Louisville, etc.

Charging Actual Gross Weights on Oil in Wood, C. L. Minimum 30,000 Lbs.

Whereas, Central Frt. Ass'n. Information No. 1952 authorizes that actual gross weights, subject to Minimum Carload Weights, as provided therefor in Official Class'n. or otherwise, will be charged on all kinds of Oils, shipped in wood, *except* Petroleum and its products, be it therefore,

Resolved, That the roads, members of this Committee, individually advise, that, effective on Legal Notice, Joint Freight Tariff I. C. C. No. B-18, naming Minimum Weights, on Oils, in wood, 24,000 lbs., be amended to read, on all kinds of Oils, C. L. in the wood, actual gross weights be charged minimum 30,000 lbs., *except* on Petroleum and its products, which will continue at 24,000 lbs., and on Tallow Oil and Oleo Oil, included in list of Articles Taking Packing House Products, minimum carload weight 28,000 lbs.

Rates on Unmanufactured Tobacco in Hogsheads, any Quantity.

Resolved, That, subject be laid over until next regular meeting.

Election of Executive Committe.

The term of Office for which the Executive Committee were elected for 1899, having expired, it was

Resolved, That, Messrs. R. A. Campbell, N. W. Taylor and W. D. Holliday be and are hereby elected an Executive Committee the year 1900 and to hold office as provided in the Articles of Organization.

Jurisdiction of this Committee on Traffic to and From Frankfort, Lexington, Paris, Kentucky, Etc.

Resolved, That, it is the individual opinion of the members, present, that, this Committee has no jurisdiction over rates on traffic between East St. Louis and various points in Kentucky, Ohio and Indiana, other than those covered by the Articles of Organization of this Committee, effective December 28th, 1898.

Proportional Rate, 8 Cents per 100 Lbs., on Flour, C. L. Published in Joint Proportional Tariff I. C. C. No. B-17.

The following telegram from Mr. Connelly was submitted:—

"Your I. C. C. B. seventeen, shows proportional rate, eight cents flour East St. Louis to Madison, Ind., please cancel this rate as we do not understand it is proper to carry this rate in your tariff."

The Chairman stating that he was unable to locate authority for rate to Madison, Ind., being carried in tariff, other than it was checked in at general check, Sept. 9th, 1897, when the first Joint Freight Tariff of this Committee was issued, it was therefore,

Resolved, That, the roads, members of this Committee, individually instruct, that, effective on Legal Notice, rate of 8 cents per 100 lbs., on Flour, C. L., named in Joint Proportional Tariff I. C. C. No. B-17, East St. Louis to Madison, Ind., be cancelled and Tariff amended accordingly.

Rates to Points on Ill. Cent. R. R. in Kentucky, Between East St. Louis and Louisville.

Chairman read letter from Mr. Keepers, in which he requested that, this Committee's Tariffs be amended, providing that, rates named in tariffs will not apply to or from points on I. C. R. R. in Kentucky between East St. Louis and Louisville, and it was,

Resolved, That, the individual roads, members of this Committee, instruct, that, Tariffs I. C. C. No. B-17 and 18 be amended, effective on Legal Notice, so as to

provide, that the long and short haul clause shall be made inoperative, so far as it effects rates to and from I. C. R. R. Stations south of the Ohio River.

Rates on Packing House Products.

Resolved, That, no action be taken at this meeting, regarding communication received from Kansas City Transportation Bureau, regarding rates on Packing House Products, East St. Louis to Cincinnati and that matter be docketed for consideration at next regular meeting of this Committee.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 53;" as follows:

Ill. Cent. R. R.—

L. H. & St. L. Ry.—L. J. Irwin.

L. E. & St. L. C. R. R.—

P. C. C. & St. L. Ry.—G. W. Davis, M. S. Connelly.

T. H. & I. R. R.—G. L. Stevens.

T. St. L. & K. C. R. R.—

The object of the conference being the revision of Commodity rates in effect by either or both Committees. The action taken is shown on Page 4.

Rates on Whiskey.

Resolved, That, it is impracticable to make any change, at this time, in the rates on Whiskey, Louisville and Cincinnati to East St. Louis and that Chairman Tucker be advised accordingly.

Application for Rate of 15 *Cents Per* 100 *Lbs. on Glycerine, C. L.*

After due consideration it was the opinion of the Individual roads, that no change be made in the present rates on Glycerine, and it was—

Resolved, That subject be laid on the table.

Application for Rate of 10 *Cents Per* 100 *Lbs. on Spent Lye, C. L.*

At Conference Meeting, Indianapolis, 21st inst., the above article was included in Tariff under "Soap Stock," at rate of 10 cents per 100 lbs.

Application for Rate of 10 Cents Per 100 Lbs. on Tallow, C. L.

At Conference Meeting, Indianapolis, 21st inst., the above article was included in Tariff under "Soap

Stock," rate 10 cents per 100 lbs., also inserted as "Tallow" (See Soap Stock). Tallow eliminated from list of Packing House Products.

Rate on Starch, C. L., Between East St. Louis, Cincinnati, Louisville, Etc.

At Conference Meeting, Indianapolis, 21st inst., action was taken to eliminate Starch from list of articles taking Grain Products Rates and insert in Tariff Starch, C. L., 12 cents per 100 lbs.

Rates on Packing House Products, Kansas City, Mo., Via East St. Louis to Cincinnati, Louisville, Etc.

Resolved, That subject be laid on the table.

Request for an Authorized Reduction in Rate on Bar and Plate Iron, Etc., C. L.

After a general discussion on the subject, it was:

Resolved, That the Chairman endeavor to ascertain the rates in effect from Chattanooga, Harriman and Sheffield to East St. Louis and the probability of said rates being advanced in the near future. The subject to be further considered at the next meeting of the Committee.

Rate on Jute Bagging, C. L., Louisville to East St. Louis.

At meeting the 24th ult., the Chairman was requested to ascertain rate on Jute Bagging (in rolls) C. L., from Peru, Ind., to East St. Louis, and in reply thereto stated, that the rate on this traffic, Peru to East St. Louis, is 8 cents per 100 lbs., C. L. minimum 30,000 lbs.,

And it was:

Resolved, That the roads, members of this Committee, individually authorize a rate of 8 cents per 100 lbs., on Jute Bagging, in rolls, C. L., minimum 30,000 lbs., from Louisville to East St. Louis, same to be included in re-issue of Joint Tariff, effective March 15th, 1900, unless the Chairman can secure immediate advice of

cancellation and advance in rate, from Peru, Ind.; in that event, to publish the advanced rate from Louisville.

Rate on Unmatured Tobacco in Hogsheads.

Resolved, That subject be laid on the table.

Rates on Horses and Mules, C. L.

Resolved, That rate be made 25 cents per 100 lbs. C. L., between East St. Louis, Cincinnati, Louisville, etc., and Tariff I. C. C. No. B-20 corrected accordingly.

Proportional Rate on Bituminous Rock.

Resolved, That Joint Proportional Tariff I. C. C. No. B-19 be corrected making minimum weight 18 Gross Tons on Bituminous Rock, C. L., effective March 15th, 1900.

Cotton Seed Cake, Hulls and Meal.

Resolved, That Cotton Seed Cake, Hulls and Meal be eliminated from the list of articles entitled to grain product rates; Official Classification basis to apply in future.

Following are a list of Additions, Changes, etc., in rates, checked in at conference meeting, Indianapolis, 21st inst., and at meeting today, which will become effective March 15th, 1900, Joint Tariff I. C. C. No. B-21 and Amendment No. 1 to Joint Proportional Tariff I. C. C. No. B-19.

Additions, Changes, Etc., Authorized at Indianapolis, Feb. 21, 1900.

Changes.

Cement, C. L. minimum 40,000, 7 cts. per 100 lbs.

Coal Tar and Tar, C. L. minimum 40,000, 10 cts. per 100 lbs.

Ferro Manganese, Manganese Ore and Spiegel Eisen, C. L. $2.00.

Grain and Grain Products, C. L. 10 cts. per 100 lbs.

Granite or Stone, Crushed, and Building and Paving Granite, minimum 40,000 lbs.

Lead Ore, Pig Lead and Spelter, minimum 40,000 lbs.

Lead, White or Red and Litharge, minimum 40,000 lbs.

Oil, Tallow and Oleo, minimum 30,000 lbs.

Pitch, in wood, minimum 40,000 lbs, 10 cts. per 100 lbs.

Plaster, etc., minimum 40,000 lbs, per ton $2.00.

Sal Soda, minimum 40,000 lbs.

Tan Bark, Spent, minimum 40,000 lbs.

Trunks, L. C. L., nested.

Zinc Ashes, Zinc Dross and Zinc Skimmings, minimum 18 gross tons, per gross ton $2.00.

Billets, Blooms, etc., per gross ton $2.00.

Pipe, Cast Iron, C. L., 18 inches or more in diameter, minimum 12 tons, less than 18 inches in diameter, minimum 15 tons, per ton $2.00.

Iron, Scrap, etc., per gross ton, $2.00.

Car Wheels, new (Iron or Paper) and Axles, minimum 40,000 lbs.

Starch, 12 cts. per 100 lbs. and eliminated from Grain Product List.

Tallow & Grease eliminated from Packing House Products List and included under Soap Stock, 10 cts. per 100 lbs.

Additions.

Gravel, C. L., included with sand, all kinds.

Lead Ashes, C. L., minimum 18 gross tons, per gross ton $2.00.

Oil, Rosin, C. L., 10 cts. per 100 lbs.

Rosin, C. L., minimum 40,000 lbs., 10 cents per 100 lbs.

Spent Lye, C. L., minimum 30,000 lbs., 10 cents per 100 lbs.

Tanner's Offal, C. L., minimum 30,000 lbs., 9 cents per 100 lbs. (westbound only).

Window Shades, C. L., minimum 20,000 lbs., 25 cents per 100 lbs.

Additions, Changes, Etc., Authorized at Meeting Today (Feb. 28, 1900).

Changes.

Bituminous Rock, C. L., (Proportional) 18 gross tons per gross ton.

Cotton Seed Cake, Hulls and Meal eliminated from Grain Product List. Official Classification basis to apply.

Kaolin, in *bulk*, C. L., minimum 40,000 lbs., per ton $1.75.

Kaolin, in Packages or Cakes, minimum 30,000 lbs., per ton $2.00.

Peaches, C. L., 34 cts. per 100 lbs.

Turpentine, C. L., in bbls., 40,000 lbs., 10 cents per 100 lbs., East and West-bound.

Tar, C. L., in tanks or bbls., in wood, minimum 40,000, tanks, capacity of tank.

Horses, C. L., 25 cents per 100 lbs., East and West-bound.

Additions.

Bagging, Jute, C. L., 30,000, 8 cents per 100 lbs., from Louisville to East St. Louis.

Exceptions to the Official Classification, shown in C. & O. R. Committee's Tariff and which were not heretofore carried in this Committee's Tariff, to be included and inserted, alphabetically, under proper heading.

Articles authorized by C. F. A.'s Information 1848 and 1883, taking certain per cent of the 6th class rate and which were not hertofore published in this Committee's Tariffs, to be included in reissue of Tariff.

R. M. Fraser, Chairman.

Adjourned.

R M. Fraser, Chairman.
Meeting convened at 10:00 A. M.

Individual Tariffs Issued by the Different Roads Members of this Committee.

The Chairman called attention to a number of individual tariffs issued by different roads, members of this Committee, and after a general discussion the following action was taken:

Whereas, There are now in existence certain rates between East St. Louis, Cincinnati and Louisville, covered by Individual Tariffs, which show rates less than those authorized by this Committee, and,

Whereas, There are certain rates published by this Committee, between the same points, which are the result of Individual Tariffs Issued, showing rates less than were authorized; therefore, be it

Resolved, That a Special Meeting of this Committee be held in this office on April 5th to consider the above conditions, with the view of ascertaining if rates referred to cannot be restored to the authorized basis.

Rates on Bar, Plate and Other Articles of Iron Manufacture, between Louisville and East St. Louis.

Rates on Fire Brick and Fire Clay, East St. Louis to Louisville.

No action was taken on the above subjects, it being understood that these and other similar subjects would be considered at the Special Meeting to be held April 5th, 1900, mentioned in above resolution.

Rates on Railroad Equipment, New, from Jeffersonville, Ind., to East St. Louis.

The Chairman called attention to the C., H. & D. Ry.'s Tariff, J. F. T. No. 2900, effective March 12, 1900, on New Railway Cars, from Dayton, Ohio, to East St. Louis, etc., stating that these rates are the same as in effect prior to Jan. 1, 1900, from Jeffersonville to East St. Louis, and it was

Resolved, That the roads, members of this Committee, individually advise that, effective on legal notice, the following rates per car will be authorized on New Railway Equipment, viz.: Private, Parlor, Dining and Sleeping Cars, $22.38; Passenger Cars, $18.65; Baggage, Mail and Express Cars, $14.92; Box, Caboose, Flat, Gondola, Platform and Tank Cars, $10.41, from Jeffersonville, Ind., to East St. Louis, Ill.

Eliminating from Title Page, of the Joint Tariffs Issued by this Committee, East Carondelet, National Stock Yards, Madison, Venice, Granite City, Alton and Wann, Illinois.

Letters from members were submitted, suggesting that the points named above should not appear in the Tariffs issued by this Committee, and it was

Resolved, That, effective on legal notice, the individual roads recommend that the Joint Tariffs, issued by this Committee, be amended, making the rates apply between East St. Louis, Cincinnati and Louisville, including Newport and Covington, Ky., New Albany and Jeffersonville, Ind.

Including in Tonnage and Revenue Statements, Traffic from East Carondelet, National Stock Yards, Madison, Venice, Granite City, and Through Traffic via Alton and Wann.

The Chairman called attention to the above points not being enumerated in the Articles of Organization, although the tonnage and revenue has been included in Monthly Statements; and it was

Resolved, That traffic from East Carondelet, National Stock Yards, Madison, Venice, Granite City, Ill., should be included in the tonnage and revenue statements issued by this Committee, also through traffic via Alton and Wann, Ill. (but not traffic from Alton and Wann proper), when forwarded from the East St. Louis depots of the roads, members of this Committee, and that Section "B" and the "Note" of the Articles of Organization are hereby amended.

Rates on Jeans and Yarn, Cotton, from Cincinnati and Louisville to East St. Louis, Ill. Any Quantity.

Whereas, The Chicago and Ohio River Committee have published a Commodity Rate on Jeans and Yarns, Cotton, any quantity, from Cincinnati and Louisville to Chicago; therefore, be it

Resolved, That the Individual Roads, members of this Committee, authorize the publication of rate, 25 cents per 100 lbs., on Jeans and Yarn, Cotton, any quantity, between East St. Louis, Cincinnati, Louisville etc., effective on legal notice.

Application for Reduction in Rate on Packing House Products, East St. Louis to Cincinnati, Louisville, Etc.

Letter from a member was submitted, and it was

Resolved, That the subject be laid on the table.

Rates on Bituminous Rock, C. L., East St. Louis to Cincinnati, Louisville, Etc.

Letter from a member was submitted regarding establishing Proportional Rate on Bituminous Rock, C.

L., eastbound, same as at present in effect westbound, and it was

Resolved, That the Individual Roads authorize the publication of Proportional Rate, $1.60 per gross ton, C. L., minimum weight 18 gross tons, on Bituminous Rock, from East St. Louis, Ill., to Cincinnati, Louisville, etc. effective on legal notice.

Eliminated Notes "A" and "C" (Page 4) from Joint Freight Tariff No. v, C. C. B—21.

The above question was brought up by one of the members as to advisability of eliminating from this Committee's Tariffs said notes, which provide for rates via the Upper Mississippi River Crossings, and it was

Resolved, That, effective on legal notice, the Chairman eliminate from this Committee's Tariffs, covering rates between East St. Louis, Cincinnati, Louisville, etc., notes "A" and "C," which refer to application of rates to Upper Mississippi River Crossings, and that the Chairmen of the Cincinnati and Louisville Committees be advised of this elimination.

Rates on Grain and Grain Products, C. L., East St. Louis to Cincinnati, Louisville, Etc.

The question of advancing rate of 8 cts. on grain and 9½ cts., Grain Products, C. L., to 10 cts. per 100 lbs., same as in effect prior to 16th inst., was considered, and it was

Resolved, That the Individual Roads authorize the publication of the rate of 10 cts. per 100 lbs. on Grain and Grain Products, C. L., minimum weight as per Official Classification, from East St. Louis to Cincinnati, Louisville, etc., effective April 17, 1900.

Furnishing Tariffs, Issued by This Committee, to Roads Not Members of the Committee.

The Chairman stated that this subject had been brought up by the C., M. & St. P. Ry., requesting to be furnished with 50 copies, and it was

Resolved, That in future the Chairman supply the C., M. & St. P. Ry. with 50 copies of tariffs issued by this Committee, also to furnish any other connections with the number required.

In connection with the above, it was understood that the Chairman heretofore had been sending only file copies to the connecting lines (except in a few instances), the supply of Tariffs needed by connecting lines having been heretofore furnished by the Individual Roads. Under the ruling in the foregoing resolution, it will be necessary for the Individual Roads, members of this Committee, to notify their connections, to whom they have heretofore sent out Tariffs, to apply to this office for the number of Local and Proportional Tariffs needed.

With the above rule in effect, the number of Tariffs heretofore sent the members of this Committee can, no doubt, be reduced so as to avoid the necessity of having additional supply printed, to be sent from this office direct to connecting lines.

Will you therefore please notify me without delay the number of Local and Proportional Tariffs that you wish me to send to your Office in future?

R. M. Fraser, Chairman.

Adjourned.

R. M. Fraser, Chairman.

Meeting convened at 10:00 A. M.

Individual Tariffs Issued by the Roads, Members of this Comittee.

At meeting March 28th, the above subject was referred to a Special Meeting, called for April 5th. (See proceedings). Meeting was, however, postponed as the representative of one of the directly interested roads could not be present. It was therefore arranged that the subject should be considered and disposed of at this meeting, but was again postponed on account of an interested member being unavoidably absent.

The subject was, however, carefully considered and the following resolution unanimously adopted:

Whereas, It has come to the notice of this Committee, that certain roads, members of this organization, have from time to time in the past, issued individual tariffs of their own, on various commodities, and which issues are in direct conflict with the agreements and understanding of this Committee, therefore, be it,

Resolved, That commencing at once and continuing until the next regular meeting of this Committee all members hereby obligate themselves not to issue any individual tariffs and that no tariffs of any kind shall be promulgated, except through the Chairman of this Committee.

Note.—The absent members, the T. H. & I. and T. St. L. & K. C. have since voted in the affirmative.

Rates on Fire Works.

Whereas, The present authorized rate on Fire Works, C. L. minimum 20,000 lbs., is 47 cents per 100

lbs., between Chicago and East St. Louis, as per Chicago & St. Louis Traffic Association Tariff No. 24, therefore be it:

Resolved, That the individual roads, members of this Committee, authorize a rate of 47 cents per 100 lbs., on Fire Works (including Fire Crackers) C. L., minimum 20,000 lbs., between East St. Louis, Cincinnati, Louisville, etc., effective May 7th and Joint Tariff I. C. C. No. B-22 be corrected accordingly.

Rates on Cotton Sheeting, Duck and Drilling, Any Quantity, Between East St. Louis, Cincinnati, Louisville, Etc.

Letter from Chairman Brent of the Louisville Freight Committee was submitted containing recommendation of that Committee for rate of 25 cents for 100 lbs., on Cotton Sheeting, Duck and Drilling, any quantity, from Louisville, New Albany and Jeffersonville to East St. Louis, same as at present in effect on Cotton Yarn and Cotton Jeans.

After due consideration it was

Resolved, That the individual roads, members of this Committee, authorize a rate of 25 cents per 100 lbs., on Cotton Sheeting, Duck and Drilling, any quantity, between East St. Louis, Cincinnati, Louisville, etc., effective on May 7th and that Joint Tariff I. C. C. No. B-22 be amended accordingly.

Rates on Cotton Seed Cake, Cotton Seed Hulls and Cotton Seed Meal.

Whereas, Central Freight Association Information No. 2205, effective May 7th, 1900, authorizes that Cotton Seed Cake, Cotton Seed Hulls and Cotton Seed Meal, C. L., be included in list of articles taking Grain Products Rates, therefore be it

Resolved, That the Individual Roads, members of this Committee, authorizes that on and after May 7th, Cotton Seed Cake, Cotton Seed Meal and Cotton Seed Hulls be included in list of articles upon which the

Grain Products Rates apply and that Joint Tariff No. B-22 be amended accordingly.

R. M. Fraser, Chairman.

R. M. Fraser, Chairman.

Meeting convened at 10:00 A. M.

Rates on Spent Tan Bark, C. L., From Cincinnati, Louisville, Etc., to East St. Louis.

Whereas, Unauthorized Tariffs are in effect, on Spent Tan Bark, C. L., from Louisville to East St. Louis, it is,

Resolved, That, the Individual Roads, members of this Committee, authorize rate of 6 cents per 100 lbs., on Spent Tan Bark, C. L., minimum weight 40,000 lbs., from Cincinnati, Louisville, etc., to East St. Louis, effective on legal notice and Joint Tariff No. B-22 be amended accordingly.

Rate on Empty Barrels, C. L., $22.00 Per Car, East St. Louis to Louisville.

Resolved, That, the Individual Roads, members of this Committee, hereby give notice that the present rate of $22.00 per car on Empty Barrels, from East St. Louis to Louisville will expire effective on legal notice and that on and after that date the rates on this traffic will be as authorized in the Official Class'n., Joint Tariff No. B-22 to be amended accordingly.

Rate and Divisions on Cement, C. L., from Shipping Port (Louisville) to East St. Louis.

Letter was submitted from a member, requesting rate be established on Cement, C. L., from Shippingport, (Louisville) to East St. Louis of 7 cents per 100 lbs., dividing $1^{3}/_{4}$ cents, Shippingport to Louisville and $5^{1}/_{4}$ cents per 100 Louisville to East St. Louis, and it was,

Resolved, That this subject be referred to the Louisville Committee.

Division of Rates, Cincinnati, Louisville, Etc., Via East St. Louis, to Van Buren and Ft. Smith, Ark.

Resolved, That, this subject be laid over until next regular meeting.

Routing of Freight by the War Department, U. S. A., via Various Routes, to Be Settled for on Short Line Distance.

Resolved, That this subject be laid over until next meeting, pending action of the Central Freight Ass'n.

Rate on Tobacco Siftings Between East St. Louis, Cincinnati, Louisville, Etc.

The Chairman stated that recommendation of the Louisville Freight Committee, to establish same rate on Tobacco Siftings, as at present in effect on Unmanufactured Tobacco, Louisville to East St. Louis, viz., 10 cents per 100 lbs. was submitted by Circular Letter May 7, 1900, and resulted in an affirmative vote. The

issue of an Amendment to Tariff was delayed pending further consideration at meeting called for today, and it was

Resolved, That the Individual Roads, members of this Committee, authorize rate of 10 cents per 100 lbs., on Tobacco Siftings, in hhds., any quantity, between East St. Louis, Cincinnati, Louisville, etc., effective on legal notice and Joint Freight Tariff No. B-22 be amended accordingly.

Proportional Rates on Grain, C. L., East St. Louis to Cincinnati, Louisville, Etc.

Letter from a member, regarding above subject was read, and it was

Resolved, That the Chairman submit to each member a copy of the Joint Proportional Tariff, on Grain, when corrected in line with request of B. & O. S. W. R. R. so as to give each member an opportunity to notify the Chairman of the changes, if any, he desires.

Request that Rates to and From Owensboro, Ky., be Carried in this Committee's Tariffs.

The Chairman read letter regarding the above proposition and it was

Resolved, That as Owensboro, Ky., traffic is not under the jurisdiction of this Committee, it is the opinion of the members that it would not be practicable to carry said point in this Committee's Joint Tariff, any more than any other intermediate points that take same rates, and the Illinois Central R. R. be advised accordingly.

R. M. Fraser, Chairman.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 57;" as follows:

R. M. Fraser, Chairman.

Meeting convened at 10:30 a. m.

Division of Rates, Cincinnati, Louisville, Etc., Via East St. Louis to Van Buren and Ft. Smith, Ark.

The above subject was considered at meeting 23rd ult. and laid over until today.

The Chairman submitted letter from a member, calling attention to the St. L. & S. F. Ry. Division Sheet No. 8-A, Feb. 11th, 1899, authorizing the following arbitraries east of East St. Louis, on traffic from Cincinnati and Louisville to Van Buren and Ft. Smith, Ark.

1	2	3	4	5	A	B	C	D	E
40	30	25	15	15	15	15	15	12	11

also requesting to be advised if any of the roads of this Committee were accepting less than their full local rates on this traffic, east of E. St. Louis, etc.

The Chairman stated that the subject of divisions of rates on this tariff via E. St. Louis to Louisiana and Arkansas points was considered and resolution adopted meeting Dec. 28th, 1898, that the roads east of E. St. Louis should not accept less than their local rates, further stating the Frisco Line had been advised to that effect by letters Dec. 31st, 1898, and Feb. 1st, 1899. After a general discussion it was

Resolved, That the roads, members of this Commit-

tee, individually reaffirm the action of Dec. 28th, 1898, which is as follows:

Resolved, That the matter of divisions from Cincinnati, Louisville, etc., via E. St. Louis, Cairo, etc., to Arkansas and Louisiana points be laid on the table, it being the sense of this committee that the roads east of E. St. Louis, Cairo, etc., should not accept less than their local rates on this traffic and that the Chairman be requested to so advise the Committee of the Southwestern Lines.

Through Rate and Dirisions on Whiskey, Cincinnati, Via East St. Louis to Helena, Ark.

Correspondence on the above subject was submitted. After a general discussion it was stated, that the rates to Helena is a different proposition as compared with rates to other Arkansas points, on account of Helena being a competitive point via Water Route, and it was:

Resolved, That there having been in effect for a number of years, divisions from Cincinnati and Cincinnati points, Louisville and Louisville points to Helena, Ark., via East St. Louis, allowing the lines up to East St. Louis 40 per cent of the through rate, that this Committee reaffirm the divisions as a matter of record.

Routing of Freight by the War Department, U. S. A., Via Various Routes to Be Settled for on Short Line Distance.

The above subject was considered at meeting May 23rd and laid over pending action of C. F. A. After further consideration today, it was

Resolved, That the Chairman advise J. B. Bellinger, Major and Quartermaster, U. S. V., that the proper representatives of the individual roads, members of this Committee, request me to advise that so far as transportation over their lines is concerned, bills of lading should be issued only on basis of their established tariffs, which are on file with the Interstate Commerce Com-

mission at Washington, or individual quotations of representatives of the St. Louis-Cincinnati-Louisville Freight Committee roads and that individual bids will only apply via the routes which are named in connection with such quotations.

Application for Rate of 17 *cts., per* 100 *lbs. on Wines and Liquors in Wood, any Quantity, Between East St. Louis, Cincinnati, Louisville, Etc.*

The Chairman read letter from a member, on the above subject.

After a general discussion, it was

Resolved, That the application be declined and the subject laid on the table.

Rate on Cotton and Cotton Linters, Compressed and Uncompressed Between East St. Louis, Cincinnati, Louisville, Etc.

The Chairman submitted letters, requesting that same rate be established on Cotton, Uncompressed, C. L. *westbound* as at present in effect eastbound, viz: 20 cts. per 100 lbs., minimum 15,000 lbs.

The Chairman further called attention to rates on Cotton and Cotton Linters, compressed C. L. and Uncompressed L. C. L., which are in effect eastbound, and suggested that in making the change all rates authorized on Cotton and Cotton Linters, compressed and uncompressed, C. L. or L. C. L., be made applicable both east and westbound.

After a general discussion it was:

Resolved, That the individual roads, members of this Committe, authorize that the present rate in effect from E. St. Louis to Cincinnati, Louisville, etc., on Cotton and Cotton Linters, Compressed and Uncompressed, C. L. and L. C. L., be made applicable on like traffic westbound, effective on Legal Notice and Joint Freight Tariff No. B-22 be amended accordingly.

Application for Proportional Rate on Hay, C. L., East St. Louis to Cincinnati, Louisville, Etc.

Correspondence was submitted and after a considerable discussion, it was:

Resolved, That the Individual Roads, members of this Committee authorize a Proportional Rate of 12 cts. per 100 lbs. on Hay, C. L., minimum 30,000 lbs., originating west of the Mississippi River, from East St. Louis to Cincinnati, Louisville, etc., effective on Legal Notice and Joint Proportional Tariff No. B-23 be amended accordingly.

Application for Rate on Boxes, Empty, Second-Hand, Returned, East St. Louis to Cincinnati and Louisville.

Letter from a member was read on the above subject in which he stated there can be forwarded from E. St. Louis to Louisville a number carloads of Empty Boxes that came west filled with Samples of Leaf Tobacco, if a commodity rate could be established, as the present rate of $30.00 per car is too high, etc., and it was:

Resolved, That the individual roads, members of this Committee, authorize rate of 10 cts. per 100 lbs., on Boxes, Empty, Second-hand, returned C. L., minimum weight 20,000 lbs., from East St. Louis to Louisville, effective on Legal Notice and Joint Tariff No. B-22 be amended accordingly.

Rates on Horses and Mules, C. L., East St. Louis to Duchess, Ky. Less Than Rates to Louisville.

Resolved, That this subject be laid over for further reply from G. F. A., L. & N. R. R.

Including Traffic in Monthly Statements, from Interior Points in California, Arizona, Washington, Oregon on Which Transcontinental Divisions Apply as Authorized by C. F. A. Information No.'s 2325 and 2326.

The Chairman stated that Section C of the Agreemnt provides that Pacific Coast Traffic from and to Cincinnati, Louisville, etc., via E. St. Louis, on which roads of this Committee get their regular division of through rates, as authorized by Central Freight Ass'n., be included in the Monthly Statements, Effective June 25th, 1900. Central Freight Ass'n. issued Information No.'s 2325 and 2326 making Trans-Continental Division of rates apply on a number of interior points, named in Trans-Continental Circular 24-A, effective June 25th, 1900, pages 16 to 23, both inclusive.

The Chairman further stated he brought this matter before the Committee to ascertain if traffic, to and from these points on which this Committee's roads get their authorized Trans-Continental Divisions be included in the Monthly Tonnage Statements, and it was:

Resolved, That all traffic to and from Cincinnati, Louisville, etc., via E. St. Louis to points named in Trans-Continental Freight Bureau's Circular No. 24-A, effective June 25, 1900, pages 16 to 23 both inclusive, on which roads of this Committee get their authorized Trans-Continental Divisions, be included in the Monthly Tonnage and Revenue Statements issued by the Chairman, same as traffic from Pacific Coast Points.

Through Rates and Divisions on Cotton Seed Oil in Tank Cars, Vidalia, La., Via East St. Louis to Cincinnati.

Resolved, That the subject be laid on the table.

Question of Jurisdiction of This Committee Regarding Division of Through Rates Between East St. Louis, Cincinnati, Louisville, Etc., on Traffic to and from Points in Louisiana, Also Including This Traffic in Statements Issued by this Committee.

Resolved, That this subject be considered at next regular meeting of this Committee.

Rates on Hay, C. L., Franklin, Ill., Via E. St. Louis to Louisville, Ky.

Resolved, That this Committee has no jurisdiction over divisions of through rates on traffic to or from points in Ill. forwarded via E. St. Louis to or from Cincinnati, Louisville, etc.

Rates on Packing House Products, E. St. Louis to Cincinnati, Louisville, Etc.

Attention was called by one of the members to the reported diversion of a Packing House Traffic from East St. Louis and via this gateway from Missouri River points, in consequence of the Tariff rates not being maintained via other routes, etc., and the Chairman was instructed to investigate. It was decided that no change should be made in the rates from or via East St. Louis without further consideration or due notice to all parties interested.

Request That Rates to and from Owensboro, Ky., be Carried in This Committee's Tariffs.

This subject was considered at meeting 23rd ult. See proceedings that date.

The Chairman stated he had since received a letter from G. F. A., Ill. Cent., requesting that the subject be further considered. A. G. F. A. Cameron being present, explained their reasons for desiring that the East St. Louis Owensboro rates be provided for in this Committee's tariff,

And it was:

Resolved, That the following note be shown in Joint Freight Tariff I. C. C. No. B-22 and subsequent issues.

Note:—The rates shown in this tariff between E. St. Louis and Louisville will also apply between E. St. Louis and Owensboro, Ky., via Ill. Cent. R. R., L. E. & St. L. R. R. and L. H. & St. L. Ry.

Regular monthly meeting adjourned until Wednesday, Sept. 26th, 1900.

It was decided that the next regular meeting of this Committee will convene on Wednesday, September 26th, 1900, at Louisville. It being further understood that the Chairman will in the meantime submit by Circular Letter any subject needing attention, or will issue a call for Special Meeting of the Committee, if he considers the circumstances warrant.

R. M. Fraser, Chairman.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 58," as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting, held at the Galt House, Louisville, Ky., Sept. 26th, 1900.

Representation:

T., St. L. & W. R. R.

R. M. Fraser, Chairman.

Meeting convened at 11:00 a. m.

Question of Jurisdiction of This Committee Over Divisions of Through Rates from or to Cincinnati, Louisville, Etc., Forwarded via East St. Louis, Ill., from or to Points in Louisiana and Ark., Also as to Including This Traffic in Statements Issued By This Committee.

This subject was considered at meeting June 27th, 1900, and laid over until today.

After a general discussion, it was

Resolved, That the subject be laid over until next meeting.

Rates on Horses and Mules, C. L., East St. Louis to Duckers, Ky., Etc., Less Than Rates to Louisville.

The subject was considered at meeting June 27th, 1900, and laid over pending advice to be received from G. F. A., L. & N. R. R. The Chairman stated he received letter from G. F. A. Compton June 29th, in which he said:

"I find upon investigation that our present rates on Live Stock, all kinds, from East St. Louis to local stations on our line in Kentucky, are made on our regular local division number scale, and it would be impracticable to make the advance as suggested by your Committee."

And it was

Resolved, That no further action be taken and subject be laid on the table.

Should Divisions Authorized on Cotton Piece Goods From Dallas, Texas, via East St. Louis to Louisville, be Applied on Like Traffic, From Galveston and Other Points.

The Chairman stated that this subject had been brought up by one of the roads, applying from Galveston, the divisions that are specifically agreed to on this traffic, from Dallas via East St. Louis to Louisville. The road claiming they could not consistently charge more from Galveston or other Texas points taking same rate as they do from Dallas.

And it was

Resolved, That the through rate, 43 cts., and division authorized on this traffic from Dallas, Texas, via East St. Louis to Louisville, viz.: 26.7 cts., Dallas to East St. Louis, 16.3 cts. per 100, East St. Louis to

Louisville, be made to apply from all Texas points taking same rate as Dallas, via East St. Louis to Louisville, Cincinnati, etc., effective at once.

Letter From Chairman Cale, Southwestern Freight Committee Relative to Establishing a Telegraph Code for Use Among Members of the Various Freight Committees.

The Chairman submitted letter regarding this subject and it was

Resolved, That this Committee take no action and subject be laid on the table.

Drayage on Whiskey at Louisville, Ky., Destined to St. Louis and Points Beyond.

The Chairman submitted the correspondence on the above subject, and, after a general discussion, it was

Resolved, That the subject be referred to the Louisville Freight Committee.

Rates on Glycerine, C. L., Between East St. Louis, Cincinnati, Louisville, Etc.

The Chairman read correspondence from a member relative to correcting Joint Freight Tariff B-22, rate on Glycerine, C. L., 15 cts. per 100 lbs., so as to make rate apply on Crude Glycerine only, and it was

Resolved, That the Chairman issue Amendment to Joint Freight Tariff I. C. C. B-22, correcting rate of 15 cts. per 100 lbs. on Glycerine, so as to make same read: Glycerine, Crude, C. L., minimum weight 30,000 lbs., 15 cts. per 100 lbs. from East St. Louis to Cincinnati, Louisville, etc., effective on legal notice.

Application to Establish Through Rate of 22 Cents Per 100 on Cement Plaster, C. L., Acme, Texas, via East St. Louis to Cincinnati, Louisville, Etc. Dividing 16 Cents West and 6 Cents Per 100 lbs. East of the River.

The correspondence on this subject was submitted, and it was

Resolved, That the Chairman be authorized to personally confer with Mr. A. T. Drew, G. F. A., M., K. & T., and say to him that this Committee is willing to consider a proposition for the making of a through rate on Cement Plaster, from Acme, Texas, to Louisville and Cincinnati, minimum weight 60,000 lbs. per car, the present through rate being 26 cts., based on a combination of locals, 18 cts. to East St. Louis, and 8 cts. East St. Louis to Cincinnati and Louisville, the difference between the through rate, 26 cts., and the rate wanted, being 4 cts., we are willing to divide this difference on a pro rate, rate per rate; this would figure 69.23 per cent. for the M., K. & T. and 30.77 per cent. for the lines east from East St. Louis. The 22-cent rate on this basis, therefore, would divide, M., K. & T., 15.2 cts., lines east from East St. Louis to Cincinnati and Louisville, 6.8 cts. per 100 lbs. If this proposition is satisfactory to the M., K. & T. R. R., that road is then to issue through tariff making rate of 22 cts. from Acme, Texas, to Cincinnati, Louisville, etc., and the Chairman is to issue division sheet showing divisions as above explained. Copy of this division sheet to be furnished each member of this Committee. This is not to affect the rate from East St. Louis to Cincinnati and Louisville and the Special Divisions authorized will not be included in the tariffs of this Committee.

Rate on Earth Paint, Iron or Ochre, Dry, in Sacks, Barrels, Bags or Bulk, C. L., Between East St. Louis, Cincinnati, Louisville, Etc.

The Chairman called attention to St. Louis Eastbound Freight Committee's Special Notice No. 1025, authorizing 6th class rates on this traffic, also Mineral or Metallic Paints, from East St. Louis to C. F. A. Points, stating that said Special Notice was to be reissued eliminating Mineral and Metallic Paint, and it was

Resolved, That the individual roads, members of this Committee, advise that, effective on legal notice, 6th

class rates will apply on Earth Paint, Iron or Ochre, Dry in Sacks, Barrels, bags or bulk C. L., minimum weight as per Official Classification, between East St. Louis, Cincinnati, Louisville, etc., and the Chairman amend Joint Freight Tariff I. C. C. No. B-22 accordingly.

Reduced Rate on H. H. Goods, From Galveston, Account of Flood-Sufferers.

The Chairman submitted letter from a member in which he states they have an enquiry from G. F. A., G., C. & S. F. R. R., as to whether they will join in half rate on H. H. Goods, Galveston to Louisville, and probably other points, account of Flood Sufferers. After due consideration, it was

Resolved, That the lines be permitted to take individual action and subject be laid on the table.

Unauthorized Tariffs Issued By Individual Roads, Members of This Committee.

After a general discussion, this subject was laid over until next meeting; in the meantime the direct lines are to meet and endeavor to reach a satisfactory understanding.

R. M. Fraser, Chairman.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 59;" as follows:

R. M. Fraser, Chairman.

Meeting convened at 10:00 A. M.

Question of Jurisdiction of this Committee Over Divisions of Through Rates From or to Cincinnati, Louisville, Etc., Forwarded Via E. St. Louis, Ill., from Orto Points in Louisiana and Arkansas, Also as to Including this Traffic in Statements Issued by this Committee.

This subject was considered at meeting June 27th, 1900, and laid over until today.

After a general discussion, it was,

Resolved, That the subject be laid over until next meeting.

Application for Reduced Rate on Cement Plaster, C. L., From East St. Louis, When from Acme, Texas, to Cincinnati, Louisville, Etc.

The above subject was considered at meeting 26th ult. and in accordance with resolution adopted the Chairman took the matter up with the Traffic Department of the M. K. & T. Ry. on Oct. 1st and 17th and received letter from A. G. F. A. Morrill, Oct. 18th, requesting that the matter be postponed until G. F. A. Drew returns from the west about Nov. 1st, and it was

Resolved, That the subject be laid over until definite reply is received from the M. K. & T. Ry.

Equalizing Rates on Range Horses, Etc., From Montana Via E. St. Louis to Cincinnati, Louisville, Etc., Against the Rate via Chicago, Etc.

The Chairman submitted correspondence on the

above subject and after a general discussion, it was,

Resolved, That the subject be laid on the table.

Drayage on Whiskey at Louisville, Destined to St. Louis and Points Beyond.

This subject was considered at meeting Sept. 26th and referred to the Louisville Freight Committee for their consideration.

The Chairman stated that he had not received any information as to action taken by that Committee and and it was

Resolved, That it is the opinion of the individual members of this Committee that the subject is a local question and one to be handled by the Louisville Freight Committee and that the subject be laid on the table.

Rates on New Railway Equipment Between East St. Louis, Cincinnati, Louisville, Etc.

The Chairman stated that the above application was submitted by Circular Letter for vote, the 16th inst., replies from all members not having been received, subject is on docket for consideration today, and it was

Resolved, That the subject be laid on the table.

Unauthorized Rates on Plug Tobacco, Barbed Wire, Etc., Issued by Individual Roads, Members of this Committee.

At meeting Sept. 26th, the subject of unauthorized rates on Plug Tobacco, between Louisville and East St. Louis was considered and referred to the direct Louisville Lines. At meeting of representatives of said lines it was found impracticable to make any change in the presnt rates on Tobacco until Jan. 1st, 1901, and in view of same, it was

Resolved, That the subject of unauthorized rates, on Tobacco and other unauthorized rates issued in individual Tariffs, of the roads, members of this Com-

mittee, be laid over until the November meeting, at which time it is thought definite action can be taken with a view to the restoration to the Tariff on all unauthorized rates, effective Jan. 1st, 1901, and that the Chairman call the Special attention of the representatives of the direct lines to this resolution.

Application for Reduced Rates on Broken Safes, Forwarded from East St. Louis to Cincinnati for Repairs.

The Chairman submitted letter from a member regarding above subject and it was

Resolved, That application be declined and subject be laid on the table.

Rates on Cotton Seed Oil, Cake and Meal, East St. Louis to Cincinnati and Louisville, Published in Southwestern Freight Committee's Division Sheet No. 14, Sept. 10, 1900.

The Chairman called attention to the Southwestern Freight Committee's Division Sheet No. 14, naming rates on Cotton Seed Oil 10 cents and on Cotton Seed Cake and Meal, 8 cents per 100 lbs., East St. Louis to Cincinnati and Louisville when from points in Texas, stating that he had taken the matter up with Chairman Cale, to ascertain his authority for the rate named but had not as yet received all the information desired, and it was

Resolved, That the Chairman continue correspondence with a view to having the Southwestern Freight Committee correct their issue to the proper basis, viz: Cotton Seed Oil 12 cents, and Cotton Seed Cake and Meal 10 cents per 100 lbs., if found necessary the subject to be further considered at next meeting.

R. M. Fraser, Chairman.

Adjourned.

P. C. C. & St. L. Ry.—M. S. Connelly.
T. H. & I. R. R.—G. L. Stevens.

R. M. Fraser, Chairman.

Meeting convened at 10:30 A. M.

Unauthorized Rates on Plug Tobacco, Barbed Wire, Etc., Issued by Individual Members of this Committee.

This subject was considered at meeting October 24th and laid over until today.

After a general discussion it was

Resolved, That all roads, members of this Comtee, having in effect tariffs naming unauthorized rates on various Commodities between points under the jurisdiction of this Comittee, withdraw same effective Jan. 1st, 1901.

Rates on Bar Iron, Beams and Steel Plates, C. L., Louisville to East St. Louis.

Resolved, That rate of 10 cents per 100 lbs. be authorized on Bar Iron, Beams and Steel Plates, C. L. minimum weight 30,000 lbs., from Louisville to East St.

Louis, effective Jan. 1st, 1901, and Joint Freight Tariff I. C. C. No. B-22 be amended accordingly.

Division of Rates on Traffic from Cincinnati, Louisville., to Arkansas and Louisiana Points Via E. St. Louis.

The subject was considered at meeting Oct. 24th, 1900, and laid over until today.

After further consideration of the matter, it was

Resolved, That the original correspondence, which was submitted by Circular Letters in November, 1898, together with recent correspondence be resubmitted to the Committee for letter vote.

Rates on Cotton Seed Oil, Cake and Meal, (Texas Points) East St. Louis to Cincinnati and Louisville, Published in Southwestern Freight Committee's Division Sheet No. 14, Sept. 10, 1900.

The above subject was considered at meeting 24th ult., and in line with resolution adopted the Chairman took the matter up further with the Chairman Southwestern Freight Committee, also with G. F. A. of the St. L. S. W. Ry., the correspondence being submitted, it was

Resolved, That the subject be laid over until next meeting, in the meantime the Chairman to write G. F. A., C. & E. I. R. R., also each member of this Committee for information as to whether the rates named in the division sheet referred to had been authorized and are in effect via their line.

Application to Establish Same Through Rates and Divisions on Cotton Seed Oil, from Louisiana and Arkansas Points that Make Rates Based on Little Rock, as in Effect from Little Rock, Viz: 60 per cent West and 40 per cent East of the River.

Correspondence on the above subject was submitted and after a genral discussion, it was

Resolved, That the Chairman be instructed to reply to A. G. F. A., Mo. Pac. Ry. that the roads, members of this Committee, will accept on shipments of Cotton Seed Products, C. L., forwarded from all points in Arkansas, except Texarkana, via East St. Louis to Cincinnati and Cincinnati Points, Louisville and Louisville Points, (under the jurisdiction of this Committee) 40 per cent of the published through rates, east of East St. Louis, allowing 60 per cent to lines west.

Application for Reduced Rate on Cement Plaster, from St. Louis, When from Acme, Texas, to Cincinnati, Louisville, Etc.

The above subject was considered at meeting 24th ult. and laid over pending reply from M., K. & T. Ry.

The Chairman submitted correspondence between this office and G. F. A., M., K. & T. Ry., and it was

Resolved, That the Chairman notify G. F. A., M., K. & T. Ry., that the lines, members of this Committee, will join the M., K. & T. Ry. and its connections in a through rate of 22 cts. per 100 lbs., on Cement Plaster, C. L., minimum weight capacity of car, from Acme, Texas, to Louisville, Louisville Points, and Cincinnati, Cincinnati Points (under the jurisdiction of this Committee), and will accept as their proportion east of East St. Louis, 6 cts. per 100 lbs., to the points referred to, and that G. F. A., M., K. & T. Ry., be requested, in addition to issuing through tariff, to issue a separate division sheet covering it, as this Committee does not deem it advisable to publish in its tariffs the proportional rate of 6 cts. agreed to above. The Chairman to advise if above proposition is accepted by the M., K. & T. Ry., and date effective.

Proposition to Issue Joint Proportional Tariff I. C. C. No. B-23, on Account of Rates on Grain, E. St. Louis to Cincinnati, Louisville, Etc.

The above subject was submitted by Circular Letter Nov. 12th, 1900. The Chairman stated that the vote

on the proposition was not such as to warrant republishing the tariff, and it is therefore submitted for further consideration today; after a general discussion it was

Resolved, That this subject be laid over until next meeting.

T. St. L. & W. R. R. Notice of Withdrawal from the Committee, Effective November 1st, 1900.

The Chairman submitted the correspondence on the subject, and it was

Resolved, That the resignation of the T., St. L. & W. R. R. as a member of this Committee be accepted.

Proportional Rate of ¼ cents per 100 lbs. on Grain, C. L., East St. Louis to Louisville, Etc.

Correspondence from Chairman, Central Freight Association, was read, relating to having above vote withdrawn on account of the combination of locals via Louisville to Virginia Cities, etc., making less than the authorized through rate from East St. Louis to said points, and suggesting a conference meeting of all lines interested, etc., and it was

Resolved, That Chairman Tucker be notified that we favor his suggestion for a joint conference of all parties interested, to confer regarding rates on Grain to Louisville, etc., and request him to arrange for said meeting in St. Louis as early as practicable, and this Committee will be present, and it is further

Resolved, That we consider it very necessary that Mr. Tucker be the Chairman of said meeting, so that he may have full information on the situation.

Proposition to Have Rates Between Cincinnati, Louisville & Evansville Under Jurisdiction of this Committee.

The Chairman stated that he had received letter from a member on this matter and submitted same by Circu-

lar Letter Nov. 23d, 1900, file B-152, for the information of the members, so that the subject might be acted upon today, and it was

Resolved, That the Chairman be instructed to take the question up with G. F. A., E. & T. H., and with Mr. C. V. Williams, G. F. A., Louisville & Evansville Mail Line, with the view to having them become members of this Committee, for the handling of rates between Evansville and Cincinnati and Evansville and Louisville, subject to be further considered at next meeting.

R. M. Fraser, Chairman.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 61," as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held at the Louisville Hotel, Louisville, Ky., Dec. 19th, 1900.

Representation:

L. E. & St. L. R. R., R. A. Campbell, J. B. Campbell.
P., C., C. & St. L. Ry., M. S. Connelly, G. W. Davis.
T. H. & I. R., N. W. Taylor, by M. S. Connelly.

R. M. Fraser Chairman.

Meeting convened at 10:30 a. m.

Withdrawal of Tariffs and Unauthorized Rates Between Points Under Jurisdiction of this Committee, Effective Jan. 1st, 1901.

The above subject was considered at meeting 28th

ult., and, in line with action taken, Chairman issued Circular Letters 6th and 14th.

All roads having advised that all unauthorized Tariffs or Rates had been cancelled or would expire, effective Jan. 1st, 1901, it was

Resolved, That no further action is necessary, subject be laid on the table.

Through Rates and Divisions on Traffic from Cincinnati, Louisville, Etc., to Arkansas and Louisiana Points via East St. Louis.

At meeting Nov. 28th, 1900, resolution was adopted instructing the Chairman to resubmit by Circular Letter the correspondence of November, 1898, also the recent correspondence on the subject; see Circular Letter issued Dec. 1st, 1900.

After a general discussion it was suggested that the Chairman urge replies from the members who have not voted, and the following resolution was offered and adopted:

Resolved, That no action be taken at this meeting and matter be passed in view of the fact that the Chairman is now obtaining vote by Circular Letter, the result to be communicated by Circular Letter or held for consideration at next meeting, as circumstances warrant.

Proposition to Have Rates Between Cincinnati, Louisville and Evansville Under the Jurisdiction of This Committee.

The Chairman read letters to and from General Freight Agents of the E. & T. H. R. R. and Louisville & Evansville Mail Line on the subject of membership in this Committee. (See proceedings Nov. 28th.) G. F. A. Williams, Louisville & Evansville Mail Line, being present, stated that their line favored the proposition; the E. & T. H. R. R. not being present, it was

Resolved, That the matter be deferred until next meeting; in the meantime each member directly inter-

ested take the subject up with the E. & T. H. R. R.

Rate on Starch Between East St. Louis, Cincinnati, Louisville, Etc.

The above subject was submitted by Circular Letter Dec. 8th, file B-211. The Chairman submitted replies from all roads, and, after further consideration today, it was

Resolved, That rate of 10 cts. per 100 lbs. be authorized on Starch, C. L., minimum weight as per Official Classification, between East St. Louis, Cincinnati and Cincinnati Points, Louisville and Louisville Points (under the jurisdiction of this Committee), effective Jan. 1st, 1901; this in line with rate published by C. & O. R. Committee.

Note.—Starch is not to be included in list of articles taking Grain Products rate.

Rates on Wire Rods, Jeffersonville and New Albany to East St. Louis.

The Chairman called attention to Central Freight Association Information No. 2549, authorizing, effective December 11th, 1900, from Jeffersonville and New Albany, Ind., to East St. Louis, rates currently in effect on Iron and Steel Billets, C. L. on Wire Rods, in coils unfinished, not drawn through a die, C. L., minimum weight as per Official Classification, when shipments originate at Birmingham, Ala., requested to be advised whether this Committee's Proportional Tariff I. C. C. No. B-23 should be amended to include above, and it was

Resolved, That subject be laid on table, as this Committee has no jurisdiction over the Traffic.

Minimum Carload Weight on Light and Bulky Freight.

The Chairman submitted correspondence from a member in which it was stated, that, owing to the size of their equipment, it is impossible to load the authorized minimum weight on certain light and bulky traf-

fic, and, after a general discussion of the subject, no definite action was taken except on Hay as shown by the following resolution:

Resolved, That the Proportional Rate of 12 cts. per 100 lbs. on Hay, carried in Proportional Tariff I. C. C. B-23, be withdrawn, effective Jan. 3d, 1901.

Rates on Cotton Seed Mill and Factory Sweepings, Car Loads.

The Chairman called attention to Central Freight Association Advice Letters Nos. F-718 and 768, containing proposition to establish 6th class rates on this traffic from Ohio River Crossings and East St. Louis to all points in Central Freight Association Territory, requesting to be advised if same rates be made applicable between points under the jurisdiction of this Committee, and it was

Resolved, That individual roads, members of this Committee, advise that 6th class rates be established on shipments of Cotton Seed Mill and Cotton Factory Sweepings, used as Paper Stock, in bales, machine compressed, carload minimum weight in cars 30 feet and under in length, 30,000 lbs., in cars over 30 feet in length, 38,000 lbs., between all points under the jurisdiction of this Committee, effective Jan. 1st, 1901, and Joint Freight Tariff I. C. C. No. B-22 be amended accordingly.

Note.—It being understood the above resolution will not become effective unless the proposition contained in Central Freight Association Advice Letters F-718 and 768 are authorized by Central Freight Association.

Through Rates and Divisions on Cotton Seed Products, C. L., Arkansas Points via East St. Louis to Cincinnati, Louisville, Etc.

The above subject was considered at meeting Nov. 28th, 1900. The Chairman stated that in line with action taken, he had written A. G. F. A., Mo. Pac. Ry.,

and received reply, dated 14th inst.; same being submitted, it was

Resolved, That the Chairman reply to A. G. F. A., Mo. Pac. Ry., that the lines east of East St. Louis want 40 per cent. of the through rate from the points of shipment referred to in said resolution and not a proportion of the rate from Little Rock.

Rates on Low Grade Molasses (Black Strap) East St. Louis to Cincinnati, Louisville, Etc., When from Sugarland, Texas.

Letter from A. G. F. A., Mo. Pac. Ry., was read in which he requested to be advised lowest rate lines east of East St. Louis would accept on this traffic, etc. After due consideration, it was

Resolved, That it is the individual opinion of the roads, members of this Committee, that they cannot consistently accept any lower rating on this traffic than basis provided therefor in the Official Classification, viz.: 5th class carloads, and A. G. F. A. Peabody be advised accordingly.

Numbering Consecutively the Proceedings Issued by This Committee, Beginning with January 1901.

The above suggestion was offered by one of the members, and it was:

Resolved, That the proceedings of meetings of the St. Louis-Cincinnati-Louisville Freight Committee be numbered consecutively, beginning with No. 1 for January, 1901.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 62;" as follows:

PROCEEDINGS NO. 1.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Louisville & Evansville Mail Line, C. V. Williams.
R. M. Fraser, Chairman.

Meeting convened at 10:00 a. m.

Through Rates and Divisions on Traffic from Cincinnati, Louisville, Etc., to Arkansas and Louisiana Points Via East St. Louis.

The above subject was last considered at meeting Dec. 19, 1900, and laid over pending further information to be obtained by the Chairman.

The Chairman stated that he had received replies from all roads, except the P., C., C. & St. L. and after personal statement by G. F. A., P. C. C. & St. L. Ry., and general discussion today, it was:

Resolved, That the roads, members of this Committee, will accept 30 per cent of the published rates from Cincinnati and Cincinnati Points, Louisville and Louisville Points (under the jurisdiction of this Committee), to Little Rock with local as maximum, as division of

through rates to all points on the St. L. & S. F. R. R. in Arkansas, St. L., I. M. & S. Ry. in Arkansas, and points in Louisiana on the St. L., I. M. & S. Camden Branch, South of Eldorado, Arkansas and all points on the St. Louis Southwestern Ry. in Louisiana and Arkansas, except Shreveport and Texarkana.

Also excepting other points in Louisiana to which agreed per cents are now authorized.

If it is found necessary to establish Commodity Rate less than Class "E" we will accept 30 per cent of the published Class "E" rate as minimum.

Rates on Cotton Seed Oil, Cake and Meal (Texas Points) East St. Louis to Cincinnati and Louisville, Published in Southwestern Freight Committee's Division Sheet 14, *Sept.* 10, 1900.

The above subject was considered at meeting 19th ult. and laid over.

The Chairman stated that since meeting 19th he had received letter from Chairman Southwestern Freight Committee, which was submitted and it was

Resolved, That this subject be laid over until next meeting.

Through Rates and Divisions on Cotton Seed Products, C. L., Arkansas Points, Via E. St. Louis to Cincinnati, Louisville, Etc.

This subject was considered at meeting held 19th ult. and as instracted the Chairman advised the Mo. Pac. representative of the action taken. The Chairman stated that he had since received letters from several of the members, with correspondence attached from A. G. F. A., Mo. Pac. Ry. on the subject, which were considered and it was:

Resolved, That the Chairman be instructed to ascertain what the divisions are on Cotton Seed Products from Arkansas points to Cincinnati and Louisville via Memphis and present question at next meeting.

Percentage Divisions of Through Rates from Louisville Via East St. Louis to Texas Points Named in Southwestern Division Sheet No. 14, Item 96, Page 20.

Letter Jan. 12th, file D-836, from G. W. Cale, Chairman Southwestern Freight Committee, regarding the above subject was read and after due consideration, it was:

Resolved, That the Chairman reply to Mr. Cale to the effect that the divisions he refers to are in accordance with Southwestern Freight Committee's Division Sheet No. 14, item 96, and that the divisions as published are in accordance with the understanding of the agreement made by the members of this Committee and that the Chairman call Mr. Cale's attention to the fact that cement does not originate at New Albany but originates at local stations in Indiana on the Pan Handle and that Texas percentages are not applicable from local stations on Louisville Divisions of the Pan Handle and that this Committee has no jurisdiction.

Unauthorized Rate on Iron and Steel Articles Published by Individual Roads, Members of This Committee.

The above subject was submitted by Circular Letters Jan. 4th and 7th, file B-300 and docketed for further consideration of the Committee today. After a general discussion, it was:

Resolved, That the subject be laid on the table.

Proposition to Have Rates Between Cincinnati, Louisville and Evansville Under the Jurisdiction of This Committee.

The above subject was considered at meeting Dec. 19th and laid over pending further information to be obtained by the directly interested lines. The matter being further considered today, it was:

Resolved, That rates applying on traffic between Evansville, Louisville and Louisville Points, Cincinnati and Cincinnati Points, be handled under the jurisdiction

of the St. Louis-Cincinnati-Louisville Freight Committee.

The Louisville & Evansville Mail Line having expressed their willingness to become a member of this Committee for the handling of the traffic mentioned, the Evansville & Terre Haute R. R. be also invited to become a member, effective Feb. 1st, 1901.

And it is further:

Resolved, That the Chairman call a meeting at Louisville, at an early date, of Rate Clerks to check in rates between Cincinnati and Evansville and Louisville and Evansville.

Rates on Pig Iron, Billets, Brooms, Etc., Between East St. Louis, Cincinnati, Louisville, Etc.

The above subject was docketed for consideration in view of the call issued by Central Freight Ass'n. for meeting Jan. 17th, 1901, at Indianapolis, relative to check of Pig Iron, Billets, etc., rates, East St. Louis and Ohio River Crossings to C. F. A. Points.

The Chairman stated that at meeting Indianapolis, 17th inst. it was agreed to reaffirm rates now in effect from East St. Louis and Ohio River Crossings to C. F. A. Points and it was:

Resolved, That the subject be tabled.

Letter from Chairman Cale Southwestern Freight Committee Requesting that Point of Origin and Other Information be Shown on Waybills.

The Chairman read letter on the above subject also stated that the matter had been submitted by C. F. A. Advice Letter No. F-845 and it was

Resolved, That the subject be tabled, local agents having received instructions from their superior officers in regard to handling this business.

Election of Executive Committee.

The term of office for which the Executive Committee were elected for 1900, having expired, it was

Resolved, That Messrs. R. A. Campbell, N. W. Taylor and W. D. Holliday be and are hereby elected an Executive Committee for the year 1901 and to hold office as provided for in the Articles of Organization.

Rates on Articles of Iron and Steel Manufacture.

The Chairman called attention to C. F. A. Information No. 2617, authorizing 5th class rates, L. C. L., and 6th class rates C. L. on Articles of Iron and Steel manufactures between points in C. F. A. Territory and requested to be advised if this Committee desired these rates published between East St. Louis, Cincinnati, Louisville, etc., and it was

Resolved, That the individual roads, members of this Committee advise that they will establish rate, on Articles of Iron and Steel Manufacture, as per rates and conditions authorized in C. F. A. Information Nos. 2617 and 2630, corrected, between East St. Louis, Cincinnati and Cincinnati Points, Louisville and Louisville Points, effective Feb. 1st and that Joint Freight Tariff I. C. C. No. B-22 be amended accordingly.

Rate on Drums, Casks or Tubes, Iron, Empty, Second-hand, Returned.

The Chairman submitted letter from a member requesting reduction in rate on this commodity in C. L. and it was

Resolved, That the individual roads, members of this Committee, advise that they will establish rate of 12 cents per 100 lbs. on Drums, Casks or Tubes, Iron, Empty, (second-hand) returned, C. L. minimum weight 24,000 lbs. between East St. Louis, Cincinnati and Cinnati Points, Louisville and Louisville points, effective Feb. 1st and that Joint Freight Tariff I. C. No. B-22 be amended accordingly.

Meeting adjourned until Wednesday, Feb. 27th at St. Louis."

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 63;" as follows:

NO. 2.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held at the Louisville Hotel, Louisville, Ky., Jan. 30th, 1901.

Representation:

B. & O. S. W. R. R.—E. B. Tullis.
C. H. & D. Ry.—E. B. Tullis.
C. C. C. & St. L. Ry.—O. A. Rhine.
Ill. Cent. R. R.—D. W. Longstreet.
L. H. & St. L. Ry.—L. J. Irwin, G. N. Robinson.
Louisville & Nashville Mail Co.—C. V. Williams.
P. C. C. & St. L. Ry.—S. E. Mullings.
Southern Ry., (St. L.-L. Lines)—J. E. Campbell, R. H. Morris.

This meeting was called in accordance with the action taken at meeting Jan. 23rd (See proceedings, page 3 and Circular Letter 26th.)

After a general discussion on the subject it was not deemed practicable to dispose of the subject at this meeting, and it was

Resolved, That each line, member of the St. Louis-Cincinnati-Louisville Freight Committee furnish the Chairman of that Committee with copies of their tariffs and Rates now in effect applying between Evansville, on the one hand, and Louisville, East St. Louis and Cincinnati, on the other, and that the Chairman prepare a comparative statement as between the different tariffs and the different points and submit the same by mail, it being understood that the whole matter will be considered at the next regular meeting of the Committee, which will be held in St. Louis, on the fourth Wednesday of February.

It is further understood that the boat lines will operate the following differentials under whatever rates are established by the rail lines, between Evansville, on the one hand and Louisville and Cincinnati, on the other, which water differentials are as follows:

1-5 2-4 3-3 4-2 5-2 6-2

Pending the meeting at which this matter is to be further considered, it is understood that no changes can be made by any member of the St. Louis-Cincinnati-Louisville Freight Committee in the rates now in effect between Evansville, on the one hand, and Louisville and Cincinnati on the other, except under the rules of that Committee.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 64;" as follows:

PROCEEDINGS NO. III.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Rate Clerks Held in the Chairman's Office, Feb. 26, 1901.

Representation:

B. & O. S. W. R. R.—E. B. Tullis.
C. C. C. & St. L. Ry.—H. S. Bradley.
C. H. & D. Ry.—E. B. Tullis.
Ill. Cent. R. R.—J. Hattendorf.
L. H. & St. L. Ry.—G. N. Robinson.
P. C. C. & St. L. Ry.—E. B. Tullis.
Southern Ry. (St. L.-L. Lines)—C. D. Morris.
Louisville & Evansville Mail Co.—C. V. Williams.

R. M. Fraser, Chairman.

Meeting convened 10:00 A. M.

Rates Between Evansville, Louisville and Cincinnati.

In accord with resolution adopted at meeting Jan. 23rd, 1901, and Circular Letter Feb. 19th, 1901, file B-316, the Rate Clerks met in this office today and after a general discussion the individual lines gave notice that the Class Rates via Rail Lines between Evansville and Cincinnati would be as follows:

1-40 2-34 3-25 4-17 5-15 6-12

The Class Rates via the Boat Line to be the following differentials less than the Class Rates established via Rail Routes:

1-5 2-4 3-3 4-2 5-2 6-2

It being further understood that when a commodity rate is established which is the same as a Standard Class Rate, the Boat Line Rate will be the differential for that class, less than via Rail and where a Commodity Rate is established that is not a class rate the Boat Line rate will be the differential less than the next nearest class rate via Rail.

Note.—The rates on Live Stock, C. L. betwen Evansville and Cincinnati were referred to the Freight Committee to be consiered at their meeting 27th inst. It being understood that the rates decided upon by the Freight Committee are to be named in the tariff when issued.

The rates between Evansville and Louisville were then taken up and the individual lines gave notice that the rates via Rail Lines between Evansville and Louisville would be the following differentials less than the rates between Evansville and Cincinnati, viz:

1-12 2-10 3-5 4-3 5-3 6-2

and which establishes the following Rail rates between Evansville and Louisville:

1-28 2-24 3-20 4-14 5-12 6-10

The Class Rates via the Boat Lines to be the follow-

ing differentials less than the Class Rates established via Rail Routes, viz.:

1-5 2-4 3-3 4-2 5-2 6-2

The Rule regarding establishing Commodity Rates via the Boat Line between Evansville and Louisville are the same as govern between Evansville and Cincinnati and which are noted above.

Note.—The Rate on Plows, Louisville and Evansville was referred to the Freight Committee to be considered at their meeting 27th inst. It being understood that the rates decided upon by the Freight Committee are to be named in the Tariff when issued.

The question of manner of issuing the Tariffs was considered and it was

Resolved, That the Chairman submit to the Freight Committee proposition to issue separate Tariffs, one to name rates between Evansville and Cincinnati and the other to name rates betwen Evansville and Louisville. The Tariffs to be of different color and a proof copy of same be sent to each member for their check and approval before final issue.

And it was further;

Resolved, That, the question of cancelling the tariffs of the individual lines which are at present in effect between Evansville and Cincinnati and Evansville and Louisville be referred to the Freight Committee at their meeting to be held 27th inst. for their consideration and action.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 65," as follows:

PROCEEDINGS NO. IV.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held in the Office of the Chairman, St. Louis, Mo., Feb. 27, 1901.

Louisville & Evansville Mail Co., C. V. Williams.
R. M. Fraser, Chairman.

Meeting convened at 11:00 a. m.

Through Rates and Divisions on Traffic from Cincinnati, Louisville, Etc., to Arkansas and Louisiana Points via East St. Louis.

The above subject was considered at meeting Jan. 23d, 1901. The Chairman stated that, as instructed, he had submitted the proposition to the Southwestern Lines and received Joint Letter from Messrs. Davis and Peabody accepting the proposition named, in resolution adopted at meeting of this Committee, Jan. 23d, 1901. And, after due consideration, it was

Resolved, That the subject be left in the hands of the Chairman—he to get a further reply from the Southwestern Roads as regards the St. L. & S. F. R. R. and to report result to the members of this Committee by Circular Letter, or bring the subject up at next meeting, as circumstances warrant.

Rates on Cotton Seed Oil, Cake and Meal (Texas Points), East St. Louis to Cincinnati and Louisiana, Published in Southwestern Freight Committee's Division Sheet No. 14, Sept. 10, 1900.

The above subject was considered at meeting 23d ult. and laid over. The Chairman stated that he had endeavored to get a definite reply from Mr. Cale, but up to the present time had failed to obtain the information desired, and it was

Resolved, That the subject be laid over until next meeting.

Through Rates and Division on Cotton Seed Products, C. L., Arkansas Points via East St. Louis to Cincinnati, Louisville, Etc.

The above subject was last considered at meeting 23d ult. The Chairman stated, as instructed, he had endeavored to obtain the information desired, submitting the correspondence. It was

Resolved, That the Chairman be instructed to reply to A. G. F. A., Mo. Pac. Ry., that the roads, members of this Committee, will accept on shipments of Cotton Seed Products, C. L., forwarded from all points in Arkansas, except Texarkana, via East St. Louis to Cincinnati and Cincinnati Points, Louisville and Louisville Points (under the jurisdiction of this Committee) 40 per cent. of the established through rates, from the original point of shipment, with a minimum of 8 cts. per 100 lbs., for the lines east of East St. Louis.

Note.—Mr. Irwin, G. F. A., L., H. & St. L. Ry., requested the Chairman to state in his letter to the Mo. Pac. Ry. that the above divisions would not be accepted by the L., H. & St. L. Ry.

Rates Between Evansville and Cincinnati and Evansville and Louisville.

The Chairman stated that the Rate Clerks at meeting yesterday, 26th inst., checked in rates between

points named above in line with resolution adopted at meeting 23d ult., except the rates on Live Stock between Evansville and Cincinnati and on Plows between Louisville and Evansville, which were referred to the Committee for their consideration, and it was

Resolved, That the rates on Live Stock, C. L., between Evansville and Cincinnati will be as follows:

Horses and Mules, C. L., Rail 25 cts., Boat Line 23 cts.
Cattle, Calves, Sheep and Hogs, C. L., Rail 15 cts., Boat Line 13 cts. subject to rules and minimum weights of the Official Classification, and on Plows, C. L., between Evansville and Louisville, via Rail 10 cts. per 100 lbs., minimum weights as per Official Classification.

Note.—Mr. Williams requested that the River Rate on Plows be left blank, stating, however, that he would not under any circumstances make a less rate via Boat than the agreed differential of 2 cts. per 100 lbs.

The Chairman requested information regarding the issue of Tariffs on the Traffic between Evansville and Cincinnati and Evansville and Louisville, and it was

Resolved, That the Chairman be instructed to issue separate Tariffs, one naming rates between Evansville and Cincinnati, and the other naming rates between Evansville and Louisville.

And it is further

Resolved, That the individual roads, carrying rates between Evansville and Cincinnati and Evansville and Louisville cancel their individual Tariffs, effective on same date that the Tariffs of this Committee, which are authorized at this meeting, become effective.

It is further

Resolved, That the Chairman write to G. F. A., E. & T. H. R. R., requesting that their tariffs, covering rates from Evansville to Louisville and Cincinnati, be put in line with the Tariffs issued by this Committee. The Chairman to send the G. F. A., E. & T. H. R. R., copies of Tariffs issued, covering this traffic.

The Chairman also requested information as to the duties required of this office in connection with this matter (rates between Evansville and Cincinnati and Evansville and Louisville), and was informed that only the publication of Tariffs would be required, he to have nothing to do with copies of billing, compiling statistics, etc., and after a further discussion regarding expenses incurred in issuing said Tariffs, the following was adopted:

Resolved, That the Louisville & Evansville Mail Co. be charged with 1 per cent. of the total Monthly Expense of the St. Louis-Cincinnati-Louisville Freight Committee, the balance to be divided between the other lines, members of the Committee, as provided for in Article IX. of the Articles of Organization.

Rates on Fertilizer, C. L., East St. Louis to Cincinnati, Louisville, Etc.

The Chairman submitted application to establish rate of 10 cts. per 100 lbs. on the above referred to traffic, and after due consideration the following action was taken:

Whereas, The present rate on Soap Stock-Tallow-Grease, C. L., between Chicago and East St. Louis and Cincinnati, Louisville, etc., is 10 cts. and on Fertilizer 12 cts. per 100 lbs. and it was

Resolved, That the Chairman correspond with the Secretary of the C. & O. R. Committee with a view to having the rates on Soap Stock, Tallow, Grease, etc., advanced to the same rate as Fertilizer (12 cts. per 100 lbs), if possible, if, however, it is found impracticable to advance the rate on Soap Stock, etc., it is recommended that rates on Fertilizer, C. L., be established at 10c per 100 lbs., minimum 30,000 lbs. The date of advance or reduction to be named later. The result of correspondence to be submitted to all members by Circular Letter.

Rates on Kaffir Corn, Carloads.

The Chairman submitted letter from the B. & O. S. W. R. R., calling attention to Central Freight Association Information No. 2650, which establishes *Grain Rates* on Kaffir Corn and Corn-meal, requesting to be advised if under this ruling the Tariff of the Committee should be corrected so as to eliminate Kaffir Corn from the Grain *Products List*, and include same under list of articles taking the *Grain* rates and it was:

Resolved, That the Chairman in next issue of the Committee's Tariffs eliminate Kaffir Corn from list of Articles taking Grain Products Rates and include same in the list entitled to the *Grain* Rates.

Proportional Rates on Grain, C. L., Named in Joint Proportional Tariff, I. C. C., No. B-23.

The Chariman read Correspondence with the G. F. A., B. & O. S. W. R. R. regarding Foot-notes, on page 2 of said Tariff, relative to application of the Grain Rates to and from the different territories via the several lines, and it was:

Resolved, That the Chairman correct (with pen and ink), copies of the Tariff in line with B. & O. S. W. R. R.'s suggestion and submit same to the members of the Committee for their votes, as to whether tariff shall be reissued as suggested. The result to be sent to the members by Circular Letter.

Minimum Weights on Light and Bulky Freight.

The Chairman called attention to the practice of the L. H. & St. L. Ry. transporting part lots of C. L. shipments at C. L. rate, on which Rule 5-C of the Official Class'n. does not apply.

In line with statements made by G. F. A., L. H. & St. L. Ry. at meeting, Dec. 19th, 1900 (See proceedings, page 3), he stated again today that if the authorized minimum weight on any traffic was in excess of the weight that could be loaded in their own equipment and

that could not, at the time, get any equipment larger than their own, he would not agree to maintain the minimum.

A. G. F. A. Southern Ry., stated if that was to be the practice of the L. H. & St. L. Ry., the Southern Ry. would handle the traffic in like manner.

There was a general discussion of the subject, but no definite action taken.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 66;" as follows:

PROCEEDINGS NO. V.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held at the Louisville Hotel, Louisville, Ky., April 24th, 1901.

Representation:

B. & O. S. W. R. R., Ed. Hart, Jr.
C., C., C., & St. L. Ry., H. F. Frost.
C. H. & D. Ry., E. J. Hutchinson.
Ill. Cent. R. R., J. Hattindorf.
L., D. & W. Ry., J. S. Lazarus, by E. J. Hutchinson.
L., H. & St. L. Ry., L. J. Irwin, W. C. Lindsay.
P., C., C. & St. L. Ry., M. S. Connelly.
Southern Ry. (St. L.-L. Lines), J. B. Campbell, C. D. Morris.
T. H. & I. R. R., N. W. Taylor, M. S. Connelly.
Louisville & Evansville Mail Co., C. V. Williams.
R. M. Fraser, Chairman.

Meeting convened at 10:00 a. m.

Through Rates and Divisions on Traffic from Cincinnati, Louisville, Etc., to Arkansas and Louisiana Points Via E. St. Louis.

The above subject was last considered at meeting Feb. 27th and left in the hands of the Chairman to get further reply from Southwestern Roads, as regards the St. L. & S. F. R. R.

The Chairman reported having written three letters asking the information desired, but had not as yet received definite reply and it was:

Resolved, That the subject be left with the Chairman to endeavor to secure a reply and communicate same to the Committee by Circular Letter.

Through Rates and Divisions on Cotton Seed Products, C. L., Arkansas Points Via E. St. Louis to Cincinnati, Louisville, Etc.

The above subject was last considered at meeting Feb. 27th. The resolution adopted was transmitted to the Mo. Pac. Ry., Feb. 28th, along with the notice from L. H. & St. L. Ry., and letter April 17th, file X-13, received from A. G. F. A., Mo. Pac. Ry., as follows:

"We have concluded to accept the proposition submitted in your letter Feb. 28th, regarding divisions on Cotton Seed Products via E. St. Louis to Cincinati, O., and Louisville, Ky., and will issue Division Sheet on this basis, understanding that the local rate is to apply as maximum east of East St. Louis."

The above information having been furnished the Committee by Circular Letter April 18th, it was:

Resolved, That no further action is necessary and the papers be filed.

Reissue of Joint Proportional Tariff I. C. C. No. B-23, As I. C. C. No. B.24.

The Chairman stated that as instructed at meeting Feb. 27th, necessary action was taken to ascertain the views of the members regarding reissue of tariff as suggested. Result being an affirmative vote, the tariff will be reissued as I. C. C. No. B-24, proof of which was submitted to the members at meeting today for corrections, if any, tariff will be issued as soon as possible.

Application for Rate on Iron Holloware, any Quantity, Jeffersonville to Evansville.

The above subject was submitted by Circular Letter April 1st, file A-100 and docketed for further consideration at meeting today.

After a general discussion it was:

Recommended, That Joint Freight Tariff I. C. C. No. 1 be amended making the rate on Iron Holloware, via Rail 15 cts. and via Boat 13 cts. per 100 lbs., any quantity, from Jeffersonville to Evansville, Ind., effective on Legal Notice.

Adopted individually by roads interested.

Application for Rate on Mill Feed, Evansville to Louisville.

The above subject was submitted by Circular Letter April 6th, file A-101, and docketed for further consideration at meeting today.

After due consideration, it was:

Recommended, That the application be declined and the subject be laid on the table.

Adopted individually by roads interested.

Request for Information as to Prorating Through Rates from Harriman, Tenn., to E. St. Louis or St. Louis.

The above subject was submitted by Circular Letter April 11th, file B-349, as follows:

"Will you kindly ascertain from the members of the St. Louis-Cincinnati-Louisville Freight Committee, whether any of them are pro-rating through rates from Harriman, Tenn., to East St. Louis or St. Louis.

Replies have been received from eight members, three of whom state that they are dividing rates on a pro-rata basis, the other five state that they have no pro-rating arrangements in effect.

In view of the fact that this Committee has no jurisdiction over this traffic, it was:

Resolved, That the subject be tabled.

Application for Rate on Blinds, Doors and Sash, Louisville to Evansville.

The above subject was submitted by Circular Letter April 12th, file A-102, and docketed for further consideration of the Committee today and it was

Recommended, That the application be declined.

Adopted individually by roads interested.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman, 404-406 Union Station.

St. Louis, Mo., April 27, 1901.
File B-342.

To the Freight Committee.

Gentlemen: Please refer to Proceedings No. V, page 3m, April 24th, and correct the action on Iron Bath Tubs to read as follows:

Rate on Iron Bath Tubs, C. L., Minimum Weight 20,000 Lbs.

Correspondence with the Louisville Committee was submitted and after consideration it was

Recommended, That the rate of 15 cts. per 100 lbs. on Iron Bath Tubs, C. L., minimum 20,000 lbs. be authorized from Louisville to East St. Louis, the Chairman to amend Tariff, effective on Legal Notice.

Adopted individually by roads interested.

Tariff I. C. C. No. B-22 will be amended accordingly.

Attention being called to the fact that there is no necessity for the rate other than as stated above and the action shown in procedings was not intended, the correction is hereby requested.

Respectfully,
R. M. Fraser, Chairman.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 67;" as follows:

PROCEEDINGS NO. VI.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held at Grand Hotel, Cincinnati, O., Wednesday, June 26th, 1901.

Representation:

Ill. Cent. R. R.—F. H. Harwood, J. Hattendorf.
L. H. & St. L. Ry.—L. J. Irwin, A. Langley.
P. C. C. & St. L. Ry.—G. W. Davis, M. S. Connelly.
Southern Ry (St. L.-L. Lines)—T. C. Powell, R. A. Campbell, J. B. Campbell.
T. H. & I. R. R.—N. W. Taylor, by G. W. Davis.
R. M. Fraser, Chairman.

Meeting convened at 10:00 A. M.

Through Rates and Divisions on Traffic From Cincinnati-Louisville, Etc., to Arkansas and Louisiana Points via E. St. Louis.

The above subject was last considered at meeting April 24th, and in absence of information from all the Southwestern Roads, subject was left with the Chairman to advise later by Circular.

The delayed correspondenec was transmitted to the members by Circular Letter May 6th, stating that the arrangement became effective May 20th. Subsequently the St. L. & S. F. R. R. gave notice that they could not carry out the previous agreement and their letters communicated to members by Circular Letter June 7th.

The question having been raised as to whether exceptions to the Classification on Agricultural Implements, Vehicles, etc., Arkansas Freight Committee Exceptions No. 1-A Jan. 5th, 1901—Rule 5, G. W. Cale, Chairman, were considered in making the percentage division arrangement on Arkansas and Louisiana Traffic and Circular Letter May 21st, was issued asking vote on the proposition. The vote was not unanimous, *as stated in Circular Letter May 29th.*

The Committee are now requested to take action on St. L. & S. F. R. R. revised proposition (See Circular Letter June 7th) and regarding exceptions to Class'n. (See Circular Letters May 21st and 29th.)

After a careful consideration of the above subjects, it was

Resolved, That the resolution adopted at meeting Jan. 23rd and transmitted to the Southwestern Roads by letter Jan. 24th, naming a basis for divisions on Traffic from Cincinnati-Louisville, etc., via E. St. Louis to Arkansas and Louisiana points, which was accepted by the St. L. S. W.-Mo. Pac. and St. L. & S. F. Railroads and became effective May 20th is hereby cancelled, *so far as it applies to the St. L. & S. F. R. R.*, G. F. A. Russell having advised by letters June 4th and 6th that he could not comply with the proposition. (See Circular Letters May 6th and June 7th, file B-119.) The Chairman to notify the G. F. A., St. L. & S. F. R. R. of this action in answer to his letters June 4th and 6th.

It was further

Resolved, That the roads, members of this Committee, will not be a party to the exceptions to the Western Class'n. authorizing the application of the carload rate on entire lot of Agricultural Implements, Furniture and Vehicles, although it may be less than two or more full carloads.

The Chairman to notify the Southwestern Roads of this action.

The Ill. Cent. wished to be recorded as not voting on the above proposition and stated that where it is found, Arkansas and Louisiana exceptions are being applied, they will meet such competition.

Lard Tanks, Galvanized Iron, Empty Returned, Louisville to East St. Louis.

Correspondence with a member was read and the following action taken:

Whereas, The present authorized rate on second-hand Iron Drums, empty returned, is 17 cents per 100 lbs. from Louisville to East St. Louis, therefore be it

Resolved, That a rate of 17 cents per 100 be authorized on Lard Tanks, Galvanized Iron, empty, returned, L. C. L., Louisville to East St. Louis, the Chairman to amend Tariff effective on Legal Notice.

Adopted individually by roads interested.

Application for Reduced Rate on Defective or Broken Parts of Farm Wagons Returned to Manufacturers for Repairs, Etc.

The Chairman submitted letter from a member, also from Wagon Manufacturers' Ass'n., their Chairman of the Freight and Class'n. Committee addressed the meeting and it was

Resolved, That the question be deferred until next meeting of this Committe—the members are to obtain such information as they can as regards shipments of like character handled throughout the Central Freight Ass'n. Territory.

Adopted individually by roads interested.

Malt, Carloads, East St. Louis to Cincinnati-Louisville, Etc.

Application for reduction in rate was submitted by Circular Letter March 31st, file B-308, the vote not being conculsive, the subject was submitted at meeting and it was

Recomended, That the application be declined. Accepted individually by roads interested.

Application for Proportional Commodity Rate on Sulphuric Acid in Tank Cars, East St. Louis to Louisville, Ky.

Correspondence with a member was read urging reduction in rate from East St. Louis on traffic from the west in competition with rate from La Salle, Ill., and it was

Resolved, That this matter be referred to the Chairman for a Conference with the Mo. Pac. and other western roads interested. This with the idea that they should establish a through tariff from Kansas City to Louisville at a figure which will be in line with the rates from other similar districts on the same article. Any difference in the through rates as now established on the basis of two locals to be divided on basis of pro-rata, rate per rate as between the Western Roads and the Roads leading east from East St. Louis to Louisville.

Rates to Springfield, Mo., from Louisville via Chicago.

Letter from a member submitted calling attention to above subject. After a general discussion, it was

Resolved, That a Special Committee, consisting of Chairman Fraser and Mr. R. A. Campbell of St. Louis, be appointed to have a conference with the Frisco Line for the purpose of ascertaining whether they will accept on shipments from Cincinnati and Louisville the same proportion as they receive on traffic from Chicago and if so, then the Chairman of this Committee be authorized to issue a through tariff from Cincinnati and Louisville to Springfield, Mo., on the same basis of through rates as govern from Chicago. Division sheet to be issued by Chairman Fraser allowing the lines west of East St. Louis the same proportion as they receive on Chicago traffic. The roads from Cincinnati and Louisville to accept the difference as their proportion to East St. Louis.

Application for Proportional Rate on Hay, C. L., East St. Louis to Cincinnati-Louisville, Etc.

This subject was last considered at meeting Dec. 19th, 1900, and the proportional rate, 12 cts. per 100 lbs., C. L., minimum 30,000 lbs., then in effect, withdrawn, effective Jan. 3d.

The present application is for rate of 11 cts. per 100 lbs. C. L., minimum 30,000 lbs.

After due consideration it was

Recommended, That the application be declined.

Accepted individually by roads interested.

Rate on Oleo Oil.

Letter from Secretary, C. & O. R. Committee, was read, requesting that the Commodity Rate on Oleo Oil, C. L., be advanced to the Official Classification basis (5th class), in line with proposed rate from Chicago.

After due consideration, it was

Resolved, That we decline to change the rate on Oleo Oil, in wood, between East St. Louis, Cincinnati, Louisville, etc.

Adopted individually by roads interested.

Rate on Sand.

Letter from the Secretary C. & O. Committee submitted requesting an advance in rate on Sand C. L., from Klondike, Mo., and from East St. Louis, in line with rates from points in Illinois via Chicago to Cincinnati-Louisville, etc., and it was

Resolved, That the rate on Glass House Sand be made $1.50 per net ton, C. L., minimum, marked capacity of car, East St. Louis to Cincinnati, Louisville, etc. the Chairman to amend Tariff effective on legal notice.

Rates from Evansville to Cincinnati.

The Chairman called attention to correspondence with G. F. A., E. & T. H. R. R., which had been com-

municated to all members by Circular Letter dated May 4th and June 3d, File B-316.

After due consideration, it was

Resolved, That this subject be laid over until next meeting; in the meantime the Evansville Committee are to get together and make a report as to the actual condition of affairs.

Adopted individually by roads interested.

Rates on Livestock and Other Exhibits for Louisville Interstate Fair, 1901.

Letter from a member was read, and it was

Resolved, That the rules of the Central Freight Association regarding the handling of exhibits be adopted. See C. F. A. Nos. 1165-1192.

Adopted individually by roads interested.

Application of Official Classification Rules on Commodity Rates.

The question having been raised as to whether the Official Classification rule, for instance, 5-C, should apply on shipments of Rags and Waste and Scrap Paper, C. L. minimum 30,000 lbs. Commodity Rate.

After due consideration, the following resolution was adopted to govern the subject generally.

Resolved, That unless provided for in the Tariff, the Official Classification rules should in all cases apply, except where the Official Classification rules should in all cases apply, except where the Chicago and Ohio River Committee publish rates and minimums in conflict therewith, in which case the Chicago and Ohio River Committee action will be the rule governing for this Committee.

Regular meeting adjourned until Wednesday, September 25th, 1901.

Resolved, That the next regular meeting of this Committee will convene on Wednesday, Sept. 25th,

1901, at St. Louis, it being understood that the Chairman will in the meantime submit by Circular Letter any subject needing attention, or will issue a call for Special Meeting of the Committee, if he considers circumstances warrant.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 68," as follows:

PROCEEDINGS NO. VII.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held in the Office of the Chairman.

St. Louis, Mo., Sept. 25, 1901.

Louisville & Evansville Mail Co.—C. V. Williams.

R. M. Fraser, Chairman.

Meeting convened at 10:30 a. m.

Divisions on Traffic from Arkansas via East St. Louis to Cincinnati, Louisville, Etc.

This subject was brought up by correspondence received from several members, requesting information as to authority for rates and divisions named in Proof

Sheet of Mo. Pac. Ry. Division Sheet No. 1, dated April 24th, 1901, to Arkansas Freight Tariff No. 3 (corrected), dated April 9th, 1901.

The divisions named not having been authorized by this Committee, a conference with Committee of Arkansas Lines was arranged for at meeting 25th, and there were present Messrs. W. R. Peabody and W. B. Knight, Mo. Pac. Ry.; Chas. Hall, St. L. & S. F. R. R.; J. Hodges, St. L. S. W. Ry., and L. Palmer from Office of Mr. Geo. W. Cale, Chairman Arkansas Freight Committee.

After a general discussion on the subject, suggestions being made by both parties, which were not acceptable to all, a resolution was unanimously adopted by the St. Louis-Cincinnati-Louisville Freight Committee, as follows:

Resolved, That percentage divisions between Little Rock and Pine Bluff and Louisville and Cincinnati, via East St. Louis, be established on the basis of short-line distances, east and west of the river, and that Mississippi and Ohio River Bridge Tolls be deducted before pro-rating. This basis of divisions to apply also to points in Cincinnati and Louisville Territories (under the jurisdiction of the St. Louis-Cincinnati-Louisville Freight Committee) and to points in Arkansas taking the Little Rock and Pine Bluff rates.

The Arkansas Committee were then called upon for their vote on the resolution and replied as follows:

We cannot vote favorably on the resolution; we are only a Committee appointed by the Arkansas Freight Committee, but are willing to have the proposition considered by the Arkansas Freight Committee as a whole.

The following resolution was offered and adopted:

Resolved, That the resolution be referred to the Arkansas Lines for consideration and action at their leisure.

In order that there might be no misunderstanding as to the status of affairs, the Chairman stated:

As the matter now stands, it is my understanding that in this subject being laid over, it leaves the divisions on Cotton Seed Products as they were (See Proceedings Feb. 27th and April 24th, 1901), and it also leaves percentage divisions on South-bound traffic as now in effect (See Proceedings June 26th, 1901), and that on all of the Commodities that are mentioned on the Missouri Pacific Division Sheet, or others, rates will be made on a combination of locals. Is this correct?

The members of both Committees stated that their understanding of the situation was in accordance with above statement, and the Conference meeting adjourned.

Note—A copy of the resolution quoted above was transmitted by letter Sept. 26th, file B-383, to Mr. Geo. W. Cale, Chairman, Arkansas Freight Committee.

Application for Half Rates on Wagons and Other Vehicles, Returned to Manufacturers for Repairs.

This subject was considered at meeting June 26th and laid over until today, and it was

Resolved, That the application be declined.

Application for Proportional Rate on Sulphuric Acid, in Tank Cars, East St. Louis to Louisville.

This subject was considered at meeting June 26th and referred to the Chairman for Conference with Western Roads. The subject is now before the Western Trunk Line Committee for consideration and it was

Resolved, That the subject be laid over pending action of the Western Trunk Line Committee.

Rates to Springfield, Mo., from Louisville, vs. Rates from Chicago, Ill.

This subject was considered at June Meeting and Referred to Special Committee to confer with St. L. & S. F. R. R. The result is shown in Circular Letter July 22nd, file B-375.

After further consideration today it was deemed useless for the Committee to take any further action in the premises, and it was

Resolved, That the subject be tabled.

Application for Same Rating on Cotton Warp and Cotton Yarn.

This subject was brought up by one of the members and taken up with C. & O. R. Committee. Their regular meeting having been delayed, it was

Resolved, That the matter be deferred until after meeting of the Chicago & Ohio River Committee.

Application for Reduced Rates on Glass Sand, East St. Louis to New Albany, Ind.

This application was submitted by Circular for vote and not approved (See Circular Letters, August 28th-Sept. 6th, File B-376).

After further consideration at meeting today, it was

Resolved, That this matter be laid over, in the meantime the Chairman is to get through rates from Chicago and Chicago Producing Points, the subject to be further considered at next meeting.

Rate Adjustment on Apricultural Implements, Louisville to Oklahoma and Indian Territory Points vs. Moline and Rock Island.

On receipt of correspondence the Chairman conferred with A. G. F. A. Frisco and was informed that subject was under consideration by a Committee of Western Roads, now in session and it was

Resolved, That the subject be laid over until action of Western Roads ascertained.

Application for Same Commodity Rate on Lead Dross and Lead Skimmings as in Effect on Lead Ashes.

After due consideration, following resolution was offered and adopted

Resolved, That the individual roads, members of this Committee, authorize rate on Lead Dross and Lead Skimmings, carloads, on same basis as in effect on Lead Ashes, per gross ton, between East St. Louis-Cincinnati-Louisville, etc., effective on Legal Notice and that Joint Freight Tariff I. C. No. B-25 be amended accordingly.

Discrepancies Between Tariffs from Evansville and East St. Louis, Cincinnati, Louisville, Etc.

At June meeting this subject was laid over with the request that Evansville Committee endeavor to reconcile matters.

Statement was made that condition in much better shape and it was

Resolved, That the subject be laid over until next meeting.

Regular Meeting of This Committee.

Chairman stated that at meeting Dec. 19th, 1900, it was decided to hold the meetings Bi-Monthly, beginning with February, 1901, in order to avoid having a meeting the same month as Central Freight Ass'n. Chairman also called attention to action at meeting June 26th, which would now make the meetings of this Committee fall in the same month as Central Freight Ass'n. Meetings, and it was

Resolved, That the next regular meeting will convene on Wednesday, October 23rd, 1901, at Louisville, Ky., and Bi-Monthly thereafter on the fourth Wednesday of the month, said meetings to be held alternately in St. Louis, Louisville and Cincinati.

Proportional Rates on Refined Cotton Seed Oil, Ivorydale, Ohio, to East St. Louis.

This subject was brought up by correction being issued on shipment of Cotton Seed Oil, via B. & O. S. W. R. R., Ivorydale, Ohio, to East St. Louis, advancing the rate from 6 cts. to Tariff Rate, 12 cts.

The correction was declined and letter Aug. 22nd from A. G. F. A. stated the 6-cent rate is proportion Cincinnati Lines have agreed to accept on Cotton Seed Oil from the south, refined in transit at Ivorydale, O., when destined to East St. Louis. The rate of 12 cts. would apply on local shipments not handled under reconsigning arrangement, and it was

Resolved, That the Chairman issue Circular Letter quoting B. & O. S. W. letter Aug. 22nd and ask what action Committee desire to take in regard to rate from Louisville.

Commodity Rates in St. Louis-Cincinnati-Louisville Tariffs, Not Included in Evansville Tariffs.

Chairman stated that he had been adding Commodity Rates from time to time to the East St. Louis Tariffs, but not to the Evansville Tariffs and desired to know what the Committee wished to do about it, and it was

Resolved, That the subject be laid over, in the meantime the Chairman to call the attention of the Committee to the additions, etc., by Circular Letter, the subject to be further considered at next meeting.

Telegraph Cipher Code.

The Chairman stated that he had received letter Sept. 5th from Chairman Cale, also proof copy of the proposed Telegraph Cipher Code, suggesting that same might be useful to this Committee, etc.

This subject was considered at meeting Sept., 1900, and tabled and it was

Resolved, That the former action be reaffirmed.

Adjourned.

R. M. Fraser, Chairman.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 69;" as follows:

Meeting convened at 10:30 A. M.

Division on Traffic Between Arkansas Points via East St. Louis and Cincinnati, Louisville, Etc.

This subject was last considered at meeting Sept. 25th and copy of proceedings of the Joint Conference transmitted to Chairman, Arkansas Freight Committee, in letter dated Sept. 26th.

A copy is given below of letter Oct. 12th from Chairman, Arkansas Freight Committee, and reply thereto Oct. 15th, also a copy of letter 24th inst. to Chairman Arkansas Freight Committee covering action taken at meeting 23rd.

"St. Louis, Mo., Oct. 12th, 1901.
Files A-318 & D-194.

Rates and Divisions Arkansas Points to Cincinnati and Louisville.

Mr. R. M. Fraser,
Chairman, St. Louis, Cincinnati, Louisville Frt. Co.,
Union Station, St. Louis, Mo.

Dear Sir:—

Referring to your favor of Sept. 26th, file B-383, regarding Conference between your lines and members

of the Arkansas Freight Committee, relative to traffic from Arkansas Points to Cincinnati and Louisville and points taking same rates.

At this week's meeting of our Rate Committee, upon report being made of the action of the Conference, the undersigned was instructed to communicate with you to the effect that the proposition submitted by Cincinnati lines is not agreeable to members of the Arkansas Freight Committee. It was the sense of members that the understanding expressed by you regarding the present status of the question is correct, except that the percentages, which have been in effect for a number of years on northbound traffic from Little Rock, Pine Bluff and Brinkley are not considered cancelled by the rejection of your proposition.

Yours truly,

(Signed) G. W. Cale,
Chairman."

"St. Louis, Mo., Oct. 13, 1901.
File B-383.

Mr. Geo. W. Cale,
Chairman, Arkansas Frt. Com.,
St. Louis, Mo.

Dear Sir:—

Yours 12th, file A-318 and D-194, received. I regret that the proposition as per resolution of this Committee was not agreeable to the members of the Arkansas Freight Committee.

In my opinion the members of the Arkansas Committee are certainly not warranted in understanding that percentages are still in effect as stated in your letter as follows:

"It was the sense of members that the understanding expressed by you regarding the present status of the question is correct, except that the percentages which have been in effect for a number of years on northbound traffic from Little Rock, Pine Bluff and Brinkley are not considered cancelled by the rejection of your proposition."

On second pargraph of my letter Sept. 26th, it is stated that "with the exception of the agreed divisions on Cotton Seed Products, all of the Commodities that are mentioned on Mo. Pac. Division Sheet, or others, the rates will be made on a combination of locals," and states further:

"The proceedings mentioned above in connection with Circular Letters were referred to in remarks as to the present or future status of affairs and certainly clears the record of all Special arrangements, on northbound traffic mentioned in the Mo. Pac. Division Sheet No. 1, Arkansas Freight Tariff and other issues, leaving in effect only the arrangement on Cotton Seed Products, as per Circular Letter April 18th, 1901."

If the per cents you mention were understood to be still in effect I cannot see that anything was accomplished by declining to recognize or authorize the Missouri Pacific Division Sheet, etc.

I will submit your reply at meeting of the Committee 23rd inst. and will take pleasure in communicating their views on the subject.

Respectfully,
(Signed) R. M. Fraser, Chairman.

"St. Louis, Mo., Oct. 24, 1901.
File B-383.

Mr. Geo. W. Cale,
Chairman, Arkansas Frt. Com.,
St. Louis, Mo.

Dear Sir:—

Your letter 12th, files A-318-D-194 and my reply 15th, were submitted at the regular monthly meeting of the Committee at Louisville yesterday, and it was

"Resolved, That the Chairman's Letter 15th inst, to Chairman Arkansas Freight Committee is hereby approved, it being the understanding and intent of the roads, members of this Committee, at Conference Meeting Sept. 24th to cancel all percentages and Divisions that were in effect on Arkansas Traffic except those

specifically mentioned and covered by Proceedings Feb. 27th, and April 24th, Circular Letter April 18th, 1901, (northbound) and proceedings June 26th Circular Letters May 6th and June 7th, 1901, (southbound.)

Will you please notify all parties interested of this action so that there may be no further misunderstading on the subject and very much oblige.

Yours respectfully,

(Signed) R. M. Fraser, Chairman."

Application for Proportion Rate on Sulphuric Acid, in Tank Cars, East St. Louis to Louisville on Traffic from Kansas City.

At meeting Sept. 25th this subject was laid over pending action of Western Trunk Line Committe. Reply having been recived to the effect that the proposed through rate and divisions were not adopted, it was

Resolved, That the subject be tabled.

Rate Adjustment on Agricultural Implements, Carloads, Louisville to Oklahoma and Indian Territory Points vs. Moline and Rock Island.

Subject laid over from Sept. 25th meeting, awaiting information from Western Roads, which has not been received, and it was

Resolved, That the subject be laid over until next meeting.

Rate on Brass Ashes—C. F. A. Information 3004—Advice Letter G-454.

Resolved, That there is no necessity for publishing rate in this Committee's Tariff.

Comodity Rates in St. Louis-Cincinnati-Louisville Tariffs Not Included in Evansville-Cincinnati-Louisville Tariffs.

As instructed at meeting Sept. 25th, Chairman issued Circular Letter Oct. 16th, File B-316, naming the Commodities, and it was

Resolved, That the subject be tabled.

Discrepancies Between Tariffs from Evansville and East St. Louis, Cincinnati, Louisville, Etc.

This subject was laid over from meeting Sept. 25th and in order to give the Evansville Committee more time to consider the matter, it was

Resolved, That the subject be laid over until next meeting.

Application for Reduced Rate on Glass Sand, East St. Louis to New Albany, Indiana.

This application was considered at meeting Sept. 25th and action postponed to ascertain rates from Chicago, etc., to other points.

After due consideration, it was

Resolved, That the subject be laid over until next meeting (Nov. 20th). In the meantime the Chairman to correspond with the Chairman Central Freight Association with the view of securing a Conference of roads interested in the transportation of Glass Sand, for the purpose of establishing equitable rates on this traffic from all Glass Sand producing points.

Note.—Letter 24th, File B-376, to Chairman, C. F. A., requesting that he arrange for meeting of roads interested in transportation of Glass Sand.

Rate on Plaster, Cement and Wall to Lexington, Ky., Circular Letter Oct. 18th, File B-406.

Resolved, That the subject be tabled.

Proportional Rate on Refined Cotton Seed Oil, Ivorydale, Ohio, to East St. Louis.

As instructed at meeting Sept. 25th, Circular Letter Sept. 27th, File B-328, was issued.

After further consideration, it was

Resolved, That the subject be tabled.

Rate on Iron Bath Tubs, C. L., Minimum 20,000 Lbs.

At request of member it was

Resolved, That the Tariff be amended making rate of 15 cts. per 100 lbs. on Iron Bath Tubs, C. L., minimum 20,000 lbs., apply from Cincinnati, Louisville, etc., to East St. Louis, effective on Legal Notice.

Glass Bottles and Fruit Jars, C. L., Minimum 26,000 Lbs.

Resolved, That Tariff be amended making rate of 12 cts. per 100 lbs. on Glass Bottles and Fruit Jars, C. L., minimum 26,000 lbs., apply from Cincinnati-Louisville, etc., to East St. Louis, effective on legal notice.

Regular Meetings of the Committee.

This subject was acted upon at meeting Sept. 25th, but in consequence of the next meeting of C. F. A. being in December, it was

Resolved, That the next regular meeting of this Committee will convene on the third Wednesday of November (20th), 1901, at Cincinnati, O., and bimonthly thereafter on the fourth Wednesday of the month, said meetings to be held alternately in St. Louis, Louisville and Cincinnati.

Adjourned.

R. M. Fraser, Chairman.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 70," as follows:

PROCEEDINGS NO. IX.

Louisville & Evansville Mail Co.—C. V. Williams.
R. M. Fraser, Chairman.

Meeting convened 10:00 a. m.

Rate on Mantels, (Wood) L. C. L.

Request that Amendment No. 5, to Tariff I. C. C. No. B-25, be changed to read L. C. L., instead of any quantity, and it was

Resolved, That Joint Freight Tariff I. C. C. No. B-25 be amended, effective on legal notice, making rate on Mantels, Wood (crated or boxed), L. C. L., 40 cts. per 100 lbs. between East St. Louis, Cincinnati, Louisville, etc.

Proportional Rate on Phosphate Rock, Crude.

Request that rate be made east same as westbound, and it was

Resolved, That Joint Proportional Tariff I. C. C. No. B-24 be amended, effective on legal notice, making rate on Phosphate Rock, Crude, C. L., minimum 18 gross tons, $1.40 per ton, between East St. Louis, Cincinnati, Louisville, etc., same as now in effect westbound.

Local Rate on Phosphate Rock, Lump or Ground.

Request that rate be made east same as westbound, and it was

Resolved, That Joint Freight Tariff I. C. C. No. B-25 be amended, effective on legal notice, making rate on

Phosphate Rock (Lump or Ground), in bulk, C. L., minimum 15 gross tons, $2.00 per ton, between East St. Louis, Cincinnati, Louisville, etc., same as in effect westbound.

Rate on Tobacco Stems.

Request that rate and minimum carload weight be changed, and it was

Resolved, That Joint Freight Tariff I. C. C. No. B-25 be amended, effective on legal notice, making Tobacco Stems, C. L., minimum weight 24,000 lbs., 10 cts. per 100 lbs., East St. Louis to Louisville.

Rate on Brass Ashes.

Request that rate be published in line with Central Freight Association Information No. 3004 and 3070, and it was:

Resolved, That Joint Freight Tariff I. C. C. No. B-25 be amended, effective on Legal Notice. making rate on Brass Ashes, C. L., minimum 15 gross tons, same rate as on Iron and Steel Billets, C. L.

Commodity Rate on Cider and Vinegar Kegs, Empty, C. L., East St. Louis to Louisville.

This subject was brought up by letter from member requesting consideration at this meeting, and it was

Resolved, That Joint Freight Tariff I. C. C. No. B-25 be amended, effective on Legal Notice, making rates, East St. Louis to Louisville on Cider or Vinegar Kegs, 4th class, C. L., minimum weight 10,000 lbs. in cars not exceeding 36 feet in length. (Subject to rule 27—Rule 5-c not to apply.)

Note—This makes rating on Kegs same as Official Class'n. on Barrels, Half Barrels, etc., N. O. S.

Rate on Lumber, Staves and Heading.

Request from a member that rate be made same east as westbound and after the subject was carefully considered it was

Resolved, That the request be declined.

Application for Reduced Rate on Glass Sand, East St. Louis to New Albany, Ind.

This subject was last considered at meeting Oct. 23rd and laid over pending action by the Central Freight Assn. naming rates from and to Sundry Points.

Meeting was called by Central Freight Ass'n. Advice Letter G-506½ for November 21st, postponed by Advice Letter G-523½ to regular meeting in December and called again by Advice Letter G-590½ for January 10th. At meeting Jan. 10th, it was

Recommended, That the Chairman obtain from roads into Chicago, Peoria, East St. Louis and Kankakee, memorandum of rates from pits to those points, and arrange for another meeting.

Resolved, That check of Glass Sand Rates be made from all producing points west of the Indiana-Illinois State Line, and that the basis be made with the idea of obtaining remunerative rates that any change in rates that may be deemed advisable be not effective until after July 1st, 1902.

After further consideration at meeting today, of request for reduction in rate to New Albany, Ind., it was

Resolved, That application be declined pending check of rates provided for by Central Freight Ass'n.

Divisions of Rates From Louisville to Indian and Oklahoma Territory, via East St. Louis.

Letter from a member to the effect that Western Connections demand 80 per cent of the revenue, and after due consideration, it was

Resolved, That the subject be tabled.

Rates on Whiskey in Wood, Any Quantity.

This subject was brought up by resolution adopted by the Louisville Freight Committee, January 10th, as follows:

Resolved, That Chairman Fraser be requested to docket this matter for consideration at the next meeting of the St. Louis-Cincinnati-Louisville Freight Committee.

After a general discussion on the subject, it was

Resolved, That the Official Class'n basis be adopted on carloads and less carloads of whiskey and other Liquors, in wood, conditioned on same basis being adopted by the Chicago and Ohio River Committee.

Note—The Chairman to transmit above by letter to Secretary C. & O. R. Committee and copy to Chairman Louisville and Cincinnati Committee.

Discrepancies Between Tariffs from Evansville and East St. Louis, Cincinnati, Louisville, Etc.

This subject was laid over from October meeting and it was

Resolved, That the subject be tabled.

Rate Adjustment on Agricultural Implements, C. L., Louisville to Oklahoma and Indian Territory, vs. Moline and Rock Island.

Laid over from October 23rd meeting, see Circular Letter Nov. 12th, file 397.

After further discussion today, it was

Resolved, That the subject be referred to a Sub-Committee of 5 members to confer with the Freight Traffic Officials of the Western Roads, with the view of arriving at an amicable adjustment of rates and divisions on the traffic to the Oklahoma and Indian Territory, and report result by Circular Letter or at next regular meeting.

The sub-committee is G. F. A., L. H. & St. L. Ry., Chairman and Freight Traffic Official of the B. & O. S. W.-C., C., C. & St. L. Southern and T. H.

Election of Executive Committee.

The term of office for which the Executive Committee were elected for 1901, having expired it was

Resolved, That Messrs. R. A. Campbell, N. W. Taylor and Walter Nichols be and are hereby elected an Executive Committe for the year 1902 and to hold office as provided for in the Articles or Organization.

Through Rates and Divisions on Traffic from Cincinnati, Louisville, Etc., to Arkansas Points Via E. St. Louis—Ill. Cent. and C. & O. G. Railroads.

Joint Letter Dec. 3rd, file F-9399 from A. G. F. A., Ill. Cent. R. R. (on file B-383), proposing route via E. St. Louis and Memphis to competitive points on C. O. & G. Ry., and it was

Resolved, That the St. Louis-Cincinati-Louisville Committee has considered the proposition for division on traffic from Cincinnati and Louisville and points taking the same basis of rates, subject to the jurisdiction of this Committee, to Forest City, Brinkley, Newport, Lonoke, Little Rock and Mansfield, Ark., for routing via East St. Louis-Ill. Cent., Memphis and C. O. & G., and suggest that the Chairman notify the Illinois Central and the C. O. & G. that as the divisions now established via East St. Louis to Arkansas Territory, in connection with the Iron Mountain and Cotton Belt, cover local and competitive points reached via these lines, that the proposition for the route via Ill. Cent., Memphis and C. O. & G. should also provide for same basis of divisions to Local Territory of the C. O. & G., as well as the competitive points mentioned in their letter and request that they adjust their proposition accordingly.

Rating and Minimum Carload Weights on Vehicles.

Central Freight Ass'n. Information No. 3141 was presented, of action of this Committee, and it was

Resolved, That the St. Louis-Cincinati-Louisville Freight Committee adopt the Rating and Minimum Carload weights on vehicles as per Central Freight Ass'n. Information No. 314_, effective Jan. 27th, expiring July 1st, 1902.

Adjourned.

M. S. Connelly, Chairman, Pro. Tem.

Meeting convened at 10:00 a. m.

Rate on Tobacco Stems.

Referring to Proceedings of Meeting Jan. 22nd, and Circular Letters Jan. 27th and Feb. 3rd and 5th.

After discussion of the subject at meeting today, it was

Resolved, That Amendment to I. C. C. No. B-27 be issued, making rate on Tobacco Stems, C. L., minimum weight 24,000 lbs., from East St. Louis to Louisville, Ky., 10 cts. per 100 lbs.

Rate on Whiskey in Wood, Any Quantity.

This subject was considered at meeting Jan. 22nd. See Circular Letters Jan. 27th and Feb. 3rd.

After consideration at meeting today, following resolution was adopted:

Resolved, That the subject be laid on the table.

Rate on Lumber, Staves and Heading.

Request was made by a member that same rate be made west as eastbound and after considerable discussion on the subject, it was

Resolved, That the subject be laid over until next meeting.

Rate on Railway Ties.

Letter from a member requesting that rate be made 10 cts. per tie from Louisville and Cincinnati to East St. Louis, in line with rates Cincinnati and Louisville to Chicago.

Af ter discussion on the subject, it was

Resolved, That amendment be issued to I. C. C. No. B-27, naming rate of 10 cts. per tie from Louisville and Cincinnati to East St. Louis on Ties, hewed, Railroad, not exceeding 7 in. by 8 in.—8½ ft. long, C. L. minimum 200 ties.

Application for Reduced Rate on Glass Sand, East St. Louis to New Albany.

This subject was considered at meeting Jan 22nd (see proceedings), and was brought up again today by letter from a member.

After consideration of same, it was

Resolved, That the subject be laid over until next meeting, in the meantime the Chairman to take the subject up with Chairman of the C. F. A. with a view to having an early consideration of the subject.

Rate on Flint and Feldspar.

This subject was brought up by a letter from a member and after discussion, it was

Resolved, That I. C. C. No. B-27 be amended to read Flint and Feldspar, ground and in the rock, C. L., 10 cts. per 100 lbs., between East St. Louis, Cincinnati and Louisville.

Rate on Wood Mantels, Cincinnati and Louisville to East St. Louis.

This subject was brought up by letter from a member, requesting that rate be made in line with rates in effect from Chicago to East St. Louis, and after discussion, it was

Resolved, That I. C. C. No. B-27 be amended making rate on Wood Mantels, C. L., minimum weight 16,000 lbs. from Cincinnati, Louisville, etc., to East St. Louis 25 cts per 100 lbs.

Rate on Empty Barrels, Half Barrels, Casks and Tierces.

This subject was brought up by the issuance of Central Freight Ass'n. Information Circular No. 3150 and after discussion it was

Resolved, That I. C. C. No. B-27 be amended in line with Central Freight Ass'n. Information No. 3150.

Rate on Farm Wagons, Evansville to Louisville, When for Points Beyond.

Letter from a member requesting rate on Farm Wagons, L. C. L., from Evansville, Ind., to Louisville, Ky., was considered and the following resolution adopted:

Whereas, The present published rate on Farm Wagons, L. C. L., knocked down, from Owensboro, Ky., to Louisville, Ky., when for points beyond, is 15 cts. per 100 lbs., therefore, be it

Resolved, That the rate on Farm Wagons, L. C. L., knocked down, from Evansville, Ind., to Louisville, Ky.,

when for points beyond be made 15 cts. per 100 lbs. and Tariff be amended accordingly.

R. M. Fraser, Chairman.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 72;" as follows:

M. S. Connelly, Chairman Pro Tem.

Meeting convened 10:00 a. m.

Pursuant to call dated Feb. 10th, file B-419, interested lines convened in this office on Feb. 18th, Mr. M. S. Connelly being elected Chairman Pro. Tem., owing to Chairman Fraser's absence on account of illness, and the following resolution was unanimously adopted:

Resolved, That a permanent committee of five, with the Chairman of the St. Louis, Cincinnati, Louisville Freight Committee as member ex-officio, be appointed, to consider all questions of violation of tariff rates and the measures to be adopted in correcting difficulties as to the removal of disturbing rate conditions.

This committee shall fairly and equitably represent the St. Louis, Cincinnati, Louisville Freight Committee as a whole, and shall meet upon call of the Chairman in the office of the St. Louis, Cincinnati, Louisville Freight Committee to consider complaints.

That the findings and resolutions of this Committee shall be promptly communicated by the Chairman of the St. Louis-Cincinnati-Louisville Freight Committee to all parties interested.

Further:

First—That, effective at once, tariff rates published by the St. Louis-Cincinnati,Louisville Freight Committee shall be maintained, and each road individually pledges that it will not make effective any rates except by open tariff to be published by the St. Louis-Cincinnati-Louisville Freight Committee, and any individual rates in conflict with tariff rates published by the St. Louis-Cincinnati-Louisville Freight Committee, shall be withdrawn, it being understood that any unauthorized individual rates which may now be in effect and cannot be withdrawn, shall be presented to the Committee of five for its consideration and action at its first meeting.

Second—In the event of deviations from tariffs published by the St. Louis-Cincinnati-Louisville Freight Committee, same shall be reported at once to the respective local committees at St. Louis (it being understood that the St. Louis Committee is represented by R. M. Fraser, Chairman), Cincinnati, Louisville or Evansville, and if substantiated, shall be submitted to the Committee of five for consideration.

Third—That each road member of the St. Louis-Cincinnati-Louisville Freight Committee will, if it has not already done so, individually send to its different agents notice of the foregoing in the following form:

"At a special meeting of the Chief Traffic Officials of roads, members of the St. Louis-Cincinnati-Louisville Freight Committee, held February 18th, 1902, it was in-

dividually stated that all tariff rates as published by the St. Louis-Cincinnati-Louisville Freight Committee would be maintained.

"If you find any contracts at variance with tariff that cannot be withdrawn on legal notice, you will report same frankly to the Chairman of your respective local Committee, the object being to publish tariffs at any net rate quoted secretly.

"Your instructions are imperative as to the maintenance of published tariff rates.

"This will notify each and every connection that we will not, under any circumstances participate, by voucher or otherwise, in any unauthorized reductions from tariff rates and classification.

"Should you be satisfied at any time that your competitors are making less rates than those duly authorized by the St. Louis-Cincinnati-Louisville Freight Committee, you will report same at once to the Chairman of your local committee for consideration.

"The object of this is to prevent demoralization of rates.

Resolved, That the Chairman submit a copy of these proceedings to the Chairman of the Committees at St.

Fourth—That each road will, if it has not already done so, individually send to its connections notice which shall be dated and sent Wednesday, February 19th, 1902, as follows:

"This is to advise, that effective at once, this Company will not be a party to any deviation from duly authorized rates, evasions or classification or manipulation of rates in any manner whatsoever."

It is understood and decided that the members of the Committee of five cannot delegate their authority to anyone except an individual already on the Committee.

In accordance with the above the Chairman, Pro Tem., appointed as Special Committee, Messrs. Irwin, Hart, Taylor, Nichols and Mr. Campbell as Chairman.

It was also further

Louis, Cincinnati, Louisville and Evansville with the request that they convene their committees with the view to developing any contracts or unauthorized rates in effect, which should be reported to the Special Committee referred to, and be it further

Resolved, That the Special Committee meet on Thursday, Feb. 27th, to consider any matters that may come before it from the Committees at St. Louis, Cincinnati, Louisville or Evansville.

R. M. Fraser, Chairman.
M. S. Connelly, Chairman Pro. Tem.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 73;" as follows:

SPECIAL NO. 1.

Minutes of Special Committee Meeting of the

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Held in St. Louis, Mo., Feb. 27th, 1902.

Representation:
B. & O. S. W. R. R.—E. Hart, Jr.
C., C., C. & St. L. Ry.—Walter Nichols.
L. H. & St. L. Ry.—L. J. Irwin.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—N. W. Taylor.
R. A. Campbell, Chairman Special Committee.

The permanent Committee of five appointed at meeting 18th inst. (see proceedings), met at this office today and after due consideration disposed of the subjects presented, as follows:

Rates on Cast Iron Pipe.

It is the understanding that effective March 10th, the rate of $1.30 per ton on Cast Iron Pipe, Louisville to E. St. Louis will be withdrawn.

Articles of Iron and Steel Manufacture.

Resolved, That it is the sense of this Committee that the rate of 8 cts. per 100 lbs, on articles of Iron and Steel Manufacture between Louisville and E. St. Louis is too low and not warranted by the conditions which exist—shipments from Louisville to E. St. Louis coming in competition principally with iron manufactured in the Pittsburg and Valley Territory and the rate therefore should be withdrawn and restored to the Official Class'n. basis. (Adopted.)

A road, member of the St. Louis-Cincinnati-Louisville Freight Committee, having given notice to the effect, that it would not consent to withdrawing the rate of 8 cts. from Louisville to E. St. Louis, claiming competition of Southern Mills requires a continuance of the rate and it being deemed inexpedient to publish that rate in the Committee Tariffs, the matter is left to individual action.

There being no further business presented for consideration, the Committee adjourned.

Call for meeting will be issued on receipt of written request, giving particulars on the subjects needing consideration.

R. M. Fraser, Chairman.

File B-419.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 74;" as follows:

PROCEEDINGS NO. XII.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—N. W. Taylor, by G. W. Davis.
There was also present:
C. E. Fulton, Sec'y C. & O. R. Committee.
R. M. Fraser, Chairman.

Meeting convened at 10:00 a. m.

Rate on Lumber, Staves and Heading.

Request was made by a member that same rate be made west as eastbound and after considerable discussion on the subject, it was

Resolved, That the subject be tabled.

Rate on Chatts Ballast, E. St. Louis to Jeffersonville, Etc.

Request from a member for rate on Chatts Ballast, East St. Louis to Jeffersonville, etc., and it was

Resolved, That ICC. B-27 be amended naming rate on Chatts Ballast, from East St. Louis to Jeffersonville, New Albany and Louisville, $1.50 per net ton, minimum 20 tons per car. (See Circular Letter, March 17th, file B-423.)

Rate on Glass Bottles and Fruit Jars, E. St. Louis to Cincinnati, Louisville, Etc.

This subject was brought up by letter from a member, and it was

Resolved, That ICC. B-27 be amended naming rate on Fruit Jars and Glass Bottles, C. L., minimum weight 26,000 lbs., from East St. Louis to Cincinnati and Louisville, 12 cts. per 100 lbs.

Rate on Whiskey, in Wood.

This subject was last considered at meeting Feb. 8th and laid on the table.

It was brought up again by letter from C. & O. R. Committee (as per Circular Letter March 13th, file B-314).

After consideration at meeting today, it was

Resolved, That a letter be written to Chairman, Central Freight Ass'n., as follows:

"For several weeks various Committees at St. Louis, Chicago, Cincinnati and Louisville have considered the question of rates on Whiskey, in wood, between points, the rates between which are governed by the Official Class'n. and the unanimous opinion of all interested is, that the present rate results in the consolidating of small lots of whiskey into carloads; that between several prominent points it has been necessary to establish the carload rates on less than carload shipments, all of which materially reduced the revenue of the various transportation lines. In an effort to better these conditions, it was recommended that the rating of Whiskey, in wood, any quantity, be made 3d class. It then developed that rate on whiskey, in wood, carloads, from points in Central Freight Ass'n. Territory to Eastern Cities, on basis of 30 cts. per 100 lbs. Chicago to New York had been authorized to continue in force until Dec. 31st, 1902, and on this account it is not practical to advance the carload rating to Eastern Cities.

Therefore, be it

Resolved, That we recommend to the Central Freight Ass'n. that it refer the matter to the Official Class'n. Committee, calling attention to the existing conditions and request that the rating of Whiskey, in wood, any quantity, in Official Class'n. taking effect Jan. 1st, 1903, be made 3rd class."

Through Rates and Divisions on Traffic from Cincinnati, Louisville, Etc., to Arkansas Points via E. St. Louis I. C. and C. & O. G. Railroads.

This subject was considered at meeting Jan. 22nd, 1902 (See Proceedings).

Not receiving any reply from A. G. F. A. Becker it was considered at meeting today, and it was:

Resolved, That the subject be tabled.

Rates on Broom Corn, E. St. Louis to Frankfort, Ky.

This subject was brought up by letter from a member, and it was

Resolved, That the subject be tabled.

Rate on Ixtle, Mexican Points to Cincinnati, Louisville, Etc., via East St. Louis.

This subject was brought up by a letter from a member, requesting Commodity Rate on Ixtle, and it was

Resolved, That the Missouri Pacific be advised, in answer to their letter of March 5th, X-9m that in accordance with the basis provided in Southwest Freight Committee Division Sheet No. 14, the lines East of East St. Louis should receive their full local rates based on the Official Class'n.

Rates on Plaster, Etc.

This subject was brought up by the issuance of C. F. A. Information No.'s 3203-3204 and 3211, and it was

Resolved, That Tariff ICC. B-27 be corrected on Plaster, etc., in line with C. F. A. Information No.'s 3203-4 and 11, and that the rates on line be advanced from $1.95 to $2.00 per ton.

Rates on Lumber, Bolts and Other Material Used in Blocking Rails, Structural Iron, Etc., Vehicle Parts and Vehicles.

This subject was brought up by the isuuance of CFA Information No. 3214 and after a discussion, it was

Resolved, That ICC. B-27 be amended naming rate on Lumber, Bolts and other material, used in blocking rails, Structural Iron, etc., Vehicle Parts and Vehicles, in line with CFA Information No. 3214.

Minimum Carload Weight on Grain Products.

This subject was brought up by the issuance of CFA. Information Nos. 3215 and 2237 and after a discussion it was

Resolved, That the minimum carload weight on Grain Products, as named in ICC. B-27 be amended in line with CFA Information Nos. 3215 and 3237.

Rate on Asphalt.

This subject was brought up by the issuance of CFA Information No. 3226, and it was

Resolved, That amendment be issued to I. C. C. C. B-27, naming rate on asphalt, C. L., minimum weight as per Official Class'n. from East St. Louis to Cincinnati, Louisville, etc., 11 cents per 100 lbs. in line with CFA Information No. 3226.

Rate on Black Residue.

This subject was brought up by the issuance of CFA Information No. 3229, and it was

Resolved, That ICC. B-27 be amended naming rate on Black Residue, C. L., minimum weight as per Official Class'n. from Cincinnati, Ohio, to East St. Louis, 10 cents per 100 lbs. in line with CFA. Information No. 3229.

Request that Territory Under the Jurisdiction of This Committee be Clearly Defined.

The above subject was referred to a Sub-Committee to recommend changes in the Articles of Organization (See Proceedings No. IX, Jan. 22, 1902) and the following report was adopted at meeting today.

Report of Sub-Committee, appointed to define Territory under the jurisdiction of St. Louis-Cincinnati-Louisville Frt. Committee.

Section A: All traffic handled between Cincinnati and Cincinnati Points and East St. Louis and East St. Louis Points, proper, and Louisville and Louisville Points and East St. Louis and East St. Louis Points, proper.

Section B: All traffic between Cincinnati and Cincinnati Points, Louisville and Louisville Points and East St. Louis, East Carondelet, National Stock Yards, Madison, Venice and Granite City, Ill., whether destined to these points proper or points beyond, on which the roads, members of this Committee get their full, published, individual tariff rates; further, on through traffic via Alton and Wann, Ill., but not on traffic to and from these points proper.

Section C: Pacific Coast traffic handled through East St. Louis, the through rates and divisions of which are a matter of agreement between the Central Freight Ass'n and Trans-Continental Committee.

Section D: Traffic between Cincinnati and Cincinnati Points, Louisville and Louisville Points and Points in Arkansas, Texas, Oklahoma, Indian Territory, Arizona, New Mexico and Republic of Mexico, when passing through East St. Louis and Alton.

The question of including points in Louisiana in this clause will be decided upon at later meeting.

Section E: It is understood that the following points will be included on the same basis as Cincinnati, viz: Addyston, Sedamsville, North Bend, Delhi, Brighton Station, Fairmount, Stock Yards, Cumminsville, Winton Place, Winton Junction and Ivorydale and any other stations within the switching limits at Cincinnati.

It is understood that New Albany and Jeffersonville will be included as Louisville Points.

Section F: Coal and Coke between the above points shall be excluded from the accounts and statistics of the Committee.

Addenda: With reference to traffic between interior points in Kentucky, Tennessee or the Southeast and East St. Louis or East St. Louis Points, or traffic beyond through these points, where through rates are not based on combination of locals through Louisville or Cincinnati, but are established by Southern Lines having their own rails to the Mississippi River, who are not subject to the jurisdiction of this Committee, it is decided that the St. Louis-Cincinnati-Louisville Committee shall have no jurisdiction, but that lines operating through Cincinnati or Louisville may be privileged to handle this traffic on such divisions as may be agreed upon between the lines in interest.

Note.—The Sub-Committee to be continued until they report on the Louisiana proposition referred to in connection with Section "D."

Rates on Articles of Iron and Steel Manufacture, Cincinnati and Louisville to East St. Louis.

This subject was brought up by letter from Chairman, CFA, dated March 1st and after considerable discussion, it was

Resolved, That the Louisville representatives of this Committee be appointed as a Special Committee to confer with GFA Goodwyn and GFA Irwin, in regard to restoring rates on Iron Articles from Cincinnati and Newport and from New Albany, Louisville and Jeffersonville to East St. Louis, with the assurance that full published tariff rates will carry with all other lines, if the L. & N. and L. H. & St. L. will take such action; the Committee to report to Chairman Fraser at earliest date and he to report to members of the St. Louis-Cincinnati-Louisville Freight Committee.

The Chairman appointed as the Special Committee, A. G. F. A. Ryan, D. F. A. Connelly and A. G. F. A. Frost, Chairman.

Minimum C. L. Weight on Dressed Meats and Packing House Products.

This subject was brought up by the issuance of C. F. A. Information No. 3254, and it was:

Resolved, That I. C. C. B-27 be amended changing the minimum weights on Packing House Products and Dressed meats as provided for in Rules 10-A, 10-B-1, 10-B-2, 10-C, 10-D, and 10-E of Official Classification No. 22 and Supplements in line with C. F. A. Information No. 3254.

Application for Reduced Rate on Glass Sand East St. Louis to New York.

This subject was considered at meetings January 22nd and February 18th, 1902 (See Proceedings) and was laid over.

After consideration of same it was

Resolved, That the subject be laid over until next meeting in view of the meeting called by Chairman, C. F. A. for meeting March 25th, to check rates from Chicago, Kankakee, East St. Louis and Peoria.

Rates Cincinnati, Louisville, Etc., to Springfield, Mo. Etc.

This subject was considered at meeting January 22nd. (See Proceedings) and it was

Resolved, That the Sub-Committee continue and be granted more time to report.

Rate Adjustment on Agricultural Implements, C. L., Louisville to Oklahoma and Indian Territory, vs. Moline and Rock Island.

This subject was considered at meeting January 22nd (See Proceedings), and it was

Resolved, That the Sub-Committee continue and be granted more time to report.

Rates on Pails or Buckets, Louisville to East St. Louis.

This subject was brought up by a letter from a member and it was

Resolved, That the subject be laid over pending report from the Louisville Committee.

Rate on Wagons, Buggies, Etc, Evansville to Louisville.

Request from a member that the same rates apply from Evansville to Louisville, when for points beyond, as named in L. H. & St. L. Ry. Supplement No. 6 to Tariff No. 346, from Owensboro to Louisville, for beyond, and it was

Resolved, That I. C. C. No. 1 be amended naming same rates on buggies, wagons, etc., from Evansville to Louisville, when for points beyond, as follows:

Buggies.	Rate.
Buggies, C. L.	15
Buggies, K. D., not over 30 ft. in height and over 94 in. in length, L. C. L.	20
Buggies, K. D., over 30 in. in height, but not over 50 in., and not over 94 in. in length, C. L.	30
Buggies, K. D., not over 30 in. in height, but over 94 in. in length, L. C. L.	30
Buggies, K. D., over 30 in. but not over 50 in. in height and exceeding 94 in. in length, L. C. L.	35
Wagons, C. L.	10
Wagons, K. D., flat, L. C. L.	15

Apply only as proportional rates on shipments destined to points in Kentucky north and east of Louisville, on the following railroads:

Ashland Coal & Iron R. R.
Chesapeake & Ohio Ry.
Cincinnati, New Orleans & Texas Pacific Ry.
Eastern Kentucky R. R.
Frankfort & Cincinnati Ry.
Jellico, Bird Eye & Northern R. R.
Kentucky Northern Ry.
Lexington & Eastern Ry.
Louisville & Atlantic R. R.
Louisville & Nashville R. R.
Red River & Beattyville Sou. R. R.
Southern Ry.

Rate on Sash, Doors and Blinds, Louisville to Evansville.

This subject was brought up by a letter from a member, and it was

Resolved, That the rate on Sash, Doors and Blinds, L. C. L. and C. L., Louisville to Evansville, be made the same as agreed to from East St. Louis to Evansville, tariff to be corrected accordingly.

R. M. Fraser, Chairman.

Adjourned.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 75;" as follows:

PROCEEDINGS NO. XIII.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held in the Office of the Chairman.

St. Louis, Mo., April 17, 1902.

Representation:

B. & O. S. W. R. R.—E. Hart, Jr.
C. H. & D. Ry.—E. J. Hutchinson.
C., C., C. & St. L. Ry.—Walter Nichols
I. C. R. R.—Geo. W. Becker.
I. D. & W. R. R.—Jno. S. Lazarus, by E. J. Hutchinson.
L. H. & St. L. Ry.—L. J. Irwin.
L. & E. M. Co.— ——.
P., C., C. & St. L. Ry.—Geo. W. Davis, M. S. Connelly.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—W. H. Coleman.

R. M. Fraser, Chairman.

Meeting convened in accordance with call dated April 11th, file B-304, for the purpose of considering and act-

ing upon proposed changes in Articles of Organization, dated Dec. 28th, 1898.

The proposed Articles of Organization were read and adopted by Sections and as a whole, to become effective May 1st, 1902.

The Chairman was instructed to have the revised Articles of Organization printed, effective May 1st, 1902, and send two copies to each member present, one copy to be signed by the proper officer of his Company and returned to the Chairman.

The following was also adopted. (See Circular Letter No. B-VII, April 18th, 1902, file B-431.)

Roads, members of this Committee, individually advise, that this committee has no jurisdiction over traffic between interior points in Kentucky, Tennessee or the Southeast and East St. Louis or East St. Louis Points or traffic beyond through these points, where through rates are not based on combination of locals through Louisville or Cincinnati, but are established by Southern Lines having their own rails to the Mississippi River.

Special Committee.

This subject was brought up by a member and it was

Recommended, That the Special Committee of Five be discharged and that all matters to be considered under the rules governing the Special Committee of five, as shown in Proceedings Feb. 18th, 1902, be handled by the Committee, as a whole.

Adopted individually by roads interested.

Rate on Fruit and Vegetables.

This subject was brought up by the issuance of CFA. Information No. 3303 and it was

Recommended, That Joint Proportional Tariff ICC. B-26 be amended correcting rates on Fruits and Vegetables in line with CFA. Information No. 3303.

Adopted individually by roads interested.

Rate on Barrels, Half Barrels, Etc.

This subject was brought up by the issuance of CFA. Information No. 3308, and it was,

Recommended, That ICC. B-28 be amended correcting minimum weight on barrels, half barrels, casks and tierces, in line with CFA. Information No. 3308.

Adopted individually by roads interested.

Rates on Baskets.

This subject was brought up by the issuance of CFA. Information No. 3309, and it was

Recommended that ICC. B-28 be amended naming rates on Baskets, in line with CFA. Information No. 3309, between East St. Louis, Cincinnati and Louisville, carloads 15 cts. per 100 lbs.

Adopted individually by roads interested.

Rate on Cement Plaster, Marlow, I. T., to Cincinnati, Louisville, Etc.

This subject was brought up by a letter from GFA., M., K. & T. Ry. and after considerable discussion, the following was adopted:

Roads interested individually advise that they will join the M., K. & T. and its connections in a through rate of 24 cts. per 100 lbs. on Cement Plaster, C. L., minimum weight, capacity of car, from Marlow, I. T., to Louisville and Louisville Points, Cincinnati and Cincinati Points (under the jurisdiction of this Committee), and will accept as their proportion east of East St. Louis 6 cents per 100 lbs. to the points referred to.

The Chairman to request GFA., M., K. & T. Ry., in addition to issuing through tariff, to issue a separate division sheet covering it, as it is not deemed advisable to publish the proportional rate of 6 cts. from East St. Louis.

The Chairman to advise if above proposition is accepted by the M., K. & T. Ry. and date effective.

Rate on Sulphuric Acid, in Tank Cars, Iola, Kans., to Louisville.

This subject was brought up in connection with a Joint Letter from Missouri Pacific.

After considerable discussion the following was adopted.

Roads interested individually advise, that the proposition is not satisfactory, but that they are willing to accept from East St. Louis to Louisville, on Sulphuric Acid in Tank Cars, coming from Iola, Kans., 10½ cts. per 100 lbs.

Note:—The Chairman was instructed to instruct applicant to advise him if they are willing to accept this proposition, if so, date effective; Chairman to advise all members by Circular Letter of reply received.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 76;" as follows:

Meeting convened in accordance with call dated April 11th, file B-304 for the purpose of considering and acting upon proposed changes in Articles of Organization, dated Dec. 28th, 1898.

The proposed Articles of Organization were read and adopted by Sections and as a whole, to become effective May 1st, 1902.

The Chairman was instructed to have the revised Articles of Organization printed, effective May 1st, 1902, and send two copies to each member present, one copy to be signed by the proper Officer of his Company and returned to the Chairman.

The following was also adopted. (See Circular Letter No. B-VII, April 18th, 1902, file B-4311.

Roads, members of this Committee, individually advise, that this Committee has no jurisdiction over traffic between interior points in Kentucky, Tennessee or the Southeast and East St. Louis or East St. Louis Points or traffic beyond through these points, where through rates are not based on combination of locals through Louisville or Cincinnati, but are established by Southern Lines having their own rails to the Mississippi River.

Special Committee.

This subject was brought up by a member and it was:

Recommended, That the Special Committee of five be discharged and that all matters to be considered under the rules governing the Special Committee of five, as shown in Proceedings Feb. 18th, 1902, be handled by the Committee, as a whole.

Adopted individually by roads interested.

Rate on Fruit and Vegetables.

This subject was brought up by the issuance of C. F. A. Information No. 3303 and it was:

Recommended, That Joint Proportional Tariff I. C. C.-B-26 be amended correcting rates on Fruits and Vegetables in line with C. F. A. Information No. 3303.
Adopted individually by roads interested.

Rate on Barrels, Half Barrels, Etc.

This subject was brought up by the issuance of C. F. A. Information No. 3308, and it was

Recommended, That I. C. C. B-28 be amended correcting minimum weight on barrels, half barrels, casks and tierces, in line with C. F. A. Information No. 3308.
Adopted individually by roads interested.

Rates on Baskets.

This subject was brought up by the issuance of C. F. A. Information No. 3309, and it was:

Recommended, That I. C. C. B-28 be amended naming rates on Baskets, in line with C. F. A. Information No. 3309, between East St. Louis, Cincinnati and Louisville, carloads 15 cts. per 100 lbs.
Adopted individually by roads interested.

Rate on Cement Plaster, Marlow, I. T., to Cincinnati, Louisville, Etc.

This subject was brought up by a letter from G. F. A., M. K. & T. Ry. and after considerable discussion, the following was adopted:

Roads interested, individually advise, that they will join the M. K. & T. Ry. and its connections in a through rate of 24 cts. per 100 lbs. on Cement Plaster, C. L., minimum weight, capacity of car, from Marlow, I. T., to Louisville and Louisville points, Cincinnati and Cincinnati Points, (under the jurisdiction of this Committee) and will accept as their proportion east of East St. Louis 6 cts. per 100 lbs. to the points referred to.

The Chairman to request G. F. A., M. K. & T. Ry. in addition to issuing through tariff, to issue a separate division sheet covering it, as it is not deemed advisable to publish the proportional rate of 6 cts. from East St. Louis.

The Chairman to advise if above proposition is accepted by the M. K. & T. Ry. and date effective.

Rate on Sulphuric Acid, in Tank Cars, Iola, Kas., to Louisville.

This subject was brought up in connection with a Joint Letter from Missouri Pacific.

After considerable discussion the following was adopted:

Roads interested individually advise, that the proposition is not satisfactory, but that they are willing to accept from East St. Louis to Louisville, on Sulphuric Acid in Tank Cars, coming from Iola, Kas., 10½ cts. per 100 lbs.

Note:—The Chairman was instructed to request applicant to advise him if they are willing to accept this proposition, if so, date effective; Chairman to advise all members by Circular Letter of reply received.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 77;" as follows:

PROCEEDINGS NO. XIV.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held in the Office of the Chairman.

St. Louis, Mo., May 28, 1902.

Representation:

B. & O. S. W. Ry.—A. Fries, J. W. Lindsay.

C. H. & D. Ry.—E. J. Hutchinson.
C. C. C. & St. L. Ry.—Walter Nichols.
Ill. Cent. R. R.—Geo. W. Becker, G. S. Naudain.
I. D. & W. Ry.—Jno. S. Lazarus, by E. J. Hutchinson.
L. H. & St. L. Ry.—L. J. Irwin, W. C. Lindsay.
L. & E. M. Co.—C. V. Williams.
P. C. C. & St. L. Ry.—M. S. Connelly, Geo. W. Davis.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—N. W. Taylor.

R. M. Fraser, Chairman.

Meeting convened 10:00 a. m.

Rates Cincinnati, Louisville, Etc., to Springfield, Mo., Etc.

This subject was considered at meeting Jan. 22nd-March 26th, (see proceedings). On request of Chairman, Sub-Committee, it was

Recommended, That the Sub-Committee be continued and granted more time to report.

Rate Adjustment on Agricultural Implements, C. L., Louisville to Oklahoma and Indian Territory vs. Moline and Rock Island.

This subject was considered at meeting Jan. 22-March 26th (See Proceedings). On request of Chairman, Sub-Committee, it was

Recommended, That the Sub-Committee be continued and granted more time to make its report.

Request that Territory Under the Jurisdiction of this Committee be Clearly Defined.

This subject was considered at meeting Jan. 22nd and March 26th, (See Proceedings) and it was

Resolved, That it is the understanding that jurisdiction of the St. Louis-Cincinnati-Louisville Freight Committee does not extend to or cover traffic between

Cincinnati, Louisville, etc., via East St. Louis to and from points in Louisiana.

Rate on Crushed Granite, East St. Louis to Cincinnati and Louisville.

This subject was submitted by Circular Letter No. XIII, May 6th and brought up again by a member for further consideration, and it was

Recommended, That rate of $1.50 per net ton on Crushed Granite or Stone, from East St. Louis to Cincinnati, Louisville, etc., be adopted, minimum weight 40,000 lbs.

Rate on Wooden Packing Drums, Etc.

This subject was considered by Circular Letter XVII, May 14th, and brought up by a member for further consideration, and it was

Recommended, That no change be made in the present rate on Wooden Packing Drums between East St. Louis, Cincinnati and Louisville.

Proportional Rate on Turpentine, Louisville to East St. Louis, When from South Atlantic Ports to Colorado and Utah.

This subject was submitted by Circular Letter B-XVI, May 10th, and brought up by a member for further consideration, and it was

Recommended, That the St. Louis-Cincinnati-Louisville Freight Committee had no jurisdiction over traffic from the territory named and subject be tabled.

Shall Division of Rates from Cincinnati, Louisville, etc., via East St. Louis to Natchez, Miss. (See Proceedings Nov. 22, 1899), Apply on Traffic to Vidalia, La.

This subject was brought up by a member, and it was

Resolved, That as the jurisdiction of this Commit-

tee does not cover traffic to Louisiana Points the subject be tabled.

Rate on Pails and Buckets, C. L., Louisville to East St. Louis.

This subject was considered at meeting March 26th (See proceedings), and it was

Recommended, That no change be made in the present rate on Pails and Buckets, C. L. between Louisville and East St. Louis.

Rate on Asphalt Paving Blocks.

This subject was brought up by the issuance of C. F. A. Information No. 3382, and it was

Recommended, That Amendment be issued to I. C. C. B-28, adding Asphalt Paving Blocks to list of articles taking Brick rates, C. L., minimum weight 40,000 pounds.

Rate on Brick, Etc.

This subject was brought up by a member, and it was

Recommended, That the Chairman issue Amendment to I. C. C. B-29, making the rate on Brick (all kinds), apply to Cincinnati as well as to Louisville.

Rates on Flour vs. Grain, East St. Louis to Cincinnati and Louisville.

Chairman read letter from E. S. Tompkins, Commissioner, St. Louis Traffic Bureau, also from a member, and it was

Recommended, That the subject of local rates on Flour, East St. Louis to Louisville, etc., be laid over until next meeting.

Maintenance of Rates on Flour.

On request of one of the members, roll was called for the purpose of ascertaining whether any line is

making rate less than 10 cents per 100 pounds on flour East St. Louis to Cincinnati and Louisville.

Roll was called and all lines stated they were maintaining rate of 10 cents per 100 pounds.

Local Rates on Grain, East St. Louis to Cincinnati and Louisville.

This subject was brought up at meeting by a member, and it was

Recommended, That the local rates on grain, East St. Louis to Cincinnati, Louisville, etc., be made 9 cts. per 100 pounds and I. C. C. B-28 be amended accordingly.

Disposition of Subjects Submitted for Vote by Circular Letter.

Resolved, That when letter vote is taken and the result negatives the proposition and the Committee is so advised, the matter be not docketed for consideration at any Committee meeting, except on request of one or more members.

Next Meeting.

Resolved, That the next meeting of the Committee be held in Louisville, *June 25th,* instead of on July 23rd, the regular date.

Inviting L. and N. R. R. to Become a Member of the Committee.

It was suggested that the L. & N. R. R. might become a member of the Committee, if requested to do so, and it was

Resolved, That the Chairman be instructed to invite the L. & N. R. R. Co. to take a membership in the Committee.

Distribution of Cincinnati, Evansville and Louisville, Evansville Tariffs.

Chairman requested instructions as to the manner of handling or distributing Evansville Tariffs. After

2696

discussion he was instructed to furnish the tariffs to parties making application for same and to prepare a list to whom to send tariffs, in Evansville, Louisville and Cincinnati, from the list already used in mailing St. Louis-Cincinnati-Louisville Freight Committee Tariffs.

Rate on Asphaltum and Tar Paving Cement.

This subject was brought up by a member stating he had information that some of the roads were carrying Asphaltum and Tar Paving Cement, Jeffersonville to East St. Louis at rate of 7 cents per 100 lbs. and suggested that the roll be called to ascertain if any of the Louisville, Jeffersonville lines are applying less rate than 11 cents per 100 pounds on Asphaltum or Tar Paving Cement.

In accordance with the above roll was called and all lines stated that they were demanding 11 cents per 100 pounds on the Commodities in question.

It was suggested that the rate may be applied via some of the lines without the knowledge of the General Freight Agent, and in view of this, it was

Recommended, That the Chairman be instructed to make an investigation and report at next meeting.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 78;" as follows:

PROCEEDINGS NO. XV.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held in the Louisville Hotel. Louisville, Ky., June 25, 1902.

Representation:

Southern Ry.—J. B. Campbell.
T. H. & I. R. R.—N. W. Taylor, by M. S. Connelly.
R. M. Fraser, Chairman.

Meeting convened 10:00 a. m.

Rates, Cincinnati, Louisville, Etc., to Springfield, Mo.

This subject was considered at meeting January 22nd, March 26th and May 28th. (See Proceedings.) On request of the Chairman, Sub-Committee, it was

Recommended, That the Sub-Committee be continued and granted more time to report.

Rate Adjustment on Agricultural Implements, C. L., Louisville to Oklahoma and Indian Territory vs. Moline and Rock Island.

This subject was considered at meetings Jan. 22nd, March 26th and May 28th. (See proceedings). On request of the Chairman, Sub-Committee, it was

Recommended, That the Sub-Committee be continued and granted more time to report.

Rate on Asphaltum and Tar Paving Cement.

As instructed at meeting May 28th, Circular Letter No. B-XXI, May 31st was issued asking members whether the Commodities named had been transported in carloads at less than the Tariff rate.

At meeting today the Chairman advised that all members answered that Tariff rate was being charged and papers were ordered filed.

Rates on Flour vs. Grain, East St. Louis to Cincinnati and Louisville.

This subject was considered at meeting May 28th and laid over. At meeting today it was given further consideration and the roads individually advised against change, and

Subject was tabled.

Rate on Syrup in Glass or Earthenware.

This subject was brought up by the issuance of C. F. A. Information No. 3468 and it was

Recommended, That Amendment be issued to I. C. C. B-28 naming rate on Syrup in Glass or Earthenware, packed in bbls., or boxes, 15 cts. per 100 lbs., C. L. minimum weight 30,000 lbs. between East St. Louis, Cincinnati, Louisville, etc.

Rate on Wild Mustard Seed.

This subject was brought up by the issuance of C. F. A. Information No. 3468 and it was

Recommended, That amendment be issued to I. C. C. B-28 naming rate on Wild Mustard Seed, 10 cts. per 100 lbs., C. L. minimum weight 35,000 lbs. between East St. Louis, Cincinnati, Louisville, etc.

Divisions on Traffic Between Cincinnati and Louisville and Texas Common Points via East St. Louis.

Attention being called to Southwestern Tariff Committee Division Sheet No. 15, page 8, etc., effective July 15th, 1902, correspondence, dated June 23rd and 24th with Chairman Southwestern Tariff Committee was read and after due consideration it was

Moved, That lines, members of the St. Louis-Cincinnati-Louisville Freight Committee, will not concur in the divisions of rates between Cincinnati and Louisville and Texas Common Points via East St. Louis, promulgated by the Southwestern Tariff Committee unless

they shall have been previously submitted to the Committee.

This action shall not be construed to affect divisions now in effect.

The Chairman was instructed to communicate the above action by letter to the Chairman of the Southwestern Tariff Committee and to furnish the members of this Committee with a copy of the correspondence referred to above by Circular Letter.

Note:—Letter written Chairman Cale and delivered at his office June 26th.

Rate on Asphalt Paving Cement, Cincinnati, Louisville, Etc., to East St. Louis.

Attention was called by one of the members to rate published by Chicago & St. Louis Traffic Ass'n. in Amendment No. 33 to Tariff No. 24, June 25th, 1902, naming rate of 7 cts. per 100 lbs. between Chicago and East St. Louis, and it was

Recommended, That Amendment be issued to I. C. C. B-28, naming rate on Cement, Asphalt Paving, 7 cts. per 100 lbs., C. L., minimum weight 40,000 lbs., from Cincinnati, Louisville, etc., to East St. Louis.

Inviting L. & N. R. R. to Become a Member of the Committee.

As instructed at meeting May 28th, (See Proceedings) a letter was written May 31st and reply received, dated June 23rd, from D. M. Goodwyn, as follows:

"Dear Sir:—Since receipt of yours of May 31st, file B-437, I have carefully considered the invitation extended to the Louisville & Nashville Railroad to become a member of your Committee. I have not the time to attend the meetings and as our interests are in the hands of the L. H. & St. L. Ry. don't see that it would be worth while for the L. & N. R. R. to join the Committee."

Rate on Empty Packing Drums, Carloads.

It was suggested by a member that shipments of Empty Packing Drums, in carloads be given the benefit of the same rating between East St. Louis, Cincinnati, Louisville, etc., as is given in Official Class'n. on Empty Barrels, but lines interested individually advised that they could not concur in the suggestion.

Regular Meeting Adjourned Until Wednesday, Sept. 24th, 1902.

Resolved, That the next regular meeting of this Committee will convene on Wednesday, Sept. 24th, 1902, at Cincinnati, it being understood that the Chairman will in the meantime submit by Circular Letter any subjects needing attention, or will issue a call for Special Meeting of the Committee, if he considers circumstances warrant.

Proposed Change in Articles of Organization.

The changes proposed in Article V, Sections A. & B., also Article VI, Section E. of Articles of Organization (submitted to members by Circular Letter No. B-XXIII, June 4th) were considered and adopted.

The Chairman was instructed to have the revised Articles of Organization printed, effective May 1st, 1902, and send two copies to the General Freight Agent of each road, member of the Committee for approval, one copy to be signed and returned to the Chairman.

If approved and signed by all members the Chairman to then distribute copies to all Freight Traffic Officials of the roads, members of this Committee.

In reprinting the Articles of Organization the Chairman to omit Article 1, Section D, the paragraph in parenthesis, as follows:

(The question of including points in Louisiana in this clause will be decided upon at later meeting.)

At meeting, May 28th, it was

Resolved, That Louisiana Traffic should not be included. (See Proceedings May 28th.)

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 79;" as follows:

PROCEEDINGS NO. XVI.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting Held at the Grand Hotel,

Cincinnati, Ohio, September 24th, 1902.

Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—W. H. Coleman, by Geo. W. Davis.
R. M. Fraser, Chairman.

Meeting convened 10:00 a. m.

Rates, Cincinnati, Louisville, Etc., to Springfield, Mo.

This subject was referred to a Sub-Committee. (See Proceedings January 22nd, March 26th, May 28th and June 25th, 1902.)

The Sub-Committee reported, not having as yet secured all the information desired, asked for more time, which was granted.

Rate Adjustment on Agricultural Implements, C. L., Louisville to Oklahoma and Indian Territory, vs. Moline and Rock Island.

The subject was referred to a Sub-Committee. (See Proceedings January 22nd, March 26th, May 28th and June 24th, 1902.)

The Sub-Committee reported not having been successful in securing a satisfactory arrangement, in line with the subject as originally proposed, suggested that the subject be tabled, which was adopted.

Traffic from Louisville to Indian and Oklahoma Territories.

After some discussion regarding the above traffic, it was

Resolved, That a Committee of three be appointed, the Chairman of this Committee to be Chairman ex-officio, to take up with Western Roads, the question of traffic from Louisville to Indian and Oklahoma Territories, the report of the Sub-Committee to be submitted to the members of this Committee by Advice Letter.

Note.—The Chairman appointed as Sub-Committee, Messrs. Hart, Campbell and Irwin.

Divisions on Traffic Between Cincinnati, Louisville, Etc., and Texas Common Points via E. St. Louis.

This subject was last considered at meeting June 25th. (See proceedings that date, also Circular Letter No. B-26, June 27th, 1902.) The Chairman called attention to Southwestern Tariff Committee's Division Sheet No. 15, effective July 15th, supplement No. 7, Item No. 342, and it was

Resolved, That the subject be tabled, it having been disposed of by the issue referred to above.

Rate on Domestics, East St. Louis to Louisville.

This subject was acted upon as shown by Circular Letters No. B-33 and B-37. It was docketed for further consideration at the request of a member of the Committee and after discussion, it was

Resolved, That the subject be tabled.

Switching Charges at East St. Louis on Cincinnati, Louisville, Etc., Traffic.

This subject was docketed at the request of a member and after due consideration, it was

Resolved, That it is the sense of this Committee that all switching (except on grain) within the switching limits of East St. Louis, Madison, Venice, Granite City and Brooklyn, Ill., may be absorbed by all lines, effective October 1st, 1902.

Rate on Epsom Salt.

Rates on Ferro Phosphorous and Tin Ashes.

The Chairman called attention to C. F. A. Information Nos. 3618 and 19, naming rates on above Commodities and requested information as to whether or not they should be included in this Committee's tariffs and it was

Resolved, That the subject be tabled and not included in the tariffs.

Proportional Rates on Broom Corn, East St. Louis to Louisville.

This subject was docketed at the request of a member, who argued that it was necessary to provide rate on above Commodity, moving from the west, and it was

Resolved, That Joint Proportional Tariff I. C. C. No. B-30 be amended naming rate of 25 cents per 100 pounds on Broom Corn, C. L. minimum weights 15,000 pounds, East St. Louis to Louisville.

Proportional Rating and Minimum Car Load Weights on Vehicles.

Attention was called to C. F. A. Information No. 3667, September 19th, on the above subject, and it was

Resolved, That I. C. C. No. B-30 be amended naming proportional rate on "Vehicles of all kinds" not otherwise specified in Official Classification, in C. L.,

destined to points governed by the Western Classification (except to destinations subject to the jurisdiction of the Southwestern Tariff Committee), 17 cents per 100 pounds from Cincinnati and Louisville to East St. Louis, minimum carload weight, as follows:

Cars not exceeding 36 ft. in length	14,000 lbs.
Cars over 36 and not over 38 ft. long	16,800 lbs.
Cars over 38 and not over 42 ft. long	18,200 lbs.
Cars over 42 and not over 46 ft. long	19,600 lbs.
Cars over 46 and not over 50 ft. long	21,000 lbs.
Cars over 50 and not over 54 ft. long	22,400 lbs.
Cars over 54 and not over 58 ft. long	23,800 lbs.
Cars over 58 ft. in length	25,200 lbs.

Note.—Rule 5-C of Official Classification will not apply in connection with the above.

Rate on Wool, East St. Louis to Cincinnati, Louisville, Etc.

Chairman called attention to rate, 26 cents per 100 pounds, C. L. minimum weight 20,000 pounds. (Rule 5-C Official Classification not to apply.) On Wool, E. St. Louis to Cincinnati, Louisville, etc., having been authorized (see Circular Letter No. B-45, September 3rd), which will be published in Amendment to Joint Freight Tariff I. C. C. No. B-31 and requested information as to whether the same rate, now published in Joint Proportional Tariff I. C. C. No. B-30 should not be eliminated, and it was

Resolved, That amendment be issued to Joint Proportional Tariff I. C. C. No. B-30 eliminating rate of 26 cents per 100 pounds on Wool, as published therein.

Unauthorized or Individual Tariffs, Etc.

After a general discussion on the above subject, it was

Resolved, That the Chairman appoint a Special Committee of three to consider the abrogation, not

later than December 31st, 1902, of all unauthorized rates and the revision of low authorized rates, the Committee to report at the meeting in St. Louis, October 22nd, 1902.

Note.—The Chairman appointed as the Committee, Messrs. S. T. McLaughlin, Chairman; L. J. Irwin and R. A. Campbell.

Next Regular Meeting of the Committee.

Resolved, That the next regular meeting of this Committee will convene on Wednesday, October 22nd, 1902, at St. Louis, Mo.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 80;" as follows:

PROCEEDINGS NO. XVII.

R. M. Fraser, Chairman.

Meeting convened 11:00 a. m.

Unauthorized or Individual Tariffs, Etc.

This subject was referred to a Sub-Committee, see proceedings, September 24th, 1902.

At meeting today the Chairman of the Sub-Committee submitted the following report:

Rates on Unmanufactured Tobacco in Hhds. any Quantity, Between East St. Louis, Cincinnati, Louisville, Jeffersonville and New Albany.

Your Committee recommends that effective January 1st, 1903, the rate on shipments of unmanufactured tobacco, in hhds., any quantity, between East St. Louis, Cincinnati, Louisville, Jeffersonville and New Albany be avanced to 12 cents per 100 pounds.

Rates on Mules, Carload, East St. Louis to Cincinnati, Louisville, Jeffersonville and New Albany.

Your Committee recommends that effective November 6th, the rate on Mules, C. L., minimum weight 20,000 pounds, be fixed at 17½ cents per 100 pounds, East St. Louis to Cincinnati, Louisville, Jeffersonville, New Albany, etc., and not in the reverse direction.

Asphalt, Asphalt Rock and Bituminous Rock from Louisville, New Albany and Cincinnati.

Your Committee recommends that rates as follows be adopted effective November 6th, between East St. Louis, Cincinnati, Louisville, Jeffersonville and New Albany, etc., viz:

Asphalt, carloads, 11 cents per 100 pounds, minimum weight as per Official Classification.

Asphalt Rock and Bituminous Rock, $1.40 per ton of 2,240 pounds, carload minimum weight to be capacity of car, but in no case to be less than 18 gross tons.

Rates on Grain from East St. Louis, proper, and from Beyond for Cincinnati and Louisville, proper, and for Points Beyond.

As regards the several unauthorized tariffs which are now in effect, your Committee would request further time and that action be postponed on this until next meeting of the St. Louis-Cincinnati-Louisville Freight Committee.

Cotton Seed Oil, Louisville and Cincinnati to East St. Louis.

Your Committee would request further time on this, as this matter is to be the subject of a conference between the Cincinnati and Louisville Roads at a meeting to be held in Cincinnati on the 28th inst.

Rates on Iron and Steel Articles Between Louisville, New Albany, Jeffersonville and East St. Louis.

Your Committee would request further time on this, a full report to be made at the next meeting.

S. T. McLaughlin, B. & O. S. W. R. R., Chairman.
R. A. Campbell, Southern Ry.
L. J. Irwin, L. H. & St. L. Ry.

The report of the Sub-Committee was read and accepted, further time being granted to complete their work.

The report was then read by sections and the recommendation in each case approved.

In view of the action taken on Asphalt, Asphalt Rock and Bituminous Rock, as shown above, it was

Moved, That Joint Proportional Tariff I. C. C. No. B-30 be amended, eliminating therefrom the rates named on Asphalt Rock and Bituminous Rock.

Note.—The representatives of the C. C. C. & St. L. Ry. and Ill. Cent. R. R. gave notice to the Chairman, "That in amending Joint Tariff, unless otherwise advised, you will kindly indicate that the 17½ cent rate on Mules as above shall not apply via the C. C. C. & St. L. Ry. and Ill. Cent. R. R.

Rates, Cincinnati, Louisville, etc., to Springfield, Mo.

This subject was last considered at meetting September 24th (See proceedings). Chairman of the Sub-Committee stated that the subject had been docketed by the Western Roads Committee, but as yet they had been unable to fix a date for conference.

This subject remains in the hands of the same Committee, viz: Messrs. Hart, Nichols, Irwin, Campbell and Taylor. Mr. Hart will act as Chairman (during the absence of the Chairman ex-officio) in handling this subject, in connection with the subject relating to Traffic, Louisville to Oklahoma and Indian Territory.

Traffic, Louisville to Oklahoma and Indian Territory.

Chairman reported that he had been unable to arrange for conference between our Sub-Committee and the Committee of Western Roads and therefore asked for more time which was granted. In consequence of the Chairman ex-officio expecting to be absent a short time, it was

Moved, That Mr. Ed. Hart, Jr., act as Chairman, during the absence of the Chairman ex-officio, and it was further

Moved, That the Committee of three be enlarged to five, as follows: Messrs. Hart, Nichols, Irwin, Campbell and Taylor, the same Committee having charge of subject, rates, Cincinnati, Louisville, etc., to Springfield, Mo.

Wagon Material, Vehicle Stock or Stuff, Etc.

This subject was brought up by a letter from a member asking that tariff be amended in line with tariffs issued by the individual roads particularly the B. & O. S. W. R. R., which was submitted by Circular Letter No. 51.

The subject not having been disposed of by answers to Circular Letter No. B-51, question was considered at meeting today and it was

Moved, That Amendment to Tariff I. C. C. B-31 be issued embracing under heading "Articles Upon Which Lumber Rates Will Apply," the Articles published in B. & O. S. W. R. R. Joint Tariff No. H-1589, I. C. C. No. 3083 and not at present printed in Joint Tariff I. C. C. B-31 which are as follows:

Felloes, in the white.

Hubs and Spokes, sawed and turned into shape, also tenoned spokes and hubs not further finished than bored, mortised and primed (which under Official Class'n. takes 5th class or lower.)

Vehicle Stock or Stuff (which under Official Class'n. takes 5th class or lower) including Felloes and Spokes in the white.

Wagon material, in the white, N. O. S.

Note:—Carload minimum weight 30,000 lbs.

Whiskey From Points in Defined Territory to Arkansas Points.

Chairman read letter Oct. 16th, file D-383 from Chairman Arkansas Freight Committee, also a copy of paper dated Louisville, Ky., May 6th, 1898, regarding rates and divisions on above traffic, and it was

Moved, That the subject be referred to the Committee having under consideration the subjects of "Rates, Cincinnati, Louisville, Etc., to Springfield, Mo.—Traffic, Louisville to Oklahoma & Indian Territory"—in the meantime the Chairman to issue Circular Letter sending copy of correspondence to all members of the Committee with the request that they advise Mr. Hart before the 10th of Nov. their views on the subject.

Note:—The Sub-Committee is Messrs. Hart, Nichols, Irwin, Campbell and Taylor.

Application of Rule 5-C on Shipments of Wool.

Chairman read letters from Chief Inspector asking information as to the application of Rule 5-C on shipments of wool as first published in Joint Tariff Amendment No. 3 to I. C. C. B-12, effective July 6th, 1898, Wool, C. L., minimum weight 20,000 lbs., 29 cts. per

100 lbs. and continued in effect until the issue of Amendment No. 1 to I. C. C. No. B-31, effective Oct. 2nd, 1902.

The Chairman was instructed to advise the Chief Inspector that rate of 29 cts., put in effect by this Committee was based on J. C. Freight Circular No. 634, Feb. 5th, 1897, St. Louis Eastbound Traffic Ass'n. Special Notice No. 583 Feb. 6th, 1897, which named rate 29 cts. per 100 lbs. to Charlestown, W. Va., etc. (Louisville and Cincinnati being intermediate) it being understood that the rules which governed on traffic to the Western Terminal points would govern on traffic handled to points under the jurisdiction of this Committee.

Form to be Used in Preparation of Proceedings, Circular Letters, Etc.

This subject was brought up by a member calling attention to Circular Letters submitting copy of letters from members asking the vote on same, objection being raised as to the form of both the Circular Letter and the letter which was copied therein and after a general discussion, it was

Moved, That the subject be referred to Mr. Geo. W. Becker, as a Committee of one to draw up a form to be used by members in making application for rates, also manner in which Circular Letters, Proceedings, etc., shall be issued by the Chairman, the matter to be further considered at next meeting.

Rate on Whiskey, in Wood, Any Quantity.

The above subject was brought up by a member stating he would like to see rate restored to Official Class'n. basis. A general discussion followed and it was

Moved, That the subject of rates on alcohol, High-wines, Whiskey, etc., in wood, in effect from Cincinnati, Louisville, etc., be referred to Chairman Tucker with a statement to the effect that it is the sense of this Committee that rates are entirely too low and that some means should be adopted to having them advanced or restored to the Official Class'n. basis and request that he take the subject up through the Central Freight

Ass'n., also the C. & O. R. Committee in line with the above and advise the Chairman of this Committee at the earliest possible date as to what was accomplished.

Next Regular Meeting of the Committee.

Resolved, That the next regular meeting of the Committee will convene on Tuesday, November 25th, 1902, at Louisville, Ky.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 84;" as follows:

PROCEEDINGS NO. B-XVIII.

R. M. Fraser, Chairman.

Meeting convened 2:30 p. m.

Unauthorized or Individual Tariffs, Etc.

At meeting Oct. 22nd the above subjects were referred back to Sub-Committee for further report regarding

rates on Tobacco, unmanufactured and siftings in hhds. —Leaf, samples, in boxes—Stems in hhds. or bales. Grain from East St. Louis to Cincinnati, Louisville, etc.—Cotton Seed Oil, Louisville and Cincinnati to East St. Louis—Iron and Steel Articles between Louisville, New Albany, Jeffersonville and East St. Louis (See Proceedings Oct. 22nd.)

The Sub-Committee reported as follows:

Your Committee recommends that effective Jan. 1st, 1903, Joint Freight Tariff be amended naming rates as below:

Tobacco, Unmanufactured and Tobacco Stems and Siftings, in hhds., any quantity, 12 cts. per 100 lbs. between E. St. Louis, Cincinnati, Louisville, etc.

Tobacco, Stems pressed in bales, C. L., minimum 24,000 lbs., 19c per 100 lbs. between East St. Louis, Cincinnati, Louisville, etc.

Tobacco, Leaf, samples in boxes, any quantity, to be eliminated from the Tariff.

Iron and Steel Articles (as per list on page 7, Joint Tariff I. C. C. B-31 except Pipe, cast plain) between East St. Louis, New Albany, Jeffersonville and Louisville, C. L. minimum, Official Class'n., unless otherwise provided for in Tariff, 10 cts. per 100 lbs.

Note:—The B. & O. S. W. stated that they reserved the right to make same rate apply on Iron and Steel Articles between E. St. Louis and Cincinnati, on notice to that effect.

Your Committee unable to report any further change in Grain rates East St. Louis to Louisville than shown in Amendment No. 3 to Joint Proportional Tariff I. C. C. No. B-30, effective Dec. 1st.

Further time requested to report on subject of rates on Cotton Seed Oil, Cincinnati and Louisville to East St. Louis.

The above recommendations, etc., of the Sub-Committee, were individually accepted and approved.

Rates, Cincinnati, Louisville, Etc., to Springfield, Mo.

This subject was last considered at meeting Oct. 22nd. (See proceedings.)

The sub-committee hope now to have a conference with Western Roads before the next regular meeting.

Traffic, Louisville to Oklahoma and Indian Territory.

The Sub-Committee to whom this subject was referred (See Proceedings Oct. 22nd) submitted proceedings of conference meeting Nov. 10th with Western Lines, also their recommendation, dated 24th inst.

After papers were read their report was accepted, Committee discharged and Chairman instructed to furnish all members with copy of the papers, the subject to be further considered at next meeting.

For copy of reports referred to, see Circular Letter No. B-55, Nov. 26th.

Whiskey from Points in Defined Territory to Arkansas Points.

Letter on this subject was submitted at meeting October 22nd and referred to Sub-Committee. Copy of correspondence, etc., from Chairman, Arkansas Freight Committee sent all members by Circular Letter Oct. 23rd, No. B-52.

The following report dated Nov. 24th from the sub-committee was submitted and read:

"In the matter of rates on Whiskey from points in defined territory to Arkansas,

We Recommend, That the Chairman be instructed to reply to Chairman Cale of the Arkansas Freight Committee that, if the lines, members of this Committee, persist in the position outlined in his communication of October 16th, file D-383, to Mr. Fraser, it will necessitate the cancellation of divisions on all traffic from Cincinnati and Louisville to Arkansas Common Points, as it is not considered fair to operate divisions that are now in effect on some commodities to the exclusion of others."

The report was accepted, committee discharged and the Chairman instructed to address letter to the Chairman of the Arkansas Freight Committee as recommended, reply received thereto to be communicated by Circular Letter to the members.

Whiskey, High Wines, Etc., in Wood.

This subject was considered at meeting October 22nd, as shown in Proceedings No. 17, at meeting this date, further consideration was given to the subject and it was

Resolved, That effective December 15th, 1902, the rates on Whiskey, high wines, etc., in wood, between Cincinnati, Louisville, New Albany, Jeffersonville and East St. Louis, will be restored to Official Classification basis, it being the understanding that carload rates on this class of traffic will only be applied when the railroads receive shipments direct from the bona fide owner. If forwarding agents or parties other than the absolute owners deliver carload shipments to the railroads, the transportaton companies in interest will charge the L. C. L. rates. Further, that the respective local Committees at Cincinnati and Louisville be convened at the earliest possible date to arrange for such machinery as may be necessary to see that this action is strictly carried out.

Note.—Their resolution adopted was communicated to the Secretary of the C. & O. R. Com., by letter dated 25th inst. and copy to Chairman C. F. A.

The Chairman was instructed to amend Joint Tariff I. C. C. No. B-31, effective December 15th, eliminating from the list of Commodities, Whiskey, in wood, any quantity.

The above was adopted individually by roads interested.

Revision of Rates in Effect.

After due consideration of the above subject, it was

Recommended, That a Joint Meeting be called at Chicago, December 10th, 1902, of the St. Louis-Cincinnati-Louisville Freight Committee, Chicago & Ohio River Committee and the Peoria Eastbound Lines, for the purpose of revising rates between the various points under the jurisdiction of those committees. Said meeting to be held at Central Freight Association Committee Rooms, at 10:00 a. m.

Note.—The above was communicated to the Secretary, C. & O. R. Com. by letter 25th inst., requesting him to arrange for meeting of the C. & O. R. and Peoria Lines.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 82;" as follows:

PROCEEDINGS NO. B-19.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

R. M. Fraser, Chairman.

Meeting convened 10:30 a. m.

Rate on Spent Tan Bark to East St. Louis.

Application for reduction in rate was duly considered and it was individually announced that no change would be made.

Traffic, Louisville to Oklahoma and Indian Territories.

This was last considered at meeting November 25th, 1902 (See proceedings No. 18), and correspondence submitted by Circular Letter No. B-55, November 26th.

After due consideration of the subject today, it was

Recommended, That divisions be established with the Indian & Oklahoma Territory Lines on basis of twenty and eighty per cent, respectively, east and west of East St. Louis, on traffic from Louisville, New Albany and Jeffersonville; provided that the Indian and Oklahoma lines will not later than April 1st, 1903, establish the same rates from Louisville, Jeffersonville and New Albany as are in effect from Moline and Rock Island.

The Chairman to communicate to the Western Lines the above action, advising members by Circular Letter the replies received thereto.

Rates, Cincinnati-Louisville, Etc., to Springfield, Mo., Etc.

This subject was referred to a Special Committee for conference with Western Roads (See proceedings November 25th).

At meeting today the Committee reported having conference with Western Lines on December 15th, 1902, but were unable to make any satisfactory arrangement. It was, therefore,

Moved, That the subject be tabled.

Whiskey from Points in Defined Territory to Arkansas Points.

Chairman stated that the above subject had been submitted to the members in Circular Letters No. B-56 and B-59, December 1st, and 11th, 1902, which were read today, and it was

Moved, That the subject be referred to a Committee of three (3) to confer with the Arkansas Lines,

with the understanding that if the Committee reports, the Chairman will submit their report to the members by Circular Letter, the subject to be further considered at the next meeting.

Note.—The Chairman appointed as the Committee Messrs. Campbell, Chairman; Hart and Irwin.

Cotton Seed Oil, Louisville and Cincinnati to East St. Louis.

This question was last considered at meeting October 22nd.

After considerable discussion, it was

Moved, That the subject be passed until next meeting.

Division of Rate on Cotton Seed Products, Arkansas and Louisiana via Cairo vs. E. St. Louis.

This subject was brought up by letter suggesting that the Cairo lines increase their proportion of the through rate on this business, as they are now accepting 8½ cts. this being only ½ cent in excess of the proportion demanded from East St. Louis, whereas the proper differential should be 2 cts. above the East St. Louis rate.

After discussion, it was

Moved, That the Chairman take the subject up with the representatives of the two (2) roads at Cairo with the view to having them hold the rate from Cairo at least two (2) cents higher than from East St. Louis.

Minimum Carload Weight on Iron Articles.

Subject withdrawn.

Is Malt Entitled to the Grain Rates.

Ruled that Malt is a Grain Product and subject tabled.

Revision of Joint Freight Tariff I. C. C. No. 4 and A-4 Between Louisville and Evansville and Between Evansville and Cincinnati.

Chairman called attention to above subjects requesting that Committee check rates as shown in Proof

Copies of I. C. C. No. B-34 and I. C. C. No. 4 and A-4.

After discussion it was

Moved, That checking rates between St. Louis, Cincinnati and Louisville, Evansville and Cincinnati, and Evansville and Louisville be referred to a Special Meeting of Rate Clerks to be called at Louisville Hotel, Louisville, Ky., on Tuesday, Feb. 3rd, 10:00 a. m.

Note:—The Chairman to take the subject up with E. & T. H. with the view to having them attend meeting.

Distribution of Division Sheets.

Chairman requested information as to whom he should send copies of future issues of Division Sheets, and it was

Moved, That the Chairman send the Division Sheet to the same general mailing list, both to connections and shippers, as he sends the St. Louis-Cincinnati-Louisville Freight Committee Tariffs.

Representation of Tariffs.

Chairman requested instructions as to the names of representatives he should carry on the different tariffs and he was instructed not to make any changes.

Election of Executive Committee.

The Chairman called attention to the fact that term of office for which the Executive Committee were elected for 1902, having expired, (See Proceedings Jan. 22nd, 1902) and it was

Moved, That Messrs. R. A. Campbell, W. H. Coleman and Walter Nichols be and are hereby elected an Executive Committee for the year 1903 and to hold office as provided for in the Articles of Organization.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 83;" as follows:

PROCEEDINGS NO. B-20.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee.

St. Louis, Mo., March 25th, 1903.

Southern Ry.—C. D. Morris.
T. H. & I. R. R.—N. W. Taylor.
R. M. Fraser, Chairman.

Meeting convened 11:00 a. m.

Traffic, Louisville to Oklahoma and Indian Territories.

Chairman called attention to action taken at meeting Jan. 28th, stating that he had taken subject up with Western Lines and proposition in Proceedings No. 19 was declined, as shown in correspondence published in Circular Letter No. B-65, Feb. 23rd, 1903. Chairman also stated he had written to A. G. F. A. Campbell, requesting information regarding the withdrawal of Southern Ry. percentage arrangement on the traffic, but had as yet received no reply.

After discussion Chairman was instructed to take subject up further with Mr. Campbell with the view to securing reply to his letter and when received to send same to members by Circular Letter.

Whiskey from Points in Defined Territory to Arkansas Points.

This subject considered at meeting Jan. 28th and referred to a Sub-Committee, by letter Jan. 30th, file B-450, addressed to Messrs. R. A. Campbell, Ed. Hart and L. J. Irwin.

The Sub-Committee not having had a meeting, it was

Moved, That the Sub-Committee be given more time. The Chairman to be urged to take action without further delay.

Cotton Seed Oil Between Louisville, East St. Louis or Evansville.

Attention was called to Circular Letter No. B-67, giving copy of letter from A. G. F. A., Southern Ry., also to Southern Ry. Supplement No. 3 to Tariff I. C. C. No. 179, publishing rate of 5 cts. per cwt. on Cotton Seed Oil, Foots, etc., between Louisville, East St. Louis and Evansville.

After discussion, it was

Moved, That the subject be passed until the next meeting on account of the absence of the I. C. R. R. representative.

Division of Rates on Cotton Seed Products, C. L. From Arkansas via Cairo, Etc., vs. East St. Louis.

As instructed at meeting January 28th, proceedings No. 19, the above subject was taken up with Traffic Officer, C. C. C. & St. L., I. C. and C. & E. I. R. R. and each party stated his intention to hold rate on above traffic 2 cents per 100 lbs. higher from Cairo, Gale-Thebes and East Cape Girardeau, than in effect from East St. Louis to Louisville and Cincinnati.

The rate (10 cents per 100 pounds) from Cairo, etc., to become effective April 6th, 1903.

Rate on Grain Products vs. Grain.

Replies received in answer to Circular Letter No. B-62 were read and information requested by the Chairman as to what reply to make to Mr. E. S. Tomkins, Commissioner, St. Louis Traffic Bureau and was instructed to inform Mr. Tomkins that it is the opinion

of the individual roads, members of this Committee, that the rate on Grain Products to Louisville and Cincinnati cannot be reduced.

Rates on Brick, Etc.

After reading correspondence with C. & O. R. and Cincinnati Freight Committees regarding rates on Brick and Articles taking Brick rates, it was

Moved, That the rates on Brick and Articles taking same rates from Cincinnati and Louisville to East St. Louis be made $1.90 per ton. Joint Freight Tariff I. C. C. B-34 to be amended effective on Legal Notice.

Consolidating L. C. L. Shipments of Whiskey into C.L.

This subject was brought up by letter February 25, file C-C-852 from A. G. F. A., Southern Ry. when issued in Circular Letter No. B-66. Chairman read replies received and it was

Moved, That the subject be tabled.

Letter from a Member Requesting That Subject of Filing Divisions Sheet With I. C. C. be Considered.

This subject brought up by letter February 3rd, from G. F. A., B. & O. S. W. R. R. which was read, and it was

Moved, That we change back from "Division Sheet" to a "Joint Proportional Tariff" and that copies of said Joint Proportional Tariffs be given an I. C. C. number and filed with the Interstate Commerce Commission.

Note.—The first Joint Proportional Tariff issued to contain same rates, etc., as shown in Division sheet No. B-2 and amendment.

Rates and Divisions on Canned Goods, Pacific Coast Points via East St. Louis to Lexington, Ky.

This subject brought up by letter from Chairman, C. F. A. which was submitted to members by Circular Letter No. B-64, February 23rd. Replies were received from all parties to the effect that proposed fig-

ures, 10.7 cents, East St. Louis to Cincinnati would be accepted, etc."

In view of the fact that divisions in effect via the Southern Ry., East St. Louis to Lexington, Ky., would have the effect of preventing the lines, East of East St. Louis from securing an increased division, the Chairman was instructed to take the matter up further with A. G. F. A., Southern Ry., with the view of making a demand upon the Western Lines for a change in the divisions, i. e., to allow an arbitrary of six cents per 100 pounds, Louisville to Lexington and divide the balance on agreed percentages.

Proportional Rates from Upper Mississippi River Crossings vs. East St. Louis.

This subject was brought up by letter from a member. Chairman took the subject up with Mr. P. P. Rainer, Secretary, Joint Rate Committee. Correspondence between this office, Secretary Rainer and Chairman Tucker was read for information of members of Committee, and it was

Resolved, That the Chairman urge upon Secretary Rainer the importance of having the proper proportional rates maintained from Upper Mississippi River in accordance with Joint Rate Committee Division Sheet No. 20 or subsequent issues.

To Establish Rule Regarding Issue of Tariffs or Amendments on Receipt of C. F. A. Information, Etc., or on Request of a Member.

Chairman called attention to C. F. A. Information No. 4136 and 4138, March 14th, 4142 March 16th, 4145 March 17th, 4160 and 4165, March 20th, making various changes in rates, weights, etc., and requested instructions as to whether an amendment shall be issued to Tariffs of this Committee when each and every change is made in rates, etc., by issuance of C. F. A. Information, etc., and after discussion, it was

Moved, That the Chairman shall issue Tariff or Amendment on the 1st, 7th, 14th, and 21st of each

month, if occasion requires, the idea being to keep the Committee Tariffs fully up to date. It being understood that the Chairman shall use his discretion to promulgate important changes or to change the date within a reasonable range, if it is found advisable by him to do so.

Rates on Gas House Coke.

Chairman read telegram, March 24th, from Chairman of the Louisville Freight Committee, recommending rate of $1.65 per ton on Gas House Coke, Louisville, New Albany and Jeffersonville to East St. Louis, also called attention to Section "F" of Articles of Organization, specifying that Coal and Coke shall be excluded from accounts and statistics of the Committee, etc.

In view of the above it was decided that no action was necessary by the Committee.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 84;" as follows:

PROCEEDINGS NO. B-21.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

P. C. C. & St. L. Ry.—M. S. Connelly.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—N. W. Taylor.

R. M. Fraser, Chairman.

Meeting convened 10:30 a. m.

Traffic, Louisville to Oklahoma and Indian Territories.

This subject last considered March 25th. See Proceedings No. 20, also see Circular Letter No. B-71, April 14th.

At request of an absent member the subject was laid over until next meeting.

Whiskey from Points in Defined Territory to Arkansas Points.

As shown in Proceedings No. 20, March 25th, this subject had been referred to a Sub-Committee.

After discussion today the committee being unable to make report requested more time which was granted.

Cotton Seed Oil Between East St. Louis, Cincinnati and Louisville. Divisions of Rate on Cotton Seed Products from Arkansas via Cairo vs. East St. Louis.

The above subjects were considered March 25th. See Proceedings No. 20, also see Circular Letters No. B-67-69-72 and 74.

At meeting today a resolution was offered and the Chairman instructed to submit same by Circular Letter to all members for their individual views, as follows:

I move you that the rate from East St. Louis to Cincinnati and Cincinnati Points—Louisville and Louisville Points (under the jurisdiction of this Committee) on Cotton Seed Oil, C. L. originating in territory west of the Miss. River, be made 8 cts. per 100 lbs., it being understood that the rate from East Cape Girardeau, Gale, Thebes and Cairo will be 10 cts. on the same traffic.

Rates and Divisions on Canned Goods, Pacific Coast Points via East St. Louis to Lexington, Ky.

This last considered at meeting March 25th, see proceding No. 20 and after discussion today, it was

Moved, That the subject be tabled.

Proportional Rates from Upper Mississippi River Crossings vs. East St. Louis.

This subject last considered at meeting March 25th. See Proceedings No. 20 and Circular Letter No. B-77.

At meeting today Chairman read letter May 14th, file A-16236 from Sec'y., Joint Rate Committee calling attention to action taken at Conference between Eastern and Western Lines, May 7th, and it was

Moved, That the action taken at Chicago Meeting, May 7th, be approved and the recommendation adopted be incorporated in the proceedings of this Committee.

Recommended, That, on Trans-Mississippi River Traffic, subject to the Mississippi River rate basis as proportions of through rates, the class and Commodity rates from East St. Louis, Ill., to all points east of the Indiana-Illinois State Line may be applied as minimum proportional rates from east bank Mississippi River points north of East St. Louis to East Dubuque, inclusive, and in the application of the foregoing the western roads should not observe from east bank Mississippi River Points as maximum to intermediate points, the rates from East St. Louis to destinations beyond, but, on the contrary, the Western Roads will hold from east bank Mississippi River points to such intermediate destinations the rates actually current thereto from East St. Louis."

Stopping in Transit at Louisville and Cincinnati, Glass Bottles, Lamp Chimneys, Etc., from C. F. A. Territory to the Southwest.

This subject was submitted by Circular Letter No. B-75, April 23rd. In reply thereto all members advised that they would discontinue the Stop-over privileges, etc.

The Chairman Southwestern Tariff Committee was advised of the action taken and requested to have tariff amended accordingly. (See Circular Letter No. B-79.)

At meeting today correspondence was read and Chairman instructed to acknowledge receipt of Chairman Cale's letter May 13th, advising him that members of this Committee cannot be parties to the practice referred to. (Letter written 26th inst.)

It was also

Moved, That the Chairman correspond with Chairman Washburn representing the lines south of the Ohio River and advise him of the action taken by the roads, members of this Committee, and request that lines south of the Ohio River take similar action. (Letter written 28th.)

Rates on Gas House Coke.

This subject last considered March 25th. See proceedings No. 20. After further consideration today the following statement was made and motion adopted:

While it is recognized that this Committee has no jurisdiction in the matter of rates on Coal and on Coke from the Coke, ovens, it is

Moved, That the Chairman publish the rates on Gas House Coke recently authorized between points under the jurisdiction of this Committee.

Note:—The rate referred to is $1.65 per net ton, C. L., minimum weight as per Official Class'n. Cincinnati-Louisville, etc. ,to East St. Louis.

Proportional Rate on Grain.

Chairman called attention to Circular Letter No. B-80, May 11th, Proportional Rate on Grain, East St. Louis to Cincinnati and Louisville and it was

Moved, That the subject be tabled.

Rate on Spent Tan Bark, Louisville to East St. Louis.

Application for reduction in rate was duly considered and it was individually announced that no change would be made.

Rate on Asphalt, East St. Louis to Louisville and Cincinnati When from Texas.

Chairman read letter from Missouri Pacific R. R. and it was

Moved, That Missouri Pacific be advised that if they will establish a through rate of 26½ cts. and issue through tariff and division sheet we will accept 7½ cts. minimum weight 40,000 lbs., East St. Louis to Cincinnati and Louisville.

Letter written Missouri Pacific R. R. 28th, members to be advised of result.

Rate on Wall Plaster, East St. Louis to Louisville, When From the West, Same as Cement Plaster.

This subject brought up by letter from a member, making application for same rating on Wall Plaster from the west as on Cement Plaster (as per Circular Letter No. B-78) and it was

Moved, That Wall Plaster be included with Cement Plaster in Proportional Tariff and at same rate.

Rate on Tobacco Stems, East St. Louis to Louisville.

Application for reduction in rate was considered and it was individually announced that no change would be made.

Is it Desirable to Consolidate into one Tariff the Separate Tariffs Issued by this Committee on Traffic Between E. St. Louis-Cincinnati-Louisville-Evansville-Louisville and Evansvlle-Cincinnati.

This subject placed on docket by Chairman calling attention to the expense of publishing the several tariffs and amendments thereto which could be reduced by consolidation.

The members were of the opinion that it would be more desirable to keep the various tariffs separate and Chairman was instructed to publish them as heretofore.

Rates and Divisions on Bones and Horns from Mexico.

This subject submitted by Circular Letter No. B-73, April 20th. All members answered that they were adhering to rule as shown in Proceedings No. 16, page 2, Sept. 24th, 1902, and it was

Moved, That the subject be tabled.

Rate on Railway Equipment, New.

This subject brought up by letter from a member calling attention to rates, Jeffersonville to Chicago vs. East St. Louis and after discussion following was adopted:

Moved, That the rates applicable on Railway Equipment, new, from Jeffersonville to Chicago, as per C. & O. R. Through Freight Rates No. 46 be made to apply from Jeffersonville to East St. Louis.

Note.—The rates as now published in I. C. C. B-34 to remain in effect from Cincinnati-Louisville, etc. The Chairman to take the matter up with the Dayton Lines with the view to ascertaining what rates are in effect to Chicago and East St. Louis and if it developes that lower rates than shown in this Committee Tariff are in effect to the points in question, the information to be submitted to the members by Circular Letter.

Staves from Points in Southeastern Arkansas to Cincinnati.

This subject brought up by letter from a member, making application for rate on Staves from Lake Village, Luna Island, etc., Ark.

Chairman read letter referred to and after due consideration, it was

Moved, That this matter be submitted to the various members by Circular Letter for their views.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 85;" as follows:

PROCEEDINGS NO. B-22.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee. Held at Louisville Hotel, Louisville, Ky., July 22, 1903.

Representation:

B. & O. S. W. R. R.—J. M. Ryan.
C. C. C. & St. L. Ry.—Chas. Ormsby.
C. H. & D. Ry.—E. J. Hutchinson.
C. I. & W. Ry.—J. S. Lazarus, by E. J. Hutchinson.

L. H. & St. L. Ry.—L. J. Irwin.
L. & E. P. Co.—C. V. Williams.
P. C. C. & St. L. Ry.—M. S. Connelly, N. W. Tallant.
Southern Ry.—R. A. Campbell, J. B. Campbell.
T. H. & I. R. R.—Wm. Hodgdon, by M. S. Connelly.
R. M. Fraser, Chairman.

Meeting convened 10:00 a. m.

Traffic, Louisville to Oklahoma and Indian Territories.

This subject was last considered at meeting May 27th. (See proceedings No. B-21 and laid over.)

At meeting today after some discussion, lines having the percentage division in effect on this traffic were again asked to withdraw same. It being stated that for the present at least this could not be done, it was

Moved, That the subject be laid on the table.

Whiskey from Points in Defined Territory to Arkansas Points.

At meeting January 28th this subject considered and referred to a Sub-Committee. The subject has been considered at subsequent meetings and laid over account of Committee not being prepared to make report.

At meeting today A. G. F. A. Campbell, Chairman Sub-Committee stated he had as yet been unable to have conference with Western Roads and requested more time in which to make report, which was granted.

Cotton Seed Oil, Proportional Rate from Cincinnati and Louisville to East St. Louis.

This subject brought up by letter June 30th from a member, which was transmitted to all members in Circular Letter B-87, July 1, 1903.

At meeting today the Chairman called attention to the Circular Letter and read replies received thereto. After some discussion, it was

Moved, That the subject be passed until next meeting.

Proportional Rates from Upper Mississippi River Crossings vs. East St. Louis.

This subject last considered May 27th (See Proceedings No. B-21.) On June 27th Chairman received letter from a member calling attention to Santa Fe Amendment No. 36 to Tariff No. 31-A, establishing proportional rate of 5 cents. Chairman stated he had taken subject up with Mr. P. P. Rainer, Secretary. Joint Rate Committee, and received telegram dated July 22nd that he had been advised by G. F. A., Santa Fe that he had arranged for the cancellation of rate of 5 cents from East Fort Madison to Ohio River Crossings.

No further action being necessary on the part of this Committee, it was

Moved, That the subject be tabled.

Stopping in Transit at Louisville and Cincinnati, Glass Bottles, Etc., from C. F. A. Territory to the Southwest.

This subject last considered at meeting May 27th and Chairman instructed to communicate with Chairman Washburn and Cale, requesting that their respec-

tive Committees discontinue the practice of allowing stop-over privileges, etc.

At meeting today communications received from the gentlemen were read and after discussion, it was

Moved, That the subject be laid over until next meeting.

It was the understanding that Chairman would communicate with Chairman Washburn for further information.

Shall an Amendment to Evansville-Louisville Tariff I. C. C. No. 5 be Issued Making Weights, Measurements and Conditions on Buggies Same as in Effect from Owensboro as per L. H. & St. L. Supplements 11 and 12?

Chairman called attention to the fact that Joint Freight Tariff I. C. C. No. 5 between Evansville and Louisville, etc., did not agree with L. H. & St. L. Tariff No. A-346 on Buggies from Owensboro to Louisville and requested what changes, if any, should be made in Joint Tariff I. C. C. No. 5.

After discussion it was the opinion of the members that the rates, etc., carried from Owensboro will not affect the conditions and rates on Buggies between Evansville and Louisville and in view of which, it was decided that no change be made in the Evansville-Louisville Tariff at present.

Rate on Stone-Dust, Louisville to Evansville and East St. Louis, C. L. Minimum 40,000 pounds.

Chairman called attention to C. F. A. Information No. 4661 showing rates from Louisville, Ky., to East St. Louis and Evansville and after discussion the following was adopted:

Resolved, That the Chairman correspond with Chairman C. F. A. and have him withdraw rates on Stone-dust to Evansville and East St. Louis as per C. F. A. Information 4461 with the further advice that this Committee has full jurisdiction over the publication of rates between Louisville, Evansville and East St. Louis.

Chairman was instructed not to publish the rates unless instructed later by the Committee to do so.

Rates and Divisions on Sundry Commodities from Arkansas to Cincinnati and Louisville, not Authorized

Chairman read correspondence had between his office and Mr. G. W. Cale, Chairman Arkansas Freight Committee, regarding Arkansas Freight Com. Tariff No. 3-B and Supplement No. 9 and 13, naming rates on a number of Commodities to Cincinnati and Louisville which are not made on a combination of locals, as shown by Mo. Pac. Division Sheet No. 2.

As this is contrary to action taken by roads, members of this Committee, at Conference Meeting with Arkansas Freight Com., September 25th, 1901, Chairman brought subject to attention of members of Committee for such action as they might see fit to take.

Members of the Committee were of the opinion that action on part of this Committee was unnecessary, account of action taken September 25th, demanding local rates from East St. Louis to Cincinnati, Louisville, etc., and in view of the above, it was

Moved, That the subject be laid on the table.

As Chairman Cale stated in letter July 3rd, that subject was on docket for consideration by the Arkansas Freight Committee at next meeting it was suggested that the Chairman endeavor to have the matter cleared up, it was also suggested that if the Chairman finds that any of the traffic is moving by any of the lines, members of this Committee, at less than local rates, to call attention to it and issue correction to local tariff rates.

Rate on Cement, East St. Louis to Louisville, Cincinnati, Etc.

This subject brought up by letter from a member, which the Chairman read and after consideration following was adopted:

Roads interested individually advise that effective on legal notice the rates on Cement, Common or Natural, Hydraulic and Portland, will be 10 cents per 100 pounds from E. St. Louis to Cincinnati, Louisville and points under the jurisdiction of this Committee, C. L. minimum weight 38,000 pounds.

Issuing Transportation to Attendants in Charge of Live Stock.

This subject brought up by a letter from a member regarding the discontinuance of issuing transportation on passenger trains to Live Stock Shippers or attendants, suggesting that they be issued only as provided for in the Official Classification, etc., and the following was adopted:

Lines interested individually advise that effective August 1st, 1903, the Official Classification rules will apply in regard to free transportation, issued to attendants accompanying shipments of Live Stock, between points under the jurisdiction of this Committee.

It being understood that attendants will not be permitted to ride on passenger trains preceding or following shipments.

Rates on Returned Freight.

This subject brought up by letter from a shipper which the Chairman read and after discussion, following was adopted:

Moved, That one half rates be made applicable on broken and defective parts of Farm Wagons, returned to manufacturer (original consignors) this action being necessary on account of same rule in effect through other gateways.

This is to apply between points under the jurisdiction of this Committee.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 86;" as follows:

PROCEEDINGS NO. B-23.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee. Held at the Grand Hotel, Cincinnati, Ohio, September 23, 1903.

Representation:

B. & O. S. W. R. R.—S. T. McLaughlin, Edw. Hart, Jr., E. B. Tullis.

I. C. R. R.—Jos. Hattendorf.
L. H. & St. L. Ry.—L. J. Irwin.
L. & E. P. Co.—
P. C. C. & St. L. Ry.—N. W. Tallant, M. S. Connelly.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—Wm. Hodgdon, by M. S. Connelly.
R. M. Fraser, Chairman.

Meeting convened 10:30 a. m.

Stopping in Transit Glass Bottles, Etc., from C. F. A. Territory to the Southwest.

This subject last considered at meeting July 22nd, Proceedings No. B-22. At meeting today Chairman read correspondence with Chairman, Southeastern Miss. Valley Ass'n. also with Chairman, Southwestern Tariff Committee and was instructed to keep the subject in mind and advise members disposition.

Note:—I am in receipt of letter 26th from Chairman Cale, in which he says the subject was considered by the Southwestern Tariff Committee 25th and advises that their notice is misconstrued, calling attention to the wording of "Rate Notice A-7855, which distinctly states that on traffic from certain territory on which local

rates are allowed east of Committee gateways, Stopover privileges accorded east of these gateways will be recognized by Committee lines. This rate notice was issued for the purpose of protecting the acts of lines members of your Committee and also of Mr. Washburn's Committee.

Further, beg to advise you that this privilege is not accorded at Committee gateways, so-called, and will not be accorded on shipments originating east of such gateways unless the privilege is indulged in or allowed by the lines East of Committee gateways."

A copy of the letter has been sent to Chairman Southeastern Miss. Valley Ass'n, and you will be advised if the matter is not satisfactorily arranged in accord with your wishes as per Circular Letters 75-79-81, Proceedings No. 21 and 22.

Proportional Rates on Cotton Seed Oil from Cincinnati and Louisville to East St. Louis.

This subject was last considered at meeting July 22nd. See Proceedings No. B-22.

After discussion at meeting today, it was

Moved, That the subject be tabled.

Proportional Rates on Cotton Seed Oil from East St. Louis to Cincinnati, Louisville, Etc.

This subject was last considered at meeting May 27th, 1903, Proceedings No. B-21. Submitted to members by Circular Letter B-82, May 28th and to C. & E. I., C. C. C. & St. L. and I. C., Cairo, etc., roads by joint letter, May 28th, file B-383. Result, the adoption of proportional rate from East St. Louis, 8 cts. and from Cairo, etc., 10 cts., promulgated by Circular Letter No. B-86, June 15th, 1903.

At meeting today the subject brought up again by letter from a member which was read and after discussion the following announcement was made:

Lines interested individually advise their intention to cancel present proportional rate of 8 cts. per 100 lbs. and make effective rate of 12 cts. per 100 lbs., on Cotton

Seed Oil, in C. L., minimum, in wood, 30,000 lbs., in Tanks, capacity of tank, from East St. Louis to Louisville and Louisville Points, and Cincinnati and Cincinnati Points, under the jurisdiction of this Committee, on oil coming from west of the Mississippi River, provided similar advance in proportional rates on Cotton Seed Oil may be obtained from Cairo, Thebes, East Cape Girardeau and Gale, Ill.

Note:—The Chairman to submit the proposition to the Cairo, etc. Lines in a Joint Letter and advise result to members of the Committee, by Circular Letter.

Rates on Wagons, Farm, Broken and Defective Parts, Returned.

This subject was last considered at meeting July 22nd Proceedings No. 22. Chairman called attention to Circular Letter No. 92, Aug. 5th, 1903, and after discussion, it was

Moved, That the subject be tabled.

Rates on Chatts., Phosphate Rock, Sand, Gravel and Glass Sand.

Chairman stated the proposition of making change in rates on above mentioned Commodities was submitted by Circular Letter No. B-91, Aug. 1st, 1903, but answers received were not such as to warrant him in disposing of the subject.

After consideration today, it was

Moved, That the tariff remain as at present printed.

The following was also adopted:

Moved, That the Chairman call the attention of the Inspection Bureau to the fact that shipments of Chatts are being handled as Sand, at the Sand Rate.

Rate on Broom Corn, East St. Louis to Louisville.

The subject of changing rate on Broom Corn was last submitted by Circular Letter B-89, July 6th and individually declined as per Circular Letter B-90, July 10th.

It was brought up again today by a member and after

consideration, it was individually announced that no change would be made.

Rate on Tan Bark, Spent, Cincinnati, Louisville, Etc., to East St. Louis.

This subject was last considered at meeting May 27th, Proceedings No. 21.

Chairman stated it was brought up again by telegram from a member, which was read.

The member stating that he was advised by the parties shipping this Commodity, that it was impossible to move any at the present rates; after discussion, the following was adopted:

Moved, That the tariff be corrected making rate on Tan Bark, Spent, from Cincinnati, Louisville, etc., to East St. Louis, 6½ cts. per 100 lbs., C. L. minimum 50,000 lbs.

Gas House Coke, Rate Cincinnati and Louisville to East East St. Louis, Ill.

This subject was brought up by letter from a member, suggesting that the rate be made $1.40 per ton and after discussion, following was adopted:

Moved, That the tariff be corrected making the rate from Cincinnati, Louisville, etc., to East St. Louis, $1.40 per ton and from Cincinnati to Evansville, $1.40 per ton, C. L., minimum weight as per Official Class'n.

Exhibits for the St. Louis Fair.

Chairman brought this subject up for consideration but the Committee did not deem it necessary to take any action, the proposition being covered by Circulars issued by the individual roads, in line with C. F. A. Rules.

Issuing Transportation to Attendants in Charge of Live Stock.

This subject last considered at meeting July 22nd, see proceedings No. B-22. At meeting today it was stated that it would be impossible to do away with the free return transportation at Cincinnati, O., on account

of the conditions existing at Indianapolis and Chicago.

It was also stated by the Louisville Lines that they must make the same rules effective between East St. Louis and Louisville as are in effect between E. St. Louis and Cincinnati. After further discussion it was understood that Messrs. Hart, Campbell and Fraser would meet on Monday, 28th inst., to prepare a set of rules in line with those in effect by the Cincinnati lines, these rules to be incorporated in the Proceedings.

Said Rules when effective to rescind the rule adopted at meeting, July 22nd, 1903, Proceedings No. B-22.

Note:—It not being practicable to prepare and include the rules and regulations in these proceedings, they will be issued to all members by Circular Letter.

Whiskey from Points in Defined Territory to Arkansas Points.

This subject was last considered July 22nd, 1903, Proceedings No. B-22. At meeting today Chairman Sub-Committee reported as follows:

"The representatives of the Arkansas Lines advise that the present rule in regard to the handling of whiskey was put into effect at the time when rates were very low from the Miss. River Crossings to Little Rock and other Arkansas points. They are willing to have lines operating from Louisville handle whiskey at rates in effect through other Mississippi River Crossings and divide on present agreed percentages. From Cincinnati they propose to pro-rate per rate, or allow on L. C. L. shipments twenty cents per 100 pounds and on C. L. shipments tariff rate to East St. Louis."

In the discussion following it was stated by one of the members that there were percentages arrangements in effect from Cincinnati and Louisville to Arkansas Points on this traffic on basis of 30 per cent of the Little Rock Rate.

In view of the above it was

Moved, That the report of the Special Committee be received, the Committee discharged, subject strick-

en from the docket and the matter left to the individual lines for action.

Rates and Divisions on Sundry Commodities from Arkansas to Cincinnati and Louisville, not Authorized.

Referring to Proceedings No. B-22, July 22, 1903.

This is to advise you that I am in receipt of letter September 24, file A-318, from Chairman Arkansas Freight Committee, advising of the issue by the Mo. Pac., St. L. I. M. Ry. of Amendment No. 5, dated September 21st, 1903, effective September 1st, 1903) to division sheet No. 2 to Arkansas Freight Committee Tariff No. 3-B, Supplement No. 32, issued September 25th, 1903 (Mo. Pac. No. 4684), applying on miscellaneous Commodities between East St. Louis, etc., and Arkansas Common Points, which it is presumed will satisfy your wishes in connection with the cancellation of divisions between Arkansas Common Points and Louisville and Cincinnati.

If the above mentioned tariff and division sheet does not dispose of this subject in a satisfactory manner and in line with the action of Conference meeting, St. Louis, September 25th, 1901 (See Proceedings No. VII, September 25th, 1901), I will expect to hear from you to the contrary.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 87;" as follows:

PROCEEDINGS NO. B-24.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee.

P. C. C. & St. L. Ry.—M. S. Connelly.
Southern Ry.—R. A. Campbell, J. B. Campbell.
T. H. & I. R. R.—N. W. Taylor.

R. M. Fraser, Chairman.

Meeting convened 10:30 a. m.

Rate on Portland Cement, E. St. Louis to Louisville, Ky.

This subject brought up by letter from a member making application for rate of 7 cents per 100 pounds, East St. Louis to Louisville. Submitted to members by Circular Letter No. B-102, also Circular Letter No. B-106 giving result.

After consideration of the subject at meeting today, it was

Resolved, That the question of rates on Cement, in general, between East St. Louis, Louisville, Cincinnati, etc., be referred to a Committee of four (4) to make recommendation to this Committee at next meeting.

Chairman appointed as the Committee: Messrs. M. S. Connelly, Chairman; R. A. Campbell, Edw. Hart, Jr., and L. J. Irwin.

The Committee to also consider at the same time the subject of Through Rates and Divisions on Cement Plaster to Cincinnati, Louisville, etc., from Acme, Texas, See Proceedings December 19th, 1900; from Marlow, I. T., etc., via M. K. & T. R. R., See Proceedings No. 13, April 17th, 1902, also Marlow, I. T., via Frisco Route, see Circular Letter B-98, September 14th, 1903, Cement, should be Cement Plaster.

Through rate and division from Marlow, I. T., only authorized by letter to G. F. A., Frisco, Sept. 21st, also see letter November 17th, 1903, regarding other points, Okarche-Ferguson and Watonga, Oklahoma Territory, included in C. R. I. & P. R. R. Amendment No. 10 and 11.

Cotton Seed Oil, etc., Proportional Rates from East St. Louis, Cairo, Etc., on Shipments Originating West of Mississippi River.

This subject considered at meeting September 23d, see proceedings No. B-23, page 2.

At meeting today Chairman read correspondence since last meeting, etc., and after careful consideration action was taken as follows:

Interested lines individually advise that effective December 31st, 1903, the proportional rates in Joint Freight Tariff, I. C. C. B-37, on Cotton Seed Oil from East St. Louis to Cincinnati and Louisville, etc., be cancelled,.

Effective January 1st, 1904, rate from East St. Louis to Cincinnati, and Cincinnati Points, Louisville and Louisville Points (under the jurisdiction of this Committee) on Cotton Seed Oil, Foots, Settlings, Residum, Tank Bottoms and Soap Stock, originating at points west of the Mississippi River (except as provided below) will be 10 cts. per 100 lbs., with the understanding that Cairo, Gale, Thebes and East Cape Girardeau lines shall hold a differential yielding a proportion from Cairo, Gale, Thebes and East Cape Girardeau, on such traffic, of not less than 2 cts. per 100 lbs. over East St. Louis.

The understanding being that where through rates are published from Arkansas Common or Pro-rating Points to Cincinnati, and Cincinnati Points, Louisville and Louisville Points (under the jurisdiction of this Committee) established percents of 60 per cent for Arkansas Lines and 40 per cent for Committee Lines, via East St. Louis, shall prevail for the division of such rates, said division to be subject to a minimum of 8 cts. per 100 lbs., East St. Louis to Cincinnati, Louisville, etc., with the understanding that Cairo, Gale, Thebes and East Cape Girardeau lines shall not accept less than a differential of 2 cts. per 100 lbs. over East St. Louis with a minimum of 10 cts. per 100 lbs.

On Cotton Seed Oil, Foots and Settlings, Residum, Tank Bottoms and Soap Stock from non-prorating points in Arkansas, as well as other points west of the Mississippi River rate of not less than 10 cts. per 100 lbs. shall be accepted from East St. Louis and from Cairo, Gale, Thebes and East Cape Girardeau, 12 cts. per 100 lbs.

Note.—The above will be transmitted by letter 27th to Messrs. W. E. Keepers, Wm. Campbell and C. J. Brister with request to be advised as to the rates they will maintain effective Jan. 1st, 1904, from Cairo, Gale, Thebes and East Cape Girardeau and result will be communicated by Circular Letter.

I understand that on the Commodities named above, the Minimum C. L. weight will be, in wood, 30,000 lbs. and in Tanks, capacity of Tank and will provide for same in Proportional Tariff and in notice to G. F. A., Missouri Pacific Ry., Chairman, Arkansas Freight Committee and Chairman, Southwestern Tariff Bureau.

Rates and Divisions on Cotton Seed Products (Oil, Etc., Excepted), from Arkansas.

Chairman called attention to Arkansas Freight Committee Tariff No. 4-B, Mo. Pac. No. 4570 and Division Sheets, stating that he had taken the position that the Committee legislation at meeting May 27th, 1903, cancelled the action of meeting Feb. 27th, 1902, Proceed-

ings No. 4, etc., making the Tariff rates from East St. Louis apply on this traffic.

Correspondence on the subject was read and after discussion the following action was taken:

Lines, members of this Committee, individually advise that effective Jan. 1st, 1904, in the division of through rates on Cotton Seed Products, C. L. minimum weight as per Official Class'n. (except Cotton Seed Oil, Foots, Settlings, Residum, Tank Bottoms and Soap Stock) forwarded from all points in Arkansas, (except Texarkana) via East St. Louis to Cincinnati and Cincinnati Points, Louisville and Louisville Points, under the jurisdiction of this Committee, they will accept 40 per cent of the established through rates from the original point of shipment.

Note:—G. F. A., Mo. Pac. and Chairman, Arkansas Freight Committee will be advised of this action.

Rate on Broom Corn, East St. Louis to Louisville from Indian and Oklahoma Territories.

This subject was last considered Sept. 23rd, Proceedings No. B-23. Chairman called attention to Circular Letter No. B-103, which was favorably considered by the members, stating he had taken the subject up with the Southwestern Roads. The result of correspondence being that subject has been referred to the Indian & Oklahoma Conference Committee for consideration, members to be advised by Circular Letter of final disposition.

Rate on Whiskey from Louisville to East St. Louis.

A member stated he had some correspondence on this subject to the effect that the L. & N. had established rate of 17 cts. per 100 lbs, on Whiskey in wood, any quantity.

After due consideration of the subject the L. H. & St. L. Ry. and Southern Ry. announced that effective December 1st, 1903, a rate of 17 cts. per 100 lbs., on Whiskey in wood, any quantity, will be made Louisville

to East St. Louis proper, and when destined beyond to non-prorating points.

Full percentage proportion will be charged to East St. Louis on traffic destined to prorating points beyond East St. Louis.

Note:—Telegram dated November 25th, was received from G. F. A., B. & O. S. W. R. R., as follows:

"In view of notice of L. H. & St. L. and Southern Rys. to apply 17 cts. on Whiskey, any quantity, Louisville to East St. Louis, we are compelled to give like notice and must carry the same rate from Cincinnati. Will issue Tariff accordingly, effective December 1st.

Rate on Hay, East St. Louis to Louisville.

This subject last submitted by Circular Letter No. B-24 and result announced by Circular Letter B-25.

The subject brought up again by a member who stated that since the rate on Hay has been 15 cts. per 100 lbs. there has been no movement East St. Louis to Louisville, etc.

It was, however, individually decided not to make any change.

Telegraph Cipher Code.

Chairman read letter Oct. 29th, from Chairman, Southwestern Tariff Committee calling attention to Southwestern Tariff Committee Cipher Code and requesting to know whether members of this Committee would adopt the code and the number of copies desired.

The Chairman was instructed to advise Chairman Cale that the members of this Committee do not care to adopt the Code and therefore do not desire any copies.

Pig Lead Rates Charged on Antimonial Pig Lead.

Chairman called attention to the fact that a member of the Committee was applying the Pig Lead Rate on Antimonial Pig Lead and after discussion the following was adopted:

Resolved, That the Chairman be instructed to correspond with the representatives of the line who is handling Antimonial Pig Lead at the Pig Lead Rate and request him to honor correction on any shipments that are so billed and report result by Advice Letter to the members of the Committee.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 88;" as follows:

PROCEEDINGS NO. B-25.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee.

Louisville, Ky., Feb. 3, 1904.

Representation:

B. & O. S. W. R. R.—Edw. Hart, Jr., J. M. Ryan, E. B. Tullis.

L. & E. P. Co.—C. V. Williams.
L. H. & St. L. Ry.—L. J. Irwin.
P. C. C. & St. L. Ry.—M. S. Connelly, W. N. Tallant.
Southern Ry.—J. B. Campbell.
T. H. & I. R. R.—Wm. Hodgdon, by M. S. Connelly.

R. M. Fraser, Chairman.

Meeting convened 10:30 a. m.

Cotton Seed Oil, Proportional Rates from East St. Louis, Cairo, Etc., on Shipments Originating West of Mississippi River. Unauthorized Rates and Divisions on Cotton Seed Products from Arkansas.

The above subjects last considered at meeting November 25th, see Proceedings No. B-24.

At meeting today Chairman read correspondence on the subject since last meeting, with Mo. Pac. Ry. and Chairman Arkansas Freight Committee, etc., for information of members, showing present status of affairs, and it was

Moved, That the subject be tabled.

Rates, Etc., on all Kinds of Cement and Plaster.

This subject last considered at meeting November 25th, see Proceedings No. B-24, and referred to a Special Committee, consisting of Messrs. Connelly, Hart, Campbell and Irwin, for consideration and report to the general committee.

At meeting today Chairman read report of the Special Committee (copy attached to docket dated January 18th) and after careful consideration and adoption of report by sections, it was

Individually announced by members of the Committee that the report of the Special Committee be adopted as a whole and that Tariffs be amended in accordance therewith.

Rate and Divisions on Broom Corn from Indian and Oklahoma Territories via East St. Louis to Louisville.

This subject was last considered at meeting November 25th, see Proceedings No. B-24.

At meeting today Chairman called attention to Circular Letter No. B-112, January 30, file B-445, as follows:

"I am in receipt of Mo. Pac. Joint Freight Tariff No. I. S. 11811, in connection with Kansas City, Mexico & Orient Ry., dated January 27th, effective February 2nd, 1904, applying on Broom Corn, C. L. minimum weight 16,000 pounds, naming through rates of 72½ cents and 73½ cents per 100 pounds from points on the K. C. M. & O. Ry. via East St. Louis to Louisville, Ky.

I also have Mo. Pac. Division Sheet No. 1 in connection with the above named Tariff dated January 28th, effective February 2nd, 1904, which allows lines east of East St. Louis 25 cents per 100 pounds.

Have not as yet received tariff from any of the other Western roads."

And it was,

Moved, That the subject be tabled.

Rate on Residum of Sulphate of Lime, East St. Louis to New Albany, Louisville and Cincinnati.

This subject brought up by letter from a member, requesting subject to be docketed. Chairman stated that similar application had been made for rates to points under the jurisdiction of the St. Louis East-bound Freight Committee, that he had conferred with the parties as to rates to Cincinnati, etc., and received reply that if they could secure rate of $1.50 per ton from St. Louis they could undoubtedly move the traffic in large quantities, etc.

After consideration, it was:

Moved, That the subject be tabled.

Rate on Mixed Carload Dressed Meat and Packing House Products, East St. Louis to Louisville.

This subject brought up by Inspection Department issuing corrections on shipments of Packing House Products to 5th class, etc., which are declined by member forwarding shipment.

At meeting today Chairman read correspondence on the subject and general discussion followed. Attendance was called to Official Classification rating on Packing House Products, to Joint Freight Tariff I. C. C. B-36, naming Commodity rate 12 cents, also to rule 3, page 4, of Joint Freight Tariff, the contention being that the rules seem to conflict, and it was

Moved, That the matter be left to the Chairman for investigation and if found that instructions conflict or are not clear to suggest a remedy.

Sublimed Lead Rate be Made Same as on Barytes and Zinc Oxide, C. L.

This subject brought up by letter from a member, which was read and after discussion, it was

Individually announced by members that the rate be made 11 cts. per 100 lbs. on Sublimed Lead, East St. Louis to Cincinnati, Louisville, etc., same as on Barytes, etc., in line with C. F. A. Info. 4889, tariff to be amended accordingly.

Basis for Division of Rates on Government Freight to Points West of the Mississippi River.

This subject brought up by letter Dec. 23rd, from a member submitted to members by Circular Letter No. B-109, Dec. 26th, file B-446.

At meeting today Chairman read replies received, some of which were that subject be docketed for consideration at meeting.

After discussion following was adopted:

Whereas, The question having arisen as to the proper basis for dividing net land grant rates on Government Traffic forwarded from Jeffersonville, Ind., to points west of the Mississippi River, to which the through rates on Commercial traffic are based on Mississippi River combination, and;

Whereas, the discussion developes that some lines are of the opinion that the lines east of East St. Louis, on traffic moving via that gateway should require full tariff rates, while others are of the opinion that the lines to East St. Louis should shrink their revenue to the extent of the net rate available to Upper Mississippi River Crossings by reason of the land grant haul of the Illinois Central R. R. between Kankakee and Chicago, and;

Whereas, It is understood that this land grant deduction through Kankakee and Chicago is equivalent to 7½ per cent of the current proportional rate from Jeffersonville to Upper Mississippi River Crossings, it is

Recommended, That the lines, members of this Committee, announced to their Western connections that in the equalization of net land grant rates on this particular traffic, the lines from Jeffersonville to East St. Louis, will not accept less than 92½ per cent of the full tariff rate current from Jeffersonville to East St. Louis, the notice to this effect to be filed with Western Roads interested, by the Chairman of the Committee for account of individual lines.

Division of Rates from Louisville to Indian & Oklahoma Territory Points via East St. Louis.

This subject last considered at meeting July 22nd, proceedings No. B-22, and brought up again by letter from member which was read and referred to the Chairman for further information and report by Circular Letter.

Correspondence with Chairman C. F. A. Regarding Rates and Divisions Authorized by this Committe.

Chairman read correspondence on the above subject and it was

Moved, That the subject be tabled.

Proper Rate to Apply on Mop Cotton.

This subject brought up by letter from a member which was read and after discussion, it was

Individually announced by members that the Commodity Rate now in effect on Yarn, Cotton, be made to apply on Mop Yarn, and Joint Freight Tariff to be amended accordingly.

Minimum Weight on Soap Stock, Etc. C. L.

This subject brought up by correspondenc from Sec'y C. & O. R. Committee which the Chairman read.

A member stated that when the subject was considcerd by the C. & O. R. Committee he stated this Committee made the minimum 35,000 lbs. because the C. & O. R. Committee carried lower minimum in their tariff and he was of the opinion that if the C. & O. R. Com-

mittee made minimum 40,000 lbs. that this Committee would be willing to make the same and it was

Individually announced by members that the C. L. minimum weight be made 40,000 lbs. on Soap Stock, etc., Joint Freight Tariff to be amended accordingly.

Artesian Well Water, De Soto, Mo., to Louisville.

This subject brought up by letter from A. F. G. A., Mo. Pac. Ry., which was read and after discussion, it was

Moved, That the Chairman ascertain from the Mo. Pac. what rate they propose to make from De Soto to East St. Louis, information to be submitted to members by Circular Letter.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 89;" as follows:

PROCEEDINGS NO. B-26.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee.

St. Louis, Mo., May 25th, 1904.

Representation:

B. & O. S. W. R. R.—A. Fries, J. W. Lindsay.
C. H. & D. Ry.—E. J. Hutchinson.
C. C. C. & St. L. Ry.—Walter Nichols.
C. I. & W. Ry.—J. S. Lazarus, By E. J. Hutchinson.

L. H. & St. L. Ry.—W. C. Lindsay.
L. & E. P. Co.—
P. C. C. & St. L. Ry.—M. S. Connelly.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—N. W. Taylor.

Meeting convened 10:00 a. m.

Proposition to Except Enameled Brick from Commodity Rating.

Chairman stated this subject brought up by correspondence from Chairman C. F. A., stating C. & O. R. Committee were willing to restore Classification, etc., submitted to all members by Circular Letter B-124, April 18th. As all members did not favor the proposition, as shown in Circular Letter No. B-126, subject was docketed. At meeting today correspondence was read and after discussion the Chairman was instructed to confer with interested parties advising result.

Rate on Fire Brick.

This subject brought up by application for reduced rate.

Chairman read correspondence on the subject and it was

Moved, That the rate on Fire Brick, C. L. minimum 40,000 pounds from Louisville only, to East St. Louis, be made $1.75 per ton.

Commodity Rating on Car Wheels and Axles.

This subject brought up by correspondence from the Inspection Department and after consideration, it was

Moved, That the Commodity rating on wheels, car, new, and axles, applies on Wheels, car, separate or attached to Axles, C. L. minimum weight 40,000 pounds.

Rate on Leaf Tobacco Samples in Boxes.

This subject brought up by correspondence, which was read and following adopted:

It is the understanding of the St. Louis-Cincinnati-Louisville Freight Committee that when shipments of Tobacco samples accompany shipments of unmanufactured tobacco in hogsheads, the weight of the tobacco contained in the cases of samples is included in the

weight marked on the hogsheads, therefore if the entire shipment is billed at the total gross weight, as marked on the hogsheads, such weight will cover the entire shipments and no extra charge will be made for the weight of the samples. If tobacco samples in cases be shipped not accompanied by hogsheads, then official Classification rate should apply.

Divisions on Traffic from Louisiana.

This subject brought up by a letter from a member, which was read and after discussion, it was

Moved, That in view of the fact that this Committee has no jurisdiction in the matter, subject to be tabled.

Proportional Rates on Cotton Seed Products from E. St. Louis, When Originating West of the Mississippi River.

This subject brought up by correspondence with a member, which was read. In the discussion it was the consensus of opinion that the present legislation (proceedings B-24, November 25th, 1903) was sufficient to fully cover the rates and divisions on the Commodity from the territory in question and it was suggested that the Chairman so notify the member.

Basis for Division of Rates on Government Freight to Points West of the Mississippi River.

Chairman called attention to Circular Letter No. B-119, giving present status of this matter and after discussion, following was adopted:

Moved, That lines members of this Committee, reaffirm their previous individual announcement (Proceedings B-25, February 3rd, 1904) and as shown in Joint Letter to Western Roads, issued by the Chairman, February 8th, file B-446 and all pledge themselves to stand by this position.

Election of Executive Committee.

The term for which the executive committee was elected in Jan. 1903, having expired, it was

Moved, That Messrs. R. A. Campbell, Wm. Hodgdon and Walter Nichols be and are hereby elected an Executive Committee for the year 1904, and to hold office as provided in the Articles of Organization.

Rules Governing Shipments of P. H. P., Fresh Meats, Etc.

This subject brought up by a letter from a member, which was read. Chairman stated that the rules published in Joint Committee Tariff I. C. C. B-38 are a copy of rules published in C. & O. R. Committee Circular Letter No. 353, April 5th, 1904, as instructed by members of the Committee in reply to Circular Letter No. B-126.

After consideration the following was adopted:

Whereas, The wording of the present Rule No. 3 in Amendment No. 3, to I. C. C. B-33, governing shipments of Packing House Products, etc., results in misunderstanding of the desire of lines, members of the Committee, particularly with the Inspectors and Local Agents. Lines interested individually announce that rule No. 3 governing shipments of Packing House Products, etc., be amended to read as follows:

Rule 3.—When any of the articles specified in Note 1 or articles taking 5th class rates in carloads as per current Official Classification are loaded in a car containing 3,000 pounds or less of dressed beef, sheep or hogs, said dressed beef, sheep or hogs shall be charged for at the carload dressed beef rate at 3,000 pounds. All other articles specified in Note 1 at the carload packing house product rate, actual weight, and those not specified in Note 1, taking 5th class in carloads as per current Official Classification, at the actual weight and at their carload class rate, but the weight of the latter shall not be used to make up the deficiency where the weight of the dressed beef, sheep or hogs is less than 3,000 pounds.

Should the car contain a greater quantity than 3,000 pounds of dressed beef, sheep or hogs, the actual

weight of the dressed beef, sheep or hogs shall be charged for. Other articles than those enumerated in Note 1 and articles taking 5th class in carloads, as per current official classification, may be loaded in the same car, but such other articles will be charged for at the less than carload rate applying thereon. In no case, however, will the minimum charge on the entire shipment be less than 20,000 pounds, at the dressed beef rate."

(See Amendment No. 4 to I. C. C. B-38.)

Next Regular Meeting of the Committee.

Chairman brought up the question as to when and where the next regular meeting of the Committee should be held, and it was

Moved, That the next regular meeting of the Committee be held in St. Louis on June 22nd.

Rates on Melons.

This subject brought up by letter May 23rd, file Y-8-9419 from Mo. Pac. Ry., which the Chairman read and after discussion, it was

Moved, That the subject be tabled.

Rates on Whiskey, Louisville to East St. Louis.

Members, read correspondence on subject of restoring Whiskey, in wood, any quantity, to Official Classification rating and following was adopted:

Lines, members of this Committee, carrying a 17 cent rate, any quantity, on Whiskey, in wood, from Louisville and Cincinnati to East St. Louis, individually advise that effective June 15th rates will be restored to the Official Classification basis and the Chairman is requested to correspond with the Chairman of the Louisville and Cincinnati Freight Committees with the view to having same basis announced from Cincinnati and Louisville to Upper Mississippi River Crossings.

Issuing Return Transportation to Attendants in Charge of Live Stock.

Chairman called attention to Circular Letter B-129, May 20th, and requested to know whether members desired to take any action on the subject, and it was

Moved, That the subject be tabled.

Rate on Scrap Iron, East St. Louis to Louisville.

This subject brought up again by letter from a member making application for reduction in rate.

The subject was submitted to members by Circular Letter No. B-125, April 22nd, and disposed of as shown in Circular Letter No. B-127, May 2nd. At meeting today the member making the application stated his reasons and after some discussion the following was adopted:

Lines interested individually advise that effect on legal notice they will make rate on Scrap Iron, from East St. Louis to Louisville and Louisville Points, Cincinnati and Cincinnati Points, $1.70 per gross ton, 2,240 pounds, C. L. minimum weight 15 gross tons.

(See Amendment No. 4 to I. C. C. No. B-38.)

Switching at the St. Louis Syrup and Refining Co., Granite City, Ill.

This subject brought up by letter from a member, which was read and action taken as follows:

Lines interested individually advise they will not absorb any charge for switching, drayage or any other terminal expense assessed by the St. Louis Syrup and Refining Company, at Granite City, Ill.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 90;" as follows:

PROCEEDINGS NO. B-27.

Southern Ry.—C. D. Morris.
T. H. & I. R. R.—N. W. Taylor.

Meeting convened 10:30 a. m.

Rate on Leaf Tobacco Samples in Boxes.

This subject was last considered at meeting May 25th, Proceedings No. B-26, brought up again by letter from a member suggesting that it would be well to provide for the basis in the Committee tariffs, and resolution to that effect was offered and on vote was declared lost.

It was stated by a member that the method of handling tobacco has changed recently, it being claimed that the hogshead of tobacco is now weighed after the samples are taken out, shipped at the reduced weight and it was suggested that the subject be referred to the Louisville and Cincinnati Committee for investigation.

The following was then adopted:

Whereas, In view of the statements made, to the effect that some members understand, after samples have been taken from the hogsheads of tobacco, the tobacco in the hogshead is reweighed and billed at the reweighed

weight, and in that case the Railroads do not get revenue on the weight of the sample Tobacco shipped in the cases, it is therefore

Moved, That the matter be referred to the Cincinnati and Louisville Freight Committee, for investigation and recommendation.

Rate on Talc, Carloads.

This subject submitted to members by Circular Letter No. B-130, June 6th, 1904, and at meeting today, after further consideration, it was

Moved, That a rate of 10c per 100 lbs. be established on Talc, C. L., minimum weight 40,000 lbs. between East St. Louis, Cincinnati and Louisville.

Letter from Auditor U. S. Treasury Department Regarding Application via Upper Mississippi River Crossings of Rates on Commodities in this Committee's Tariffs.

Chairman stated that this subject brought up by letter from Auditor U. S. Treasury Department, requesting information as to whether the Commodity rates published by this Committee in their Tariffs were applicable on traffic via Upper Miss. River Crossings, etc.

Correspondence was read and as the subject was satisfactorily disposed of by the Chairman, it was

Moved, That the subject be stricken from the docket.

Minimum Carload Weight on Potatoes from Texas, via East St. Louis to Cincinnati and Louisville.

This subject submitted to members by Circular Letter No. B-131, June 18th, 1904, and after consideration at meeting today, it was

Moved, That there be no change in the present minimum C. L. weight of 30,000 lbs. on potatoes from East St. Louis, when coming from beyond, and the Chairman be instructed to call attention of the Western Lines to the fact that the minimum required by lines east of East. Louis is 30,000 lbs. with the request that such

lines as have tariffs at variance with this minimum, correct their tariffs accordingly.

Rates on Melons.

This subject brought up by letter from a member calling attention to action of the Eastbound Freight Committee, as per Special Notice No. 1485 (CFA. Info 5244).

After considerable discussion the following was adopted:

Moved, That the Chairman is hereby instructed to investigate and if it is found that the through rates on Melons, in carloads, from Southwestern Missouri and Arkansas points to Louisville and Cincinnati are made on combination to and from Cairo and are less than the combination via East St. Louis, initial lines be authorized to publish the same rates via East St. Louis as are applicable via Cairo, such through rates to allow Western Lines the same proportion to East St. Louis as accrues to them on like shipments to CFA. points (as per CFE Info. 5244) provided said through rates do not in any case allow lines east of East St. Louis, less than 13 cts. per 100 lbs. to Louisville and Cincinnati. In other words, the Chairman, after investigation is to furnish Western lines with the rate per 100 lbs. that will be accepted by lines east of East St. Louis to Louisville and Cincinnati.

Application for Reduced Rate on School Books, Carloads.

This subject was brought up by letter from a shipper which the Chairman read. Attention being called to the disparity in Official Classification of the various kinds of blank books, school copy books, etc., and it was suggested that the subject should be referred to the Official Class'n Committee.

After discussion the following was adopted:

Moved, That the application be declined and the Chairman take the subject up with the Official Class'n

Committee with the view to having rate on School Copy Books advanced to a rating more in line with the other kinds of books.

Next Regular Meeting of This Committee.

The question as to when and where the next regular meeting of the Committee should be held was brought up by the Chairman and the following was adopted:

Moved, That the next regular meeting be held in St. Louis on Wednesday, Sept. 28th, 1904, unless in the judgment of the Chairman it is necessary to call a meeting at an earlier date.

R. M. Fraser, Chairman.

Adjourned."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 91;" as follows:

Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—G. L. Stevens.

Meeting convened 10:00 a. m.

Rate on Leaf Tobacco Samples in Boxes.

This subject last considered at meeting June 22nd, see Proceedings B-27, and referred to Cincinnati and Louisville Freight Committees for consideration and recommendation. At meeting today Chairman read the reports of the Cincinnati and Louisville Committees, which was to the effect that the weight of the hogshead includes the weight of the samples and the samples should therefore be carried free, when shipped with the hogshead.

In view of the recommendation of the Louisville and Cincinnati Committees, it was

Moved, That we reaffirm action taken at meeting May 25th, proceedings No. B-26, as follows:

"It is the understanding of the St. Louis-Cincinnati-Louisville Freight Committee that when shipments of Tobacco samples accompany shipments of unmanufactured tobacco in hogsheads, the weight of the Tobacco contained in the cases of samples is included in the weight marked on the hogsheads, therefore if the entire shipment is billed at the total gross weight, as marked on the hogsheads, such weight will cover the entire shipment and no extra charge should be made for the weight of the samples.

If tobacco samples in cases be shipped not accompanied by hogsheads, then official Classification rate should apply.

Rate on Cast Iron Pipe and Fittings, Carloads, Louisville, Etc., to East St. Louis.

Chairman called attention to rates published in C. F. A. Information 5443 on Cast Iron Pipe, C. L. and requested information as to whether rates named therein from Cincinnati, Ohio, Louisville, Ky., Jeffersonville and New Albany, Ind., to East St. Louis be published in this Committee's Tariffs.

Attention was also called to Chicago & Ohio River Committee Proportional Rates No. 2 publishing rate on Pipe and Fittings, Cast Iron, and after discussion, it was

Moved, That the Chairman be instructed to publish rates shown in C. F. A. Information 5443 in this Committee's Tariffs, on Pipe and Fittings, Cast Iron. The rate to apply westward only.

Rate on Bar Iron, Carloads.

Attention was called to Southern Ry. Tariff I. C. C. No. C-469, September 5th, 1904, and L. H. & St. L. Ry. Tariff A-441, I. C. C. 254, September 17th, 1904, naming rate on Bar Iron, Louisville, Ky., to East St. Louis and after discussion, it was

Moved, That the subject be tabled.

Proportional Rate on Grain, East St. Louis to New Albany, Ind.

This subject brought up by letter from a member requesting that rate of 4 cents per 100 pounds on Grain to Louisville be shown in the Proportional Tariff as also applying to New Albany, Ind., via the Southern Ry., and it was

Moved, That the Chairman be instructed to amend Joint Proportional Tariff I. C. C. B-41, making rate of 4 cents per 100 pounds on Grain to Louisville, also apply to New Albany, Ind., via the Southern Ry.

Rate on Scrap Iron, East St. Louis to Cincinnati, Louisville, Etc.

This subject submitted to members by Circular Letter No. 136 and disposed of as shown by Circular Letter No. B-138-140 and 145.

Subject brought up by telegram from Chairman C. F. A. and after consideration, it was

Moved, That the subject be laid on the table.

Letter from Member Requesting that Future Issues of Evansville-Cincinnati Tariffs Provide for Same Rates Applying to and from Newport, Covington and Evansville.

This subject brought up by letter from A. G. F. A. Southern Ry., which was read and after discussion, it was

Moved, That Newport and Covington, Ky., be added to the Cincinnati-Evansville Tariff (No. A-8).

Letter from a Member Suggesting that Roads, not Members of this Committee Who are in the Market for St. Louis-Cincinnati-Louisville, Etc., Traffic be also named on Tariffs Issued by This Committee.

This subject brought up by correspondence from a member, submitted to members by Circular Letter No. B-133 and disposed of as per Circular Letter No. B-135. On request of a member subject was docketed for further consideration at meeting today and after discussion the roads interested individually decided not to make effective the propostition.

Rate on Bolts, Handle, in the Rough, Carloads.

This subject brought up by correspondence from a member, which was read. It was stated that the Commodity in question was simply rough timber and entitled to the lumber rate and after due consideration following was individually adopted by roads interested:

Moved, That rate of 9 cents per 100 pounds be established on Bolts, Handle, in the rough, sawed or split, C. L., minimum weight 30,000 pounds, from East St. Louis to Louisville and Louisville Points.

Proportional Rate on Broom Corn to also Apply to Cincinnati.

This subject brought up by a member suggesting that the proportional rate on Broom Corn to Louisville also apply to Cincinnati, and it was

Moved, That the proportional rate now in effect on Broom Corn to Louisville be authorized to apply to Cincinnati also.

Division of Rates from Louisville to Indian and Oklahoma Territories, via East St. Louis.

This subject last considered February 3rd, see Proceedings No. B-25, also see Circular Letter No. B-113.

Brought up again by letter from a member requesting that subject be docketed for further consideration, the desire being to ascertain whether the conditions have changed so that the Southern Ry. would withdraw their percentage arrangement.

In view of the statement by A. G. F. A. Southern Ry. that the conditions have not changed, it was

Moved, That the subject be laid on the table.

Rates on Sand, all Kinds.

Chairman called attention to rates on Sand, all kinds, published in C. F. A. Information 5429 and requested to know whether members desired any change made in the rates, in the Committee tariffs.

After consideration it was individually announced that no change be made in the present rates on sand

Rate on Glassware, Mixed Carloads Lamps, Lanterns, Etc., Evansville to Louisville.

The applicant requested permission to withdraw this subject, which was granted.

Rate on Glass Bottles, C. L., Evansville to Louisville.

This subject brought up by a member making application for rate of 10 cents per 100 pounds, Evansville to Louisville, account of River competition and similar rates being in effect from Gas Belt.

After discussion the following was individually adopted:

Moved, That rate of 10 cents per 100 pounds be established on Glass Bottles, C. L. minimum weight 26,000 pounds, from Evansville to Louisville. The rate via Boat to be made the usual differential under the all rail rate, viz: 2 cents, making rate via Boat 8 cents.

Wrapping Paper, C. L., Evansville to Louisville.

This subject brought up by letter from a member, making application for rate of 6 cts per 100 lbs., Evansville to Louisville, which was read and after consideration following was individually adopted:

Moved, That rate of 6 cts. per 100 lbs. be established on Wrapping Paper, C. L., minimum weight 40,000 lbs., all rail, Evansville to Louisville, the rate via Boat to be 1c less, viz. 5c per cwt.

Removal of Chairman's Office from Union Station to Wainwright Building, 7th and Chestnut Streets.

The Chairman stated that at meeting of the St. Louis Eastbound Freight Committee, July 29th, (Proceedings No. 95) letter of July 26th from Pres't Term'l R. R. Ass'n. advising that they needed the space we occupied, was read and it was

Resolved, That our Executive Committee be empowered to act in conjunction with the Executive Committees of the St. Louis-Cincinnati-Louisville Freight Committee and the St. Louis Coal Tariff Bureau in the securing of other rooms and that their action be final.

In accordance with the above Circular Letter was issued dated July 30th, requesting vote of members on the above proposition, and in accordance therewith members of the Executive Committee of the St. Louis Eastbound Freight Committee, St. Louis-Cincinnati-Louisville Freight Committee and St. Louis Coal Tariff Bureau met on Aug. 4th, in the office of G. F. A., T. H. & I. R. R. and conferred regarding removal of the Committee Rooms from Union Station.

As the result of said conference the office of the above named organizations were removed to Rooms 314-315 Wainwright Bldg., 7th and Chestnut Streets, St. Louis, Mo., on August 16th.

Date and Place for Next Regular Meeting.

On motion meeting adjourned until Wednesday, November 23rd, at the Committee Rooms, 314-315 Wainwright Bldg., St. Louis, Mo.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 92"; as follows:

PROCEEDINGS NO. B-29.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

P. C. C. & St. L. Ry.—F. E. Sawyer.
Southern Ry.—R. A. Campbell.
T. H. & I. R. R.—N. W. Taylor.

Meeting convened 10:00 a. m.

Proportional Rate on Unmanufactured Tobacco.

This subject brought up by letter from a member calling attention to proportional rate 10 cts. per 100 lbs. on Tobacco, Cincinnati and Louisville to East St. Louis, etc., which was read.

A. G. F. A., Southern Ry. stated their line and the L. H. & St. L. Ry. accepted 10 cts. from Louisville to East St. Louis as proportion of through rate on Tobacco from interior Kentucky Points, whereas, the B. & O. S. W. had published proportional rate from Cincinnati, applying on shipments originating at Ohio River Landings, etc.

It was contended that the subject was regarding division of a through rate from interior Kentucky Points and not a Committee matter and could be better handled by the direct lines, and it was

Resolved, That the matter be left to the direct lines to settle and subject laid on the table.

Rates on Glass Bottles.

Rates on Glassware.

Above subjects submitted by Circular Letters No. B-151 and B-148 and 149 respectively.

It was stated by a member that a meeting had been called in Chicago Nov. 29th by Chairman, C. F. A., to consider rates on Glassware, etc., generally, and it was

Resolved, That the above subjects be laid over until action of meeting called for Nov. 29th, is ascertained.

It was also

Resolved, That in the event action is taken in Chicago looking toward the restoration of rates, that the Chairman will immediately call a meeting of this Committee to consider the subject.

Proper Rating to Apply on Hams, Loose, C. L. in Refrigerator Cars.

Chairman called attention to the fact that in the Joint Freight Tariff I. C. C. B-40 there is an Item in the Commodity list "Meats, Bulk, C. L. Minimum 28,000 lbs.," which has caused controversy as to its proper application, and it was

Resolved, That the item "Meats, Bulk, C. L. minimum weight 28,000 lbs.," be eliminated from Tariff.

Minimum Carload Weight on Brandy, Bentonville, Ark., to Louisville.

Chairman called attention to Frisco Joint Tariff No. 31-B, naming minimum C. L. weight 24,000 lbs. on Brandy, Bentonville, Ark., to Louisville, Ky., stating that minimum weight was not in accordance with Classification, etc.

It was stated by a member that the tariff was originally put in via Memphis and rate and minimum put in via East. St. Louis to equalize, therefore Committee decided no action necessary.

Invitation to E. & T. H. R. R. to Become a Member of the Committee.

It was suggested that the E. & T. H. R. R. be invited to become a member and it was unanimously

Resolved, That the Chairman write to the General Freight Agent, E. & T. H. R. R., inviting that Company to become members of the Committee.

On motion meeting adjourned until Wednesday, January 25th, at Cincinnati, Ohio.

Complainant offers in evidence "Complainant's Exhibit Fraser No. 93;" as follows:

Meeting convened at 10:00 a. m.

Rate on Glass Bottles, Carloads.

This subject last considered at meeting November 23rd, Proceedings No. B-29. At meeting today it was

Resolved, That in view of C. F. A. legislation placing glass bottles on basis of 6th class, with minimum 30,000 lbs., it is the sense of this Coimmittee that all rates on this Commodity between points subject to the jurisdiction of this Committee be made to conform thereto. (See C. F. A. Info. 5569, effective Dec. 8th, 1904, to expire June 30, 1905.)

Rate on Glassware, C. L., Evansville to Louisville.

This subject last considered at meeting Nov. 23rd, 1904, Proceedings No. B-29. At meeting today it was

Moved, That the subject be tabled.

Rate on Scrap Iron, Carloads, and Rate on Bar Iron.

These subjects covered by Circular Letter No. B-157, etc., and by Proceedings No. B-28, were brought up for further consideration and it was

Moved, That the subjects mentioned be tabled.

Rate on Sand from Missouri Pits.

This subject was submitted to members by Circular Letters No. B-153, B-156 and B-159 and brought up again at meeting today by letter Jan. 16th, file 10077-R from Chairman Central Freight Ass'n, which was read and action taken as follows:

Whereas, It is the sense of this Committee that in order to protect the present rate adjustment as between Missouri and Illinois pits it is necessary for Western Roads to publish through tariffs and for Eastern Roads to cancel their proportional rates from East St. Louis to Louisville, Cincinnati, etc.,

Resolved, That the Chairman so advise Western Roads, requesting them to publish through rates and take the question up with Roads, members of the St. Louis Eastbound Freight Committee, with a view of having them take like action to Gas Belt and other points.

Note—This subject will be presented to the St. Louis Eastbound Freight Committee at their next meeting.

Rate on Scrap Iron.

The subject of rate on Scrap Iron from Cincinnati and Louisville to East St. Louis was submitted by Circular Letter No. B-160, Jan. 19th. Answers not having been received from all members, the subject of rate in both directions was considered at meeting today and it was individually announced that the rate on Scrap Iron, C. L. minimum 15 gross tons, would be $1.80 per gross ton, between East St. Louis, Cincinnati and Louisville, effective on Legal notice; and it was

Resolved, That the Chairman be instructed to amend Tariff I. C. C. No. B-42 in accordance with the announcements.

Attention having been called to the death of Mr. W. N. Tallant, D. F. A., P. P. C. & St. L. Ry., and a member of this Committee, action was taken as follows:

Whereas, This Committee has been profoundly shocked and grieved to learn of the unexpected and untimely death of Mr. W. N. Tallant, be it.

Resolved, That this Committee, in order to evidence the great appreciation in which Mr. Tallant was held, due to his many high qualities as a man and as a member of this Committee, unanimously adopts this resolution and directs that a copy thereof be sent to his family as an expression of its condolence and sympathy in their great grief.

There being no further business, on motion, the meeting adjourned.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 94;" as follows:

PROCEEDINGS NO. B-31.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee, Held in Central Freight Ass'n Rooms.

Chicago, Ill., May 11th 1905.

Representation:
B. & O. S. W. R. R.—S. T. McLaughlin, Edw. Hart, Jr., E. B. Tullis.

Ill. Cent. R. R.—
L. H. & St. L. Ry.—L. J. Irwin.
L. & E. P. Co.—C. V. Williams.
P. C. C. & St. L. Ry.—S. C. Matthews, F. E. Sawyer, by M. S. Connelly.
Southern Ry.—R. A. Campbell.
Vandalia R. R.—Wm. Hodgdon.
There were also present:
T. H. Noonan, G. M., C. L. and C. S. D.
D. M. Goodwyn, G. F. A., L. & N. R. R.
Andrew Broaddus, Mgr, C. G. D.
Meeting convened 2:30 p. m.

8. *(4) Rate on Bar Iron, C. L. Louisville and New Albany to East St. Louis.*

This subject was last considered at meeting January 25th, 1905, Proceedings No. B-30, was brought up again by letter from a member, and it was

Moved, That consideration of the subject be deferred until next meeting.

9. *Rate on Farm Wagons, C. L. Louisville to East St. Louis for Beyond.*

This subject was last considered by the Committee, as shown in Circular Letter No. B-176 and B-178.

It is brought up again by letter from a member, and it was

Recommended, That the matter be laid over until meeting on the 19th which is to consider the subject of special Commodity rates. A. G. F. A. Southern Ry. to make further investigations of the subject in the meantime.

10. *Rates on Burlaps and Gunny Bags, East St. Louis vs New Orleans and Memphis to Cincinnati, Louisville, Etc.*

This subject brought up by letter from a member, submitting letter from the St. Louis Traffic Bureau.

After consideration, it was

Moved, That the Chairman correspond with Mr. M. P. Washburn, Chairman, Southwestern Mississippi Valley Association, regarding rate in effect to Cincinnati, O., Covington and Newport, Ky., Louisville, Ky., New Albany and Jeffersonville, Ind., from New Orleans, Memphis, etc., with the view of ascertaining whether an advance can be made to the points named, as well as to Central Freight Association Territory.

11. *Rule Regarding Issuing Tariffs or Amendments on Receipt of C. F. A. Information Circulars.*

This subject was last considered at meeting March 25th, 1903, Proceedings No. 20, brought up again at meeting today for further consideration by a member, and it was

Moved, That hereafter when changes are made in the nature of an Exception to the Official Classification by issue of C. F. A. Information, which affect the Commodity list published in this Committee's Tariffs, before promulgating it for use of the Cincinnati-Louisville-East St. Louis Committee, the Chairman to ascertain from the Secretary of the Chicago & Ohio River Committee whether the C. & O. R. Committee is going to adopt C. F. A. Ruling, and if not, the Tariff of the St. Louis-Cincinnati-Louisville Lines is not to be changed.

When the Secretary of the Chicago & Ohio River Committee advises that their Tariff will be amended in line with C. F. A. Info. the changes shall also be made in this Committee's issues.

12. *Rate on Scrap Iron, C. L., Evansville to Cincinnati.*

This subject brought up by a member calling attention to individual issues from Evansville and East St. Louis.

After consideration, it was

Moved, That the matter be deferred until the meeting on the 19th inst., the Chairman to advise G. F. A. Ill. Cent. R. R. that the question of an advance from both Evansville and East St. Louis is being under consideration.

13 *Rate on Fire Brick, Louisville to Evansville.*

The subject of reducing rate on Fire Brick was submitted to members by Circular Letter No. B-171 and individually declined as stated in Circular Letter No. B-173.

After further consideration at meeting today, it was

Moved, That this matter be laid over until general meeting on the 19th inst., in the meantime G. F. A., L. H. & St. L. Ry. to investigate and advise his decisions as to an advance in the rate.

14. *Application for Rate and Divisions on Mahogany Logs or Timber, East St. Louis to Cincinnati, When from Mexican Gulf Ports via Galveston and Texas City.*

After consideration of the proposition, following was adopted:

Moved, That the roads, members of this Committee, be authorized to accept from East St. Louis to Cincinnati and Louisville respectively 32.6 per cent of the gross inland rates, with a minimum of 8 cents per 100 pounds. Initial lines to publish Through Tariff and Division Sheet.

15. *Special Committee Appointed to Consider and Recommend Changes in List of Commodities, Etc., Published in Joint Freight Tariff.*

Recommended, That the Chairman appoint Special Committee to check the Commodity List and rates now published in Tariff I. C. C. No. B-42 and Amendment No. 3, in effect between East St. Louis-Louisville and Louisville Points, and East St. Louis, Cincinnati and Cincinnati points, for the purpose of making recommendations as to any change in list of Commodities or Rates, that can be made and report to the Chairman at the earliest possible date in order that he may transmit the Special Committee's recommendation by Circular Letter to the general Committee prior to meeting to be called at the New Seelbach Hotel, Louisville, Ky., May 19th, at 10:00 a. m.

Said Committees to consist of six (6) westbound roads, three (3) at Cincinnati, three (3) at Louisville and four (4) eastbound roads, representing Cincinnati, Louisville, etc., from St. Louis.

The Committees above referred to and other members to meet on the 19th inst. for joint consideration and final action on the Special Committee reports, and it was further

Recommended, That where individual tariffs are in effect which have not been sanctioned by this Committee that all roads publishing the same furnish said Special Committees with copies thereof.

The representatives of roads named below were appointed to act on said Special Committee:

At Cincinnati—B. & O. S. W. R. R., C. C. C. & St. L. Ry., P. C. C. & St. L. Ry., S. T. McLaughlin, Chairman.

At Louisville—L. H. & St. L. Ry., Southern Ry., B. & O. S. W. R. R., L. J. Irwin, Chairman.

At East St. Louis—Southern Ry., L. H. & St. L. Ry., B. & O. S. W. R. R., R. A. Campbell, Chairman.

There being no further business, on motion, meeting adjourned to Friday, 19th inst., at Louisville, Ky.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 95;" as follows:

PROCEEDINGS NO B-32.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee, Held in the Grand Hotel.

Cincinnati, Ohio, May 19th, 1905.

Representation:

B. & O. S. W. R. R.—Edw. Hart, Jr., E. B. Tullis.
C. & A. Ry.—
C. P. & St. L. Ry.—
C. H. & D. Ry.—E. J. Hutchinson.
C. C. C. & St. L. Ry.—C. J. Brister, Geo. Metzger.
I. C. R. R.—
L. & E. P. Co.—
L. H. & St. L. Ry—L. J. Irwin.
P. C. C. & St. L. Ry.—S. C. Matthews.
Southern Ry.—R. A. Campbell.
Vandalia R. R.—Wm. Hodgdon, by S. C. Matthews.

Meeting convened at 10:30 a. m.

16 (8) *Rate on Bar Iron, C. L., Louisville and New Albany to East St. Louis.*

This subject was last considered at meeting May 11th, Proceedings No. B-31 and laid over.

At meeting today subject was deferred for investigation by the Chairman.

17 (12) *Scrap Iron, Carloads, Evansville to Cincinnati.*

This subject was last considered at meeting May 11th, proceedings No. B-31 and laid over.

At meeting today subject was laid over for conference with the Chicago & Ohio River Committee.

18 (9) *Rate on Farm Wagons, C. L., Louisville to East Louis for Beyond.*

This subject considered at meeting May 11th, proceedings No. B-31 and laid over, with the understanding that A. G. F. A., Southern Ry. make investigation.

At meeting today A. G. F. A., Southern Ry. announced that he did not have time to make investigation, but would take the question up with the view to advance the rate from Evansville.

In view of the above, subject was again laid over.

19 (13) *Rate on Fire Brick, C. L., Louisville to Evansville.*

This subject considered at meeting May 11th, proceedings No. B-31 and laid over with the understanding G. F. A., L. H. & St. L. Ry. would investigate as to whether he could advance rate, Louisville to Evansville.

At meeting today G. F. A., L. H. & St. L. stated that he did not see how they could advance the rate from Louisville in view of the rate in effect from East St. Louis to Evansville, a much greater distance, but would take the subject up with the East St. Lous-Evansville Lines and advise his conclusions to the Chairman.

20. *Minimum Weights on Light and Bulky Freight to Texas Points.*

This subject brought up by letter from a member, calling attention to rule No. 26, in Southwestern Tariff Committee's Classification, Exceptions No. 1-R, Supplement No. 10, effective March 20th, 1905, regarding the use of two cars on light and bulky freight, when one car cannot be furnished to accommodate the minimum weight, provided the minimum weight is observed on the entire shipment, etc.

After discussion the subject was tabled.

21. *Division of Rates Between Cincinnati and Louisville and Arkansas Points via East St. Louis.*

This subject brought up by letter from B. & O. S. W. R. R., calling attention to action taken at meeting Jan. 23rd, proceedings No. 1, and June 26th, proceedings No. 6, and raising the question as to what basis of divisions should govern in dividing through rates to Ft. Smith, Ark., if shipments move via M. K. & T. R. R., etc.

After discussion line represented individually announced that they will demand their locals to East St. Louis on Ft. Smith traffic, except in connection with the St. Louis Southwestern and St. Louis, Iron Mountain & Southern Roads, via which routes the percentage division of 30 per cent of the Little Rock rate will be accepted by lines east of East St. Louis.

The Chairman was also instructed to take the subject up with F. T. M., St. L. & S. F. R. R., referring to previous correspondence and ask him if he is not now willing to authorize the application of differential rates on business from Cincinnati and Louisville to all his local points, in which event, we will be willing to accept 30 per cent of the Little Rock rates uniformly to common as well as local points.

22. *Division of Rates from Louisville, Etc., to Indian and Oklahoma Territory.*

This subject considered at Joint Conference with Indian and Oklahoma Territory Committee on May 17th, at which time no understanding was arrived at.

After discussion at meeting today lines represented individually announced, that effective June 1st, they will not accept less than their full local rates from Cincinnati, Cincinnati Points, Louisville and Louisville Points, (under the jurisdiction of this Committee) to East St. Lous on traffic destined to Indian and Oklahoma Territory and that the Chairman be instructed to so notify Southwestern Lines, through Mr. Geo. W. Cale, Chairman.

Note—Members of this Committee to be furnished with a copy of the notice by Circular Letter.

23. (15) *Special Committee Appointed to Consider and Recommend Changes in List of Commodities, Etc., Published in Joint Freight Tariff.*

As provided for at meeting 11th, proceedings No. B-31, the Sub-Committees made their reports, and after due consideration of the subjects, it was deemed advisable to have conference with the Chicago & Ohio River Committee, and the Chairman was instructed to correspond with Secretrry, Chicago & Ohio River Committee, with the view of arranging for a conference at the earliest possible date and notify the members by Circular Letter.

There being no further business, on motion, meeting adjourned.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 96;" as follows:

PROCEEDINGS NO. B-33.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Meeting of the Freight Committee, Held in Chicago & Ohio River Committee Rooms.

Chicago, Ill., June 2nd, 1905.

Representation:

L. & E. P. Co.—
P. C. C. & St. L. Ry.—S. C. Matthews, F. E. Sawyer.
Southern Ry.—R. A. Campbell.

Vandalia R. R.—H. R. Griswold.
Meeting convened 12:30 p. m.

24. *Rules Governing Shipments of Packing House Products and Fresh Meats.*

This subject last considered at meeting May 25th, 1904, proceedings B-26. The subject was also taken up with Chairman C. F. A. and Secretary C. & O. R. Committee with the view of having same list and rules made applicable by the C. F. A., C. & O. R. Committee and St. L.-C.-L. Freight Committee. On March 22nd, 1905, the proposition was referred to a Special Committee, Messrs. Rainer, Fulton and Fraser, under following resolution:

"Resolved, That this subject be refered to a Committee, consisting of Messrs. Paul P. Rainer, R. M. Fraser and C. E. Fulton, for the purpose of drafting uniform rules to govern the handling of shipments of the traffic in question, said rules to be in harmony with the rules of the Central Freight Association."

Attention being called to report of the Special Committee, also to C. & O. R. Committee Circular Letter No. 383, May 29th, 1905, which were given consideration and it was individually announced by lines represented that effective June 19th, their rules governing shipments of Packing House Products and Fresh Meats, between East St. Louis-Cincinnati-Louisville, etc., would be as per Chicago & Ohio River Committee Circular Letter No. 383 and Chairman was instructed to print same in the Committee Tariffs.

25. *Tobacco, Unmanufactured, Tobacco Siftings and Tobacco Stems.*

At meeting today it was individually announced by lines represented that effective June 19th, their rate on Unmanufactured Tobacco and Tobacco Siftings, in hhds. any quantity, would be 14 cents per 100 pounds and on Tobacco Stems, pressed in bales, C. L., minimum weight 24,000 pounds, would be 11 cents per 100 pounds, between East St. Louis, Cincinnati

and Louisville and Chairman was instruced to make necessary changes in the Committee Tariffs.

26. *Making Change in form of this Committee's Tariffs.*

At meeting Cincinnati, May 19th, it was suggested that when the Committee Tariffs are re-issued, the rates be shown in Four (4) Columns, i. e., two eastbound and two westbound.

After consideration today the Chairman was instructed to make the change suggested.

27. *Rate on Live Stock Between Louisville and Evansville.*

This subject brought up by letter from a member, suggested that the Commodity Rates carried in Tariffs I. C. C. No. 9 and A-9, be eliminated and it was announced by lines represented that effective June 19th, rates on Live Stock between Louisville, Evansville and Cincinnati would be restored to Official Classification basis.

28. *Including Evansville-Louisville and Evansville-Cincinnati Traffic in Tonnage Statements Issued by this Committee.*

It was suggested that the Chairman include in his monthly report of tonnage the traffic between Evansville-Louisville and Evansville-Cincinnati.

After discussion the Chairman was instructed to take the matter up with members, asking if they will furnish him the necessary billing to make reports as suggested.

If all lines agree to furnish the billing, Chairman to begin issuing statement as early as practicable. If, however, all lines do not agree to furnish the necessary information, the matter is to be held in abeyance for consideration at next meeting.

29. (*18*) *Rate on Farm Wagons, C. L., Louisville to East St. Louis for Beyond.*

This subject was submitted by Circular Letters B-176 and B-178, was brought up again and considered

at meeting May 19th, proceedings B-32, and referred to A. G. F. A., Southern Ry. for further investigation.

At meeting today A. G. F. A., Southern Ry. withdrew his announcement made in letter April 26th, file C-25-4, therefore no action necessary.

30. (*19*) *Fire Brick, Louisville to Evansville.*

This subject considered at meeting May 19th, proceedings No. B-32 and left in hands of GFA., L. H. & St. L. Ry. for further investigation.

At meeting today Chairman read letter May 23rd, 1905, file I-9604, from GFA., L. H. & St. L. Ry., to the effect that he had subject up with G. F. A., L. & N. R. R. and would advise conclusions soon as possible.

In view of the above no action necessary at present time.

Note.—Chairman instructed to issue Circular Letter to members giving the information when definite advice is receive from G. F. A. L. H. & St. L. Ry.

31. *Canned Goods, C. L., Louisville to East St. Louis.*

This subject brought up by letter from a member, which was submitted to the Committee by Circular Letter No. B-182.

After discussion at meeting today the Chairman was instructed to take the subject up with G. F. A. Ill. Cent. R. R. calling his attention to the serious results which are likely to follow and ask if they cannot see their way clear to advance their rate from Owensboro to East St. Louis or St. Louis to the Classification basis.

32. *Rate on Whiskey in Wood, L. C. L., Between Louisville and Evansville.*

This subject submitted to members by Circular Letter No. B-186.

At meeting today Chairman was instructed to advise all members disposition made of the proposition.

33. *Rates and Divisions on Cotton Seed Products, Arkansas Points to Cincinnati and Louisvlle via East St. Louis.*

Attention was called to Mo. Pac. Tariff No. I. S. 12593 and Division Sheet No. 21 in connection therewith, showing divisions allowed lines east of East St. Louis, contrary to action taken at meeting of the Committee Nov. 25th, proceedings No. B-24, 1903, etc., and after discussion subject was referred to a meeting of the initial lines at St. Louis with Mr. Fraser as Chairman, to take this matter up and adjust it finally.

There being no further business, meeting adjourned until June 30th, 10:30 a. m., at French Lick, Ind.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 97;" as follows:

PROCEEDINGS NO. B-34.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Proceedings of a Special Meeting of the Freight Committee.

St. Louis, Mo., June 8th, 1905.

Representation:

B. & O. S. W. R. R.—Edw. Hart, Jr.
C. & A. Ry.—
C. P. & St. L. Ry.—
C. C. & St. L. Ry.—E. L. Roederer.
Ill. Cent. R. R.—F. H. Law.
L. H. & St. L. Ry.—W. C. Lindsay.
Southern Ry.—C. D. Morris
Vandalia R. R.—C. B. Sudborough.

Meeting convened 2:30 p. m.

Pursuant to call issued by Chairman, in accordance with proceedings, No. B-33, of meeting June 2nd, subject No. B-33, lines interested in rates and divisions on Cotton Seed Products from Arkansas Points, etc., to Cincinnati and Louisville, via East St. Louis, met

in this office today and after discussion and full consideration of the subject, it was

Recommended, That each line notify the Mo. Pacific and St. Louis Southwestern Railroads that they will demand east of East St. Louis on Cotton Seed Products, from Arkansas Points (except Texarkana) to Louisville, Ky., Cincinnati and Ivorydale, Ohio, 40 per cent of the current through rate from point of shipment, subject to minimum of 8 cents per 100 lbs. on Oil, Residuum, Foots, Settlings, Tank Bottoms and Soap Stock, and request the cancellation of any Division Sheet issued on any other basis.

It is understood that lines east of East St. Louis will not accept, on this traffic, a sub-division of the proportion accruing to lines north of Cairo, based on 40 per cent of the through rates, plus an arbitrary of 2 cents.

Each line will also notify the Missouri Pacific of intention to demand on Cotton Seed Products, all kinds, from points in Indian and Oklahoma Territory and in Louisiana, to Cincinnati, Ivorydale and Louisville, their full local or proportional rates east of East St. Louis.

Note.—Advices as above to be transmitted through Mr. Fraser.

R. M. Fraser, Chairman.

Adjourned."

Meeting convened 10:30 a. m.

35 (16) *Rate on Bar Iron, L. C. L., Louisville and New Albany to East St. Louis.*

This subject last considered at meeting May 19th, proceedings No. B-32 and laid over for investigation.

At meeting today objection was raised by one of the directly interested lines to an advance in the rates from Terre Haute and Vincennes unless a like advance was made from the Chicago District, Springfield, etc., and after discussion subject was tabled.

36. (28) *Including Evansville-Louisville and Cincinnati Traffic in Tonnage Statements.*

This subject brought up at meeting, Chicago, June 2nd, and Chairman instructed to take the subject up with the various lines with the view of securing copies of billing, etc., necessary to make reports.

At meeting today correspondence on the subject was read, to the effect that all lines could not furnish billing and subject was tabled.

27. (29) *Rate on Farm Wagons, C. L., Louisville to East St. Louis for Beyond.*

This subject considered at meeting June 2nd, proceedings B-33 and withdrawn; was brought up again by letter from a member, requesting that it be redocketed for further consideration.

The representative of the line asking for a redocket stated that as he knew nothing about the proposition he was unable to say what the object was in bringing subject up and requested that it be continued on the docket until next meeting.

38. (6) *Rate on Scrap Iron, Carloads.*

This subject last considered by this Committee as shown in Proceedings No. B-30, Jan. 25th, 1905.

At Joint Conference with the C. & O. R. Committee, Chicago, June 2, 1905, it was decided that matter be made subject of joint conference meeting between East St. Louis Committee, C. & O. R. Committee and Central Freight Association lines for general check in lining up all rates.

In line with above, Chairman C. F. A. issued call No. 269, dated June 30th, for Joint Conference to be held at French Lick Springs, July 7th. Mr. C. E. Fulton was elected Chairman of the Joint Conference on the subject of Scrap Iron rates generally and will issue report showing the action taken.

39. (30) *Rate on Fire Brick, C. L., Louisville to Evansville.*

This subject last considered at meeting June 2nd, proceedings No. B-33. At meeting today additional correspondence from G. F. A., L. H. & St. L. Ry. to the effect that the rates from E. St. Louis to Evansville be made $1.35 and rate Louisville to Evansville $1 20, was read, assurance being given that the L. & N. R. R. would establish from East St. Louis to Evansville the rate named.

After discussion, lines represented individually an-

nounced their intention of establishing rate of $1.20 per ton on Fire Brick, C. L. minimum 20 net ton, Louisville to Evansville, with the understanding that rate from East St. Louis to Evansville is made $1.35 per net ton minimum weight 20 net ton, effective date of rate to be August 1st.

40. (31) *Canned Goods, C. L., Louisville to East St. Louis.*

This subject considered at meeting June 2nd, proceedings B-33, and Chairman instructed to take subject up with G. F. A., I. C. R. R. with view to having their rate from Owensboro advanced.

At meeting today Chairman read correspondence with G. F. A., I. C. R. R., and was instructed to continue correspondence with G. F. A. I. C. R. R. and to correspondence with Chairman of the Evansville Committee, with the view of having the rates restored to East St. Louis from Owensboro to 15 cts., and from Evansville to 12 cts. per 100 lbs.

In the meantime it being understood that no authorized rates will be published from Louisville to East St. Louis.

41. *Proportional Rate on Grain, E. St. Louis to Cincinnati.*

This subject referred to members by Circular Letter No. B-192, June 14th and decided not to make effective as shown by Circular Letter No. B-193, June 30th; brought up again by letter from a member, which was read and after discussion was tabled.

42. (33) *Rates and Divisions on Cotton Seed Products, Arkansas Points to Cincinnati and Louisville, via East St. Louis.*

At meeting in Chicago, June 2nd, proceedings No. 33, this subject referred to a meeting of initial lines from East St. Louis for consideration and final adjustment.

As shown in proceedings No. B-34, the Committee met and adopted recommendation of notice to be sent by

each line, through the Chairman, to the Mo. Pac. and St. L. S. W. Roads of non-concurrence in their tariffs, etc.

At meeting today Chairman stated that not having received letter from all lines, he had not sent the notices to the Mo. Pac. and St. L. S. W. and subject therefore on docket for consideration.

The C. & A. and L. H. & St. L. being the parties who had not filed a notice as provided for, G. F. A., L. H. & St. L. Ry. stated that their position has always been that they would not prepare rates on Cotton Seed Products, but would require full local rates and he has so notified the Mo. Pac. and St. Louis & Southwestern Roads.

In view of the above statement the Chairman was instructed to send to the Mo. Pac and St. L. S. W. Railroads such letters as he has without further delay.

43. (10) *Rates on Burlap and Gunny Bags, East St. Louis vs. New Orleans and Memphis to Cincinnati, Louisville, Etc.*

This subject last considered at meeting May 11th, proceedings No. B-31 and Chairman instructed to take subject up with Chairman Washburn of the Southeastern Mississippi Valley Association.

At meeting today Chairman read recent correspondence and subject was ordered continued on the docket until next meeting, by which time it was expected definite advice would be received from Chairman Washburn showing disposition made.

44. *Prepayment of Freight Charges on Shipments of Range Horses.*

This subject brought up by correspondence from Inspection Department calling attention to some roads billing shipments of Range Horses on which prepayment was not required, as provided for in C. F. A. Info. No. 5926.

Lines represented individually announced that they would give notice to their agents in accordance with C. F. A. Info. No. 5926, as follows:

"Roads in C. F. A. Territory individually advise that taking effect June 26th, 1906, shipments of Western Range Horses, in C. L., will not be accepted by them unless the freight charges thereon are fully prepaid.

45. *Rates on Melons.*

This subject was last considered at meeting June 20th, 1904, proceedings No. B-27. At meeting today Chairman called attention to changes made by Western Roads in through rates and that C. F. A. Information 5244 had been superseded by C. F. A. Information 5967 (St. L. E. F. Com. Special Notice No. 1602, July 3, 1905.)

With the view of giving members an opportunity to take such action as they deemed necessary to equalize rates via East St. Louis vs. Cairo, Thebes, etc., Chairman was instructed to submit subject to members by Circular Letter.

See Circular Letter No. B-196.

46. *Rate on Lumber Between New Albany, Jeffersonville and Evansville.*

This subject brought up by letter from the Evansville Traffic Bureau, stating that a rate of 8 cents per 100 lbs. was in effect on lumber C. L., New Albany to Evansville, whereas this Committee's Tariff names rate of 7 cents.

Chairman stated he had taken subject up with lines mentioned who requested that Tariff be amended showing that the rate of 7 cents between Evansville and New Albany and Jeffersonville, Ind., is not applicable via the Southern Ry. and the Chairman was instructed to correct the tariff as requested.

On motion, meeting adjourned.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 99;" as follows:

PROCEEDINGS NO. B-36.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Procedings of a Meeting of the Freight Committee.

Chicago, Ill., Sept. 29th, 1905.

Representation:

B. & O. S. W. R. R.—A. Fries, Edw. Hart, Jr., E. B. Tullis.
C. & A. Ry.—
C. P. & St. L. Ry.—
C. H. & D. Ry.—E. J. Hutchinson.
C. C. C. & St. L. Ry.—C. J. Brister, O. A. Rhine.
Ill. Cent. R. R.—W R. Bascom.
L. H. & St. L. Ry.—L. J. Irwin.
L. & E. P. Co.—
Southern Ry.—R. A. Campbell.
P. C. C. & St. L. Ry.—S. C. Matthews, S. E. Mullings.
Vandalia R. R.—H. R. Griswold, C. B. Sudborough.

Meeting convened 10:30 a. m.

47 (35). *Minimum Carload Weight on Bar Iron, Louisville and New Albany vs. Terre Haute and Vincennes to East St. Louis.*

Chairman called attention to minutes of meeting French Lick, Ind., when this subject last considered and stated that as instructed he had taken the subject up with the Chairman of the Vincennes and Terre Haute Committees with the view of their making the Carload Minimum 40,000 lbs., and received replies (which were read) to the effect that it was deemed inadvisable to advance the Minimum C. L. weight from 30,000 lbs. to 40,000 lbs., same as carried in this Committee's Tariffs, etc., and after consideration the matter was left to the individual roads to decide as to the minimum weight they will apply and subject tabled.

48 (37) *Rate on Wagons, C. L., Louisville to East St. Louis for Beyond.*

This subject last considered at meeting July 7th, proceedings No. B-35, brought up again by request from a member and after discussion the subject was tabled.

49 (38) *Rate on Scrap Iron, Carloads.*

As shown in Proceedings No. B-35, July 7th, this subject referred to Joint Conference.

At meeting today action taken at Joint Conference, July 7th, was read also action taken at conference meeting of Chicago, East St. Louis and Peoria Lines at Chicago, Sept. 7th, at which time it was understood that the Chicago-East St. Louis Lines would have a meeting in the near future with the view of restoring the rate from Chicago.

At meeting today Chairman C. F. A. stated there would be a meeting of the Chicago-East St. Louis Lines next week and the subject was therefore continued on the docket, the Chairman to ascertain what action is taken by the Chicago-East St. Louis Lines and submit the information at next meeting.

50 (40) *Canned Goods, C. L., Louisville to East St. Louis.*

This subject last considered at meeting July 7th, proceedings No. B-35.

At meeting today Chairman read subsequent correspondence on the subject and after discussion was continued on the docket on request of a member, to enable him to make investigation.

51. *Proportional Rates on Grain and Grain Products, East St. Louis to Cincinnati, Louisville, Etc.*

This subject brought up by the Chairman calling attention to action taken at meeting Sept. 5th of Eastbound Freight Committee on above subject at which time rates to Mitchell and North Vernon, Ind., were made 8 cents same as in effect to Louisville and Cincinnati, etc.

It was stated by a member, that there would be a meeting of the Louisville-St. Louis Lines next week to consider the rate question and it was suggested that nothing could be done with the subject until after that meeting, and subject therefore laid over until next meeting.

52. (43) *Rates on Burlap and Gunny Bags, East St. Louis vs. New Orleans and Memphis to Cincinnati, Louisville, Etc.*

This subject was last considered at meeting July 7th, proceedings No. B-35, and continued on the docket.

At meeting today Chairman read subsequent correspondence with Chairman Washburn of the Southeastern Mississippi Valley Ass'n and was instructed to continue the subject on the docket until next meeting.

53. *Trunks, Nested, L. C. L., Cincinnati and Louisville to E. St. Louis.*

This subject brought up by letter from a member, which was submitted to members by Circular Letter No. B-199, but owing to the various views expressed, subject placed on docket for further consideration.

At meeting today proposition was made to establish a Commodity Rate on Trunks, L. C. L., nested, Cincinnati to East St. Louis, 40 cents per 100 lbs., which the lines individually decided not to make effective and subject tabled.

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Oct. 5, 1905.

ERRATUM.

Please correct proceedings No. B-36, dated Chicago, Sept. 29th, Subject No. 55, to read as follows:

55. *Rate on Stoves, Carloads.*

This subject submitted to members by Circular Letter No. B-211 and at suggestion of a member held in abeyance pending meeting of interested lines through Toledo, Detroit, etc.

At meeting today it was stated that at meeting of interested lines when this subject was considered it was decided that all Special Rates on Stoves, C. L., from and to all points in C. F. A. territory be restored to Official Class'n. basis effective Oct. 16th, 1905, the current rate from Detroit to Chicago and from Toledo to E. St. Louis, via the T. St. L. & W. and Wabash Railroads to be ignored by all other companies.

As the rate from Cincinnati to E. St. Louis is now on Official Class'n. basis, 15 cents per 100 lbs., no change is necessary to put Cincinnati shippers in line with those at Toledo and Detroit, and the subject was tabled.

R. M. Fraser, Chairman.

54. *Rate on Crushed Stone or Granite, Quartz and Chatts, C. L. E. St. Louis to Cincinnati and Louisville.*

This subject submitted to members by Circular Letter No. 204, and owing to the views expressed, the subject brought up again at meeting today and after discussion lines represented individually announced that effective on Legal Notice, they would make rate of $1.50 per net ton on Crushed Stone, all kinds, including quartz, granite and chatts, C. L. minimum weight marked capacity of car and Chairman was instructed to amend Joint Freight Tariff ICC. B-44 accordingly.

Note.—The proportional rate carried in Joint Pro. Freight Tariff ICC. B-45 on Chatts to be eliminated, effective on Legal Notice.

55. *Rates on Stoves, Carloads.*

This subject submitted to members by Circular Letter No. B-211 and at suggestion of member held in

3 6 5

abeyance pending meeting of interested lines through Toledo, Detroit, etc.

At meeting today it was stated that at meeting of interested lines when this subject was considered the T. St. L. & W. and Wabash decided to carry 15 cents rate from Toledo and Detroit to Chicago, therefore no action necessary by this Committee and subject tabled.

56. *Rate on Linseed Oil, Carloads.*

Chairman stated this subject placed on docket for consideration account of Special Oil Tariff No. 5 of Chicago & Ohio River Committee, effective Aug. 2nd, 1905.

After discussion, the subject was tabled.

57. *Minimum Carload Weights on Gas House Coke.*

This subject brought up by letter Sept. 20th, file 12577 from Chairman, Central Freight Ass'n, which was read and as no action deemed necessary the subject was tabled.

Election of Executive Committe.

The term for which the Executive Committee was elected in May 1904, having expired it was

Moved, That Messrs. R. A. Campbell, Walter Nichols and Wm. Hodgdon be and are hereby elected an Executive Committee for the ensuing year, who shall hold office until their successors are elected as provided for in the Articles of Organization.

59. *Proportional Rates on Lumber and Shingles from East St. Louis When Originating at North Pacific Coast Points.*

The above proposition submitted to members by Circular Letters B-206 and B-212.

At meeting today replies received to the Circular Letters were read and after discussion, lines represented individually instructed the Chairman to publish proportional rates on Lumber and Shingles, when

originating at North Pacific Coast Points, 8½ cents East St. Louis to Louisville and 7½ cents to Cincinnati, to equalize the combination via Chicago.

60. *Traffic Under the Jurisdiction of This Committee.*

Above question brought up by a member and after discussion a motion to the effect that Article B, Section One (1) of Articles of Organization be amended to include Louisiana, west of the Mississippi River

As to the division of rates on traffic from Louisiana west of the Mississippi River, the Chairman to issue Circular Letter to the members calling their attention thereto and call a meeting in St. Louis to make a check of the divisions of rates, etc.

Chairman to arrange with the St. Louis resident members for the date of meeting.

In connection with the above a Committee composed of Messrs. A. Fries, C. J. Brister and S. C. Matthews was appointed to prepare and submit a proposition as to division of rates to be agreed upon on traffic from Southern, Southwestern and Pacific Coast, etc., which is to be submitted by the Chairman to all members for their views.

There being no further business, on motion, meeting adjourned.

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 100;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Oct. 28th, 1905.
File B-378.

CIRCULAR LETTER NO. B-219.

To the Freight Committee.

Gentlemen:—

In accordance with action at meeting, Chicago,

Sept. 29th, Proceedings No. B-36, Item No. 60, representatives of B. & O. S. W., C. C. C. & St. L., Ill. Cent. L. H. & St. L. Southern and Vandalia Railroads met in this office yesterday to confer regarding divisions on traffic from Louisiana, west of the Mississippi River, and their report and recommendation is as follows:

Whereas, The basis of divisions on traffic from points in Louisiana, west of the Mississippi River, to Louisville and Cincinnati, suggested by Southwestern Roads, i. e., to allow lines east of East St. Louis, only their percentage proportion of the New Orleans rates, is not remunerative and does not comprehend a reasonable division of the through rate:

Recommended, That the following minimum specific proportions of through rates will be required, viz.:

	Louisville.	Cincinnati.
Sugar, (C. L.)	6½	7½
(L. C. L.)	11	12
Molasses, (C. L.)	7½	8½
(L. C. L.)	15	16
Rice, (C. L.)	7	8
(L. C. L.)	12	13
Canned Goods, Oysters & Shrimp, (C. L.)	6½	7½
Jambalaya Relish, (C. L.)	22.6	28.2
(L. C. L.)	23.3	28.2
Peppers in brine, (C. L.)	10	11
(L. C. L.)	15	16

Specific proportions east of East St. Louis on other Commodities are to be fixed from time to time as the necessity therefor develops. The adoption of the above is predicated on the adoption and maintenance on the part of the Cairo, Gale or Thebes Lines of specifics from Cairo, Gale or Thebes, not less than 2c per 100 lbs. above the specifics from E. St. Louis. The specifics thus established from Cairo, Gale or Thebes are not to be prorated via E. St. Louis.

Note.—It is understood that the Southwestern Lines are to reissue or amend their Tariffs and division sheets accordingly and the specifics are not to be published as proportional rates from either East St. Louis-Cairo Gale or Thebes.

Please favor me with your approval or specific objections as to the report of the Sub-Committee.

Result will be communicated and further action arranged.

Respectfully,
R. M. Fraser, Chairman."

CIRCULAR LETTER NO. B-217.

To the Freight Committee.

Gentlemen:—Referring to Circular Letters No. B-214-B-216 and other correspondence regarding proportional rates on grain, East St. Louis to Cincinnati, Louisville, etc., as now published in Amendment No. 6 to Joint Proportional Tariff ICC. B-45.

I am in receipt of letter from G. F. A. L. H. & St. L. Ry., as follows:

"Dear Sir:—Referring to Amendment No. 6 to your Joint Proportional Tariff ICC. No. B-45, naming rate 6 cents on grain originating beyond St. Louis. My understanding of the 6 cent rate is that it is to apply on grain originating beyond St. Louis and reshipped at St. Louis and that your Tariff should so read. It is not my understanding that the 6 cent rate is to affect the rates from points say in Illinois, where through rates and divisions are established. The rate from Peoria to New Albany and Jeffersonville is 7 cents

and to Louisville 7½ cents. The local rate from Peoria to E. St. Louis is 3 cents. I do not understand that the line from E. St. Louis to Louisville on a direct shipment from Peoria, would require 6 cents, but would accept 4½ cents. There are a great many points in Illinois where through rates and divisions are in effect to Louisville and on direct shipments from these points to Louisville the present through rates and divisions will continue in effect.

Will you please take up with the interested lines the question of amending your tariff accordingly."

Please favor me with your instructions on proposition to reissue amendment No. 6 to Joint Proportional Tariff I.C.C. No. B-45 making the item "Grain," (originating beyond) C. L. (see Note 2)—6—6, "read as follows:

"Grain originating beyond St. Louis and reshipped at St. Louis, C. L. (See Note 2) - - - 6"

An immediate reply is requested.

Respectfully,

R. M. Fraser, Chairman."

CIRCULAR LETTER NO. B-216.

Rates on Grain.

To the Freight Committee.

Gentlemen: I give below copy of telegram received at noon today from G. F. A., L. H. & St. L. Ry.

"Referring to Circular Letter B-214, Oct. 4th, giving notice of advance in Grain Rates Oct. 23rd. On account

position taken by Southern Ry. at conference here yesterday no change will be made in present rate on Grain until otherwise advised."

In view of the notice quoted above, I shall defer making any change in the rate of 8 cts. per 100 lbs. on Grain, now published in Amendment No. 4, effective Sept. 12th, to Joint Freight Tariff I. C. C. No. B-44.

As announced in Circular Letter No. B-214, on authority of three roads interested, Amendment No. 4 to Proportional Tariff I. C. C. No. B-45 has been issued cancelling the Grain Rate, 4 cts per 100 lbs., effective Oct. 23rd.

Awaiting instructions from members of the Committee, I am,

Yours respectfully,
R. M. Fraser, Chairman."

To the Freight Committee.
Gentlemen:

Rates on Grain.

Announcement has been received that effective October 23rd, the rate on Grain, in carloads, from East St. Louis proper, or from beyond, via the L. H. & St. L. Ry. and Illinois Central Railroad, to Louisville and via the Southern Ry. to Louisville, Jeffersonville and New Albany, will be 6 cts. per 100 lbs.

Please advise immediately what rates you desire published, effective Oct. 23rd, for account of your Company from East St. Louis to Louisville, Ky., Jeffersonville and New Albany, Ind., also to Cincinnati, Ohio, Newport and Covington, Ky.

In the absence of instruction from you to the contrary, the rate of 8 cts per 100 lbs now published in Amendment No. 4 to I. C. C. No. B-44, will remain in effect except via the Roads authorizing otherwise.

In view of the above announcement, Joint Proportional Tariff I. C. C. No. B-45 will be amended effective Oct. 23rd, cancelling Proportional rate of 4 cts. per 100 lbs. on Grain, E. St. Louis to Louisville, and New Albany.

Please favor me with specific instructions and oblige,

Yours respectfully,

R. M. Fraser, Chairman."

File B-491.

CIRCULAR LETTER NO. B-212.

Proportional Rate on Lumber and Shingles, C. L., from Pacific Coast Points, East St. Louis to Cincinnati and Louisville.

To the Freight Committee.

Gentlemen: Referring to Circular Letters B-206 and B-210 on same subject. I am in receipt of letter 16th inst. from a member, as follows:

"Referring to your Circular Letter B-206 of Aug. 21st, proposal for the establishment of rate on Lumber and shingles, carloads, E. St. Louis to Cincinnati, Jeffersonville, New Albany and Louisville, on business originating at Pacific Coast Points, to equalize the existing combinations via Chicago.

Although the roads interested individually decided not to make effective the proposition referred to above, we are still of the opinion that rate necessary to equalize the combination via Chicago should be provided for in the Committee issue.

Since this proposition was originally submitted the rate from Chicago to Cincinnati, Jeffersonville and New Albany has been reduced from 11 cts. to 10 cts. per 100 lbs., making necessary a rate from East St. Louis to the destinations enumerated above of 7½c, which would of necessity have to be applied to Louisville, Ky.

We ask that you again place this matter before the members of the St. Louis-Cincinnati-Louisville Freight Committee, calling their attention to the fact that while C. F. A. Info. 2265 authorizing equalization via E. St. Louis, Peoria or Chicago of through rate based on any one of these gateways is correct in principle, it is not

in reality authority for equalizing the through rate made on Chicago via E. St. Louis to the destinations before mentioned, as the St. Louis-Cincinati-Louisville Freight Committee traffic is not under the jurisdiction of the Central Freight Association.

In this connection I should also like to call your attention to the fact that a combination cannot be legally protected via any gateway other than that upon which the through rate is based without tariff is published to cover, and this phase of the subject should be given consideration in reviewing the proposition before us."

Please favor me with your views on proposition to amend Joint Proportional Tariff I. C. C. B-45, naming rate 7½ cts per 100 lbs. on Lumber and Shingles C. L., originating at Pacific Coast Points, minimum weight as per Official Classification from East St. Louis to Jeffersonville, New Albany, Louisville and Cincinnati.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

Rate on Stoves, C. L. Minimum Weight 24,000 Lbs. to East St. Louis.

To the Freight Committee:

Gentlemen: I am in receipt of letter Sept. 9th from Chairman, Cincinnati Freight Committee, as follows:

"At a meeting of this Committee, held Sept. 8th, the above outlined subject was considered and in view of

information from Chairman Tucker to the effect that it is impossble to get reduced rate on stoves from Detroit to Chicago cancelled at this time, the following recommendation was adopted individually by the lines interested:

"Recommended, That the Chairman be instructed to advise Chairman Fraser, of the St. Louis-Cincinnati-Louisville Freight Committee, that the lines, members of this Committee, are in favor of establishing a rate of 14 cts. per 100 lbs. on Stoves, carloads, minimum weight 24,000 lbs. from Cincinnati to East St. Louis, Ill."

Please favor me with your views on propostion to amend Joint Freight Tariff I. C. C. No. B-44 naming rate of 14 cts per 100 lbs. on Stoves, Carloads, minimum weight 24,000 lbs., Cincinnati, Louisville, etc., to East St. Louis.

Prompt reply requested.

Respectfully,
R. M. Fraser, Chairman."

CIRCULAR LETTER NO. B-208.

Proportional Rate on Fertilizer, C. L., from Cincinnati to East St. Louis.

To the Freight Committee.

Gentlemen:—I am in receipt of a letter from a member, as follows:

"The fertilizer plants located on our line in Cincinnati District have been endeavoring to establish a trade at points in Missouri on the C. & A., Wabash, M. K. & T. and other lines operating from St. Louis, but have found that it is not possible for them to compete with the plants located at St. Louis and Chicago. We understand that from Chicago there are through rates in effect to a large number of Missouri Points which are lower than combination on East St. Louis and further that even if based on the St. Louis combination, the Chicago rates would be lower than those at present in effect from Cincinnati for the reason that the present rate from Chicago to East St. Louis is 9 cents as compared with the full 6th class rate of 12 cents from Cincinnati.

We propose, therefore, the establishment of proportional rate of 10 cents per 100 lbs. on Fertilizer in carloads from Cincinnati to East St. Louis to apply only on shipments when destined to points west of the Mississippi River, which is the same rate as in effect at present in the opposite direction.

Will you please submit this propositon for views of the other interested lines."

Please favor me with your views on proopsition to amend Joint Proportional Tariff ICC. No. B-45, naming rate 10 cents per 100 lbs. on Fertilizer, C. L., minimum weight as per Official Class'n. to apply only on shipments when destined to points west of the Mississippi River, Cincinnati to East St. Louis.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

File No. B-494.

CIRCULAR LETTER NO. B-207.

Rate on Cotton Batting, C. L., Cincinnati and Louisville to East St. Louis.

To the Freight Committee.

Gentlemen:—I am in receipt of letters from a member as follows:

"Referring to Amendment No. 1 to ICC. B-44, cancelling 30 cent rate on cotton batting, Cincinnati to East St. Louis. As you are aware, we have a large plant located on our tracks at Lockland, who have been using the 30 cent rate for years, and made contracts on basis of the old rate, and we were not aware that there was any intention of cancelling same. We believe that at the rate of 30 cents, minimum weight 7000 lbs., this is good traffic and we would respectfully request that you arrange to reinstate the old rate of 30 cents effective on legal notice.

I would be glad to hear from you by return mail."

"Please refer to letter from my office dated Aug. 18th, relative to restoration of rate of 30 cents per 100 lbs. on Cotton batting, Cincinnati to East St. Louis.

At the time we checked over Commodity rates between Cincinnati and East St. Louis and Cincinnati and Chicago, we were not aware that there was any movement of cotton batting, between the points mentioned. We find, however, that there is regular traffic from Cincinnati to East St. Louis and Chicago, and the 30 cent rate is being used almost daily.

Under all the circumstances, I think none of the interested Lines can object to the restoration of the 30 cent rate.

I wish you would be kind enough to take the necessary steps to have the 30 cent rate re-instated at the earliest date possible."

Please favor me with your views on proposition to amend Joint Tariff ICC. B-44, naming rate 30 cents per 100 lbs. on Cotton Batting, C. L., minimum weight 7000 lbs. from Cincinnati and Louisville to E. St. Louis.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

File B-491.

CIRCULAR LETTER NO. B-206.

Proportional Rate on Lumber and Shingles, C. L., from Pacific Coast Points, East St. Louis to Cincinnati and Louisville.

To the Freight Committee.

Gentlemen:—I am in receipt of letter from a member as follows:

"As you are perhaps aware the L. H. & St. L. have issued proportional tariff on lumber and shingles ex. Pacific Coast, East St. Louis to Louisville, carrying rate of 8½ cents per 100 lbs. This is equalization of the Chicago Combination which is authorized by Central Freight Ass'n. information and is applicable to Cincinnati and Jeffersonville, as well as Louisville, and I would sugest that rate in question be published in Committee proportional tariff."

The tariff referred to above is L. H. & St. L. Ry No. 506, ICC. No. 318, issued Aug. 4th, effective Aug.

10th, 1905, applying on lumber and Shingles, C. L., from East St. Louis, on traffic originating at Pacific Coast Points and billed through to Louisville or points beyond, to Louisville, Ky., 8½ cents per 100 lbs.

Please favor me with your views on proposition to amend Joint Proportional Tariff ICC. No. B-45, naming rate 8½ cents per 100 lbs. on Lumber and Shingles, C. L., originating at Pacific Coast Points, minimum weight as per Official Class'n. from East St. Louis to Cincinnati and Louisville.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

CIRCULAR LETTER NO. B-204.

Rate on Stone or Granite Crushed, C. L., East St. Louis to Cincinnati and Louisville.

To the Freight Committee.

Gentlemen:—I am in receipt of letter from a member as follows:

"Heretofore rates on crushed granite, crushed stone, chatts, etc., have been carried on the same basis, but the rate on chatts from East St. Louis to Cincinnati and Louisville was recently reduced from $1.75 to $1.35 per ton on representation that it was used in the construction of side-walks, roads and streets, as a substitute for Ohio River sand and gravel.

"We have reliable information that chatts, which consists principally of crushed quartz, is rarely, if ever, used instead of sand or gravel, but generally instead of crushed granite, it is, therefore, a substitute for crushed granite rather than for sand or gravel, and as such should be carried at the same rate; in fact crushed granite can no longer compete with chatts at Cincinnati and Louisville on the present relative rate adjustment in favor of chatts.

"We, therefore, propose establishment of proportional rate of $1.35 per net ton on stone and granite, crushed, carloads, minimum weight 80,000 lbs. unless marked capacity of car is less, in which case the minimum is to be the marked capacity of car, from East St. Louis to Cincinnati and Louisville, and shall be glad if you will submit the proposition to other interested roads for their views, advising."

Please favor me with your views on proposition to amend Joint Tariff ICC. No. B-44, naming rate $1.35 per net ton on Stone or Granite crushed, C. L., mini-

mum weight 80,000 lbs., unless marked capacity of car is less, in which case the minimum is to be marked capacity of car, from East St. Louis to Cincinnati and Louisville.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

File No. B-490.

CIRCULAR LETTER NO. B-203.

Proportional Rate on Blue Vitriol (Sulphate of Copper), C. L., East St. Louis to Cincinnati and Louisville.

To the Freight Committee.

Gentlemen:—I am in receipt of letter from a member, as follows:

"We have had considerable trouble recently in the handling of shipments of blue vitriol, or copper residue, from East St. Louis to Louisville, originating at points west.

This has been brought about by Inspectors setting up billing on basis of 6th class rate, 12 cents per 100 lbs. applying on copper residue to 5th class rate 15 cts. per 100 lbs., applying on copper sulphate. I find after careful investigation that copper residue and blue vitriol, or sulphate of copper, is practically the same commodity and I believe it would be proper, and particularly in view of the same rates being applied by western lines on both Commodities, to publish commodity rate on Blue Vitriol, or Sulphate of Copper, carloads, East St. Louis to Louisville 12 cents per 100 lbs. Will

you kindly submit this by Circular Letter to interested lines and advise me decision as promptly as possible?"

The present rates are on Official Class'n. basis as follows:

Copper Residue, when consignor's valuation is not expressed or when expressed exceeding one hundred (100) Dollars per net ton, Carloads, 5th class.

Copper Residue, valuation expressed by consignor not exceeding one hundred (100) dollars per net ton, Carloads, 6th class.

Vitriol, blue (Sulphate of Copper), Carloads, 5th class.

Please favor me with your views on proposition to amend Joint Proportional Tariff ICC. No. B-45, naming rate 12 cents per 100 lbs. on Blue Vitriol (Sulphate of Copper) valuation expressed by consignor not exceeding $100.00 per net ton, C. L., minimum weight as per Official Class'n. from E. St. Louis to Cincinnati and Louisville, when from west of Mississippi River.

Prompt reply requested.

Respectfully,
R. M. Fraser, Chairman."

File B-423.

CIRCULAR LETTER NO. B-202.

Proportional Rate on Chatts, C. L., E. St. Louis to Cincinnati and Louisville.

To the Freight Committee.

Gentlemen:—I am in receipt of letter from a member, as follows:

"Please submit to the St. Louis-Cincinnati-Louisville Lines application for proportional rate of $1.35 per net ton on chatts, carloads, minimum 80,000 lbs., unless marked capacity of car is less, in which case the minimum is to be the marked capacity of the car from East St. Louis to Cincinnati, when from west of the Mississippi River.

I think all of the St. Louis initial lines understand that chatts are a refuse or off-fall from the Missouri mines, and are used as a substitute for sand and gravel in the construction of sidewalks and roads or streets. If the rate of $1.35 be obtained the Missouri people can put in the chatts at Cincinnati in competition with sand from the Ohio River in street construction, but unless that rate is made from East St. Louis, they will be unable to do so. The rate suggested is a proportional one, and, therefore, there will not be a heavy St. Louis terminal to be deducted at this end. We formerly had in effect rate of $1.35 per ton on sand from East St. Louis, which was advanced on account of the heavy terminal expense at St. Louis, which it was necessary to absorb on shipments originating on western lines within the switching limits of St. Louis."

Please favor me with your views on proposition to amend Joint Proportional Tariff I. C. No. B-45, naming rate of $1.35 per net ton on Chatts, C. L., minimum weight 80,000 lbs., unless marked capacity of the car is less, in which case the minimum is to be the marked capacity of the car, from East St. Louis to Cincinnati and Louisville, when from west of the Mississippi River.

Prompt reply requested.

Respectfully,

Empty Barrels Between Evansville and Louisville.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member as follows:

"Current issue of Joint Tariff between Evansville and Louisville, New Albany and Jeffersonville, carries rate on empty oil or liquor barrels, any quantity, 12 cts. per barrel. This rate I will figure higher on carload quan-

tity than the authorized Official Class'n. basis, 5th class, minimum weight 12,000 lbs. in 36-foot cars, and I would ask that tariff be corrected to apply Commodity rate of 12 cts. per barrel on shipments in less than carload, the Official Class'n. basis to apply on carloads.

Kindly take steps to arrange correction as soon as possible."

Please favor me with your views on proposition to amend Joint Freight Tariff, ICC. No. 10 to read Barrels, Oil or Liquor, empty LCL 12 cts. per barrel, via Rail and 10 cts. per barrel via Boat, between Evansville and Louisville and Louisville Points.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

CIRCULAR LETTER NO. B-199.

Rate on Trunks, Nested, L. C. L., Cincinnati & Louisville to E. St. Louis.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member, as follows:

"In connection with the present revision of the Commodity rates between East St. Louis and Cincinnati and Louisville action was taken abrogating the commodity rate of 40 cts. per 100 lbs. on trunks, nested, L. C. L., between East St. Louis and Cincinnati and Louisville, which Commodity rate has been in effect for a number of years past. By abrogating the Commodity rate it restores class'n. rating of 1½ times first class thus advancing the rate on these shipments 50 per cent.

Since the advanced rate has been made effective several complaints have been made to us by Trunk manufacturers here, they stating that if this rating is to be continued in effect it will seriously curtail their shipments to St. Louis and points west of the Miss. River. Their competitors at points west of the Miss. River are the manufacturers located at St. Louis and a difference of 60 cts. per 100 lbs. in freight rate from Cincinnati as compared with rate from St. Louis is more than they can overcome.

We beg therefore to suggest the reinstatement of commodity rate of 40 cts. per 100 lbs. to apply at least on westbound shipments and would ask that you kindly submit this proposition for views of others interested.

In this connection would call your attention to the fact that the Chicago & Ohio River Committee still carry commodity rate of 40 cts. per 100 lbs. from Chicago to Ohio River points when for beyond on trunks, nested, L. C. L."

Please favor me with your views on proposition to amend Joint Freight Tariff, ICC. No. B-44, naming rate of 40 cts. per 100 lbs. on Trunks, nested, L. C. L., from Cincinnati and Louisville to East St. Louis.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman.

Rate on Melons.

To the Freight Committee.

Gentlemen: As instructed at meeting 7th, proceedings No. B-35, page 3, subject No. 45, your attention is called to Mo. Pac.-St. L., I. M. & S. Ry. Joint Freight Tariff, Mo. Pac. I. S.—12266—ICC. No. 7875, also pocket edition No. 38-A, effective July 5th, 1905, and St. L. & S. F. R. R. Joint Through Freight Tariff No. 1250-A, ICC. No. 4629, effective July 5th, 1905, naming through rates from points in Missouri and Arkansas to Cincinnati, Ohio-Covington and Louisville, Ky., Jeffersonville and New Albany, Ind., 23.2 cts. per 100 lbs., C. L. minimum 25,000 lbs.

The Western Roads rate is to Cairo, Gale and Thebes, 7.2 cts. and to E. St. Louis 9.2 cts. per 100 lbs.

The through rates are based on rate 7.2 cts. to Cairo, Gale and Thebes, plus the 5th class rate, 16 cts. per 100 lbs., and in order to equalize via East St. Louis lines east will have to accept 14 cts. per 100 lbs.

In connection with the above your attention is called to CFA. Info. No. 5967, (St. L. E. B. Frt. Com., Special Notice No. 1602), which names rates and divisions to all CFA. points on the above basis.

This for your information.

Respectfully,

R. M. Fraser, Chairman."

Proportional Rates on Grain from East St. Louis to Cincinnati.

To the Freight Committee.

Gentlemen:—I am in receipt of letter from a member as follows:

"We find the current proportional rate on Grain from Chicago to Cincinnati, when from points beyond Chicago to be 5½ cents per 100 lbs., see C. & O. R. Committee Tariff, Grain and Grain Products Tariff

No. 7. Same rate is also current from Peoria to Cincinnati, see Peoria and Pekin Committee Rate Sheet No. A-8.

As the general rule is to apply the same rate from East St. Louis to Cincinnati as current from Chicago or Peoria we would suggest the establishment of a proportional rate of 5½ cents per 100 lbs. East St. Louis to Cincinnati to apply on Grain, all kinds, when coming from points beyond.

Will you please place the suggestion before other East St. Louis Lines for their views and if proposition is concurred in arrange to take care of same by Amendment to the current proportional tariff of the St. Louis-Cincinnati-Louisville Freight Committee."

Please favor me with your views on proposition to amend Joint Proportional Freight Tariff, ICC. No. B-45, naming rate of 5½ cents per 100 lbs. on Grain, all kinds, C. L., when from beyond, East St. Louis to Cincinnati and Cincinnati Points.

Prompt reply requested.

Respectfully,
R. M. Fraser, Chairman."

CIRCULAR LETTER NO. B-189.

Rate on Mantels, Wood, Crated or Boxed, L. C., Cincinnati and Louisville to East St. Louis.

To the Freight Committee.

Gentlemen:—I am in receipt of letter from a member, as follows:

"As you are aware there is in effect, at present, commodity rate of 40 cents per 100 lbs. on Wood Mantels, crated or boxed, L. C. L., between E. St. Louis and Cincinnati points and between E. St. Louis and Louisville Points. Based on suggestion of the Special

Committee which reviewed commodity rates from E. St. Louis to Cincinnati, it was recommended at meeting of St. Louis-Cincinnati-Louisville Committee, held in Cincinnati on 19th ult., that this Commodity rate be withdrawn and class'n. basis applied. We expressed objections to this at the meeting on May 19th, but it was thought advisable to discontinue the Commodity Rate and hold to Class'n basis with the understanding that if it was found that the advance in Class'n basis would interfere with the present movement that application could then be made to have the commodity rate re-established.

We did not anticipate the action which was taken at meeting of May 19th so had no definite date on hand as to the necessity for continuing the present commodity rate but since that meeting the matter has been investigated and from the conditions developed it seems absolutely necessary that the rate in question be continued in effect. The competition which the manufacturers at Cincinnati must meet is that of manufacturers located at Chicago, Danville and Moline, Ill., from which points the rates to St. Louis are subject to the Ill. Railroad Commissioner Class'n. and by reference to this issue it will be noted that Wood Mantels, L. C. L., are subject to 2nd class rate as compared with Official Class'n. rating of 1½ times 1st class. Rate from Chicago to E. St. Louis, 2nd class is 38 cents per 100 lbs., and of course the manufacturers at Cincinnati cannot very well compete against this with rate of 60 cents per 100 lbs. We would therefore suggest the continuation of special rate of 40 cents per 100 lbs. to apply from Cincinnati and Louisville to East St. Louis, letting the Class'n basis govern eastbound.

Will you kindly submit the matter to interested lines soliciting prompt replies in order that the trade of the Cincinnati manufacturers at St. Louis may not be disturbed?"

Please favor me with prompt reply giving your views on proposition to make rate 40 cent per cwt. from Cincinnati-Louisville, etc., to East St. Louis, Official

Class'n. basis to apply from E. St. Louis (Eastbound.)

Respectfully,

R. M. Fraser, Chairman."

RATE ADJUSTMENT—Whiskey in Wood, Less Carloads, Between Louisville and Evansville.

In amendment No. 11 to their G. F. O. 662, the L. & N. publish rate of 11 cents hundred on Whiskey in wood, less carloads, between Louisville and Henderson, Ky. As a matter of principle, we have always taken the position that whatever rates are made between Henderson and Louisville must likewise apply between Louisville and Evansville. On this account, the Southern Railway has under consideration the making of rate 11 cents hundred on whiskey in wood, less carloads, between Louisville and Evansville. Please let me have views of other lines without delay and oblige."

Please favor me with your views on proposition to amend Joint Freight Tariff ICC. No. 9, naming rate on Whiskey in wood, L. C. L., 11 cents per 100 lbs. via Rail and 9 cents per 100 lbs. via Boat between Evansville, Ind., and Louisville, Ky., and Louisville Points.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

Canned Goods, C. L., Louisville to East St. Louis.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member, as follows:

"The Illinois Central, in their Tariff G-3605 carry rate of 14c per 100 on canned goods, C. L., from Owensboro, Ky., to St. Louis, Mo., equal to 12 cts. to East St. Louis, 2c beyond, while the classification basis which should apply is 15 cts. to East St. Louis or 17 cts. to St. Louis.

On this account the Southern Ry. has under consideration the adoption by its line of 12 cts. hundred on canned goods, C. L. Official Class'n. minimum, from Louisville to East St. Louis. Please obtain views of other lines and advise."

Please favor me with your views on proposition to amend Joint Freight Tariff I. C. C. B-42, naming rate on Canned Goods 12c per 100 lbs. C. L. minimum weight as per Official Class'n., Louisville to East St. Louis.

Prompt reply requested.

CIRCULAR LETTER NO. B-180.

To the Freight Committee.

Gentlemen: At meeting of this Committee in Chi-

cago 11th inst. the following recommendations were adopted:

Recommended, That the Chairman appoint Special Committees to check the Commodity List and Rates now published in Tariff I. C. C. No. B-42 and Amendment No. 3, in effect between East St. Louis, Louisville and Louisville Points, and East St. Louis, Cincinnati and Cincinnati Points, for the purpose of making recommendation as to any change in list of Commodities or Rates that can be made and report to the Chairman at the earliest possible date, in order that he may transmit the Special Committee's recommedation by Circular Letter to the General Committee prior to meeting to be called at the New Seelbach Hotel, Louisville, Ky., May 19th at 10:00 a. m. Said committee to consist of 6 westbound roads, three at Cincinnati, three at Louisville and four eastbound roads, representing Cincinnati, Louisville, etc., from St. Louis.

The Committees above referred to and other members to meet on the 19th inst. for joint consideration and final action on the Special Committee's reports and it was, further

Recommended, That where individual Tariffs are in effect which have not been sanctioned by this Committee that all roads publishing the same furnish said Special Committees with copies thereof.

The representatives of roads named below were appointed to act on said Special Committees:

At Cincinnati—B. & O. S. W. R. R.; C., C., C. & St. L. Ry.; P., C., C. & St. L. Ry.; S. T. McLaughlin, Chairman.

At Louisville—L. H. & St. L. Ry.; Southern Ry.; B. & O. S. W. R. R.; L. J. Irwin, Chairman.

At E. St. Louis—Southern Ry.; L. H. & St. L. Ry.; B. & O. S. W. R. R.; Vandalia R. R.; R. A. Campbell, Chairman.

According to the records in this office, there are in effect the Individual Tariffs named below and possibly others, of which we have not been advised.

Sand, all kinds—Mo. Pac. Tariff, No. 18-12332-C and Division Sheet No. 1, effective April 13th, 1905.

Missouri Pits to Louisville, Ky., $1.60 per net ton.

Missouri Pits to New Albany, Ind., $1.50 per net ton.

Via B. & O. S. W. R. R. and Southern Ry., only.

Bar Iron, Cast Iron Pipe, Etc.

Rate on Burlap Bags, C. L. and L. C. L., Between Evansville and Louisville, New Albany and Jeffersonville.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member, as follows:

"The L. & N. R. R. in Amendment No. 10 to their Tariff G. F. O. 662, effective April 5th, 1905, publish

on Burlap Bags, C. L. and L. C. L., the following rates from Louisville to Owensboro and Henderson, viz.: C. L. minimum 24,000 lbs., 10 cts., L. C. L. 15 cts.

On this account, the Southern Ry. has under consideration the adoption by its line of the same rates between Evansville and Louisville, New Albany and Jeffersonville. Based on this information, please let me have views of the other lines and advise promptly."

Please favor me with your views on proposition to amend Joint Freight Tariff I. C. C. No. 9, naming rate on Burlap Bags, 10 cts. per 100 lbs., C. L. minimum 24,000 lbs. and 15 cts. per 100 lbs. on L. C. L. via Rail, and 8 cts. per 100 lbs., C. L. and 13 cts. per 100 lbs., L. C. L. via Boat between Evansville, Ind., and Louisville, Ky., and Louisville Points.

Rates on White and Red Lead and Litharge.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member, as follows:

"The present rate on White Lead in Oil, C. L. from Cincinnati, Ohio, to Chicago, Ill., is twelve cents per cwt. Until recently this same rate has applied between Cincinnati and St. Louis but for some reason was withdrawn.

In view of the fact that the rate to Chicago still remains at twelve cents, in my opinion the 12-cent rate should be restored from Cincinnati, Ohio, to East St. Louis, and I would be glad if you would submit proposition to the other members of the St. Louis-Cincinnati-Louisville Freight Committee as to the restoration of said rate."

The rate as now published in tariff I. C. C. B-42 is in line with C. F. A. Info. No. 5715.

Please favor me with your views on proposition to amend Joint Freight Tariff I. C. C. No. B-42, naming rate of 12 cts. per 100 lbs. between East St. Louis-Cincinnati and Louisville on Lead, White or Red and Litharge in straight or mixed C. L. (valuation restricted to $125.00 per ton), minimum weight 40,000 lbs. This being the same as published by C. & O. R. Committee in Through Freight Tariff No. 48.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman."

CIRCULAR LETTER No. B-171.

Rates on Fire Brick, Louisville to Evansville.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member, as follows:

"The present rate on fire brick, carloads, East St. Louis to Evansville, is 5 cts. per 100 lbs., minimum weight 30,000 lbs. The distance from East St. Louis to Evansville is 165 miles. The present rate from Louisville is $1.75 per ton, minimum 40,000 lbs.

I understand the fire brick manufactured at East St. Louis is a higher grade of brick and higher priced brick than the fire brick manufactured at Louisville, and complaint is made of the difference in rate. I feel that we cannot consistently require a higher rate from Louisville to Evansville than is in effect from East St. Louis to Evansville. Will you, therefore, submit to the members of the Committee proposition to apply rate of 5 cts. per 100 lbs. Louisville to Evansville, minimum 30,000 lbs.?"

Please favor me with your views on proposition to amend Joint Freight Tariff I. C. C. No. 9, naming rate of 5c per 100 lbs. on Fire Brick, C. L., minimum weight 30,000 lbs., Louisville, Ky., to Evansville, Ind.

Prompt reply requested.

Respectfully,

R. M. Fraser, Chairman.

CIRCULAR LETTER NO. B-169.

To the Freight Committee.

Gentlemen: I am today in receipt of the following letter from A. G. F. A., Southern Ry.

"The Southern Ry. has under consideration the adoption by its line of the following rate, viz.: 10 cts. per 100 on car bolsters carload minimum per Official Class'n., from East St. Louis, Ill., to Jeffersonville, Ind., to expire with conclusion of order or about July 31st.

These bolsters are for Southern Ry. equipment now being built by the American Car & Foundry Co.

Please communicate this to the other lines for their information."

Respectfully,
R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 151;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Feb. 25, 1905.
File B-376.

CIRCULAR LETTER NO. B-168.

To the Freight Committee.

Gentlemen: I am today in receipt of the following letter from a member:

The Southern Ry. has under consideration the adoption by its line of the following rates, viz.: Sand, carload minimum weight 40,000 lbs., from Missouri Pits to New Albany, Ind., the same as in effect to Gas Belt Points, viz.: $1.50 per net ton, dividing 50 cts. to East St. Louis, $1.00 beyond, to Louisville, bridge toll higher.

Based on this information, please let me have views of the other lines."

The present authorized rate is from Missouri Pits to Cincinnati-Louisville-New Albany-Jeffersonville and other Committee points, $1.80 per net ton, divided: Missouri Pits to East St. Louis, 50 cts.; East St. Louis to Cincinnati, Louisville, New Albany, Jeffersonville, etc., $1.30 per net ton.

For correspondence regarding rates on Sand from Missouri Pits, see Circular Letters B-153, B-156, B-159, B-163 and B-167, also see proceedings No. B-30, Jan. 25th, 1905.

The rate in effect from Missouri Pits to Gas Belt Points is as stated above.

Please answer promptly giving your views on the above proposition.

Respectfully,

R. M. Fraser, Chairman."

Through Tariffs and Division Sheets to Be Published by Western Roads on Sand From Missouri Pits.

To the Freight Committee.

Gentlemen: Referring to action of meeting Jan. 25th, proceedings No. B-30 and Circular Letter No. B-163, Feb. 3rd, 1905, on above subject.

This is to advise that the St. Louis & San Francisco R. R. (Frisco System) Joint Through Tariff No. 162-D, I. C. C. No. 4351, effective Feb. 6th, 1905, names rate City and Pacific, Mo., to Cincinnati and Louisville, $1.80 on Sand, all kinds, C. L., minimum 40,000 lbs. Crystal per ton of 2,000 lbs. Division Sheet No. 1 to No. 162-D, effective Feb. 6th, 1905, provides for 50c per net ton to East St. Louis.

The Mo. Pac. Ry. Co. Joint Freight Tariff No. I. S.-12332-B, effective Jan. 2nd, 1905, I. C. C. 7296, names rate on White Sand, C. L., minimum 40,000 lbs., Pacific, Grays Summit and Silicia, Mo., to New Albany, Ind., $1.60 per ton of 2,000 lbs., and in amendment No. 3, effectve Feb. 6th, name rate to Cincinnati and Louisville, $1.80 per ton of 2.000 lbs. Division Sheet No. 1

to I-S-12332-B, effective Jan. 2nd, 1905, provides for rate 50c per net ton to East St. Louis.

The M., K. & T. advise in letter Feb. 6th, "We find no necessity for through tariffs and it is not our present intention to issue them."

This for your information in connection with action at meeting Jan. 25th and members should cancel their proportional tariffs effective not later than March 1st, 1905.

Respectfully,

R. M. Fraser, Chairman."

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Feb. 6, 1905.
File B-300.

CIRCULAR LETTER NO. B-164.

To the Freight Committee.

Gentlemen: I am in receipt of letter from a member, as follows:

"Dear Sir: In tariff I. C. C. B-42 a rate of 10 cts. per 100 lbs. between East St. Louis and Louisville, Jeffersonville and New Albany is provided to apply on iron articles, as follows:

"Iron, angle, band, bar, beams, boiler, forgings, hoop, nails in kegs or boxes, sheet, steel plates and wire, C. L., minimum weight 40,000 lbs."

The list of articles taking the 10 cents rate as mentioned above was furnished you, as we understand it, by one of the members of the Committee, the list not having been specifically reviewed by other members.

As we understand the situation the rate of ten cents per 100 lbs. was considered necessary in view of rates in effect from Chattanooga and by reference to Manufactured Iron Tariff, No. 12, effective Sept. 16th, 1904, issued by Q. & C. Route we note the special rate in effect from Chattanooga to East St. Louis applies only on iron as follows:

"Bar, band, boiler, plate and rod."

Other shapes of iron including nails being subject to a higher rating.

In our opinion 10 cent rate between Louisville and East St. Louis should be restricted to apply only on articles taking special commodity rate from Chattanooga, i. e., Bar, band, boiler, plate and rod iron, carload, other kinds of iron including nails to be restored to the basis now in effect between other C. F. A. points, i. e. 10 per cent above 6th class rates.

Will you kindly submit this proposition to others interested by Advice Letter and if favorable views are expressed please arrange for necessary amendment to tariff B-42 to cover."

Please favor me with your views as to whether Joint Freight Tariff I. C. C. B-42 shall be amended naming rate of 10 cts. per cwt. between E. St. Louis, Louisville, Jeffersonville and New Albany to apply only to Bar, Band, Boiler, Plate and Rod Iron, C. L., minimum 40,000 lbs.

The list of articles taking 10 cent rate as now published, was furnished as provided for at conference in-

Chicago, Dec. 10-12th, 1902, shown in proceedings issued by Mr. C. E. Fulton.

Respectfully,

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 156;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Feb. 2, 1905.
File B-376.

CIRCULAR LETTER NO. B-163.

Through Tariffs and Division Sheets to Be Published by Western Roads on Sand From Missouri Pits.

To the Freight Committee.

Gentlemen: Referring to action of meeting Jan. 25th, proceedings B-30 on Sand from Mo. Pits. For your information I give below copy of letter to Messrs. Groseclose, Lincoln and Voorhees, and attach copy of Circular Letter No. 283 of St. Louis Eastbound Freight Committee on the same subject:

"Dear Sir: At meeting of this Committee in Cincinnati, Jan. 25th, the subject of initial roads publishing Through Rates and Divisions on Sand from Mo. Pits to Cincinnati, Louisville and points under the jurisdiction of this Committee was under consideration and action taken as follows:

"Whereas, It is the sense of this Committee that in order to protect the present rate adjustment as between Missouri and Illinois Pits, it is necessary for Western Roads to publish through tariffs and division sheets and for Eastern Roads to cancel their proportional rates from East St. Louis to Louisville, Cincinnati, etc.

Resolved, That the Chairman so advise Western Roads, requesting them to publish through rates and divisions."

The rates referred to are those applying on Sand, C. L., minimum 40,000 lbs., from Missouri Pits; Crystal City, Klondike, Pacific and Silicia, Mo., $1.80 per net ton, divided, from pits to E. St. Louis 50 cts.; E. St. Louis to Cincinnati, Louisville, etc., $1.30 per ton.

In undertaking to accept a less rate on this through traffic than on local shipments, it was the understanding that Through Tariffs and Division Sheets would be published by initial roads and as the failure to enforce that rule and a continuance of the present manner of handling the traffic will undoubtedly result in rates being reduced from other points in C. F. A. territory, the above action is deemed necessary for the protection of all.

As the rates published on the several kinds of Sand in St. Louis-Cincinnati-Louisville Frt. Committee Joint Freight Tariff I. C. C. No. B-42 (copy attached), and future issues will undoubtedly be demanded from East St. Louis on and after March 1st, 1905, on all shipments not covered by Through Tariffs and Division Sheets, I trust that you will see proper to issue same effective not later than March 1st, 1905, and furnish me with a copy.

Please acknowledge receipt of this letter with your decision on the subject and oblige."

Yours respectfully,

On receipt of replies from Western Roads will advise by Circular Letter.

Respectfully,

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 157;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Feb. 1, 1905.
File B-323.

CIRCULAR LETTER NO. B-162.

To the Freight Committee.

Gentlemen:—I am today in receipt of the following letter from a member:

"I am in receipt of copy of supplement No. 7 to B. & O. S. W. Tariff ICC. 4032, effective Feb. 1st, 1905, naming rate of $1.25 per ton on Gas House Coke, carloads, Cincinnati to East St. Louis.

The rate carried in present issue of your tariff is $1.40, and in reply to my request to Mr. McLaughlin, regarding the rate named in his tariff he replies that same is in accordance with agreement made between the various Cincinnati Lines on Nov. 10th, 1904. Please submit to interested lines proposition to publish this rate in current issue of joint tariff from Cincinnati, Louisville, etc., to East St. Louis."

Kindly advise your views as to whether Joint Freight Tariffs ICC. B-42 and ICC. A-9, shall be amended naming rate of $1.25 per net ton on Gas House Coke, C. L., from Cincinnati and Louisville to East St. Louis and from Cincinnati to Evansville.

Present rate, $1.40 from Cincinnati and Louisville to East St. Louis and from Cincinnati to Evansville.

Respectfully,

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 158;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Jan. 27, 1905.
File B-313.

CIRCULAR LETTER NO. B-161.

To the Freight Committee.

Gentlemen:—The following letter from a member was submitted at meeting of the Committee 26th, and ordered transmitted by Circular Letter to the members.

"Dear Sir:—Will you please present for consideration of the Committee, the proposition to reduce the present rate of 10 cents per 100 lbs. on pig lead and Spelter from East St. Louis to Cincinnati 17½ cents per 100 lbs.

We have had considerable objection to this rate and applications for reduction, based upon the rates in effect upon like articles to Eastern Points, viz: New York 15½ cents, Philadelphia 13½ cents and Baltimore 12½ cents per 100 lbs. It is claimed that the maintenance of this rate of 10 cents to Cincinnati puts that point commercially out of line in the handling of pig lead and products manufactured therefrom."

Please favor me with your views on the proposition.

Respectfully,

R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 159;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

Office of the Chairman.

St. Louis, Mo., Jan. 19, 1905.
File B-313.

CIRCULAR LETTER NO. B-160.

To the Freight Committee.

Gentlemen:—I am today in receipt of the following telegram from a member:

"In view of rate of one eighty per gross ton in effect on Scrap Iron, Ohio River to Chicago, we recommend publication of same rate, Louisville and Cincinnati to East St. Louis. Please submit to members at once, requesting that their views be expressed by wire as immediate action is necessary."

Kindly advise me your views by wire as to whether Joint Freight Tariff ICC. B-40 shall be amended naming rate of $1.80 per gross ton on Scrap Iron, C. L., from Cincinnati and Louisville to East St. Louis.

Present rate $2.00 westbound and $1.70 eastbound as per Tariff ICC. B-No. 40.

Respectfully,
R. M. Fraser, Chairman."

Complainant offers in evidence "Complainant's Exhibit Fraser No. 160;" as follows:

ST. LOUIS-CINCINNATI-LOUISVILLE FREIGHT COMMITTEE.

File B-437.

CIRCULAR LETTER NO. B-158.

Application for Membership by Chicago & Alton Ry.

To the Freight Committee.

Gentlemen:—After correspondence with Mr. R. D. Yoakum, A. G. F. A., C. & A. Ry., on the above subject, I am in receipt of letter as follows:

"St. Louis, Mo., Jan. 6th, 1905.
File 10002.

"Dear Sir:—Beg to acknowledge receipt of yours of Dec. 27th, File B-437, enclosing copy of the Articles of Organization of this Committee.

This company is agreeable to each of the Articles enumerated in the copy which you sent me, and I will be glad to have you consider this as an application of membership in said Committee from the Chicago & Alton Ry. Co.

Yours truly,
(Signed) R. D. Yoakum, A. G. F. A."

Please advise promptly your vote on the proposition.

Unless negative votes are received on or before Thursday, 12th inst., I will understand that there is no

objection and will notify A. G. F. A. C. & A. Ry. accordingly.

Respectfully,
R. M. Fraser, Chairman."
